To: Alice Chung-MacCoubrey, KLMN Program Manager

From: Tom Garcia, Whiskeytown National Recreation Area Superintendent

Subject: Handling of protected natural resource data

The Superintendent of Whiskeytown National Recreation Area has identified resources that are rare, threatened, endangered, or commercially valuable. Information about these resources (the specific location, abundance, presence, or absence), if released to the public or other unapproved audiences, has been determined to potentially result in harm, theft, or destruction. To ensure data are appropriately protected in accordance with park management priorities, the following rules must be followed when disseminating natural resource information collected through inventory, monitoring, or other related scientific activities.

Type of Data	Level of Protection	Rules for Dissemination
Resource Data and Information		
Strix occidentalis caurina	Legally Protected	Specific locations of these species will not be released to the general public. Any such data collected will be redacted from publicly released datasets. This will be done indefinitely.
Desmocerus californicus dimorphus	Legally Protected	
Location Data and Information		

TOM GARCIA

Superintendent, Whiskeytown National Recreation Area

12/13/18

Date

Resource	Type of Information to be Protected	Level of Protection	Protected From Release To
Other Species (Specific Rules)
