

PARK SCIENCE INDEX VOLUME 13

Park Science citations by author

- Adams, Layne
Dave Mech receives national award. *Park science*. 1993, 13(4):32.
- Ahlbrandt, Thomas S.
Energy and mineral resources in and near NP lands. *Park science*. 1993, 13(1):10-11.
- Anderson, Adrienne
Service reviews effectiveness of resource management plans. *Park science*. 1993, 13(3):13,15.
- Andrews, Edmund D.
Channel margin and eddy bar deposition along the Colorado River in Grand Canyon NP. *Park science*. 1993, 13(1):3-4.
- Averett, R. C.
Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- Bacon, C.
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
- Barrett, Hope R.
Using GIS to assess potential impacts of gypsy moth infestations at Great Smoky Mountains NP. *Park science*. 1993, 13(2):26-27.
- Berger, Bill
Predation of Yellowstone elk calves. *Park science*. 1993, 13(3):18.
- Blaustein, Andrew R.
Declining amphibian populations in perspective. *Park science*. 1993, 13(4):8-9.
- Brown, Janet L.
Great Basin NP and USGS cooperate on a geological mapping program. *Park science*. 1993, 13(2):6-7.
- Buckley, P. A.
Letters. *Park science*. 1993, 13(4):23.
- Childers, Eddie
Wild turkey restoration at Indiana Dunes. *Park science*. 1993, 13(4):19.
- Cinnamon, Steve
Service reviews effectiveness of resource management plans. *Park science*. 1993, 13(3):13,15.
- Clark, Dave
Interpreting resource management on a self-guiding nature trail. *Park science*. 1993, 13(3):8.
- Coker, Shabica, Stephen V.
A photopoint archival system. *Park science*. 1993, 13(3):31.
- Colfer, Jenness
Illegal collection of plants in units of the national park system. *Park science*. 1993, 13(2):27.
- Colyer, M.
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Connor, Melissa
Effects of fire on cultural resources at Mesa Verde NP. *Park science*. 1993, 13(3):28-30.
- Coriess, Jim
Albright expands leadership and management course. *Park science*. 1993, 13(3):24.
- Cornu, Craig E.
Restoration of estuarine tidelands in South Slough National Research Reserve. *Park science*. 1993, 13(4):14-5.
- Cranston, K. R. (Roe)
Four new videos made in NPs take honors at film festival. *Park science*. 1993, 13(4):27.
- Crawford, Paul
Olympic mountain goat update. *Park science*. 1993, 13(3):15.
- Crook, J. G.
USGS provides baselines for two Alaska parks. *Park science*. 1993, 13(3):11.
- Cunningham, Dick
Campfires and firewood: a global perspective. *Park science*. 1993, 13(4):32.
- Curry, Richard W.
Coastal geology and national parklands: an example from Biscayne NP. *Park science*. 1993, 13(1):4-5.
- Curtin, Gary C.
Energy and mineral resources in and near NP lands. *Park science*. 1993, 13(1):10-11.
- Davila, Vidal
Great Basin NP and USGS cooperate on a geological mapping program. *Park science*. 1993, 13(2):6-7.
- Davis, Gary
NPS team documents hurricane damage at Everglades National Park. *Park science*. 1993, 13(2):4-5.
- de Toledo, Peter M.
New fossil mammals found at Florissant Fossil Beds NM. *Park science*. 1993, 13(4):13.
- Deshier, Elena T.
Colorado Plateau Vegetation Advisory Committee: a working model for standardization. *Park science*. 1993, 13(4):27.
- Devine, Hugh
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Doren, Robert F.
Reorganization of the South Florida Research Center. *Park science*. 1993, 13(3):14-5.
- Ek, David A.
Fort Clatsop schedules wetlands restoration. *Park science*. 1993, 13(4):3.
- Ellison, Laura E.
Southwestern Willow Flycatcher declines in Grand Canyon National Park. *Park science*. 1993, 13(2):12-13.
- Evanoff, Emmett
New fossil mammals found at Florissant Fossil Beds NM. *Park science*. 1993, 13(4):13.
- Ewert, Alan
High altitude mountaineering: visitor types and management preferences. *Park science*. 1993, 13(3):25,27.
- Fels, John
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Fenn, Denny
Director accepts Academy report recommendations. *Park science*. 1993, 13(1):17.
- Flattau, Edward
Dollar value of wetlands. *Park science*. 1993, 13(4):3.
- Floyd-Hanna, Lisa
Effects of fire on cultural resources at Mesa Verde NP. *Park science*. 1993, 13(3):28-30.
- Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Frank, Philip A.
Anastasia Island beach mouse 'at home' at Fort Matanzas National Monument. *Park science*. 1993, 13(1):30-31.
- Gibbons, Stephen T.
Impact monitoring and restoration in Mount Rainier NP. *Park science*. 1993, 13(1):29-30.
- Gough, L.P.
USGS provides baselines for two Alaska parks. *Park science*. 1993, 13(3):11.
- Gregg, Bill
MAB notes. *Park science*. 1993, 13(1):21.
- MAB notes. *Park science*. 1993, 13(2):31.
- Halley, Robert B.
Coastal geology and national parklands: an example from Biscayne NP. *Park science*. 1993, 13(1):4-5.
- Heiker, C.
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
- Herrmann, R.
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
- Hester, F. Eugene
Editorial. *Park science*. 1993, 13(2):2.
- National Biological Survey: a progress report. *Park science*. 1993, 13(3):5.
- Editorial: The National Biological Survey: opening day. *Park science*. 1993, 13(4):2.
- Hostetter, Steve
Modeling the effects of climate change on the thermal structure of Yellowstone Lake. *Park science*. 1993, 13(1):16.
- Hunt, Adrian
Late Triassic vertebrate tracks discovered at Petrified Forest NP. *Park science*. 1993, 13(4):14.
- Hunt, Adrian P.
Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Jackson, Larry
NPS/USGS cooperative biochemistry studies. *Park science*. 1993, 13(1):14.
- Jarvis, Jonathan B.
Action vs. rhetoric: resource management at the crossroads. *Park science*. 1993, 13(3):6-7,10.
- Johnson, Janet L.
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Johnson, Matthew J.
Southwestern Willow Flycatcher declines in Grand Canyon National Park. *Park science*. 1993, 13(2):12-13.
- Kanish, J.F.
Pollen analysis in historical landscape studies: Fort Necessity, Pennsylvania. *Park science*. 1993, 13(2):8-10.
- Kavanagh, Ross
Al Lovaas: 1953-1993 - a professional obituary. *Park science*. 1993, 13(4):7.
- Kelso, G.K.
Pollen analysis in historical landscape studies: Fort Necessity, Pennsylvania. *Park science*. 1993, 13(2):8-10.
- Kendall, D.
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Krohn, Kathleen K.
Energy and mineral resources in and near NP lands. *Park science*. 1993, 13(1):10-11.
- Loy, A.
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Machi, Mark J.
Albright expands leadership and management course. *Park science*. 1993, 13(3):24.
- Marzoff, G. R.
Long-term monitoring and research in Lake Powell. *Park science*. 1993, 13(1):7-9.
- Maser, Chris
Interpretation note. *Park science*. 1993, 13(3):10.
- Matthews, Jean
Editorial. *Park science*. 1993, 13(1):2.
- Book review: Complexity: life at the edge of chaos, by Roger Lewin. *Park science*. 1993, 13(3):19,22.
- Can we afford biodiversity?. *Park science*. 1993, 13(4):11.
- Mayo, Charles W. (Corky)
Interpretation is management. *Park science*. 1993, 13(3):8.
- Mazzeu, L.
Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- McCalpin, James P.
Seasonal and diurnal discharge fluctuations in Medano Creek, Great Sand Dunes National Monument. *Park science*. 1993, 13(4):22-23.
- McClutchen, Henry E.
Ecology of high mountain black bear population in relation to land use at Rocky Mountain NP. *Park science*. 1993, 13(1):25-27.
- McIntyre, Carol L.
Notes from abroad. *Park science*. 1993, 13(2):14.
- McNulty-Huffman, Carol
Window to the past: providing a framework for the future. *Park science*. 1993, 13(2):13.
- Meiman, Joe
Karst groundwater basins: an abstract of analysis. *Park science*. 1993, 13(4):26.
- Modvin, Stephen C.
Using GIS to assess potential impacts of gypsy moth infestations at Great Smoky Mountains NP. *Park science*. 1993, 13(2):26-27.
- Nowak, Enka
Amphibian decline on the Colorado Plateau. *Park science*. 1993, 13(4):10-11.
- Peck, Dallas
USGS and NPS: science partners in the parks. *Park science*. 1993, 13(1):1,32.
- Peterson, David L.
Support tools for I&M decision-making: moving from the ideal to the real. *Park science*. 1993, 13(1):22-23.
- Genetic diversity and protection of alpine heather communities in Mount Rainier National Park. *Park science*. 1993, 13(2):28-29.
- Pojeta, John
Fossils, U.S. Geological Survey and the public lands. *Park science*. 1993, 13(1):15.
- Rafkind, Chuck
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Reed, Nathaniel P.
Dare to save the Everglades. *Park science*. 1993, 13(3):3.
- Rhem, Karen
Service reviews effectiveness of resource management plans. *Park science*. 1993, 13(3):13,15.
- Riehle, James
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
- Rochefort, Regina M.
Impact monitoring and restoration in Mount Rainier NP. *Park science*. 1993, 13(1):29-30.
- Genetic diversity and protection of alpine heather communities in Mount Rainier National Park. *Park science*. 1993, 13(2):28-29.
- Romme, W.
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Romme, William H.
Effects of fire on cultural resources at Mesa Verde NP. *Park science*. 1993, 13(3):28-30.
- Roth, John
Limburger cheese attracts new species to pit traps at Oregon Caves. *Park science*. 1993, 13(1):21.
- Rugh, June C.
Support tools for I&M decision-making: moving from the ideal to the real. *Park science*. 1993, 13(1):22-23.
- Subalpine meadows: a promising indicator of global climate change. *Park science*. 1993, 13(2):10-11.
- Rumlin, Steven S.
Restoration of estuarine tidelands in South Slough National Research Reserve. *Park science*. 1993, 13(4):14-5.
- Samora, B.
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
- Samora, Barbara A.
Nisqually Glacier records a century of climate change. *Park science*. 1993, 13(2):30-31.
- San Miguel, George L.
Turner River restoration at Big Cypress Preserve. *Park science*. 1993, 13(3):16-17.
- Santucci, Vincent L.
Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Late Triassic vertebrate tracks discovered at Petrified Forest NP. *Park science*. 1993, 13(4):14.
- Schmierer, Alan
5th Wilderness Conference addresses changing picture. *Park science*. 1993, 13(4):13.
- Schwalbe, Cecil R.
Status of amphibians in Arizona. *Park science*. 1993, 13(4):10.
- Severson, R.C.
USGS provides baselines for two Alaska parks. *Park science*. 1993, 13(3):11.
- Shafer, Craig
20th Annual Natural Areas Conference. *Park science*. 1993, 13(4):21.
- Shelton, Napier
MAB notes. *Park science*. 1993, 13(2):31.
- MAB notes. *Park science*. 1993, 13(3):31.
- MAB notes. *Park science*. 1993, 13(4):25.
- Singer, Francis J.
Dall sheep trophy hunting in Alaska's parks and preserves: biological implications. *Park science*. 1993, 13(2):24-25.

- Insularity problems in Rocky Mountain bighorns. *Park science*. 1993, 13(3):14-15. Predation of Yellowstone elk calves. *Park science*. 1993, 13(3):18.
- Smith, C.
Pollen analysis in historical landscape studies: Fort Necessity, Pennsylvania. *Park science*. 1993, 13(2):8-10.
- Smith, J. Dungan
Channel margin and eddy bar deposition along the Colorado River in Grand Canyon NP. *Park science*. 1993, 13(1):3-4.
- Sogge, Mark K.
Southwestern Willow Flycatcher declines in Grand Canyon National Park. *Park science*. 1993, 13(2):12-13.
- Soulup, Michael
Reorganization of the South Florida Research Center. *Park science*. 1993, 13(3):1.4-5.
- Starkey, Edward E.
Book review: Extinction: bad genes or bad luck? by David M. Raup. *Park science*. 1993, 13(4):15-16.
- Forest ecosystem management in the Pacific Northwest: a new approach. *Park science*. 1993, 13(4):24-25.
- Stubbs, Tim
Wildland fire management at Carlsbad Caverns NP. *Park science*. 1993, 13(3):26-27.
- Symonds, Kate K.
Predation of Yellowstone elk calves. *Park science*. 1993, 13(3):18.
- Taylor, Dale
Shared Beringian Heritage Program underway. *Park science*. 1993, 13(4):28-30.
- Taylor, H. E.
Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- van Riper, Charles
Book review: ecology and our endangered life-support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- van Riper, Sandra G.
Book review: ecology and our endangered life-support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- Varley, John
Modeling the effects of climate change on the thermal structure of Yellowstone Lake. *Park science*. 1993, 13(1):16.
- Wall, William P.
Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Watson, Alan E.
Wilderness research institute named for Aldo Leopold. *Park science*. 1993, 13(3):12.
- When scientific and cultural values meet. *Park science*. 1993, 13(3):12.
- Williams, Gary
NPS-75 guideline for service. *Park science*. 1993, 13(1):23.
- Winter, Lois
Bridging the communication gap: linking interpreters, resource managers, and researchers. *Park science*. 1993, 13(3):9-10.
- Woodward, Andrea
Subalpine meadows: a promising indicator of global climate change. *Park science*. 1993, 13(2):10-11.
- Zimmerman, Michael
Dollar value of wetlands. *Park science*. 1993, 13(4):3.
- Aldo Leopold Research Institute**
Wilderness research institute named for Aldo Leopold. *Park science*. 1993, 13(3):12.
- Amphibians**
Regional highlights. *Park science*. 1993, 13(3):20-22.
- Declining amphibian populations in perspective. *Park science*. 1993, 13(4):8-9.
- Status of amphibians in Arizona. *Park science*. 1993, 13(4):10.
- Amphibian decline on the Colorado Plateau. *Park science*. 1993, 13(4):10-11.
- Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Baselines**
USGS provides baselines for two Alaska parks. *Park science*. 1993, 13(3):11.
- Beach mice**
Anastasia Island beach mouse 'at home' at Fort Matanzas National Monument. *Park science*. 1993, 13(1):30-31.
- Bears**
Ecology of high mountain black bear population in relation to land use at Rocky Mountain NP. *Park science*. 1993, 13(1):25-27.
- Bears found to be significant predators of neonatal ungulates across North America. *Park science*. 1993, 13(3):18.
- Beringian research**
Shared Beringian Heritage Program underway. *Park science*. 1993, 13(4):28-30.
- Bighorn sheep**
Insularity problems in Rocky Mountain bighorns. *Park science*. 1993, 13(3):14-15.
- Biochemistry studies**
NPS/USGS cooperative biochemistry studies. *Park science*. 1993, 13(1):14.
- Biodiversity**
Interpreters note! *Park science*. 1993, 13(3):10.
- Can we afford biodiversity? *Park science*. 1993, 13(4):11.
- Biological control**
Regional highlights. *Park science*. 1993, 13(1):19-20.
- Biological invasion**
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Biosphere reserves**
MAB notes. *Park science*. 1993, 13(1):21.
- MAB notes. *Park science*. 1993, 13(2):31.
- MAB notes. *Park science*. 1993, 13(3):31.
- MAB notes. *Park science*. 1993, 13(4):25.
- Bird species**
Letters. *Park science*. 1993, 13(4):23.
- Book reviews**
Book review: Complexity: life at the edge of chaos, by Roger Lewin. *Park science*. 1993, 13(3):19-22.
- Book review: Extinction: bad genes or bad luck? by David M. Raup. *Park science*. 1993, 13(4):15-16.
- Book review: ecology and our endangered life support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- Campfires**
Campfires and firewood: a global perspective. *Park science*. 1993, 13(4):32.
- Caribbean**
Information crossfile. *Park science*. 1993, 13(2):22-23.
- Cave survey**
Regional highlights. *Park science*. 1993, 13(3):20-22.
- Caves**
Limburger cheese attracts new species to pit traps at Oregon Caves. *Park science*. 1993, 13(1):21.
- Chaos**
Book review: Complexity: life at the edge of chaos, by Roger Lewin. *Park science*. 1993, 13(3):19-22.
- Climate change**
Modeling the effects of climate change on the thermal structure of Yellowstone Lake. *Park science*. 1993, 13(1):16.
- Climatic changes**
Climate change conference. *Park science*. 1993, 13(1):17.
- Subalpine meadows: a promising indicator of global climate change. *Park science*. 1993, 13(2):10-11.
- Coral**
Coastal geology and national parklands: an example from Biscayne NP. *Park science*. 1993, 13(1):4-5.
- Coral colonies' violent chemical warfare. *Park science*. 1993, 13(2):31.
- Cost benefit analysis**
Regional highlights. *Park science*. 1993, 13(3):20-22.
- CPSU program**
Regional highlights. *Park science*. 1993, 13(2):20.
- Crater Lake**
Crater Lake study peer review panel meets. *Park science*. 1993, 13(2):27.
- Cultural resources**
Effects of fire on cultural resources at Mesa Verde NP. *Park science*. 1993, 13(3):28-30.
- Dall sheep**
Dall sheep trophy hunting in Alaska's parks and preserves: biological implications. *Park science*. 1993, 13(2):24-25.
- Database mapping**
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Decision-making**
Support tools for I&M decision-making: moving from the ideal to the real. *Park science*. 1993, 13(1):22-23.
- Dinosaurs**
Tracking dinosaurs in Virginia and Arizona. *Park science*. 1993, 13(1):1.
- Directories**
New natural resources directory available on discs. *Park science*. 1993, 13(4):6.
- Dutch elm disease**
Regional highlights. *Park science*. 1993, 13(1):18.
- Ecology**
Book review: ecology and our endangered life-support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- Elk**
Predation of Yellowstone elk calves. *Park science*. 1993, 13(3):18.
- Endangered species**
T & E workshop in Southwest draws on several agencies. *Park science*. 1993, 13(4):27.
- Energy assessments**
Energy and mineral resources in and near NP lands. *Park science*. 1993, 13(1):10-11.
- Environmental change**
Information crossfile. *Park science*. 1993, 13(2):22-23.
- Estuaries**
Restoration of estuarine tidelands in South Slough National Research Reserve. *Park science*. 1993, 13(4):1.4-5.
- Everglades**
Reorganization of the South Florida Research Center. *Park science*. 1993, 13(3):1.4-5.
- Dare to save the Everglades. *Park science*. 1993, 13(3):3.
- Extinction**
Book review: Extinction: bad genes or bad luck? by David M. Raup. *Park science*. 1993, 13(4):15-16.
- Fire management**
Wildland fire management at Carlsbad Caverns NP. *Park science*. 1993, 13(3):26-27.
- Fire research**
Wildland fire management at Carlsbad Caverns NP. *Park science*. 1993, 13(3):26-27.
- Fires**
Effects of fire on cultural resources at Mesa Verde NP. *Park science*. 1993, 13(3):28-30.
- Firewood**
Campfires and firewood: a global perspective. *Park science*. 1993, 13(4):32.
- Flood control**
Hot Springs NP considers floodcontrol alternatives. *Park science*. 1993, 13(4):26.
- Fluorescence**
Coastal geology and national parklands: an example from Biscayne NP. *Park science*. 1993, 13(1):4-5.
- Forest ecosystems**
Forest ecosystem management in the Pacific Northwest: a new approach. *Park science*. 1993, 13(4):24-25.
- Forest management**
Forest ecosystem management in the Pacific Northwest: a new approach. *Park science*. 1993, 13(4):24-25.
- Fossil tracks**
Late Triassic vertebrate tracks discovered at Petrified Forest NP. *Park science*. 1993, 13(4):14.
- Fossils**
Tracking dinosaurs in Virginia and Arizona. *Park science*. 1993, 13(1):1.
- Fossils, U.S. Geological Survey and the public lands. *Park science*. 1993, 13(1):15.
- New fossil mammals found at Florissant Fossil Beds NM. *Park science*. 1993, 13(4):13.
- Genetic diversity**
Genetic diversity and protection of alpine heather communities in Mount Rainier National Park. *Park science*. 1993, 13(2):28-29.
- Geologic maps**
Geologic maps and digital data sets: their role in management and preservation of NPS lands. *Park science*. 1993, 13(1):11-12.
- Great Basin NP and USGS cooperate on a geologic mapping program. *Park science*. 1993, 13(2):6-7.
- GIS**
Geologic maps and digital data sets: their role in management and preservation of NPS lands. *Park science*. 1993, 13(1):11-12.
- Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Great Basin NP and USGS cooperate on a geologic mapping program. *Park science*. 1993, 13(2):6-7.
- Using GIS to assess potential impacts of gypsy moth infestations at Great Smoky Mountains NP. *Park science*. 1993, 13(2):26-27.
- Glaciers**
Nisqually Glacier records a century of climate change. *Park science*. 1993, 13(2):30-31.
- Glen Canyon Dam**
Channel margin and eddy bar deposition along the Colorado River in Grand Canyon NP. *Park science*. 1993, 13(1):3-4.
- Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- Grizzly bears**
Regional highlights. *Park science*. 1993, 13(1):18.
- Groundwater**
Karst groundwater basins: an abstract of analysis. *Park science*. 1993, 13(4):26.

Acidification

Regional highlights. *Park science*. 1993, 13(1):18.

Africanized honey bees

Regional highlights. *Park science*. 1993, 13(1):19-20.

Air quality

Window to the past: providing a framework for the future. *Park science*. 1993, 13(2):1.3.

Aldo Leopold Award

Dave Mech receives national award. *Park science*. 1993, 13(4):32.

- Gypsy moths**
Using GIS to assess potential impacts of gypsy moth infestations at Great Smoky Mountains NP. *Park science*. 1993, 13(2):26-27.
- Heather**
Genetic diversity and protection of alpine heather communities in Mount Rainier National Park. *Park science*. 1993, 13(2):28-29.
- Historical landscapes**
Pollen analysis in historical landscape studies: Fort Necessity, Pennsylvania. *Park science*. 1993, 13(2):8-10.
- Hunting**
Dall sheep trophy hunting in Alaska's parks and preserves: biological implications. *Park science*. 1993, 13(2):24-25.
- Hurricane Andrew**
Regional highlights. *Park science*. 1993, 13(1):19-20.
NPS team documents hurricane damage at Everglades National Park. *Park science*. 1993, 13(2):4-5.
- Illegal collection of plants**
Illegal collection of plants in units of the national park system. *Park science*. 1993, 13(2):27.
- Impact monitoring**
Impact monitoring and restoration in Mount Rainier NP. *Park science*. 1993, 13(1):29-30.
- Interagency cooperation**
USGS and NPS: science partners in the parks. *Park science*. 1993, 13(1):1-32.
- Interpretation**
Interpretation is management. *Park science*. 1993, 13(3):8.
Bridging the communication gap: linking interpreters, resource managers, and researchers. *Park science*. 1993, 13(3):9-10.
- Introduced plants**
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Inventory and monitoring**
Support tools for I&M decision-making: moving from the ideal to the real. *Park science*. 1993, 13(1):22-23.
NPS-75: guideline for service. *Park science*. 1993, 13(1):23.
- Journals**
Information crossfile. *Park science*. 1993, 13(1):17.
New mountain journal originates in Slovakia. *Park science*. 1993, 13(2):19.
Regional highlights. *Park science*. 1993, 13(2):20.
Information crossfile. *Park science*. 1993, 13(2):22-23.
- Karst**
Karst groundwater basins: an abstract of analysis. *Park science*. 1993, 13(4):26.
- Lake modeling**
Modeling the effects of climate change on the thermal structure of Yellowstone Lake. *Park science*. 1993, 13(1):16.
- Lake Powell**
Long-term monitoring and research in Lake Powell. *Park science*. 1993, 13(1):7-9.
- Land acquisition**
Information crossfile. *Park science*. 1993, 13(3):23-24.
- Lewin, Roger**
Book review: Complexity: life at the edge of chaos, by Roger Lewin. *Park science*. 1993, 13(3):19-22.
- Life support systems**
Book review: ecology and our endangered life-support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- Limnology**
Crater Lake final report. *Park science*. 1993, 13(3):24.
- Lovaas, Al**
Al Lovaas: 1953-1993 - a professional obituary. *Park science*. 1993, 13(4):7.
- Mapping**
Data base mapping and management at Colonial NHP. *Park science*. 1993, 13(1):28.
- Meadows**
Window to the past: providing a framework for the future. *Park science*. 1993, 13(2):1-3.
- Mech, L. David**
Dave Mech receives national award. *Park science*. 1993, 13(4):32.
- Medicinal plants**
Illegal collection of plants in units of the national park system. *Park science*. 1993, 13(2):27.
- Meetings**
Meetings of interest. *Park science*. 1993, 13(1):24.
Ecological Society meeting. *Park science*. 1993, 13(1):24.
Meetings of interest. *Park science*. 1993, 13(2):19.
Meetings of interest. *Park science*. 1993, 13(3):11.
Meetings of interest. *Park science*. 1993, 13(4):21.
T & E workshop in Southwest draws on several agencies. *Park science*. 1993, 13(4):27.
- Metoposaurus**
Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Mice**
Anastasia Island beach mouse 'at home' at Fort Matanzas National Monument. *Park science*. 1993, 13(1):30-31.
- Mineral resources**
Energy and mineral resources in and near NP lands. *Park science*. 1993, 13(1):10-11.
- Mountain goats**
Olympic mountain goat update. *Park science*. 1993, 13(3):15.
- Mountaineering**
High altitude mountaineering: visitor types and management preferences. *Park science*. 1993, 13(3):25-27.
- Mountains**
New mountain journal originates in Slovakia. *Park science*. 1993, 13(2):19.
National Biological Survey
Editorial. *Park science*. 1993, 13(2):2.
National Biological Survey: a progress report. *Park science*. 1993, 13(3):5.
Editorial: The National Biological Survey: opening day. *Park science*. 1993, 13(4):2.
Some additional thoughts on the NBS. *Park science*. 1993, 13(4):31.
- Natural areas**
20th Annual Natural Areas Conference. *Park science*. 1993, 13(4):21.
- Natural resource monitoring**
Window to the past: providing a framework for the future. *Park science*. 1993, 13(2):1-3.
- Natural resources**
New natural resources directory available on discs. *Park science*. 1993, 13(4):6.
- Nature**
Biology colloquium explores harmony with nature. *Park science*. 1993, 13(3):32.
- Newsletters**
Bajada takes prize. *Park science*. 1993, 13(4):6.
- NPS publications**
Publication order form. *Park science*. 1993, 13(2):32.
Interpretive handout. *Park science*. 1993, 13(4):6.
- Odum, Eugene P.**
Book review: ecology and our endangered life-support systems, by Eugene P. Odum. *Park science*. 1993, 13(4):15.
- Paleoecology**
Paleoecology of Late Triassic metoposaurid amphibians: evidence from Petrified Forest National Park. *Park science*. 1993, 13(4):12.
- Park management**
Action vs. rhetoric: resource management at the crossroads. *Park science*. 1993, 13(3):6-7, 10.
Albright expands leadership and management course. *Park science*. 1993, 13(3):24.
- Park Science Index**
Index for volume 12. *Park science*. 1993, 13(2):15-18.
- Photographic archives**
A photopoint archival system. *Park science*. 1993, 13(3):31.
- Pollen analysis**
Pollen analysis in historical landscape studies: Fort Necessity, Pennsylvania. *Park science*. 1993, 13(2):8-10.
- Public lands**
Fossils, U.S. Geological Survey and the public lands. *Park science*. 1993, 13(1):15.
- Publications**
Information crossfile. *Park science*. 1993, 13(1):17.
Regional highlights. *Park science*. 1993, 13(1):19-20.

- Information crossfile**. *Park science*. 1993, 13(3):23-24.
- Regional highlights**. *Park science*. 1993, 13(4):20-21.
- Radio collars**
Predation of Yellowstone elk calves. *Park science*. 1993, 13(3):18.
- Motion-sensitive collars: a technological breakthrough**. *Park science*. 1993, 13(3):18.
- Raptors**
Notes from abroad. *Park science*. 1993, 13(2):14.
- Raup, David M.**
Book review: Extinction: bad genes or bad luck? by David M. Raup. *Park science*. 1993, 13(4):15-16.
- Research**
Action vs. rhetoric: resource management at the crossroads. *Park science*. 1993, 13(3):6-7, 10.
Bridging the communication gap: linking interpreters, resource managers, and researchers. *Park science*. 1993, 13(3):9-10.
- Reservoirs**
Long-term monitoring and research in Lake Powell. *Park science*. 1993, 13(1):7-9.
- Resource allocation**
Support tools for I&M decision-making: moving from the ideal to the real. *Park science*. 1993, 13(1):22-23.
- Resource management**
Action vs. rhetoric: resource management at the crossroads. *Park science*. 1993, 13(3):6-7, 10.
Interpreting resource management on a self-guiding nature trail. *Park science*. 1993, 13(3):8.
Bridging the communication gap: linking interpreters, resource managers, and researchers. *Park science*. 1993, 13(3):9-10.
- Resource management planning**
Service reviews effectiveness of resource management plans. *Park science*. 1993, 13(3):13, 15.
- Resource management training**
Resource management program trains 117 in 10 years. *Park science*. 1993, 13(2):31.
- Restoration**
Impact monitoring and restoration in Mount Rainier NP. *Park science*. 1993, 13(1):29-30.
Dare to save the Everglades. *Park science*. 1993, 13(3):3.
- Restoration of estuarine tidelands in South Slough National Research Reserve**. *Park science*. 1993, 13(4):1, 4-5.
- Fort Clatsop schedules wetlands restoration**. *Park science*. 1993, 13(4):3.
- Wild turkey restoration at Indiana Dunes**. *Park science*. 1993, 13(4):19.
- Restoration ecology**
Information crossfile. *Park science*. 1993, 13(2):22-23.
- Riparian ecosystems**
Channel margin and eddy bar deposition along the Colorado River in Grand Canyon NP. *Park science*. 1993, 13(1):3-4.
- River restoration**
Turner River restoration at Big Cypress Preserve. *Park science*. 1993, 13(3):16-17.
- Rivers**
Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- Scientific research**
Director accepts Academy report recommendations. *Park science*. 1993, 13(1):17.
- Sediment**
Channel margin and eddy bar deposition along the Colorado River in Grand Canyon NP. *Park science*. 1993, 13(1):3-4.
- South Florida Research Center**
Reorganization of the South Florida Research Center. *Park science*. 1993, 13(3):1, 4-5.
- South Slough National Research Reserve**
Restoration of estuarine tidelands in South Slough National Research Reserve. *Park science*. 1993, 13(4):1, 4-5.
- Stream fluctuations**
Seasonal and diurnal discharge fluctuations in Medano Creek, Great Sand Dunes National Monument. *Park science*. 1993, 13(4):22-23.
- Subalpine meadows**
Subalpine meadows: a promising indicator of global climate change. *Park science*. 1993, 13(2):10-11.
- Succession**
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Thistles**
Succession and biological invasion at Mesa Verde NP. *Park science*. 1993, 13(4):16-18.
- Trails**
Regional highlights. *Park science*. 1993, 13(1):18.
Interpreting resource management on a self-guiding nature trail. *Park science*. 1993, 13(3):8.
- Triassic Period**
Late Triassic vertebrate tracks discovered at Petrified Forest NP. *Park science*. 1993, 13(4):14.
- Turkeys**
Wild turkey restoration at Indiana Dunes. *Park science*. 1993, 13(4):19.
- U.S. Geological Survey**
USGS and NPS: science partners in the parks. *Park science*. 1993, 13(1):1-32.
NPS/USGS cooperative biochemistry studies. *Park science*. 1993, 13(1):14.
- Fossils, U.S. Geological Survey and the public lands**. *Park science*. 1993, 13(1):15.
- Great Basin NP and USGS cooperate on a geologic mapping program**. *Park science*. 1993, 13(2):6-7.
- USGS provides baselines for two Alaska parks**. *Park science*. 1993, 13(3):11.
- Ungulates**
Bears found to be significant predators of neonatal ungulates across North America. *Park science*. 1993, 13(3):18.
- Vegetation classification**
Colorado Plateau Vegetation Advisory Committee: a working model for standardization. *Park science*. 1993, 13(4):27.
- Videos**
Four new videos made in NPs take honors at film festival. *Park science*. 1993, 13(4):27.
- Visitor surveys**
High altitude mountaineering: visitor types and management preferences. *Park science*. 1993, 13(3):25-27.
- Volcanoes**
Volcano studies in national parks: USGS helps NPS to keep a watchful eye on restless volcanoes while improving our understanding. *Park science*. 1993, 13(1):6-7.
Regional highlights. *Park science*. 1993, 13(2):20.
- Water quality**
Measuring Colorado water quality in the Grand Canyon NP. *Park science*. 1993, 13(1):12-14.
- Wetlands**
Restoration of estuarine tidelands in South Slough National Research Reserve. *Park science*. 1993, 13(4):1, 4-5.
Fort Clatsop schedules wetlands restoration. *Park science*. 1993, 13(4):3.
Dollar value of wetlands. *Park science*. 1993, 13(4):3.
- Wilderness**
When scientific and cultural values meet. *Park science*. 1993, 13(3):12.
5th Wilderness Conference addresses changing picture. *Park science*. 1993, 13(4):13.
- Wilderness research**
Wilderness research institute named for Aldo Leopold. *Park science*. 1993, 13(3):12.
- Willow Flycatcher**
Southwestern Willow Flycatcher declines in Grand Canyon National Park. *Park science*. 1993, 13(2):12-13.
- Wolves**
Regional highlights. *Park science*. 1993, 13(3):20-22.
