Dee C. Hansen
State Engineer, State of Utah
Department of Natural Resources
442 State Capitol Building
Salt Lake City, Utah 84114

Dear Mr. Hansen:

We received your notification of the lapse of Application No. 37063 (05-591). This spring has been dry for many years and we see no reason to continue requests to perfect a water right at this location. We are not now using water from the spring nor do we plan to proceed with any development of the spring now or in the future.

Sincerely yours,

(Sgd.) Richard W. Ketcham

Richard W. Ketcham
Supervisory Hydraulic Engineer

cc:
WASO-PNH w/enc*
Supt., CANY w/enc*

*Please place the enclosures in
Water Right Docket No. 2, CANY

F.S. Supt., Canyonlands was contacted by telephone concerning this water right and he concurred that the spring was dry and would not be put to use in the future. Bill Mekeel proposed that we abandon these water rights where there is no intention of use by us rather than continue to ask for extensions of time. RWK

Gentlemen:

RE: APPLICATION NO. 37063 (05-591)

We regret to notify you that under the law the above-numbered application has permanently lapsed. You have lost the right initiated by this application.

If you are using this water without proper authority, you are performing an illegal act and must discontinue this practice until proper procedures have been followed.

If you have further questions that we might answer or if we can assist you in solving the problems created by your allowing this application to lapse, we will be happy to do so.

Yours truly,

A handwritten signature in cursive script, reading "Dee C. Hansen", is written over the typed name.

Gentlemen:

Re: Appl. No. 37063 (05-591)

The above-numbered application lapsed on February 28, 1973 because neither proof nor an election nor an extension request was received on or before that date.

Under Utah Laws an application which has lapsed because proof was not submitted or an election was not filed (in areas under an adjudication order of the court) or an extension of time was not requested with proper showing of diligence may be reinstated within sixty days after notice of lapsing.

REQUEST FOR REINSTATEMENT CANNOT BE RECEIVED LATER THAN SIXTY DAYS FROM THE DATE HEREOF. IF YOUR APPLICATION IS REINSTATED, ITS PRIORITY DATE WILL BE CHANGED TO THE DATE ON WHICH REQUEST FOR REINSTATEMENT IS FILED.

Yours truly,

A handwritten signature in cursive script, reading "John Bene", is written over a circular stamp. The stamp contains the text "DEPUTY STATE ENGINEER".

San Francisco, California 94102

William E. Fields, being first duly sworn that he is the (agent of the) owner of the above-numbered application; that he knows of his own knowledge of the construction of works completed to date.

Describe briefly the type and extent of construction completed to date; cost of this construction, and the estimated cost of any remaining construction to be done for completion of project and to submit Proof of Appropriation. Give reasons why the work could not be completed and water put to beneficial use within time heretofore allowed. An 8" diameter well has been completed to a depth of 77'. It is cased to the bottom with 6" steel casing. Total cost was \$1,997.00. The water will be distributed to visitor center and 100 unit campground located in the Needles District of Canyonlands.

Under this same application is a stream diversion on Squaw Springs; The diverting and carrying works will consist of collection gallery and 1000' of 2" pipe to serve the campground along with the well system. The total expenditure for the project is estimated to be \$65,000.00. No further development has taken place at this site due to reductions in finances. As soon as finances become available, the proposed development will Request is made for reinstatement and extension of time for filing proof to be completed.

from February 28, 1969, to February 28, 1974

Affiant understands he will be notified of a hearing date, at which time he or his representative must attend, be able to defend data given; and affiant upon oath states that the information given above is to the best of his knowledge true and correct.

Enc. Memorandum Decision
Copy of Approved Application

A P P L I C A T I O N

A P P R O V E D

BEFORE THE STATE ENGINEER OF THE STATE OF UTAH

IN THE MATTER OF APPLICATION

NO. 37063 (05-591)

MEMORANDUM DECISION

Application No. 37063 (05-591) was filed by the United States of America, National Park Service to appropriate 0.0156 sec.-ft. of water from Squaw Springs in Sec. 25, T30S, R19E, for the domestic purposes of 20,000 visitors per year and for the irrigation of 3 acres of land, at the Needles District within Canyonlands National Park. The application was protested by Scorup-Somerville Cattle Company; and a hearing was held in the San Juan County Courthouse, Monticello, Utah, on June 23, 1966.

The protestant is the owner of a water right on Squaw Springs as evidenced by Diligence Claim No. 1225 (05-580), for stockwatering purposes of 500 head of cattle. The applicant recognizes the prior rights of the protestant for stockwatering purposes; it is the applicant's opinion that there is sufficient water for both uses. It is the opinion of this office that there is unappropriated water in that spring.

It is, therefore, ordered and Application No. 37063 (05-591) is hereby APPROVED, subject to all prior rights specifically those of the protestant and with the condition that the applicant provide sufficient facilities to enable the protestant to use their prior rights.

This decision is subject to the provisions of Section 73-3-14, Utah Code Annotated, 1953, which provides for plenary review by the filing of a civil action in the appropriate District Court within sixty days from the date hereof.

Dated this 22nd day of July, 1966.

Memorandum

To: Supervisory Hydraulic Engineer, SSC

From: Hydraulic Engineer, SSC, Santa Fe

Subject: Protest Hearing Squaw Springs Water Right Application
No. 37063, Canyonlands National Park

As you know the subject hearing was conducted at the San Juan County Courthouse, Monticello, Utah, on June 23, 1966. The State Engineer's office was represented by Mr. Donald Stewart, Appropriations Engineer, and Mr. Earl Staker, Area Engineer for Water Rights, from Price, Utah. The Protestant, i.e. Indian Creek Cattle Company (who has purchased the Scorup-Somerville Ranch) was represented by Mr. Robert Redd.

The Squaw Springs Application No. 37063 was the first of a series which will be necessary at Canyonlands National Park. The local ranchers have filed diligence rights for stockwatering on nearly every available spring and we need to file for domestic and irrigation use. However before we can make these applications an accurate survey must be made of each spring and flow measurement and spring condition must be obtained.

The subject application was protested by the cattle company based on prior rights. Our answer to the protest emphasized that we acknowledged their prior rights for stockwatering purposes but that we believe the maximum possible uses of these sources for stockwatering would still leave a sufficient amount of flow for domestic and irrigation purposes; that the spring flows from 5 to 7 gpm and that the barren lands surrounding the spring will not sustain more than 10 head of cattle per section. The Protestants stated that it was their belief that more than 10 head of cattle per section could graze for short periods of time during the spring of the year. They also requested that any declaration to the United States of America would include insurance that any

development of the spring must provide a facility that would provide a stockwatering law.

It was generally agreed that even a heavy useage during a short period would only require $1/3$ of the average total flow.

As a result of this hearing I believe that the application will be approved by the State Engineer.

We are inserting a copy of this into Docket No. 2 and by copies of this memorandum are sending it to the Washington office and the Superintendent, Canyonlands, for insertion in their dockets.

OPTIONAL FORM NO. 10
5010-104

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. William E. Fields, Hydraulic Engineer DATE: June 24, 1966

FROM : Ronald E. Cotten, Supv. Civil Engineer

SUBJECT: Protest Hearing, Squaw Spring Water Rights, June 23, 1966

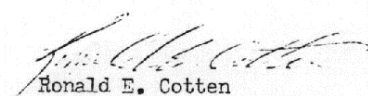

As per your request, I attended the subject hearing at the San Juan County House, Monticello, Utah. The hearing was conducted by Mr. Donald Stewart, Appropriations Engineer, State Engineer's Office and Mr. Earl Staker, Area Engineer for Water Rights, Price, Utah. The Protestant, Indian Creek Cattle Company, was represented by Mr. Robert Redd, son of the owner Charles H. Redd.

The hearing was called to order at approximately 10:00 am on Protest of Application No. 37063. The Application was protested by the Indian Creek Cattle Company (formerly Scorup-Somerville Cattle Company). As the representative of the United States of America, National Park Service, I restated our reply to the protest, dated December 14, 1965, and emphasized that we have acknowledged the Protestants prior rights for stockwatering purposes, but that we believe that the maximum possible useage of this source for stockwatering would leave a significant amount of flow for domestic and irrigation purposes. Mr. Redd, presenting the case for the Protestant, stated that it was their belief that more than 10 head of cattle per section could graze in this area for short periods of time during the Spring of the year, if it was not used during the remainder of the year. He also requested that any declaration to the United States of America, National Park Service include insurance that any development of the Spring by them must provide a facility that would provide the stockwatering flow first.

During a short discussion which followed, it was generally agreed that even the heavy useage during a short period would only require approximately one-third of the average total flow and this would occur during a period when our requirement would be reduced.

As a result of this hearing, I believe that the application will be approved by the State Engineer, with a possible clause requiring that their (Indian Creek Cattle Co.) needs be fulfilled prior to any useage by the Government.

The hearing was ended at approximately 10:30 am.

Gentlemen: RE: APPLICATION TO APPROPRIATE WATER NO.
05-591 (37063)

4?

Relative to the above-numbered application which you have filed for 0.0156 sec.-feet of water from Squaw Springs in San Juan County, Utah, you state that there will be a "collection gallery" at said springs. This indicates that Squaw Springs is actually a spring area rather than a spring with a single point of issuance.

The state water law requires that if the intended diversion is to be from a spring area, such area must be described by a closed traverse with reference to a regularly established U. S. Land Survey corner. In order for your application to be further processed, would you please furnish this office with this additional information.

Please reply within 20 days from the date of this letter.

Sincerely,

S. Bryce Montgomery
S. Bryce Montgomery

IN THE OFFICE OF THE STATE ENGINEER OF THE STATE OF UTAH

IN THE MATTER OF APPLICATION :
 837063 (05-951) of the UNITED : REBUTTAL OF UNITED STATES OF
 STATES OF AMERICA, NATIONAL PARK : AMERICA'S ANSWER TO PROTEST OF
 SERVICE. : SCORUP-SOMERVILLE CATTLE COMPANY

Comes now the Protestant, the Scorup-Somerville Cattle Company, by and through its president Robert B. Redd, and respectfully rebuts the answer to protest filed with the Utah state Engineer's Office in December 1965 over the name of Roger W. Allin, Acting Regional Director of the National Park Service as follows:

1. The Applicant's statement that the area of Squaw Springs is "in an area where it is not practicable to graze over 10 head of cattle to a section" is very misleading. In the first place cattle are not grazed in this area on a year long basis, but rather, cattle are grazed for short periods during the winter. Cattle can trail a mile or mile and one half to water so this water can serve stock watering purposes in a circle with the radius of $1\frac{1}{2}$ miles. A circle of this size contains in excess of 7 square miles or the equivalent of 7 sections. If ten cattle can graze each section for 12 months then 840 cattle can graze 7 sections for one month. If the grazing season is two months these 7 sections would handle 420 cattle.

2. The Protestant has used Squaw Springs for stockwatering purposes for many years and the right to so use this water is supported by the Protestant's Diligence Claim No. 1225.

WHEREFORE, the Protestant respectfully asks that the Application not be approved if it will in any way or at any time prevent 500 cattle from coming to the spring and getting a GOOD, LONG DRINK.

SCORUP-SOMERVILLE CATTLE COMPANY

#37063 (05-951) of the UNITED : ANSWER TO PROTEST OF SCORUP-
STATES OF AMERICA, NATIONAL PARK : SOMERVILLE CATTLE COMPANY
SERVICE. :

Comes now the Applicant, the United States of America, by and through
Roger W. Allin Acting Regional Director of the National Park Service,
Department of the Interior, and respectively answers the protest filed
November 5, 1965, with the State Engineer as follows:

1. We acknowledge that the Protestant is the owner of a water
right in Squaw Springs in Section 25, T. 30 S., R. 19 E., SLM, as shown
by Diligence Claim No. 1225 (05-580) for stockwatering purposes.
2. Our Application purposes to appropriate water for domestic
and irrigation rights.
3. Protestant's Diligence Claim No. 1225 purports to appropriate
water for 500 head of cattle in an area where it is not practicable to
graze over 10 head of cattle to a section.
4. The purpose under our Application will not impair the existing
rights of the Protestant because there is sufficient water available to
satisfy the claim of the Protestant and the use contemplated by the
Applicant under the above Application because the total volumetric use
under our Application will be a small percentage of the total flow of
the spring.

WHEREFORE, the Applicant respectively prays that the Application
be approved.

AUG 6 1965

State Engineer of Utah
403 State Capitol
Salt Lake City 14, Utah

Dear Sir:

RE: Application to Appropriate Water
No. 05-591 (37064)

We received your inquiry of July 26 concerning the Application to Appropriate Water for Squaw Springs in the Needles Area of Canyonlands National Park, San Juan County, Utah. Following is the description of a closed traverse which encompasses the spring area:

The spring area begins at a point N.74°09"W., 1373' from the south quarter corner of Section 25, T.30S., R.19E., S1B&M; thence N.0°12"E., 40'; thence East 26'; thence S.0°12"W., 40'; thence West 26' to the point and place of beginning.

We also seem to be in disagreement as to the application number. The application which you returned to our office was No. 37064 and we notice the reference on your letter of July 26 lists this application number as 37063. We think this is in error.

Sincerely yours,

Volney J. Westley
Acting Assistant Regional Director
Operations

Form 97 10M 2-42

Application No. 37063

APPLICATION TO APPROPRIATE WATER STATE OF UTAH

NOTE: The information given in the following blanks should be free from explanatory matter, but when necessary, a complete explanatory statement should be made on the following page under the heading "Explanatory".
For the purpose of acquiring the right to use a portion of the unappropriated water of the State of Utah, for use indicated by (X) in the proper box or boxes, application is hereby made to the State Engineer, based upon the following showing of facts, submitted in accordance with the requirements of the Laws of Utah.

1. Irrigation ☒ Domestic ☒ Stockwatering ☐ Municipal ☐ Power ☐ Mining ☐ Other Uses ☐
2. The name of the applicant is United States of America, National Park Service
3. The Post Office address of the applicant is P.O. Box 720, Santa Fe, New Mexico 87501
4. The quantity of water to be appropriated is 0.0156 second-feet or acre-feet
5. The water is to be used for Domestic from January to December 31
(Major Purpose) (Month) (Day) (Month) (Day)
other use period Irrigation from April to October 31
(Minor Purpose) (Month) (Day) (Month) (Day)
and stored each year (if stored) from (Month) (Day) to (Month) (Day)
6. The drainage area to which the direct source of supply belongs is Salt Creek
(Leave Blank)
7. The direct source of supply is SQUAW SPRINGS
(Name of stream or other source)
which is tributary to SQUAW SPRINGS tributary to Salt Creek
*Note.—Where water is to be diverted from a well, a tunnel or drain, the source should be designated as "Underground Water" in the first space and the remaining spaces should be left blank. If the source is a stream, a spring, a spring area, or a drain, so indicate in the first space, giving its name, if named, and in the remaining spaces, designate the stream channels to which it is tributary, even though the water may sink, evaporate, or be diverted before reaching said channels. If water from a spring flows in a natural surface channel before being diverted, the direct source should be designated as a stream and not a spring.
8. The point of diversion from the source is in San Juan County, situated at a point N 74°09'W., 1573' from the S⁴ corner of Section 25, T. 30 S., R. 19 E., S1E&M.
- *Note.—The point of diversion must be located definitely by course and distance or by giving the distances north or south and east or west with reference to a United States land survey corner or United States mineral monument. If within a distance of six miles of either, or if at a greater distance, to some prominent and permanent natural object. No application will be received for filing in which the point of diversion is not defined definitely.
9. The diverting and carrying works will consist of collection gallery and 1000' of 2" pipe to serve 100 unit campground.
10. If water is to be stored, give capacity of reservoir in acre-feet height of dam
area inundated in acres legal subdivision of area inundated SW⁴ Section 25, T. 30 S., R. 19 E., S1E&M.
11. If application is for irrigation purposes, the legal subdivisions of the area irrigated are as follows:

 Total Three (3) Acres
12. Is the land owned by the applicant? Yes X No If "No," explain on page 2.
13. Is this water to be used supplementally with other water rights? Yes No X
If "yes," identify other water rights on page 2.
14. If application is for power purposes, describe type of plant, size and rated capacity
15. If application is for mining, the water will be used in Mining District at the mine, where the following ores are mined
16. If application is for stockwatering purposes, number and kind of stock watered
17. If application is for domestic purposes, number of persons 20,000 visitors per year, or families
18. If application is for municipal purposes, name of municipality
19. If application is for other uses, include general description of proposed uses
20. Give place of use by legal subdivision of the United States Land Survey for all uses described in paragraphs 14 to 19, incl. SW⁴ Section 25, T. 30 S., R. 19 E., S1E&M.
21. The use of water as set forth in this application will consume 0.0156 second-feet of water and 0.0 second feet will be returned to the natural stream or source at a point described as follows:

Page No. 2

EXPLANATORY

The following additional facts are set forth in order to define more clearly the full purpose of the proposed application:

A collection gallery will collect water at this spring and 1000' of 2" pipe will carry it to a 100 unit campground for use of visitors to the Needles District at Canyonlands National Park.

NOTHING HEREIN SHALL CONSTITUTE A WAIVER TO THIS OR ANY OTHER RIGHTS ALREADY VESTED IN THE UNITED STATES OF AMERICA.

(Use page 4 if additional explanatory is needed.)

The quantity of water sought to be appropriated is limited to that which can be beneficially used for the purpose herein described.

UNITED STATES OF AMERICA, National Park Service, Southwest Region

Signature of Applicant

Daniel B. Beard, Regional Director

*If applicant is a corporation or other organization, signature must be the name of such corporation or organization by its proper officer, or in the name of the partnership by one of the partners, and the names of the other partners shall be listed. If a corporation or partnership, the affidavit below need not be filled in. If there is more than one applicant, a power of attorney, authorizing one to act for all, should accompany the Application.
