Subject: Handling of Protected Natural Resource Data

The Superintendent of American Memorial Park has identified resources that are rare (R), threatened (T), endangered (E), or commercially valuable species of concern (SC). Information about these resources (the specific location, abundance, presence, or absence), if released to the public or other unapproved audiences, has been determined to potentially result in harm, theft, or destruction. To ensure data are appropriately protected in accordance with park management priorities, the following rules must be followed when disseminating natural resource information collected through inventory, monitoring, or other related scientific activities.

Type of Data		Level of Protection	Rules for Dissemination
Resource Data and Information			
	Specific T&E Species locations	Legally Protected	Specific locations of these species will not be released to the general public. Any such data collected will be redacted from publicly released datasets. This will be done indefinitely.

Table 1. T&E Species (General Rule).

Resource	Type of Information to be Protected	Level of Protection	Protected From Release To	Method of Protection	Protected for How Long?	Notes	Justification
Ptilinopus roseicapilla	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	RT
Gallinula chloropus guami	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	E
Acrocephalus luscini	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	E
Chelonia mydas	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	E
Ophioglossum nudicaule	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	RT
Partula gibba	Specific Location	Legally Protected	Release to public	Redacted	Indefinitely / Forever	Redact location information	E
