MEMORANDUM

TO: Maggie MacCluskie, CAKN Program Manager

FROM: 
Greg Dudgeon, Superintendent

SUBJECT: Handling of protected natural resource data

The Superintendent of Yukon-Charley Rivers National Preserve has identified resources that are rare, threatened, endangered, or commercially valuable. Information about these resources (the specific location, abundance, presence, or absence), if released to the public or other unapproved audiences, has been determined to potentially result in harm, theft, or destruction. To ensure data are appropriately protected in accordance with park management priorities, the following rules must be followed when disseminating natural resource information collected through inventory, monitoring, or other related scientific activities.

Resource Data and Information		
	Locations of sensitive species	Operationally protected
		Specific locations of these species will not be released to the general public. Any such data will be redacted from publicly released datasets. This will be done indefinitely.

Table 1. Sensitive species.

Resource	Type of Information to be Protected	Level of Protections	Protected From Release To	Method of Protection	Protected for How Long?	Notes	Justification
Peregrine falcons	Eyrie location	Operational	Public	Not released	Indefinite		
Wolves	Denning location	Operational	Public	Not released	Indefinite		
Dall's sheep	Band location	Operational	Public	Not released	Indefinite
