Washington, D.C. 20013-7127

Dear Readers,

The Massachusetts Historical Commission is pleased to present the ninth edition of *Historic Places for Historic Parties*. Through this popular publication, we are happy to provide the public with information on historically significant locations for special events of all kinds. This new edition provides expanded information on previously listed properties, as well as many new listings. All listings in the publication include information about accessibility.

The Massachusetts Historical Commission was established by the legislature in 1963 to identify, evaluate, and protect significant historic properties in the Commonwealth. These properties are not only unique settings for special events, but are also vital parts of our diverse cultural landscape. Private event rentals are an important source of revenue for historic properties, as they help to provide the necessary funds to preserve and maintain these structures.

The availability of historic properties for various functions makes the rich heritage of Massachusetts accessible to the public. It is with great pleasure that we offer this resource as a means of promoting awareness of the availability of these remarkable properties for event rentals.

The information contained herein is collected by means of questionnaires and phone interviews, and has not been fully verified through site visits. If you encounter information that is inaccurate or outdated, please notify our office. Likewise, if you know of a historic property available for function rentals that is not currently listed, please contact us. Should you have questions regarding the information included here, we encourage you to call these establishments directly.

We hope you find this publication useful as you consider historic properties for your important function. Thank you for your support of historic preservation in Massachusetts.

Sincerely,

William Francis Galvin
Secretary of the Commonwealth
Chairman, Massachusetts Historical Commission

Brona Simon
Executive Director
Massachusetts Historical Commission

Key To Using *Historic Places for Historic Parties*

Historic Places for Historic Parties is arranged alphabetically by town. The address, description, and contact information for each facility is provided. The capacity listed for each site is based on indoor seating, although patio or garden space figures are noted occasionally.

The seated dinner capacity is based on large tables for 8–10 people. A buffet reception is based on a buffet (either in the same room as the dinner tables or in an adjacent room) with guests seated at large tables. An “hors d’oeuvres reception” assumes that everyone is standing with possibly a few cocktail tables.

Facilities with outdoor function space are noted and briefly described. In addition, establishments that offer weekday or evening meeting spaces, as well as other special services, are noted.

Facility accessibility is noted as “Handicapped accessible” for full access, or “Limited handicapped accessibility” for venues with varying access. If accessibility is not listed as part of a venue description, that particular venue is inaccessible. Please call the establishments to receive a full, detailed description of the services provided before making arrangements.

Important:

The Massachusetts Historical Commission is a state agency and does not own or have jurisdiction over any of the properties listed in this booklet. The MHC offers this publication as a public service and does not benefit from including the listed properties or venues. MHC does not warrant or endorse the policies or actions of the listed establishments.
