Pu'uhonua o Hōnaunau National Historical Park

To: Ryan Monello, PACN Program Manager

From: Bill Thompson, Pu'uhonua o Hōnaunau National Historical Park Superintendent

Subject: Handling of protected natural resource data

The Superintendent of Pu'uhonua O Hōnaunau National Historical Park has identified resources that are rare, threatened, endangered, or commercially valuable. Information about these resources (the specific location, abundance, presence, or absence), if released to the public or other unapproved audiences, has been determined to potentially result in harm, theft, or destruction. To ensure data are appropriately protected in accordance with park management priorities, the following rules must be followed when disseminating natural resource information collected through inventory, monitoring, or other related scientific activities.

Type of Data		Level of Protection	Rules for Dissemination
Resource Data and Information			
	Specific T&E Species locations	Legally Protected	Specific locations of these species will not be released to the general public. Any such data collected will be redacted from publicly released datasets. This will be done indefinitely.
Location Data and Information			
	Anchialine Pools	Operationally Protected	Anchialine pools are a protected resource in Hawaii. Specific locations of anchialine pools will not be released to the public. Any such data collected will be redacted from the publicly released datasets. This will be done indefinitely.
	Cave entrances	Legally protected	Specific locations of cave entrances will not be released to the general public. Any such data collected will be redacted from publicly released datasets. This will be done indefinitely.
