Establishment of monument authorized.....Act of June 18, 1934	176

An Act To provide for the creation of the Pioneer National Monument in the State of Kentucky, and for other purposes, approved June 18, 1934 (48 Stat. 982)

Pioneer National Monument, Ky.

Preamble.

Whereas no provision has been made to preserve some of the great shrines of pioneer history that played their part in the drama of the American Revolution, both in resistance to the efforts of the British and their Indian allies to wipe out the American colonists west of the Alleghenies and thus close in on the colonists along the Atlantic seaboard and in waging a counteroffensive that resulted in the conquest and acquisition of the Old Northwest; and

Whereas four of these shrines in Kentucky represent in continuity a counterpart of the American Revolution east of the Alleghenies, to wit: (1) Boonesborough, where the first fort "in the West" was erected, the first highway to "the West, the Wilderness Road", terminated, the first colonization was effected, and the first legislature met; (2) Boones Station, whence Daniel Boone, as lieutenant colonel of the Fayette County Militia, rushed troops to the assistance of various other besieged stations as well as joined in the retaliatory campaigns under General George Rogers Clark into the Old Northwest, and where he buried his son and nephew who fell at the Battle of Blue Licks; (3) Bryans Station, where the women of the fort sallied forth under the rifles of some six hundred Indians to procure water for the besieged pioneers on August 18, 1782, contributing in large measure to the successful defense of the fort; and (4) Blue Licks Battlefield, scene of the accredited "Last Battle of the Revolution", August 19, 1782, which aroused all of the western colonists to unitedly launch a devastating campaign into the Ohio country under the leadership of General George Rogers Clark, that effectually stopped further invasion of Kentucky by the British and Indians and was the forerunner of the final conquest of the entire Northwest Territory for the United States: Therefore

Designated lands to be set apart as, when title vested in United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That when title to the sites of Fort Boonesborough, Boones Station, Bryans Station, and Blue Licks Battlefield, in the State of Kentucky, comprising noncontiguous tracts to be united by a Memorial Highway, together with such historical structures and remains thereon, as may be designated by the Secretary of the Interior as necessary or desirable for national monument purposes and for the proper commemoration of the valor and sacrifices of the pioneers of "the West", shall have been vested in the United States,

said areas and improvements shall be designated and set apart by proclamation of the President for preservation as a national monument for the benefit and inspiration of the people, and shall be called the "Pioneer National Monument". (16 U.S.C. sec. 448.)

That the Secretary of the Interior be, and he is hereby, authorized to accept donations of land, interests in land and/or buildings, structures, and other property within the boundaries of said national monument as determined and fixed hereunder, and donations of funds for the purchase and/or maintanence thereof, the title and evidence of title to lands acquired to be satisfactory to the Secretary of the Interior: *Provided,* That he may acquire on behalf of the United States out of any donated funds, by purchase at prices deemed by him reasonable, or by condemnation under the provisions of the Act of August 1, 1888, such tracts of land within the said national monument as may be necessary for the completion thereof. An Act To provide for an appropriation of $50,000 with which to make a survey of the Old Indian Trail known as the "Natchez Trace", with a view of constructing a national road on this route to be known as the "Natchez Trace Parkway", approved May 21, 1934 (48 Stat. 791)

Natchez Trace Parkway.

Preamble.

Whereas the Natchez Trace was one of the most ancient and important Indian roads leading from the territory in the section of Tennessee about Nashville in a southwest course, crossing the Tennessee River at Colbert Shoals a few miles below Muscle Shoals, thence passing in a southwest course through the Chickasaw and Choctaw Indian lands in what is now Mississippi, in an almost direct course by Jackson, Mississippi, to Natchez; and

Whereas the Natchez Trace is located throughout almost its entire length on highlands between watersheds on the most suitable route over which to establish the national parkway through a section of the country greatly in need of such road facilities from a national standpoint to connect the North and East directly with the Natchez, New Orleans, and southwest section of the country; and

Whereas the Natchez Trace was made famous for the service it rendered in affording General Jackson a route over which much of his forces moved to take part in Jackson's famous victory over the British at New Orleans, and also by reason of the fact that General Jackson returned with his army over this Trace to Nashville after the Battle of New Orleans; and

Whereas the Natchez Trace is known as one of the Nation's most famous old roads, and has been marked by handsome boulders with suitable inscriptions by the Daughters of the American Revolution at great expense, these boulders being placed every few miles from one end of the Trace to the other; and

Whereas unusual interest is being manifested in the building of a national parkway by the Government, Natchez Trace organizations having been perfected in almost every county through which the Trace passes; and

Whereas the Government has recently adopted a policy and set up a division in the Department of the Interior, known as the "National Park Service" to engage in a national way in laying out parks, reservations, and building parkways: Therefore

Appropriation authorized for surveying.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That there is hereby authorized to be appropriated out of the Treasury of the United States, a sum not exceeding $50,000 to be used by the Department of the Interior through the National Park Service with which to make a survey of the Old Natchez Trace throughout its entire length leading from the section of Tennessee about Nashville to Natchez, Mississippi, the same to be known as the "Natchez Trace Parkway." The said survey shall locate the Natchez Trace as near as practicable in its original route. An estimate of cost of construction of an appropriate national parkway over this route, and such other data as will be valuable shall be obtained by said survey with the objective of determining matters concerning the construction of the Natchez Trace Parkway.

Cost of construction to be estimated.

Survey authorized with a view of constructing "The Oglethorpe National Trail and Parkway".....Act of June 16, 1938 192

An Act To authorize a survey of the old Indian trail and the highway known as "Oglethorpe Trail" with a view of constructing a national roadway on this route to be known as "The Oglethorpe National Trail and Parkway", approved June 16, 1938 (52 Stat. 752)

Oglethorpe National Trail and Parkway.

Preamble.

Whereas the ancient Indian trail, extending from Savannah, the scene of the English colonization of Georgia, northwestwardly along the route of the Savannah River in the direction of the city of Augusta, and thence in a northwesterly direction, furnished a trail along which passed the great Indian migrations and also furnished a means of communication between the Indian tribes traveling from the Middle West and North to the Southeast; and

Whereas General Oglethorpe, in establishing a thoroughfare from Savannah to Augusta (upon returning, in September 1739, from his famous treaty conference with the Creek Nation, which was held at Coweta), followed this ancient Indian trail—this thoroughfare having been used thereafter by the colonists of Georgia in establishing their trading posts and outposts along the banks of the Savannah River into the great heart of the southeastern territory of the United States; and

Whereas this thoroughfare from Savannah to Augusta was designated in 1780 as a British military road; and

Whereas for nearly three-quarters of a century this thoroughfare was used as a stage road, President George Washington having traveled this road during his southern tour in 1791 in going from Savannah to Augusta; and

Whereas many important and historic sites are located on or near this road, including (ascending from Savannah) Old Yamacraw; the Hermitage Plantation; New Yamacraw; the Indian Mound Irene (site of John Wesley's Mission); Mrs. Musgroves Cowpen; Joseph's Town; Mulberry Grove (Nathanael Greene's plantation and site of invention of the cotton gin by Eli Whitney); the town of Abercorn; Dacre's Tavern; New Ebenezer; Old Ebenezer (site of the Salzburger settlement in 1734); the Palachocolas river crossing; Mount Pleasant (site of the trading post and fort); Hudson's Ferry; Uchee Town; Brier Creek Battlefield (site of important Revolutionary War battle); Burton's Ferry; Telfare's Saw Mill; Telfare's Plantation; Stony Bluff (site of prehistoric Indian stone implement factory); Gorham's Ferry; Shell Bluff (site of deposits of gigantic fossilized oysters five inches wide by twenty-four inches long); and

Whereas not only is the area traversed rich in historic and prehistoric sites but it contains tremendous scenic value, passing through deep, junglelike river swamps which abound in game; over small blackwater creeks well stocked with bass, perch, and bream; across flat pine barren lands and rolling hills, and along commanding bluffs on the banks of the Savannah River; and in the springtime when dogwood, laurel, and magnolias are in bloom the area becomes a veritable garden; and

Whereas the entire Indian trail and the original thoroughfare from Savannah to Augusta lends itself particularly well to treatment as a national historic parkway (aside from its own significance it appears entirely feasible and desirable to link this proposed parkway to other national parkways, now under construction, by developing the Cherokee Indian trail from Augusta over the mountains to Tennessee); and

Whereas the cities and counties located in the area through which this roadway passes are interested in the building of this national parkway—numerous organizations, associations, and private citizens having already sponsored many projects to mark various of the historic sites along the roadway; and

Whereas the Government has recently adopted a policy and set up a division in the Department of the Interior known as the "National Park Service" to engage in a national way in laying out parks, reservations, and building parkways: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior is hereby authorized to use a sum not in excess of $10,000 of the regular roads and trails or parkway appropriations available to the National Park Service, with which to make a survey of the old Indian and Oglethorpe Trail throughout its entire length leading from the city of Savannah to the city of Augusta, Georgia, the same to be known as "The Oglethorpe National Trail and Parkway." The said survey shall locate the parkway as nearly as practicable in its original route. An estimate of cost of construction of an appropriate national parkway on this route, and such other data as would be valuable, shall be obtained by said survey, with the objective of determining matters concerning the construction of the parkway.

Use of funds authorized for survey of old Indian and Oglethorpe Trail.

WHEREAS I have investigated the organization of all executive and administrative agencies of the Government and have determined that certain regroupings, consolidations, transfers, and abolitions of executive agencies and functions thereof are necessary to accomplish the purposes of section 16;

NOW, THEREFORE, by virtue of the aforesaid authority, I do hereby order that:

U.S. GOVERNMENT PRINTING OFFICE
WASHINGTON : 1963

FOREWORD

This is the second printed supplement to the publication, *Laws Relating to the National Park Service*, which I compiled and which was printed by the Government Printing Office in 1933. The first printed supplement to that volume was compiled in 1944 by Attorney Thomas Alan Sullivan of the National Park Service.

This supplement contains the laws relating to the Service enacted by the Congress between May, 1944, and January 1, 1963. It includes the laws relating to the national monuments, military parks, battlefield sites, and other areas transferred in 1933 from War Department to National Park Service administration. It does not include the laws relating to the park areas administered by the National Capital Region of the National Park Service. Those laws are being compiled by the Office of the Solicitor, Department of the Interior, for publication in a separate volume.

Miss Louise Murray, my secretary, assisted me in compiling this supplement. She also prepared the general index which covers the 1933 volume and its two supplements.

Joint Resolution To establish a Commission to develop and execute plans for the celebration of the one hundred and fiftieth anniversary of the Battle of Lake Erie, and for other purposes, approved October 24, 1962 (76 Stat. 1244)

Whereas the one hundred and fiftieth anniversary of the renowned naval Battle of Lake Erie near Put-in-Bay, Ohio, will occur in September 1963;

Whereas the decisive victory of Commodore Oliver Hazard Perry on September 10, 1813, over the British naval forces in Lake Erie had profound results on the conclusion of the War of 1812 and the future of the United States as a nation;

Whereas this victory of the small squadron commanded by Commodore Perry marked the only time in the history of the world that an entire British squadron surrendered to an enemy;

Whereas Commodore Perry's report following this engagement, "We have met the enemy, and they are ours . . . two ships, two brigs, one schooner and one sloop", electrified the young Nation at that time and will ever be remembered in the annals of American history;

Whereas the War of 1812 on the land and sea areas of the United States and Canada introduced these two great English-speaking nations to a period of one hundred and fifty years of permanent peace and mutual respect along an unfortified three-thousand-mile common boundary;

Whereas this struggle resulted in memorializing the principle of international peace by arbitration and disarmament and lasting peace among nations;

Whereas the enduring results of this conflict have cemented more strongly the cultural and economic ties which exist between Canada and the United States as a demonstration of peace and good will in a world today fraught with unrest and fear: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) there is hereby established a commission to be known as the "Battle of Lake Erie Sesquicentennial Celebration Commission" (hereinafter referred to as the "Commission") which shall be composed of thirteen members as follows:

Battle of Lake Erie Sesquicentennial Celebration Commission. Establishment.

(3) One representative of the Department of the Interior who shall be designated by the Secretary of the Interior and who shall serve as executive officer of the Commission; and

(4) Four members to be appointed by the President of the United States.

(b) The President shall, at the time of appointment, designate one of the members appointed by him to serve

as Chairman. The members of the Commission shall receive no salary.

(c) Any vacancy in the Commission shall not affect its powers, but shall be filled in the same manner in which the original appointment was made.

SEC. 2. The functions of the Commission shall be to develop and to execute suitable plans for the celebration, in 1963, of the one hundred and fiftieth anniversary of the Battle of Lake Erie.

Compensation. 5 U.S.C. 1113; *Ante*, p. 843.

SEC. 3. The Commission may employ, without regard to the civil service laws or the Classification Act of 1949, such employees as may be necessary in carrying out its functions: *Provided, however*, That no employee whose position would be subject to the Classification Act of 1949, as amended, if said Act were applicable to such position, shall be paid a salary at a rate in excess of the rate payable under said Act for positions of equivalent difficulty or responsibility. Such rates of compensation may be adopted by the Commission as may be authorized by the Classification Act of 1949, as amended, as of the same date such rates are authorized for positions subject to said Act. The Commission shall make adequate provision for administrative review of any determination to dismiss any employee.

Acceptance of donations, etc.

SEC. 4. (a) The Commission is authorized to accept donations of money, property, or personal services; to cooperate with agencies of State and local governments, with patriotic and historical societies and with institutions of learning; and to call upon other Federal departments or agencies for their advice and assistance in carrying out the purposes of this joint resolution. The Commission, to such extent as it finds to be necessary, may procure supplies, services, and property and make contracts, and may exercise those powers that are necessary to enable it to carry out efficiently and in the public interest the purposes of this joint resolution: *Provided, however*, That all expenditures of the Commission shall be made from donated funds only.

Expenditures.

(b) Expenditures of the Commission shall be paid by the executive officer of the Commission, who shall keep complete records of such expenditures and who shall account for all funds received by the Commission. A report of the activities of the Commission, including an accounting of funds received and expended, shall be furnished by the Commission to the Congress within one year following the termination of the celebration as prescribed by this joint resolution. The Commission shall terminate upon submission of its report to the Congress.

Report to Congress.

Property or revenues, disposal.

(c) Any property acquired by the Commission remaining upon termination of the celebration may be used by the Secretary of the Interior for purposes of the national park system or may be disposed of as surplus prop-

erty. The net revenues, after payment of Commission expenses, derived from Commission activities, shall be deposited in the Treasury of the United States.

(d) Mail matter sent by the Commission as penalty mail or franked mail shall be accepted for mail subject to section 4156 of title 39, United States Code, as amended.

Whereas there are located within the city of Boston and vicinity a number of historic properties, buildings, sites, and objects of the Colonial and Revolutionary period of American history which, because of their historical significance or their architectural merit, are of great importance to the Nation; and

Whereas at this critical period, as well as at all periods in our national life, the inspiration afforded by such prime examples of the American historical heritage and their interpretation is in the public interest; and

Whereas it is proper and desirable that the United States of America should cooperate in a program looking to the preservation and public use of these historic properties that are intimately associated with American Colonial solidarity and the establishment of American independence; Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That a Commission is hereby created for the purpose of investigating the feasibility of establishing a coordinated program in which the Federal Government may cooperate with local and State governments and historical and patriotic societies for the preservation and appreciation by the public of the most important of the Colonial and Revolutionary properties in Boston and the general vicinity thereof which form outstanding examples of America's historical heritage.

Whereas the sacrifice of our people in that great ordeal was severe in all sections of the land; and

Whereas the far-reaching events of the Civil War established that the United States would remain permanently one nation; and

on behalf of the United States, to consider, ascertain, adjust, determine, and settle any claim against the United States for money only, accruing on and after January 1, 1945, on account of damage to or loss of property or on account of personal injury or death, where the total amount of the claim does not exceed $1,000, caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant for such damage, loss, injury, or death, in accordance with the law of the place where the act or omission occurred.

Finality of award.

(b) Subject to the provisions of part 3 of this title, any such award or determination shall be final and conclusive on all officers of the Government, except when procured by means of fraud, notwithstanding any other provision of law to the contrary.

Reservations.

The authority to acquire land, water, and interests therein within the park boundary fixed in section 1 of this Act but outside the area designated in the Act of October 10, 1949 (63 Stat. 733), is further subject to the right of retention by the owners thereof, including owners of interests in oil, gas, and mineral rights or royalties, and by their heirs, executors, administrators, successors, and assigns, at their election of the following:

(1) The reservation until October 9, 1967, of all oil, gas, and mineral rights or interests, including the

right to lease, explore for, produce, store, and remove oil, gas and other minerals from such lands;

(2) In the event that on or before said date, oil, gas, or other minerals are being produced in commercial quantities anywhere within the boundary fixed in section 1 of this Act but outside the area designated in the Act of October 10, 1949, the time of the reservation provided in subsection (1) above shall automatically extend for all owners within said boundary and outside of said area regardless of whether such production is from land in which such owners have an interest, for so long as oil, gas, or other minerals are produced in commercial quantities anywhere within said boundary and outside of said area. To exercise this reservation, the owners, their lessees, agents, employees, and assigns shall have such right of ingress to and egress from such land and water as may be necessary; and

(3) After the termination of the reserved rights of owners as set forth in subsections (1) and (2) of this section, a further reservation of the right to customary royalties, applying at the time of production, in any oil, gas, or other minerals which may be produced from such land and water at any time before January 1, 1985, should production ever be authorized by the Federal Government or its assigns. (16 U.S.C. § 410j.)

Restriction.

SEC. 3. Unless consented to by an owner retaining the reservation set forth in subsections (1) and (2) of section 2 of this Act, no action shall be taken by the Federal Government during the period of such reservation to purchase, acquire, or otherwise terminate or interfere with any lease or leases which may be applicable to said owner's land. (16 U.S.C. § 410k.)

Regulations.

SEC. 4. Any reservations retained under the provisions of subsections (1) and (2) of section 2 of this Act shall be exercised by the owners subject to reasonable rules and regulations which the Secretary may prescribe for the protection of the park, but which shall permit the reserved rights to be exercised so that the oil, gas, and minerals may be explored for, developed, extracted, and removed from the park area in accordance with sound conservation practices. All operations shall be carried on under such regulations as the Secretary may prescribe to protect the land and area for park purposes. (16 U.S.C. § 410l.)

Acquisition of fee simple title.

SEC. 5. In acquiring any of the land or water within the area described in the first section of this Act the Secretary of the Interior shall exercise reasonable diligence to ascertain whether owners elect to retain reservations in accordance with the provisions of section 2 of this Act. If, after the exercise of such reasonable dili-

gence, owners cannot be located, or do not appear in judicial proceedings to acquire the land and water, so that it may be ascertained whether they desire to retain reservations in accordance with the provisions hereof, the Secretary may acquire the fee simple title to their land free and clear of reservations as set forth in subsections (1), (2), and (3) of section 2 of this Act. (16 U.S.C. § 410m.)

Drainage.

SEC. 6. Unless the Secretary, after notice and opportunity for hearing, shall find that the same is seriously detrimental to the preservation and propagation of the flora or fauna of Everglades National Park, he shall permit such drainage through the natural waterways of the park and the construction, operation, and maintenance of artificial works for conducting water thereto as is required for the reclamation by the State of Florida or any political subdivision thereof or any drainage district organized under its laws of lands lying easterly of the eastern boundary of the park in township 54 south, ranges 31 and 32 east, township 55 south, ranges 32 and 33 east, and township 56 south, range 33 east. He shall grant said permission, however, only after a master plan for the drainage of said lands has been approved by the State of Florida and after finding that the approved plan has engineering feasibility and is so designed as to minimize disruptions of the natural state of the park.

Right-of-way.

Any right-of-way granted pursuant to this section shall be revocable upon breach of the conditions upon which it is granted, which conditions shall also be enforcible in any other appropriate manner, and the grantee shall be obligated to remove its improvements and to restore the land occupied by it to its previous condition in the event of such revocation. (16 U.S.C. § 410n.)

Land, etc., exchange.

SEC. 7. The Secretary of the Interior is authorized to transfer to the State of Florida by quitclaim deed the land, water, and interests therein, previously acquired by the United States of America for Everglades National Park and not included within such park by section 1 of this Act, such transfer to be in exchange for the conveyance by the State of Florida to the United States of all land, water, and interests therein, owned by the State within the boundary of the park as described in section 1 of this Act: *Provided*, That exclusion of any land, water, and interests therein from the park boundary pursuant to section 1 of this Act shall be dependent upon the contemporaneous conveyance by the State to the United States of all land, water, and interests therein, owned by the State within the park boundary described in section 1 of this Act, including land, water, and interests therein, heretofore conveyed to the State for transfer to the United States for inclusion in Everglades National Park. The effectuation of the

transfer provided for in this section shall be a condition precedent to the acquisition by the Secretary of any land, water, or interests therein held in private ownership within the boundaries set forth in section 1 of this Act and outside the area designated in the Act of October 10, 1949, except as such acquisition is by donation. (16 U.S.C. § 410o.)

Appropriation.

SEC. 8. There are hereby authorized to be appropriated such sums, but not more than $2,000,000 in all, as are required for the acquisition of land, water, and interests therein held in private ownership within the boundaries of Everglades National Park as fixed by section 1 of this Act and outside the area described in the Act of October 10, 1949. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, in order to acquire for Grand Canyon National Park certain private land strategically located inside the park on the south rim of Grand Canyon and to provide for the removal of surface structures thereon and the termination of mining activities in connection with such land which intrudes upon the rim of Grand Canyon and adversely affects the public enjoyment of the park, the Secretary of the Interior is authorized to accept on the terms hereinafter stated the conveyance of title to the Orphan Claim, a mining claim of approximately 20.64 acres patented to D. L. Hogan and C. J. Babbitt on March 23, 1906, patent numbered 43506: *Provided*, Said authority is conditioned upon the grantor releasing any extralateral rights it may have to follow under adjoining park lands any mineral discovery made on the aforesaid Orphan Claim. The grantor shall, within six months following the passage of this Act, execute to the United States deeds of conveyance of good and sufficient fee simple title to the said claim, subject to the following reservations and conditions: Grand Canyon National Park. Mining claim, acquisition. Conditions.

(a) All mineral rights on the said claim shall be reserved to the said grantor for a period of twenty-five years, but the exercise of said rights shall be limited to underground mining.

(b) Until the close of 1966 the grantor shall be permitted to maintain and operate the Grand Canyon Inn and related cottages and facilities and may reserve for said period the customary rights to use so much of the surface area of the claim as is necessary for mining operations.

(c) After 1966 and until the expiration of the mineral reservation the grantor shall have reserved to it the surface rights to only the following described tract of

approximately three acres which is necessary to operate the said mine:

Description.

Beginning at an iron stake known as corner numbered 2 of the Orphan Claim, mineral survey numbered 2004 in section 14, township 31 north, range 2 east, Gila and Salt River base and meridian; thence north 41 degrees 03 minutes east 500 feet; thence north 60 degrees 15 minutes west 300 feet; thence south 41 degrees 03 minutes west 500 feet to the south end center of said claim; thence south 60 degrees 15 minutes east 300 feet to place of beginning, including all buildings and improvements as per survey of April 21, 1905.

Structures.

(d) Any structures erected on the reserved portion of surface rights shall be no more than two stories in height and shall be so designed as to be appropriate to the region.

Rights of grantor.

(e) The grantor shall be permitted to maintain and operate the present aerial tramway for not to exceed two years from the date of the conveyance to the United States; and throughout the allowable period of its mining to maintain and operate the sixty-thousand-gallon water tank; the access road across the claim to the mine area, the portal area of the present adit, and such ventilators from the mine as may be required by mine safety laws.

(f) The grantor shall be permitted to haul ore from its mining operations to such mills as directed by the Atomic Energy Commision or otherwise, over roads of the Grand Canyon National Park upon payment of use charges therefor, as agreed between the parties but reasonably calculated to provide such additional cost of maintenance of said roads, if any, as may be occasioned by such operations.

Rights of grantor.

SEC. 2. (a) In exchange for the foregoing conveyance to the United States of the said Orphan Claim and the release by the owner thereof of any claims to pursue any extralateral rights to the ore body under park land, the grantor shall have the right for a period of twenty-five years to mine and remove on a royalty basis all uranium ore and such other metalliferous ore of commercial value as can be recovered through the shaft existing on the Orphan Claim and additional underground workings beyond the northeast boundary of said claim, along the dip of any ore body apexing within the said claim: *Provided*, Said mining and removal rights shall be limited to underground mining, which shall be conducted so as not to disturb in any manner the surface of park land or the canyon walls, except for ventilation as required in accordance with mine safety laws: *Provided further*, That nothing in this Act shall be construed to create any obligation on the Atomic Energy Commission for the purchase of uranium derived from ores removed from

beyond the vertical boundaries of the Orphan Claim: *Provided further*, That neither the enactment of this Act nor anything contained in it shall be construed to relieve any party from any liability which would or might otherwise exist for the removal of ore from beyond the boundaries of said Orphan Claim, if any such removal occurred prior to the enactment of this Act.

Royalty payments to U.S.

(b) The United States shall be paid a royalty for ore extracted from under Government lands pursuant to this section, in accordance with the following Uranium Percentage Royalty Schedule:

Mine value per dry ton	Royalty percentage of mine value per dry ton

$90.01 to $100.00	9½ per centum
$100.01 or more	10 per centum

"Mine value per dry ton."

"Mine value per dry ton" is hereby defined as the dollar value per dry ton of crude ores at the mine as paid for by the Atomic Energy Commission or other Government agency before allowance for transportation and development; however, if the Government at any time hereafter does not establish and pay for said ores on a fixed or scheduled dollar value per dry ton of crude ores at the mine, or said ores contain salable minerals, some or all, or which are disposed of to a custom treatment plant or smelter for treatment and sale, then mine value per dry ton shall be the gross value per dry ton of said crude ore as paid for by the Atomic Energy Commission or other Government authorized agency mill or other buyer, less any allowances or reimbursements for the following specific items: (1) transportation of ores, and (2) treatment or beneficiation of ores; which specific items shall in such event be deducted from the gross sales price received from the metal content of said ores by the seller before said percentage royalty is calculated and paid.

Whenever mineral or other products are recovered which are not included in determining mine value per dry ton as defined herein, there shall be paid for such minerals or other products a royalty of 5 per centum of the gross value of such products at the mine site.

Provided, That on all ore having a mine value per dry ton of less than $50, the royalty to be paid hereunder

shall not exceed 15 per centum of the grantor's net profit on such ore which shall be determined by the amount remaining from the total sales price of such ore after the payment of reasonable operating expenses, taxes, and cost depletion.

(c) When paid, the royalty shall be deposited to miscellaneous receipts of the Treasury in accordance with the provisions of title 31, United States Code, section 484.

An Act To provide for investigating the matter of the establishment of a national park in the old part of the city of Philadelphia, for the purpose of conserving the historical objects and buildings therein, approved August 9, 1946 (60 Stat. 972)

Philadelphia.

Whereas thousands of residents of the city of Philadelphia, comprising part of the Third Congressional District of Pennsylvania, have petitioned their representatives in the Congress of the United States upon the matters more fully hereinafter set forth; and

Whereas the petition of the residents of the city of Philadelphia calls attention to the existence of many shrines hallowed in American history, as well as several modern buildings owned by the Federal Government, in the area of the city of Philadelphia, beginning at the southeast corner of Sixth Street and Chestnut Street and proceeding southwardly to the northeast corner of Sixth Street and Walnut Street; thence proceeding eastwardly to the northwest corner of Fifth Street and Walnut Street; thence proceeding northwardly to a point on the west side of Fifth Street which would be made by extending the north line of Sansom Street to the east side of Fifth Street; thence proceeding eastwardly along the north line of the said Sansom Street to a point in the east side of Fourth Street which would be made by extending the north line of the said Sansom Street to the east side of the said Fourth Street; thence southwardly to the northeast corner of Harmony and Fourth Streets; thence eastwardly to the northwest corner of Harmony and Third Streets; thence northwardly to a point at which a line extended perpendicularly from the east side of

[1] See also pp. 190–194.

Third Street would meet the angle created by the lines forming the northeast corner of Third and Dock Streets; thence eastwardly along the northerly line of said Dock Street to the northeast corner of Dock, South American and Moravian Streets; thence eastwardly to the northwest corner of Moravian and Second Streets; thence northwardly to the southwest corner of Second and Chestnut Streets; thence westwardly to the southeast corner of Sixth and Chestnut Streets, to the place of beginning; and calls attention to the fact that much of the area above described is run down, some properties are demolished, and others are in such dilapidated condition as to constitute a serious fire hazard of such proportions as to endanger Independence Hall, Carpenters' Hall, the Old Custom House, and the First Bank of the United States, as well as other landmarks and shrines of patriotism, and that such unsightly condition is not conducive to a proper respect and reverence for those American ideals which are symbolized by those shrines; and recommends that the Federal Government establish a national park in the above vicinity and also in the area bounded by Fifth Street on the east, Race Street on the north, Sixth Street on the west, and Chestnut Street on the south, which will assure at once a beautiful setting for those shrines and maximum protection against fire or other disaster: and

Whereas during these troubled times it is desirable to augment the defense effort of our Nation not only with arms but with proper emphasis on spiritual values; and

Whereas an attractive and inspiring setting will create a stronger sense of reverence for American institutions, laws and orders, which had their beginnings, in large part, in this group of shrines in the formative years around 1776; and

Whereas it is proper, fitting, and desirable that the United States of America should properly enshrine these jewels of democracy, so that all who visit these hallowed places from the far corners of this glorious democracy and the four corners of the world may be stirred with a feeling of patriotic reverence: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a commission is hereby created for the purpose of investigating the matter of the establishment in the city of Philadelphia, in the Commonwealth of Pennsylvania, of a Federal area to be called Philadelphia National Shrines Park, or by some other appropriate name, to encompass within its area the buildings of historical significance in the old part of the city of Phil-

"Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.

"Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

"But, in a larger sense, we can not dedicate, we can not consecrate, we can not hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here; but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall

not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth."

Joint Resolution To change the name of Bedloe's Island in New York Harbor to Liberty Island, approved August 3, 1956 (70 Stat. 956)

Whereas the Statue of Liberty is to the world the symbol of the dreams and aspirations which have drawn so many millions of immigrants to America;

Whereas to all Americans the Statue of Liberty stands eternal as the symbol of the freedom which has been made a living reality in the United States for all sorts and conditions of mankind, united in allegiance to the Constitution of the United States and to the imperishable ideals of our free society;

Whereas the majestic meaning of the Statue of Liberty is to be made more brilliant by the establishment, at its foot, of The American Museum of Immigration as the gift of individual Americans to the American people for all future generations;

Whereas The American Museum of Immigration will tell for all time the story of the making of this great Nation of nations by the contributions of men and women who have been coming here since the earliest times from all over the world in search of liberty;

Whereas the Statue of Liberty stands on Federal land known as Bedloe's Island, which name today has no special significance and which is the latest of a series of other names by which such island has been known in the past; and

Whereas it is meet, fitting, and proper that the Statue of Liberty, with The American Museum of Immigration at its foot, be accorded a setting most appropriate for the great shrine of the American people: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Bedloe's Island, which is located in New York Harbor, shall hereafter be known as Liberty Island, and any law, regulation, document, or record of the United States in which such island is designated or referred to under the name Bedloe's Island shall be held to refer to such island under and by the name of Liberty Island.

Liberty Island, N.Y., formerly Bedloe's Island.

Report to Congress.

The Secretary shall report to the Congress on every exchange carried out under authority of this Act within thirty days from its consummation, and each such report shall include a statement of the fair market values of the properties involved and of any cash equalization payment made or received.

(2) The beneficial owner or owners, not being a corporation, of a freehold estate in improved property which property the Secretary acquires by condemnation, who held, on September 1, 1959, with respect to such property, an estate of the same nature and quality, may elect, as an alternative and not in addition to whatever right of election he or they might have under paragraph (1) of this subsection to retain the right of use and occupancy of the said property for noncommercial residential purposes (i) for a term limited by the nature and quality of his or their said estate, if his or their said estate is a life estate or an estate pur auter vie, or (ii) for a term ending at the death of such owner or owners, or at the death of the survivor of them, if his or their said estate is an estate of fee simple.

"The life tenant."

(3) Where such property is held by a natural person or persons for his or their own life or lives or for the life or lives of another or others (such person or persons being hereinafter called "the life tenant"), with remainder in another or others, any right of election provided for in paragraph (2) of this subsection shall be exercised by the life tenant, and any right of election provided for in paragraph (1) of this subsection shall be exercised by the concurrence of the life tenant and the remainderman or remaindermen.

(4) The beneficial owner or owners of a term of years in improved property which the Secretary acquires by condemnation may elect, as a condition to such acquisition, to retain the right of use and occupancy of the said property for noncommercial residential purposes for a term not to exceed the remainder of his or their said term of years, or a term of twenty-five years, whichever shall be the lesser. The owner or owners of the freehold estate or estates in such property may, subject to the right provided for in the preceding sentence, exercise such right or rights of election as remain to them under paragraphs (1) and (2) of this subsection.

(5) No right of election accorded by paragraphs (1), (2), or (4) of this subsection shall be exercised to impair substantially the interests of holders of encumbrances, liens, assessments, or other charges upon or against the property.

(6) Any right or rights of use and occupancy retained pursuant to paragraphs (1), (2), and (4) of this subsection shall be held to run with the land, and may be freely transferred and assigned.

(7) In any case where a right of use and occupancy for life or for a fixed term of years is retained as provided in paragraph (1), (2), or (4) of this subsection, the compensation paid by the Secretary for the property shall not exceed the fair market value of the property on the date of its acquisition by the Secretary, less the fair market value on such date of the said right retained.

Violation of regulations.

(8) The Secretary shall have authority to terminate any right of use and occupancy of property, retained as provided in paragraph (1), (2), or (4) of this subsection, at any time after the date when any use occurs with respect to such property which fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in regulations issued pursuant to section 5 of this Act and in effect on said date: *Provided*, That no use which is in conformity with the provisions of a zoning bylaw approved in accordance with said section 5 which is in force and applicable to such property shall be held to fail to conform or be opposed to or inconsistent with any such standard. In the event that the Secretary exercises the authority conferred by this paragraph, he shall pay to the owner of the right so terminated an amount equal to the fair market value of the portion of said right which remained on the date of termination.

Suspension of authority.

(b) (1) The Secretary's authority to acquire property by condemnation shall be suspended with respect to all improved property located within such area in all of the towns referred to in section 1 of this Act for one year following the date of its enactment.

(2) Thereafter such authority shall be suspended with respect to all improved property located within such area in any one of such towns during all times when such

town shall have in force and applicable to such property a duly adopted, valid zoning bylaw approved by the Secretary in accordance with the provisions of section 5 of this Act.

(c) The Secretary's authority to acquire property by condemnation shall be suspended with respect to any particular property which is used for commercial or industrial purposes during any periods when such use is permitted by the Secretary and during the pendency of the first application for such permission made to the Secretary after the date of enactment of this Act provided such application is made not later than the date of establishment of the seashore.

"Improved property."

(d) The term "improved property," wherever used in this Act, shall mean a detached, one-family dwelling the construction of which was begun before September 1, 1959 (hereinafter referred to as "dwelling"), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated. The amount of the land so designated shall in every case be at least three acres in area, or all of such lesser amount as may be held in the same ownership as the dwelling, and in making such designation the Secretary shall take into account the manner of noncommercial residential use in which the dwelling and land have customarily been enjoyed: *Provided, however*, That the Secretary may exclude from the land so designated any beach or waters, together with so much of the land adjoining such beach or waters as the Secretary may deem necessary for public access thereto.

(e) Nothing in this section or elsewhere in this Act shall be construed to prohibit the use of condemnation as a means of acquiring a clear and marketable title, free of any and all encumbrances. (16 U.S.C. § 459b–3.)

Issuance of regulations.

SEC. 5. (a) As soon after the enactment of this Act as may be practicable, the Secretary shall issue regulations specifying standards for approval by him of zoning bylaws for purposes of section 4 of this Act. The Secretary may issue amended regulations specifying standards for approval by him of zoning bylaws whenever he shall consider such amended regulations to be desirable due to changed or unforeseen conditions.

Submission to Congress.

All regulations and amended regulations proposed to be issued under authority of the two preceding sentences of this subsection shall be submitted to the Congress and to the towns named in section 1 of this Act at least ninety calendar days (which ninety days, however, shall not include days on which either the House of Representa-

tives or the Senate is not in session because of an adjournment of more than three calendar days to a day certain) before they become effective and the Secretary shall, before promulgating any such proposed regulations or amended regulations in final form, take due account of any suggestions for their modification which he may receive during said ninety-day period. All such regulations and amended regulations shall, both in their proposed form and in their final form, be published in the Federal Register.

Publication in F.R.

Zoning bylaws. Approval.

The Secretary shall approve any zoning bylaw and any amendment to any approved zoning bylaws submitted to him which conforms to the standards contained in the regulations in effect at the time of the adoption by the town of such bylaws or such amendment unless before the time of adoption he has submitted to the Congress and the towns and published in the Federal Register as aforesaid proposed amended regulations with which the bylaw or amendment would not be in conformity, in which case he may withhold his approval pending completion of the review and final publication provided for in this subsection and shall thereafter approve the bylaw or amendment only if it is in conformity with the amended regulations in their final form. Such approval shall not be withdrawn or revoked, nor shall its effect be altered for purposes of section 4 of this Act by issuance of any such amended regulations after the date of such approval, so long as such bylaw or such amendment remains in effect as approved.

Special provisions.

(b) The standards specified in such regulations and amended regulations for approval of any zoning bylaw or zoning bylaw amendment shall contribute to the effect of (1) prohibiting the commercial and industrial use, other than any commercial or industrial use which is permitted by the Secretary, of all property within the boundaries of the seashore which is situated within the town adopting such bylaw; and (2) promoting the preservation and development, in accordance with the purposes of this Act, of the area comprising the seashore, by means of acreage, frontage, and setback requirements and other provisions which may be required by such regulations to be included in a zoning bylaw consistent with the laws of Massachusetts.

(c) No zoning bylaw or amendment of a zoning bylaw shall be approved by the Secretary which (1) contains any provision which he may consider adverse to the preservation and development, in accordance with the purposes of this Act, of the area comprising the seashore, or (2) fails to have the effect of providing that the Secretary shall receive notice of any variance granted under and any exception made to the application of such bylaw or amendment.

(d) If any improved property with respect to which the Secretary's authority to acquire by condemnation has been suspended by reason of the adoption and approval, in accordance with the foregoing provisions of this section, of a zoning bylaw applicable to such property (hereinafter referred to as "such bylaw")—

(1) is made the subject of a variance under or an exception to such bylaw, which variance or exception fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in the regulations issued pursuant to this section and in effect at the time of the passage of such bylaw, or

(2) is property upon or with respect to which there occurs any use, commencing after the date of the publication by the Secretary of such regulations, which fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in such regulations (but no use which is in conformity with the provisions of such bylaw shall be held to fail to conform or be opposed to or inconsistent with any such standard),

the Secretary may, at any time and in his discretion, terminate the suspension of his authority to acquire such improved property by condemnation: *Provided, however*, That the Secretary may agree with the owner or owners of such property to refrain from the exercise of the said authority during such time and upon such terms and conditions as the Secretary may deem to be in the best interests of the development and preservation of the seashore. (16 U.S.C. § 459 b–4.)

Certificate.

SEC. 6. The Secretary shall furnish to any party in interest requesting the same, a certificate indicating, with respect to any property located within the seashore as to which the Secretary's authority to acquire such property by condemnation has been suspended in accordance with the provisions of this Act, that such authority has been so suspended and the reasons therefor. (16 U.S.C. § 459 b–5.)

Administration.

SEC. 7. (a) Except as otherwise provided in this Act, the property acquired by the Secretary under this Act shall be administered by the Secretary subject to the provisions of the Act entitled "An Act to establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535), as amended and supplemented, and in accordance with laws of general application relating to the national park system as defined by the Act of August 8, 1953 (67 Stat. 496); except that authority otherwise available to the Secretary for the conservation and management of natural resources may be utilized to the extent he finds such authority will further the purposes of this Act.

Protection and development.

(b) (1) In order that the seashore shall be permanently preserved in its present state, no development or plan for the convenience of visitors shall be undertaken therein which would be incompatible with the preservation of the unique flora and fauna or the physiographic conditions now prevailing or with the preservation of such historic sites and structures as the Secretary may designate: *Provided*, That the Secretary may provide for the public enjoyment and understanding of the unique natural, historic, and scientific features of Cape Cod within the seashore by establishing such trails, observation points, and exhibits and providing such services as he may deem desirable for such public enjoyment and understanding: *Provided further*, That the Secretary may develop for appropriate public uses such portions of the seashore as he deems especially adaptable for camping, swimming, boating, sailing, hunting, fishing, the appreciation of historic sites and structures and natural features of Cape Cod, and other activities of similar nature.

(2) In developing the seashore the Secretary shall provide public use areas in such places and manner as he determines will not diminish for its owners or occupants the value or enjoyment of any improved property located within the seashore.

U.S. GOVERNMENT PRINTING OFFICE
WASHINGTON : 1974

FOREWORD

This is the third supplement to the publication *Laws Relating to the National Park Service*, first printed in 1933 and supplemented in 1944 and 1963.

This volume contains laws relating to the National Park Service enacted by the Congress between February, 1963, and December, 1972. Unlike Supplements I and II, laws relating to the National Capital Parks are included in this compilation.

Special thanks are due to Mrs. Jo Ann West, whose long hours of research in the library of the Department of the Interior made this supplement possible.

I. GENERAL LEGISLATION

1. Administration of National Park System

An Act to improve the administration of the national park system by the Secretary of the Interior, and to clarify the authorities applicable to the system, and for other purposes. (84 Stat. 825)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress declares that the national park system, which began with establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every major region of the United States, its territories and island possessions; that these areas, though distinct in character, are united through their inter-related purposes and resources into one national park system as cumulative expressions of a single national heritage; that, individually and collectively, these areas derive increased national dignity and recognition of their superb environmental quality through their inclusion jointly with each other in one national park system preserved and managed for the benefit and inspiration of all the people of the United States; and that it is the purpose of this Act to include all such areas in the System and to clarify the authorities applicable to the system.

SEC. 2. (a) Section 1 of the Act of August 8, 1953 (67 Stat. 496; 16 U.S.C. 1b), is amended by deleting "and miscellaneous areas administered in connection therewith" and "and miscellaneous areas" wherever they appear.

(b) Section 2 of the Act of August 8, 1953 (67 Stat. 496; 16 U.S.C. 1c), is amended to read as follows:

"SEC. 2. (a) The 'national park system' shall include any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational, or other purposes.

"(b) Each area within the national park system shall be administered in accordance with the provisions of any statute made specifically applicable to that area. In addition, the provisions of this Act, and the various authorities relating to the administration and protection of areas under the administration of the Secretary of the Interior through the National Park Service, including but not limited to the Act of August 25, 1916 (39 Stat.

535), as amended (16 U.S.C. 1, 2–4), the Act of March 4, 1911 (36 Stat. 1253), as amended (16 U.S.C. 5) relating to rights-of-way, the Act of June 5, 1920 (41 Stat. 917), as amended (16 U.S.C. 6), relating to donation of land and money, sections 1, 4, 5, and 6 of this Act of April 9, 1924 (43 Stat. 90), as amended (16 U.S.C. 8 and 8a–8c), relating to roads and trails, the Act of March 4, 1931 (46 Stat. 1570; 16 U.S.C. 8d) relating to approach roads to national monuments, the Act of June 3, 1948 (62 Stat. 334), as amended (16 U.S.C. 8e–8f), relating to conveyance of roads to States, the Act of August 31, 1954 (68 Stat. 1037), as amended (16 U.S.C. 452a), relating to acquisitions of inholdings, section 1 of the Act of July 3, 1926 (44 Stat. 900), as amended (16 U.S.C. 12), relating to aid to visitors in emergencies, the Act of March 3, 1905 (33 Stat. 873; 16 U.S.C. 10), relating to arrests, sections 3, 4, 5, and 6 of the Act of May 26, 1930 (46 Stat. 381), as amended (16 U.S.C. 17b, 17c, 17d, and 17e), relating to services or other accommodations for the public, emergency supplies and services to concessioners, acceptability of travelers checks, care and removal of indigents, the Act of October 9, 1965 (79 Stat. 696; 16 U.S.C. 20–20g), relating to concessions, the Land and Water Conservation Fund Act of 1965, as amended, and the Act of July 15, 1968 (82 Stat. 355), shall, to the extent such provisions are not in conflict with any such specific provision, be applicable to all areas within the national park system and any reference in such Act to national parks, monuments recreation areas, historic monuments, or parkways shall hereinafter not be construed as limiting such Acts to those areas."

SEC. 3. In order to facilitate the administration of the national park system, the Secretary of the Interior is authorized, under such terms and conditions as he may deem advisable, to carry out the following activities:

(a) provide transportation of employees located at isolated areas of the national park system and to members of their families, where (1) such areas are not adequately served by commercial transportation, and (2) such transportation is incidental to official transportation services;

(b) provide recreation facilities, equipment, and services for use by employees and their families located at isolated areas of the national park system;

(c) appoint and establish such advisory committees in regard to the functions of the National Park Service as he may deem advisable, members of which shall receive no compensation for their services as such but who shall be allowed necessary travel expenses as authorized by section 5 of the Administrative Expenses Act of 1946 (5 U.S.C. 5703);

(d) purchase field and special purpose equipment required by employees for the performance of assigned functions which shall be regarded and listed as park equipment;

(e) enter into contracts which provide for the sale or lease to persons, States, or their political subdivisions, of services, resources, or water available within an area of the national park system, if such person, State, or its political subdivision—

(1) provides public accommodations or services within the immediate vicinity of an area of the national park system to persons visiting the area; and

(2) has demonstrated to the Secretary that there are no reasonable alternatives by which to acquire or perform the necessary services, resources, or water;

(f) acquire, and have installed, air-conditioning units for any Government-owned passenger motor vehicles used by the National Park Service, where assigned duties necessitate long periods in automobiles or in regions of the United States where high temperatures and humidity are common and prolonged;

(g) sell at fair market value without regard to the requirements of the Federal Property and Administrative Services Act of 1949, as amended, products and services produced in the conduct of living exhibits and interpretive demonstrations in areas of the national park system, to enter into contracts including cooperative arrangements with respect to such living exhibits and interpretive demonstrations and park programs, and to credit the proceeds therefrom to the appropriation bearing the cost of such exhibits and demonstrations.

SEC. 4. The Act of March 17, 1948 (62 Stat. 81), is amended by deleting from section 1 thereof the words "over which the United States has, or hereafter acquires, exclusive or concurrent criminal jurisdiction," and changing section 3 to read as follows:

"SEC. 3. For the purposes of this Act, the environs of the District of Columbia are hereby defined as embracing Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties and the city of Alexandria in Virginia, and Prince Georges, Charles, Anne Arundel, and Montgomery Counties in Maryland."

SEC. 23. USE OF GOVERNMENT-OWNED LANDS.

(a) REQUESTS FOR USE.—Subject to the provisions of subsection (c) of this section, whenever the Secretary determines that use of any lands owned or controlled by the United States is reasonably necessary for carrying out a project for airport development under this part, or for the operation of any public airport, including lands reasonably necessary to meet future development of an airport in accordance with the national airport system plan, he shall file with the head of the department or agency having control of the lands a request that the necessary property interests therein be conveyed to the public agency sponsoring the project in question or owning or controlling the airport. The property interest may consist of the title to, or any other interest in, land or any easement through or other interest in airspace.

(b) MAKING OF CONVEYANCES.— Upon receipt of a request from the Secretary under this section, the head of the department or agency having control of the lands in question shall determine whether the requested conveyance is inconsistent with the needs of the department or agency, and shall notify the Secretary of his determination within a period of four months after receipt of the Secretary's request. If the department or agency head determines that the requested conveyance is not inconsistent with the needs of that department or agency, the department or agency head is hereby authorized and directed, with the approval of the President and the Attorney General of the United States, and without any expense to the

United States, to perform any acts and to execute any instruments necessary to make the conveyance requested. A conveyance may be made only on the condition that, at the option of the Secretary, the property interest conveyed shall revert to the United States in the event that the lands in question are not developed for airport purposes or used in a manner consistent with the terms of the conveyance. If only a part of the property interest conveyed is not developed for airport purposes, or used in a manner consistent with the terms of the conveyance, only that particular part shall at the option of the Secretary, revert to the United States.

DECLARATION OF POLICY

(d) (1) Public Land Order Numbered 4582, 34 Federal Register 1025, as amended, is hereby revoked. For a period of ninety days after the date of enactment of this Act all unreserved public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining (except locations for metalliferous minerals) and the mineral leasing laws. During this period of time the Secretary shall review the public lands in Alaska and determine whether any portion of these lands should be withdrawn under authority provided for in existing law to insure that the public interest in these lands is properly protected. Any further withdrawal shall require an affirmative act by the Secretary under his existing authority, and the Secretary is authorized to classify or reclassify any lands so withdrawn and to open such lands to appropriation under the public land laws in accord with his classifications. Withdrawals pursuant to this paragraph shall not affect the authority of the Village Corporations, the Regional Corporations, and the State to make selections and obtain patents within the areas withdrawn pursuant to section 11.

* * * * *

(2) (A) The Secretary, acting under authority provided for in existing law, is directed to withdraw from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, and from selection under the Alaska Statehood Act, and from selection by Regional Corporations pursuant to section 11, up to, but not to exceed, eighty million acres of unreserved public lands in the State of Alaska, including previously classified lands, which the Secretary deems are suitable for addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems: *Provided*, That such withdrawals shall not affect the authority of the State and the Regional and Village Corporations to make selections and obtain patents within the areas withdrawn pursuant to section 11.

(B) Lands withdrawn pursuant to paragraph (A) hereof must be withdrawn within nine months of the date of enactment of this Act. All unreserved public lands not withdrawn under paragraph (A) or subsection 17(d)(1) shall be available for selection by the State and for appropriation under the public land laws.

(C) Every six months, for a period of two years from the date of enactment of this Act, the Secretary shall advise the Congress of the location, size and values of lands withdrawn pursuant to paragraph (A) and submit his recommendations with respect to such lands. Any lands withdrawn pursuant to paragraph (A) not recommended for addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems at the end of the two years shall be available for selection by the State and the Regional Corporations, and for appropriation under the public land laws.

(D) Areas recommended by the Secretary pursuant to paragraph (C) shall remain withdrawn from any appropriation under the public land laws until such time as the Congress acts on the Secretary's recommendations, but not to exceed five years from the recommendation dates. The withdrawal of areas not so recommended shall terminate at the end of the two year period.

(E) Notwithstanding any other provision of this subsection, initial identification of lands desired to be selected by the State pursuant to the Alaska Statehood Act and by the Regional Corporations pursuant to section 12 of this Act may be made within any area withdrawn pursuant to this subsection (d), but such lands shall not be tentatively approved or patented so long as the withdrawals of such areas remain in effect: *Provided*, That selection of lands by Village Corporations pursuant to section 12 of this Act shall not be affected by such withdrawals and such lands selected may be patented and such rights granted as authorized by this Act. In the event Congress enacts legislation setting aside any areas withdrawn under the provisions of this subsection which the Regional Corporations or the State desired to select, then other unreserved public lands shall be made available for alternative selection by the Regional Corporations and the State. Any time periods established by law for Regional Corporations or State selections are hereby extended to the extent that delays are caused by compliance with the provisions of this subsection (2).

(3) Any lands withdrawn under this section shall be subject to administration by the Secretary under applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by the withdrawal.

5. Concession Policies of the National Park Service

An Act relating to the establishment of concession policies in the areas administered by National Park Service and for other purposes. (79 Stat. 969)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in furtherance of the Act of August 25, 1916 (39 Stat. 535), as amended (16 U.S.C. 1), which directs the Secretary of the Interior to administer national park system areas in accordance with the fundamental purposes of conserving their scenery, wildlife, natural and historic objects, and providing for their enjoyment in a manner that will leave them unimpaired for the enjoyment of future generations, the Congress hereby finds that the preservation of park values requires that such public accommodations, facilities, and services as have to be provided within those areas should be provided only under carefully controlled safeguards against unregulated and indiscriminate use, so that the heavy visitation will not unduly impair these values and so that development of such facilities can best be limited to locations where the least damage to park values will be caused. It is the policy of the Congress that such development shall be limited to those that are necessary and appropriate for public use and enjoyment of the national park area in which they are located and that are consistent to the highest practicable degree with the preservation and conservation of the areas.

SEC. 2. Subject to the findings and policy stated in section 1 of this Act, the Secretary of the Interior shall take such action as may be appropriate to encourage and enable private persons and corporations (hereinafter referred to as "concessioners") to provide and operate facilities and services which he deems desirable for the accommodation of visitors in areas administered by the National Park Service.

SEC. 3. (a) Without limitation of the foregoing, the Secretary may include in contracts for the providing of facilities and services such terms and conditions as, in his judgment, are required to assure the concessioner of adequate protection against loss of investment in structures, fixtures, improvements, equipment, supplies, and other tangible property provided by him for the purposes of the contract (but not against loss of anticipated profits) resulting from discretionary acts, policies, or decisions of the Secretary occurring after the contract has become effective under which acts, policies, or decisions the concessioner's authority to conduct some or all of his authorized operations under the contract ceases or his structures, fixtures, and improvements, or any of them,

are required to be transferred to another party or to be abandoned, removed, or demolished. Such terms and conditions may include an obligation of the United States to compensate the concessioner for loss of investment, as aforesaid.

(b) The Secretary shall exercise his authority in a manner consistent with a reasonable opportunity for the concessioner to realize a profit on his operation as a whole commensurate with the capital invested and the obligations assumed.

(c) The reasonableness of a concessioner's rates and charges to the public shall, unless otherwise provided in the contract, be judged primarily by comparison with those current for facilities and services of comparable character under similar conditions, with due consideration for length of season, provision for peakloads, average percentage of occupancy, accessibility, availability and costs of labor and materials, type of patronage, and other factors deemed significant by the Secretary.

(d) Franchise fees, however stated, shall be determined upon consideration of the probable value to the concessioner of the privileges granted by the particular contract or permit involved. Such value is the opportunity for net profit in relation to both gross receipts and capital invested. Consideration of revenue to the United States shall be subordinate to the objectives of protecting and preserving the areas and of providing adequate and appropriate services for visitors at reasonable rates. Appropriate provisions shall be made for reconsideration of franchise fees at least every five years unless the contract is for a lesser period of time.

SEC. 4. The Secretary may authorize the operation of all accommodations, facilities, and services for visitors, or of all such accommodations, facilities, and services of generally similar character, in each area, or portion thereof, administered by the National Park Service by one responsible concessioner and may grant to such concessioner a preferential right to provide such new or additional accommodations, facilities, or services as the Secretary may consider necessary or desirable for the accommodation and convenience of the public. The Secretary may, in his discretion, grant extensions, renewals, or new contracts to present concessioners, other than the concessioner holding a preferential right, for operations substantially similar in character and extent to those authorized by their current contracts or permits.

SEC. 5. The Secretary shall encourage continuity of operation and facilities and services by giving preference in the renewal of contracts or permits and in the negotiation of new contracts or permits to the concessioners who have performed their obligations under prior contracts or permits to the satisfaction of the Secretary. To this

end, the Secretary, at any time in his discretion, may extend or renew a contract or permit, or may grant a new contract or permit to the same concessioner upon the termination or surrender before expiration of a prior contract or permit. Before doing so, however, and before granting extensions, renewals or new contracts pursuant to the last sentence of section 4 of this Act, the Secretary shall give reasonable public notice of his intention so to do and shall consider and evaluate all proposals received as a result thereof.

SEC. 6. A concessioner who has heretofore acquired or constructed or who hereafter acquires or constructs, pursuant to a contract and with the approval of the Secretary, any structure, fixture, or improvement upon land owned by the United States within an area administered by the National Park Service shall have a possessory interest therein, which shall consist of all incidents of ownership except legal title, and except as hereinafter provided, which title shall be vested in the United States. Such possessory interest shall not be construed to include or imply any authority, privilege, or right to operate or engage in any business or other activity, and the use or enjoyment of any structure, fixture, or improvement in which the concessioner has a possessory interest shall be wholly subject to the applicable provisions of the contract and of laws and regulations relating to the area. The said possessory interest shall not be extinguished by the expiration or other termination of the contract and may not be taken for public use without just compensation. The said possessory interest may be assigned, transferred, encumbered, or relinquished. Unless otherwise provided by agreement of the parties, just compensation shall be an amount equal to the sound value of such structure, fixture, or improvement at the time of taking by the United States determined upon the basis of reconstruction cost less depreciation evidenced by its condition and prospective serviceability in comparison with a new unit of like kind, but not to exceed fair market value. 8. Environmental Education Act

An Act to authorize the United States Commissioner of Education to establish education programs to encourage understanding of policies, and support of activities, designed to enhance environmental quality and maintain ecological balance. (84 Stat. 1312)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Environmental Education Act".

STATEMENT OF FINDINGS AND PURPOSE

SEC. 2. (a) The Congress of the United States finds that the deterioration of the quality of the Nation's environment and of its ecological balance poses a serious threat to the strength and vitality of the people of the Nation and is in part due to poor understanding of the Nation's environment and of the need for ecological balance; that presently there do not exist adequate resources for educating and informing citizens in these areas, and that concerted efforts in educating citizens about environmental quality and ecological balance are therefore necessary.

(b) It is the purpose of this Act to encourage and support the development of new and improved curricula to encourage understanding of policies, and support of activities designed to enhance environmental quality and maintain ecological balance; to demonstrate the use of such curricula in model educational programs and to evaluate the effectiveness thereof; to provide support for the initiation and maintenance of programs in environmental education at the elementary and secondary levels; to disseminate curricular materials and other information for use in educational programs throughout the Nation; to provide training programs for teachers, other educational personnel, public service personnel, and community, labor, and industrial and business leaders and employees, and government employees at State, Federal, and local levels; to provide for the planning of outdoor ecological study centers; to provide for community education programs on preserving and enhancing environmental quality and maintaining ecological balance; and to provide for the preparation and distribution of materials by mass media in dealing with the environment and ecology.

ENVIRONMENTAL EDUCATION

SEC. 3. (a) (1) There is established, within the Office of Education, and office of environmental education (referred to in this section as the "office") which, under the supervision of the Commissioner, through regulations

promulgated by the Secretary, shall be responsible for (A) the administration of the program authorized by subsection (b) and (B) the coordination of activities of the Office of Education which are related to environmental education. The office shall be headed by a Director who shall be compensated at a rate not to exceed that prescribed for grade GS–17 in section 5332 of title 5, United States Code.

(2) For the purposes of this Act, the term "environmental education" means the educational process dealing with man's relationship with his natural and manmade surroundings, and includes the relation of population, pollution, resource allocation and depletion, conservation, transportation, technology, and urban and rural planning to the total human environment.

(b) (1) The Commissioner shall carry out a program of making grants to, and contracts with, institutions of higher education, State and local educational agencies, regional educational research organizations, and other public and private agencies, organizations, and institutions (including libraries and museums) to support research, demonstration, and pilot projects designed to educate the public on the problems of environmental quality and ecological balance, except that no grant may be made other than to a nonprofit agency, organization or institution.

(2) Funds appropriated for grants and contracts under this section shall be available for such activities as—

(A) the development of curricula (including interdisciplinary curricula) in the preservation and enhancement of environmental quality and ecological balance;

(B) dissemination of information relating to such curricula and to environmental education, generally;

(C) in the case of grants to State and local educational agencies, for the support of environmental education programs at the elementary and secondary education levels;

(D) preservice and inservice training programs and projects (including fellowship programs, institutes, workshops, symposiums, and seminars) for educational personnel to prepare them to teach in subject matter areas associated with environmental quality and ecology, and for public service personnel, government employees, and business, labor, and industrial leaders and employees;

(E) planning of outdoor ecological study centers;

(F) community education programs on environmental quality, including special programs for adults; and

(G) preparation and distribution of materials suitable for use by the mass media in dealing with the environment and ecology.

In addition to the activities specified in the first sentence of this paragraph, such funds may be used for projects designed to demonstrate, test, and evaluate the effectiveness of any such activities, whether or not assisted under this section.

(3) (A) Financial assistance under this subsection may be made available only upon application to the Commissioner. Applications under this subsection shall be submitted at such time, in such form, and containing such information as the Secretary shall prescribe by regulation and shall be approved only if it—

(i) provides that the activities and services for which assistance is sought will be administered by, or under the supervision of, the applicant;

(ii) describes a program for carrying out one or more of the purposes set forth in the first sentence of paragraph (2) which holds promise of making a substantial contribution toward attaining the purposes of this section;

(iii) sets forth such policies and procedures as will insure adequate evaluation of the activities intended to be carried out under the application.

(iv) sets forth policies and procedures which assure that Federal funds made available under this Act for any fiscal year will be so used as to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available by the applicant for the purposes described in section 3, and in no case supplant such funds.

(v) provides for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting for Federal funds paid to the applicant under this title; and

(vi) provides for making an annual report and such other reports, in such form and containing such information, as the Commissioner may reasonably require and for keeping such records, and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports.

(B) Applications from local educational agencies for financial assistance under this Act may be approved by the Commissioner only if the State educational agency has been notified of the application and been given the opportunity to offer recommendations.

(C) Amendments of applications shall, except as the Secretary may otherwise provide by or pursuant to regulation, be subject to approval in the same manner as original applications.

(4) Federal assistance to any program or project under this section, other than those involving curriculum de-

velopment, dissemination of curricular materials, and evaluation, shall not exceed 80 percentum of the cost of such program for the first fiscal year of its operation, including costs of administration, unless the Commissioner determines, pursuant to regulations adopted and promulgated by the Secretary establishing objective criteria for such determinations, that assistance in excess of such percentages is required in furtherance of the purposes of this section. The Federal share for the second year shall not exceed 60 per centum, and for the third year 40 per centum. Non-Federal contributions may be in cash or kind, fairly evaluated, including but not limited to plant, equipment, and services.

(c) (1) There is hereby established an Advisory Council on Environmental Education consisting of twenty-one members appointed by the Secretary. The Secretary shall appoint one member as Chairman. The Council shall consist of persons appointed from the public and private sector with due regard to their fitness, knowledge, and experience in matters of, but not limited to, academic, scientific, medical, legal, resource conservation and production, urban and regional planning, and information media activities as they relate to our society and affect our environment, and shall give due consideration to geographical representation in the appointment of such members: *Provided, however*, That the Council shall consist of not less than three ecologists and three students.

(2) The Council shall—

(A) advise the Commissioner and the office concerning the administration of, preparation of general regulations for, and operation of programs assisted under this section;

(B) make recommendations to the office with respect to the allocation of funds appropriated pursuant to subsection (d) among the purposes set forth in paragraph (2) of subsection (b) and the criteria to be used in approving applications, which criteria shall insure an appropriate geographical distribution of approved programs and projects throughout the Nation;

(C) develop criteria for the review of applications and their disposition; and

(D) evaluate programs and projects assisted under this section and disseminate the results thereof.

SEC. 4. The Secretary of Health, Education, and Welfare, in cooperation with the heads of other agencies with relevant jurisdiction, shall, insofar as practicable upon request, render technical assistance to local educational agencies, public and private nonprofit organizations, institutions of higher education, agencies of local, State,

and Federal governments and other agencies deemed by the Secretary to play a role in preserving and enhancing environmental quality and maintaining ecological balance. The technical assistance shall be designed to enable the recipient agency to carry on education programs which are related to environmental quality and ecological balance.

SMALL GRANTS

SEC. 5. (a) In addition to the grants authorized under section 3, the Commissioner, from the sums appropriated, shall have the authority to make grants, in sums not to exceed $10,000 annually, to nonprofit organizations such as citizen groups, volunteer organizations working in the environmental field, and other public and private nonprofit agencies, institutions, or organizations for conducting courses, workshops, seminars, symposiums, institutes, and conferences, especially for adults and community groups (other than the group funded).

(b) Priority shall be given to those proposals demonstrating innovative approaches to environmental education.

(c) For the purposes of this section, the Commissioner shall require evidence that the interested organization or group shall have been in existence one year prior to the submission of a proposal for Federal funds and that it shall submit an annual report on Federal funds expended.

(d) Proposals submitted by organizations and groups under this section shall be limited to the essential information required to evaluate them, unless the organization or group shall volunteer additional information.

ADMINISTRATION

SEC. 6. In administering the provisions of this Act, the Commissioner is authorized to utilize the services and facilities of any agency of the Federal Government and of any other public or private agency or institution in accordance with appropriate agreements, and to pay for such services either in advance or by way of reimbursement, as may be agreed upon. The Commissioner shall publish annually a list and description of projects supported under this Act and shall distribute such list and description to interested educational institutions, citizens' groups, conservation organizations, and other organizations and individuals involved in enhancing environmental quality and maintaining ecological balance.

10. Estuarine Protection

An Act to authorize the Secretary of the Interior, in cooperation with the States, to conduct an inventory and study of the Nation's estuaries and their natural resources, and for other purposes. (82 Stat. 625)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress finds and declares that many estuaries in the United States are rich in a variety of natural, commercial, and other resources, including environmental natural beauty, and are of immediate and potential value to the present and future generations of Americans. It is therefore the purpose of this Act to provide a means for considering the need to protect, conserve, and restore these estuaries in a manner that adequately and reasonably maintains a balance between the national need for such protection in the interest of conserving the natural resources and natural beauty of the Nation and the need to develop these estuaries to further the growth and development of the Nation. In connection with the exercise of jurisdiction over the estuaries of the Nation and in consequence of the benefits resulting to the public, it is declared to be the policy of Congress to recognize, preserve, and protect the responsibilities of the States in protecting, conserving, and restoring the estuaries in the United States.

SEC. 2. (a) The Secretary of the Interior, in consultation and in cooperation with the States, the Secretary of the Army, and other Federal agencies, shall conduct directly or by contract a study and inventory of the Nation's estuaries, including without limitation coastal marshlands, bays, sounds, seaward areas, lagoons, and land and waters of the Great Lakes. For the purpose of this study, the Secretary shall consider, among other matters, (1) their wildlife and recreational potential, their ecology, their value to the marine, anadromous, and shell fisheries and their esthetic value, (2) their importance to navigation, their value for flood, hurricane, and erosion control, their mineral value, and the value of submerged lands underlying the waters of the estuaries, and (3) the value of such areas for more intensive developmental for economic use as part of urban developments and for commercial and industrial developments. This study and inventory shall be carried out in conjunction with the comprehensive estuarine pollution study authorized by section 5(g) of the Federal Water Pollution Control Act, as amended, and other applicable studies.

(b) The study shall focus attention on whether any land or water area within an estuary and the Great Lakes should be acquired or administered by the Secre-

tary or by a State or local subdivision thereof, or whether such land or water area may be protected adequately through local, State, or Federal laws or other methods without Federal land acquisition or administration.

(c) The Secretary of the Interior shall, not later than January 30, 1970, submit to the Congress through the President a report of the study conducted pursuant to this section, together with any legislative recommendations, including recommendations on the feasibility and desirability of establishing a nationwide system of estuarine areas, the terms, conditions, and authorities to govern such system, and the designation and acquisiton of any specific estuarine areas of national significance which he believes should be acquired by the United States. No lands within such area may be acquired until authorized by subsequent Act of Congress. Recommendations made by the Secretary for the acquisition of any estuarine area shall be developed in consultation with the States, municipalities, and other interested Federal agencies. Each such recommendation shall be accompanied by (1) expressions of any views which the interested States, municipalities, and other Federal agencies and river basin commissions may submit within sixty days after having been notified of the proposed recommendations, (2) a statement setting forth the probable effect of the recommended action on any comprehensive river basin plan that may have been adopted by Congress or that is serving as a guide for coordinating Federal programs in the basin wherein such area is located, (3) in the absence of such a plan, a statement indicating the probable effect of the recommended action on alternative beneficial users of the resources of the proposed estuarine area, and (4) a discussion of the major economic, social, and ecological trends occurring in such area.

(d) There is authorized to be appropriated not to exceed $250,000 for fiscal year 1969 and $250,000 for fiscal year 1970 to carry out the provisions of this section. Such sums shall be available until expended.

SEC. 3. After the completion of the general study authorized by section 2 of this Act, the Secretary of the Interior, with the approval of the President, many enter into an agreement, containing such terms and conditions as are mutually acceptable, with any State or with a political subdivision or agency thereof (if the agreement with such subdivision or agency is first approved by the Governor of the State involved or by a State agency designated for that purpose) for the permanent management, development, and administration of any area, land, or interests therein within an estuary and adjacent lands which are owned or thereafter acquired by a State or by any political subdivision thereof: *Provided*, That, with the approval of the Governor of the State involved or of

a State agency designated for that purpose, the Secretary may also enter into such an agreement for any particular area whenever the segment of the general study applicable to that area is completed subject to the provisions of subsections (a) and (b) of section 2 of this Act. Such agreement shall, among other things, provide that the State or a political subdivision or agency thereof and the Secretary shall share in an equitable manner in the cost of managing, administering, and developing such areas, and such development may include the construction, operation, installation, and maintenance of buildings, devices, structures, recreational facilities, access roads, and other improvements, and such agreement shall be subject to the availability of appropriations. State hunting and fishing laws and regulations shall be applicable to such areas to the extent they are now or hereafter applicable.

SEC. 4. In planning for the use or development of water and land resources, all Federal agencies shall give consideration to estuaries and their natural resources, and their importance for commercial and industrial developments, and all project plans and reports affecting such estuaries and resources submitted to the Congress shall contain a discussion by the Secretary of the Interior of such estuaries and such resources and the effects of the project on them and his recommendations thereon. The Secretary of the Interior shall make his recommendations within ninety days after receipt of such plans and reports.

SEC. 5. The Secretary of the Interior shall encourage States and local subdivisions thereof to consider, in their comprehensive planning and proposals for financial assistance under the Federal Aid in Wildlife Restoration Act (50 Stat. 917), as amended (16 U.S.C. 669 et seq.), the Federal Aid in Fish Restoration Act (64 Stat. 430), as amended (16 U.S.C. 777 et seq.), the Land and Water Conservation Fund Act of 1965 (78 Stat. 897), the Commercial Fisheries Research and Development Act of 1964 (78 Stat. 197), and the Anadromous and Great Lakes Fisheries Conservation Act of October 30, 1965 (79 Stat. 1125), the needs and opportunities for protecting and restoring estuaries in accordance with the purposes of this Act. In approving grants made pursuant to said laws for the acquisition of all or part of an estuarine area by a State, the Secretary shall establish such terms and conditions as he deems desirable to insure the permanent protection of such areas, including a provision that the lands or interests therein shall not be disposed of by sale, lease, donation, or exchange without the prior approval of the Secretary.

SEC. 6. Nothing in this Act shall be construed to affect the authority of any Federal agency to carry out any Fed-

eral project heretofore or hereafter authorized within an estuary.

11. Federal Water Project Recreation Act

An Act to provide uniform policies with respect to recreation and fish and wildlife benefits and costs of Federal multiple-purpose water resource projects, and for other purposes. (79 Stat. 213)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the policy of the Congress and the intent of this Act that (a) in investigating and planning any Federal navigation, flood control, reclamation, hydroelectric, or multiple-purpose water resource project, full consideration shall be given to the opportunities, if any, which the project affords for outdoor recreation and for fish and wildlife enhancement and that, wherever any such project can reasonably serve either or both of these purposes consistently with the provisions of this Act, it shall be constructed, operated, and maintained accordingly; (b) planning with respect to the development of the recreation potential of any such project shall be based on the coordination of the recreational use of the project area with the use of existing and planned Federal, State, or local public recreation developments; and (c) project construction agencies shall encourage non-Federal public bodies to administer project land and water areas for recreation and fish and wildlife enhancement purposes and operate, maintain, and replace facilities provided for those purposes unless such areas or facilities are included or proposed for inclusion within a national recreation area, or are appropriate for administration by a Federal agency as a part of the national forest system, as a part of the public lands classified for retention in Federal ownership, or in connection with an authorized Federal program for the conservation and development of fish and wildlife.

SEC. 2. (a) If, before authorization of a project, non-Federal public bodies indicate their intent in writing to agree to administer project land and water areas for recreation or fish and wildlife enhancement or for both of these purposes pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and to bear not less than one-half the separable costs of the project allocated to either or both of said purposes, as the case may be, and all the costs of operation, maintenance, and replacement incurred therefor—

(1) the benefits of the project to said purpose or purposes shall be taken into account in determining the economic benefits of the project;

(2) costs shall be allocated to said purpose or purposes and to other purposes in a manner which will

insure that all project purposes share equitably in the advantages of multiple-purpose construction: *Provided*, That the costs allocated to recreation or fish and wildlife enhancement shall not exceed the lesser of the benefits from those functions or the costs of providing recreation or fish and wildlife enhancement benefits of reasonably equivalent use and location by the least costly alternative means; and

(3) not more than one-half the separable costs and all the joint costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by the United States and be nonreimbursable.

Projects authorized during the calendar year 1965 may include recreation and fish and wildlife enhancement on the foregoing basis without the required indication of intent. Execution of an agreement as aforesaid shall be a prerequisite to commencement of construction of any project to which this subsection is applicable.

(b) The non-Federal share of the separable costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by non-Federal interests, under either or both of the following methods as may be determined appropriate by the head of the Federal agency having jurisdiction over the project: (1) payment, or provision of lands, interests therein, or facilities for the project; or (2) repayment, with interest at a rate comparable to that for other interest-bearing functions of Federal water resource projects, within fifty years of first use of project recreation or fish and wildlife enhancement facilities: *Provided*, That the source of repayment may be limited to entrance and user fees or charges collected at the project by non-Federal interests if the fee schedule and the portion of fees dedicated to repayment are established on a basis calculated to achieve repayment as aforesaid and are made subject to review and renegotiations at intervals of not more than five years.

SEC. 3. (a) No facilities or project modifications which will furnish recreation or fish and wildlife enhancement benefits shall be provided in the absence of the indication of intent with respect thereto specified in subsection 2(a) of this Act unless (1) such facilities or modifications serve other project purposes and are justified thereby without regard to such incidental recreation or fish and wildlife enhancement benefits as they may have or (2) they are minimum facilities which are required for the public health and safety and are located at access points provided by roads existing at the time of project construction or constructed for the administration and management of the project. Calculation of the recreation and fish and wildlife enhancement benefits in any such case shall be based on the number of visitor-days anticipated in the absence of recreation and fish and wildlife

enhancement facilities or modifications except as hereinbefore provided and on the value per visitor-day of the project without such facilities or modifications. Project costs allocated to recreation and fish and wildlife enhancement on this basis shall be nonreimbursable.

(b) Notwithstanding the absence of an indication of intent as specified in subsection 2(a), lands may be provided in connection with project construction to preserve the recreation and fish and wildlife enhancement potential of the project:

(1) If non-Federal public bodies execute an agreement within ten years after initial operation of the project (which agreement shall provide that the non-Federal public bodies will administer project land and water areas for recreation or fish and wildlife enhancement or both pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and will bear not less than one-half the costs of lands, facilities, and project modifications provided for either or both of those purposes, as the case may be, and all costs of operation, maintenance, and replacement attributable thereto) the remainder of the costs of lands, facilities, and project modifications provided pursuant to this paragraph shall be nonreimbursable. Such agreement and subsequent development, however, shall not be the basis for any reallocation of joint costs of the project to recreation or fish and wildlife enhancement.

(2) If, within ten years after initial operation of the project, there is not an executed agreement as specified in paragraph (1) of this subsection, the head of the agency having jurisdiction over the project may utilize the lands for any lawful purpose within the jurisdiction of his agency, or may offer the land for sale to its immediate prior owner or his immediate heirs at its appraised fair market value as approved by the head of the agency at the time of offer or, if a firm agreement by said owner or his immediate heirs is not executed within ninety days of the date of the offer, may transfer custody of the lands to another Federal agency for use for any lawful purpose within the jurisdiction of that agency, or may lease the lands to a non-Federal public body, or may transfer the lands to the Administrator of General Services for disposition in accordance with the surplus property laws of the United States. In no case shall the lands be used or made available for use for any purposes in conflict with the purposes for which the project was constructed, and in every case except that of an offer to purchase made, as hereinbefore provided, by the prior owner or his

heirs preference shall be given to uses which will preserve and promote the recreation and fish and wildlife enhancement potential of the project or, in the absence thereof, will not detract from that potential.

SEC. 4. At projects, the construction of which has commenced or been completed as of the effective date of this Act, where non-Federal public bodies agree to administer project land and water areas for recreation and fish and wildlife enhancement purposes and to bear the costs of operation, maintenance, and replacement of existing facilities serving those purposes, such facilities and appropriate project lands may be leased to non-Federal public bodies.

SEC. 5. Nothing herein shall be construed as preventing or discouraging postauthorization development of any project for recreation or fish and wildlife enhancement or both by non-Federal public bodies pursuant to agreement with the head of the Federal agency having jurisdiction over the project. Such development shall not be the basis for any allocation or reallocation of project costs to recreation or fish and wildlife enhancement.

SEC. 6. (a) The views of the Secretary of the Interior developed in accordance with section 3 of the Act of May 28, 1963 (77 Stat. 49), with respect to the outdoor recreation aspects shall be set forth in any report of any project or appropriate unit thereof within the purview of this Act. Such views shall include a report on the extent to which the proposed recreation and fish and wildlife development conforms to and is in accord with the State comprehensive plan developed pursuant to subsection 5(d) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897).

(b) The first proviso of subsection 2(d) of the Act of August 12, 1958 (72 Stat. 563; 16 U.S.C. 662(d)), is amended to read as follows: "*Provided*, That such cost attributable to the development and improvement of wildlife shall not extend beyond that necessary for (1) land acquisition, (2) facilities as specifically recommended in water resource project reports, (3) modification of the project, and (4) modification of project operations, but shall not include the operation of wildlife facilities." The second proviso of subsection 2(d) of said Act is hereby repealed.

(c) Expenditures for lands or interests in lands hereafter acquired by project construction agencies for the establishment of migratory waterfowl refuges recommended by the Secretary of the Interior at Federal water resource projects, when such lands or interests in lands would not have been acquired but for the establishment of a migratory waterfowl refuge at the project, shall not exceed $28,000,000: *Provided*, That the aforemen-

tioned expenditure limitation in this subsection shall not apply to the costs of mitigating damages to migratory waterfowl caused by such water resource project.

(d) This Act shall not apply to the Tennessee Valley Authority, nor to projects constructed under authority of the Small Reclamation Projects Act, as amended, or under authority of the Watershed Protection and Flood Prevention Act, as amended.

(e) Sections 2, 3, 4, and 5 of this Act shall not apply to nonreservoir local flood control projects, beach erosion control projects, small boat harbor projects, hurricane protection projects, or to project areas or facilities authorized by law for inclusion within a national recreation area or appropriate for administration by a Federal agency as a part of the national forest system, as a part of the public lands classified for retention in Federal ownership, or in connection with an authorized Federal program for the conservation and development of fish and wildlife.

(f) As used in this Act, the term "nonreimbursable" shall not be construed to prohibit the imposition of entrance, admission, and other recreation user fees or charges.

(g) Subsection 6(a)(2) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897) shall not apply to costs allocated to recreation and fish and wildlife enhancement which are borne by the United States as a nonreimbursable project cost pursuant to subsection 2(a) or subsection 3(b)(1) of this Act.

(h) All payments and repayment by non-Federal public bodies under the provisions of this Act shall be deposited in the Treasury as miscellaneous receipts, and revenue from the conveyance by deed, lease, or otherwise, of lands under subsection 3(b)(2) of this Act shall be deposited in the Land and Water Conservation Fund.

SEC. 7. (a) The Secretary is authorized, in conjunction with any reservoir heretofore constructed by him pursuant to the Federal reclamation laws or any reservoir which is otherwise under his control, except reservoirs within national wildlife refuges, to investigate, plan, construct, operate and maintain, or otherwise provide for public outdoor recreation and fish and wildlife enhancement facilities, to acquire or otherwise make available such adjacent lands or interests therein as are necessary for public outdoor recreation or fish and wildlife use, and to provide for public use and enjoyment of project lands, facilities, and water areas in a manner coordinated with the other project purposes: *Provided*, That not more than $100,000 shall be available to carry out the provisions of this subsection at any one reservoir. Lands, facilities and project modifications for the purposes of this subsection

may be provided only after an agreement in accordance with subsection 3(b) of this Act has been executed.

(b) The Secretary of the Interior is authorized to enter into agreements with Federal agencies or State or local public bodies for the administration of project land and water areas and the operation, maintenance, and replacement of facilities and to transfer project lands or facilities to Federal agencies or State or local public bodies by lease agreement or exchange upon such terms and conditions as will best promote the development and operation of such lands or facilities in the public interest for recreation and fish and wildlife enhancement purposes.

(c) No lands under the jurisdiction of any other Federal agency may be included for or devoted to recreation or fish and wildlife purposes under the authority of this section without the consent of the head of such agency; and the head of any such agency is authorized to transfer any such lands to the jurisdiction of the Secretary of the Interior for purposes of this section. The Secretary of the Interior is authorized to transfer jurisdiction over project lands within or adjacent to the exterior boundaries of national forests and facilities thereon to the Secretary of Agriculture for recreation and other national forest system purposes; and such transfer shall be made in each case in which the project reservoir area is located wholly within the exterior boundaries of a national forest unless the Secretaries of Agriculture and Interior jointly determine otherwise. Where any project lands are transferred hereunder to the jurisdiction of the Secretary of Agriculture, the lands involved shall become national forest lands: *Provided*, That the lands and waters within the flow lines of any reservoir or otherwise needed or used for the operation of the project for other purposes shall continue to be administered by the Secretary of the Interior to the extent he determines to be necessary for such operation. Nothing herein shall limit the authority of the Secretary of the Interior granted by existing provisions of law relating to recreation or fish and wildlife development in connection with water resource projects or to disposition of public lands for such purposes.

SEC. 8. Effective on and after July 1, 1966, neither the Secretary of the Interior nor any bureau nor any person acting under his authority shall engage in the preparation of any feasibility report under reclamation law with respect to any water resource project unless the preparation of such feasibility report has been specifically authorized by law, any other provision of law to the contrary notwithstanding.

SEC. 9. Nothing contained in this Act shall be taken to authorize or to sanction the construction under the Federal reclamation laws or under any Rivers and Harbors or Flood Control Act of any project in which the

sum of the allocations to recreation and fish and wildlife enhancement exceeds the sum of the allocations to irrigation, hydroelectric power, municipal, domestic and industrial water supply, navigation, and flood control, except that this section shall not apply to any such project for the enhancement of anadromous fisheries, shrimp, or for the conservation of migratory birds protected by treaty, when each of the other functions of such a project has, of itself, a favorable benefit-cost ratio.

SEC. 10. As used in this Act:

(a) The term "project" shall mean a project or any appropriate unit thereof.

(b) The term "separable costs," as applied to any project purpose, means the difference between the capital cost of the entire multiple-purpose project and the capital cost of the project with the purpose omitted.

(c) The term "joint costs" means the difference between the capital cost of the entire multiple-purpose project and the sum of the separable costs for all project purposes.

(d) The term "feasibility report" shall mean any report of the scope required by the Congress when formally considering authorization of the project of which the report treats.

(e) The term "capital cost" includes interest during construction, wherever appropriate.

SEC. 11. Section 2, subsection (a) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897) is hereby amended by striking out the words "notwithstanding any provision of law that such proceeds shall be credited to miscellaneous receipts of the Treasury:" and inserting in lieu thereof the words "nothwithstanding any other provision of law:" and by striking out the words "or any provision of law that provides that any fees or charges collected at particular Federal areas shall be used for or credited to specific purposes or special funds as authorized by that provision of law" and inserting in lieu thereof "or affect any contract heretofore entered into by the United States that provides that such revenues collected at particular Federal areas shall be credited to specific purposes".

SEC. 12. This Act may be cited as the "Federal Water Project Recreation Act".

Approved July 9, 1965.

An Act to facilitate the preservation of historic monuments, and for other purposes. (86 Stat. 503)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 203 of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 484), is further amended by redesignating section 203(k)(3) as section 203(k)(4) and by adding a new section 203(k)(3) as follows:

"(k)(3) Without monetary consideration to the United States, the Administrator may convey to any State, political subdivision, instrumentalities thereof, or municipality, all of the right, title, and interest of the United States in and to any surplus real and related personal property which the Secretary of the Interior has determined is suitable and desirable for use as a historic monument, for the benefit of the public. No property shall be determined to be suitable or desirable for use as a historic monument except in conformity with the recommendation of the Advisory Board on National Parks, Historic Sites, Buildings and Monuments established by section 3 of the Act entitled 'An Act for the preservation of historic American sites, buildings, objects, and antiquities of national significance, and for other purposes', approved August 21, 1935 (49 Stat. 666), and only so much of any such property shall be so determined to be suitable or desirable for such use as is necessary for the preservation and proper observation of its historic features.

"(A) The Administrator may authorize use of any property conveyed under this subsection or the Surplus Property Act of 1944, as amended, for revenue-producing activities if the Secretary of the Interior (i) determines that such activities are compatible with use of the property for historic monument purposes, (ii) approves the grantee's plan for repair, rehabilitation, restoration, and maintenance of the property, and (iii) approves the grantee's plan for financing repair, rehabilitation, restoration, and maintenance of the property. The Secretary shall not approve a financial plan unless it provides that incomes in excess of costs of repair, rehabilitation, restoration, and maintenance shall be used by the grantee only for public historic preservation, park, or recreational purposes. The Administrator may not authorize any uses under this subsection until the Secretary has examined and approved the accounting and financial procedures used by the grantee. The Secretary may periodically audit the records of the grantee, directly related to the property conveyed.

"(B) The deed of conveyance of any surplus real property disposed of under the provisions of this subsection—

"(i) shall provide that all such property shall be used and maintained for historic monument purposes in perpetuity, and that in the event that the property ceases to be used or maintained for that purpose, all or any portion of the property shall, in its then existing condition, at the option of the United States, revert to the United States; and

14. Historic Preservation

An Act to establish a program for the preservation of additional historic properties throughout the Nation, and for other purposes. (80 Stat. 915)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

The Congress finds and declares—

(a) that the spirit and direction of the Nation are founded upon and reflected in its historic past;

(b) that the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people;

(c) that, in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation; and

(d) that, although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

TITLE I

SEC. 101. (a) The Secretary of the Interior is authorized—

(1) to expand and maintain a national register of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture, hereinafter referred to as the National Register, and to grant funds to States for the purpose of preparing comprehensive statewide historic surveys and plans, in accordance with criteria established by the Secretary, for the preservation, acquisition, and development of such properties;

(2) to establish a program of matching grants-in-aid to States for projects having as their purpose the preservation for public benefit of properties that are

496-156—73——4

significant in American history, architecture, archeology, and culture; and

(3) to establish a program of matching grants-in-aid to the National Trust for Historic Preservation in the United States, chartered by act of Congress approved October 26, 1949 (63 Stat. 927), as amended, for the purpose of carrying out the responsibilities of the National Trust.

(b) As used in this Act—

(1) The term "State" includes, in addition to the several States of the Union, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(2) The term "project" means programs of State and local governments and other public bodies and private organizations and individuals for the acquisition of title or interests in, and for the development of, any district, site, building, structure, or object that is significant in American history, architecture, archeology, and culture, or property used in connection therewith, and for its development in order to assure the preservation for public benefit of any such historical properties.

(3) The term "historic preservation" includes the protection, rehabilitation, restoration, and reconstruction of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, or culture.

(4) The term "Secretary" means the Secretary of the Interior.

SEC. 102. (a) No grant may be made under this Act—

(1) unless application therefor is submitted to the Secretary in accordance with regulations and procedures prescribed by him;

(2) unless the application is in accordance with the comprehensive statewide historic preservation plan which has been approved by the Secretary after considering its relationship to the comprehensive statewide outdoor recreation plan prepared pursuant to the Land and Water Conservation Fund Act of 1965 (78 Stat. 897);

(3) for more than 50 per centum of the total cost involved, as determined by the Secretary and his determination shall be final;

(4) unless the grantee has agreed to make such reports, in such form and containing such information as the Secretary may from time to time require;

(5) unless the grantee has agreed to assume, after completion of the project, the total cost of the continued maintenance, repair, and administration of the property in a manner satisfactory to the Secretary; and

(6) until the grantee has complied with such further terms and conditions as the Secretary may deem necessary or advisable.

(b) The Secretary may in his discretion waive the requirements of subsection (a), paragraphs (2) and (5) of this section for any grant under this Act to the National Trust for Historic Preservation in the United States, in which case a grant to the National Trust may include funds for the maintenance, repair, and administration of the property in a manner satisfactory to the Secretary.

(c) No State shall be permitted to utilize the value of real property obtained before the date of approval of this Act in meeting the remaining cost of a project for which a grant is made under this Act.

SEC. 103. (a) The amounts appropriated and made available for grants to the States for comprehensive statewide historic surveys and plans under this Act shall be apportioned among the States by the Secretary on the basis of needs as determined by him: *Provided, however*, That the amount granted to any one State shall not exceed 50 per centum of the total cost of the comprehensive statewide historic survey and plan for that State, as determined by the Secretary.

(b) The amounts appropriated and made available for grants to the States for projects under this Act for each fiscal year shall be apportioned among the States by the Secretary in accordance with needs as disclosed in approved statewide historic preservation plans.

The Secretary shall notify each State of its apportionment, and the amounts thereof shall be available thereafter for payment to such State for projects in accordance with the provisions of this Act. Any amount of any apportionment that has not been paid or obligated by the Secretary during the fiscal year in which such notification is given, and for two fiscal years thereafter, shall be reapportioned by the Secretary in accordance with this subsection.
