Ref: South Sprint Facility
Padre Island National Seashore
Kleberg County, TX

Dear Mr. Eubanks

Enron Oil & Gas Company's environmental protection plans are progressing at South Sprint on Padre Island. Geraghty & Miller, Inc. Environmental Services completed a study for Enron Oil & Gas Company to devise short and long range plans, which are now being implemented.

This is to notify you of the plans and that Geraghty & Miller, Inc. personnel will be working at the South Sprint Facility in the near future. A condensed version of the itinerary is attached. Inclement weather could change the time-table.

If you have any questions, please call me anytime.

Sincerely

Tom Bradley,
Production Superintendent
Operations
