with a coil around around lake.
Penny, Tom, and June up in P.M.
Had cake and punch, brought by
punch. Raym up for supper.
Home at 8:30. A nice day.

Sept 14

Raym came up to camp and brought some things for
weekend - cake etc. in honor of Barb. Stayed a
while in evening. Went home around nine.

Sept 15

Around at camp around nine a.m. The
whole family present. Ray foggy
and pond choppy. South west wind
blowing. Just generally enjoyed the place
till dinner. What a feed! Lobsters, green
corn, new potatoes, and apple pie
to top it off.

After dinner and dishes were done
RPS and B.D. took a sail up the pond
with the motor doing its bit.

The wind sent us straight up the pond
bouncing over the waves. After three
attempts to turn around and head back for
camp we gave up. The wind wouldn't
even let the engine take hold. With every
wave the fly wheel spun out of water
and we made no headway. Heaved for
the ship up there and got stranded on a rock
at which time a big wave joined us in
the boat. Walked back to the camp where
Bertie had an interesting experience to tell us.
She got locked out while sweeping
the back porch and had to climb through
a ladder to get back in. Adventurous
family today!

Two of us went in swimming around
three o'clock - which two is easily guessed.
Water was fine after once getting used to
it but it sure felt cold to the toe
that contacted it first.

Halley, Neely & Jane arrived around
three thirty for a visit. Hal had to hurry
off but the women went down town
with RPS around four thirty.

Bertie came up for supper. Real
hot right roast, baked beans, tomatoes,
cukes, pickles, rolls and cake.
Dinner in the evening. Tell Mr. Lorne
came. Peter sometime after tea. Bertie

and Barb in living room. The kerosene
burner claimed Hallie + R.P.S. Explanation. The
electrified been uncertain all day so on
quest. Barbs sent up a kerosene lamp
which R.P.S. laid on the bed. It leaked
result smelly bed.

Sept 14

1:45 Barb and R.P.S. up the pond to get the boat. Rowed
around the other side of the pond and back
across to camp. Quite breezy. Breakfast
proceedings began soon after we got back.
Barbs dashed off on emergency maternity call.

9:30
a.m. Too windy for fishing or boating. While
Hallie keeps the home fire burning we start
off for a hike which turned out to be a trip
to Man o' War Beach and a climb up onto
Robinsons Mt. and down the other side.

Back to Camp 10:30. Dinner at 11:30

Onions - Potatoes - Lobster topped off
by a piece of Apple Pie - Grand

fried haddock for dinner. Sewed and
crocheted in P.M. Bertha & Nancy went home
about 4-30. Hallie & Lida played "Running"
Raymond came to supper. No electricity - on
account of thunder storm in the a.m.
Emmie & Mollie called in evening. Leaving
for home about 8-15 because the lamp is
soon going out and we will be left in
the dark. Wonderful time.

DRUDGERY DIVINE

O bumblebee on the red-topped
clover,
Aren't you tired, you busy rover,
Of doing the same thing over and
over?

Gathering honey all the day long,
Singing the same little humming
song,
Aren't you tired, you golden rover,
Of doing the same thing over and
over?

O little bird, with the crimson
breast,
Aren't you tired of building the
nest?

Straw after straw you patiently
bring,
Song after song you cheerily sing.
O little bird in the crimson nest,
Isn't it time to take a rest?

O busy heart, O toiling mother,
Aren't you tired of the work and
bother,
The same dull task, and never
another?

Over and over you brew and bake,
Over and over you mend and make.
Aren't you tired O weary mother
Of the same dull round and never
another?

Then low from the heart of the
bee and the bird
And low from the heart of the
mother this word,
Sweet and calm and clear I heard:
"Over and over God paints the
skies,
Over and over He makes the sun
rise.

Over and over He tints the flowers
Over and over He send the showers

Over and over He guides the stars,
Over and over the dawn unbars.
If over and over God deigns to
work,

Why should we faint and duty
shirk?

So over and over our tasks we do,
Sure of reward if our task be
true."

This is the message which clear I
heard
From the heart of the mother, the
bee, and the bird.
