Docket No: 6

PESHLAKI SPRING

Preliminary Docket Information

05-24-2001: Note to the File regarding Peshlaki Spring

WUPA-0002
Heiser Spring

05/24/01

NOTE TO THE FILE

On May 24, 2001 Peter Fahmy, Bill Hansen, and Jim Harte met to discuss filing "36" forms (STATEMENT OF CLAIM OF RIGHT TO USE PUBLIC WATERS OF THE STATE OF ARIZONA) for Heiser and Peshlaki Springs. A claim that included a total annual use of .5 acre-feet for all beneficial uses combined was submitted for Peshlaki Spring in 1999 but the State returned the form asking the NPS to "correct the claims to include a quantity of use for each beneficial use being claimed". Present and future beneficial uses for Peshlaki Spring were discussed with WUPA staff who said that Peshlaki Spring was being rehabilitated back to a "natural" condition and the only possible beneficial uses in the future would be wildlife and recreation.

It was decided that the NPS will not file the "36" claim forms (attached) until the Little Colorado River Adjudication is finalized. The appropriate filing option will be agreed upon at that time.

SUPERIOR COURT OF APACHE COUNTY, ARIZONA

IN THE MATTER OF THE APPLICATION OF THE UNITED STATES OF AMERICA FOR RESERVED
AND APPROPRIATED WATER RIGHTS IN THE LITTLE COLORADO RIVER GENERAL ADJUDICATION

I. Name and Address of Applicant:

United States of America
c/o National Park Service
Southwest Regional Office
P. O. 728
Santa Fe, NM 87501

II. The United States of America claims reserved water rights on all or portions of the National Monuments described below to "... conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations." (16 U.S.C. 1). Specifically, the United States claims rights where applicable to maintain all streams, springs and seeps, lakes and all ground water at their natural flows, levels and conditions, except as required for administrative uses, and claims reserved water rights for present and future uses in the following reservations administered by the National Park Service.

A. Wupatki National Monument.

- 1) Purpose. - The Wupatki National Monument was reserved by Presidential Proclamation No. 1721 on Dec. 9, 1924 (43 Stat. 1977) (Exhibit WUPA #1) as authorized by "An Act for the Preservation of American Antiquities" approved June 8, 1906 (34 Stat. 225) (Exhibit WUPA #2). The proclamation charged the National Park Service with "... the supervision, management

and control of this Monument, as provided in the Act of Congress entitled, 'An Act to establish a National Park Service, and for other purposes,' approved August 25, 1916 (39 Stat. 535) . . ." (Exhibit WUPA #3). The purpose specifically identified in Presidential Proclamation No. 1721 is the proper protection of certain prehistoric ruins built by the ancestors of the Hopi Indians.

- 2) Sources - All surface and ground water sources including streams, springs, seeps, and confined and unconfined aquifers within the portions of Wupatki National Monument reserved from the Public Domain.
- 3) Dates of Priority - Those dates upon which the respective portions of the Wupatki National Monument were reserved from the Public Domain and administered by the National Park Service, to wit: those lands described by Presidential Proclamation No. 1721 (43 Stat. 1977) Dec. 9, 1924 (Exhibit WUPA #1) and Presidential Proclamation No. 2243 (50 Stat. 1841) July 9, 1937 (Exhibit WUPA #4); except those lands deleted by Presidential Proclamation No. 2454 (55 Stat. 1608) Jan. 22, 1941 (Exhibit WUPA #5) or those lands described in the above proclamations which have at some time passed from the Public Domain into other than Federal ownership. The above-described reserved lands are delineated in Exhibit WUPA #6.
- 4) Amount of Water Reserved.
 - a) Streams, springs and seeps (non-consumptive). To provide

the visitors with an interpretive experience appropriate to the environs of the ancestors of the Hopi Indians; and to sustain in as natural form as practicable such environs; the United States of America claims the right to maintain all streams, springs and seeps which occur within Wupatki National Monument at those levels of flow necessary to protect these environs subject to valid existing water rights having priority dates earlier than those listed in II.A.3 above except as provided in subparagraphs c) and d) below. The amount of water required is not quantified and is intended to include only that amount which is necessary to support the wildlife and vegetation which were integral components of the prehistoric Hopi culture.

The amount of water specifically claimed (quantity, flow rate, etc.) has not been determined as of this date. When data become available the United States of America will submit a supplemental claim quantifying its non-consumptive requirements for streams, springs and seeps.

- b) Ground water (non-consumptive). Except as provided in subparagraphs c) and d) below, the United States of America claims the right to that amount of ground water required to maintain Wupatki National Monument for the purposes described in II.A.1). It is not possible to quantify or describe the amount of ground water that may be required. However, nothing in this claim shall be deemed to bar the

United States from bringing an action in any court of competent jurisdiction to protect Wupatki National Monument from ground water withdrawals detrimental to the purposes described in II.A.1).

- c) Quantifiable present and future administrative uses (consumptive). The United States of America claims the right to divert and use 17.0 AF/annum from the Citadel Ruin well, the headquarters well, Wupatki spring (Exhibits WUPA #8, 9 and 10), and other surface and ground water sources for picnic areas, visitor centers, concessions and other visitor-use areas; park administration facilities, shop, maintenance and storage facilities, ranger stations, entrance stations, visitor contact stations, employee residences, and attendant facilities; lawns surrounding park buildings and structures and other public-use areas to offset heavy human impact; and waste water treatment facilities.
- d) Non-quantifiable present and future administrative uses (consumptive). The United States of America claims the right to divert and use non-quantifiable amounts of water for, but not limited to, controlling and suppressing wildfire and structural fires; construction of roads and trails; and revegetation activities necessary to maintain (or return) watersheds at (or to) their natural condition.
