

SECOND CENTURY STEWARDSHIP

Science for
America's
National Parks

GOALS

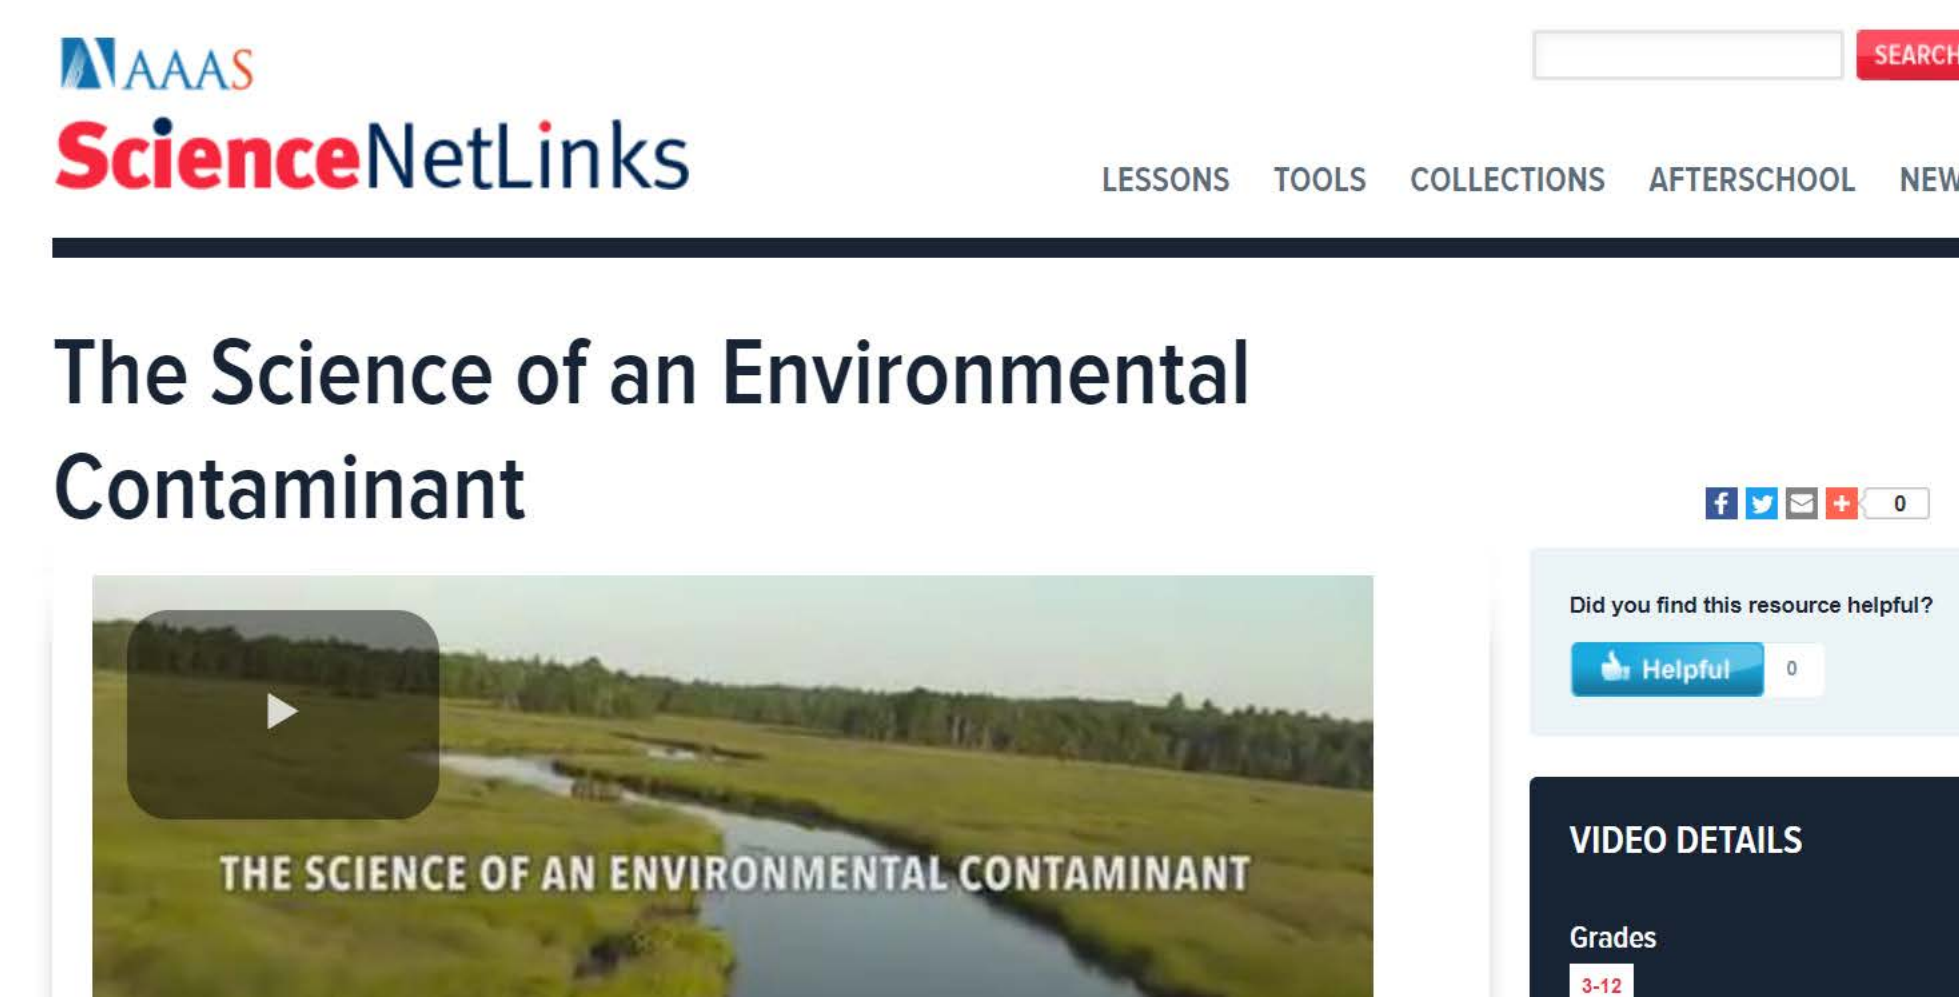

- Support stewardship of park resources through advancing conservation and ecosystem science.
- Increase public engagement with science.
- Strengthen public understanding of the importance of science for parks and society.
- Pursue solutions to critical conservation challenges.

STRATEGIES

Research fellowships focus on park stewardship challenges.

Enhance park education activities and school curricula infused with Second Century Stewardship Fellows' research.

Science communication training for Second Century Stewardship Fellows, National Park Service staff, partners, and educators.

Convene leaders to pursue solutions to critical challenges.

100+

years our National Park System and Service have been in existence.

300 million +

annual visits to America's national parks.

50,000+

people reached by Second Century Stewardship.
