FISHES OF THE GREAT SMOKY MOUNTAINS NATIONAL PARK

1937-1940

A list of fish species collected by Dr. Carl L. Hubbs and family in the Great Smoky Mountains National Park and immediate vicinity during the periods August 27 - September 10, 1937, and June 17 - June 30, 1940. The identifications were made by Dr. Carl L. Hubbs and Dr. Reeve M. Bailey at the Museum of Zoology, University of Michigan, Ann Arbor, Michigan. Specimens of 47 species in these collections are on hand at National Park Headquarters, Great Smoky Mountains National Park, Gatlinburg, Tennessee.
