Park Science (ISSN-0735-9462) is a quarterly science and resource management bulletin that reports recent and ongoing natural and social science research, its implications for park planning and management, and its application in resource management. The bulletin is published in January, April, July, and October for distribution to interested parties. Please advise the editor of address changes.

The editor welcomes submissions of case studies and feature articles. See volume 14, number 4, page 13 for complete submission criteria or contact the editor at:
