

1/12/90

11:40 am

Amaco

Balde Navejar -

down here for spill control program.

Pit is in active.

Was not covered up. - not filled in.

Benny Craft - Pumper man for Amaco.

"Before they ~~could~~ cover it up
then they will call us."

→ A screen was place over it - This
seems to be the standard in Texas
for now with open pits.

He will check on ground water samples
and will get back to us.
