Wanda DeWaard and I observed a skipper we hadn't seen before on Schoolhouse Gap Trail on Saturday May 16, 2020. I sent photos to BMONA and today received verification the it was a Pepper and Salt skipper. My first sighting of this butterfly. I don't know how many park records there are but attached are some documentation photos.

Log-Lat 35.629059 -83.728490. Let me know if you need additional information
