Natural Resource Stewardship and Science
Fort Collins, Colorado

The National Park Service, Natural Resource Stewardship and Science office in Fort Collins, Colorado, publishes a range of reports that address natural resource topics. These reports are of interest and applicability to a broad audience in the National Park Service and others in natural resource management, including scientists, conservation and environmental constituencies, and the public.

The Natural Resource Data Series is intended for the timely release of basic data sets and data summaries. Care has been taken to assure accuracy of raw data values, but a thorough analysis and interpretation of the data has not been completed. Consequently, the initial analyses of data in this report are provisional and subject to change.

All manuscripts in the series receive the appropriate level of peer review to ensure that the information is scientifically credible, technically accurate, appropriately written for the intended audience, and designed and published in a professional manner.

This report received informal peer review by subject-matter experts who were not directly involved in the collection, analysis, or reporting of the data. Data in this report were collected and analyzed using methods based on established, peer-reviewed protocols and were analyzed and interpreted within the guidelines of the protocols.

Views, statements, findings, conclusions, recommendations, and data in this report do not necessarily reflect views and policies of the National Park Service, U.S. Department of the Interior. Mention of trade names or commercial products does not constitute endorsement or recommendation for use by the U.S. Government.

This report is available in digital format from the NPS Visitor Use Statistics website and the Natural Resource Publications Management website. To receive this report in a format that is optimized to be accessible using screen readers for the visually or cognitively impaired, please email irma@nps.gov.

Introduction and Summary

In 2020, National Park Service (NPS) recreation visits dropped to a 40-year low with 237,064,332 recreation visits recorded across 389 reporting parks. This is a decrease of over 90 million recreation visits (27.6%) from 2019. One must go back to 1980 (220 million recreation visits in 277 reporting parks) to see lower visitation. Recreation visitor hours (1.05 billion) and overnight stays (8 million) were also down compared to recent years. The decrease is attributed largely to temporary park closures and restrictions implemented in response to the coronavirus pandemic. Although overall NPS visitation dropped, open spaces at parks provided safe ways for visitors to recreate and some parks still experienced record crowds and welcomed new visitors.

The pandemic affected operations at nearly every park. At the peak of closures for the pandemic, 66 parks in the National Park System were fully closed for two months or more. Parks in designated Urban Areas (see Definitions) saw a 51.5 million decrease in recreation visits from 2019. For parks that reported visitation in both 2019 and 2020 (385 of the 389 parks reporting in 2020), 323 parks had fewer recreation visits in 2020 and 60 parks had more recreation visits. Modified operations in 2020 also prevented many parks from collecting visitor use information in the usual way. Data users are advised that methods for collecting and estimating visitor use statistics at many parks had to be altered for 2020, and that official statistics reported here may be more approximate than usual.

Other factors also affected visitation, but impacts were local to a few parks or regional in nature instead of systemwide. Several parks on the west coast and in the intermountain west were impacted by an extremely active and destructive wildland fire season. Parks and communities in California, Colorado, Oregon, and Washington experienced intermittent evacuations, area closures and heavy smoke. Three hurricanes – Hanna in July, Laura in August, and Sally in September – occasionally closed some park areas along the gulf coast. Also, some parks have lingering closures from hurricanes and wildland fires in previous years.

Despite the factors limiting visitation in 2020, fifteen parks set a record for recreation visits and five parks broke a record they set in 2019. See Appendix B for a listing of record-setting parks. Also, the NPS passed 15 billion accumulated recreation visits since data collection began in 1904. This milestone was passed sometime in August 2020. Four parks began reporting official visitor use statistics in 2020 and were responsible for an additional 331,185 recreation visits: Boston Harbor Islands NRA, Dwight D. Eisenhower MEM, Katahdin Woods and Waters NM, and Valles Caldera NPRES.

Several parks passed annual visitation milestones in 2020: Eugene O'Neill NHS passed 10,000 annual recreation visits for the first time, Niobrara NSR passed 100,000 annual recreation visits for the first time, and Pictured Rocks NL passed 1 million annual recreation visits for the first time. Other parks passed milestones for accumulated recreation visits including Paterson Great Falls NHP (2016-2020) passing 1 million total recreation visits, Canaveral NS (1976-2020) passing 50 million total recreation visits, Chattahoochee NRA (1980-2020) and Mount Rainier NP (1904-2020) each passing 100 million total recreation visits, and Cape Cod NS (1964-2020) passing 250 million total recreation visits.

In the pages that follow, a series of tables and figures display visitor use data for calendar year 2020. By documenting these visits across the National Park System, the NPS Statistical Abstract offers a historical record of visitor use in NPS units and provides NPS staff and partners with a useful tool for effective management and planning. In 2020, 389 of 423 NPS units collected and reported visitor use data; the remainder are unable to do so for a variety of reasons, such as administration by another agency, non-federal land ownership, or new parks that lack staff and facilities for management of visitor statistics.

The responsibility for compiling and summarizing visitor use statistics resides with the Social Science Program in the Environmental Quality Division, Natural Resource Stewardship and Science Directorate. The Program relies on the conscientious efforts of NPS field staff to count, record, and report visitor use. This system of collecting and analyzing monthly visitor use data is combined with continuous review and assessment of park counting procedures to ensure consistency and accuracy of data. Detailed, unit-specific instructions for the units that collect data are available on the NPS Visitor Use Statistics website (https://irma.nps.gov/STATS/).

In addition to this Abstract, the Social Science Program produces monthly visitation summaries and reports displaying trends in park visitation and changes in visitor patterns over time. These reports are available on the Visitor Use Statistics website. Additional reports prepared by the Social Science Program may be found on the NPS Social Science Program subject website (https://www.nps.gov/subjects/socialscience/index.htm).

2020 Visitor Use Data

The following tables and figures record visitor use data for units of the National Park System in 2020; some tables and figures compare those data to 2019. Endnotes that apply to multiple tables, definitions for terms, and abbreviations used in the tables can be found at the end of this document.

Recreation Visits by Type of Unit

Table 1 lists the number of recreation visits by type of unit in 2020. Of 423 units, 389 reported visitor use statistics (see pages 41-43 for a list of units that did not report visitor use). Designated national parks received the highest percentage of recreation visits (29%), followed by national recreation areas (20%), and national parkways (12%). The figures that follow show percentage of recreation visits by type of unit (Figure 1) and a comparison with 2019 by type of unit (Figure 2).

Table 1. 2020 Recreation Visits by Type of Unit

Units Administered by Type	Percent of Total Visits*	2020 Recreation Visits	Percent Change from 2019**	Units Reporting Visits	Units Administered
International Historic Site	<1%	6,914	-40.5%	1	1

Note. Miscellaneous includes those categories listed in Table 1 but not broken out in this figure: international historic site, national battlefield, national battlefield park, national lakeshore, national military park, national preserve, national reserve, national river, and national wild & scenic river

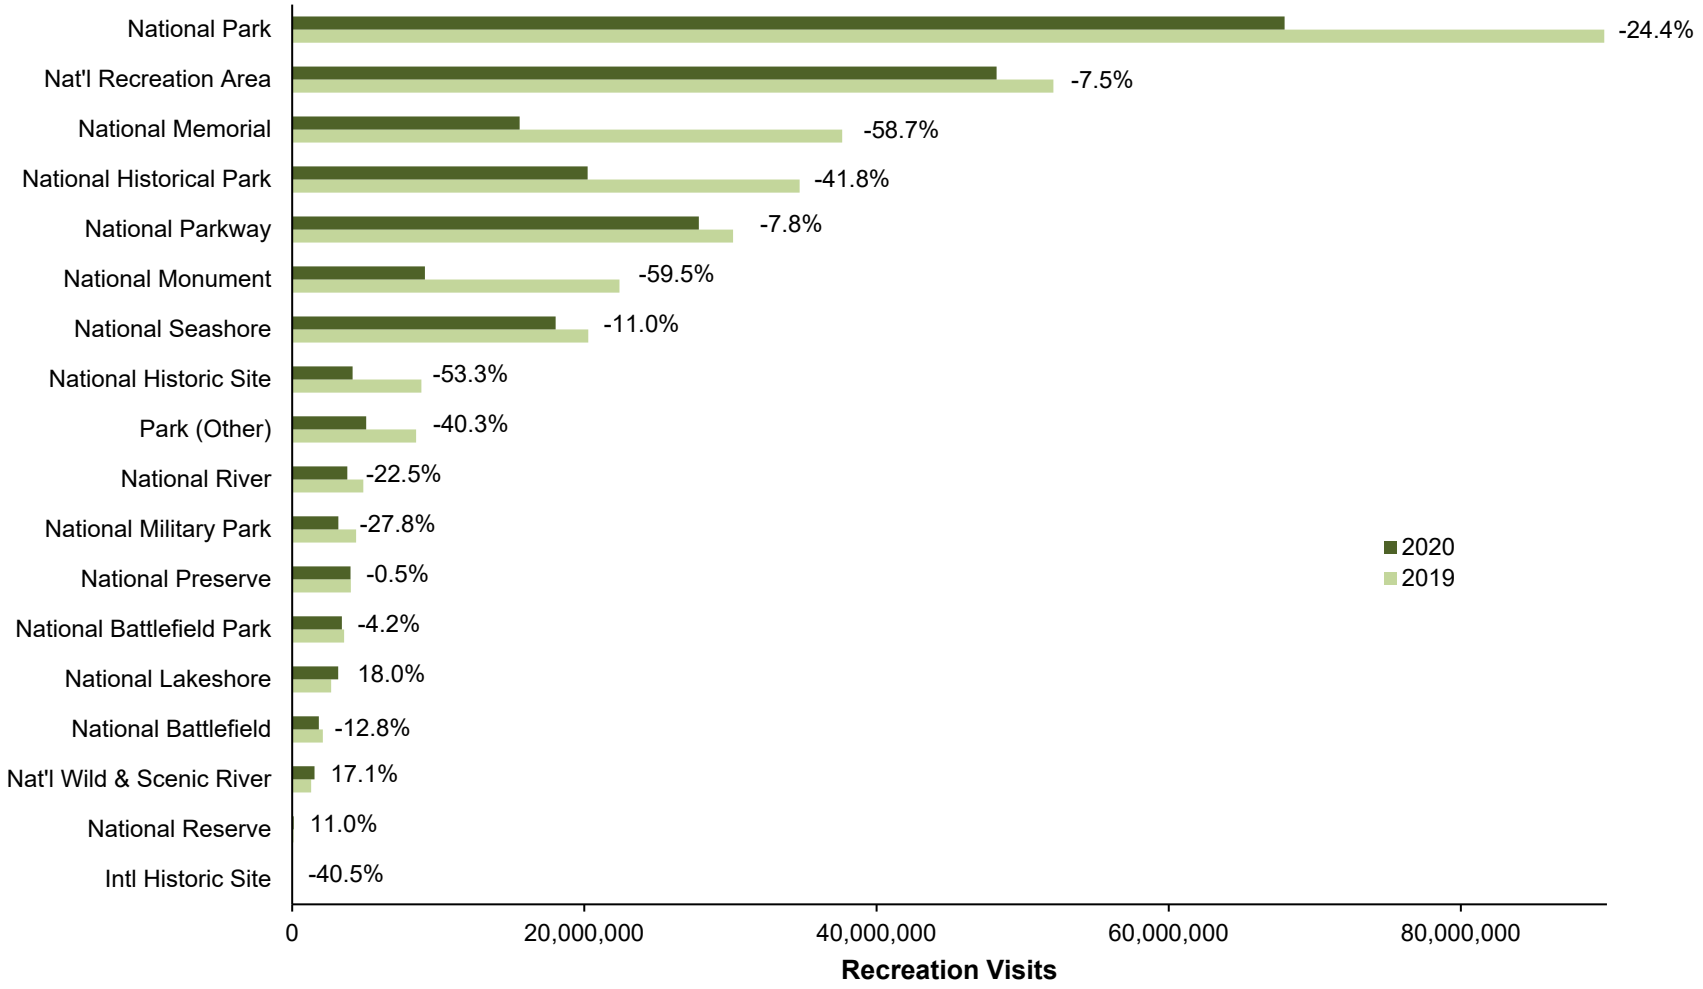

Figure 2: Recreation Visits by Type of Unit, 2019 and 2020
(Bar labels indicate percent change from 2019 to 2020)

Recreation Visits by State

Table 2 reports 2020 NPS recreation visits in each state, the District of Columbia, and the U.S. territories of American Samoa, Guam, Puerto Rico, and the U.S. Virgin Islands. The table also shows 2019 recreation visits and the percent change in recreation visits from 2019 to 2020. Figure 3 displays this change for each state and territory except for Delaware, which currently does not have a reporting NPS unit. Overall, the number of recreation visits is down 27.6% from 2019 (237,064,332 in 2020 compared to 327,516,619 in 2019).

Table 2. 2020 Recreation Visits by State and U.S. Territory Compared to 2019

State	Recreation Visits 2020*	Recreation Visits 2019*	Percent Change**
Alabama	1,279,753	1,219,216	5.0%
Alaska	406,688	3,218,301	-87.4%

*Sum of states does not equal NPS Total due to rounding.

**Percents by state do not add to total because each row is a separate percent change by state.

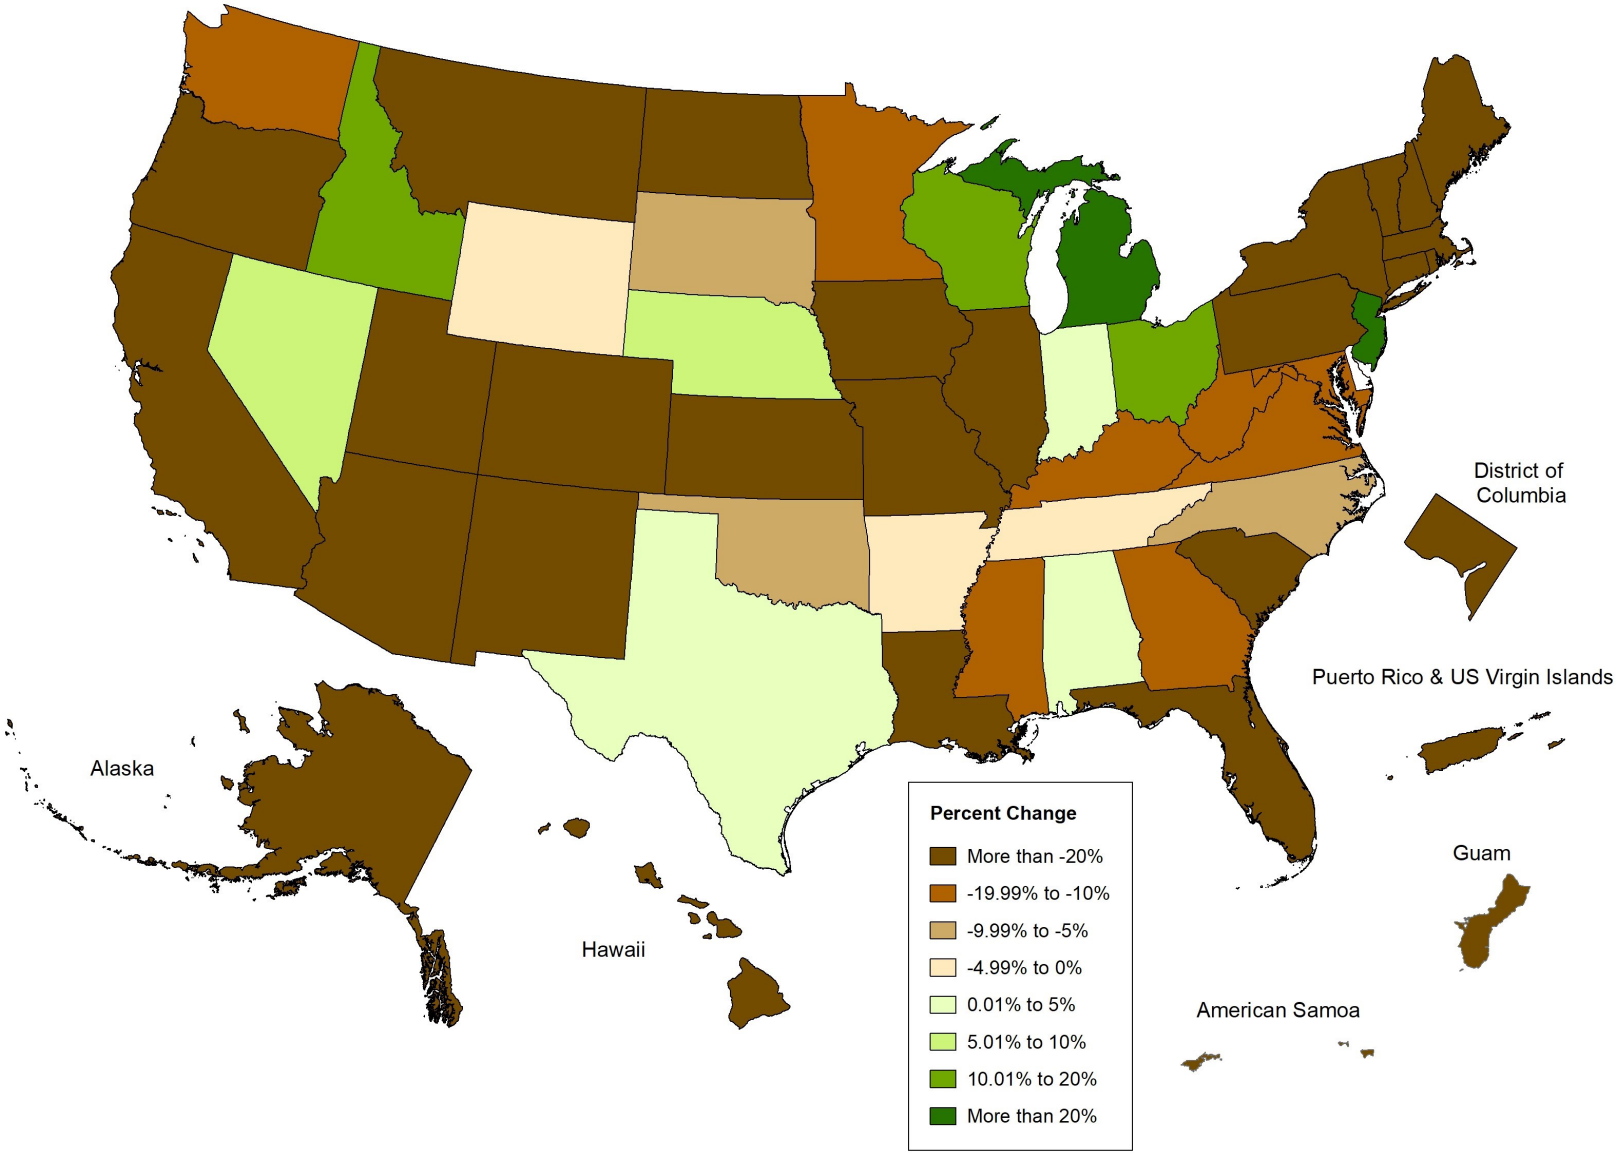

Figure 3: Percent Change of Recreation Visits by State or Territory, 2019 to 2020

Recreation Visits / Visitor Days by Population Center

Table 3 shows the number of recreation visits, visitor days, and change from the previous year for NPS units by population centers. Population centers are defined in the Definitions section at the end of the abstract. Figure 4 compares 2019 and 2020 recreation visits by population center. Recreation visits and visitor days decreased in all six population center types.

Table 3. 2020 Recreation Visits / Visitor Days and Change from 2019 by Population Center

Population Center	Recreation Visits	Percent Change**	Recreation Visitor Days	Percent Change**
Remote Area	1,629,686	-36.0%	464,971	-63.1%
Outlying Area	30,238,789	-23.4%	13,554,035	-36.1%
Suburban Area	37,756,666	-19.0%	9,764,287	-18.6%
Mixed Area	68,491,638	-6.2%	29,620,132	-9.0%

NPS Total	**237,064,332**	**-27.6%**	**87,912,712**	**-26.2%**

*Sum of population centers does not equal total due to rounding

**Percents by center do not add to total because each row is a separate percent change by center

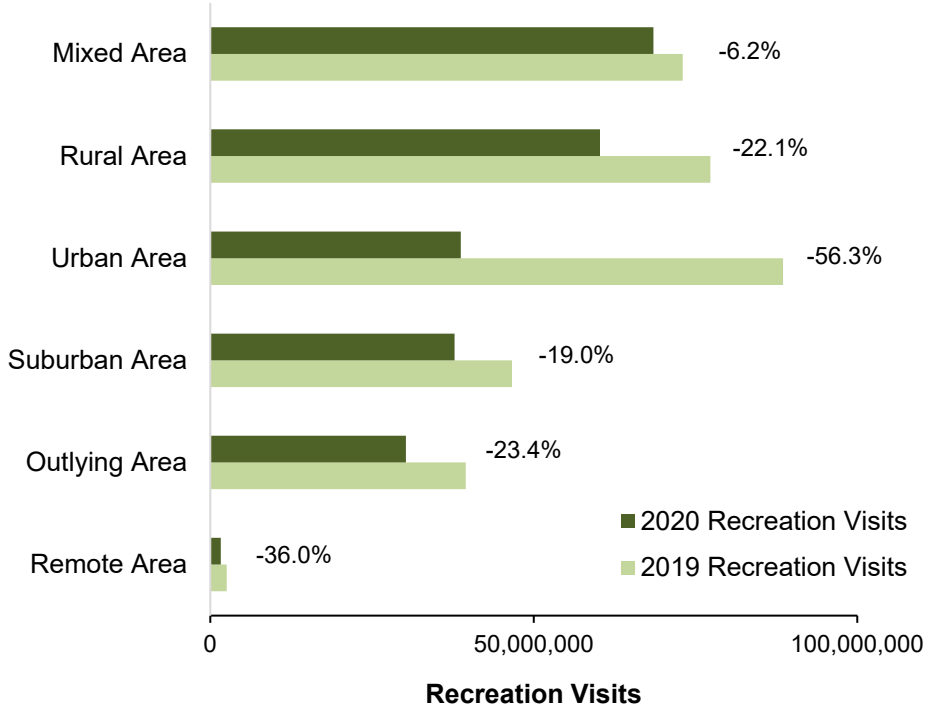

Figure 4. Recreation Visits by Population Center for 2019 and 2020

Recreation Visits / Visitor Days and Non-Recreation Visits / Visitor Days by Park

Table 4 is a complete record of recreation visits and visitor days for all NPS units reporting visitor use data. The table also shows non-recreation visits and visitor days which include through traffic (commuters), persons going to and from inholdings, tradespeople with business in the park, and government personnel (other than NPS employees) with business in the park. Both recreation visits and recreation visitor days were down from 2019 (27.6% and 26.2%, respectively). Non-recreation visits were down 12.4% and non-recreation visitor days were down 13.6% from 2019. Superscript references can be found in the Endnotes.

Table 4. 2020 Recreation Visits / Visitor Days and Non-Recreation Visits / Visitor Days and Percent Change from 2019 by Park

Average Recreation Visits per Day to NPS Units

Visitation to NPS units varies throughout the year. The service-wide average of visits per day, broken down by month, is shown in Figure 5. During a typical year, July has the highest visits per day and January has the lowest. In 2020, July followed the usual pattern and had the highest average visits per day at 1,066,071, but the month with the lowest average visits per day was April at 264,414. This is almost certainly due to spring travel restrictions and full and partial park closures related to the global coronavirus pandemic. Also atypical is May average visits per day at a level similar to those in January and December. Average visits per day were higher in January and February 2020 compared to 2019; all other months were down. January saw the highest percent increase over 2019 at 32%; April saw the greatest percent decrease from 2019 at -71.1%.

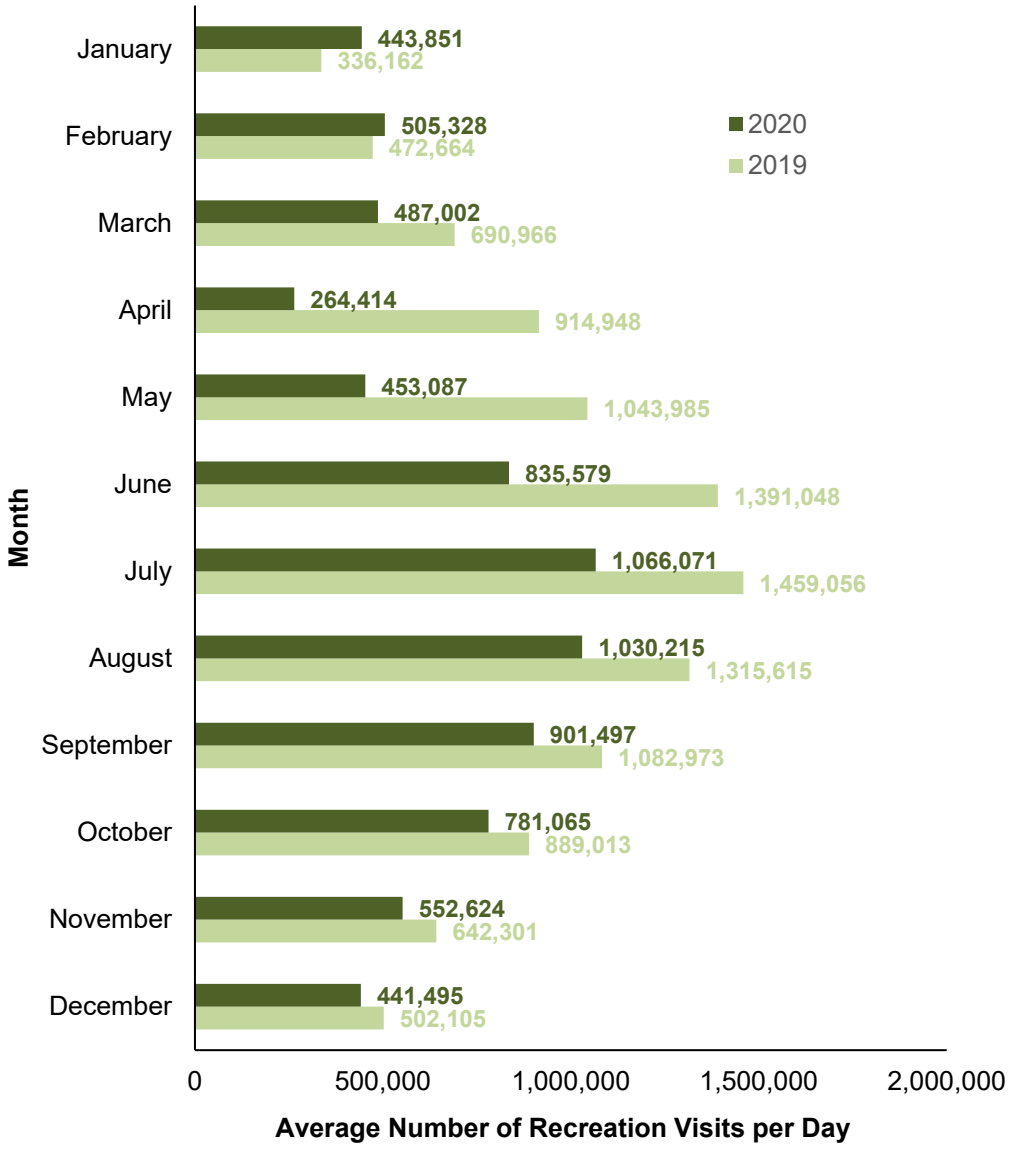

Figure 5. Average Number of Recreation Visits per Day to NPS Units by Month, 2019 and 2020

Overnight Stays

In addition to visits and visitor days, the National Park Service tracks the number of overnight stays; an overnight stay is defined as one night within a park by a visitor. One visitor staying 10 nights or 10 visitors staying one night apiece both equal 10 overnight stays. Table 5 shows the number of overnight stays by NPS unit in concession operated lodging, concession operated campgrounds, NPS campgrounds (separated by tent overnight stays and RV overnight stays), backcountry, and miscellaneous locations (any location or accommodation not otherwise defined such as sleeping aboard boats or stays in designated group campsites). The number of non-recreation overnight stays, such as leaseholders, line shacks for ranchers, and government personnel other than NPS employees, are also included. In 2020, NPS units recorded 8,039,768 overnight stays which is a large decrease from 2019 (42%). Figure 6 shows the trend for overnight stays by category for the most recent 25 years (1996 to 2020). Superscript references can be found in the Endnotes.

Affiliated and Non-Reporting Areas

Areas affiliated with, but not officially considered a unit of, the National Park Service do not report NPS visitor use statistics. Also, some NPS units were unable to report for a variety of reasons such as joint administration, non-federal land ownership, or new parks that lack staff and facilities for management of visitor statistics. Lists of affiliated and non-reporting areas are provided below. Superscript references can be found in the Endnotes.

Affiliated Areas

- Aleutian World War II National Historic Area
- American Memorial Park
- Benjamin Franklin National Memorial
- Chicago Portage National Historic Site
- Chimney Rock National Historic Site
- Fallen Timbers Battlefield and Fort Miamis National Historic Site
- Father Marquette National Memorial
- Gloria Dei (Old Swedes') Church National Historic Site
- Green Springs National Historic Landmark District
- Historic Camden Revolutionary War Site
- Ice Age National Scientific Reserve
- International Peace Garden
- Inupiat Heritage Center
- Jamestown National Historic Site
- Kate Mullany National Historic Site
- Lower East Side Tenement National Historic Site
- Natural Bridge State Park
- Oklahoma City National Memorial
- Parkers Crossroads Battlefield
- Pinelands National Reserve
- Red Hill Patrick Henry National Memorial
- Roosevelt Campobello International Park
- Thomas Cole National Historic Site
- Touro Synagogue National Historic Site
- Wing Lake Museum of the Asian Pacific American Experience

NPS Areas Not Reporting Visitor Use

- Alagnak Wild River
- Appalachian National Scenic Trail
- Birmingham Civil Rights National Monument
- Blackstone River Valley National Historical Park
- Brices Cross Roads National Battlefield Site
- Camp Nelson National Monument
- Castle Mountains National Monument
- Cedar Creek and Belle Grove National Historical Park
- Constitution Gardens[3]
- Delaware National Scenic River
- Ebey's Landing National Historical Reserve
- First State National Historical Park
- Fort Monroe National Monument
- Freedom Riders National Monument
- Great Egg Harbor National Scenic and Recreational River
- Harriet Tubman National Historical Park
- Harriet Tubman Underground Railroad National Historical Park
- Hohokam Pima National Monument
- Honouliuli National Historic Site
- Medgar and Myrlie Evers Home National Monument[1]
- Mill Springs Battlefield National Monument[1]
- Natchez Trace National Scenic Trail
- National Mall
- Potomac Heritage National Scenic Trail
- Poverty Point National Monument
- Pullman National Monument
- Reconstruction Era National Historical Park
- Ste. Genevieve National Historical Park[1]
- Tule Lake National Monument
- Tule Springs Fossil Beds National Monument
- Tupelo National Battlefield

- Virgin Islands Coral Reef National Monument
- Yucca House National Monument
- World War I Memorial

Recreation Visits / Visitor Days by State and U.S. Territory

Table 6 documents the number of recreation visits and visitor days for all NPS units that reported visitor use data in 2020 by state or territory and displays the percent change from the previous year. It is an expansion of Table 2 (2020 Recreation Visits by State and U.S. Territory Compared to 2019) and organizes recreation data in Table 4 (2020 Recreation Visits / Visitor Days and Non-Recreation Visits / Visitor Days by Park and Percent Change from 2019) by state. Superscript references can be found in the Endnotes.

Table 6. 2020 Recreation Visits / Visitor Days and Percent Change from 2019 by State and U.S. Territory

State	Park	Recreation Visits*	Percent Change**	Recreation Visitor Days*	Percent Change**
Alabama	Horseshoe Bend NMP	28,600	-37.0%	8,788	-25.2%

Endnotes

Endnotes are defined with fixed numeric identifiers that apply to Tables 1-6.

[1]New units not reporting visitation

- Medgar and Myrlie Evers Home NM
- Mill Springs Battlefield NM
- Ste. Genevieve NHP

[2]Areas reporting for the first time

- Boston Harbor Islands NRA
- Dwight D. Eisenhower MEM
- Katahdin Woods and Waters NM
- Valles Caldera NPRES

[3]Combined areas reporting separately

- Data for the following areas *Klondike Gold Rush NHP – Alaska* and *Klondike Gold Rush NHP – Seattle* are reported separately but are classified as *Klondike Gold Rush NHP*
- The following area is combined with *National Capital Parks Central* and breakdown is not available: *Constitution Gardens*

[4]Changes in counting procedures (data for the following areas require special adjustments to be comparable with earlier data):

- Big South Fork NRRA (Added counts at Rugby Historic district and Brewster Bridge; moved Bear Creek and Station Camp overnight stays from concession lodging to NPS campground; added estimates for Charit Creek)
- Big Thicket NPRES (Added count at Baby Galvez Boat Launch; added new estimate for visits to the Bird Watcher's Trail; updated estimates for visits to Lily Road and Holly Grove)
- Bighorn Canyon NRA (Changed concession campground overnight stays to NPS campground overnight stays)
- Booker T Washington NM (Changed from division by four on the main entrance traffic count to division by two; removed vans; changed from using employee lot to a fixed estimate of non-reportable vehicles)
- Catoctin Mountain Park (Updated non-reportable vehicles and non-recreation vehicles at Visitor Center and Manahan / Round Meadow)
- Chesapeake and Ohio Canal NHP (Changed counter technology / method at Carderock, Swains Lock, Pennyfield, Violettes Lock, Noland's Ferry, Paw Paw Tunnel, Glen Echo Access, Lock 7, Lock 8, and Town Creek Aqueduct; added a trail counter and updated method at Lock 38; updated duplicate reporting adjustments at Spring Gap, Lock 31, and

Georgetown Level 3; added division by two at Dickerson / Warm Water to account for entry and exit)

- Death Valley NP (Added visits to Phinney Canyon and Titus Canyon; park now has visits in California and Nevada)
- Delaware Water Gap NRA (Added visits to Kittatinny Point)
- Everglades NP (Changed location and calculations for traffic counter at Homestead entrance; removed fixed estimate of Coe Visitor Center only visits; updated method for estimating bicycle use at Shark Valley)
- Fort Pulaski NM (Updated calculations for McQueen's Island traffic counter to remove boat trailer adjustment)
- Gateway Arch NP (Changed from count at ramps to count from security at Visitor Center; added duplicate reporting adjustment for additional visits from Old Courthouse; added otherwise uncounted visits for permitted, after hours, and special events)
- Hot Springs NP (Changed to indicator counts with calibration and expansion multipliers; added duplicate reporting adjustments; updated persons per vehicle multipliers; changed most of the method for non-recreation visits from percent splits to fixed estimates; updated recreation day use length of stay)
- Lake Mead NRA (Changed from five districts to three districts; updated some methods and reporting categories for overnight stays)
- Mammoth Cave NP (Updated method for commercial and private canoeists and kayakers; added Sand Cave Trail counts)
- Padre Island NS (Replaced counts from fee booth and North Beach with a single counter at the park entrance)
- Petrified Forest NP (Updated persons per vehicle multipliers)
- Pinnacles NP (Removed division by two on west entrance traffic count; added concession overnight stays)
- Prince William Forest Park (Updated non-recreation vehicle corrections at main entrance; changed from estimate of buses and bus passengers to manual count of both; removed Chopawamsic visits from recreation visits; changed from estimated split of tent and RV overnights to a direct count from recreation.gov; updated average daily traffic count by month for use when traffic counter is not working)
- San Francisco Maritime NHP (Added Age of Sail Program attendance to day use and overnight stays to recreation hours; added performing arts and demonstrations to recreation visitor hours)
- Washita Battlefield NHS (Changed from two traffic counters at the parking lot to one)
- White Sands NP (Updated persons per vehicle multipliers; switched from activity-based calculation for visitor hours to average length of stay based on historical data)

[5]**Partial or temporary closing not related to COVID-19 – see Appendix A for COVID-19 closure information** (data for the following areas require special adjustments to be comparable with earlier data):

- Abraham Lincoln Birthplace NHP (Knob Creek Unit closed in September for rehabilitation of Tavern)
- Arlington House The R.E. Lee MEM (Park started year closed due to renovation and remained closed because of COVID-19)
- Big South Fork NRRA (Alum Ford and Zenith areas closed February through end of year due to flood damage)
- Blue Ridge PKWY (Peaks of Otter Lodge closed all year; a road failure in the Roanoke area forced closure of a portion of the Parkway from May until early October)
- Buffalo NR (Upper Pruitt Road closed starting in August for construction; Kyles Landing Road closed starting in December for construction)
- Canyonlands NP (Salt Creek and Horse Canyon Road area impassible much of year)
- Cape Hatteras NS (Ocracoke Visitor Center closed in September 2019 and remains closed due to damage from Hurricane Dorian)
- Chamizal NMEM (Theater under renovations starting December 2019 and continuing through 2020)
- Channel Islands NP (Scorpion Anchorage on Santa Cruz Island closed all year for pier construction; Santa Barbara Island pier closed)
- Chesapeake and Ohio Canal NHP (Little Tonoloway bridge closed all year – some non-motorized traffic allowed; bridge to Harpers Ferry, WV in Lock 33 area closed all year due to train derailment)
- City of Rocks NRES (Emery entrance closed January through March because of snow)
- Clara Barton NHS (Site open to public only two days a week January through March)
- Death Valley NP (Scotty's Castle and Grapevine Canyon closed all year from October 2015 flooding)
- Everglades NP (Shark Valley closed due to flooding in December 2020)
- Fort Matanzas NM (Beach ramp closed through mid-May 2020 due to storm damage from Hurricane Dorian in September 2019)
- Great Smoky Mountains NP (Cades Cove area closed for road construction January and February 2020)
- Greenbelt Park (Major construction project closed the main park road for most of 2020)
- Gulf Islands NS (Some Florida portions of the park were completely or intermittently closed from mid-September through the end of the year due to damage from Hurricane Sally)

- Hawaii Volcanoes NP (Backcountry was closed December 22 through the end of the year due to summit eruption on December 21)
- Jewel Cave NM (Cave closed for construction project until late June)
- Jimmy Carter NHS (Plains High School closed in December for construction project)
- John F. Kennedy NHS (Park closed March 2020 until spring 2022 for renovations and exhibit maintenance)
- Lake Roosevelt NRA (Several launches out of water early in the year)
- Lassen Volcanic NP (Backcountry west of the park highway closed in August due to bear activity)
- Lava Beds NM (Park closed July 23 through August 13 for the Caldwell Fire; some trails, roads, and the Indian Wells Campground remained closed longer; Captain Jacks area of the park closed August 2020 until 2021 to mitigate potential harm to resources from the Caldwell Fire)
- Mammoth Cave NP (Green River Ferry closed for construction and repairs October 2019 through June 2020)
- Mount Rainier NP (Some parts of the park were closed in January because of downed trees; a landslide on Highway 706E made the Nisqually entrance inaccessible for 3 weeks in February; a landslide made the Carbon River entrance inaccessible in February; approximately half of the campgrounds were closed in July due to hazard trees)
- Muir Woods NM (Park closed intermittently in September due to poor air quality from wildland fires)
- Oregon Caves NM & PRES (Chateau closed all year for restoration – started in October 2018)
- Padre Island NS (Park closed July 25 through August 19 due to damage from Hurricane Hanna)
- Palo Alto Battlefield NHP (Resaca de la Palma closed for construction January through March)
- Petrified Forest NP (Part of the park road closed for bridge replacement January 2 through March 31)
- Point Reyes NS (Woodward Fire started mid-August and closed the entire park for the rest of August; some areas remained closed through the end of the year)
- Redwood NP (Some areas closed intermittently in September due to smoke from wildland fires)
- Rocky Mountain NP (Many areas of the park were closed in September and October due to wildland fires; some areas remained closed through the end of the year)
- Ross Lake NRA (Highway 20 closed at Newhalem on January 23 due to snow and avalanches – some areas remained closed through February)

- Santa Monica Mountains NRA (Peter Strauss and Rocky Oaks remained closed all year due to damage from 2018 Woolsey Fire)
- Sleeping Bear Dunes NL (Pierce Stocking Scenic Drive closed for construction June through October)
- Springfield Armory NHS (Some areas of park closed for infrastructure upgrades February through June)
- Sunset Crater Volcano NM (Visitor Center closed February 2 through February 29 to install new exhibits)
- Upper Delaware S&RR (Skinners Falls Bridge closed for construction February through the end of the year)
- Voyageurs NP (Rainy Lake Ice Road never opened in early or late 2020 due to hazardous slush; Kabetogama Ice Road opened later than usual in January due to hazardous slush)
- War in the Pacific NHP (Gaan Point had limited access in January due to construction)
- Whiskeytown NRA (Some areas were closed all year due to damage from 2018 Carr Fire)
- William Howard Taft NHS (Visitor Center closed intermittently for refurbishment in November and December)
- Wilson's Creek NB (Visitor Center closed for construction November 2019 through end of 2020)
- Yosemite NP (Some areas of park closed intermittently in August and September due to the Creek Fire)

[6]**Error in Previous Year** (Data for the following areas require special adjustment to be comparable with earlier data):

- Bering Land Bridge NPRES (Recreation visitor hours were missing backcountry overnight stay hours and non-recreation visitor hours were missing non-recreation overnight stay hours from 1998 through 2019)
- Bighorn Canyon NRA (Overnight stays were incorrectly split between concession campground and NPS campground in 2019 – should only have been NPS campground overnight stays)
- Booker T Washington NM (Recreation visitor hours have been estimated too high for bus visits from 2003 through 2019; non-recreation vehicle correction was missing from recreation visits from 1997 through 2019)
- Cape Hatteras NS (Recreation visitor hours were missing day use hours every June since 1993; non-recreation visits were missing non-recreation boat visits since 1993)
- Cape Krusenstern NM (Recreation visitor hours were missing backcountry overnight stay hours and non-recreation visitor hours were missing non-recreation overnight stay hours from 1995 through 2019)

- Christiansted NHS (Fort parking lot visits were inadvertently added to recreation visitor hours – the error was in place during 2012 only)
- Death Valley NP (Hours for backcountry overnight stays were missing from recreation visitor hours for 2018 and 2019)
- Delaware Water Gap NRA (The multiplier on traffic counts at station 4506 was incorrect – it has been updated to correspond with that listed in the count procedures. This error has likely been in place since 1990.)
- Denali NP & PRES (Recreation visitor hours had an incorrect multiplier for people not taking bus tours resulting in underestimated hours from 2010 through 2019)
- Fort Donelson NB (In 2018, there was a miscount most likely due to a faulty traffic counter – numbers were too low in most months that year)
- Gauley River NRA (Recreation visitor hours were missing a portion of hours from overnight stays resulting in underestimated visitor hours 2014 through 2019)
- George Washington MEM PKWY (Recreation visitor hours were missing persons per vehicle multipliers for Gravelly Point and Riverside Park; Mount Vernon Trail hours were missing from recreation visitor hours; bus percent multiplier was incorrect for March. These errors have been in place for an unknown amount of time.)
- Glen Canyon NRA (Recreation visitor hours for the Horseshoe Bend area were inadvertently tripled from 2017 through 2019)
- Hawaii Volcanoes NP (Kilauea Military Camp and PO Box visits were missing from non-recreation visits and hours from 2007 through 2019)
- Katmai NP & PRES (Recreation visitor hours were intermittently missing for winter recreation and non-recreation visits were missing overnight researchers from 1995 through 2019)
- Kobuk Valley NP (Recreation visitor hours were missing backcountry overnight stay hours and non-recreation visitor hours were missing non-recreation overnight stay hours from 1995 through 2019)
- Lincoln Home NHS (Beedle House visits were missing from non-recreation visits; Shutt House visitor hours were missing from non-recreation visitor hours; these errors have likely been in place since 1990; Shutt House staff hours were OK)
- New River Gorge NP & PRES (Fern Creek climber hours incorrectly used the traffic count times length of stay instead of the number of climbers times length of stay, this resulted in under-reporting recreation visitor hours from 2014 through 2019)
- Montezuma Castle NM (Non-reportable vehicles were overreported by 6 vehicles in September and underreported by 6 vehicles in August from 1992 through 2019)
- Noatak NPRES (Recreation visitor hours were missing backcountry overnight stay hours and non-recreation visitor hours were missing non-recreation overnight stays from 1995 through 2019)

- Olympic NP (Trail users and trail user hours were using a fixed estimate instead of the actual count at Shady Lane - this error was likely in place from 1993 through 2019)
- Organ Pipe Cactus NM (Recreation visitor hours had three errors: hours were inadvertently divided by 2 at Alamo Canyon; Alamo Campground tent sites were incorrectly identified as backcountry overnights for hours; backcountry overnight hours were missing from recreation visitor hours – this error was likely in place from 2015 through 2019)
- Paterson Great Falls NHP (Due to a traffic counter error, overall visitation was approximately 20-25% too high in 2019)
- Pinnacles NP (Concession overnight stays and hours were missing from park statistics from 2011 through 2019)
- Point Reyes NS (For recreation visitor hours, the percent split multipliers for Mount Vision was incorrectly set at 0.7 instead of 0.07 from 1994 through 2019 – recreation visits were not affected)
- Prince William Forest Park (NPS campground overnight hours were missing from recreation visitor hours and group overnights at Turkey Run Ridge campground were incorrectly added to both miscellaneous overnights and NPS tent overnights – they should have been in miscellaneous overnights only. These errors were in place from 2013 through 2019.)
- Redwood NP (Day use hours were missing from recreation visitor hours from 1998 through 2019; hours for tent camping at Little Bald Hills were incorrectly inflated by a persons per site multiplier from 1991 through 2019)
- Ross Lake NRA (A traffic counter malfunction resulted in traffic counts that were too high for the east and west boundary in July 2019)
- Santa Monica Mountains NRA (Backcountry overnight stays should have been zero from 1994 through 2019 – no backcountry camping is available in the park)
- Theodore Roosevelt NP (Backcountry overnight stays were inadvertently underreported from approximately 2007 through 2019 – perhaps earlier – due to using the number of permits instead of the number of overnight stays)
- Vicksburg NMP (Recreation visitor hours for Pemberton's HQ were missing from recreation visitor hours from 2008 through 2019; recreation visitor hours for Howe Lane walk-ins were missing from recreation visitor hours from 2013 through 2019)
- Yukon-Charley Rivers NPRES (Non-recreation visits and hours were missing from official statistics from 2011 through 2019)

7Change in unit designation

- New River Gorge NP & PRES (changed designation from NR to NP & PRES in December 2020)

Definitions

AFFILIATED AREA: An area administered in connection with the National Park Service (NPS), which uses NPS assistance but is neither federally owned nor directly administered by the NPS.

BACKCOUNTRY: One or more primitive or wilderness areas that are reached primarily by hiking, boating, or horseback. This does not include developed campgrounds solely because they happen to be located on an island (e.g. at Isle Royale NP).

CAMPGROUND: An area of land designated and developed for use as a camp.

CLASSIFICATION: Designated names for areas administered by the NPS may be found in the publication, *The National Parks: Index 2012-2016*.

CONCESSIONER: A private company or individual granted the privilege of providing facilities and services considered necessary by the NPS for accommodating visitors.

CONCESSIONER CAMPGROUND: An element of a concessioner operation involving services for overnight camping such as RV parks, tent campgrounds, and trailer courts where trailers are not provided by the concessioner.

CONCESSIONER LODGING: An element of a concessioner operation involving facilities for overnight lodging such as hotels, motels, cabins, cottages, trailer villages, and trailer courts where trailers are available for rent by visitors.

MISCELLANEOUS OVERNIGHT STAY: Any overnight stay not otherwise defined such as sleeping aboard boats, camping in organized group campsites, staying overnight in NPS furnished cabins, and/or any overnight stays not included in other categories. This excludes overnight stays on private inholdings, which are non-reportable.

MIXED AREA PARK: see **POPULATION CENTERS**.

NATIONAL PARK SERVICE (NPS): A Department of the Interior (DOI) bureau which administers approximately two dozen types of federal lands, nationally significant for their scenic, natural, scientific, historical, or archaeological interest (see **CLASSIFICATION**). The NPS was established as a bureau of the DOI by an Act of Congress on August 25, 1916. The NPS does not administer National Forests (United States Department of Agriculture / Forest Service), Wildlife Refuges (United States Department of the Interior / Fish and Wildlife Service), or a variety of other public lands available for visitor use.

NEGLIGIBLE TRANSIT: A brief, incidental entry into a park by passing traffic (vehicular or non-vehicular) using NPS-administered grounds, roads, or walkways (see **NON-REPORTABLE VISIT**).

NON-RECREATION OVERNIGHT STAY: A reportable non-recreation overnight stay is any overnight on NPS-administered territory associated with a non-recreation visits and includes

leaseholder overnights, line shack overnights for ranchers, overnights for government personnel other than NPS employees, nights on board commercial fishing vessels in NPS-administered waters, researchers on non-NPS business who stay overnight, and other related overnight stays.

NON-RECREATION VISIT: A reportable non-recreation visits includes:

- Persons going to and from inholdings across significant parts of park land
- Commuter and other through traffic using NPS-administered roads or waterways through a park for their convenience
- Tradespeople with business in the park
- Any civilian activity as part of or incidental to the pursuit of a gainful occupation (e.g. guides)
- Citizens using NPS buildings for civic or local government business, or attending public hearings
- Outside research activities (visits and overnights) if independent of NPS legislated interests (e.g. meteorological research)

NON-REPORTABLE VISIT: The entry into a park by NPS employees, their families, concession employees, members of cooperating associations, NPS contractors, and service personnel are not reportable for visitor use. Specific situations include:

- Employees of the NPS who are assigned to the park or who are visiting the park in connection with their duty assignment
- NPS contractor, concession, and cooperating association employees
- Temporary or permanent members in households of personnel otherwise included in this definition whose residence is in the park
- Private tenants within NPS boundaries (inholders) if not crossing significant NPS territory for access
- Persons engaged in pursuit of specific legal rights of use (e.g. subsistence hunting and fishing)
- Any other persons whose presence in the park is to help the Service fulfill its mission (e.g. volunteers in parks, research activities associated with the NPS mission)

In addition, brief, incidental entries into a park by passing traffic (vehicular or non-vehicular) using NPS-administered grounds, roads, or walkways is considered non-reportable. Civil ceremonies (e.g. ritualistic observances, marriages) are non-reportable unless there is a traditional, legislative, or other official and externally imposed requirement bearing on the park, or unless there is a compensatory contract with the activity sponsor as with an authorized special use permit.

NOT REPORTING: These areas do not report official visitation to the NPS.

OUTLYING AREA PARK: See **POPULATION CENTERS**.

OVERNIGHT STAY: One night within a park by a visitor. Overnights by concession employees, inholders, NPS employees, and their families are non-reportable. A party of two visitors staying in a park for three nights yields six overnight stays. There are seven categories of overnight stays:

- Persons staying overnight in concession operated lodges, cabins, motels, and hotels are reported at Concession Lodging Overnight Stays
- Persons staying overnight in concession operated campgrounds, RV parks, and trailer courts (trailers not provided by the concessioner) are reported as Concession Campground Overnight Stays
- Campers in soft-sided tents, sleeping bags, or tents attached to a vehicle in NPS-operated campsites are reported as NPS Campground Tent Overnight Stays
- Campers in recreational vehicles including tent trailers at NPS-operated campsites are reported as NPS Campground RV Overnight Stays (see definition of a Recreational Vehicle)
- Campers in sleeping bags or soft-sided tents erected at undeveloped walk-in campsites not accessible by road are reported as Backcountry Overnight Stays. This does not include camping areas having walk-in sites with nearby parking, nor does it include developed campgrounds solely because they happen to be located on an island.
- Campers in group camping areas, on board transport or boats, at trailside shelters, in undeveloped overflow areas, or in other areas not otherwise described here are reported as Miscellaneous Overnight Stays.
- Non-Recreation Overnight Stays are any overnight associated with non-recreation visits (e.g. nights on board commercial fishing vessels within NPS-administered waters or researchers on non-NPS business who stay overnight). All non-recreation overnight stays should be captured in this category regardless of whether they occurred in concession operated lodging, campgrounds, backcountry, etc. Overnight stays on private inholdings are non-reportable.

POPULATION CENTERS: NPS parks are categorized by their proximity to population centers in the following manner:

- Mixed Area Park – a park located in a mixture of Outlying Area, Rural Area, Suburban Area, and/or Urban Area with 75% or less of the park area in any one category.
- Outlying Area Park – More than 75% of the park is located within a 2010 Metropolitan Statistical Area (MSA) with a population of less than one million people but outside of any Urbanized Area (Urbanized Area as defined by the U.S. Census Bureau).
- Remote Area Park – More than 75% of the park is located outside of any 2010 MSA and requires special travel arrangements to reach.
- Rural Area Park – More than 75% of the park is located outside of any 2010 MSA and is accessible by paved highway, scheduled air, or marine transportation service.
- Suburban Area Park – More than 75% of the park is located within a 2010 MSA with a population greater than one million people but outside of any Urbanized Area (Urbanized Area as defined by the U.S. Census Bureau).

- Urban Area Park – More than 75% of the park is located within a 2010 Urbanized Area as defined by the U.S. Census Bureau.

RECREATIONAL VEHICLE: Any enclosed vehicle used for camping which is more elaborate than a simple truck or car, such as a pickup truck with a camper body, pop-up trailer, travel trailer, bus, motor coach, mobile home, etc.

RECREATION VISIT: The entry of a person onto lands or waters administered by the NPS except as defined above for non-reportable and non-recreation visits. Funeral parties at National Cemeteries, school groups, etc. are reportable as recreation use since their use meets the purpose for which the park was established. Visits originating on surface vehicles (trains, boats, other) and aircraft may be counted if they stop and disembark passengers on NPS administered territory. **The applicable rule is that one entrance per individual per day is countable.**

REMOTE AREA PARK: See **POPULATION CENTERS**.

RURAL AREA PARK: See **POPULATION CENTERS**.

SERVICE PERSONNEL: Employees of the NPS who are assigned to a park or are visiting a park in connection with their duty assignments, NPS contractors, concession employees, cooperating association employees, and the temporary or permanent members in the households of NPS employees who reside in the park.

SUBURBAN AREA PARK: See **POPULATION CENTERS**.

URBAN AREA PARK: See **POPULATION CENTERS**.

VISIT: The entry of a person onto lands or waters administered by the NPS. There are three categories of visits to parks: (1) visits that are *not* reported as visitor use; (2) non-recreation visits that are reported as visitor use; and (3) recreation visits that are reported as visitor use. Negligible transit is non-reportable. Same-day reentries and entries to detached portions of the same park on the same day are a single visit. Visits are reported separately for two contiguous, independently authorized parks.

VISITOR DAY: Twelve visitor hours in a park.

VISITOR HOURS: The presence of one or more persons, excluding service personnel, in a park for continuous, intermittent, or simultaneous periods of time aggregating one hour (e.g. one person for one hour, two persons for one-half hour each, etc.). Although same day attendance at detached portions of the same park are considered duplicate counts and are not reported as separate visits, the time spent by a visitor at detached units is added together for the visitor hour estimate.

Appendix A: Park closures due to coronavirus pandemic / COVID-19 mitigation measures

Table A.1 displays closure status for each park in 2020 related to the global coronavirus pandemic / COVID-19 mitigation measures. The intent of this table is to capture only closure status related to COVID-19. Other closures are identified with a superscript and are listed in the Endnotes of this abstract. A listing of 'None' indicates that all areas of the park were either under normal operations (including normal seasonal closures, construction, or weather events) or were under slightly modified operations that did not include area closures. Examples of these modifications include capacity restrictions, limited / reduced hours, or reduced access to theaters / exhibits. A listing of 'Partial' applies when all or some areas of a park were inaccessible to the public for at least one day in the month, but not for the entire month, or that some areas, but not all, of the park were inaccessible for the entire month. A listing of 'Full' indicates that the all areas of the park that would have been accessible under normal operations were inaccessible to the public for the entire month. Superscript references can be found in the Endnotes. This data was compiled based on information available on NPS websites, park social media accounts, and other internal sources. Not all information has been verified at the park level.

Appendix B: Parks setting an annual recreation visit record in 2020

Fifteen parks set a new recreation visit record in 2020. Five parks broke a record they set in 2019: Big Thicket NPRES, Little River Canyon NPRES, Monocacy NB, Petroglyph NM, and Pictured Rocks NL. Figure B.1 displays the location of each record-setting park and Table B.1 lists the record-setting parks, the Park Unit ID, 2020 recreation visits and information on the previous record year. Superscript notes in Table B.1 can be found in the Endnotes.

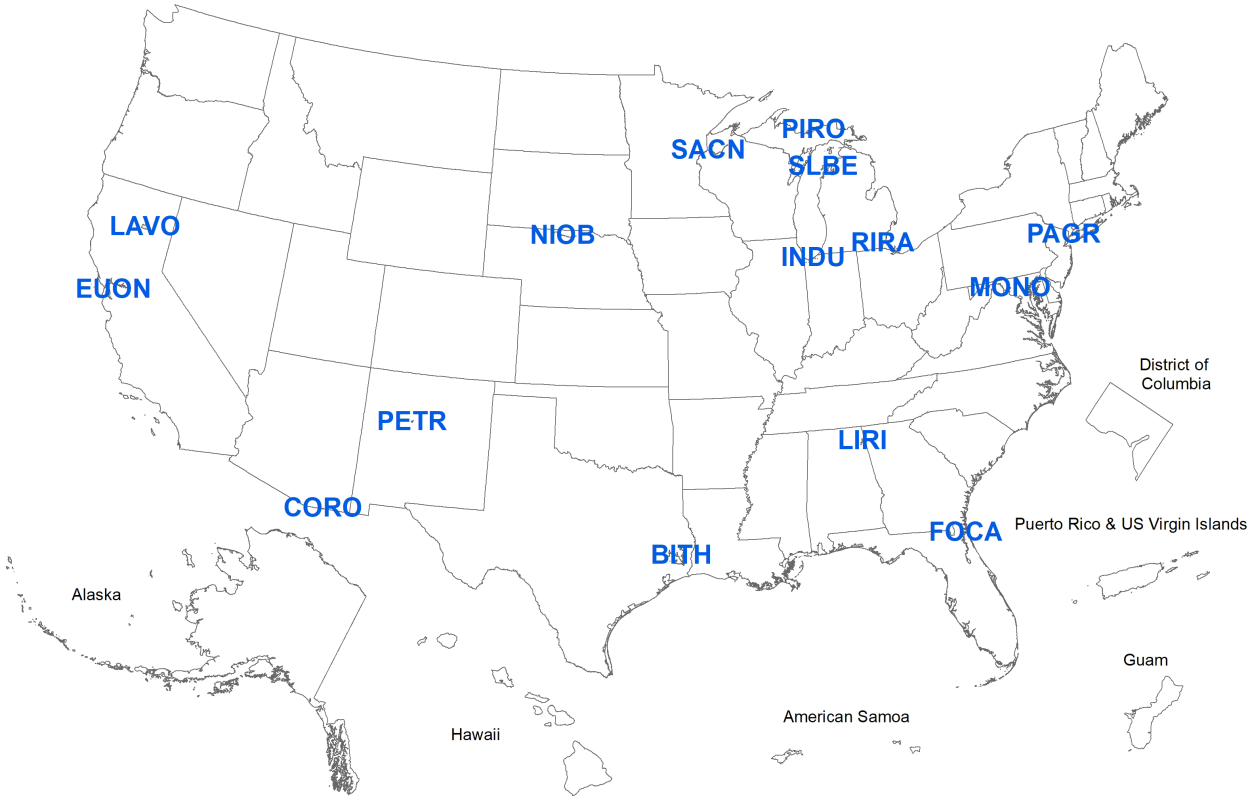

Figure B.1. Parks setting an annual recreation visit record in 2020
(See Table B.1 for Park Unit IDs)

Table B.1. Parks setting an annual recreation visit record in 2020

Park	Park Unit ID	2020 Recreation Visits	Previous Record Year	Previous Record Visits
Big Thicket NPRES[4]	BITH	309,053	2019	255,926
Coronado NMEM	CORO	156,199	2011	153,042
Eugene O'Neill NHS	EUON	14,423	2016	4,287
Fort Caroline NMEM	FOCA	404,476	2012	327,339
Indiana Dunes NP	INDU	2,293,106	2017	2,158,471
Lassen Volcanic NP[5]	LAVO	542,274	2016	536,068
Little River Canyon NPRES	LIRI	802,375	2019	649,986
Monocacy NB	MONO	155,116	2019	144,696
Niobrara NSR	NIOB	102,766	2017	80,806
Paterson Great Falls NHP[6]	PAGR	339,768	2017	308,199
