

Inventory of Artifacts:
WIS-218, Vincent Knorr Cabin, Mascot Creek, GAAR,
30 - 31 August 1992

The artifacts associated with WIS-218 are clustered around the immediate area of the cabin. In order to facilitate location in the field, the following list is sub-divided into clusters described in terms of their relationship to the cabin, i.e., "Cabin, Exterior, East Side" or "Cabin, Interior, North Wall." Artifacts spatially associated with the Privy or the Cache are clustered in a similar fashion. Each item is assigned a sequential identifying number, briefly described, and referenced to one or more photographs in the format X x/x ("B" for black and white, "C" for colour slide, x/x for roll and exposure number).
