"Managing People in Parks and Forests" is the title of a weeklong workshop to be held April 1-5 at Oregon State University under the joint aegis of the National Park Service, the USDA Forest Service, and the OSU Resource Recreation Management Department. Don Field of the OSU/CPSU, will direct the workshop, the focus of which is on how to manage people in recreation settings and the use of social science statistics in the decision-making process. The objective is to provide the foundations for looking and planning for the decade of the 90s. Faculty for the workshop will come from the University of Washington, the University of Idaho, Utah State University, OSU, the USFS Pacific Northwest Forest and Range Experiment Station in Seattle, the USFS Intermountain Forest and Range Experiment Station in Missoula, Mont., and Colorado State University. The conference fee of \$250 includes all materials and the opening dinner.

"An Analysis of Cruiseship Passenger Characteristics, Activity Patterns and Evaluation of Recreation Opportunities in Southeast Alaska," by Barbara A. Koth, Donald R. Field, and Roger N. Clark is now available at CPSU/OSU 85-2, a publication of the National Park Service's Cooperative Park Studies Unit at Oregon State University's College of Forestry, Corvallis, OR 97331. The 125-page study summarizes cruiseship travel in Southeast Alaska in 1979, a year when the number of travelers and cruiseships in the region represented a high point. This first industry-wide survey for Southeast Alaska provides a data base for monitoring change during the Eighties.

An unpublished report on mountain goat investigations conducted in 1983 at Olympic National Park is available now, from the park, to park scientists and their collaborators. By the end of March, ONP scientists expect to have available another unpublished report, summarizing all the work done in this area from 1981 through 1984.

The NPS Cooperative Park Studies Unit at Oregon State University now has available two publications — the *Annual Report for 1984* (CPSU/OSU 85-1) and a four-page brochure entitled *Cooperative Park Studies Unit* (CPSU/OSU 85-3). The Annual Report describes the wildlife and aquatic biology programs, the social science program, and the editorial services available through the Unit. It also includes summaries of the research projects, summaries of science applications, a round-up of 1984 publication activities, and a cumulative list of publications, theses, and CPSU reports from 1976 (when the Unit was established) through 1983.

A 308-page volume, comprising the *Proceedings of the Olympic Wild Fish Conference* held in March 1983 at Olympic National Park, has been published by Peninsula College, 1502 E. Lauridsen Blvd., Port Angeles, WA 98362.

Edited by Douglas B. Houston, research biologist with the NPS Pacific Northwest Region, and J.M. Walton, of Peninsula College's Fisheries Technology Program, the publication contains the 35 papers presented in the following areas: Genetic differentiation of wild fish stocks; Lake studies and management strategies; Agency management of wild fish stocks;

Cutthroat trout; Salmon; Steelhead; and Perspectives.

Copies of the *Proceedings* may be had from Peninsula College for \$15 each.
