Memorandum

To: Ryan Monello, PACN Program Manager

From: Daniel Kawaiaea, Superintendent

Subject: Handling of protected natural resource data

The Superintendent of Pu'ukoholā Heiau National Historic Site has identified resources that are rare, threatened, endangered, or commercially valuable. Information about these resources (the specific location, abundance, presence, or absence), if released to the public or other unapproved audiences, has been determined to potentially result in harm, theft, or destruction. To ensure data are appropriately protected in accordance with park management priorities, the following rules must be followed when disseminating natural resource information collected through inventory, monitoring, or other related scientific activities.

Type of Data	Level of Protection	Rules for Dissemination
Resource Data and Information		
Specific T&E Species locations	Legally Protected	Specific locations of these species will not be released to the general public. Any such data collected will be redacted from publicly released datasets. This will be done indefinitely.

DANIEL K. KAWAIAEA JR.
Superintendent, Pu'ukoholā Heiau National Historic Site
