

Pacific Northwest Region

A 65-page report, covering the second of a three-year experimental management program and titled *Mountain Goat Ecology and Management Investigations at Olympic National Park*, is now in publication form. Its authors, J. Aho, D. Houston, B. Moorhead, E. Schreiner, and R. Starr are all NPS employees. The third report, covering this year's experimental management program, will complete the study of Olympic NP goats and their capacity as an exotic species to alter pristine ecological relationships, and should contribute substantially to the ecological information on mountain goats – one of the least known unquulates of North America.

Gary E. Machlis, CPSU Sociology Project Leader at the University of Idaho and Donald R. Field, CPSU Sociology Project Leader at Oregon State University are editors of a book soon to be published by Oregon State Press (publication date Spring 1984). The tentative title is *On Interpretation: Sociology for the Communication of Natural and Cultural History*. The theme of the book is the application of sociology to interpretation. The volume is a collection of readings from over 10 years of research on selected clientele groups for whom interpreters provide natural and cultural history programs.

Donald R. Field, senior scientist (sociologist) and former Chief Scientist of the PNR, now at the Oregon State University NPS/CPSU, has received the 1983 Theodore and Franklin Roosevelt award for excellence in recreation and park research from the National Recreation and Park Association. The award was presented on October 2 by Harry G. Haskell, Jr., chairman of the NRPA board of trustees, at the NRPS Congress in Kansas City, MO.
