 QUANTITY see narrative USE Domestic, Recreation and Stockwatering
 STATUS Active SOURCE Unnamed Stream

REMARKS

NARRATIVE: Clarence and Rosilda Rogers filed Application No. 20917 on August 29, 1962, to appropriate water for stockwatering, domestic, recreational and fish culturing purposes. The Rogers intended by this application to store 13.5 acre-feet in a reservoir, the water to be collected between October 1 and April 30 of each winter season. The point of diversion was listed as being in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of section 6, T2N, R8W, on land owned by the Rogers, and the reservoir was also located there. It was noted that the reservoir works were already completed on the date the application was filed. Application No. 20917 went to license (No. 8611) on April 26, 1967.

During the State's inspection of the diversion works relating to Application No. 20917 it was discovered that the reservoir held more water than permitted under that application. Therefore, on May 10, 1967, the Rogers filed Application No. 22784 to appropriate an additional 20 acre-feet to store in the same reservoir. This application went to license (No. 10112) on October 3, 1972. The license limited the amount appropriated under it to 16.5 acre-feet per year, and stated that the total withdrawal allowed under both licenses should not exceed 24.8 acre-feet per year. In effect, the purpose of the second appropriation was "to keep the storage reservoir full by replacing water beneficially used and water lost by evaporation and seepage, and to refill if emptied for necessary maintenance or repair." The second license also noted that water collected in the reservoir had to be released year-round in amounts necessary to satisfy downstream prior rights.

Point Reyes National Seashore was established on September 13, 1962. As the Rogers property was within the boundaries of the Seashore, the United States acquired it by Quitclaim Deed dated June 5, 1976. Included in the conveyance were "all water rights appurtenant thereto". These water rights were License Nos. 8611 and 10112, as by letter dated September 8, 1976, the California State Water Resources Control Board notified the Park Service that ownership of these two licenses was being changed to the Park Service.

15. If no water was used in one or more years, briefly state the reason on the reverse side under "Remarks".			
16. If either the location of the point of diversion or place of use has been changed and the permission of this Board has not yet been obtained, please describe nature of change on the reverse side under "Remarks".			

REPORT OF LICENSEE FOR

-- PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program []; (2) Lining canals []; (3) Phreatophyte and aquatic vegetation control []; (4) Other (describe in "Remarks") [].
18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable []; (2) Return flow systems on individual farms []; (3) Return flow system areawide []; (4) Water pricing to encourage reduced use []; (5) Charges for drainage of irrigated lands []; (6) Other (describe in "Remarks") [].
19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use []; (2) Public education program on water conservation []; (3) Pricing to encourage reduced use []; (4) Assistance to industry in design of recycle systems []; (5) Other (describe in "Remarks") [].
20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system []; (2) Water use for major crops by each farm []; (3) Other (describe in "Remarks") [].

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____
22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
1978 _____ 1979 _____ 1980 _____

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____
24. After use, the water is (1) retained in reservoir []; (2) discharged into a stream or lake [X]; (3) discharged into settling ponds []; (4) Other [X]. Describe: Sewage
25. Does or will water being discharged contain waste materials? YES [X] NO [].
(1) Domestic []; (2) Municipal []; (3) Industrial []; (4) Agricultural []; (5) Other [X]. Describe: stock
26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [] NO [X]. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [] NO [X].
If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.
28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [] NO [X].
If yes, please describe. _____
29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
30. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

29. No potential

30. No potential

Place of Use

(Permit)

Name of place of use, if commonly known as such Roger's DamDescribe briefly any changes from place of use as described in permit, license or order. The NE $\frac{1}{4}$ of SW $\frac{1}{4}$ has been added to the place of use as it appears that the reservoir extends into this $\frac{1}{4}$ (Par 744 of Rules and Regulations)Is petition required? no If so, indicate when it will be submitted _____Is place of use developed to a point where full use of water may be made? yes
If not, describe briefly what remains to be done --Does it appear that development has been pursued with due diligence? yesDoes permittee or licensee own or control all the land originally covered or as covered by change? yes

Major Use of Water

Briefly describe method of applying water to major use. Recreational and Stockwatering usage at reservoir, otherwise water is withdrawn via a 2" outlet pipe for stockwatering barnwashing and domestic use.Does method of use appear to be wasteful, judging from local standards? no
Explain answer. Reservoir of this type common and necessary to areaList units served during maximum season (if applicable) 250 head

Other Uses

Average number of persons served during maximum period -- Number of housing units 1
Plumbing facilities available -- (lawn & garden only)
Area of garden, lawn, etc., served 1/4 ac Area sprinkled to allay dust _____
Number of ~~other~~ livestock served 250 head
Other miscellaneous domestic use Only garden and shrubs watered under domestic use
Recreational use Reservoir stocked with trout. Fishing, boating, etc.

Extent of Use of Water

Season of use and/or diversion to storage: Season of use year-round
Diversion to storage October 1-April 30Average rate of use by direct diversion during maximum period --
Approximate beginning and ending dates of maximum period --Year of maximum use 1966

Complete the following only if storage is involved

Maximum amount diverted to storage in one season 21.5 AF Year 1966Does the purpose for which water was stored require withdrawal before use? yesIf so, give maximum withdrawal in one season 21.5 AF Year 1966How much water was held over in dead storage? 8.5 AFFor what purpose? Recreational and stockwatering uses

REPORT OF INSPECTION

MAY 22 '67 AAL

Application 20917 Owner Clarence R. Rogers and Rosilda E. Rogers
 Permit 13886 Address Box 126, Olema, California 94950
 License _____
 Date of Inspection April 26, 1967 Inspected by M. Betow
 Accompanied by Unaccompanied
 Persons interviewed Mr. Rogers
 Reason for Inspection Time up 1966

Filing Data

Date filed August 29, 1962 Amount allowed 13.5 acre-feet per annum
 Date approved Mar 4, 1963 Season 1961X October 1 - April 30
 Time allowed to complete _____ Purpose Stockwatering domestic & recreational
 Permitted acreage, if irrigation --

Recommendation

The project was found to be complete and license is recommended as follows:

1. Amount	13.5 acre-feet per annum	13.5 AF withdrawal
2. Season of diversion	October 1 - April 30	
3. Purposes	Stockwatering, domestic and recreational	
4. Point of diversion	As described in permit	
5. Place of use	Within NE $\frac{1}{4}$ of S $\frac{1}{4}$, SE $\frac{1}{4}$ of S $\frac{1}{4}$, and NW $\frac{1}{4}$ of S $\frac{1}{4}$ of projected Section 6, T2N, R3W, NDBM.	

Source

Name "unnamed Stream" Is record of flow maintained? no
 Tributary to Olema Creek If so, by whom? --
 County Marin Is supply natural flow? yes
 From (direction) East Estimated minimum flow 0
 During what portion of year does minimum flow occur? Usually May through September
 Measured or estimated flow at time of inspection .3 cfs estimated (Had been raining all week)

Diversion System

Is point of diversion at location specified in permit, license or order? YES
 If not, when will petition be submitted? --
 If diversion point has been moved, roughly describe present location with respect to authorized location --
 Would change cause any injury? --
 Is diversion by gravity or pumping? gravity to onstream storage
 Is diversion system complete? YES If not, briefly explain what remains to be done --
 If not complete, does it appear to have been pursued with reasonable diligence? --
 What is the capacity of the limiting section? 30 AF
 Explain briefly manner of determining above capacity Plane-table stadia survey to determine area and plotted to scale. Soundings taken from life raft. Hand level used to determine height of dam, freeboard, etc.

19 67

MAY 31 '67 J.A.A.

CALCULATIONS

How was information regarding season of use (shown on Page 2) obtained? Word of Permittee

Show method of obtaining each item of basic information used in calculation below: See bottom of page 1

Show formula used in computing direct diversion or capacity of storage reservoir:

Volume = Average contour area x interval, etc

CALCULATION OF DIVERSION DURING MAXIMUM SEASON

(In tabular form—not narrative)

For capacity of reservoir see reservoir map

Drawdown - maximum of 10' in 1966

10' drawdown = 21.5 AF

CALCULATION OF ANNUAL USE BY MONTHS

(If a reasonably accurate calculation of use "by month" cannot be made, leave spaces blank but in space provided for calculations explain reasons).

January	AF	April	AF	July	AF	October	AF
February	AF	May	AF	August	AF	November	AF
March	AF	June	AF	September	AF	December	AF

Total for year AF

CALCULATIONS

If more space is needed for calculations, use supplemental sheets. All remarks to be on page following this and supplemental sheets.

REMARKS

At time of inspection 13" of flashboards had been placed in the spillway. Permittee stated that this has been common practice over the last couple of years. The water surface was 3" below spilling over the flashboards as much water was being lost seeping through the temporary flashboard arrangement. The water surface at time of inspection appeared to be the approximate HWL and capacity of the reservoir was determined based on this assumption. With improvement of the flashboard set-up and/or addition of more flashboard, Permittee may be able to store more water.

Permittee was informed that reservoir holds more water than covered under Permit and he stated that he would file for the extra storage shortly.

The major use of the water appears to be cow-washing and barn-washing. The cow-washing system has just been installed and accounts for approximately 10,000 gallons per day. Barn-washing is done twice a day every day of the year.

Fish culture was deleted as a use at the request of the Permittee.

Domestic usage includes only the watering of about $\frac{1}{4}$ acre of garden and shrubs. The shrubs are scattered about the barn area and are watered by hose during the summer months along with the garden.

Pictures were taken of the reservoir.

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

APPLICATION 20917

PERMIT 13886

LICENSE 8611

THIS IS TO CERTIFY, That

CLARENCE R. ROGERS AND ROSILDA E. ROGERS
BOX 126, OLEMA, CALIFORNIA 94950

HAVE made proof as of APRIL 26, 1967 (the date of inspection)
to the satisfaction of the State Water Resources Control Board of a right to the use of the water of
AN UNNAMED STREAM IN MARIN COUNTY

tributary to OLEMA CREEK THENCE LAGUNITAS CREEK THENCE TOMALES BAY

for the purpose of DOMESTIC, RECREATIONAL AND STOCKWATERING USES
under Permit 13886 of the Board and that the right to the use of this water has been perfected in
accordance with the laws of California, the Regulations of the Board and the permit terms; that the priority of
this right dates from AUGUST 23, 1962 and that the amount of water to which this right is
entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall
not exceed THIRTEEN AND FIVE-TENTHS (13.5) ACRE-FEET PER ANNUM TO BE COLLECTED FROM
ABOUT OCTOBER 1 OF EACH YEAR TO ABOUT APRIL 30 OF THE SUCCEEDING YEAR AND A
MAXIMUM WITHDRAWAL OF 13.5 ACRE-FEET IN ANY ONE YEAR UNDER THIS RIGHT.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

NORTH 1,450 FEET AND EAST 2,500 FEET FROM SW CORNER OF PROJECTED SECTION 6,
T2N, R8W, MDB&M, BEING WITHIN NE1/4 OF SW1/4 OF SAID SECTION 6.

A DESCRIPTION OF LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

WITHIN NE1/4 OF SW1/4, NW1/4 OF SE1/4 AND SE1/4 OF SW1/4 OF PROJECTED SECTION 6,
T2N, R8W, MDB&M.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

STATE WATER RIGHTS BOARD
SACRAMENTOApplication No. 28917 Filed August 29, 1962 at 1:51 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Clarence R. Royer and Rosilda E. Royer
 of Box 7, Clene County of Marin
 State of California, do hereby make application for a permit to appropriate the
 following described unappropriated waters of the State of California, **SUBJECT TO VESTED RIGHTS:**

Source, Amount, Use and Location of Diversion Works

- The source of the proposed appropriation is unnamed stream
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
 located in Marin County, tributary to Clene Creek thence to Tomales Bay
thence Pacific Ocean
- The amount of water which applicant desires to appropriate under this application is as follows:
 (a) For diversion to be directly applied to beneficial use _____ cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
 second, to be diverted from _____ to _____ of each year.
Beginning date Closing date
 (b) For diversion to be stored and later applied to beneficial use 13.5 acre-feet
1 acre-foot equals 121,811 gallons
 per annum, to be collected between Oct 1 and April 30th of each season.
Beginning date Closing date
Note.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.
- The use to which the water is to be applied is stock water, domestic, recreation
Domestic, irrigation, power, municipal, mining, industrial, recreational
and fish culture purposes.
- The point of diversion is to be located 1450' N and 3500' E of SW
State bearing and distance or coordinate distances from section or quarter section corner
Section Corner of Section 6 (projected)
 being within the NE 1/4 SW 1/4
State 40-acre subdivision of public land survey or projection thereof
 of Section 6, T. 3N, R. 8W, M. D B. & M., in the County of Marin
- The main conduit terminates in NE 1/4 SW 1/4 of Sec. 6, T. 3N, R. 8W, M. D B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

- Intake or Headworks (fill only those blanks which apply)
 (a) Diversion will be made by pumping from _____
Sump, offset well, unobstructed channel, etc.
 (b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to
 level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.
 (c) The storage dam will be 26 feet in height (stream bed to overflow level); 240 feet
 long on top; have a freeboard of 4 feet, and be constructed of earth
Concrete, earth, etc.
- Storage Reservoir Royer Dam
Name
 The storage reservoir will flood lands in NE 1/4 SW 1/4 Sec. 6 T. 3N R. 8W M. D. B. & M.
Indicate section or sections, also 40-acre subdivisions unless shown upon map
 It will have a surface area of 2.3 acres, and a capacity of 13.5 acre-feet.
In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1 Vol II p 115d
INVERNESS
NOT IN NF
Z.A.REC'D 1000
8-29-62
JHM

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Cross cut two not used
 Earth, rock, timber, etc.

(b) Pipe line: Diameter 2 inches; length 700 feet; grade 22 feet per 1,000 feet; total fall from intake to outlet 16 feet; kind galvanized pipe
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is _____ State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is _____
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before already completed

Construction work will be completed on or before " "

The water will be completely applied to the proposed use on or before already being applied

Description of Proposed Use

11. Place of Use. NE 1/4 SW 1/4 Sec. 6 T. 8 N. R. 9 W. M. D. B. & M.
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? yes Jointly? yes
Yes or No Yes or No

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1. <u>None</u>				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet $\times$ fall $\div$ 5.5

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will be returned to _____ in _____ of _____
Name stream State 40-acre subdivision
 Sec. _____, T. _____, R. _____, B. & M.

DO NOT WRITE IN THIS SPACE
 A7 CH EXTRA SHEETS HERE

15. **Municipal Use.** This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only
 having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. **Mining Use.** The name of the mining property to be served is _____
Name of claim
 and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will be polluted by chemicals or otherwise _____
Explain nature of pollution, if any
 and it will be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

17. **Other Uses.** The nature of the use proposed is Stock watering, domestic
recreation, fish culture
Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. _____
Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type

Industrial use, and unit requirements

240 head dairy Cattle
Washing & Cleaning goods & Barn
+ Cattle
Fish culture

General

18. Are the maps as required by the Rules and Regulations filed with Application? yes If not, _____
Yes or No
 state specifically the time required for filing same _____

19. Does the applicant own the land at the proposed point of diversion? yes If not, give name and _____
Yes or No
 address of owner and state what steps have been taken to secure right of access thereto _____

20. What is the name of the post office most used by those living near the proposed point of diversion?

Olena California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? unknown

[SIGNATURE OF APPLICANT]

Charles P. Rogers, Paula E. Rogers

APPLICANT MUST NOT FILL IN BLANKS BELOW

PERMIT No. _____

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed
2. The maximum amount herein stated may be reduced in the license if investigation so warrants.
3. Actual construction work shall begin on or before _____ and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.
4. Said construction work shall be completed on or before _____
5. Complete application of the water to the proposed use shall be made on or before _____
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1389. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefore shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

August 19, 1993

Mr. Clarence Rogers
State Route One
Olema, CA 94950

Dear Rancher:

The State of California's Water Commission has informed us that we must inventory our water use within the park. The Water Commission was created by the Water Commission Act and was given the task of licensing the water use in the state. This licensing process is important to protect your water supply from intrusions. Point Reyes National Seashore is required to comply with regulations concerning water use. To comply with the Water Commissions request we are asking that you fill out a brief *Water Inventory Questionnaire*. The prompt completion of this questionnaire will help us comply with the state requirements and ensure the security of your water.

The questionnaire is composed of fill-in-the-blank questions. Please follow the instructions and fill out the questionnaire as accurately as possible. Once the questionnaire is completed please return it promptly in the self-addressed and stamped envelope provided. If you have any questions please feel free to contact us. All questions should be directed to Bryan Leese at 663-8525.

Again, we hope that you will complete and return this form as quickly as possible. Your quick response will insure, for the park as well as for you, a secure and continuous supply of water for the future.

Thank You,

John L. Sansing
Superintendent

Enclosures

Water Inventory Questionnaire

The goal of this plan is to locate and record the source and use of water in the Point Reyes National seashore. All the data collected from this questionnaire will be used to aid the park in the filing of mandatory State Water Licensing forms. Please answer all the questions, and give the most accurate information possible. Please feel free to use the 'Remarks' spaces for any clarification of your responses, such as the area of a garden and lawn, or the separation of cows on more than tract of land and there main source of watering. Thank you.

GRANT DEED

CLARENCE R. ROGERS AND ROSILDA E. ROGERS, his wife, as community property
GRANTOR(S), in consideration of Seven Hundred Eighty Seven Thousand and no/100ths
(\$787,000.00) DOLLARS, receipt of which is hereby acknowledged, do(es) hereby grant to
the UNITED STATES OF AMERICA and its assigns, the following described property located
in the County of MARIN, State of CALIFORNIA, containing 219.30 acres,
more or less; to wit:

See Exhibit "A" attached hereto and made a part hereof.

TOGETHER WITH all buildings and improvements thereon and all water rights appurtenant
thereto and all and singular the tenements, hereditaments and appurtenances thereunto
belonging, or in any wise appertaining and the reversion and reversions, remainder and
remainders, rents, issues and profits thereof.

FOR THE NATIONAL PARK SERVICE

The grantor covenants and agrees to convey to the United States of America the fee
simple title to the above-described land subject to existing easements for public roads
and highways, public utilities, railroads, and pipelines; and subject to the following
outstanding rights in third parties:

See Exhibit "B" attached hereto and made a part hereof.

RESERVING, HOWEVER, unto Grantor(s), their Heirs, Administrators, Successors or
Assigns, the right of use and occupancy for livestock ranching purposes for a term
of 25 years from the date of conveyance of said property to the United States
subject to the conditions and restrictions in Exhibit "C" attached hereto and made
a part hereof.

TO HAVE AND TO HOLD the same unto said UNITED STATES OF AMERICA and its assigns, forever.

The Grantor(s) further remise(s), release(s), and forever quitclaim(s) to the
UNITED STATES OF AMERICA and its assigns, all right, title, and interest which the
Grantor may have in the banks, beds, and waters of any streams bordering or any
appropriative water rights appurtenant to the said lands to be conveyed and also all
interest in any alleys, roads, streets, ways, strips, gores, or railroad rights-of-way
abutting, adjoining, or appurtenant to said land and in any means of ingress or
egress appurtenant thereto.

EXECUTED this 4th day of February, 1981.

On this 4th day of February, 19 81, before me,

Eleanor R. Ewing, A Notary Public in and for said County and State, residing therein, duly commissioned and sworn, personally appeared

Carance R. Rogers and Rosilda E. Rogers known to me to be the person whose name subscribed to the within instrument, and acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my Official Seal the day and year in this certificate first above written.

Eleanor R. Ewing
Notary Public in and for said County
of Marin, State of California
My commission expires 5/17/81

81 05524

PARCEL ONE:

BEGINNING at a point in the Easterly line of the County Road leading from Olema to Point Reyes Station on the North Coast Railroad, said point being the most Southerly corner of that tract of land which is first described in the Deed executed by Angelo Pedrotti to Giuseppi Gamboni, recorded April 23, 1891 in Book 16 of Deeds at page 477, Marin County Records; from said point of beginning the point of intersection of the Easterly line of the County Road with the Southerly boundary line of that tract of land containing 203 acres more or less, formerly owned by Charles Webb Howard bears North $34^{\circ} 50'$ West distant 143.2 feet, thence from said point of beginning, along the Easterly line of the County Road, South $33^{\circ} 35'$ East 45 feet to the most Westerly corner of the lands formerly owned by Mrs. Maria D. Crandall, thence continuing along the Easterly line of the County Road to the Northwest corner of the Parcel of land described in the Deed executed by Fred Genazzi, to David R. Baty, et ux, recorded June 3, 1960 in Book 1372 of Official Records at page 274, Marin County Records, thence leaving said Easterly line of said County Road and running thence Northeasterly along the Northwestern boundary line of said Baty parcel to the most Northerly corner thereof, said point also being the Southwesterly line of the lands formerly owned by Julia R. Hamilton, thence North $40^{\circ} 21'$ West along said Southwesterly line 1236.798 feet more or less, to a stake marked 6, driven at the most Easterly corner of the lands formerly owned by Charles Webb Howard, thence along the Southeasterly line of said land South $56^{\circ} 44'$ West 3710.8 feet to the most Northerly corner of the land formerly owned by Giuseppi Gamboni, thence along the boundary lines of said land South $34^{\circ} 30'$ East 159 feet; South $30^{\circ} 14'$ East 18 feet, South $59^{\circ} 46'$ West 30 feet, North $30^{\circ} 14'$ West 19 feet and South $59^{\circ} 46'$ West 266.6 feet to the point of beginning.

EXCEPTING THEREFROM the portion described as follows:

BEGINNING at a stake driven in the northeasterly side of the road which leads from the village of Olema to what was known as the landing of the Arroyo San Geronimo said stake being South $3-3/4^{\circ}$ West 1 chain and $54-1/2$ links from the southeasterly corner of what was formerly the dwelling house of one Feliz Garcia; thence northwesterly along the easterly side of the road 4 chains; thence northeasterly at a right angle to the line of said road 2 chains 73.3 links; thence southeasterly and parallel to said road 4 chains; thence southerly at a right angle to the line of said road 2 chains and 73.3 links to the place of beginning

(Parcel Two continued on page 2)

Exhibit A

Exhibit A

PARCEL TWO:

COMMENCING at a point in the Northwestern side of lands conveyed by Loretta Garcia and others to Juan Garcia, by deed dated May 29, A.D. 1868 which is recorded in County Recorder's Office of the County of Marin, State of California, in Liber "H" of Deeds at page 101, at its intersection with the Easterly side of the County Road leading from Oloma to Point Reyes, thence running along said Northwestern line North $56^{\circ} 55'$ East 4011.57 feet to the corner from which a live oak tree 20 inches in diameter bears South 35° East 48 feet, said corner being in the Southwesterly line of that tract of land which was conveyed by said Loretta Garcia and others to Felix Garcia by Deed dated May 29, 1868 and which is recorded in County Recorder's Office of Marin County, State of California in Book "J" of Deeds page 5, then along line of last named tract and along the line of tract of land which was conveyed to M. Hilaria Garcia by Loretta Garcia and others by Deed dated May 29, 1868, which is recorded in the County Recorder's Office of Marin County in Liber "G" of Deeds at page 98, Northwesternly 1666.45 feet to Station; thence South $58^{\circ} 55'$ West 3526.06 feet to the Easterly line of aforesaid County Road leading from Oloma to Pt. Reyes; thence along said Easterly line the following courses and distances; South $25^{\circ} 21'$ East 463.84 feet, South $11^{\circ} 24'$ East 124.72 feet, South $5^{\circ} 29'$ East 160.60 feet, South $6^{\circ} 10' 1/2''$ East 269.31 feet, South $15^{\circ} 56'$ East 104.13 feet, South $34^{\circ} 40'$ East 77.37 feet, South $46^{\circ} 39' 1/2'$ East 219.00 feet; South $32^{\circ} 29'$ East 429.94 feet to the point of beginning.

Being portion of that parcel of land described in Article "3" of Deed, Howard Investment Company to E. S. Howard, filed in Liber 158 of Deeds at page 410, in office of the County Recorder of Marin, State of California, courses true, magnetic variation $18^{\circ} 20'$ East.

Exhibit B

Excepting and reserving, however, only the following rights and interests unto the Vendors hereir, their assigns and successors in interest, pursuant to Public Law, which law included the subject and other lands within the boundaries of Golden Gate National Recreation Area, the right of use and occupancy of the land herein conveyed, for livestock ranching purposes, for a term of twenty-five (25) years, subject to the following terms and conditions:

1. Definitions: Within the meaning of this instrument, "The Reservoir" is the person or persons conveying the land covered by this instrument to the United States and reserving a right of use and occupancy for livestock ranching purposes only over all or part of it. The reservoir shall not permit the land to be overgrazed. The determination of whether there is overgrazing shall be made by the Superintendent or his designated representative in conjunction with the Soil Conservation Service and his decision shall be final. Supplemental feeding shall begin when stubble length is reduced to a three inch minimum. If it is determined that overgrazing is or has occurred, the Superintendent reserves the right to regulate the number of livestock on the land.
2. Use: During the term of this livestock ranching reservation, the Reservoir shall use the reserved premises for livestock ranching purposes and shall not plant, cultivate, or harvest crops on said premises or alter the surface of any lands or fields on said premises. The reserved premises shall not be used for any overnight camping or residential, commercial, industrial, mining or similar use. The Reservoir shall cut no timber, conduct no mining operations, construct no structures, buildings, or residences, or in any manner substantially change the contour or condition of the premises hereby reserved. The Reservoir in the use of the premises shall conform to all applicable laws, ordinances, and regulations in effect in the area, including but not limited to all applicable general National Park Service regulations and general and special regulations for the area in particular.
3. Maintenance of Reserved Premises: The Reservoir shall keep the grounds and outbuildings of the reserved premises in a neat and clean condition and shall maintain all fences in good repair. The Reservoir is responsible for all costs arising out of the reserved premises; including all costs of maintenance and repair and all utility charges. The United States has no responsibility for any charges or expenses in connection with the reserved premises. The outbuildings reserved for use are the various barns and sheds as shown on the attached sketch. Buildings or sheds which are not usable or not required by the Reservoir may be removed with the permission of the Superintendent in accordance with National Park Service policies and regulations.
4. Precautions: The Reservoir and his employees shall take all reasonable precautions to prevent forest, brush or grass fires and shall take reasonable care to avoid damage to adjacent or nearby Federal lands or property through the spread of fire originating on the reserved premises, or by any other activities representing a nuisance or hazard to adjacent or nearby Federal lands or property.

5. Taxes: The Reservoir is responsible for the payment of any taxes or assessments that may be levied against his interest in the reserved premises.
6. Liability: The Reservoir shall hold the United States harmless for any liability arising out of the use of the reserved premises by the Reservoir. The Reservoir shall at his expense carry such public liability insurance as is customary, providing such insurance is available.
7. Transfer: The reserved premises may be conveyed or subleased for not less than 90 days by the Reservoir or his successors or assigns provided the instrument of conveyance or sublease imposes on the new Reservoir all of the restrictions and requirements of these provisions. A copy of any such conveyance or sublease shall be furnished the National Park Service prior to the effective date of such conveyance.
8. Expiration of term: The Reservoir, his assigns and successors, shall peacefully relinquish possession and control of the reserved premises upon the expiration of the term of the right of use and occupancy. He shall leave the reserved premises in a neat and clean condition. He shall not remove any improvements which are permanently affixed to the realty unless proper arrangements, with adequate consideration for such removal, have been made with the National Park Service. Any personal property left on the reserved premises upon the expiration of the term may be disposed of by the National Park Service.
9. Dam: The Reservoir agrees to take corrective action in order that the earthen dam (east of Benchmark 54 as shown on the 7.5 minute Inverness, California U. S. Geological Survey Map) will meet Federal Dam Safety Standards, or to siphon the water and breach the dam and discontinue its use. Reservoir understands the preliminary Federal Dam Inspection Report lists the dam in the critical safety hazard category and substantial repairs with substantial costs may be required to meet Federal dam safety requirements.
10. Access: That use by the Vendor of the land, buildings, and improvements reserved hereby is subject to the right of the Director or his representative to establish trails, roads, and other improvements over, upon or through said premises. The public shall have access to such roads and trails as well as of those already existing; provided that in exercising such right the United States will refrain from materially interfering or perverting the use of the land by the vendor for the purpose intended under this reservation.

GRANT DEED

CLARENCE R. ROGERS and ROSILDA E. ROGERS, his wife, Grantors, in consideration of THIRTY SEVEN THOUSAND FIVE HUNDRED (\$37,500.00 dollars, receipt of which is hereby acknowledged, do hereby grant to the UNITED STATES OF AMERICA and its assigns, the following described property located in the County of Marin, State of California, containing 5.00 acres, more or less, to wit:

SEE ATTACHED EXHIBIT "A"

TOGETHER WITH all building and improvements thereon and all water rights appurtenant thereto and all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in any wise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

FOR THE NATIONAL PARK SERVICE

The land is conveyed subject to existing easements of record for public roads and highways, public utilities, railroads, pipelines, ditches and canals and the encumbrances listed on the attached Exhibit "B".

TO HAVE AND TO HOLD the same unto said UNITED STATES OF AMERICA and its assigns, forever.

And said Grantors for themselves and their heirs, executors, administrators and assigns, do hereby covenant with the UNITED STATES OF AMERICA that they are now seized in fee simple of the property hereby granted; that the said UNITED STATES OF AMERICA shall enjoy the same without any lawful disturbances; that title to the property hereby conveyed is free from any encumbrances except as shown on the attached Exhibit "B".

The Grantors further remise, release and forever quitclaim to the UNITED STATES OF AMERICA and its assigns, all right, title and interest which the Grantors may have in the banks, beds and waters of any streams bordering the said land to be conveyed and also all interest in any alleys, roads, streets, ways, strips, gores or railroad rights of way abutting or adjoining said land and in any means of ingress or egress appurtenant thereto.

CLARENCE ROGERS SITUATION

GGNRA

License #10112

Priority date May 10, 1967

License #8611

Priority date Aug. 29, 1962

License 8611 was the initial license, which Mr. Rogers filed with the state, for the reservoir on Mr. Rogers property. Mr. Rogers told me that he did not build the reservoir but that it was there when he bought the ranch in the 50's. Later, in the 60's, Mr. Rogers filed with the state to enlarge the reservoir, this being license 10112. The total amount of water these licenses allowed for diversion was 30 acre feet a year. From inspection reports, on the dam, the estimated holding acreage of the reservoir was 25 acre feet (Mr. Rogers told me that a large amount of silt had build up in the dam over the years).

The reservoir supplied Mr. Rogers ranch operation up until the park purchased his ranch. After the 1981 purchase by the park the dam was breeched and the reservoir drained. With out his reservoir Mr. Rogers, who had always had NMWD water for his domestic use, had to resort to using that water for his Beef Cows as well. Both licenses list domestic use on them, but Mr. Rogers says that he has always had 'city water' for his house.

The area where the reservoir used to be is nothing but a few marsh grasses and large amounts of sediment deposits. Mr. Rogers said that even in the spring run off there is very little or no water coming off the hill. These licenses are definitely abandoned and may have been already revoked by the state. (Mr. Rogers said that the state took them away, but he might be confusing the park with the state?).

Looking at the Report of Licensee forms it was noticed that they had been filled out for the years of 1983-1985. These forms should not have been filled out because the reservoir was deactivated in 1983. Also there is no need to report Mr. Rogers water use, because he does not use any park water only NMWD water.

C. Roger's deactivated dam. GGNRA

THIS REPORT IS REQUIRED BY THE TERMS AND CONDITIONS OF YOUR LICENSE

IMPORTANT! EVERY license is subject to the conditions therein. I have currently reviewed my license: YES [X] NO []. I am comply with the conditions of my license: YES [X] NO []. Identify any noncompliance by license term number under "Remarks" on reverse side. This report is important in providing the record of use needed in maintaining your water right. It should be filled out carefully; returned promptly to the above-listed address.

THE PROJECT HAS BEEN ABANDONED, AND I REQUEST REVOCATION OF THE LICENSE: YES [].

COMPLETE FOR DIRECT DIVERSION PROJECTS

- Have you used the full licensed amount of water each year? YES [] NO [].
- State the quantity of water used each month in gallons or acre-feet (if not known, check months water was used).

	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1995													
1996													
1997													

COMPLETE FOR STORAGE PROJECTS

- Did your reservoir spill this year?
- If not, how many feet below spillway vertically was the water level at maximum storage?
- Have you emptied the reservoir?
- How many feet below spillway vertically was it drawn down at end of season?

	1995	1996	1997
3. Did your reservoir spill this year?	N/A	N/A	N/A
4. If not, how many feet below spillway vertically was the water level at maximum storage?			
5. Have you emptied the reservoir?	YES	YES	YES
6. How many feet below spillway vertically was it drawn down at end of season?			

(Continues on reverse side)

USE (COMPLETE FOR ALL PROJECTS)

(see page 1 for year of use)

7. Acreage irrigated:			
8. Stockwatering - number of stock.			
9. Domestic - number of persons.			
garden area, etc.			
10. Recreational - nature of use			
11. Industrial - nature of use			
12. Municipal - approximate population			
13. Power generation - K.W.			
14. Other			

15. If no water was used in one or more years, briefly state the reason under "Remarks".

16. If the location of the point of diversion or place of use or type of use(s) has been changed and the permission of this Board has not yet been obtained, please describe nature of changes under "Remarks".

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT.

CONSERVATION OF WATER

17. Describe any water conservation efforts you may have started: _____

18. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Section 1011 of the Water Code, please show the amounts of water conserved:

19 _____ (af/mg) 19 _____ (af/mg) 19 _____ (af/mg)

WATER QUALITY AND WASTEWATER RECLAMATION

19. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [] NO []

20. If credit toward use under this license through substitution of reclaimed water, desalinated water or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used: 19 _____ (af/mg) 19 _____ (af/mg) 19 _____ (af/mg)

CONJUNCTIVE USE OF SURFACE WATER AND GROUNDWATER

21. Are you now using groundwater in lieu of surface water? YES [] NO []

22. If credit toward use under this license through substitution of groundwater in lieu of appropriated water is claimed under Section 1011.5 of the Water Code, please show the amounts of groundwater used:

19 _____ (af/mg) 19 _____ (af/mg) 19 _____ (af/mg)

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

#5 The dam for the large impoundment which supplied the dairy was
breached in 1983 or 1984, therefore the 13.5 ac/ft impoundment
no longer exists. Surface water (rain) is utilized to fill stock
ponds during winter months.
