Re: Statement Of Claim Of Right To Use Public Waters Of The State Of Arizona –
Registry No.s (to be assigned)
Statement Of Claimant Form For Other Uses Amendment – File No.s 39-89220,
39-89222, 39-91444, 39-91445, 39-91446, and 39-91447.

Dear Ms. Hanna:

Attached you will find completed water rights claim forms for Wupatki National Monument, Petrified Forest National Park, Sunset Crater National Monument, and Walnut Canyon National Monument.

“Statement Of Claim Of Right To Use Public Waters Of The State Of Arizona” forms are filed for Peshlaki and Heiser Springs in Wupatki National Monument.

“Statement Of Claimant Form For Other Uses Amendment” forms are filed to amend the claimed priority dates for Peshlaki and Hesier Springs in Wupatki National Monument. Please note the “Registry Number” referred to in Items 2, 3, and 15 must be filled in after your office has processed the “Statement Of Claim” forms and assigned a Registry Number. Amended claims are also filed to amend the quantifiable present and future administrative consumptive uses for Petrified Forest National Park, Sunset Crater National Monument, and Wupatki National Monument, and to amend the boundary description for Walnut Canyon National Monument.

Please return signed and dated copies of the processed claim forms to our office. Contact

Jim Harte (970) 225-3538 with any questions you may have regarding these claims.

Sincerely,

A handwritten signature in cursive script, appearing to read "Charles W. Pettee".

Charles W. Pettee
Chief, Water Rights Branch

STATEMENT OF CLAIMANT FORM
FOROTHER USES¹
AMENDMENT

SUPERIOR COURT OF APACHE COUNTY

File No. 39-

Date Filed:

WFN

1. Claimant Name: United States of America c/o National Park Service (Walnut Canyon NM)Claimant Address: 1201 Oak Ridge Dr. Suite 250 City Fort CollinsState: Colorado Zip Code 80525-5596 Telephone 970-225-3500

2. Basis of Claim:

- A. ☐ Appropriation Right acquired prior to June 12, 1919. 1974 Water Rights Registration Act Registry No. _____
- B. ☐ Appropriation Right acquired after June 12, 1919. Application No. _____ Permit No. _____, or Certificate of Water Right No. _____
- C. ☐ Decreed water right. Principal litigants, court, date and case no. _____
- D. ☐ Right to withdraw groundwater. Grandfathered Right No. _____
- E. ☒ Other, describe: (see file No. 39-89220)

3. Claimed Priority Date: ____/____/____ (month/day/year) (see File No. 39-89220)-

4. Use:

- A. ☐ Municipal
- B. ☐ Commercial or Industrial
- C. ☐ Mining
- D. ☐ Stockwatering other than from a stockpond
- E. ☐ Recreation, Fish & Wildlife
- F. ☒ Other, describe: (see file No. 39-89220)

5. Source of Water: (see file No. 39-89220)

- A. ☐ Stream: name _____, tributary to _____
- B. ☐ Spring: name _____, tributary to _____
- C. ☐ Lake or Reservoir: name _____, tributary to _____
- D. ☐ Groundwater.

6. Legal description of the Point of Diversion: (attach additional sheet if required) (see file No. 39-89220)

____ 1/4, ____ 1/4, ____ 1/4, Section _____, Township _____ N/S, Range _____ E/W

7. If there are Irrigation, Domestic or Stockpond Uses also supplied from the Point of Diversion, describe: _____

8. Means of Diversion:

- A. ☐ Instream pump.
- B. ☐ Gravity flow into a ditch, canal or pipeline.
- C. ☒ Well: Arizona Department of Water Resources Well Registration No. 55-629093
- D. ☒ Other, describe: (see file No. 39-89220)

¹ See Instructions for explanation of uses in this category

9. Means of Conveyance:

A. ☐ Ditch, canal or pipeline. If the means of conveyance is owned and/or operated by some other entity, please give name and address: _____

B. ☒ Other, describe: (see file No. 39-89220) _____

10. Place of Use, If other than point of diversion: (attach additional sheet if required)

County Coconino County

Legal Subdivision _____

Section _____

Township _____

Range _____

INSTRUCTIONS

STATEMENT OF CLAIM OF RIGHT TO USE PUBLIC WATERS OF THE STATE OF ARIZONA

This claim is for surface water which is defined by statute as "the waters of all sources, flowing in streams, canyons, ravines, or other natural channels, or in a definite underground channel, whether perennial or intermittent, flood, waste or surplus water, and of lakes, ponds and springs on the surface."

The following instructions are referenced by number to the questions on the claim.

1. Complete name of claimant, current mailing address, including zip code and telephone number. If the claimant is a corporation or business, include the name of the authorizing agent.
2. Give the name of the direct source of surface water and the type of source. If known, provide the name of the drainage, creek, etc. to which the source is a tributary.
3. Describe the claimed beneficial uses including the annual quantity of use (in gallons or acre-feet for each type of use), the irrigated acreage for any claimed irrigation use and the months the water is used. A quantity of use must be provided for each beneficial use or the claim will be returned for correction. Per Arizona Revised Statute § 45-181, beneficial use includes but is not limited to, use for domestic, municipal, recreation, wildlife, including fish, agricultural, mining, stockwatering, and power purposes.
4. The date of first beneficial use must be completed or the claim will be returned for correction.
5. Provide the legal land description for the location of the claimed point of diversion from the claimed source. This location must be described to the nearest 40 acre tract ($\frac{1}{4}, \frac{1}{4}$) or other appropriate description or the claim will be returned for correction.
6. Provide the legal land description for the location of the place(s) of use. This location must be described to the nearest 40 acre tract ($\frac{1}{4}, \frac{1}{4}$) or other appropriate description or the claim will be returned for correction.
7. Provide any information you may have pertaining to the legal basis of the claim. Documentation could include affidavits, homestead documents, a notice of location, notice of appropriation, photographs, etc.

General Instructions:

1. A separate form must be filed for each claimed right to use public water.
2. A \$10.00 filing fee must accompany each claim.
3. The statement of claim is a sworn affidavit. The statement of claim must be signed by the claimant(s) and must be subscribed and sworn to.
4. The filing of a statement of claim pursuant to this article which knowingly provides for an overstatement of a right either in quantity of water or times of use claimed constitutes a class 3 misdemeanor.

AFFIDAVIT

I, James Babbitt, being duly sworn and more than eighteen years of age, do hereby state and affirm as follows:

1. I am the DIRECTOR of the CO Bar Ranch, located N. OF FLAGSTAFF, AZ. I have been a DIRECTOR since 1985.
2. Based on my own investigations about the history of water use on the CO Bar Ranch, I believe water from Peshlaki and Heiser Springs was first used for domestic and stockwatering purposes at the original homestead on the ranch in ~~1885~~ ¹⁸⁹².
3. I further believe that since ~~1885~~ ¹⁸⁹² water from Peshlaki and Heiser Springs has been continuously used for domestic and stockwatering purposes by CO Bar Ranch, the Navajo Nation, and the National Park Service.

James E. Babbitt
JAMES BABBITT
DIRECTOR of the CO Bar Ranch

Subscribed and sworn to before me in the State of Arizona, County of Coconino, this 21 day of April, 1998, by James Babbitt.

Nov. 12

PARKS AND PUBLIC LANDS ACT

P.L. 104-388
Sec. 208

"(d) To further the purposes of the monument, the Secretary is also authorized to acquire from willing sellers only, by donation, purchase with donated or appropriated funds, or exchange not to exceed 65 acres outside the boundary depicted on the map referred to in section 301 and develop and operate thereon research, information, interpretive, and administrative facilities. Lands acquired and facilities developed pursuant to this subsection shall be administered by the Secretary as part of the monument. The boundary of the monument shall be modified to include the lands added under this subsection as a non-contiguous parcel."

SEC. 207. WUPATKI NATIONAL MONUMENT BOUNDARY ADJUSTMENT.

16 USC 431 note.

The boundaries of the Wupatki National Monument, Arizona, are hereby revised to include the lands and interests in lands within the area generally depicted as "Proposed Addition 168.89 Acres" on the map entitled "Boundary—Wupatki and Sunset Crater National Monuments, Arizona", numbered 322-80,021, and dated April 1989. The map shall be on file and available for public inspection in the Office of the National Park Service, Department of the Interior. Subject to valid existing rights, Federal lands and interests therein within the area added to the monument by this section are hereby transferred without monetary consideration or reimbursement to the administrative jurisdiction of the National Park Service, to be administered as part of the monument in accordance with the laws and regulations applicable thereto.

SEC. 208. WALNUT CANYON NATIONAL MONUMENT BOUNDARY MODIFICATION.

16 USC 431 note.

(a) PURPOSE.—The purpose of this section is to modify the boundaries of the Walnut Canyon National Monument (hereafter in this section referred to as the "national monument") to improve management of the national monument and associated resources.

(b) BOUNDARY MODIFICATION.—Effective on the date of enactment of this Act, the boundaries of the national monument shall be modified as depicted on the map entitled "Boundary Proposal—Walnut Canyon National Monument, Coconino County, Arizona", numbered 360/80,010, and dated September 1994. Such map shall be on file and available for public inspection in the offices of the Director of the National Park Service, Department of the Interior. The Secretary of the Interior, in consultation with the Secretary of Agriculture, is authorized to make technical and clerical corrections to such map.

(c) ACQUISITION AND TRANSFER OF PROPERTY.—The Secretary of the Interior is authorized to acquire lands and interest in lands within the national monument, by donation, purchase with donated or appropriated funds, or exchange. Federal property within the boundaries of the national monument (as modified by this section) is hereby transferred to the administrative jurisdiction of the Secretary of the Interior for management as part of the national monument. Federal property excluded from the monument pursuant to the boundary modification under subsection (b) is hereby transferred to the administrative jurisdiction of the Secretary of Agriculture to be managed as a part of the Coconino National Forest.

(d) ADMINISTRATION.—The Secretary of the Interior, acting through the Director of the National Park Service, shall manage the national monument in accordance with this title and the provisions of law generally applicable to units of the National Park Service, including "An Act to establish a National Park Service,

and for other purposes" approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1, 2-4).

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are hereby authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 209. BUTTE COUNTY, CALIFORNIA LAND CONVEYANCE.

(a) **PURPOSE.**—It is the purpose of this section to authorize and direct the Secretary of Agriculture to convey, without consideration, certain lands in Butte County, California, to persons claiming to have been deprived of title to such lands.

(b) **DEFINITIONS.**—For the purpose of this section:

(1) The term "affected lands" means those Federal lands located in the Plumas National Forest in Butte County, California, in sections 11, 12, 13, and 14, township 21 north, range 5 East, Mount Diablo Meridian, as described by the dependent resurvey by the Bureau of Land Management conducted in 1992, and subsequent Forest Service land line location surveys, including all adjoining parcels where the property line as identified by the 1992 BLM dependent resurvey and National Forest boundary lines before such dependent resurvey are not coincident.

(2) The term "claimant" means an owner of real property in Butte County, California, whose real property adjoins Plumas National Forest lands described in paragraph (1), who claims to have been deprived by the United States of title to property as a result of previous erroneous surveys.

(3) The terms "Secretary" means the Secretary of Agriculture.

(c) **CONVEYANCE OF LANDS.**—Notwithstanding any other provision of law, the Secretary is authorized and directed to convey, without consideration, all right, title, and interest of the United States in and to affected lands as described in subsection (b)(1), to any claimant or claimants, upon proper application from such claimant or claimants, as provided in subsection (d).

(d) **NOTIFICATION.**—Not later than 2 years after the date of enactment of this Act, claimants shall notify the Secretary, through the Forest Supervisor of the Plumas National Forest, in writing of their claim to affected lands. Such claim shall be accompanied by—

(1) a description of the affected lands claimed;

(2) information relating to the claim of ownership of such lands; and

(3) such other information as the Secretary may require.

(e) **ISSUANCE OF DEED.**—(1) Upon a determination by the Secretary that issuance of a deed for affected lands is consistent with the purpose and requirements of this section, the Secretary shall issue a quit claim deed to such claimant for the parcel to be conveyed.

(2) Prior to the issuance of any such deed as provided in paragraph (1), the Secretary shall ensure that—

(A) the parcel or parcels to be conveyed have been surveyed in accordance with the Memorandum of Understanding between the Forest Service and the Bureau of Land Management, dated November 11, 1989;

(B) all new property lines established by such surveys have been monumented and marked; and

DEPARTMENT OF AGRICULTURE

Forest Service

DEPARTMENT OF THE INTERIOR

National Park Service

USDA, Forest Service, USDI, National Park Service; Notice of Transfer of Administrative Jurisdiction, Coconino National Forest and Walnut Canyon National Monument

SUMMARY: The Forest Service previously had administrative jurisdiction over 1,279 acres, more or less, as depicted on the map entitled, "Boundary Proposal—Walnut Canyon National Monument," numbered 360/80,010, and dated September 1994. The National Park Service formerly had administrative jurisdiction on 54 acres, more or less, as shown on the same map. Notice is hereby given that, pursuant to the provisions of Section 208 of Pub. L. 104-333, 110 Stat. 4093, administrative jurisdiction on the 1,279 acres is now in the National Park Service, and administrative jurisdiction on the 54 acres is now in the Forest Service. Both transfers are subject to prior existing rights and applicable laws and regulations. The specific lands and/or interests, subject to this notice, include both the surface and minerals on 1,279 acres, more or less, and 54 acres, more or less.

SUPPLEMENTARY INFORMATION: The maps and other documents associated with this transfer of lands and minerals may be reviewed at the Intermountain Land Resources Program Center, 1220 South St. Francis Drive, Santa Fe, New Mexico 87504, and at Walnut Canyon National Monument Headquarters, 6400 North Highway 89, Flagstaff, Arizona 86004. The same materials are available at the USDA, Forest Service, Regional Office, 517 Gold Avenue, SW, Albuquerque, New Mexico 87102, and Coconino National Forest, 2323 Greenlaw Lane, Flagstaff, Arizona 86004.

Dated: May 5, 1998.

Eleanor Towns,

Regional Forester, USDA, Forest Service, Region 3.

Dated: July 17, 1998.

John E. Cook,

Regional Director, Intermountain Region, National Park Service.

BILLING CODE 4310-70-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce (DOC) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Export Administration (BXA).

Title: Approval of Triangular Involving Commodities Covered by a U.S. Import Certificate.

Agency Form Number: None.

OMB Approval Number: 0694-0009.

Type of Request: Extension of a currently approved collection of information.

Burden: 1 hour.

Average Time Per Response: 30 minutes per response.

Number of Respondents: 1.

Needs and Uses: The triangular symbol will be stamped on the certificate as notification to the government of the exporting country that the U.S. importer is uncertain whether the items will be imported into the U.S. or knows that the items will not be imported into the U.S., but that, in any case, the items will not be delivered to any other destination except in accordance with the EAR. This procedure was developed in an effort to increase the effectiveness of controls over international trade in strategic commodities, ensuring that they will not be delivered to any other destination except in accordance with export control regulations.

Affected Public: Individuals, businesses or other for-profit institutions.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: Victoria Baecher-Wassmer (202) 395-5871.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce,

Room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Victoria Baecher-Wassmer, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20230.

Dated: August 18, 1998.

Linda Engelmeier,

Departmental Forms Clearance Officer, Office of the Chief Information Officer.

[FR Doc. 98-22726 Filed 8-24-98; 8:45 a.m.]

BILLING CODE 3510-33-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce (DOC) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 USC Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northeast Region—Gear Identification Requirements.

Agency Form Number(s): None.

OMB Approval Number: None.

Type of Request: New collection.

Burden: 24,518 hours.

Number of Respondents: 3,253

(multiple requirements).

Avg. Hours Per Response: One minute to mark gear.

Needs and Uses: This collection is under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The regulations specify that federal permit holders using specified fishing gear be marked with the vessels official identification number, Federal permit number, tag number, or some other specified form of identification. The regulations further specify how the gear is to be marked (e.g., location and visibility). This information is used for enforcement purposes and for the identification of gear concerning damage loss or civil proceedings.

Affected Public: Businesses or other for-profit organization, individuals.

Frequency: Recordkeeping.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker,

(202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce,

RE: STATEMENT OF CLAIMANT NO. 39

Dear: Claimant,

The Department of Water Resources has received your request to assign/amend a Statement of Claimant filed in the adjudication proceedings. The information you have supplied is **insufficient** to complete your request. **Please provide the information noted in bold below** so that we may continue to process your assignment or amendment.

Please complete the enclosed form(s) and return with all supporting documentation.

We cannot determine what Statement of Claimant is being referenced in your request. Please identify the file reference number (39-) of the Statement of Claimant you are assigning or amending.

All signatures must be acknowledged by a Notary Public.

Proof of ownership must be submitted with the original assignment form:
Copy of a RECORDED DEED, TAX VALUATION NOTICE, OR A TAX BILL.

Other:

Sincerely,

Lisa M. Jannusch

Supporting Hydro Data

**Estimation of Future Water Use for
Petrified Forest National Park**

Prepared by J. Harte
Reviewed by R. Thomasson
and Flagstaff Area Office Staff
Approved by W. Hansen
February 10, 2000

Introduction

The objective of this report is to estimate the quantity of water needed for future consumptive use purposes at Petrified Forest National Park (PEFO). Future water use is projected through the year 2050, a 50 year planning period. This report is prepared in support of federal water rights claims to be filed in the Little Colorado River Adjudication in the State of Arizona.

In 1985 Owen R. Williams, Hydrologist, NPS Water Rights Branch, estimated future consumptive use to be 70 acre-feet per year. Measured water use data are now available allowing for a reexamination of the previous estimate and a new estimate of water needs in the year 2050.

PEFO has purchased its water from the Navajo Tribal Utility Authority (NTUA) since 1996. Water flows by gravity from a storage tank, through an 8-inch pipeline, to park headquarters. The system is capable of delivering almost 200,000 gallons per day. PEFO maintains Puerco Well Number 2 as a backup water supply (07/11/97 email from Patrick Fleming, National Park Service Regional Office, Denver Colorado).

Methods and Results

Average annual water use at PEFO was determined by computing the average of the 1998 and 1999 metered water use. Water use data are available for 1994-1997, however, they were not used in computations of average annual water use because all water use was not accounted for and PEFO switched from water wells to the NTUA water system in 1996 (Chad Thomas, PEFO Maintenance, 02/09/00). Administrative and visitor uses are not distinguished and consumptive use is assumed to be the same as the actual metered use for this report.

The following table shows the metered 1998-1999 annual water use and computed average annual water use for PEFO (metered water use data provided by Chad Thomas, PEFO Maintenance, 01/19/00).

Date	Metered Water Use (gallons)	Metered Water Use (acre-feet)
1998	4,954,230	15.2
1999	4,861,730	14.9
Average Water Use	4,907,980	15.0

In order to make a conservative estimate of future water needs at PEFO, the National Park Service-wide average annual visitation growth rate for the period from 1948-1995 is applied to the estimate of current annual water use. Appendix A describes the computation of this rate as well as the rationale for its selection as an appropriate rate. Applying the average annual growth rate of 5 percent per year to the current water use of 15 acre-feet per year for fifty years, yields a projected water need in the year 2050 of approximately 172 acre-feet per year.

Recommendation

It is recommended that the future consumptive use claim for Petrified Forest National Park, filed in the Little Colorado River Adjudication, be amended to 172 acre-feet per year.

APPENDIX A**Determination of a Regional Growth Rate for Projecting Future Water Needs
at Little Colorado River Basin National Park Units**

Because park water use is partially a function of park visitation, historic visitation data was examined to determine a reasonable growth rate for estimating future water needs. Unfortunately methods of counting Park visitors have not been consistent over time, making estimates of growth rates at individual parks difficult. For this reason, an attempt was made to derive a regional growth rate that incorporates data from a number of National Park units.

Average annual growth rates for the period 1948 through 1995 were computed for each of the four National Park units within the Little Colorado River basin, as well as total National Park unit visitation. Historical data for total nationwide park visitation is shown in Appendix A, along with the computed average annual growth rate. Growth rates for the four Little Colorado River basin parks were similarly computed. The results of these computations are shown in Table 1 below. Average annual growth rates range from 2.9 percent per year at Petrified Forest National Park to 10.2 percent per year at Wupatki National Monument, with the nationwide average of 5.0 percent per year being the median.

Adopting the nationwide average annual growth rate of 5.0 percent as the regional growth rate is reasonable. It is the median value of the calculated growth rates and it incorporates the most visitation data, potentially mitigating the effects of inconsistent visitor counting methods.

	Nationwide	Petrified Forest NP	Walnut Canyon NM	Wupatki NM	Sunset Crater NM
Growth Rate (percent/year)	5.0	2.9	4.7	10.2	8.0

Table 1. Average annual growth rates for all four National Park units within the Little Colorado River Basin and the nationwide average.

Table 2. Number of visitors and interannual growth rates for all National Park Service units.

NOTE TO THE FILE:

On 02/14/00 a final DRAFT of the report, "Estimation of Future Water Use for Petrified Forest National Park" was FAXed to Park Superintendent Micki Hellickson, for her comments. On 02/14/00 Micki called WRD to discuss her comments to the report. Initially, Micki thought the quantity of 172 acre-feet per year was high, considering past use (Micki said park records show use of 11.5 million to 13.2 million gallons per year during the period 1986-1988; low flow toilets had been installed and irrigation had been reduced since then). However, after considering the park's responsibility to manage the park in perpetuity Micki agreed with the estimate of 172 acre-feet per year, as shown in the report.

CLEAR TO RETURN TO SELECTION CRITERIA

PEFO; Rainbow Forest #2

I have talked to Jim Buckel, DSC, Western Team, about the use of this well. He reports that the well is presently unused and may remain in that status due to the high "salt" concentration of the water and the associated problem of using a reverse osmosis (R.O.) plant. A pump is in the well - this is a new pump placed there by the contractor for the aquifer test and then bought by NPS.

This well was drilled to supply water for a R.O. plant, to provide potable water for the Rainbow Forest area of the Park. This would have allowed the Park to discontinue use (and maintenance) of the long pipeline from the well in the Puerco River alluvium located at the north end of the Park.

In preparation for the drilling, Water Resources Division, Western Region had contracted for a geohydrologic study of the Rainbow Forest area. The report, by Larry Mann, indicated that water quality decreases in a northerly direction. In view of this report I had met with Buckel in the field (1981) to assist in site selection. We inspected the extreme SE corner of the Park along the old paved road which had been closed to public use. This site would have provided the best water quality within the Park boundary. The distance to Rainbow Forest facilities and thus the length of the required pipeline was not acceptable due to cost. Thus, the site of this well was chosen in proximity to the water storage tanks with the concept that a R.O. plant would be needed at other sites - and in view of the knowledge that water quality would be poorest at this latter site.

Apparently, final evaluations of the feasibility of the R.O. plant were made in light of the chemical analysis of the well water and it was determined that the R.O. plant would not be installed and thus the well left unused.

I inquired of Mr. Buckel about the possibility of using this well at some time in the future to supply the entire Park in light of our present plans to provide an R.O. plant on the Puerco River well to bring the water to PHS standards due to dissolved solids - and in light of the possibility of radioactive contamination of the water. This radioactive contamination may occur due to plume movement from the uranium mine spill near Gallup, NM in 1978. Recent reports by USGS indicate this possibility. Although it is assumed that any radioactive materials would be removed by the R.O. on the Puerco Well, the possibility of using the Rainbow Forest well may be questioned in the future. Mr. Buckel stated that using the Rainbow Forest well for total supply of the Park was not feasible due to the lower elevation at Rainbow Forest and the resultant pressure which would be necessary in the pipeline, i.e., the pipeline is not capable of withstanding the pressure.

Summary of Well Tests Conducted at
Petrified Forest National Park

In January and February 1984, two test wells drilled at Petrified Forest National Forest were tested for yield and chemical quality of water. Test well 1—located near the south entrance of the Park—was drilled to provide data to determine the feasibility of treating the water for use at the south entrance visitor center and residential area. Test well 2—located near Agate Bridge—was drilled to test the feasibility of providing water for a comfort station. The U.S. Geological Survey conducted the well tests and the National Park Service will determine the feasibility of using the water for its intended purposes.

Test test wells are constructed as follows:

	<u>Test well 1</u>	<u>Test well 2</u>
Depth of well (feet):	980	780
Depth cased (feet):	851	690
Diameter of casing (inches):	10.75	10.75
Interval open to aquifer (feet):	129	90
Interval grouted with cement (feet):	0-859	0-690
Static water-level (feet):	317.4	272.8
Date water-level measured:	01/10/1984	02/02/1984

The test wells obtain water from the Coconino Sandstone which is a primary source of water for wells in an area extending about 50 miles to the south and about 100 miles to the west. To the north and east, the Coconino is not widely tapped by wells owing to large amounts of dissolved solids in the water, and the presence of water in overlying units. At the Petrified Forest, it is the only dependable source of water except for a thin, narrow strip of alluvium along the Puerco River. Water in the Coconino at the Petrified Forest, however, contains from about 4,000 to more than 60,000 milligrams per liter of dissolved solids—mainly sodium and chloride—and can not be used for most purposes without being treated.

Test well 1 was pumped at 185 gallons per minute for 24 hours. The drawdown at the end of the pumping period was about 7.3 feet (see attached field notes). When the pump was turned off, the water level recovered to within about one foot of the static-water level in slightly less than 25 hours. The specific capacity of test well 1 was about 25 gallons per minute per foot of drawdown for the 24-hour pumping period; the pumping and recovery water-level data indicate that the aquifer transmissivity at the test well is on the order of 2,200 to 2,400 feet squared per day. It should be noted, however, that the test well taps about 25 percent of the aquifer and the transmissivity would be greater if the test well completely tapped the aquifer.

Water samples were collected from test well 1 near the end of the pumping period and submitted to the U.S. Geological Survey's Denver Laboratory for analysis. The samples were analyzed for common constituents, radionuclides, trace metals and nutrients. The dissolved solids of the water as 9,910 milligrams per liter (residue on evaporation at 180°C; see attached laboratory analytical sheet). Many of the constituents contained in the water exceed the water-quality criteria for public drinking-water supplies established by the Environmental Protection Agency.

Test well 2 was pumped at about 30 gallons per minute for 24 hours. Drawdown at the end of the pumping period was about 62.6 feet (see attached field notes). When the pump was turned off, the water-level recovered to near the static level within 15 minutes. The specific capacity of test well 2 was about 0.5 gallons per minute per foot of drawdown for the 24-hour pumping period. The transmissivity of that part of the aquifer open to the well—90 feet—can not be reliably estimated on the basis of field data collected. The pumping rate of 30 gallons per minute is not adequate to sufficiently stress the aquifer and to give reliable results. On the basis of the specific capacity, however, the transmissivity is probably on the order of a few hundred feet squared per day. The transmissivity could be increased by drilling the test well deeper into the aquifer.

Water samples were collected from test well 2 near the end of the pumping period and submitted to the U.S. Geological Survey's Denver Laboratory for analysis. The samples were analyzed for common constituents, radionuclides, trace metals and nutrients. The dissolved solids of the water was 19,800 milligrams per liter (residue on evaporation at 180°C; see attached laboratory analytical sheet). Like the water produced from test well 1, the water from test well 2 also contained many constituents that exceed the water-quality criteria for public drinking-water supplies.
