Subject: AMOCO CONTAMINATION

----- Message Contents -----
AMOCO REMOVED THE OLD PIT THE WEEK OF JULY 26, 1991, AT THE REQUEST OF
THE CONTRACT GAUGER. THIS WAS BASED ON THE FACT THERE WAS NOT ANY
VISUAL EVIDENCE OF HYDROCARBON AT THE PIT.

WITH IN THE NEXT 12 MONTHS I REQUESTED TO THE GAUGER THAT HE CONTACT
HIS AMOCO SUPERVISOR AND ADVISE HIM THE PARK FELT THERE WAS A BETTER
WAY TO DISPOSE OF THE PRODUCED WATER THAN WITH THE SUMP THEY HAD BEEN
USING. AMOCO HAD BEEN HAVING PROBLEMS WITH THE SUMP BACKING UP FLUID
INTO THE CONTAINMENT WALL AREA. AMOCO ELECTED TO USE VACUMN TRUCKS TO
REMOVE PRODUCED WATER FROM THEIR TANKS ON A REGULAR AND REOCCURRING
BASIS. THIS WAS CONDUCTED VERBALLY AND THERE IS NOT ANYTHING WRITTEN
IN THE FILES.

PAUL
