

WATER-RIGHT DOCKET

Point Reyes National Seashore

Docket No: 25

UNNAMED SPRING APPL #02921 PERMIT #020434

Preliminary Docket Information

00-00-0000: water right/source docket information: application a029021

Application : A029021
Permit : 020434 Issued on March 8, 1990
License :

Primary Owner : U S NATIONAL PARK SERVICE
Mail To Owner : U S NATIONAL PARK SERVICE
POINT REYES NATIONAL SEASHORE
Address : 1201 OAK RIDGE DRIVE STE 250, FORT COLLINS, CO 80525-5596

POD Information :
IN NE¼ of SE¼ of projected Section 23, T1N, R8W, MDB&M (Marin County)
Water to be diverted from Unnamed Stream
Tributary PACIFIC OCEAN

Amount :
Maximum Storage : 21 acrc-feet/ann

Purpose of Use : Domestic
Storage Season : November 1 to May 1

Purpose of Use : Irrigation
Storage Season : November 1 to May 1

Purpose of Use : Stockwatering
Storage Season : November 1 to May 1

Purpose of Use : Recreational
Storage Season : November 1 to May 1

[FINAL SUBMITTED VERSION]**REPORT OF LICENSEE FOR 2011**

Primary Owner: U S NATIONAL PARK SERVICE

Application Number: A029021

License Number: 013492

Date Submitted: 2012-07-19

1. Project Abandoned

The project has been abandoned and I request revocation of my water right license	No
---	----

2. Compliance with License Terms and Conditions

I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
---	-----

Description of noncompliance with terms and conditions	
--	--

3. Changes to the Project

Intake location has been changed

Description of intake location changes

Type of use has changed

Description of type of use changes

Place of use has changed

Description of place of use changes

Other changes

Description of other changes

4. Purpose of Use

Stockwatering	75 animals
---------------	------------

5. Amount of Water Diverted and Used

Month	Amount directly diverted or collected to storage (Acre-Feet)	Amount used (Acre-Feet)
January	4.0	1.7
February	4.0	1.7
March	4.0	1.7
April	0.0	1.7
May	0.0	1.7
June	0.0	1.7
July	0.0	1.7
August	0.0	1.7
September	0.0	1.7
October	0.0	1.7
November	4.0	1.7
December	4.0	1.7
Total	20	20.4

6. Maximum Rate of Diversion for each Month	
Month	Maximum Rate of Diversion ()
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

7. Storage					
Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level
Unknown	Yes		No	0.0	Not known.

Conservation of Water	
8. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
Same reservoir as License 13112. Captures rainy season discharge; spills every winter. Does not dry out in summer. Amounts of use are estimates; actual capture is probably slightly less than licensed amount due to siltation of reservoir. Declaration: The United States gives this information to the State in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

POPE

EMERIE G. BROWN JR.
GOVERNORMATTHEW RODRIGUEZ
COMMISSIONER FOR
SUDOR-ORIENTAL PROTECTION

State Water Resources Control Board

NOTICE TO WATER RIGHT LICENSEE

March 5, 2012

Designated Contact or Agent:
U S NATIONAL PARK SERVICE
1201 OAK RIDGE DR STE 250
FORT COLLINS, CO 80525

Contact Phone Number: (970) 225-3500**Primary Owner:** U S NATIONAL PARK SERVICE**Application ID:** A029021 **License No.** 013492

First three Sources listed:	Counties:
UNST	Marin

Direct Diversion Rate: 0.000 Gallons per Day **Collection to Storage Amount:** 20.400 AC-FT**LICENSEE REPORTING FOR 2011**

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to www.waterboards.ca.gov/rms and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A029021**
Password (Reporting Identifier): **237253**

You are required to complete the online report for 2011 no later than **June 30, 2012**. If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

CHARLES R. FLOPPIN, CHAIRMAN | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 J Street, Sacramento, CA 95814 • Mailing Address: P.O. Box 160, Sacramento, CA 95812-0160 • www.waterboards.ca.gov

- 2 -

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Phillip Crader, Manager

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to www.waterboards.ca.gov/rms and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A029021**
Password: **7C2D6B**

You are required to complete the online report for 2010 no later than **July 1, 2011**. You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

California Environmental Protection Agency

**Notice to Water Right Licensee
Licensee Reporting for 2010**

-2-

February 2011

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 341-5431 or send an email to: ewrims@waterboards.ca.gov

Sincerely,

Phillip Crader, Manager
Permitting and Licensing Section

☐ YES ☐ NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

- ☐ YES ☐ NO I have currently reviewed my water right license.
- ☐ YES ☐ NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
- ☐ YES ☐ NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If Yes, explain under "Remarks" on reverse side. **Note:** A Change Petition and associated fees may be required for any significant changes to the licensed project.

BENEFICIAL USE(S) OF WATER: Under the appropriate boxes below, briefly explain how the water was used each year

4. Current Use(s) of Water	2007	2008	2009
4.a. Irrigation – specify no. of acres irrigated			
4.b. Frost Protection – specify no. of acres protected			
4.c. Heat Control – specify no. of acres protected			
4.d. Industrial – specify type			
4.e. Stockwatering – specify no. & type of animals			
4.f. Municipal – approx. population served			
4.g. Domestic – specify no. of persons, lawn/garden area			
4.h. Power Generation – installed capacity in kW, MW, or hp			
4.i. Recreational – specify (boating, fishing, water contact sports, etc.)			
4.j. Other – specify (Examples: fire protection, snowmaking, mining, etc.)			

AMOUNT OF WATER TAKEN FROM THE SOURCE: Please report only the amounts diverted and/or stored under this license.

5.a. Amount of water taken each month under this license in [] gallons or [] acre-feet or [] million gallons

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007													
2008													
2009													

AMOUNT OF WATER BENEFICIALLY USED: Please report only the amounts beneficially used under this license.

5.b. Amount actually used by direct diversion and/or withdrawal from storage in acre-feet. ☐ Check if amounts are same as 5.a.

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007													
2008													
2009

App ID No. A029021

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If No, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If No, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

8. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

IMPORTANT! EVERY permit is issued subject to the conditions therein expressed. I have currently reviewed my permit: YES ☒ NO ☐ I am complying with the conditions under which my permit has been issued: YES ☒ NO ☐ Identify any noncompliance by permit term number under "Remarks" on reverse side. This report is important in providing the record of use needed in establishing your water right. It should be filled out carefully and returned promptly to the above address.

THE PROJECT HAS BEEN ABANDONED AND I REQUEST REVOCATION OF THIS PERMIT: YES ☐ NO ☒

CONSTRUCTION WORK

- Has construction work commenced? YES ☒ NO ☐ Is construction completed? YES ☐ NO ☒
- If incomplete, describe briefly the work done, including cost: 3 Phase electric installed
- If not completed, give estimated date of completion: July 1994
- What percent of construction work remains to be done? 70% Explain: Install pump and transmission lines to irrigated acreage

USE OF WATER

5. Has use of water commenced? YES ☐ NO ☒ Check appropriate box(es) below and explain how water was used.

(a) ☐ Irrigation	Total acres irrigated	Name of crops raised and acreage of each
(b) ☐ Stockwatering	Number of animals	(f) ☐ Recreational
(c) ☐ Industrial	Nature of use	Boating, fishing, water contact sports
(d) ☐ Domestic	Number of persons, size of garden, lawn, etc.	(g) ☐ Power generation
(e) ☐ Municipal	Approximate population	Installed horsepower capacity
(h) ☐ Other		

6. Amount of water used each month under this permit in gallons or acre-feet. (If not known, check months water was used.)

Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual

- Has use of water, both amount and season, been as great as you expect in any future year under this permit? YES ☐ NO ☒ If "No", explain in "Remarks".
- Has location of the intake, place of use, or type of use been changed? YES ☐ NO ☒ Explain in "Remarks".
- Did the source go dry? YES ☐ NO ☒ If so, during what months?

STORAGE PROJECTS ONLY

10. Did your reservoir spill this year? YES ☒ NO ☐ If not, how many feet below spillway vertically was the water level at maximum storage? Have you emptied the reservoir? YES ☐ NO ☒ If not, how many feet below spillway vertically was it drawn down at end of season? 4' Four Feet

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT.
MUNICIPAL, COMMUNITY, OR SUBDIVISION PROJECTS ONLY
CONSERVATION OF WATER

11. How many service connections to date? _____ Total population served by the water system: _____
12. Estimated number of service connections under full use: _____
13. Are the connections individually metered? YES ☐ NO ☐ .
14. Do you plan to meter the connections? YES ☐ NO ☐ . When? _____
15. Sewage generated by those to whom you deliver water is disposed of by: Septic tanks and leach lines ☐ ; Seepage pits ☐ ; Central treatment plant ☐ operated by _____ ; Other ☐ (specify under "Remarks").
16. Is water service provided to an area or subdivision including a recreational reservoir? YES ☐ NO ☐ .
17. Name of area or subdivision so served: _____
18. State surface area at maximum water level in recreational reservoir(s) referred to in 16. Identify surface area(s) by name of dam or reservoir: _____
19. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐ ; (2) Lining canals ☐ ; (3) Phreatophyte and aquatic vegetation control ☐ ; (4) Other (describe in "Remarks") ☐ .
20. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.), where applicable ☐ ; (2) Return flow systems on individual farms ☐ ; (3) Return flow system area-wide ☐ ; (4) Water pricing to encourage reduced use ☐ ; (5) Charges for drainage of irrigated lands ☐ ; (6) Other (describe in "Remarks") ☐ .
21. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐ ; (2) Public education program on water conservation ☐ ; (3) Pricing to encourage reduced use ☐ ; (4) Assistance to industry in design of recycle systems ☐ ; (5) Other (describe in "Remarks") ☐ .
22. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐ ; (2) Water use for major crops by each farm ☐ ; (3) Other (describe in "Remarks") ☐ .
23. Describe any water conservation efforts you may have started: _____
24. If credit toward beneficial use of water under this permit for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.): _____

WATER QUALITY AND WASTEWATER RECLAMATION

25. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: All disturbed areas in watershed have been reseeded and have adequate sod cover to prevent excess siltation.
26. After use, the water is (1) retained in reservoir ☐ ; (2) discharged into a stream or lake ☒ ; (3) discharged into settling ponds ☐ ; (4) other ☐ . Describe: _____
27. Does or will water being discharged contain waste materials? ☐ YES ☒ NO.
(1) Domestic ☐ ; (2) Municipal ☐ ; (3) Industrial ☐ ; (4) Agricultural ☐ ; (5) Other ☐ . Describe: _____
28. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ YES ☒ NO. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR PERMIT, PLEASE ANSWER IN REMARKS SECTION BELOW.

29. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? ☐ YES ☒ NO.
If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show the amounts of reclaimed water used.
30. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? ☐ YES ☒ NO.
If Yes, please describe: _____
31. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
32. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
33. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS (Identify the item you are explaining. Additional pages may be attached.)

#7 Haven't used any for irrigation yet

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

APPLICATION 29021
Page 1 of 4

PERMIT 20434

LICENSE 13492

THIS IS TO CERTIFY, That

U.S. National Park Service
Water Resources Division
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525

has made proof as of November 5, 1998 (the date of inspection) to the satisfaction of the State Water Resources Control Board (SWRCB) of a right to the use of the waters of an Unnamed Stream in Marin County

tributary to Pacific Ocean

for the purpose of Domestic, Stockwatering, Dust Control, Recreational, Wildlife Enhancement, and Fire Protection uses

under Permit 20434 of the SWRCB; that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the SWRCB, and the permit terms; that the priority of this right dates from May 5, 1987; and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed twenty and four-tenths (20.4) acre-feet per annum to be collected from November 1 of each year to April 30 of the succeeding year. The maximum withdrawal in any one year under this license and License 13112 (Application 25504) shall not exceed 19.3 acre-feet.

The total quantity of water collected to storage under this license and License 13112 (Application 25504) shall not exceed 42 acre-feet per year.

The capacity of the reservoir covered by this license and License 13112 (Application 25504) shall not exceed 42 acre-feet.

This license does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

South 2,450 feet and West 950 feet from NE corner of projected Section 23, T1N, R8W, MDB&M, being within SE¼ of NE¼ of said Section 23.

APPLICATION 29021
Page 2 of 4

PERMIT 20434

LICENSE 13492

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

Recreational, wildlife enhancement, and fire protection uses at reservoir within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of projected Section 23, domestic use at 3 residences and grounds within S $\frac{1}{2}$ of NE $\frac{1}{4}$ of projected Section 23, dust control of feedlot within W $\frac{1}{2}$ of NE $\frac{1}{4}$ of projected Section 23, and stockwatering use at various locations within projected Sections 23 and 26, all within T1N, R8W, MDB&M, as shown on map on file with the SWRCB.

APPLICATION 29021
Page 3 of 4

PERMIT 20434

LICENSE 13492

Licensee shall allow representatives of the SWRCB and other parties, as may be authorized from time to time by the SWRCB, reasonable access to project works to determine compliance with the terms of this license.

The quantity of water diverted under this license is subject to modification by the SWRCB if, after notice to the licensee and an opportunity for hearing, the SWRCB finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the SWRCB finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the SWRCB may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the SWRCB also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

This license does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain authorization for an incidental take prior to construction or operation of the project. Licensee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this license.

Reports shall be filed promptly by the licensee on the appropriate forms which will be provided for the purpose from time to time by the SWRCB.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and the licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the SWRCB.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article (of the Water Code) and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

APPLICATION 29021
Page 4 of 4

PERMIT 20434

LICENSE 13492

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

OCTOBER 15 1996

Mr. Owen Williams
U. S. National Park Service
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525-5596

Gentlemen:

PERMIT 20434 (APPLICATION 29021) AN UNNAMED STREAM IN
MARIN COUNTY

This is in response to your letter of October 2, 1996 in which you indicated that the irrigation project proposed under Permit 20434 has been discontinued. The reservoir covered by this water right has a total storage capacity of 42 acre-feet. License 13112 (Application 25504) covers 21.6 acre-feet of this capacity. Permit 20434 must remain active since it covers the remaining 20.4 acre-feet of the total storage.

If irrigation use is to be deleted, we can issue a license for the other uses covered by the permit. Prior to the issuance of a license, we must make a physical inspection of the project. Therefore, we will try to schedule your project for inspection in 1997. The inspecting engineer will contact you prior to any inspection to schedule a date and time that will be convenient with you.

If you have any questions, please call me at (916) 657-1931.

Sincerely,

Shige Okada, Chief
Permit and License Unit

Our mission is to preserve and enhance the quality of California's water resources, and ensure their proper allocation and efficient use for the benefit of present and future generations.

United States Department of the Interior

NATIONAL PARK SERVICE

PORE/Water Rights

Mr. David R. Beringer, Program Manager
State Water Resources Control Board
The Paul R. Bonderson Building
901 P Street
Sacramento, CA 95814

Re: Water Rights Permit 020434

Dear Mr. Beringer:

This is to inform you that the National Park Service and its Lessee desire to withdraw the application for the appropriation of 21 AC-FT of water under permit No. 020434. This application was for additional storage and use of water for irrigated pasture in conjunction with License 13112. Our lessee has determined that construction and implementation of the irrigation project is no longer economically feasible, and wishes to discontinue the project.

We assume that the outstanding progress report will no longer be required. Should you have any questions, please contact Point Reyes National Seashore Chief of Resource Management William Shook at (415)663-8522, ext. 243.

Thank you for your patience and consideration in this matter.

Sincerely,

Owen Williams
Chief Water Rights Branch

Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual

7. Has use of water, both amount and season, been as great as you expect in any future year under this permit? YES ☐ NO ☒. If "No", explain in "Remarks".
8. Has location of the intake, place of use, or type of use been changed? YES ☐ NO ☒. Explain in "Remarks".
9. Did the source go dry? YES ☐ NO ☒. If so, during what months?

STORAGE PROJECTS ONLY

10. Did your reservoir spill this year? YES ☒ NO ☐. If not, how many feet below spillway vertically was the water level at maximum storage? _____ Have you emptied the reservoir? YES ☐ NO ☒. If not, how many feet below spillway vertically was it drawn down at end of season? 4' Four Feet

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT.
MUNICIPAL, COMMUNITY, OR SUBDIVISION PROJECTS ONLY

CONSERVATION OF WATER

11. How many service connections to date? _____ Total population served by the water system: _____
12. Estimated number of service connections under full use: _____
13. Are the connections individually metered: YES ☐ NO ☐ .
14. Do you plan to meter the connections? YES ☐ NO ☐ When? _____
15. Sewage generated by those to whom you deliver water is disposed of by: Septic tanks and leach lines ☐ ; Seepage pits ☐ ; Central treatment plan ☐ operated by _____ ; Other ☐ (specify under "Remarks").
16. Is water service provided to an area or subdivision including a recreational reservoir: YES ☐ NO ☐ .
17. Name of area or subdivision so served: _____
18. State surface area at maximum water level in recreational reservoir(s) referred to in 16. Identify surface area(s) by name of dam or reservoir: _____
19. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐ ; (2) Lining canals ☐ ; (3) Phreatophyte and aquatic vegetation control ☐ ; (4) Other (describe in "Remarks") ☐ .
20. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.), where applicable ☐ ; (2) Return flow systems on individual farms ☐ ; (3) Return flow system area-wide ☐ ; (4) Water pricing to encourage reduced use ☐ ; (5) Charges for drainage of irrigated lands ☐ ; (6) Other (describe in "Remarks") ☐ .
21. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐ ; (2) Public education program on water conservation ☐ ; (3) Pricing to encourage reduced use ☐ ; (4) Assistance to industry in design of recycle systems ☐ ; (5) Other (describe in "Remarks") ☐ .
22. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐ ; (2) Water use for major crops by each farm ☐ ; (3) Other (describe in "Remarks") ☐ .
23. Describe any water conservation efforts you may have started: _____
24. If credit toward beneficial use of water under this permit for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.): _____

WATER QUALITY AND WASTEWATER RECLAMATION

25. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: All disturbed areas in watershed have been reseeded and have adequate sod cover to prevent excess siltation.
26. After use, the water is (1) retained in reservoir ☐ ; (2) discharged into a stream or lake ☒ ; (3) discharged into settling ponds ☐ ; (4) other ☐ . Describe: _____
27. Does or will water being discharged contain waste materials? ☐ YES ☒ NO.
(1) Domestic ☐ ; (2) Municipal ☐ ; (3) Industrial ☐ ; (4) Agricultural ☐ ; (5) Other ☐ . Describe: _____
28. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ YES ☒ NO. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR PERMIT, PLEASE ANSWER IN REMARKS SECTION BELOW

29. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? ☐ YES ☒ NO.
If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show the amounts of reclaimed water used.
30. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? ☐ YES ☒ NO.
If Yes, please describe: _____
31. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
32. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
33. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS (Identify the item you are explaining. Additional pages may be attached.)

#7 Haven't used any for irrigation yet

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

APPLICATION 29021 PERMIT **20434**

Your water right permit is enclosed. The Board requires that you submit annual reports showing the progress you have made in the construction of your project or, if constructed, the use made under your permit which would qualify for licensing purposes. We will mail the forms to you when the reports are due.

Please note that, with respect to other rights attaching to this source, the priority of this right commences with the date of the application. Therefore, in time of water shortage, those with rights senior to yours can take their water first. Additional limitations on the diversion of water are specified by the terms of this permit. You should read the terms and conditions carefully so that you are familiar with your responsibilities as an appropriator of water under this entitlement.

After the project has been completed, an inspection will be made to determine the amount of water which has been placed to beneficial use within the terms of the permit. A license will then be issued confirming a right to that amount of water.

Please inform us of any change in address or ownership.

[illegible]

APPLICATION 29021

PERMIT 20434

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 21.0 acre-feet per annum to be collected from November 1 of each year to May 1 of the succeeding year. (0000005)

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose. (0000051)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)

7. Complete application of the water to the authorized use shall be made by December 31, 1993. (0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

Application 29021

Permit 20434

12. The total quantity of water diverted under this permit, together with that diverted under the permit issued pursuant to Application 25504, shall not exceed 42.6 acre-feet per annum. (0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

APPLICATION TO APPROPRIATE WATER FROM Unnamed Stream trib to Pacific Ocean

Your application has been assigned number 29021.

You will be notified if additional information is required to complete the application. A permit authorizing diversion of water can be issued only after completion of the application, noticing, protest resolution and environmental review. You should not commence construction or diversion of water until a permit is issued.

Continued processing of the application is subject to payment of the additional fee now due, if any, as shown below.

FEE SCHEDULE

All applications for direct diversion except for power purposes, for each cubic foot per second (cfs) or fractional cfs:

from 0 to 100 cfs	cfs @ \$10.00 each	\$ <u>0</u>
over 100 to 500 cfs	cfs @ \$12.00 each	<u> </u>
over 500 to 2,000 cfs	cfs @ \$15.00 each	<u> </u>
over 2,000 cfs	cfs @ \$20.00 each	<u> </u>

Direct diversion for major power facilities at \$2.00 for each 100 theoretical horsepower or fraction thereof:

 theoretical horsepower \$ 0

For each acre-foot per annum (afa) or fractional afa of storage:

from 0 to 1,000 afa	<u>21</u> afa @ \$0.10 each	\$ <u>2.10</u>
over 1,000 to 5,000 afa	afa @ \$0.12 each	<u> </u>
over 5,000 to 100,000 afa	afa @ \$0.15 each	<u> </u>
over 100,000 afa	afa @ \$0.20 each	<u> </u>

Total Filing Fee (\$100 minimum) \$ 100.00

Filing Fee Submitted 100.00

ADDITIONAL FEE NOW DUE \$ 0

The additional fee, if any, is now due and payable. In accordance with Water Code Section 1527 this application will be rejected if the amount due is not received within 30 calendar days of the date of this notice. If you have any questions, please call **Edward G. McCarthy** at (916) 324- 5743

GRANT DEED

William E. Niman, a single man, ~~an undivided 1/2 interest and~~
~~Orville H. Schell, a single man, an undivided 1/2 interest~~,
GRANTOR(S), In consideration of One Million One Hundred Forty One
Thousand Two Hundred Seventy and no/100ths
(\$1,141,270.00) DOLLARS, receipt of which is hereby acknowledged,
do(es) hereby grant to the UNITED STATES OF AMERICA and its
assigns, the following described property located in the County
of MARIN, State of CALIFORNIA, containing
206.05 acres, more or less; to wit:

*and MICHAEL M. GOODMAN & MARJORIE J. GOODMAN, Husband and Wife
See Exhibit "A" attached hereto and made a part hereof.

TOGETHER WITH all buildings and improvements thereon and all
water rights appurtenant thereto and all and singular the
tenements, hereditaments and appurtenances thereunto belonging,
or in any wise appertaining and the reversion and reversions,
remainder and remainders, rents, issues and profits thereof.

FOR THE NATIONAL PARK SERVICE

The grantor covenants and agrees to convey to the United States
of America the fee simple title to the above-described land
subject to existing easements for public roads and highways,
public utilities, railroads, and pipelines; and subject to the
following outstanding rights in third parties:

See Exhibit "B" attached hereto and made a part hereof.

RESERVING, HOWEVER, unto Grantor(s), their assigns and successors
in interest, the right to use and occupy 206.05 acres of the
property described in Exhibit "A", together with the improvements
situated thereon, for the purpose of pasturing beef cattle,
horses or sheep and for single family noncommercial residential
purposes for a period of life tenure (termination on the death of
the last survivor of the Vendors) subject to the terms and
conditions and restrictions in Exhibits "C", "D", and "E"
attached hereto; commencing upon conveyance of title to said
property to the United States.

TO HAVE AND TO HOLD the same unto said UNITED STATES OF AMERICA
and its assigns, forever.

The Grantor(s) further remise(s), release(s), and forever
quitclaim(s) to the UNITED STATES OF AMERICA and its assigns, all
right, title, and interest which the Grantor may have in the
banks, beds, and waters of any streams bordering or any
appropriative water rights appurtenant to the said lands hereby

84058580

conveyed and also all interest in any alleys, roads, streets, ways, strips, gores, or railroad rights-of-way abutting, adjoining, or appurtenant to said land and in any means of ingress or egress appurtenant thereto.

EXECUTED this 12 day of December, 1984.

Memorandum

To: Superintendent, Point Reyes National Seashore
From: Chief, Water Rights Branch
Subject: California State Water Resources Control Board Progress Reports and Reports of Licensee

We have reviewed the thirteen reports of licensee and one progress report by permittee (attached) mailed to us in a letter dated October 6, 1997. There is missing information or discrepancies in all of the reports between the authorized beneficial purposes and the reported water uses. Before we can finalize the reports and sign them, we would like your assistance in clarifying these discrepancies. Please review our comments below and return the completed reports and/or call Bill Hansen, of my staff, at (970) 225-3532 to discuss the need for filing change applications so we are in compliance with the conditions of each permit.

Our concerns are listed below and referenced by application and permit number:

Application A029021, Permit 020434, Use of Water (5): Has use of water commenced? If so, is any irrigation use and/or recreational use occurring?

Application A021954, Permit 009630: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If this water is being used for domestic purposes we are in non-compliance with the permit and should file a change application to add domestic use. *No Use*

Application A019955, Permit 007931: What type of recreational use is occurring (i.e., fishing, boating, etc.)? *2*

Application A019953, Permit 007929: There is a conflict between the authorized purposes which are domestic, recreational, and stockwatering and the actual uses shown on page 2. Is this water is being used for domestic purposes? If not, will it be in the future or should we file a change application to subtract domestic use? What type of recreational use is occurring (i.e., fishing, boating, etc.)?

Application A019952, Permit 007928: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If recreational use is occurring we should file a change application. If it is not, we should not show this use on page 2.

Application A019951, Permit 007927: Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A019950, Permit 007926: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. Is there actually 280 acres being irrigated, or was it intended to show 280 head of stock being watered. If irrigation is occurring we are in non-compliance with our permit. Is recreational use occurring? If so, what kind. If these discrepancies are real we will need to file a change application.

Application A020021, Permit 007941: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A020022, Permit 007942: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A021277, Permit 009049: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit. Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A013473, Permit 003827: Are uses occurring in November, December, January, and February? Is irrigation occurring? If not, should we file a change application to be in compliance with our permit?

Application A013322, Permit 003800: Does use occur in January? There is a conflict between the authorized purposes which are domestic and industrial and the actual uses shown on page 2. It appears that the purpose should be changed to stockwatering since this is a beef cattle operation. Was this water used at one time for a dairy operation and the original permittee issued for industrial uses associated with dairy farming?

Application A017417, Permit 006748: There is a conflict between the authorized purpose which is recreational and the actual uses shown on page 2. If horses are being watered we are in non-compliance with our permit and should either discontinue stockwatering or file a change application to add stockwatering. *May need change application*

Application A019954, Permit 007930: What types of recreational use are occurring?

Subject: PORE Water Rights, Permit 20434

----- Message Contents -----

I spoke with SWRCB License Chief Shige Okada today regarding the withdrawn water right for Bill Niman. According to Mr. Okada, they are willing to proceed with licensing with a change in appropriated use. There is nothing we need do at this time. SWRCB will send an engineer to inspect the project in the summer of 1997 and issue a license for the other uses (recreation and stock watering)less irrigation.

Memorandum

To: Associate Regional Director
Resource Management and Planning
Western Regional Office

From: Acting Chief
Water Rights Branch

Subject: Environmental Information Supplement,
Point Reyes National Seashore

Attached are the Environmental Information Supplement and accompanying documents for transmittal to the State Water Resources Control Board. The State requires the information prior to issuing an applicant a water right. We have supplied the original and three copies for transmittal. One copy should be retained for the Region's files. We've also included a draft transmittal letter to the State for your consideration and signature. Please send a copy of the transmittal letter to the Water Rights Branch when the package is sent to the State.

The attached information concerns improvements made on land the National Park Service acquired in 1984 for Point Reyes National Seashore. William Niman retains the right to live on the land and operate a cattle ranch. The improvements are for installation of irrigation equipment to maintain cattle pastures. All improvements comply with the agreement between the National Park Service and Mr. Niman.

If you have any further questions or require additional information regarding this matter, please contact me or Ms. Pat Larson of the Water Rights Branch in Fort Collins, Colorado, at (303) 221-5341.

APPLICATION TO APPROPRIATE WATER
ENVIRONMENTAL INFORMATION

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. _____
(leave blank)

The following information will aid in the environmental review of your application as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your application being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

PROJECT DESCRIPTION

1. Provide a brief description of your project, including but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated and project operation.

This project consists of a forty plus acre foot reservoir used for residential, livestock watering, irrigation, and other miscellaneous ranch activities including fire protection. It is an earth filled dam constructed in 1977 (see attached document) and in continuous use ever since. The reservoir provides potable water for three residences as well as necessary stock water for cattle being grazed on approximately 1,000 surrounding acres. It also provides dust control and drinking water for a cattle feed lot and domestic uses around the three residences. An additional use now being implemented is for irrigation for four small pastures totalling approximately forty acres. Irrigation will be accomplished by pumping and sprinklers.

GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your water right application, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions are to aid us in that determination.

2. Contact your county planning or public works department for the following information:
 - (a) Assessor's Parcel No. 788-170-03
 - (b) County Zoning Designation C-APZ-60
 - (c) Will the county have to issue any permits or approvals for your project? No If yes, check appropriate spaces below:
 Grading Permit, Use Permit, Watercourse
 Obstruction Permit, Change of Zoning, General Plan
 Change, Other:
 - (d) If any permits have been obtained list permit type and permit number: dam permit # 77-10
 - (e) Person contacted John Wooley - Date of contact 8/24/87
 Department of Public Works Telephone (415) 499-6549
3. Are any additional state or federal permits required for your project? (i.e., Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.)
 For each agency from which a permit is required provide the following information:
 Permit type Coastal - No
 Person contacted Debbv Poiani Agency Planning Department
 Date of contact 8/24/87 Telephone (415) 499-6269
4. Has your agency, if it is a public agency, or any permitting agency prepared any environmental documents for your project? Yes
 If so, you must submit a copy of the latest environmental document with this application, including a copy of the notice of determination.
 If not, will any environmental documents be prepared by any permitting agency, or will you be preparing environmental documents for your project? If so, explain:

Note: When completed, the final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your water right application cannot proceed until such documents are submitted.

5. Will your project, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? None If so, explain:

If you answered yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):
 Will a waste discharge permit be required for your project?
 Person contacted Date of contact
 What method of treatment and disposal will be used?

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? No

Do you know of any archeological or historic sites located within the general project area? No If so, explain: _____

ENVIRONMENTAL SETTING

- 7(a) Describe the current land use of the area at the point of water diversion, immediately downstream of the diversion, and at the place where the water is to be used. Attach photographs of these areas. Date and label photos.

Point of diversion: Residential and livestock grazing

Downstream of diversion: Livestock grazing

Place of use: Flatlands immediately adjacent to the reservoir.

- (b) Describe the types of existing vegetation at the point of diversion, immediately downstream of the point of diversion, and at the place where the water is to be used. These vegetation types should be shown in the photographs submitted.

Point of diversion: See photos.

Downstream of diversion: _____

Place of Use: Coastal grasslands

8. What changes in the project site and surrounding area will occur or are likely to occur because of construction and operation of your project? Include in your answer such things as approximate number and size/age of trees to be removed or areas of vegetation/brush removal; area or extent of streambed alteration, trenching, grading, excavation, plowing, or road, dam or building construction; etc. Consider all aspects of your project, including diversion structure, pipelines or ditches, water use, and changes at the place of use.

Pump station - ten horse/three phase electric adjacent to pond - power supply underground from existing service near pond. All components of irrigation system will be permanent underground installations consisting of four inch pvc pipe, except above ground portable sprinkler heads. Area to be irrigated consists of approximately forty flat acres cross fenced into four parcels.

FISH AND WILDLIFE CONCERNS

Contact your regional office of the State Department of Fish and Game (DFG) to obtain the information requested in questions 9 through 17 (see page 6 for address and telephone number):

9. Person contacted Bill Cox
 Date of contact 9/16/87 Telephone (707) 823-1001
10. According to the DFG representative, when did or when will a DFG representative visit the project site area? No plans to inspect site.
 What is the name of the DFG representative who made or will make the inspection of the project site area? n/a
11. According to the DFG representative, will this project require a Streambed Alteration Agreement? No
12. According to the DFG representative, do any resident or migratory game or non-game fish species occur in the affected stream? No
 If so, what species? N/e
 What season of the year do they occur in the stream? n/a
13. According to the DFG representative, do any plants or animals which are (1) federally identified as candidate, threatened, or endangered; (2) state listed as rare, threatened, or endangered; or (3) listed by the DFG Natural Diversity Data Base, occur in the project area? Yes
 Will they be impacted in any way by the project? No
 If so, identify the species and explain how they will be impacted:
 (Arctostaphylos Virgata, Alopecurus Aequalis)
No impact.
14. Does the DFG representative expect that your project will have an adverse effect on any resident or migratory fish populations, any wildlife populations, or any rare or endangered plant or animal species? No If so, explain: _____
15. What measures relating to your project have been proposed by the DFG representative to protect fish, wildlife or endangered or rare species: None
16. Will you make changes in your project as recommended by DFG? None

If not, explain: n/a

17. If your application lists wildlife enhancement as a proposed use, what specific species or habitat type will be enhanced? n/a

According to the DFG representative, does your proposed project utilize a sound technique for the purpose of wildlife enhancement?
Yes

EXISTING STORAGE OR DIVERSIONS

If you currently have an interest in any other water projects which store or divert water and this application requests additional water from the same watershed, answer the following additional question for each project:

18. Does the project have fish and wildlife protection requirements? _____
If so, list the permit number and specific protection requirements for each project: Minimum flow will remain the same as has been since construction.

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Attention: Mr. Martin Van Zandt

Beitragen:

We have received your Notice of Application #25504 by William Wimer and Arnville Schell to appropriate water from an unnamed stream in Bolinas. In your Notice it states that Marin County will act as the lead agency, pursuant to the California Environmental Quality Act (CEQA), and will be responsible for preparation of appropriate documents and determining whether or not the proposed action will have a significant effect on the environment.

On August 23, 1977, the Marin County Board of Supervisors granted an exemption from the requirements of CEQA since they considered the dam to be an emergency project. A Notice of Exemption was filed with the Marin County Clerk (copy attached) and this completes our environmental review of the project.

On September 2, 1977, we issued Dam Permit D-77-10 for the construction of the dam.

If you have any questions, please contact the undersigned at extension 2929.

Very truly yours,

RONALD F. CRUM
Assistant Land Development Engineer
RFC:js
enc.

COUNTY OF MARIN
DEPARTMENT OF PUBLIC WORKS

DAY PERMIT

San Rafael, California

William Alan
P. O. Box 54
Colinas, CA 94927

September 2 1977

In compliance with your request of August 10, 1977 and subject to all of the terms, conditions and restrictions specified or printed as general or special provisions on any part of this form

PERMISSION IS HEREBY GRANTED TO: CONSTRUCT A 22-foot high earth dam on Assessor's Parcel
No. 128-17-17 in accordance with submitted plans entitled "Winn-Schell Dam, Broward
Co., FL 7721-01 and 7721-02" dated 2/9/77 by Dale S. Strandgaard, Registered Civil Engineer.

All work to be done is accordance with attached General Provisions and/or the following Special Condition(s):

3. Construction shall conform to Construction Specifications No. 378 of U. S. Soil Conservation Service.

2. All modifications to the plans as submitted shall be approved by Marin County Department of Public Works prior to construction.

The maximum slope of the spillway area indicated in red on the approved plan dated 8/20/77 shall be 2%.

4. The railway channel shall be continued down slope to a point intersecting the existing driveway as shown in red on the approved plan dated 8/2/77.

THIS PERMIT IS TO BE STRICTLY CONSIDERED AND NO WORK OTHER THAN THAT SPECIFICALLY MENTIONED ABOVE IS AUTHORIZED HEREBY.

THIS PERMIT SHALL BE VOID IF WORK HAS NOT COMMENCED BEFORE September 30, 1977

AND IS NOT COMPLETED BY December 30, 1977

December 3, 1977

In compliance with your request of August 10, 1977 and subject to all of the terms, conditions and restrictions specified or printed in General or special provisions on any part of this form.

PERMISSION IS HEREBY GRANTED TO CONSTRUCT A 22-FOOT HIGH DAM ON MARINER'S CREEK, PLAN 7727-01 IN ACCORDANCE WITH AUTHORIZED PLANS ENTITLED "WILSON-SCHWELL DAM, BRIDGE NO. 7727-01 AND 7727-02" DATED 8/9/77 BY BAL & STRANDGAARD, REGISTERED CIVIL ENGINEERS.

Work to be done in accordance with attached General Provisions under the following Special Conditions:

1. Construction shall conform to Engineering Specifications No. 10 of U. S. Soil Conservation Service.

2. All modifications to the plans or conditions shall be approved by Marin County Department of Public Works prior to construction.

3. The location, size and filling area indicated on the approved plan dated 8/9/77 shall be as shown.

4. The location, size and filling area shall be indicated on a plan, indicating the existing and proposed channel, and shall be submitted to the Department of Public Works for approval.

5. THIS PERMIT SHALL BE VOID IF WORK HAS NOT COMMENCED BEFORE September 30, 1977 AND IS NOT COMPLETED BY December 30, 1977.

6. AFTER RETURN ATTACHED CARD UPON COMPLETION OF WORK.

Dear Mr. Witucki:

WATER RIGHT APPLICATION 29021

On June 12, 1987 we sent you a deficiency letter in regards to your water right application. Per Sections 1270 and 1271 of the Water Code, you have 60 days to submit the required information or your application will be cancelled without further notice unless for good cause shown the Board allows you to file a further amended application.

If you have any questions, please contact me at the above telephone number.

Sincerely,

A handwritten signature in cursive script, appearing to read "Keith Hushka".

Dear Mr. Witucki:

APPLICATION 29021, ENVIRONMENTAL INFORMATION SUPPLEMENT

The Environmental Assessment Section of the Division of Water Rights is now using a new supplemental application form for submittal of environmental information by applicants seeking a water right permit. Three copies of the supplemental forms of the required environmental information are enclosed. Please fill out two copies of the new form and return them as soon as possible to the address given at the top of the form. Please answer all questions completely. Failure to answer all questions may result in your application being returned to you for completion, causing delay in processing your permit.

If you have any questions, concerning completing this supplemental form, please call me at the above number.

Sincerely,

Edward G. McCarthy

APPLICATION TO APPROPRIATE WATER
ENVIRONMENTAL INFORMATION

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. _____
(leave blank)

The following information will aid in the environmental review of your application as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your application being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

PROJECT DESCRIPTION

1. Provide a brief description of your project, including but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated and project operation.

This project consists of a forty plus acre foot reservoir used for residential, livestock watering, irrigation, and other miscellaneous ranch activities including fire protection. It is an earth filled dam constructed in 1977 (see attached document) and in continuous use ever since. The reservoir provides potable water for three residences as well as necessary stock water for cattle being grazed on approximately 1,000 surrounding acres. It also provides dust control and drinking water for a cattle feed lot and domestic uses around the three residences. An additional use now being implemented is for irrigation for four small pastures totalling approximately forty acres. Irrigation will be accomplished by pumping and sprinklers.

GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your water right application, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions are to aid us in that determination.

2. Contact your county planning or public works department for the following information:
 - (a) Assessor's Parcel No. 788-170-03
 - (b) County Zoning Designation C-APZ-60
 - (c) Will the county have to issue any permits or approvals for your project? No If yes, check appropriate spaces below:
 _____ Grading Permit, _____ Use Permit, _____ Watercourse
 _____ Obstruction Permit, _____ Change of Zoning, _____ General Plan
 Change, _____ Other: _____
 - (d) If any permits have been obtained list permit type and permit number: dam permit # 77-10
 - (e) Person contacted John Wooley - Date of contact 8/24/87
 Department of Public Works Telephone (415) 499-6549
3. Are any additional state or federal permits required for your project? (i.e., Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.)
 For each agency from which a permit is required provide the following information:
 Permit type Coastal - No
 Person contacted Debby Polani Agency Planning Department
 Date of contact 8/24/87 Telephone (415) 499-6269
4. Has your agency, if it is a public agency, or any permitting agency prepared any environmental documents for your project? Yes
 If so, you must submit a copy of the latest environmental document with this application, including a copy of the notice of determination.
 If not, will any environmental documents be prepared by any permitting agency, or will you be preparing environmental documents for your project? _____ If so, explain: _____

Note: When completed, the final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your water right application cannot proceed until such documents are submitted.

5. Will your project, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? None If so, explain: _____

If you answered yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

Will a waste discharge permit be required for your project? _____
 Person contacted _____ Date of contact _____

What method of treatment and disposal will be used? _____

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? No

Do you know of any archeological or historic sites located within the general project area? No If so, explain: _____

ENVIRONMENTAL SETTING

- 7(a) Describe the current land use of the area at the point of water diversion, immediately downstream of the diversion, and at the place where the water is to be used. Attach photographs of these areas. Date and label photos.

Point of diversion: Residential and livestock grazing

Downstream of diversion: Livestock grazing

Place of use: Flatlands immediately adjacent to the reservoir.

- (b) Describe the types of existing vegetation at the point of diversion, immediately downstream of the point of diversion, and at the place where the water is to be used. These vegetation types should be shown in the photographs submitted.

Point of diversion: See photos.

Downstream of diversion: _____

Place of Use: Coastal grasslands

8. What changes in the project site and surrounding area will occur or are likely to occur because of construction and operation of your project? Include in your answer such things as approximate number and size/age of trees to be removed or areas of vegetation/brush removal; area or extent of streambed alteration, trenching, grading, excavation, plowing, or road, dam or building construction; etc. Consider all aspects of your project, including diversion structure, pipelines or ditches, water use, and changes at the place of use.

Pump station - ten horse/three phase electric adjacent to pond - power

supply underground from existing service near pond. All components of irrigation system will be permanent underground installations consisting of four inch pvc pipe, except above ground portable sprinkler heads.

Area to be irrigated consists of approximately forty flat acres cross fenced into four parcels.

FISH AND WILDLIFE CONCERNS

Contact your regional office of the State Department of Fish and Game (DFG) to obtain the information requested in questions 9 through 17 (see page 6 for address and telephone number):

9. Person contacted Bill Cox
Date of contact 9/16/87 Telephone (707) 823-1001

10. According to the DFG representative, when did or when will a DFG representative visit the project site area? No plans to inspect site.

What is the name of the DFG representative who made or will make the inspection of the project site area? n/a

11. According to the DFG representative, will this project require a Streambed Alteration Agreement? No

12. According to the DFG representative, do any resident or migratory game or non-game fish species occur in the affected stream? No
If so, what species? N/a

What season of the year do they occur in the stream? n/a

13. According to the DFG representative, do any plants or animals which are (1) federally identified as candidate, threatened, or endangered; (2) state listed as rare, threatened, or endangered; or (3) listed by the DFG Natural Diversity Data Base, occur in the project area? Yes

Will they be impacted in any way by the project? No

If so, identify the species and explain how they will be impacted:

(Arctostaphylos Virgata, Alopecurus Aequalis)

No impact.

14. Does the DFG representative expect that your project will have an adverse effect on any resident or migratory fish populations, any wildlife populations, or any rare or endangered plant or animal species? No If so, explain: _____

15. What measures relating to your project have been proposed by the DFG representative to protect fish, wildlife or endangered or rare species? None

16. Will you make changes in your project as recommended by DFG? None

If not, explain: n/a

17. If your application lists wildlife enhancement as a proposed use, what specific species or habitat type will be enhanced? n/a

According to the DFG representative, does your proposed project utilize a sound technique for the purpose of wildlife enhancement?
Yes

EXISTING STORAGE OR DIVERSIONS

If you currently have an interest in any other water projects which store or divert water and this application requests additional water from the same watershed, answer the following additional question for each project:

18. Does the project have fish and wildlife protection requirements?
If so, list the permit number and specific protection requirements for each project: Minimum flow will remain the same as has been since construction.

CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Attention: Mr. Martin Van Zandt
Re: Your Application #25504

Gentlemen:

We have received your Notice of Application #25504 by William Kline and Neville Schell to appropriate water from an unnamed stream in Bolinas. In your Notice it states that Marin County will act as the lead agency pursuant to the California Environmental Quality Act (CEQA), and will be responsible for preparation of appropriate documents and determining whether or not the proposed action will have a significant effect on the environment.

On August 21, 1977, the Marin County Board of Supervisors granted an exemption from the requirements of CEQA since they considered the dam to be an emergency project. A Notice of Exemption was filed with the Marin County Clerk (copy attached) and this completes our environmental review of the project.

On September 9, 1977, we issued Dam Permit #77-10 for the construction of the dam.

If you have any questions, please contact the undersigned at extension 244.

Very truly yours,

WILLIAM F. CRUIT
Assistant Land Development Engineer

DAM PERMIT

Project No. 77-10
Area Bolinas

San Rafael, California

Re: William Kline
P.O. Box 56
Bolinas, CA 94927

September 2, 1977

In compliance with your request of August 15, 1977 and subject to all of the terms, conditions and restrictions specified or printed as general or special provisions on any part of this form.

PERMISSION IS HEREBY GRANTED TO: construct a 75-foot high earth dam on Assessor's Parcel No. 180-176-12 in accordance with submitted plans entitled "Kline-Schell Dam, Bolinas, Cal. 77-10" and 77-10-10 dated 8/27/77 by Sals & Sals, Registered Civil Engineers.

All work to be done in accordance with attached General Provisions and/or the following Special Condition(s):

1. Construction shall conform to Construction Specifications No. 32 of U. S. Soil Conservation Service.
2. All modifications to the plans as submitted shall be approved by Marin County Department of Public Works prior to construction.
3. The maximum slope of the spillway area indicated in red on the approved plan dated 8/27/77 shall be 2:1.
4. The spillway channel shall be continued down slope to a point intersecting the existing highway, and shall be constructed in accordance with the plan specifically mentioned ABOVE. THIS PERMIT IS TO BE STRICTLY CONTROLLED AND NO OTHER WORK SHALL BE AUTHORIZED HEREIN.

THIS PERMIT SHALL BE VOID IF WORK HAS NOT COMMENCED BEFORE September 11, 1977 AND IS NOT COMPLETED BY December 31, 1977.

PLEASE RETURN ATTACHED CARD UPON COMPLETION OF WORK.

Dear Mr. Witucki:

APPLICATION 29021, ENVIRONMENTAL INFORMATION SUPPLEMENT

The Environmental Assessment Section of the Division of Water Rights is now using a new supplemental application form for submittal of environmental information by applicants seeking a water right permit. Three copies of the supplemental forms of the required environmental information are enclosed. Please fill out two copies of the new form and return them as soon as possible to the address given at the top of the form. Please answer all questions completely. Failure to answer all questions may result in your application being returned to you for completion, causing delay in processing your permit.

If you have any questions, concerning completing this supplemental form, please call me at the above number.

Sincerely,

A handwritten signature in cursive script, reading 'Edward G. McCarthy'.
