Ms. Shelley Sparhawk
Craters of the Moon National Monument
P.O. Box 29
Arco, Idaho 83213

Dear Shelley:

At long last we have completed computerization of our collection. Enclosed is a list of specimens collected at Craters and deposited in the research collection of the Idaho Museum of Natural History.

I still am interested in bats at Craters. Should you be interested in starting a joint project on mammals or bats for your area, please give me a call.

My best,

Barry L. Keller, Ph.D.
Curator of Mammals/Professor of Ecology
