

Fagalele Old Boys School Vegetation Removal Project Photo Inventory (SHPO 09 AS 254)

(Bolded pictures are those that are attached to the reference)

FAGALELE_BEFORE_PICTURES

- Vegetation in the mid-ground and background; foreground is grass (DSC01614)
- Vegetation in the mid-ground and background; foreground is grass (DSC01615)
- Vegetation in the mid-ground and background; foreground is grass (DSC01616)
- **Vegetation in the mid-ground and background (DSC01617)**
- Vegetation covering a concrete structure in the mid-ground, with only an outside corner visible; in the foreground is vegetation roughly six inches taller than the grass beside (DSC01618)
- Vegetation covering a concrete structure in the mid-ground, with only the bottom of the structure visible (DSC01619)
- Vegetation covering a concrete structure in the mid-ground, with only the bottom of the structure visible (DSC01620)
- Vegetation covering a concrete structure in the mid-ground, with only the bottom of the structure visible (DSC01621)
- Vegetation covering a concrete structure in the mid-ground, with only the bottom of the structure visible (DSC01622)
- Another angle of vegetation covering a concrete structure in the mid-ground; less of the building is visible in this picture (DSC01623)
- Another angle of vegetation covering a concrete structure in the mid-ground; less of the building is visible in this picture (DSC01624)
- **Vegetation covering a concrete structure; what might be two openings are somewhat visible behind the leaves and vines (DSC01625)**
- A concrete structure covered in vegetation, three door-like openings visible on the wall facing the camera; the left side of the frame in particular is covered in thick vegetation (DSC01626)
- Thick vegetation in the mid-ground and background; a concrete structure is visible in the right side of the frame (DSC01627)
- A concrete structure covered in vegetation, two door-like openings visible on the wall facing the camera; the left side of the frame in particular is covered in thick vegetation (DSC01628)
- Thick vegetation covering a concrete wall in the middle and right side of frame (DSC01629)
- A concrete wall in a forest with vines and leaves growing over the wall (DSC01630)
- A concrete wall with two-window-like openings in a forest with vines and leaves growing over the wall; the lighting is very dark in this picture (DSC01631)
- A concrete wall with a door-like opening in a forest with vines and leaves growing over the wall (DSC01632)
- A concrete wall with a door-like opening in a forest with vines and leaves growing over the wall; it is zoomed out from the last picture (DSC01633)
- A concrete wall with a door-like opening on the left side of the wall in a forest with a vine growing on the right side of the wall (DSC01634)
- A close up of the wall above a door-like opening in a forest; there are some vines growing on the wall and the ceiling is missing, leaving the space open to the sky (DSC01635)
- Part of a concrete building in a forest, painted white with a light blue trim at the top of the walls; there is a corrugated metal roof at the top right of the picture; there are two door-like

openings at the corner at the right side of the room; there are some vines growing on the walls (DSC01636)

- A concrete wall with two door-like openings and a window-like opening between them in a forest; there is a rusted corrugated roof bent and tilting towards the center (DSC01637)
- A concrete wall with two door-like openings (the opening on the left approximately a foot lower than the opening on the right) in a forest with vines and leaves growing over the wall (DSC01638)
- The inside of a concrete building in a forest, painted white with a light blue trim at the top of the walls, with a door-like opening at the far right of the wall directly in front of the camera; there is a rusted metal roof bent and tilting toward the center; the walls are covered in leaves and vines, particularly the wall at the right side of the frame (DSC01639)
- **The corner of a concrete building in a forest; there are some vines and leaves growing on the wall; the corrugated metal roof has fallen into the building at the right side of the frame (DSC01640)**
- A concrete wall with two door-like openings and a small window-like opening to the right of them at a forest; there are some vines and leaves growing on the walls (DSC01641)
- The corner of a concrete building in a forest with two door-like openings (one of the far left of the wall in front of the camera and one at the center of the wall at the right side of the frame); there are some vines and leaves growing on the walls; the corrugated metal roof has fallen into the building at the left side of the frame (DSC01642)
- The corrugated metal roof of a build that has fallen and is against a concrete wall in a forest (DSC01643)
- A concrete wall with two door-like openings in a forest; there are vines and leaves growing on the wall (DSC01644)
- A concrete wall with two door-like openings in a forest; there is vegetation around the wall (DSC01645)
- A concrete wall with three door-like openings and a small window-like opening to the left of them in a forest; in the center door-like opening a corrugated metal roof is visible, having fallen into the building (DSC01646)
- A concrete wall with three door-like openings and a small window-like opening to the left of them in a forest; in the center door-like opening a corrugated metal roof is visible, having fallen into the building (DSC01647)
- The corner of a concrete building with a door-like structure in a forest; there is a low concrete structure at the right edge of the frame (DSC01648)
- **Vegetation covering a concrete wall in the mid-ground (DSC01649)**
- The corner of a concrete building in a forest, mostly covered by vegetation (DSC01650)
- The corner of a concrete building in a forest, mostly covered by vegetation; it is zoomed in from the last picture (DSC01651)
- Part of a concrete wall in a forest covered by vegetation (DSC01652)
- Part of a concrete wall in a forest covered by vegetation (DSC01653)
- A concrete wall in a forest with a lower concrete wall at the left edge of the frame; there are three small trees in the center of the frame (DSC01654)
- A concrete wall in a forest covered with vines and leaves (DSC01655)

- Part of a concrete wall in a forest; the trunks of three small trees are against the wall (DSC01656)
- The inside of a concrete building with three door-like openings on the wall directly across from the camera in a forest; there are vines and leaves against the walls and vegetation inside the building (DSC01657)
- The inside of a concrete building with two door-like openings on the wall directly across from the camera in a forest (DSC01658)
- The corner of a concrete building in a forest with two door-like openings; there are vines and leaves growing on the wall; the camera is angled upwards towards the open space where the ceiling should be (DSC01659)
- A concrete wall with a door-like opening at the left side of the wall; there are some leaves and vines growing on the wall (DSC01660)
- The inside of a concrete building with a door-like opening on the wall directly across from the camera in a forest (DSC01661)
- The inside of a concrete building with a door-like opening on the wall directly across from the camera in a forest (DSC01662)
- **A concrete wall with a door-like opening in a forest; through that door-like opening, there seems to be another door-like opening that opens into another room (DSC01663)**
- A concrete wall with a door-like opening in a forest; there are some leaves and vines growing on the wall (DSC01664)
- A concrete wall with a door-like opening in a forest; there are some leaves and vines growing on the wall (DSC01665)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with one door-like opening on the left wall, one door-like opening on the wall directly in front of the camera, and one door-like opening on the right wall (DSC01666)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with one door-like opening on the wall directly in front of the camera and one door-like opening on the right wall (DSC01667)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with one door-like opening on the left wall, one door-like opening on the wall directly in front of the camera, and one door-like opening on the right wall (DSC01668)
- The inside of a concrete building in a forest with two door-like openings on the wall directly in front of the camera (DSC01669)
- **The corner of a concrete building in a forest with one door-like opening on the left wall and one door-like opening on the right wall; there are some leaves and vines growing on the wall (DSC01670)**
- The corner of a concrete building in a forest with one door-like opening on the right wall; there are some leaves and vines growing on the wall (DSC01671)
- The inside of a concrete building in a forest with one door-like opening on the wall directly in front of the camera and one door-like opening at the right edge of the frame (DSC01672)
- A concrete wall with a door-like opening at the right side of the frame in a forest (DSC01673)
- A concrete wall with two window-like openings in a forest (DSC01674)

- The inside of a concrete building in a forest with a door-like opening on the left wall and a window-like opening on the right wall; there are some leaves and vines growing on the wall (DSC01675)
- A concrete wall with a door-like opening at the right side of the frame in a forest (DSC01676)
- The corner of a concrete building in a forest with one door-like opening on the right wall; there are some leaves and vines growing on the wall (DSC01677)
- The corner of a concrete building with two window-like openings on the left wall and one door-like opening on the right wall in a forest (DSC01678)
- The corner of a concrete building with two window-like openings on the right wall in a forest (DSC01679)
- The inside of a concrete building in a forest with a window-like opening on the wall directly in front of the camera; there are vines and leaves growing on the wall (DSC01680)
- The inside of a concrete building in a forest with a door-like opening on the wall directly in front of the camera; there are vines and leaves growing on the wall (DSC01681)
- The inside of a concrete building in a forest with a door-like opening on the wall directly in front of the camera; there are vines and leaves growing on the wall (DSC01682)
- **The inside of a concrete building in a forest with a door-like opening on the wall directly in front of the camera; there are vines and leaves growing on the wall (DSC01683)**
- A concrete wall with two door-like openings in a forest; through the right door-like opening, there seems to be another door-like opening; there are vines and leaves growing on the wall (DSC01684)
- The corner of a concrete building in a forest with one door-like opening on the wall directly in front of the camera and a door-like opening on the right wall; through the left door-like opening, there seems to be another door-like opening; there are vines and leaves growing on the wall (DSC01685)
- The corner of a concrete building in a forest with a door-like opening on the left wall and a large window-like opening to the right of it; there is a concrete platform against the right wall; there are vines and leaves growing on the wall (DSC01686)
- A concrete wall in a forest with a door-like opening and a large window-like opening to the right of it; there may be a second door-like opening on the left edge of the frame; there is a concrete platform in the bottom right corner; there are vines and leaves growing on the wall (DSC01687)
- The corner of a concrete building in a forest with a large window-like opening and two door-like openings to the right of it; there are vines and leaves growing on the wall (DSC01688)
- The corner of a concrete building in a forest; there is a large door-like opening in the corner on both walls with a column dividing the opening in half (DSC01689)
- The corner of a concrete building in a forest with a large window-like opening and a door-like opening to the right of it, both on the right wall; there are vines and leaves growing on the wall (DSC01690)
- The corner of a concrete building in a forest with a large window-like opening and a door-like opening to the right of it, both on the right wall; there are vines and leaves growing on the wall (DSC01691)
- The corner of a concrete building in a forest; there is a large door-like opening in the corner on both walls with a column dividing the opening in half (DSC01692)

- A concrete wall in a forest with a door-like opening; the opening is obscured with the vines and leaves growing on the wall (DSC01693)
- The corner of a concrete building in a forest with two door-like openings on the right wall and a concrete platform against the left wall; there are leaves and vines growing on the wall (DSC01694)
- The corner of a concrete building in a forest with a window-like opening on the left wall and a door-like opening on the right wall (DSC01695)
- The corner of a concrete building in a forest with a door-like opening on the wall directly in front of the camera (DSC01696)
- A concrete wall with a door-like opening in the forest (DSC01697)
- **The corner of a concrete building in a forest with a window-like opening on the right wall; there are vines growing on the left wall (DSC01698)**
- The corner of a concrete building in a forest with a door-like opening on the left wall and another door-like opening on the right way; there are vines and leaves growing on the wall (DSC01699)
- The corner of a concrete building in a forest with a door-like opening on the left wall; there are vines growing in the corner and on the right wall (DSC01700)
- The inside of a concrete building in a forest with two door-like openings on the wall directly in front of the camera; there are vines and leaves growing on the wall (DSC01701)
- The corner of a concrete building in a forest with a door-like opening on the left wall and a door-like opening on the right wall; there are vines and leaves growing on the wall (DSC01702)
- A concrete wall in a forest with one small window-like opening and three door-like openings to the right of it; through the right most door-like opening, there seems to be another door-like opening (DSC01703)
- A concrete wall in a forest at the left side of the frame with three door-like openings (DSC01704)
- A concrete wall in a forest at the right side of the frame with three door-like openings (DSC01705)
- A close-up of what looks like the top of an opening in a concrete building, showing vines (or possibly the root system of a tree) in a forest (DSC01706)
- A concrete wall in a forest, with three or four door-like openings; the wall is covered heavily by vegetation (DSC01707)
- A concrete wall in a forest, with three or four door-like openings; the wall is covered heavily by vegetation; there is a tree at the center-left of the wall (DSC01708)
- **A concrete wall in a forest with one door-like opening at the right side of the frame; the wall, particularly the part of the wall furthest from the camera, is covered heavily by vines and leaves (DSC01709)**
- A concrete wall in a forest with two door-like opening at the left side of the frame; the wall, particularly the part of the wall furthest from the camera, is covered heavily by vines and leaves (DSC01710)
- A concrete wall in a forest at the right side of the frame; the wall is covered heavily by vines and leaves (DSC01711)
- A concrete wall in a forest with one door-like opening; there are vines and leaves growing on the wall (DSC01712)

- A concrete wall in a forest with one small window-like opening and a door-like opening to the right of it; there are vines and leaves growing on the wall (DSC01713)
- **Heavy vegetation, including several trees, in a forest; at the center-left of the frame, a concrete wall can be seen behind the vegetation (DSC01714)**

After Photos Fagalele

- **A two-story concrete building in the mid- to background in a forest with several trees in front of the building (DSC01749)**
- A two-story concrete building in the mid- to background in a forest with several trees in front of the building; it is zoomed in from the last picture (DSC01750)
- A two-story concrete building in the mid- to background in a forest with several trees in front of the building; it is zoomed in from the last picture (DSC01751)
- The side and corner of a concrete building at the right side of the frame with several door-like openings; the building is in a forest (DSC01752)
- The side and corner of a concrete building at the left side of the frame with several door-like openings; the building is in a forest; there is some debris (a ladder, a gas can, etc.) in the first opening (DSC01753)
- The side and corner of a concrete building at the right side of the frame with several door-like openings; the building is in a forest (DSC01754)
- The side and corner of a concrete building at the left side of the frame with several door-like openings; the building is in a forest; there is some debris (a ladder, a gas can, etc.) in the first opening (DSC01755)
- The side and corner of a concrete building at the left side of the frame with a door-like opening near the middle of the frame; there is greenery on the building (DSC01756)
- **The inside of a concrete building in a forest; inside of the building is a pile of leaves and wood (DSC01757)**
- The corner of a concrete building in a forest; there is a pile of leaves and branches at the bottom right corner of the frame (DSC01758)
- **The inside of a concrete building in a forest; there are two door-like openings and one large window-like opening between them; at the top of the frame is a rusted corrugated metal roof, bent and tilting towards the center (DSC01759)**
- The inside of a concrete building in a forest; there are two door-like openings in the center and another door-like opening on the wall at the right side of the frame; there are vines on the walls (DSC01760)
- A concrete building in the mid-ground in a forest with several trees in front of the building (DSC01761)
- A concrete building in the mid-ground in a forest with several trees in front of the building; it is zoomed in from the last picture (DSC01762)
- A two-story concrete building in the mid- to background in a forest with several trees in front of the building (DSC01763)
- A two-story concrete building in the mid- to background in a forest with several trees in front of the building; it is zoomed in from the last picture (DSC01764)

After Photos Fagalele 2

- A concrete building in a forest, placed on a concrete platform; there seems to be four large window-like openings and one door-like opening in the center; there are several trees in front of the building (DSC01827)
- A concrete building in a forest, placed on a concrete platform with steps on the left side of the platform; there seems two door-like opening in the center; there are several trees in front of the building (DSC01828)
- **A concrete building in a forest, placed on a concrete platform, with the camera facing the corner of the building; there seems to be about five window-like openings and two door-like openings; there are several trees in front of the building blocking the view of parts of the building (DSC01829)**
- A concrete building in a forest, placed on a concrete platform; there seems to be five door-like openings and at least three large window-like openings; there are several trees in front of the building blocking the view of parts of the building (DSC01830)
- **A concrete building in a forest, placed on a concrete platform; there seems to be four large window-like openings and five door-like opening in the center; through the leftmost door-like opening, there seems to be another door-like opening through which the forest is visible; there are several trees in front of the building (DSC01831)**
- A concrete building in a forest, placed on a concrete platform; there seems to be four large window-like openings and five door-like opening in the center; there are several trees in front of the building; through the leftmost door-like opening, there seems to be another door-like opening through which the forest is visible (DSC01832)
- A concrete building in a forest, placed on a concrete platform; there seems to be four large window-like openings and five door-like opening in the center; through the middle three door-like openings, there seems to be other door-like openings through which the forest is visible; there are several trees in front of the building (DSC01833)
- A concrete building in a forest, placed on a concrete platform, with the camera facing the corner of the building; there seems to be about seven window-like openings and two door-like openings; there are several trees and bushes in front of the building blocking the view of parts of the building (DSC01834)
- A concrete building in a forest, placed on a concrete platform, with the camera facing the corner of the building; there seems to be about seven window-like openings and two door-like openings; there are several trees and bushes in front of the building blocking the view of parts of the building (DSC01835)
- A concrete building in a forest, placed on a concrete platform; there are two door-like openings and a large window-like opening to the right of them; through the second door-like opening, there seems to be another door-like opening through which a concrete wall is visible; there are several trees on either edge of the picture (DSC01836)
- **A concrete building in a forest, placed on a concrete platform; there are two door-like openings; through the second door-like opening, there seems to be another door-like opening through which a concrete wall is visible; there are several trees in the background (DSC01837)**
- A concrete building in a forest, placed on a concrete platform; there are three door-like openings and a large window-like opening between the second and third door-like openings; through the second and third door-like opening, there seems to be another door-like opening

through which concrete walls are visible; there are several trees on the right side of the picture (DSC01838)

- A concrete building in a forest, placed on a concrete platform; there are four door-like openings and two large window-like openings, one between the second and third openings and one between third and fourth openings; there are several trees in front of the building blocking the view of parts of the building (DSC01839)
- The inside of a concrete building in a forest with a window-like opening on the left wall and a door-like opening on the right wall; there is a vine or grouping of vines in the corner between the wall directly across from the camera and the right wall (DSC01840)
- **The inside of a concrete building in a forest with two window-like openings on the wall directly across from the camera; through the openings, the forest and water beyond it are visible; there is a vine or grouping of vines in the corner between the left wall and the wall directly across from the camera (DSC01841)**
- The inside of a concrete building in a forest with a door-like opening on the wall directly across from the camera; through the windows, the forest is visible; there is a vine or grouping of vines in the corner between the wall directly across from the camera and the right wall (DSC01842)
- The inside of a concrete building in a forest with two door-like openings and a large window-like opening between the openings on the wall directly across from the camera; through the openings, the forest is visible (DSC01843)
- The inside of a concrete building in a forest, painted white with a light blue trim at the top of the wall; there are three door-like openings, one on each of the three walls; through the openings on the left and right walls, the forest is somewhat visible (DSC01844)
- **The inside of a concrete building in a forest with three door-like openings, one opening on the left wall and two openings on the wall directly across from the camera; through the openings, concrete walls are visible (DSC01845)**
- A concrete wall in a forest with three door-like openings with a door-like opening; through the openings, concrete walls and what looks like another door-like opening in both door-like openings are visible (DSC01846)
- The inside of a concrete building in a forest, painted white with a light blue trim at the top of the wall; there are three door-like openings, one on each of the three walls; through the openings on the right wall, the forest is somewhat visible (DSC01847)
- The inside of a concrete building in a forest with a window-like opening on the left window and a door-like opening on the right window; on the wall directly across the camera has vines and/or the roots of a tree growing on it (DSC01848)
- A concrete wall in a forest with a door-like opening and a large window-like opening to the right of it; through the openings, the forest is visible; there is a corrugated metal roof bent and tilting from the top left corner of the building, under which are thick vines (DSC01849)
- The inside of a concrete building in a forest with a large window-like opening on the left wall, a door-like opening on the wall directly across the camera, and another door-like opening on the right wall; there are some vines growing out from the right wall (DSC01850)
- A corner of a concrete building in a forest with two door-like openings and a small window-like opening to the right of them; through the right door-like opening, there seems to be another door-like opening, through which the forest is visible (DSC01851)

- The inside of a concrete building in a forest with three door-like openings on the wall directly across from the camera and one door-like opening on the right wall; on the left wall, there may be two door-like openings; in the center of the space is a depressed rectangular section that is filled with dirt; through the first door-like opening, there seems to be another door-like opening through which the forest and the water behind it is visible (DSC01852)
- The corner of a concrete building in a forest; both the left and right walls have two door-like openings; most of the floor space is taken up by a depressed rectangular section that is filled with dirt; through the first door-like opening on the right wall, there seems to be another door-like opening, through which the forest is visible (DSC01853)
- The inside of a concrete building in a forest with one door-like opening on the left wall, three door-like openings on the wall directly across from the camera and two door-like opening on the right wall; in the center of the space is a depressed rectangular section that is filled with dirt; through three door-like openings on the wall directly across from the camera, there seems to be another door-like opening through which the forest and the water behind it is visible (DSC01854)
- A concrete wall in a forest; there are vines or tree roots emanating from the top left of the wall; to the left of that wall is a lower wall made of brown bricks; there is another wall in the background with two door-like openings (DSC01855)
- A concrete wall in a forest; there are vines or tree roots emanating from the top left of the wall; to the left of that wall is a cuboid structure made of brown bricks (DSC01856)
- A concrete wall in a forest; there are vines or tree roots emanating from the top left of the wall; to the left of that wall is a cuboid structure made of brown bricks; there is another wall in the background with a door-like opening (DSC01857)
- A concrete building in a forest, placed on a concrete platform with one small window-like opening; in front of the concrete platform is a cuboid structure made of concrete at the left side of the picture (DSC01858)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with two door-like opening on the wall directly in front of the camera and one door-like opening on the right wall (DSC01859)
- A concrete wall in a forest with a door-like opening at the left side of the frame with vines growing over the opening; through the door-like opening, there seems to be another door-like opening through which the forest is visible (DSC01860)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with a door-like opening on the wall directly in front of the camera and a door-like opening on the right wall; there are vines growing above the openings (DSC01861)
- **A close-up of above an opening; it appears that vines or tree roots have pushed through the concrete and it is chipping away (DSC01862)**
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with a door-like opening on the left wall, a door-like opening on the wall directly in front of the camera, and a door-like opening on the right wall (DSC01863)
- The inside of a concrete building in a forest (what seems like a hallway due to its narrowness) with a door-like opening on the left wall, a door-like opening on the wall directly in front of the camera, and a door-like opening on the right wall (DSC01864)

- The inside of a concrete building in a forest with a door-like opening on the left wall, a door-like opening on the wall directly in front of the camera, and a door-like opening on the right wall (DSC01865)
- A concrete wall in a forest with a door-like opening on the right side of the frame; through the door-like opening, there seems to be another door-like opening through which the forest is visible (DSC01866)
- A concrete wall in a forest with a door-like opening on the right side of the frame; through the door-like opening, there seems to be another door-like opening through which the forest is visible (DSC01867)
- The inside of a concrete building in a forest with a door-like opening on the left wall, a door-like opening on the wall directly in front of the camera, and a door-like opening on the right wall (DSC01868)
- The corner of a concrete building in a forest with two large window-like openings on the left wall and a door-like opening on the right wall (DSC01869)
- The inside of a concrete building in a forest with a door-like opening on the left wall and a large window-like opening on the right wall; in the corner of the wall directly across from the camera and the right wall are thick vines or tree roots emanating from the top corner (DSC01870)
- **The inside of a concrete building in a forest with a door-like opening on the wall directly across from the camera at the right side of the frame; through the door-like opening, there seems to be another door-like opening on the right wall (DSC01871)**
- The inside of a concrete building in a forest with a door-like opening on the wall directly across from the camera at the right side of the frame; through the door-like opening, there seems to be another door-like opening on the right wall (DSC01872)
- The inside of a concrete building in a forest with two large window-like openings on the wall directly across from the camera (DSC01873)
- The inside of a concrete building in a forest with two large window-like openings on the left wall, one small window-like opening on the wall directly across from the camera, and two door-like openings on the right; in the midground, against the wall directly across from the camera, is a low concrete platform (DSC01874)
- A concrete wall in a forest with three window-like openings and one door-like opening between the first and second window-like openings; the corner of a low concrete platform is visible at the right edge of the frame (DSC01875)
- The inside of a concrete building in a forest with a door-like opening on the left wall, a door-like opening on the wall directly across from the camera, and two window-like openings and a door-like opening between them (DSC01876)
- The inside of a concrete building with a low concrete platform against the left wall and two door-like openings on the right wall; visible through the second door-like opening, there is a small courtyard-like space with a depressed space filled with dirt and beyond is another concrete wall with a window-like opening and a door-like opening (DSC01877)
- The inside of a concrete building with two door-like openings on the wall directly across from the camera and a door-like opening on the right wall; visible through the first door-like opening, there is a small courtyard-like space with a depressed space filled with dirt and beyond is another concrete wall with two door-like openings (DSC01878)

- A corner of a concrete building on a concrete platform on the left side of the frame with four window-like openings and three door-like openings between the second and third window-like openings (DSC01879)
- A corner of a concrete building on a concrete platform on the right side of the frame with what looks like three door-like openings with a window-like opening on the far side of the wall and between the closest two door-like openings (DSC01880)
