51. Montezuma Castle National Monument

Establishment: Proclamation (No. 696) of December 8, 1906.....	Page 215
Boundaries enlarged: Proclamation (No. 2224) of February 23, 1937.....	217

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

[No. 696—December 8, 1906—34 Stat. 3265]

WHEREAS, it is provided by section two of the Act of Congress, approved June 8, 1906, entitled, "An act for the preservation of American antiquities," "That the President of the United States is hereby authorized, in his discretion, to declare by public proclamation historic land marks, historic and prehistoric structures, and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments, and may reserve as a part thereof parcels of land, the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected";

AND, WHEREAS, the prehistoric structure known as Montezuma's Castle in the Territory of Arizona, situated upon public lands owned by the United States, is of the greatest ethnological value and scientific interest and it appears that the public good would be promoted by reserving this ruin as a national monument with as much land as may be necessary for the proper protection thereof;

NOW, THEREFORE, I, Theodore Roosevelt, President of the United States of America, by virtue of the power in me vested by section two of the aforesaid Act of Congress, do hereby set aside as the Montezuma Castle National Monument the prehistoric structure aforesaid and for the proper protection thereof do hereby reserve from settlement, entry or other disposal, all those certain tracts, pieces or parcels of land lying and being in the Territory of Arizona, and within, what will be when surveyed, the tracts particularly described as follows, to wit:

The northwest quarter of the northwest quarter of section sixteen, the north half of the northeast quarter and northeast quarter of northwest quarter of section seventeen, township fourteen north, range five east, Gila and Salt River Meridian, as shown upon the map hereto attached and made a part of this proclamation.

Warning is hereby expressly given to all persons not to appropriate, excavate, injure or destroy said monument or to settle upon any of the lands reserved by this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and cause the seal of the United States to be affixed.

DONE at the city of Washington this 8th day of December, in the year of our Lord one thousand nine hundred and six, and of the Independence of the United States the one hundred and thirty first.

THEODORE ROOSEVELT.

By the President:

ELIHU ROOT,

Secretary of State.

Montezuma Castle NM Land Parcel 01-108

VIII. NATIONAL MONUMENTS—MONTEZUMA CASTLE

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

[No. 2226—Feb. 21, 1937—50 Stat. 1817]

WHEREAS the area in the State of Arizona established as the Montezuma Castle National Monument by Proclamation of December 8, 1906, has situated thereon prehistoric ruins and ancient cliff dwellings which are of great interest to the public; and

WHEREAS it appears that there are certain government-owned lands reserved by Proclamation of September 29, 1919, as a part of Coconino National Forest, adjacent to the boundaries of the said monument, which are required for the proper care, management, and protection of the said prehistoric ruins and ancient cliff dwellings:

NOW, THEREFORE, I, Franklin D. Roosevelt, President of the United States of America, under and by virtue of the authority vested in me by section 1 of the act of June 4, 1897, ch. 2, 30 Stat. 11, 36 (U. S. C., title 16, sec. 473), and section 2 of the act of June 8, 1906, ch. 3060, 34 Stat. 225 (U. S. C., title 16, sec. 431), do proclaim that, subject to all valid existing rights, the following-described lands in Arizona are hereby excluded from the Coconino National Forest and reserved from all forms of appropriation under the public-land laws and added to and made a part of the Montezuma Castle National Monument:

GILA AND SALT RIVER MERIDIAN

T. 14 N., R. 5 E., sec. 8, $S\frac{1}{2}SE\frac{1}{4}$, $S\frac{1}{2}NW\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}SW\frac{1}{4}$,
 $S\frac{1}{2}NE\frac{1}{4}SW\frac{1}{4}$;
 sec. 16, E $\frac{1}{2}NW\frac{1}{4}$, SE $\frac{1}{4}SW\frac{1}{4}NW\frac{1}{4}$, N $\frac{1}{2}SW\frac{1}{4}$
 NW $\frac{1}{4}$;
 sec. 17, N $\frac{1}{2}SE\frac{1}{4}NE\frac{1}{4}$, N $\frac{1}{2}SW\frac{1}{4}NE\frac{1}{4}$, SW $\frac{1}{4}$
 SW $\frac{1}{4}NE\frac{1}{4}$, SE $\frac{1}{4}NW\frac{1}{4}$, containing 360 acres.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

The Director of the National Park Service, under the direction of the Secretary of the Interior, shall have the supervision, management, and control of this monument as provided in the act of Congress entitled "An Act To establish a National Park Service, and for other purposes", approved August 25, 1916 (ch. 408, 39 Stat. 535, U. S. C., title 16, secs. 1 and 2), and acts supplementary thereto or amendatory thereof: *Provided*, that the administration of the monument shall be subject to the withdrawal for the Salt River Irrigation project, Arizona.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 23d day of February in the year of our Lord nineteen hundred and thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D. ROOSEVELT.

By the President:
 CORDELL HULL,
The Secretary of State.

[CHAPTER 261]

AN ACT

October 13, 1943
[H. R. 2290]
[Public Law 161]

To extend the provisions of the Reclassification Act of February 28, 1925, to include custodial employees in the Postal Service.

Postal Service, cus-
todial employees.
43 Stat. 1022.
38 U. S. C. § 19 et
seq.; Supp. II, 24-192,
251, 601a, 621.

42 Stat. 1428.
5 U. S. C. § 661;
Supp. II, § 651 et seq.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of February 28, 1925, Postal Salary Classification Act, is hereby amended to include officers and employees of the custodial service of the Post Office Department: *Provided,* That the salary ranges of the designated grades shall be as allocated by the Post Office Department under the provisions of the Classification Act of 1923, as amended: *And provided further,* That such action shall not result in the reduction of the grade or salary of any employee by reason hereof.

Approved October 13, 1943.

[CHAPTER 264]

AN ACT

October 19, 1943
[H. R. 128]
[Public Law 162]

To authorize a per capita payment of \$10 to the members of the Santa Clara Pueblo of New Mexico from funds on deposit to their credit in the Treasury of the United States.

Santa Clara Pueblo,
N. Mex.
Per capita payment
authorized.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior be, and he is hereby, authorized to withdraw from the Treasury so much as may be necessary of the funds to the credit of the Santa Clara Pueblo in the State of New Mexico which have accrued under the Act of March 4, 1929 (45 Stat. 1585), and to make therefrom a payment of not to exceed \$10 to each member of the pueblo, under such rules and regulations as said Secretary may prescribe.

Approved October 19, 1943.

[CHAPTER 265]

AN ACT

October 19, 1943
[H. R. 2640]
[Public Law 163]

To revive and reenact the Act entitled "An Act granting the consent of Congress to the State of Minnesota to construct, maintain, and operate a free highway bridge across the Mississippi River at or near the village of Brooklyn Center, Minnesota", approved April 20, 1942.

Mississippi River,
Bridge across, at
Brooklyn Center,
Minn.
44 Stat. 217.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act approved April 20, 1942, granting the consent of Congress to the State of Minnesota to construct, maintain, and operate a free highway bridge and approaches thereto across the Mississippi River, at or near the village of Brooklyn Center, Minnesota, be, and is hereby, revived and reenacted: *Provided,* That this Act shall be null and void unless the actual construction of the bridge herein referred to be commenced within two years and completed within four years from the date of approval hereof.

Sec. 2. The right to alter, amend, or repeal this Act is hereby expressly reserved.

Approved October 19, 1943.

[CHAPTER 266]

AN ACT

October 19, 1943
[H. R. 2784]
[Public Law 164]

To provide for the addition of certain land in the State of Arizona to the Montezuma Castle National Monument.

Montezuma Castle
National Monument.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Secretary of the Interior, on behalf of the United States, is authorized to

57 STAT.] 78TH CONG., 1ST SESS.—CHS. 266, 267, 270—OCT. 19, 21, 1943

578

acquire, in his discretion, certain lands located in the State of Arizona known as the Montezuma Well property, containing approximately one hundred and eighty acres and situated within section 36, township 15 north, range 5 east, and section 31, township 15 north, range 6 east, Gila and Salt River meridian. Such lands, when acquired, shall become a detached unit of Montezuma Castle National Monument.

Addition of lands.

(b) Effective on the date of the acquisition of such property, the south half of the northwest quarter of section 31, township 15 north, range 6 east, Gila and Salt River meridian, containing eighty acres of land owned by the United States, shall also become a part of such national monument.

Administration.

SEC. 2. All laws, rules, and regulations applicable to such national monument shall be applicable with respect to the lands described in the first section of this Act upon the addition of such lands to such national monument. The title to real property acquired pursuant to this Act shall be satisfactory to the Secretary of the Interior.

SEC. 3. There are hereby authorized to be appropriated such sums as may be necessary but not to exceed \$25,000 to carry out the provisions of this Act.

Appropriation authorized.

Approved October 19, 1943.

[CHAPTER 269]

AN ACT

To amend section 11 of the Naval Aviation Cadet Act of 1942.

October 21, 1943
[S. 1115]
[Public Law 164]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 11 of the Naval Aviation Cadet Act of 1942 (56 Stat. 738; 34 U. S. C. 859j), be, and the same is hereby, amended to read as follows: "When first commissioned pursuant to this Act officers shall be paid a uniform allowance of \$150 if commissioned as ensigns in the Naval Reserve, and of \$250 if commissioned as second lieutenants in the Marine Corps Reserve; *Provided*, That any officer who has heretofore received the cash uniform gratuity of \$150 provided in section 362 of the Naval Reserve Act of 1938 (52 Stat. 1180) shall not be entitled to this uniform allowance."

Naval Aviation Cadet Act of 1942, Amendment.
34 U. S. C., Supp. tit. 1, § 859j.
Uniform allowance.

34 U. S. C. § 859a.

SEC. 2. This Act shall become effective as of August 4, 1942.

Approved October 21, 1943.

28. Montezuma Castle National Monument

Boundaries of monument revised.....Act of June 23, 1909 Page
443

An Act To revise the boundaries of the Montezuma Castle National Monument, Arizona, and for other purposes, approved June 23, 1909 (73 Stat. 108)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, in order to facilitate the administration and protection of the Montezuma Castle National Monument, Arizona, the boundaries thereof are hereby revised to include the following described lands:

Montezuma
Castle National
Monument,
Ariz. Boundary
revision.

GILA AND SALT RIVER BASE AND MERIDIAN

Township 14 north, range 5 east: section 9, that portion of the southwest quarter southwest quarter located south and west of Beaver Creek, comprising about 2 acres; and section 16, southwest quarter southwest quarter north-west quarter and section 17, southeast quarter southwest quarter northeast quarter and south half southeast quarter northeast quarter, comprising about 40 acres.

Township 15 north, range 6 east: section 31, that portion of the northwest quarter southeast quarter located south and east of Beaver Creek and not heretofore included in the Montezuma Well section of the said monument, comprising approximately 17 acres.

Sec. 2. The Secretary of the Interior is authorized to acquire by purchase, donation, with donated funds, or otherwise and subject to such terms, reservations, and conditions as he may deem satisfactory, the land and interests in lands that are included within the boundaries of the Montezuma Castle National Monument as revised by section 1 of this Act. When so acquired, they shall be administered as a part of the Montezuma Castle National Monument, in accordance with the provisions of the Act of August 25, 1916 (39 Stat. 535), as amended. Acquisition
of lands.
16 U.S.C. 1-4,
22, 43.

17. Montezuma Castle

An Act to authorize additional appropriations for the acquisition of lands and interests in lands within the Sawtooth National Recreation Area in Idaho. (92 Stat. 3487) (P.L. 96-625)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE III—BOUNDARY CHANGES

SEC. 301. The boundaries of the following units of the National Park System are revised as follows, and there are authorized to be appropriated such sums as may be necessary, but not exceed the amounts specified in the following paragraphs for acquisitions of lands and interests in lands within areas added by reason of such revisions:

* * * * *

(13) Montezuma Castle National Monument, Arizona: To add approximately thirteen acres, and to delete approximately five acres as generally depicted on the map entitled "Montezuma Castle National Monument, Arizona", numbered 20,006, and dated April 1978.

SEC. 302. Within twelve months after the date of the enactment of this Act, the Secretary shall publish in the Federal Register a detailed map or other detailed description of the lands added or excluded from any area pursuant to section 301.

SEC. 303. (a) Within the boundaries of the areas as revised in accordance with section 301, the Secretary is authorized to acquire lands and interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer from any other Federal agency. Lands and interests therein so acquired shall become part of the area to which they are added, and shall be subjected to all laws, rules, and regulations applicable thereto. When acquiring any land pursuant to this title, the Secretary may acquire any such land subject to the retention of a right of use and occupancy for a term not to exceed twenty-five years or for the life of the owner or owners. Lands owned by a State or political subdivision thereof may be acquired only by donation.

(b) (1) Lands and interests therein deleted from any area pursuant to section 301 may be exchanged for non-Federal lands within the revised boundaries of such area, or transferred to the jurisdiction of any other Federal agency or to a State or political subdivision thereof, without monetary consideration, or be administered as public lands by the Secretary, as the Secretary may deem appropriate.

(2) In exercising the authority contained in this section with respect to lands and interests therein deleted

from any such area which were acquired from a State, the Secretary may, on behalf of the United States, transfer to such State exclusive or concurrent legislative jurisdiction over such lands, subject to such terms and conditions as he may deem appropriate, to be effective upon acceptance thereof by the State.

(c) It is the established policy of Congress that wilderness, wildlife conservation, and park and recreation values of real property owned by the United States be conserved, enhanced, and developed. It is further declared to be the policy of Congress that unutilized, underutilized, or excess Federal real property be timely studied as to suitability for wilderness, wildlife conservation, or park and recreation purposes. To implement this policy, the Secretary, the Administrator of General Services, and the Director of the Office of Management and Budget shall establish a system with appropriate procedures to permit the Secretary full and early opportunity to make such studies and propose appropriate recommendations to disposing agencies for consideration in connection with determinations of further utilization or disposal of such property under existing law. Each affected executive agency is authorized and directed to provide to the Secretary such advice and information relating to such studies as the Secretary may request.

Sec. 304. The authorities in this title are supplementary to any other authorities available to the Secretary with respect to the acquisition, development, and administration of the areas referred to in section 301.

* * * * *

Approved November 10, 1978.

Montezuma Castle NM Land Parcel 01-111

PUBLIC LAW 108-190—DEC. 19, 2003

117 STAT. 2867

Public Law 108-190
108th Congress

An Act

To provide for the exchange of certain lands in the Coconino and Tonto National Forests in Arizona, and for other purposes.

Dec. 19, 2003
[H.R. 622]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

16 USC 431 note.

SECTION 1. FINDINGS; PURPOSE.

(a) **FINDINGS.**—Congress finds the following:

(1) Certain private lands adjacent to the Montezuma Castle National Monument in Yavapai County, Arizona, are desirable for Federal acquisition to protect important riparian values along Beaver Creek and the scenic backdrop for the National Monument.

(2) Certain other inholdings in the Coconino National Forest are desirable for Federal acquisition to protect important public values near Double Cabin Park.

(3) Approximately 108 acres of land within the Tonto National Forest, northeast of Payson, Arizona, are currently occupied by 45 residential cabins under special use permits from the Secretary of Agriculture, and have been so occupied since the mid-1950s, rendering such lands of limited use and enjoyment potential for the general public. Such lands are, therefore, appropriate for transfer to the cabin owners in exchange for lands that will have higher public use values.

(4) In return for the privatization of such encumbered lands the Secretary of Agriculture has been offered approximately 495 acres of non-Federal land (known as the Q Ranch) within the Tonto National Forest, east of Young, Arizona, in an area where the Secretary has completed previous land exchanges to consolidate public ownership of National Forest lands.

(5) The acquisition of the Q Ranch non-Federal lands by the Secretary will greatly increase National Forest management efficiency and promote public access, use, and enjoyment of the area and surrounding National Forest System lands.

(b) **PURPOSE.**—The purpose of this Act is to authorize, direct, facilitate, and expedite the consummation of the land exchanges set forth herein in accordance with the terms and conditions of this Act.

SEC. 2. DEFINITIONS.

As used in this Act:

(1) **DPSHA.**—The term “DPSHA” means the Diamond Point Summer Homes Association, a nonprofit corporation in the State of Arizona.

Montezuma Castle NM Land Parcel 01-113

117 STAT. 2868

PUBLIC LAW 108-190—DEC. 19, 2003

(2) **FEDERAL LAND.**—The term “Federal land” means land to be conveyed into non-Federal ownership under this Act.

(3) **FLPMA.**—The term “FLPMA” means the Federal Land Policy Management Act of 1976 (43 U.S.C. 1701 et seq.).

(4) **MCJV.**—The term “MCJV” means the Montezuma Castle Land Exchange Joint Venture Partnership, an Arizona Partnership.

(5) **NON-FEDERAL LAND.**—The term “non-Federal land” means land to be conveyed to the Secretary of Agriculture under this Act.

(6) **SECRETARY.**—The term “Secretary” means the Secretary of Agriculture, unless otherwise specified.

SEC. 3. MONTEZUMA CASTLE LAND EXCHANGE.

(a) **LAND EXCHANGE.**—Upon receipt of a binding offer from MCJV to convey title acceptable to the Secretary to the land described in subsection (b), the Secretary shall convey to MCJV all right, title, and interest of the United States in and to the Federal land described in subsection (c).

(b) **NON-FEDERAL LAND.**—The land described in this subsection is the following:

(1) The approximately 157 acres of land adjacent to the Montezuma Castle National Monument, as generally depicted on the map entitled “Montezuma Castle Contiguous Lands”, dated May 2002.

(2) Certain private land within the Coconino National Forest, Arizona, comprising approximately 108 acres, as generally depicted on the map entitled “Double Cabin Park Lands”, dated September 2002.

(c) **FEDERAL LAND.**—The Federal land described in this subsection is the approximately 222 acres in the Tonto National Forest, Arizona, and surveyed as Lots 3, 4, 8, 9, 10, 11, 16, and 17, and Tract 40 in section 32, Township 11 North, Range 10 East, Gila and Salt River Meridian, Arizona.

(d) **EQUAL VALUE EXCHANGE.**—The values of the non-Federal and Federal land directed to be exchanged under this section shall be equal or equalized as determined by the Secretary through an appraisal performed by a qualified appraiser mutually agreed to by the Secretary and MCJV and performed in conformance with the Uniform Appraisal Standards for Federal Land Acquisitions (U.S. Department of Justice, December 2000), and section 206(d) of FLPMA (43 U.S.C. 1716(d)). If the values are not equal, the Secretary shall delete Federal lots from the conveyance to MCJV in the following order and priority, as necessary, until the values of Federal and non-Federal land are within the 25 percent cash equalization limit of section 206(b) of FLPMA (43 U.S.C. 1716(b)):

- (1) Lot 3.
- (2) Lot 4.
- (3) Lot 9.
- (4) Lot 10.
- (5) Lot 11.
- (6) Lot 8.

Applicability.

(e) **CASH EQUALIZATION.**—Any difference in value remaining after compliance with subsection (d) shall be equalized by the payment of cash to the Secretary or MCJV, as the circumstances dictate, in accordance with section 206(b) of FLPMA (43 U.S.C.

1716(b)). Public Law 90-171 (16 U.S.C. 484a; commonly known as the "Sisk Act") shall, without further appropriation, apply to any cash equalization payment received by the United States under this section.

SEC. 4. DIAMOND POINT—Q RANCH LAND EXCHANGE.

(a) **IN GENERAL.**—Upon receipt of a binding offer from DPSHA to convey title acceptable to the Secretary to the land described in subsection (b), the Secretary shall convey to DPSHA all right, title, and interest of the United States in and to the land described in subsection (c).

(b) **NON-FEDERAL LAND.**—The land described in this subsection is the approximately 495 acres of non-Federal land generally depicted on the map entitled "Diamond Point Exchange—Q Ranch Non-Federal Lands", dated May 2002.

(c) **FEDERAL LAND.**—The Federal land described in this subsection is the approximately 108 acres northeast of Payson, Arizona, as generally depicted on the map entitled "Diamond Point Exchange—Federal Land", dated May 2002.

(d) **EQUAL VALUE EXCHANGE.**—The values of the non-Federal and Federal land directed to be exchanged under this section shall be equal or equalized as determined by the Secretary through an appraisal performed by a qualified appraiser mutually agreed to by the Secretary and DPSHA and in conformance with the Uniform Appraisal Standards for Federal Land Acquisitions (U.S. Department of Justice, December 2000), and section 206(d) of FLPMA (43 U.S.C. 1716(d)). If the values are not equal, they shall be equalized by the payment of cash to the Secretary or DPSHA pursuant to section 206(b) of FLPMA (43 U.S.C. 1716(b)). Public Law 90-171 (16 U.S.C. 484a; commonly known as the "Sisk Act") shall, without further appropriation, apply to any cash equalization payment received by the United States under this section.

Applicability.

(e) **SPECIAL USE PERMIT TERMINATION.**—Upon execution of the land exchange authorized by this section, all special use cabin permits on the Federal land shall be terminated.

SEC. 5. MISCELLANEOUS PROVISIONS.

(a) **EXCHANGE TIMETABLE.**—Not later than 6 months after the Secretary receives an offer under section 3 or 4, the Secretary shall execute the exchange under section 3 or 4, respectively, unless the Secretary and MCJV or DPSHA, respectively, mutually agree to extend such deadline.

Deadline.

(b) **EXCHANGE PROCESSING.**—Prior to executing the land exchanges authorized by this Act, the Secretary shall perform any necessary land surveys and required preexchange clearances, reviews, and approvals relating to threatened and endangered species, cultural and historic resources, wetlands and floodplains and hazardous materials. If 1 or more of the Federal land parcels or lots, or portions thereof, cannot be transferred to MCJV or DPSHA due to hazardous materials, threatened or endangered species, cultural or historic resources, or wetland and flood plain problems, the parcel or lot, or portion thereof, shall be deleted from the exchange, and the values of the lands to be exchanged adjusted in accordance with subsections (d) and (e) of section 3 or section 4(d), as appropriate. In order to save administrative costs to the United States, the costs of performing such work, including the appraisals required pursuant to this Act, shall be paid by MCJV or DPSHA for the relevant property, except for the costs of any

117 STAT. 2870

PUBLIC LAW 108-190—DEC. 19, 2003

such work (including appraisal reviews and approvals) that the Secretary is required or elects to have performed by employees of the Department of Agriculture.

(c) **FEDERAL LAND RESERVATIONS AND ENCUMBRANCES.**—The Secretary shall convey the Federal land under this Act subject to valid existing rights, including easements, rights-of-way, utility lines and any other valid encumbrances on the Federal land as of the date of the conveyance under this Act. If applicable to the land conveyed, the Secretary shall also retain any right of access as may be required by section 120(h) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9620(h)) for remedial or corrective action relating to hazardous substances as may be necessary in the future.

(d) **ADMINISTRATION OF ACQUIRED LAND.**—The land acquired by the Secretary pursuant to this Act shall become part of the Tonto or Coconino National Forest, as appropriate, and be administered as such in accordance with the laws, rules, and regulations generally applicable to the National Forest System. Such land may be made available for domestic livestock grazing if determined appropriate by the Secretary in accordance with the laws, rules, and regulations applicable thereto on National Forest System land.

(e) **TRANSFER OF LAND TO NATIONAL PARK SERVICE.**—Upon their acquisition by the United States, the "Montezuma Castle Contiguous Lands" identified in section 3(b)(1) shall be transferred to the administrative jurisdiction of the National Park Service, and shall thereafter be permanently incorporated in, and administered by the Secretary of the Interior as part of, the Montezuma Castle National Monument.

Approved December 19, 2003.

**RE: Application for Permit to Appropriate Public Water No. 33-96995 (Beaver Creek) –
Instream Flow**

Applicant:

Enclosed is a copy of a protest submitted by Soda Springs Ranch, LLC against the above-referenced application. Carefully review the issues brought forth. The Arizona Department of Water Resources (Department) requests that you respond directly to the protesting party within thirty (30) days from the date of this letter.

The Department urges both parties to make a sincere effort at resolving the protest. It is requested that both parties attempt to negotiate a resolution of the issues. The negotiation may include an agreement to modify the application.

The Department must be notified of any agreement reached through negotiation. Please send copies of all correspondence for inclusion in the official record.

Please do not hesitate to contact me at (602) 771-8612 or toll free (within Arizona only) at 1-800-352-8488 if you require further information or assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Hadder".

STATEMENT OF PROTEST

The statement of protest must describe the grounds for the protest. The grounds for protest shall be limited to an assertion that the proposed application conflicts with vested rights, is a menace to public safety, or is against the interests and welfare of the public. For a new application and amendment to an application for stockpond certificate, the grounds for protest are that the claim contains a misstatement of one or more of the following: date of construction of stockpond, capacity of stockpond on August 27, 1977, sole purpose for which the stockpond was constructed and is used is watering livestock or wildlife, except fish, stockpond is not used primary for fishing or culturing of fish, or pond was not the subject of water rights litigation or protest to the state land department prior to August 27, 1977, in accordance with Arizona Revised Statute (A.R.S.) § 45-274(D).

In the matter of the Application of: Montezuma Castle National Monument, PO Box 219, 527 S. Main St., Camp Verde, AZ 86322

Application Number: 33-96995

1. Protestor's Name: Soda Springs Ranch, LLC

Mailing Address 5555 East Van Buren Street #210

City Phoenix State AZ ZIP 85012

Phone number: 602-264-0000

2. Check one or more as appropriate:

☒ Conflict with prior vested right

☐ Menace to public safety

☒ Against the interest and welfare of public

☐ Application for stockpond certificate contains a misstatement of one or more of the following: date of construction of the stockpond, capacity of stockpond on August 27, 1977, sole purpose for which the stockpond was constructed and is used is watering livestock or wildlife, except fish, stockpond is not used primary for fishing or culturing of fish, or pond was not the subject of water rights litigation or protest to the state land department prior to August 27, 1977.

3. Complete only if you indicated conflict with a prior vested right.

Registry number of prior vested water right or claim: Various - See Addendum Attached

Describe uses and quantities of water: Irrigation; Stock; Domestic; Power Generation

Irrigation: 610 acre/feet; Stock: 5.2 acre/feet; Domestic: 26.54 acre/feet. Plus all water necessary for stock, domestic and power generation at Soda Springs. Priority dates from 1879 - 1956.

Printed on recycled paper. Each ton of recycled paper saves 7,000 gallons of water.

Point of diversion of water right or claim: Beaver Creek, Soda Springs

Place of use of water right or claim: Soda Springs Ranch; Soda Springs; Natural Channel of Beaver Creek

4. If menace to public safety or against interests and welfare of the public was indicated, provide a description of the manner of the menace or how the appropriation would be a detriment to the public. Attachments may be utilized.

Application #33-96995, not only conflicts with prior vested and historical use rights at Soda Springs Ranch, it is against the interest and welfare of the public by permitting a State-based water right that would otherwise exceed a Federal reserved right, if any, for interpretative purposes at the Montezuma Castle National Monument.

5. If the application for stockpond certificate contains a misstatement, list the misstatement and the reason why.

6. Check the appropriate box to indicate how you were informed of the proposed application:

- ☐ Public notice subscription service
- ☐ Publication in the newspaper
- ☐ Notice posted at the point of diversion
- ☒ Other: Protestor's Water Attorney

The original of this form shall be mailed to the Arizona Department of Water Resources at the address listed on the top of the first page and a copy mailed directly to the applicant. Any interested party may protest the approval of a newly filed application, amended application, and application for change in type of use within sixty (60) days after the date of issuance listed on the public notice. A protest to an application for severance and transfer must be submitted within thirty (30) days after the last date of newspaper publication.

**RE: Application for Permit to Appropriate Public Water No. 33-96995 – Instream Flow
(Beaver Creek)**

Applicant:

Enclosed is a copy of a protest submitted by Salt River Valley Water Users' Association (SRP) against the above-referenced application. Carefully review the issues brought forth. The Arizona Department of Water Resources (Department) requests that you respond directly to the protesting party within thirty (30) days from the date of this letter.

The Department urges both parties to make a sincere effort at resolving the protest. It is requested that both parties attempt to negotiate a resolution of the issues. The negotiation may include an agreement to modify the application.

The Department must be notified of any agreement reached through negotiation. Please send copies of all correspondence for inclusion in the official record.

Please do not hesitate to contact me at (602) 771-8612 or toll free (within Arizona only) at 1-800-352-8488 if you require further information or assistance.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kevin Hadder".

STATEMENT OF PROTEST

The statement of protest must describe the grounds for the protest. The grounds for protest shall be limited to an assertion that the proposed application conflicts with vested rights, is a menace to public safety, or is against the interests and welfare of the public. For a new application and amendment to an application for stockpond certificate, the grounds for protest are that the claim contains a misstatement of one or more of the following: date of construction of stockpond, capacity of stockpond on August 27, 1977, sole purpose for which the stockpond was constructed and is used is watering livestock or wildlife, except fish, stockpond is not used primary for fishing or culturing of fish, or pond was not the subject of water rights litigation or protest to the state land department prior to August 27, 1977, in accordance with Arizona Revised Statute (A.R.S.) §45-274(D).

In the matter of the Application of Montezuma Castle National Monument
(Name of Applicant)

Application Number 33-96995

1. Protestor's Name Salt River Valley Water Users' Association

Mailing Address P. O. Box 52025

City Phoenix State AZ ZIP 85072-2025

Phone number (602) 236-2020

2. Check one or more as appropriate:

☒ Conflict with prior vested right

☐ Menace to public safety

☐ Against the interest and welfare of public

☐ Application for stockpond certificate contains a misstatement of one or more of the following: date of construction of the stockpond, capacity of stockpond on August 27, 1977, sole purpose for which the stockpond was constructed and is used is watering livestock or wildlife, except fish, stockpond is not used primary for fishing or culturing of fish, or pond was not the subject of water rights litigation or protest to the state land department prior to August 27, 1977.

COPY

3. Complete only if you indicated conflict with a prior vested right.

Registry number of prior vested water right or claim For a complete description and basis of the water rights claimed by the Salt River Valley Water Users' Association ("Association"), the Salt River Project Agricultural Improvement and Power District ("District"), and the Association and District on behalf of their shareholders, see: Notices of Appropriation listed in Attachment 1 and subsequent conveyances and assignments of the same; Water Rights Registration Act filing 36-64086 filed May 5, 1978 and attachments, supplements and amendments thereto; Statements of Claimant 39-07-1040, 1041, 1998, 1206 and 1207 filed December 21, 1979; 39-50053, 50054 and 50055 filed January 3, 1986; 39-L8-35212 and 35213 filed January 20, 1987 and attachments, supplements and amendments thereto.

Describe uses and quantities of water See Attachment 2

Point of diversion of water right or claim Granite Reef Diversion Dam located as follows: NW1/4 SE1/4, Section 13 Township 2 North, Range 6 East

Place of use of water right or claim Member lands of the Salt River Valley Water Users' Association ("Association") located within the Salt River Reservoir District more specifically described in Attachment 3. A map of Salt River Reservoir District is shown in Attachment 4. In addition, the Association delivers surface water under contract to various entities, including: Buckeye Irrigation Company, Fort McDowell Indian Community, Lakin Cattle Company, Maricopa Garden Farms, New State Irrigation and Drainage District, Roosevelt Water Conservation District, and the Salt River Pima Maricopa Indian Community.

4. If menace to public safety or against interests and welfare of the public was indicated, provide a description of the manner of the menace or how the appropriation would be a detriment to the public. Attachments may be utilized.

5. If the application for stockpond certificate contains a misstatement, list the misstatement and the reason why.

6. Check the appropriate box to indicate how you were informed of the proposed application:

☒ Public notice subscription service

☐ Publication in the newspaper

☐ Notice posted at the point of diversion

☐ Other _____

The original of this form shall be mailed to the Arizona Department of Water Resources at the address listed on the top of the first page and a copy mailed directly to the applicant. Any interested party may protest the approval of a newly filed application, amended application, and application for change in type of use within sixty (60) days after the date of issuance listed on the public notice. A protest to an application for severance and transfer must be submitted within thirty (30) days after the last date of newspaper publication.

COPY

The types of uses and quantity of water stored and delivered by the Salt River Project and used by Shareholders of the Salt River Valley Water Users' Association varies substantially from year to year. Uses of water included, but are not limited to, irrigation, municipal, industrial, commercial, hydropower generation, domestic, stockwatering, recreation and others.

The Salt River Project operates six dams and associated storage reservoirs on the Salt and Verde Rivers with a combined capacity of 2,328,201 acre feet. Additionally, Salt River Project operates 263 wells with a combined capacity of 888,423 acre feet. In calendar year 2009, Salt River Project captured and stored 528,173 acre feet and shareholders of the Salt River Valley Water Users' Association used 192,799 acre feet for irrigation purposes and 331,224 acre feet for municipal and industrial purposes.¹

As reported in the 2009 Operations and Statistics Report, shareholders of the Salt River Valley Water Users' Association irrigated 55,477 acres in 2009. This includes lands typically referred to as urban irrigated lands. This does not include land irrigated with water delivered by Salt River Valley Water Users' Association through municipal systems or other uses of water on member lands.

The amount of water used solely for stockwatering purposes by shareholders of the Salt River Valley Water Users' Association has not been calculated separately.

¹ Quantities of use for domestic purposes are included in municipal and industrial category. Quantities of use for stockwatering are not calculated separately. Irrigation quantities include water used for urban irrigation purposes.

NOTICE OF APPLICATION TO APPROPRIATE PUBLIC WATER INSTREAM FLOW MAINTENANCE

In the matter of application assigned number 33-96994. Montezuma Castle National Monument, PO Box 219, 527 S. Main St., Camp Verde, AZ 86322 has filed an Application for Permit to Appropriate Public Water dated February 3, 2012. An instream flow right is a surface water right that remains in-situ, or "in-stream" and will not be physically diverted or consumptively used.

The application states:

1. Source of Water: Wet Beaver Creek a tributary to Beaver Creek within the Verde River watershed.
2. Proposed use and amount: 11,317.8 acre-feet per annum for recreation and wildlife, including fish.
3. Place of use: within the natural channel of Wet Beaver Creek, beginning in the Southwest quarter of the Northeast quarter (SW¼NE¼), Section 31, Township 15 North, Range 6 East and ending in the Northeast quarter of the Southeast quarter (NE¼SE¼), Section 36, Township 15 North, Range 5 East, Gila and Salt River Baseline and Meridian, Yavapai County, Arizona.

SUBMITTED MAPS AVAILABLE AT THE DEPARTMENT OF WATER RESOURCES

Protests to the issuance of the Permit to Appropriate Public Water may be filed by any person who alleges that the proposed appropriation conflicts with vested water rights, is a menace to public safety, or is against the interests and welfare of the public. Protests must be submitted either in writing or on a form provided by the Department to the Arizona Department of Water Resources, Surface Water Permitting, 3550 North Central Avenue, Phoenix, Arizona 85012, within sixty (60) days of the date of issuance of the Notice. A copy of the stated protests must also be forwarded to the applicant.

The Notice is issued this 9th day of April 2012.

RE: Applications for Permit to Appropriate Public Water Nos. 33-96994 (Wet Beaver Creek) and 33-96995 (Beaver Creek) – Instream Flow

Applicant:

Enclosed are copies of the Notice of Application to Appropriate Public Water (Notices) and Affidavits of Posting and Publication forms for the above-referenced applications.

The Notices must be posted at the claimed places of use within twenty (20) days from the dates of issuance appearing at the bottom thereof. The Notices must remain posted continuously for 3 consecutive weeks. The Notices must also be published as legal publications once per week for 3 consecutive weeks with the first publication being within twenty (20) days from the date of issuance of the Notices. The Notices must be published in:

The Daily Courier
P.O. Box 312
Prescott, AZ 86302
(928) 445-3333

Applicants must return the Affidavits of Posting and Publication and the Notices to the Arizona Department of Water Resources no later than sixty (60) days after the date of issuance listed in the Notices.

Please do not hesitate to contact me at (602) 771-8612 or toll free (within Arizona only) at 1-800-352-8488 if you require further information or assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Hadder".

NOTICE OF APPLICATION TO APPROPRIATE PUBLIC WATER INSTREAM FLOW MAINTENANCE

In the matter of application assigned number 33-96995. Montezuma Castle National Monument, PO Box 219, 527 S. Main St., Camp Verde, AZ 86322 has filed an Application for Permit to Appropriate Public Water dated February 3, 2012. An instream flow right is a surface water right that remains in-situ, or "in-stream" and will not be physically diverted or consumptively used.

The application states:

1. Source of Water: Beaver Creek a tributary to the Verde River within the Verde River watershed.
2. Proposed use and amount: 9,409.29 acre-feet per annum for recreation and wildlife, including fish.
3. Place of use: within the natural channel of Beaver Creek, beginning in the Northeast quarter of the Southwest quarter (NE¼SW¼), Section 9, Township 14 North, Range 5 East and ending in the Southwest quarter of the Northeast quarter (SW¼NE¼), Section 17, Township 14 North, Range 5 East, Gila and Salt River Baseline and Meridian, Yavapai County, Arizona.

SUBMITTED MAPS AVAILABLE AT THE DEPARTMENT OF WATER RESOURCES

Protests to the issuance of the Permit to Appropriate Public Water may be filed by any person who alleges that the proposed appropriation conflicts with vested water rights, is a menace to public safety, or is against the interests and welfare of the public. Protests must be submitted either in writing or on a form provided by the Department to the Arizona Department of Water Resources, Surface Water Permitting, 3550 North Central Avenue, Phoenix, Arizona 85012, within sixty (60) days of the date of issuance of the Notice. A copy of the stated protests must also be forwarded to the applicant.

The Notice is issued this 10th day of April 2012.

DEPARTMENT OF AGRICULTURE

Forest Service

Transfer of Land to the Department of Interior

AGENCY: Forest Service, USDA.

ACTION: Notice of land transfer.

SUMMARY: Public Law 108-190 provides for the transfer of approximately 157 acres of National Forest System lands to the administrative jurisdiction of the National Park Service, to be thereafter permanently incorporated in and administered by the Secretary of the Interior as part of the Montezuma Castle National Monument.

DATES: This notice becomes effective April 13, 2010.

FOR FURTHER INFORMATION CONTACT: Louisa Herrera, National Title Program Manager, (202) 205-1255, Lands and Realty Management.

SUPPLEMENTARY INFORMATION: Section 3 of Public Law 108-190 (117 Stat. 2867), authorized the federal acquisition by the Secretary of Agriculture of approximately 157 acres of land depicted on a map dated May 2002, and entitled "Montezuma Castle Contiguous Lands". Upon acquisition, section 5(c) of Public Law 108-190 provides that the land "shall be transferred to the administrative jurisdiction of the National Park Service, and shall be thereafter permanently incorporated

in, and administered by the Secretary of the Interior as part of, the Montezuma Castle National Monument." (117 Stat. 2870). The Montezuma Castle Contiguous Lands have been acquired for the United States by the Forest Service by deed dated December 6, 2007, and recorded December 10, 2007, in the land records of Yavapai County at Book 4560, Page 216. The lands are described as follows:

Coconino National Forest

Gila and Salt River Meridian, Yavapai County, Arizona

T.14 N., R. 5 E.

Sec. 9, SW 1/4, less and excepting Lot 1, containing 3.75 acres, previously conveyed to the United States of America, National Park Service, by warranty deed dated May 16, 1973, and recorded July 18, 1973, Book 852, Page 179 of official records of Yavapai County, Arizona.

The area described contains 156.25 acres, Yavapai County, Arizona.

As provided by Public Law 108-190, and acting pursuant to the authority delegated to the Chief, Forest Service, at Title 7, Code of Federal Regulations, section 2.60(a)(2), these described lands are hereby transferred to the administrative jurisdiction of the National Park Service to be permanently incorporated in, and administered by the Secretary of the Interior.

Dated: April 2, 2010.
Thomas L. Tidwell,
Chief, Forest Service.

FIRST NOTICE OF DEFICIENCY

APPLICATION FOR PERMIT TO APPROPRIATE NO. 33-96995 INSTREAM FLOW MAINTENANCE (Beaver Creek)

Applicant Name Montezuma Castle National Monument
Applicant Address P.O. Box 219
527 S. Main St
Camp Verde, AZ 86322

The above referenced application is being returned for completion. The following information must be provided before the application can be considered for further review and processing.

- 1) The "Deed of Trust and Assignment of Rents" included with the application does not include proof of ownership of land located in the SW¼ of Section 9, Township 14 North, Range 5 East. Please provide proof of ownership for Section 9.
- 2) Based on a review of the topographic map submitted with the application, it appears that two (2) of the legal locations highlighted on the map are not listed in item five (5) of the application: the NW¼NE¼ and the NE¼NW¼, Section 17, Township 14 North, Range 5 East. Please review the application and make any necessary corrections.

Notice of Deficiency Prepared by Kevin Hadder
Date Mailed February 28, 2012

To obtain additional information or assistance in completing this application, contact the above referenced individual at (602) 771-8612 or toll free (within Arizona only) 1-800-352-8488.

Per Arizona Administrative Code Rule R12-15-401(2), an applicant shall supply missing information within sixty (60) days of the date of the first Notice of Deficiency. If the application is not completed within that time period, the Department may deny the application. The applicant may submit a written request for additional time to make corrections to the application. The written request for additional time will be subject to approval from the Department. **If the information requested above is not received by the Department before April 28, 2012, this application may be deemed withdrawn and fees may not be refunded.**

APPLICATION FOR PERMIT TO APPROPRIATE PUBLIC WATER OF THE STATE OF ARIZONA INSTREAM FLOW MAINTENANCE

- Applicant Montezuma Castle National Monument Telephone (928) 567-5276
 Address P.O. Box 219, 527 S. Main Street City Camp Verde State AZ Zip 86322
- Type of water source and name Public waters flowing in Beaver Creek, including subflow
 a tributary to Verde River within the Verde River watershed.
(For office use only)
- Describe the proposed use of the instream flow appropriation for wildlife (including fish) and/or recreation:
Water will be used concurrently to protect recreational uses and wildlife, including fish.

- Amount of proposed instream flow appropriation (see item #9 for required attachments):

- Monthly instream flow requirement (cubic feet/second):

JAN	FEB	MAR	APR	MAY	JUNE	JULY	AUG	SEPT	OCT	NOV	DEC
21.0	53.0	42.0	7.8	4.1	1.0	0.4	5.0	2.4	3.9	7.2	11.0

- Total annual volume 9,409.29 acre feet/year

- Location of proposed instream flow appropriation: County Yavapai

Describe entire reach to be covered by this application, utilizing legal land parameters. Also attach a U.S.G.S. topographic quadrangle map(s) clearly showing the location of the entire reach or segment of the proposed instream flow appropriation.

NE ¼ SW ¼, Section 09, Township 14 N, Range 5 E
NW ¼ SW ¼, Section 09, Township 14 N, Range 5 E
SE ¼ SE ¼, Section 08, Township 14 N, Range 5 E
SW ¼ SW ¼, Section 09, Township 14 N, Range 5 E
NW ¼ NW ¼, Section 16, Township 14 N, Range 5 E
NE ¼ NW ¼, Section 16, Township 14 N, Range 5 E

NE 1/4 NE 1/4, Section 17, Township 14 N, Range 5 E

SE 1/4 NW 1/4, Section 17, Township 14 N, Range 5 E

SW 1/4 NE 1/4, Section 17, Township 14 N, Range 5 E

ADD NW 1/4 NE 1/4, Section 17, Township 14 N, Range 5 E

ADD NE 1/4 NW 1/4, Section 17, Township 14 N, Range 5 E

6. Owner of land on which the proposed instream flow appropriation is located

Montezuma Castle National Monument

Private _____ State _____ BLM _____ National Forest _____ Other X

Does the applicant have legal access to the proposed stream segment? Yes X No _____

If "No", explain in item 8 below.

7. Is the water to be used supplementally with other water(s)? Yes _____ No X If "Yes," identify other waters or water rights, and explain _____

8. Additional comments or explanations The National Park Service reserves the right to amend this application at a later date. Deeds are attached. Study substantiating streamflow amounts is attached.

Nothing in this Application shall constitute an admission, waiver, or precedent as to any party for any federal reserved water right claim for Montezuma Castle National Monument. Nothing in this Application should be construed or interpreted to establish any precedent or standard to be used for the quantification of federal reserved water rights for Montezuma Castle National Monument or restrict the power of the United States to reserve water in the future, or to acquire additional rights to the use of water under the laws of Arizona.

9. REQUIRED ATTACHMENTS:

- ☐ Initial Application Fee of \$2,000 as authorized by A.A.C. R12-15-103.
- ☐ U.S.G.S. Topographical Quadrangle map or equivalent, or copy thereof, clearly showing the proposed stream segment.
- ☐ Copy of recorded deed showing land ownership. If owned by other than applicant, provide copies of all pertinent leases, grazing permits, allotments, or a letter from the landowner authorizing the proposed appropriation.
- ☐ Streamflow Study: Applicant must develop a study that 1) substantiates that the streamflow amounts requested in item #4 are available at the rates specified, and 2) quantifies the relationship between a claimed beneficial use(s) and requested streamflow rates. The study should be submitted at the time of filing this application, but must be submitted no later than two years after the filing date.

Submit the completed application, with the examination fee and any supporting or required documents to:
Arizona Department of Water Resources, Water Rights Section, 3550 North Central Avenue, Phoenix, Arizona 85021-2105.

IN REPLY REFER TO:

United States Department of the Interior

NATIONAL PARK SERVICE
Water Resources Division
1201 Oakridge Drive, Suite 250
Fort Collins, Colorado 80525-5595

February 2, 2012

Elizabeth V. Logan, Manager
Surface Water Permitting Unit, Engineering and Permits Division
Arizona Department of Water Resources
3550 North Central Avenue
Phoenix, Arizona 85012-2105

Dear Ms. Logan,

The National Park Service, on behalf of Montezuma Castle National Monument (MOCA), is submitting APPLICATIONS FOR PERMIT TO APPROPRIATE PUBLIC WATER OF THE STATE OF ARIZONA INSTREAM FLOW MAINTENANCE for Wet Beaver Creek and Beaver Creek, within MOCA. The National Park Service quantified Monthly Median Flows using continuous gage height data collected on Wet Beaver Creek from October 2004 through September 2008 and on Beaver Creek from September 2004 through July 2009. All continuous gage height data, rating curves, and computed continuous discharge data were checked for Quality Assurance/Quality Control by the U.S. Geological Survey.

Please find attached for the Wet Beaver Creek and Beaver Creek Applications;

1. Application fees of \$1,000 per application,
2. Completed Applications,
3. U.S.G.S. Topographical map showing the proposed instream flow reaches,
4. Copies of the warranty deeds and legislation verifying land ownership,
5. Streamflow Studies (Instream Flow Assessment Reports), and
6. Disks with electronic copies of all submitted documents and flow data used to compute Monthly Median Flows.

Please contact Jim Harte (970) 225-3538 at the National Park Service, Water Resources Division with any questions. Thank you very much.

Sincerely,

Jennifer Back
Acting Chief, Water Rights Branch

 ARRA: Montezuma Castle N.M. 11/2/20
 TRACT NO.: 01-101 (Old No. 2)

WARRANTY DEED

Ronald W. Wilpitz and Vivian M. Wilpitz, husband and wife, Emil Mongini and Catherine P. Mongini, husband and wife, and J. R. Selma and Ida M. Selma, husband and wife, GRANTORS, in consideration of Three Thousand Two Hundred Fifty-five and no/100 Dollars (\$3,255.00), the receipt of which is hereby acknowledged, do hereby grant and convey to the UNITED STATES OF AMERICA and its assigns, the following described property located in the County of Yavapai, State of Arizona, containing 2.17 acres, more or less, to wit:

That portion of the Southwest quarter of the Southwest quarter of Section 9, Township 14 North, Range 5 East, Gila and Salt River Base and Meridian, lying south and west of Beaver Creek,

TOGETHER WITH all buildings and improvements thereon and all water rights appurtenant thereto and all and singular the covenants, hardiments and appurtenances thereunto belonging, or in any wise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

FOR THE NATIONAL PARK SERVICE

The land is conveyed subject to existing easements for public roads and highways, public utilities, railroads and pipelines.

Reserving, however, unto the Grantors, previously reserved minerals.

TO HAVE AND TO HOLD the same unto the said UNITED STATES OF AMERICA and its assigns, forever.

And said Grantors, for themselves, their heirs, executors, administrators and assigns, do hereby covenant with the UNITED STATES OF AMERICA that they are now released in fee simple of the property hereby granted; that the said UNITED STATES OF AMERICA shall enjoy the same without any lawful disturbances; that title to the property hereby conveyed is free from any encumbrances.

The Grantors further remise, release and forever quitclaim to the UNITED STATES OF AMERICA and its assigns, all right, title and interest which the Grantors may have in the banks, beds and waters of any streams bordering the said land to be conveyed and also all interest in any alleys, roads, streets, ways strips, gores or rights-of-way abutting or adjoining said land and in any means of ingress or egress appurtenant thereto.

DEED OF TRUST AND ASSIGNMENT OF RENTS

Escrow No. **237-4341403 (pjw)**

March 23, 2005

TRUSTOR: **Whisper Ridge, LLC, an Arizona limited liability company**
Address: **2300 E. Buckbrush Circle, Payson, AZ 85541**

BENEFICIARY: **Stephen D. Grimes and David L. Rowley**
Address: **2629 E. E. Ridge Crest Rd., Cave Creek, AZ 85331**

TRUSTEE: **First American Title Insurance Company**
Address: **PO Box 1922, Phoenix, AZ 85062**

PROPERTY in Yavapai County, State of AZ, described as:

AN UNDIVIDED 18.20% INTEREST IN THE FOLLOWING LAND:

THE SOUTHWEST QUARTER OF SECTION 9, TOWNSHIP 14 NORTH, RANGE 5 EAST OF THE GILA AND SALT
RIVER BASE AND MERIDIAN, YAVAPAI COUNTY, ARIZONA;

EXCEPT APPROXIMATELY 3 ACRES LYING SOUTHWEST OF BEAVER CREEK PREVIOUSLY CONVEYED TO THE
NATIONAL PARKS SERVICE;

EXCEPTING ONE-HALF OF OIL, GAS AND MINERALS, ON OR UNDER THE SURFACE OF THE LAND, AS RESERVED
IN THE DEED FROM PEARL ALDANA PARSLEY TO JOHN CHARLES MAYR, DATED DECEMBER 9, 1955 RECORDED
DECEMBER 19, 1955 AS BOOK 64 OF OFFICIAL RECORDS, PAGE 574, RECORDS OF YAVAPAI COUNTY,
ARIZONA.

This Deed of Trust, made on the above date between the Trustor, Trustee and Beneficiary above named,

WITNESSETH: That Trustor irrevocably grants and conveys to Trustee in Trust, with Power of Sale, the above
described real property together with leases, rents, issues, profits, or income thereof (all of which are hereinafter
called "property income"); SUBJECT HOWEVER, to the right, power and authority hereinafter given to and
conferred upon Beneficiary to collect and apply such property income; AND SUBJECT TO existing taxes,
assessments, liens, encumbrances, covenants, conditions, restrictions, rights of way and easements of record.

FOR THE PURPOSE OF SECURING:

Montezuma Castle NM Land Parcel 01-113

Escrow No: **237-4341403 (pjw)**
A.P.N.: **405-22-005 3**

DEED OF TRUST WITH ASSIGNMENT OF RENTS
- CONTINUED

A. Performance of each agreement of Trustor herein contained. B. Payment of the indebtedness evidenced by promissory note or notes of even date herewith, and any extension or renewal thereof, in the principal sum of **\$200,000.00** executed by Trustor in favor of Beneficiary or order. C. Payment of additional sums and interest thereon which may hereafter be loaned to Trustor, or his successors or assigns, when evidenced by a promissory note or notes reciting that they are secured by this Deed of Trust.

TO PROTECT THE SECURITY OF THIS DEED OF TRUST, TRUSTOR AGREES:

(1) To keep said property in good condition and repair; not to remove or demolish any building thereon; to complete or restore promptly and in good and workmanlike manner any building which may be constructed, damaged or destroyed thereon and to pay when due all claims for labor performed and materials furnished therefore; to comply with all laws affecting said property or requiring any alterations or improvements to be made thereon; not to commit or permit waste thereof; not to commit, suffer or permit any act upon said property in violation of law; and do all other acts which from the character or use of said property may be reasonably necessary, the specific enumerations herein not excluding the general.

(2) To provide, maintain and deliver to Beneficiary hazard insurance satisfactory to and with loss payable to Beneficiary. The amount collected under any hazard or other insurance policy may be applied by Beneficiary upon any indebtedness secured hereby and in such order as Beneficiary may determine, or at option of Beneficiary the entire amount so collected or any part thereof may be released to Trustor. Such application or release shall not cure or waive any default or notice of Trustee's sale hereunder or invalidate any act done pursuant to such notice.

(3) To appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; and to pay all costs and expenses of Beneficiary and Trustee, including cost of evidence of title and attorney's fees in a reasonable sum, in any such action or proceeding in which Beneficiary or Trustee may appear or be named, and in any suit brought by Beneficiary or Trustee to foreclose this Deed of Trust.

(4) To pay before delinquent, all taxes and assessments affecting said property; when due, all encumbrances, charges and liens, with interest, on said property or any part thereof, which appear to be prior or superior hereto; all costs, fees and expenses of the Trust, including, without limiting the generality of the foregoing, the fees of Trustee for issuance of any Deed of Partial Release and Partial Reconveyance, or Deed of Release and Full Reconveyance, and all lawful charges, costs and expenses in the event of reinstatement of, following default in, this Deed of Trust or the obligations secured hereby.

Should Trustor fail to make any payment or to do any act as herein provided, then Beneficiary or Trustee, but without obligation so to do and without notice to or demand upon Trustor and without releasing Trustor from any obligation hereof, may make or do the same in such manner and to such extent as either may deem necessary to protect the security hereof, Beneficiary or Trustee being authorized to enter upon said property for such purposes; appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; pay, purchase, contest or compromise any encumbrance, charge or lien which in the judgment of either appears to be prior or superior hereto; and, in exercising any such power, pay necessary expenses, employ counsel and pay his reasonable fees.

(5) To pay immediately and without demand all sums so expended by Beneficiary or Trustee pursuant to the provisions hereof, together with interest from date of expenditure at the same rate as is provided for in the note secured by this Deed of Trust or at the highest legal rate, whichever be the greater rate. Any amounts so paid by the Beneficiary or Trustee shall become a part of the debt secured by this Deed of Trust and a lien on said premises or immediately due and payable at option of Beneficiary or Trustee.

IT IS MUTUALLY AGREED:

DEED OF TRUST WITH ASSIGNMENT OF RENTS
 - CONTINUED

(6) That any award of damages in connection with any condemnation or any such taking, or for injury to the property by reason of public use, or for damages for private trespass or injury thereto, is assigned and shall be paid to Beneficiary as further security for all obligations secured hereby (reserving unto the Trustor, however, the right to sue therefor and the ownership thereof subject to this Deed of Trust), and upon receipt of such moneys Beneficiary may hold the same as such further security, or apply or release the same in the same manner and with the same effect as the above provided or disposition of proceeds of hazard or other insurance.

(7) That time is of the essence of this Deed of Trust, and that by accepting payment of any sum secured hereby after its due date, Beneficiary does not waive his right either to require prompt payment when due of all other sums so secured or to declare default for failure so to pay.

(8) That at any time or from time to time, and without notice, upon written request of Beneficiary and presentation of this Deed of Trust and said note(s) for endorsement, and without liability therefor, and without affecting the personal liability of any person for payment of the indebtedness secured hereby, and without affecting the security hereof for the full amount secured hereby on all property remaining subject hereto, and without the necessity that any sum representing the value or any portion thereof of the property affected by the Trustee's action be credited on the indebtedness, the Trustee may: (a) release and reconvey all or any part of said property; (b) consent to the making and recording, or either, of any map or plat of the property or any part thereon; (c) join in granting any easement thereon; (d) join in or consent to any extension agreement or any agreement subordinating the lien, encumbrance, or charge hereof.

(9) That upon written request of Beneficiary stating that all sums secured hereby have been paid, and upon surrender of this Deed of Trust and said note(s) to Trustee for cancellation and retention, and upon payment of its fees. Trustee shall release and reconvey, without covenant or warranty, express or implied, the property then held hereunder. The recitals in such reconveyance of any matters or facts shall be conclusive proof of the truthfulness thereof. The Grantee in such reconveyance may be described as "the person or persons legally entitled thereto."

(10) That as additional security, Trustor hereby gives to and confers upon Beneficiary the right, power and authority, during continuance of this Trust, to collect the property income, reserving to Trustor the right, prior to any default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, to collect and retain such property income as it becomes due and payable. Upon any such default, Beneficiary may at any time, without notice, either in person, by agent, or by a receiver to be appointed by a court, and without regard to the adequacy of any security for the indebtedness hereby secured, enter upon and take possession of said property or any part thereof, in his own name sue for or otherwise collect such property income, including that past due and unpaid, and apply the same, less costs and expenses of operation and collection, including reasonable attorney's fees, upon any indebtedness secured hereby, and in such order as Beneficiary may determine. The entering upon and taking possession of said property, the collection of such property income, and the application thereof as aforesaid, shall not cure or waive any default or notice of Trustee's sale hereunder or invalidate any act done pursuant to said notice.

(11) That upon default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, Beneficiary may declare all sums secured hereby immediately due and payable by delivery to Trustee of written notice thereof, setting forth the nature thereof, and of election to cause to be sold said property under this Deed of Trust. Beneficiary also shall deposit with Trustee this Deed of Trust, said note(s), and all documents evidencing expenditures secured hereby.

Trustee shall record and give notice of Trustee's sale in the manner required by law, and after lapse of such time as may then be required by law, Trustee shall sell, in the manner required by law, said property at public auction at the time and place fixed by it in said notice of Trustee's sale to the highest bidder for cash in lawful money of the United States, payable at time of sale. Trustee may postpone or continue the sale by giving notice of postponement or continuance by public declaration at the time and place last appointed for the sale. Trustee shall deliver to such purchaser its Deed conveying the property so sold, but without any covenant or warranty, expressed or implied. Any persons, including Trustor, Trustee, or Beneficiary, may purchase at such sale.

After deducting all costs, fees, and expenses of Trustee and of this Trust, including cost of evidence of title in connection with sale and reasonable attorney's fees, Trustee shall apply the proceeds of sale to payment of: All sums then secured hereby and all other sums due under the terms hereof, with accrued interest; and the remainder, if any, to the person or persons legally entitled thereto, or as provided in A.R.S. §33-812. To the extent permitted by law, an action may be maintained by Beneficiary to recover a deficiency judgment for any balance due hereunder. Beneficiary may foreclose this Deed of Trust as a realty mortgage.

If the property under this Deed of Trust is located in more than one county, regardless of whether the property is contiguous or not, the Trustee may sell all of said property in any one of the counties in which part of said property is located; and, unless Trustee receives contrary written instructions from the Beneficiary or Trustor, Trustee may sell all of said property either in parcels or in whole.

If the indebtedness secured hereby is secured by one or more other Deeds of Trust, then upon default of Trustor in the payment of said indebtedness or performance of any other agreements secured hereby, the Trustee may sell the property subject to the Deed of Trust and to any other Deeds of Trust securing said indebtedness at Trustee's sale conducted serially. In the absence of written instructions from the Beneficiary to the contrary, the Trustee may, in its sole discretion, designate the order in which property subject to the various Deeds of Trust is to be sold.

(12) That Beneficiary may appoint a successor Trustee in the manner prescribed by law. A successor Trustee herein shall, without conveyance from the predecessor Trustee, succeed to all the predecessor's title, estate, rights, powers and duties. Trustee may resign by mailing or delivering notice thereof to Beneficiary and Trustor.

(13) That this Deed of Trust applies to, inures to the benefit of, and binds all parties hereto, their heirs, legatees, devisees, administrators, executors, successors and assigns. The term Beneficiary shall mean the owner and holder of the note(s) secured hereby, whether or not named as Beneficiary herein. In this Deed of Trust, whenever the context so requires, the masculine gender includes the feminine and neuter, and the singular number includes the plural.

(14) The Trustor/Mortgagor hereby waives, releases and discharges any homestead exemption claimed or declared against the property.

Beneficiary named on this Deed of Trust shall be subrogated to the lien, notwithstanding its release of record of any prior mortgage, Trust Deed or other encumbrance paid or discharged from the proceeds of the note secured hereby or from any advance made by the Beneficiary. This right of subrogation shall not be affected by the creation or declaration of homestead on the property.

(15) That Trustee accepts this Trust when this Deed of Trust, duly executed and acknowledged, is made a public record as provided by law. Trustee is not obligated to notify any party hereto of pending sale under any other Deed of Trust or of any action or proceeding in which Trustor, Beneficiary or Trustee shall be party unless brought by Trustee.

The undersigned Trustor requests that a copy of any notice of Trustee's sale hereunder be mailed to him at his address set forth herein.

EXECUTIVE SUMMARY

Beaver Creek is a tributary of the Verde River formed below the confluence of Dry Beaver Creek and Wet Beaver Creek. Both Dry Beaver Creek and Wet Beaver Creek originate from springs on the Colorado Plateau and descend through canyons cut into the Mogollon Rim on the western edge of the plateau. Beaver Creek supports a rich and diverse riparian ecosystem uncommon in the semi-arid region of the desert southwest. The perennial flow of the creek provides sufficient surface water and shallow groundwater to support high quality riparian habitats comprised largely of cottonwood, sycamore, and Goodding willow. Numerous avian, mammal, reptile, amphibian, and fish populations, including several with special federal and state management status, are found in these habitats. The National Park Service seeks an appropriation of 9,409 acre feet of water per year along the Beaver Creek stream reaches located within the Castle Unit of Montezuma Castle National Monument for the purpose of maintaining the concurrent beneficial uses of recreation and wildlife. These beneficial uses are non-consumptive and are needed by the National Park Service to meet its objective of preserving the unique and important riparian ecosystems present in Montezuma Castle National Monument.

INTRODUCTION

Beaver Creek is a tributary of the Verde River formed below the confluence of Dry Beaver Creek and Wet Beaver Creek. Both Dry Beaver Creek and Wet Beaver Creek originate from springs on the Colorado Plateau and descend through canyons cut into the Mogollon Rim on the western edge of the plateau. The creeks flow in a west-southwesterly direction through the Coconino National Forest onto the Verde River valley floor joining to the southwest of McGuireville, Arizona to form Beaver Creek. Beaver Creek and its tributaries support a rich and diverse riparian ecosystem uncommon in the semi-arid region of the desert southwest. The riparian environments along Beaver Creek are occupied by numerous mammals, birds, and aquatic species including species with special federal or state management status.

The National Park Service is filing an application for an instream flow water right with the Arizona Department of Water Resources (ADWR). The water right seeks to protect streamflow within the boundaries of the Castle Unit of Montezuma Castle National Monument (Castle Unit of MCNM) from the upstream point where Beaver Creek enters the Castle Unit of MCNM to the most downstream point where it crosses the Castle Unit of MCNM boundary again. Two stream reaches are defined in the application. The upstream reach begins in the NE1/4, NE1/4, SW1/4 Section 9, Township 14 North, Range 5 East and extends to NW1/4, NW1/4, SW1/4 Section 9, Township 14 North, Range 5 East and the downstream reach begins in the NW1/4, SE1/4, SE1/4 Section 8, Township 14 North, Range 5 East and extends downstream to SW1/4, SW1/4, NE1/4 Section 17, Township 14 North, Range 5 East. The instream flow reaches lie completely within the Camp Verde 7.5" topographic quadrangle, are continuous, and do not include private property.

Figure 1. Map of Beaver Creek basin location in central Arizona. Map base was obtained through Microsoft Bing Map Services (c) 2010 Microsoft Corporation and its data suppliers.

The National Park Service seeks to appropriate 9,409 acre feet of water per year with this application. Requested median flow rates are based on approximately five years of streamflow record collected by the United States Geological Survey at a stream gaging station established within the Castle Unit of MCNM boundaries. The United States Geological Survey has maintained a stream gage on Wet Beaver Creek near Rimrock just upstream of the Well Unit of Montezuma Castle National Monument (Well Unit of MCNM) since 1962. Based on the longer record available at that stream gage (1962-2010), the mean annual discharge is 23,480 acre feet per year. The requested flow rates would be maintained within the Castle Unit of MCNM instream flow reaches of Beaver Creek for the concurrent beneficial uses of recreation and wildlife that are supported by the creek and its associated riparian environment.

This assessment report describes the physiographic, climatological, physical, and biological setting of the entire Beaver Creek basin and specific characteristics related to the proposed instream flow designated reaches. It includes a description of the wildlife community supported by the creek and documents the association between the riparian environment created by the creek and the resident wildlife. The link between the water dependent riparian ecosystem and wildlife and the beneficial use of the requested flows is also presented.

The report was prepared according to the guidelines set forth in *A Guide to Filing Applications for Instream Flow Water Rights in Arizona*, dated November 1997 (ADWR 1997).

Figure 2. Detailed map of Beaver Creek within the Castle Unit of Montezuma Castle National Monument. Map base was obtained through Microsoft Bing Map Services (c) 2010 Microsoft Corporation and its data suppliers.

Note: Maps are provided in this document for the reader's reference only. They are not intended to be a substitute for materials provided to ADWR in the water right application. For a more detailed legal description, please refer to water right application materials on file with ADWR.

PHYSICAL SETTING

Physiography

Montezuma Castle National Monument is located approximately 25 miles south of Sedona, Arizona. The Monument is comprised of two units; the Well Unit to the northeast of Lake Montezuma and the Castle Unit to the southwest of Lake Montezuma. The Beaver Creek basin is composed of two sub-basins, Dry Beaver Creek and Wet Beaver Creek, which originate in canyons to the east of Lake Montezuma along the western edge of the Colorado Plateau in the Central Highland area of Arizona. Dry Beaver Creek and Wet Beaver Creek converge near McGuireville, Arizona forming Beaver Creek. The creek continues westward from the confluence to the Verde Valley, ultimately flowing into the Verde River near Camp Verde, Arizona. Elevations within the basin range from 8,532 feet at Hutch Mountain to 3,080 feet at the Verde River.

Bedrock Geology

The high elevation areas of the basin on the Colorado Plateau are Paleozoic sedimentary rock formations that have been covered by volcanic basalt flows. The Mogollon Rim or western edge of the Colorado Plateau has been eroded by Wet Beaver Creek and Dry Beaver Creek, exposing the sandstone, limestone, and shale layers of the sedimentary rock. The lower elevation areas of the basin were once the site of a series of lakes and marshes stretching across the present day Verde River valley. The cycle of evaporation and expansion of the lakes left behind limestone and travertine deposits in the lower elevation areas of the basin, including the Beaver Creek stream reaches within the Castle Unit of MCNM.

Soils

A soil survey of the Beaver Creek basin was completed by the United States Department of Agriculture, Natural Resource Conservation Service on September 11, 2008 (NRCS 2011). The soil types present in the watershed result from weathering of the predominant landforms of volcanic basalt or cinders and sedimentary rock such as limestone or sandstone. Clay soils formed from the weathering of basalt or cinders comprise slightly over 50% of the soils in the Beaver Creek area. Loamy soils formed from the weathering of sandstone or limestone comprise 20% of the area's soil types, and rock outcroppings accounted for an additional 19% of the land surface. The remaining 11% of the area's land surface is made up of mixed alluvium soils, riverwash and water. Depth to bedrock ranges from zero where the bedrock resides at the surface to a depth greater than the depth of the soil profile examined during the survey. Soils were consistently considered well drained with a depth to the water table that universally exceeded 80 inches. The available water capacity ranged from very low to high with low and moderate being the most common characteristic. Soils with an available water capacity of high account for less than 10% of the Beaver Creek basin area.

Climate

Elevation and season are the principal determinants of precipitation in the central highland area of Arizona. The Beaver Creek basin receives precipitation in the winter from storms originating in the Pacific Ocean that move eastward across the state (NOAA 1974). Mountainous locations at higher elevation can experience heavy snowfalls from the frequent Pacific storms. The headwaters of Beaver Creek located in the Coconino National Forest receives approximately one-third of its annual precipitation as snowfall (WRCC 2011). Mean annual precipitation within the basin tends to decrease as elevations decrease. The Happy Jack Ranger Station (7,480 feet) receives mean annual precipitation of 27.53 inches, the Beaver Creek Ranger Station (3,820 feet) receives 16.71 inches, and the Castle Unit of Montezuma Castle National Monument (3,180 feet) receives 14.49 inches (ADWR 2009). The months of April through June are drier compared to the remaining months of the year. Summer monsoon weather typically begins in July and continues through mid-September. Summer precipitation occurs when moisture-laden air is transported from the Gulf of Mexico into central Arizona (NOAA 1974).

Thunderstorms develop when the warm moist air from the Gulf rises along the mountain ranges of central Arizona. These storms can produce locally heavy rainfall and flash floods. Much of Arizona, like most of the Southwestern United States, has been experiencing persistent drought conditions during the last two decades (ADWR 2011).

Figure 3. Average monthly precipitation at the Happy Jack Ranger Station, Beaver Creek Ranger Station, and Montezuma Castle National Monument, 1971 to 2000 (WRCC 2011)

Vegetation

The highest elevations of the headwater areas (above 8,000 feet) are dominated by Rocky Mountain (Petrin) and Madrean montane conifer forests that can contain a mix of Douglas-fir, white fir, limber pine, blue spruce, and white pine (ADWR 2009). Aspen and Gambel oak can occur in disturbed high elevation areas. Elevations below 8,000 feet and warmer slopes above 8,000 feet are predominantly ponderosa pine forests (ADWR 2009). Areas between 5,000 and 7,000 feet are covered by Great Basin conifer woodlands with junipers and piñon pine (ADWR 2009). Interior chaparral communities are found at lower elevations (4,000 to 6,000 feet) and include a mix of dense shrubs of approximately the same height interspersed among occasional trees or larger shrubs (ADWR 2009). Shrub species found in chaparral communities include mountain mahogany, shrub live oak, and Manzanita. Cactus, agave, and yucca are also present in areas of chaparral (ADWR 2009).

Riparian vegetation areas occur along perennial streams such as Beaver Creek. Riparian communities are composed of mixed broadleaf, cottonwood, willow, mesquite and strand vegetation (ADWR 2009). Vegetation found along riparian corridors is frequently adapted to cycles of periodic flooding, scouring, and sediment deposition. The Verde River basin, which includes Beaver Creek, has been noted as having the largest number of woody riparian vegetation species observed in the southwest (Webb et al. 2007).

Land Ownership and Use

The overwhelming majority of land within the Beaver Creek basin is owned by the United States Forest Service (ADWR 2009). The headwater area lies within the Coconino National Forest, and the remaining federal land holding is within Montezuma Castle National Monument (MCNM). There are private land holdings scattered within the Coconino National Forest, upstream from the Castle Unit of MCNM boundaries, but the majority of private land exists west of the Mogollon Rim in the communities of Rimrock, Lake Montezuma, and McGuireville. The Coconino National Forest and MCNM areas are relatively undeveloped. The Forest Service manages livestock grazing, timber harvest, and recreational uses within its boundaries, and MCNM is maintained primarily for cultural preservation and recreational uses (ADWR 2009). The private land uses include domestic, commercial, mining, farming, and ranching activities.

Figure 4. Stream network and land ownership in the Beaver Creek basin and surrounding area.

HYDROLOGICAL ASSESSMENT

Valley and Channel Morphology

The Beaver Creek reaches identified in the instream flow water right application flow across valley alluvium with an active channel and terraced floodplains. The active channel bed has gravels and cobbles with a few boulders. There are sequences of pools and riffles along the stream reaches, and changes in the channel occur on a sub-annual basis as finer sediments are scoured during storm flood events and then deposited again as water levels decline. The terraced floodplain closest to the channel is flooded frequently during storm events, and there is evidence of higher historical floodplain terraces beyond the terrace adjacent to the stream channel.

Streamflow Data

A streamflow gaging station, identified as Beaver Creek near Lake Montezuma, AZ, was installed on Beaver Creek within the boundaries of the Castle Unit of MCNM and began collecting continuous gage height (ft) data at 15 minute intervals on August 25, 2004. The gaging station operation is a cooperative effort between the National Park Service and the United States Geological Survey (USGS). Numerous cross-section surveys and manual discharge measurements were made at the gaging station channel cross section in order to develop a stage-discharge rating curve. Rating curve development, discharge record computation, and gaging station operation were conducted in accordance with USGS protocols. The streamflow record was used to determine monthly median discharge for the stream reaches flowing through the Castle Unit of MCNM.

A flow duration curve, displayed in Figure 5, was developed from discharge data collected at the Beaver Creek near Lake Montezuma, AZ gage. Monthly median flow (flows equaled or exceeded 50% of the time) for the period of September 2004 to July 2009 are displayed in Figure 6 and listed in Table 1.

Figure 5. Flow Duration Curve calculated for the Beaver Creek near Lake Montezuma, AZ gage, September 2004 – July 2009.

Figure 6. Beaver Creek monthly median discharge developed from Beaver Creek near Lake Montezuma, AZ discharge data and requested in the application.

Table 1. Monthly median flows (cfs) and annual discharge volume (acre ft/yr) from the Beaver Creek near Lake Montezuma, AZ gage during the period of September 2004 to July 2009.

	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Acre ft/yr
Monthly Median Flows	3.9	7.2	11.0	21.0	53.0	42.0	7.8	4.1	1.0	0.4	5.0	2.4	9,409.29

Water Rights

During November 1985, the National Park Service, with the U.S. Department of Justice, submitted a Statement of Claimant in the Verde River General Adjudication for a reserved right to unquantified natural flows for all surface water sources including Beaver Creek and its unnamed tributaries. That claim is pending.

Additionally, three instream water right applications have been filed in the Wet Beaver Creek basin. Two rights are still pending, one in Rarick Canyon and one on Walker Creek. Both of these applications are located within the Coconino National Forest. The third water right, on Wet Beaver Creek upstream to the Well Unit of MCNM, was granted to the United States Forest Service in the Coconino National Forest with a filing date of July 29, 1985.

BIOLOGICAL ASSESSMENT

Wildlife

The instream flow reaches of Beaver Creek within the Castle Unit of MCNM provide habitat for numerous wildlife species including those with special federal and state status (see Table 2). The species having a special federal status that use the riparian habitat along the instream flow reaches include the endangered southwestern willow flycatcher (*Empidonax traillii extimus*) and the yellow-billed cuckoo (*Coccyzus americanus*). Also occupying these habitats are the following avian members of the Arizona State Species of Concern list: the previously mentioned willow flycatcher and cuckoo, bald eagle (*Haliaeetus leucocephalus*), common black-hawk (*Buteogallus anthracinus*), American peregrine falcon (*Falco peregrinus anatum*), belted kingfisher (*Megasceryle alcyon*), and osprey (*Pandion haliaetus*). In addition, two mammals, the western red bat (*Lasiurus blossevillii*) and Arizona myotis (*Myotis occultus*), that are listed as Arizona State Species of Concern are found in these riparian habitats.

Table 2. Federally-listed Species and State Species of Concern found in the Castle Unit of MCNM instream flow reaches.

Taxa	Species	Status
Bird	Southwestern Willow Flycatcher (<i>Empidonax traillii extimus</i>)	Federally-listed Endangered
Bird	Yellow-billed Cuckoo (<i>Coccyzus americanus</i>)	Federally-listed Candidate
Bird	Osprey (<i>Pandion haliaetus</i>)	Arizona State Species of Concern
Bird	Bald eagle (<i>Haliaeetus leucocephalus</i>)	Arizona State Species of Concern
Bird	Common black-hawk (<i>Buteogallus anthracinus</i>)	Arizona State Species of Concern
Bird	Peregrine falcon (<i>Falco peregrines</i>)	Arizona State Species of Concern
Bird	Belted kingfisher (<i>Megasceryle alcyon</i>)	Arizona State Species of Concern
Bird	Olive-sided flycatcher (<i>Contopus cooperi</i>)	Arizona State Species of Concern
Mammal	Western red bat (<i>Lasiurus blossevillii</i>)	Arizona State Species of Concern
Mammal	Arizona myotis (<i>Myotis occultus</i>)	Arizona State Species of Concern

The southwestern willow flycatcher is known to occur in Beaver Creek and the southwestern willow flycatcher has been documented in the monument (Van Riper et al. 2010). The southwestern willow flycatcher was federally listed as endangered in 1995 (60 FR 10694) with critical habitat designated in 2005 (50 CFR 60886). The southwestern willow flycatcher occurs in dense riparian habitats along streams, rivers and other wetlands where cottonwood, willow, boxelder, tamarisk, Russian olive, buttonbush and arrowweed are present (U.S. Fish and Wildlife Service 2004). Nests are found in thickets of trees and shrubs primarily 13 to 23 feet in height, among dense homogenous foliage (U.S. Fish and Wildlife Service 2004); flycatcher habitat is dependent on a perennially flowing stream.

The yellow-billed cuckoo has been documented in the Beaver Creek reaches within Montezuma Castle National Monument (Holmes et al. 2008). The yellow-billed cuckoo was federally listed as a candidate species by U.S. Fish and Wildlife Service in 2001 (66 CFR 38611). The yellow-billed cuckoo is found in large blocks of riparian gallery forests dominated by large cottonwood and willows, and feeds exclusively on insects. These riparian gallery forests are dependent on stream reaches that flow perennially and periodically overflow onto floodplain terraces. Yellow-billed cuckoo populations, once common in Arizona, have severely declined due to habitat loss.

The osprey and bald eagle are two State Species of Concern that have been documented in Montezuma Castle National Monument (Schmidt et al. 2006a; Van Riper et al. 2010). The osprey requires riparian habitats due to its diet; the osprey feeds almost exclusively on fish (Poole 1989) which require perennial streamflow. While the bald eagle can feed on carrion, they typically feed on fish, waterfowl, and other

water-dependent prey and are also frequently dependent on riparian habitats with perennial streamflow. Van Riper et al. (2010) had winter/spring sightings of bald eagles along Beaver Creek.

The common black-hawk is a State Species of Concern that has been documented on Beaver Creek, nesting within the Castle Unit of MCNM (Van Riper et al. 2010). The black-hawk is an obligate riparian nester preferring mature cottonwood and sycamore habitat (Schnell 1994) and requires a stream reach that flows perennially.

The peregrine falcon is a State Species of Concern that has been documented within Montezuma Castle National Monument, although breeding has not been confirmed (Van Riper et al. 2010). The peregrine falcon feeds almost exclusively on birds and bats and typically breeds in steep, sheer cliffs overlooking riparian areas, or other habitats supporting abundant prey species.

The belted kingfisher is a State Species of Concern documented on open water habitat along Beaver Creek riparian areas (Van Riper et al. 2010). The diet of the kingfisher is primarily fish, although they will eat other prey items such as amphibians, reptiles, and even berries. Kingfishers are closely tied to water reaches with perennial flow.

The olive-sided flycatcher, a State Species of Concern and a U.S. Fish and Wildlife Service Species of Conservation Concern, has been documented on Beaver Creek in the Castle Unit of MCNM, although no breeding pairs have been documented (Van Riper et al. 2010). These birds are thought to rely on riparian habitats for access to deciduous trees and abundant insect species.

Two bat species observed within Montezuma Castle National Monument are listed on the State Species of Concern: Western red bat and Arizona myotis. Both species require riparian forests and water sources that are greatly dependent on perennial streamflow. The Western red bat roosts in cottonwood trees and its decline is associated with the decline in cottonwood habitat (Arizona Game and Fish Department Heritage Data Management System). Arizona myotis is also found along perennial water or in riparian forest in some desert areas such as along the lower Colorado and Verde rivers (Arizona Game and Fish Department Heritage Data Management System). The habitats of both species are dependent on perennial stream flows.

In addition to these listed and sensitive species, other terrestrial wildlife depend closely on Beaver Creek within the Castle Unit of MCNM for drinking water and for the diverse assemblage of vegetation, and aquatic and terrestrial animal communities. Mammal species found in the Castle Unit of MCNM with a strong dependence on perennial stream flows and riparian habitat are raccoon (*Procyon lotor*), southwestern river otter (*Lontra canadensis*), ringtail (*Bassariscus astutus*), and American beaver (*Castor canadensis*). Species that depend on riparian areas for drinking water and/or riparian habitat at Beaver Creek in the Castle Unit of MCNM include elk (*Cervus canadensis*), American black bear (*Ursus americanus*), mountain lion (*Puma concolor*), mule deer (*Odocoileus hemionus*), white-tailed deer (*Odocoileus virginianus*), and bobcat (*Lynx rufus*).

Fisheries

Three special status fish are found within the instream flow reaches of Beaver Creek in the Castle Unit of MCNM (see Table 3; Schmidt et al. 2006a; Montgomery et al. 1995; Montgomery and Hardwick 1998). The federally-listed candidate roundtail chub (*Gila robusta*) was documented at Beaver Creek at the Castle Unit of MCNM (Montgomery and Hardwick 1998); the authors speculated that finding the chub in October could potentially indicate seasonal movement of the species from Wet Beaver Creek to Beaver Creek. The two Arizona Species of Concern, Sonora sucker (*Catostomus insignis*) and desert sucker (*Catostomus clarkii*), were documented in one and two reaches respectively within the creek at the Castle Unit of MCNM (Montgomery et al. 1995; Montgomery and Hardwick 1998). All of these special status

fish species inhabit Beaver Creek within the Castle Unit of MCNM and are dependent on the presence of perennial flow.

Table 3. Federally-listed Species and State Species of Concern found in the instream flow reaches of the Castle Unit of MCNM.

Taxa	Species	Status
Fish	Roundtail Chub (<i>Gila robusta</i>)	Federally-listed Candidate
Fish	Sonora sucker (<i>Catostomus insignis</i>)	Arizona State Species of Concern
Fish	Desert sucker (<i>Catostomus clarkii</i>)	Arizona State Species of Concern

There are two federally-listed fish, the loach minnow (*Tiaroga cobitis*) and spinedace (*Meda fulgida*), that have designated critical habitat within instream flow reaches of Beaver Creek within the Castle Unit of MCNM. Six other fish are also found in Beaver Creek within the Castle Unit of MCNM and are dependent on perennial flow (Montgomery et al. 1995, Montgomery and Hardwick 1998). The native longfin dace (*Agosia chrysogaster*) was found in one reach of the creek within the Castle Unit of MCNM. Five other non-native fish, the smallmouth bass (*Micropterus dolomieu*), red shiner (*Cyprinella lutrensis*), yellow bullhead (*Ameiurus natalis*), carp (*Cyprinus carpio*), and green sunfish (*Lepomis cyanellus*) were all documented in Beaver Creek within the Castle Unit of MCNM.

In particular, a deep pool habitat located along Beaver Creek in the Castle Unit of MCNM was particularly productive and all nine of the fish species were found in this particular habitat. Furthermore, the absence of the invasive red shiner from this particular deep pool habitat was considered "notable" by Montgomery and Hardwick (1998) and was speculated to be tied to high, late spring runoff transporting the red shiners downstream. This deep pool habitat is directly tied to perennial instream flows.

Reptiles and Amphibians

An inventory conducted at Montezuma Castle National Monument during 1993 and 1994 documented thirty species of reptiles and four species of amphibians (Schmidt et al. 2006b). The greatest diversity (thirteen species) was observed in the lizard population, and the lowest diversity (three native species) amongst the amphibian population. None of the reptiles and amphibians that have been currently documented on the instream flow reach of Beaver Creek at the Castle Unit of MCNM have special management status, although this reach is recognized as suitable habitat for species such as those listed in Table 4. "Suitable habitat" refers to a site having suitable ecological components to sustain species individuals, but the species may or may not have been found during surveys for the site. The Northern Mexican Gartersnake has been documented nearby at Tuzigoot National Monument and may occur within the Castle Unit of MCNM, but has not been documented in surveys.

Table 4. Special Status Reptiles and Amphibians for which Beaver Creek is Suitable Habitat

Taxa	Species	Status
Reptile	Northern Mexican Gartersnake (<i>Thamnophis eques megalops</i>)	Federally-listed Candidate
Reptile	Narrow-headed Gartersnake (<i>Thamnophis rufipunctatus</i>)	Arizona State Species of Concern
Amphibian	Arizona Toad (<i>Anaxyrus microscaphus</i>)	Arizona State Species of Concern
Amphibian	Lowland Leopard Frog (<i>Rana yavapaiensis</i>)	Arizona State Species of Concern
Amphibian	Northern Leopard Frog (<i>Rana pipiens</i>)	Arizona State Species of Concern

Invertebrates

The proposed instream flow reach of Beaver Creek at the Castle Unit of MCNM is suitable habitat for the invertebrate species with special management status listed in Table 5. While these species may be present, no surveys have been conducted to document their presence.

Table 5. Special Status Invertebrates for which Beaver Creek is Suitable Habitat

Taxa	Species	Status
Invertebrate	Maricopa Tiger Beetle (<i>Cicindela oregona maricopa</i>)	Arizona State Species of Concern
Invertebrate	Balmorhea Saddle-case Caddisfly (<i>Protophila balmorhea</i>)	Arizona State Species of Concern

The Importance of Riparian Environments

The importance of riparian environments for wildlife, especially around perennial streams, has been well-documented (Brown et al. 1977; Lohman 2004) for various wildlife taxa including birds, mammals, amphibians, reptiles, and invertebrates. Many species are restricted to riparian habitats for reproduction and greater species richness has been shown in riparian habitats compared to upland habitats. Brinson et al. (1981) attributed four features: (1) the predominance of woody plant communities, (2) the presence of surface water and abundant soil moisture, (3) structural diversity, and (4) the linear nature of riparian habitats, which allows migratory corridors for many species. These four characteristics of riparian habitats are particularly important in a desert habitat where surface water and broad leaf vegetation communities are limited in distribution; these four characteristics are directly dependent on instream flows.

Although riparian ecosystems occupy less than 2% of the total land area of Arizona (Strong and Bock [1990] state that riparian woodlands are less than 0.5% of the land area), they are the most productive and unique of all of the state's ecosystems (DeBano et al. 2003). In Arizona, 80% of all vertebrates depend on riparian ecosystems during at least half of their life cycle, and more than half are totally dependent on riparian areas (Chaney et al. 1990). For the Castle Unit of MCNM, the perennial flow of Beaver Creek and corresponding riparian habitats run through approximately two-thirds of the Castle Unit of MCNM and greatly contribute to both the wildlife and fish diversity. Schmidt et al. (2006a) attributed the perennially flowing Beaver Creek and the surrounding riparian vegetation as being responsible for the Castle Unit of MCNM having one of the highest numbers of bird species out of the eleven National Park Service units in the Sonoran Desert Network.

Instream Flow and Riparian Habitat

Riparian ecosystems are identified by soil characteristics or distinctive vegetation communities that require free or unbound water (DeBano and Schmidt 1989). Streamflow, which is strongly correlated with many critical physicochemical characteristics of rivers, such as water temperature, channel geomorphology, and habitat diversity, can be considered a "master variable" that limits the distribution and abundance of riverine species and regulates the ecological integrity (Poff et al. 1997). The timing and predictability of flow events is critical ecologically because the life cycles of many aquatic and riparian species are timed to either avoid or take advantage of flows of variable magnitudes (Poff et al. 1997).

The riparian communities in Beaver Creek are dominated by cottonwood (*Populus fremonti*), Goodding willow (*Salix gooddingii*), Arizona sycamore (*Platanus wrightii*), and various baccharis species. Riparian trees are dependent on perennial water sources, and forests dominated by cottonwood and willow have diminished greatly over the past 100 years because of the diversion, interruption, and elimination of streamflows in Arizona (Brown et al. 1977).

Cottonwoods have been clearly shown to be dependent on water originating from streamflow (Rood et al. 2003). Merritt et al. (2010) showed that cottonwood and Goodding willow were more abundant along free-flowing reaches compared to both diverted and xeroriparian sites; species composition clearly shifted from being dominated by native riparian forest species to desert shrub communities along a perennial to intermittent flow gradient. Merritt et al. (2010) also concluded that the maintenance of riparian forests requires perennial streamflow and that reductions in streamflow and streamflow intermittency may result in the decline of forest structures, loss of mature cottonwood stands, and conversion of forests towards a grassland-shrubland ecosystem.

The permanence of surface flow was shown to best explain the variance in cottonwood (*Populus fremontii*) and Goodding willow (*Salix gooddingii*) abundance (Lite and Stromberg 2005); where surface flow was perennial, the greatest abundance of those two tree species were found. Bird, small mammal, and reptile habitat indices were significantly greater in riparian forest communities dominated by cottonwood as compared to non-cottonwood, shrub-dominated habitats (Merritt et al. 2010).

Finally, there is a direct relationship between surface flows and sub-surface water, and both these water sources are important to riparian vegetation during both the growing season as well as the dry season during May and June. Shallow groundwater was shown to be the most significant variable for predicting obligate wetland plants such as Goodding's willow and facultative wetland plants such as Fremont's cottonwood and *Baccharis salicifolia*. The perennial surface water and shallow groundwater tables in Beaver Creek and other riparian habitats allow for greater density and diversity of plant and animal species than any other known ecological type in the Sonoran desert. Perennial instream flows of particular magnitude maintain elevated groundwater tables that sustain the most structurally and compositionally complex bird and mammal habitats with a riparian forest component (Merritt et al. 2010).

Maintenance of Wildlife and Fish Beneficial Uses

Forests dominated by cottonwood and willow are dependent on perennial water sources, and these forests have diminished greatly over the past 100 years because of the diversion, interruption, and elimination of streamflows in Arizona (Brown et al. 1977). Homogenous cottonwood areas were shown to support significantly more species and denser populations of nesting birds than mixed deciduous plots (Carothers et al. 1974). Bird species diversity of cottonwood and mesquite habitats of the Southwest appears to be correlated with foliage height diversity (Stamp 1978), which is directly dependent on perennial water sources and shallow groundwater levels.

Studies have definitively shown that riparian woodlands in the desert Southwest support substantially higher avian species richness and relative abundance than adjacent uplands (Hubbard 1977, Johnson et al. 1977, Strong and Bock 1990, Kirkpatrick et al. 2009). Carothers and Johnson (1970) found breeding bird densities in cottonwood stands along the Verde River in excess of 1000 pairs per 100 acres, which was one of the highest populations of birds found in North America (Beaver Creek is a tributary of the Verde River). They also determined that over 50% of these bird species were dependent on riparian vegetation. Similarly, studies in the Gila River Valley have shown that nearly half (49%) of the breeding birds would not occur in the absence of riparian habitat (Hubbard 1977).

For riparian birds, surface water has been directly correlated with both total relative abundance and species richness (Kirkpatrick et al. 2009). In particular, Kirkpatrick et al. (2009) showed that greater surface water was shown to be directly correlated with increased arthropod biomass in aerial and arthropod sampling, which could explain higher numbers for riparian birds that prey on arthropods.

Several species of wildlife are totally or largely dependent on these riparian communities along Beaver Creek (Brown et al. 1977): the Arizona grey squirrel (*Sciurus arizonensis*), otter (*Lutra canadensis*),

black-hawk (*Buteogallus anthracinus*), summer tanager (*Piranga rubra*), bullock oriole (*Icterus bullock*), yellow warbler (*Dendroica petechia*), Arizona alligator lizard (*Gerrhonotus kingi* [=Madrean alligator lizard, *Elgaria kingii*]), Sonoran mud turtle (*Kinosternon sonoriense*), and canyon tree frog (*Hyla arenicolor*). Hubbard (1977) also included four other riparian-dependent species the beaver (*Castor canadensis*), muskrat (*Ondatra zibethica*), raccoon (*Procyon lotor*), and gartersnakes (*Thamnophis* spp.); these animals have been documented in Beaver Creek.

Montgomery et al. (1995) compared the distribution of fishes, amphibians, and aquatic reptiles in perennial and ephemeral reaches of Wet Beaver Creek and Beaver Creek. They found that the sites with perennial waters were the most similar in species abundance and composition, and that sites with ephemeral waters had the lowest diversity of fish, as well as only one native fish species. Physical characteristics, such as dissolved oxygen levels, temperature, pH, and conductivity, of perennial streams contributed to greater species diversity and abundance when compared to the ephemeral stream reaches. Lower dissolved oxygen and higher temperatures in ephemeral streams adversely affect fish productivity and contribute to fish mortality as streams de-water.

Thus, perennial flow provides sufficient surface water and shallow groundwater to sustain high quality riparian habitats with cottonwood, sycamore, and Goodding willow which directly support avian, mammal, reptile, amphibian, and fish populations at Beaver Creek within the Castle Unit of MCNM. In particular, because the uplands of the Castle Unit of MCNM are dominated by creosote and other water-scarce habitats, the high wildlife and fish species diversity for the Castle Unit of MCNM is directly attributable to the perennially flowing Beaver Creek and the surrounding riparian vegetation.

SUMMARY

Water is a precious resource in the desert areas of Arizona, and the State of Arizona has recognized the need for keeping perennial streams flowing in the state. Governor Rose Mofford issued Executive Order No. 91-6 in February of 1991 stating "The state of Arizona shall encourage the preservation, maintenance, and restoration of instream flows throughout the state." The order demonstrates the state's appreciation of the importance of riparian habitats and the role that such habitats play in preserving fish, wildlife, and other water-dependent species. This appropriation will advance the interests of Arizona citizens and enhance visitors' enjoyment of the state's natural resources. The beneficial use of water for fish and wildlife purposes will help to implement the policy expressed in Executive Order No. 91-6.

The perennial flow of Beaver Creek is a unique and important water resource in the region, delivering water to numerous species dependent on riparian habitat for water, food, migration, and shelter. The Castle Unit of Montezuma Castle National Monument has protected riparian habitats since its inclusion in the National Park system in 1906. Unprotected riparian areas in the surrounding region have declined due to the impact of human activities, particularly development. Consequently, the riparian areas within the Monument represent important undisturbed habitats and support diverse communities of fish and wildlife. Beaver Creek and the riparian habitats that it supports are vulnerable to reductions in flow due to increasing demands for water from new diversions for domestic use, irrigation, or mining and increased levels of groundwater pumping. Diminished streamflow would result in a degradation of existing riparian habitat and reduced fish and wildlife populations. Preservation of median stream flow is a step towards safeguarding the future of this rich riparian habitat and the discharge amounts displayed in Table 1 provide a minimal level of protection for current fish and wildlife populations along Beaver Creek. An instream flow water right will provide necessary protection for the continued health of riparian habitats and the ecosystems they support.

APPENDIX I

Endangered:

Any species which is in danger of extinction throughout all or a significant portion of its range as determined by the Secretary of the Interior.

Threatened:

Any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range as determined by the Secretary of the Interior.

Proposed:

Any species of fish, wildlife, or plant that has been proposed in the Federal Register to be listed under the Endangered Species Act.

Candidate:

Species for which USFWS has sufficient information on biological vulnerability and threats to support proposals to list as Endangered or Threatened under ESA. However, proposed rules have not yet been issued because such actions are precluded at present by other listing activity.

Species of Concern:

The terms "Species of Concern" or "Species at Risk" should be considered as terms-of-art that describe the entire realm of taxa whose conservation status may be of concern to USFWS. Neither term has official status (currently all former C2 species).

Sensitive:

Those taxa occurring on National Forests in Arizona which are considered sensitive by the Regional Forester.

APPENDIX II

Riparian Dependent Birds of Beaver Creek in the Castle Unit of Montezuma Castle National Monument

This list is not all inclusive but was derived from Van Riper et al. 2010 which documented birds at Montezuma Castle National Monument and indicated habitat preferences.

Species	Latin name
Snow Goose	<i>Chen caerulescens</i>
Wood Duck	<i>Aix sponsa</i>
Mallard	<i>Anas platyrhynchos</i>
American Wigeon	<i>Anas americana</i>
Redhead	<i>Aythya americana</i>
Ring-necked Duck	<i>Aythya collaris</i>
Lesser Scaup	<i>Aythya affinis</i>
Common Merganser	<i>Mergus merganser</i>
Great Blue Heron	<i>Ardea virescens</i>
Osprey	<i>Pandion haliaetus</i>
Bald Eagle	<i>Haliaeetus leucocephalus</i>
Common Black-Hawk	<i>Buteo galus anthracinus</i>
Peregrine Falcon	<i>Falco peregrinus</i>
American Kestrel	<i>Falco sparverius</i>
Killdeer	<i>Charadrius vociferus</i>
Spotted Sandpiper	<i>Actitis macularis</i>
Wilson's Snipe	<i>Gallinago delicata</i>
Yellow-billed Cuckoo	<i>Coccyzus americanus</i>
Western Screech-Owl	<i>Megascops kinnicottii</i>
Elf Owl	<i>Micrathene whitneyi</i>
Belted Kingfisher	<i>Megascyle alcyon</i>
Red-naped Sapsucker	<i>Sphyrapicus nuchalis</i>
Ladder-backed Woodpecker	<i>Picoides scalaris</i>
Northern Flicker	<i>Colaptes auratus</i>
Olive-sided Flycatcher	<i>Contopus cooperi</i>
Western Wood-Pewee	<i>Contopus sordidulus</i>
Black Phoebe	<i>Sayornis nigricans</i>
Say's Phoebe	<i>Sayornis saya</i>
Vermilion Flycatcher	<i>Pyrocephalus rubinus</i>
Cassin's Kingbird	<i>Tyrannus vociferans</i>
Bell's Vireo	<i>Vireo bellii</i>
Northern Rough-winged Swallow	<i>Stelgidopteryx serripennis</i>
Cliff Swallow	<i>Petrochelidon pyrrhonota</i>
Bridled Titmouse	<i>Baeolophus wollweberi</i>
House Wren	<i>Troglodytes aedon</i>

Ruby-crowned Kinglet	<i>Regulus calendula</i>
American Robin	<i>Turdus migratorius</i>
Cedar Waxwing	<i>Bombycilla cedrorum</i>
Orange-crowned Warbler	<i>Vermivora celata</i>
Virginia's Warbler	<i>Vermivora virginiae</i>
Lucy's Warbler	<i>Vermivora luciae</i>
Yellow Warbler	<i>Dendroica petechia</i>
Black-billed Gray Warbler	<i>Dendroica nigrescens</i>
MacGillivray's Warbler	<i>Oporornis tolmiei</i>
Yellow-breasted Chat	<i>Icteria virens</i>
Summer Tanager	<i>Piranga rubra</i>
Northern Cardinal	<i>Cardinalis cardinalis</i>
Blue Grosbeak	<i>Passerina caerulea</i>
Indigo Bunting	<i>Passerina cyanea</i>
Green-tailed Towhee	<i>Pipilo chlorurus</i>
Spotted Towhee	<i>Pipilo maculatus</i>
Hooded Oriole	<i>Icterus cucullatus</i>
Bullock's Oriole	<i>Icterus bullockii</i>
