Channel Islands Symposium

A California Channel Islands Symposium will be held in Santa Barbara on Oct. 25-28, 1986, according to Channel Islands NP research scientist Gary E. Davis, who is a member of the symposium steering committee. The symposium is the third in a series that began in 1965 and continued in 1978.

The Southern California Academy of Sciences is organizing the meeting with assistance from a number of other organizations. The steering committee is chaired by F. G. Hochberg, Santa Barbara Museum of Natural History. and in addition to Davis, includes Ronald J. Dow, U.S. Navy; Robert Given, University of Southern California: Robert Hansen. The Nature

Conservancy; Ralph Philbrick, Santa Barbara Botanic Garden; and Dennis M. Power, Santa Barbara Museum of Natural History.
