

A Heidemij company

November 14, 1997

Mr. Tom Bradley
Enron Oil & Gas Company
539 North Carancahua, Suite 800
Corpus Christi, Texas 78401

Dear Mr. Bradley:

This letter confirms the scope of work under which you have retained Geraghty & Miller, Inc. to conduct a field investigation and monitoring program for Enron's Padre Island, South Sprint Facility.

DESCRIPTION OF WORK

The field investigation includes the following:

- Measure fluid levels (including PSH thickness) in available site wells,
- Collect groundwater samples from available wells, and
- Conduct a fluid pumping event at selected wells.

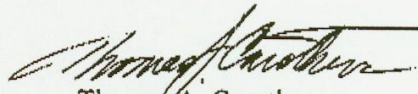

SCHEDULE

The field investigation will be tentatively initiated on Thursday, November 20, 1997, pending weather and field conditions. We will confirm the work schedule on Wednesday, November 19, 1997.

Please feel free to contact us if you have any questions regarding the scope of work or tentative start-up schedule.

Very truly yours,

GERAGHTY & MILLER, INC.

Thomas A. Carothers
Principal Hydrogeologist
