**RE: Field Inspection Report for Sunset Tank, Claim of Water Right for a Stockpond No.
38-96650.**

Dear Mr. Hansen:

On November 20, 2013, a field inspection was conducted by the Arizona Department of Water Resources (Department). The field inspection was conducted to verify the information confirmed on the above-referenced claim (copy enclosed) received by the Department on July 15, 2002.

The inspection was authorized by Arizona Revised Statute (A.R.S.) §§ 45-105 (A) (2) and 45-275 (A) and conducted in accordance with A.R.S. § 41-1009. Per A.R.S. § 41-1009, a copy of the Field Inspection Report has been included with this letter.

The above-referenced claim states that Sunset Tank has a maximum storage capacity of 0.86 of an acre-foot. Measurements made during the field inspection determined that Sunset Tank has a maximum storage capacity of 0.31 of an acre-foot.

At this time, the Department asks that you review the enclosed Field Inspection Report. If you feel the information presented in the report is incorrect the Department requests that you contact us within 30 days from the receipt of this letter. If the Department does not hear from you within the 30 days, the Department will issue a certificate for Sunset Tank with a storage capacity that is based on the information in the Field Inspection Report.

**Re: Notice of Inspection for Claim of a Water Right for a Stockpond and Application
for Certification No. 38-96650.**

Dear Mr. Hansen:

You are hereby given notice that the Arizona Department of Water Resources (Department) intends to inspect property owned by the US National Park Service located in the Southeast quarter of the Southwest quarter of the Northwest quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$), Section 7, Township 19 North, Range 25 East.

The inspection is scheduled to take place between 11:00 AM and 12:00PM on October 8, 2013.

The inspection is authorized by Arizona Revised Statutes (A.R.S.) § 45-105 (A) (2) and 45-275 (A). The purpose of the inspection is as follows:

1. To confirm the information included on the Claim of Water Right for a Stockpond and Application for Certification received by the Department on July 15, 2002.

The Department requests that you or your authorized representative be present to allow Department personnel onto the property. You or your representatives may also remain present during the inspection. If the above date or time of the scheduled inspection is inconvenient for you, please notify the Department prior to the date of inspection to arrange another date and time.

Please be assured that one or more authorized Department personnel will conduct the inspection in a manner pursuant to A.R.S. § 41-1009 that will minimize disruptions to on-going operations.

Please do not hesitate to contact me at (602) 771-8612 or toll free (within Arizona only) at 1-800-352-8488 if you require further information or assistance.

Dear Ms. Logan:

Enclosed are three Claims of Water Right for a Stockpond applications and four Applications for Permit to Appropriate Public Water to Construct a Reservoir. Each claim/application includes a duplicate copy. Please return the duplicate copies to me for my files after they have been recorded.

The stockpond claims and one of the applications to appropriate are for waters located in the Little Colorado River watershed. Two of the remaining applications are for new stockponds constructed by a rancher on public lands within the San Simon River watershed.

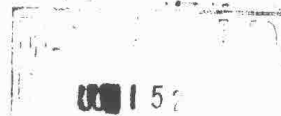

The final application is for an old stockpond located on former state land that came to BLM during a previous land exchange. Apparently, the dam existed prior to BLMs ownership, but had never been reported. It had washed out and the rancher rebuilt it.

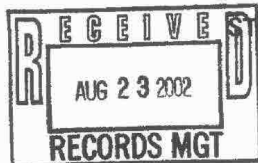

The waters were recently discovered during field inventory of a few scattered waters within the San Simon River watershed. The ponds had been constructed sometime within the last eight months.

When the fees for payment are required (\$10.00 for each stockpond claim and \$50.00 for each application, for a total of \$230.00), please call me at (928)348-4469. Payment will be made with a U.S. Government credit card.

PETRIFIED FOREST NATIONAL PARK

Petrified Forest Grows By 4,265 Acres

The National Park Service, [The Conservation Fund](#) and the [National Parks Conservation Association](#) (NPCA) recently celebrated the addition of 4,265 acres to [Petrified Forest National Park](#).

Purchased by The Conservation Fund in January 2013 with a substantial contribution from NPCA, the lands are full of Late Triassic resources, including rare dinosaur fossils. The National Park Service utilized the federal Land and Water Conservation Fund (LWCF) – America's premier conservation program – to acquire the property.

Formerly known as the McCauley Ranch, the acquired acreage lies east of the historic remains of Puerco Pueblo and connects lands already protected within the park. The protection of this property not only preserves the natural viewshed that visitors experience as they drive on the main road through the park, it also secures many fossil-producing sites that have already proven to be ideal locations for exciting new paleontological discoveries.

During the summer of 2013, researchers unearthed a well preserved, two-foot- long [phytosaur](#) skull, a distant ancestor of the modern crocodile, on the property. They also uncovered a new find for Petrified Forest National Park, a [Doswellia](#), which is a close relative to the phytosaur. A rich layer of fossil material was identified below the bones that could be the bottom of an ancient pond. Continued excavation will help to determine the pond's ecosystem and identify the kinds of prehistoric fish, amphibians, reptiles and plants that once lived there.

"This is an important milestone in the National Park Service's joint effort with our partners to protect the rich natural and cultural landscape in and around Petrified Forest National Park," said Director Jarvis. "By helping us acquire the McCauley Ranch, our partners at The Conservation Fund and the National Parks Conservation Association have taken another important step toward fulfilling the vision Congress outlined in the Petrified Forest Expansion Act of 2004.

"On behalf of the American people, we thank The Conservation Fund and NPCA. This extension of Petrified Forest's boundaries will allow us to increase our knowledge, understanding and appreciation of Arizona's Painted Desert environment and its archeological and fossil wonders."
