225	Little South Fork Elk River	Humboldt Bay	21-Aug-02	Y	Y
227	Salmon Creek	Humboldt Bay	DFG	Y	

Larry,

These are all the creeks that were on the list that you provided at the beginning of the season. We are planning to perform surveys on McDonald and Fresh and Maple, Black, and Boulder over the coming month. We will also be surveying both the North and South Forks of Elk River, Lindsay Creek, and Jacoby Creek as part of our regional abundance effort.

Subject: Coho surveys

169

Hi Larry,

Brandon Grove and I surveyed May ck (169.00) and Lost Man ck (167.00) on Friday, July 19th. Coho were observed in both creeks. Today, Tuesday, July 22nd, we are going back up to the Park to survey Godwood and Brown's creeks. I'll let you know what we find. Oh, we also checked out Powers creek in Blue Lake which was dry from the mouth all the way to above Blue Lake blvd.
