Constance Bannister's

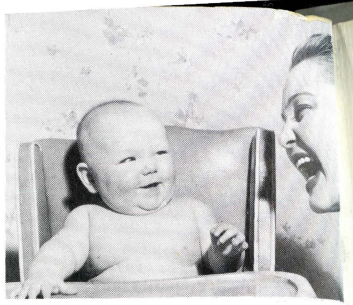

1953 BABY CALENDAR

week by week

"I know we shouldn't, but let's."

About Constance Bannister

"Connie" Bannister, as she is known to her countless friends, has the magic touch when it comes to getting babies to express themselves just the way Connie wants them to. Miss Bannister hails from Ashland City, Tennessee—one of fourteen children. She was set on the road to success in photography when a boy friend gave her a camera as a gift. She kept clicking away until it brought her world-wide fame, a New York studio and constant demands from editors, advertising agencies and fond parents.

With her favorite Super D Graflex, her Pacemaker "45" Graphic and her uncanny ability, Connie captures all the charm and personality of her lovable young subjects.
