The National Register of Historic Places Office of the National Park Service has arranged with the U.S. Government Printing Office to sell reprints of the popular book, *Presenting Nature: the Historic Landscape Design of the National Park Service, 1916-1942*. In this 314-page study, author Linda Flint McClelland documents the rich legacy of scenic roads, trails, picturesque park villages, campgrounds, picnic areas, and scenic overlooks built by craftsmen in the national parks using naturalistic design techniques. She describes a wonderful period in NPS history when park designers met the challenge of developing parks for visitor enjoyment while ensuring resource preservation through the evolution of a naturalistic ethic. She also examines the master planning process of the era. The book is available at a cost of \$20 from the Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954, (stock number 024-005-01140-4).
