Permit #: UW 205149 **Priority Date:** 2/24/2016
License / Certificate #: UW07672 **Date Issued:** 05/23/2018
Owner: USDI National Park Service & Jackson Hole Airport Board

Narrative / Remarks: *(if longer, attach BOD)*

Jackson Hole Airport is located on National Park Service land. The airport is operated by Jackson Hole Airport Board under a lease agreement. In adherence to Wyoming water law the water right is co-owned by the landowner and the lessee. Permit UW 131351 is a refiling of cancelled permit UW93448. Permit UW 205149 is an enlargement of permit UW 131351 for landscape watering in additional areas. The building served was previously called Jackson Hole Aviation Office, it is now known as Hanger One.

RE: Certificate Record Book No. 23, Page(s) 113

Dear Appropriator(s):

This is to advise you that your proof(s) of appropriation was/were approved by the State Board of Control. The following listed final Certificate(s) of Appropriation of Water or Ground Water and/or Certificate(s) of Construction of Reservoir are being sent to the County Clerk for recording purposes:

<u>Permit No.</u>	<u>Facility</u>	<u>Amount Appropriated</u>
131351 U.W.	JH Aviation Office #2	60 gpm

Final Certificates of Appropriation are valuable insofar as your water rights are concerned and they should, therefore, be carefully preserved. If you need copies of them, they may be obtained either from the County Clerk or from this office.

When the County Clerk has recorded your certificate(s) he/she will forward the same to you.

The original certificate(s) for this/these appropriation(s) will be forwarded to the first appropriator named on the certificate after the County Clerk has processed it.

Yours truly,

Cheryl Timm
Adjudication Officer

U.W. 203288, U.W. 203289, and U.W. 205149

Dear George,

Pursuant to our conversation and pursuant to your letter dated March 31, 2017, please find enclosed the signed and notarized Proofs of Appropriation and Beneficial Use of Ground Water for the above-captioned permits.

I have contacted Francesca Paolucci-Rice, who has been acting for the Jackson Hole Airport Authority in obtaining these rights, and explained to her that the rights will be in the name of the National Park Service pursuant to Wyoming law. I will let her know that we have provided the signed proofs to you, and she will then provide, from the Airport Authority, the adjudication fee of \$270 under separate cover.

If you have additional questions or concerns, please contact me at (970) 225-3526 or at eric_lord@nps.gov.

Thank you,

Eric Lord

Dear Appropriator:

On August 9, 2016, Wyoming State Engineer's Office staff conducted a field inspection for the purpose of adjudication, or finalization, of the water rights referenced above. Enclosed, please find the Proof of Appropriation and Beneficial Use of Ground Water -- Part III forms reflecting personal observations as they relate to the permitted use of water.

These forms must be signed before a Notary Public and returned to our office with a \$30.00 adjudication fee per proof, **\$270.00 total**, made payable to the **WYOMING BOARD OF CONTROL**. Please send the completed form and required payment to the following address:

Ground Water Proofs
State Engineer's Office
Herschler Building, 1-W
Cheyenne, WY 82002

Following publication, the proof will be submitted to the State Board of Control, which will issue a CERTIFICATE OF APPROPRIATION, finalizing the water rights.

If you have further questions, please contact me at george.moser@wyo.gov or 307-777-2974.

Thank you,

George Moser
Ground Water Division

MATTHEW H. MEAD
GOVERNOR

PATRICK T. TYRRELL
STATE ENGINEER

March 3, 2016

Jackson Hole Airport Board
Po Box 159
Jackson, Wyoming 83001

Dear Applicant:

You are advised that the State Engineer approved the following application(s) to appropriate ground water on March 2, 2016. A copy of each permit is enclosed. Also enclosed are forms and instructions for submitting data to the State Engineer relating to the beneficial use of the water, as required by law.

PERMIT NUMBER/WELL NAME

U.W. P205149.0W - Enl. Jh Aviation Office #2 Well

By Statute the water must be beneficially utilized by December 31, 2017. ***IF THE REQUIRED NOTICES ARE NOT RETURNED TO THIS OFFICE WITHIN THE STATUTORY TIME LIMITS SET FORTH, THE PERMIT(S) WILL BE SUBJECT TO CANCELLATION, WHICH ACTS AS A FORFEITURE OF THE RIGHT GRANTED BY THIS PERMIT.***

An extension of time may be requested for beneficial use when good reason is provided. A request for such extension must be received in the State Engineer's Office prior to the expiration date shown on the permit. Requests for extension of time must indicate due diligence on the part of the applicant to comply with the time limits imposed by this permit.

PLEASE NOTE: As per the requirements of the form U.W. 8, a map showing the area of use and means of conveyance to the points of use must accompany this form along with a Certificate of Ownership showing ownership or control of lands.

Sincerely,

Lisa Lindemann, Administrator
Ground Water Division

APPLICATION FOR PERMIT TO APPROPRIATE GROUND WATER

APPLICATION FOR WELLS AND SPRINGS

Note: Only springs flowing 25 gallons per minute or less, where the proposed use is domestic and /or stock watering, will be considered as ground water appropriations.

FOR OFFICE USE ONLY

Temporary Filing No. U.W. 44-6-116W

PERMIT NO. U.W. 205149
WATER DIVISION NO. 4 DISTRICT 16
U.W. DISTRICT Teton County

NOTE: Do not fold this form. Use typewriter or print neatly with black ink.
ALL ITEMS MUST BE COMPLETED BEFORE APPLICATION IS ACCEPTABLE

ENL. JH AVIATION OFFICE #2 WELL (Enlargement of Permit No. U.W. 131351.0 for Additional Point(s) of Use)

NAME AND NUMBER OF WELL or SPRING

1. Name of applicant(s) JACKSON HOLE AIRPORT BOARD Phone: 307-733-7695
(See Remarks for others.)
2. Address of applicant(s) PO BOX 159 JACKSON Wyoming 83001
(MAILING ADDRESS) (CITY) (STATE) (ZIP)
3. Name & address of agent to receive correspondence and notices JORGENSEN ASSOCIATES PC
PO BOX 9550 ATTN JACKSON Wyoming 83001 Phone: 307-733-5150
FRANCESCA PAOLUCCI-RICE (CITY) (STATE) (ZIP)

4. Use to which the water will be applied:

- ☐ Domestic: Use of water in 3 single family dwellings or less, noncommercial watering of lawns and gardens totaling one acre or less. Number of houses served? _____.
- ☐ Stock Watering: Normal livestock use at four tanks or less within one mile of well or spring. Stockwatering pipelines and commercial feedlots are a miscellaneous use. Number of stock tanks? ____.
- ☐ Irrigation: Watering of any lands for agricultural purposes not covered by the definition of domestic use (large-scale lawn watering of golf courses, cemeteries, recreation areas, etc., is miscellaneous use).
- ☐ Municipal: Use of water in incorporated Towns and Cities. Note 1: use of water in unincorporated towns, subdivisions, improvement districts, mobile home parks, etc. is classified as miscellaneous use. Note 2: a permit may be required by the Wyoming Department of Environmental Quality (WDEQ) if the well will be classified as a public water supply under the WDEQ's rules and regulations.
- ☐ Industrial: Long term use of water for the manufacture of a product or production of oil/gas or other minerals (oil field water flood operations, power plant water supply, etc.). (Describe in REMARKS)
- ☒ Miscellaneous: Any use of water not defined under previous definitions such as stock water pipelines, subdivisions, mine dewatering, mineral/oil exploration drilling, potable supplies in office, etc. (Describe in Remarks). Note: a permit may be required by the WDEQ if the well will be classified as a public water supply under the WDEQ's rules and regulations.
- ☐ Coalbed Methane Water produced in the production of coal bed methane gas. Note: wells used in the production of coal bed methane gas will require a permit from the Wyoming Oil and Gas Conservation Commission.
- ☐ Monitor, Observation Note: a WDEQ permit may be required ☐ Test Well: (Describe in REMARKS)

5. Location of the well or spring: (NOTE: Quarter-quarter (40 acre subdivision) MUST be shown. EXAMPLE: SE 1/ 4 NW 1/ 4 of Sec. 12, Township 14 North, Range 68 West.)
Teton County County, NE 1/4 SW 1/4 of Sec. 14 , T.042N , R. 116W . of the 6th P.M. (W.R.M.), Wyoming. If located in a platted subdivision, also provide Lot/Tract ____ Block ____ of the ____ Subdivision (or Add'n) of Teton County . Resurvey Location: Tract ____ , (or Lot) ____ .

6. Estimated depth of the well or spring is 92 feet. Estimated production interval is 58 ft. to 92 ft.

7. (a) MAXIMUM instantaneous flow of water to be developed and beneficially used: 0 gallons per minute.
NOTE: if for domestic and / or stock use, this application will be processed for a maximum of 25 gallons per minute. For a spring, after approval of this application, some type of artificial diversion or improvement must be constructed to qualify for a water right.

(b) MAXIMUM volumetric quantity of water to be developed and beneficially used per calendar year: 0 gallons
Circle appropriate units: (Gallons) (Acre Feet) A four person family utilizes approximately one (1) acre-foot of water per year or 325,000 gallons.

8. Mark the point(s) or area(s) of use in the tabulation box below. Note: Upper row refers to the quarter of the section. Next row refers to the quarter of the quarter section.

TABULATION BOX

BETH TEBBEN For State Engineer

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

This application is approved subject to the condition that the proposed use shall not interfere with any existing rights to ground water from the same source of supply and is subject to regulation and correlation with surface water rights, if the ground and surface waters are interconnected. The use of water hereunder is subject to the further provisions of Chapter 169, Session Laws of Wyoming, 1957, and any subsequent amendments thereto.

Granting of a permit does not guarantee the right to have the water level or artesian pressure in the well maintained at any specific level. The well should be constructed to a depth adequate to allow for the maximum development and beneficial use of ground water in the source of supply.

If the well is a flowing artesian well, it shall be so constructed and equipped that the flow may be shut off when not in use without loss of water into sub-surface formations or at the land surface.

Coal Bed Methane wells have Additional Conditions and Limitations on attachment sheet.

The permit serves to enlarge an existing well for additional points of use only and establish a valid water right for the same.

FOR ADDITIONAL CONDITIONS AND LIMITATIONS SEE ATTACHED STATUS SHEET.

~~Approval of this application may be considered as authorization to proceed with construction of the proposed well or spring. A Statement of Completion will be filed within thirty (30) days of completion of construction, including pump installation.~~

Completion of construction and completion of the beneficial use of water for the purposes specified in Item 4 of this application will be made by December 31, 2017.

The amount of appropriation shall be limited to the quantity to which permittee is entitled as determined at time of proof of application of water to beneficial use.

Witness my hand this 2 day of March, A.D. 2016

Approval Date March 2, 2016

ADDITIONAL CONDITIONS AND LIMITATIONS:

ADDITIONAL CONDITIONS AND LIMITATIONS:

1. A meter acceptable to the State Engineer is required to accurately measure the total quantity of water produced from this well.
2. An annual report shall be submitted to the State Engineer no later than February 15 of each year stating the total amount of water produced from this well each month during the previous January 1 to December 31, twelve (12) month period.
3. The report shall identify the well by name, location, permit number and shall identify the type of meter used for the measurement.
4. The report shall contain at least two (2) semi-annual measurement of the status water level in this well as measure twenty-four (24) consecutive hours after pumping has ceased. The dates the measurements were obtained and the period of time the well was "shut-in" prior to obtaining the measurements must be specified.
5. The State Engineer reserves the right, upon written request, to modify or waive all or any portion of these conditions and limitations.

PATRICK TYRRELL
STATE ENGINEER

April 13, 2010

John Batson
Nelson Engineering
P.O. Box 1599
Jackson, WY 83001

RE: JH Aviation Office #2
Permit No. U.W. 131351

Dear Mr. Batson:

On July 11, 2001, I conducted an on-site inspection of the referenced well for the process of adjudication, or finalization of the referenced water right. At the time, the water right could not be adjudicated, as the use of water from the well had possibly expanded slightly from what was authorized by the permit and what was shown on the Map to Accompany Proof of Appropriation and Beneficial Use of Ground Water (Map) that you prepared for the subject water right.

At the time of the inspection, two pumps had been installed in the well. The well, using the smaller of the two pumps, was serving the in-building needs of the Jackson Hole Aviation office building, and a small area of landscaping adjacent to the building. The well, using the larger of the two pumps, was reportedly serving an area of landscaping adjacent to the Terminal building and a shelterbelt area surrounding the Jackson Hole Airport property. Neither of these areas was shown as an area or point of use on the Map that was submitted to this office, a copy of which is enclosed for your review. Also enclosed you will find two aerial photographs of the immediate area, a color infrared image from 2001 and a true color image from 2009 that both show the areas of landscaping near the Terminal building and shelterbelt discussed above. In order to authorize the use of water from this well within these areas, they will have to be shown as being served on the Map.

As you are likely aware, there are provisions for this office to return a Map for correction or modification if necessary. However, in this case, this Map is now the final adjudication plat for the other three water rights listed on the Map, and it is not likely that the State Engineer will authorize this map to be returned so that the required additions could be made. Perhaps in this instance, an addendum to the Map could be prepared and Certified by you that would show the location of the well, a representation of the piping or conveyance system, and the areas of use previously observed. This addendum could then act as a companion to the Map on file with this office. A brief inspection of this part of the water system could then occur which would conclude the fieldwork portion of the water right process for this water right.

I must apologize for the delay in the completion of this project. A major change in job duties occurred shortly after the inspection referenced above which has not allowed me to complete this project with the normal diligence afforded these types of projects. Should you have any questions regarding this matter, please feel free to contact me at 307-777-6689.

Sincerely,

John R. Harju
Assistant Administrator
Ground Water Division

3. For What Purpose(s) is Water Used? Use: MiscellaneousDate First Used JANUARY 3, 19 94Use: MISC. Date First Used: OCTOBER 22, 19 97

Use: _____ Date First Used _____, 19 _____

If use is for irrigation, give date irrigation was completed on all lands under this Permit: _____

PART II

For Irrigation, Industrial, Municipal and Miscellaneous Wells

A plat which has been certified by a licensed professional engineer or land surveyor shall be submitted to accompany this form. The plat shall be in accordance with Sec. 33-29-111 Wyoming Statutes 1977 or see Chapter V and VI, Manual of Regulations and Instructions issued by the State Engineer's Office. (Minimum scale shall be 2" = 1 mile.) The map shall be prepared with waterproof black ink on tracing linen or an acceptable equivalent and shall show on a suitable scale the legal subdivisions, the accurate location of the well or wells, storage facilities, if any, main canals, streams, highways and other important cultural features. Land ownership will be shown, if there is more than one owner under the permit.

IRRIGATION WELLS

Acreage irrigated under terms of this permit will be clearly shown with a distinctive pattern and a distinction clearly made between lands having an original supply and those provided a supplemental supply. Where use is for supplemental supply for lands with a right from another source, indicate the priority or permit number of the source, the source of supply and the name of the ditch, pipe line or other well. Conveyance system will be shown and described. Indicate method of irrigation being used.

INDUSTRIAL WELLS

In addition to the information outlined above, industrial users will locate and describe conveyance facilities to the point(s) of use, giving as accurately as possible the location of points of use. Permits for other sources of water must be identified.

MUNICIPAL WELLS

The plat will show the area of use and show and describe the means of conveyance of the water from the well to the connection with the distribution system for a municipal water system.

MISCELLANEOUS WELLS

- (1) The linen plat for wells where the use is described as miscellaneous and where the yield flow of the well exceeds twenty-five (25) gallons per minute must show the area of use and describe and show the means of conveyance from the well to the distribution system and/or points of use.
- (2) The plat for wells where the use is described as miscellaneous and where the yield or flow is twenty-five (25) gallons per minute or less may be a 7½ minute United States Geological Survey Quadrangle map in lieu of a linen tracing provided the U.S. Geological Survey Quadrangle map is in compliance with the following conditions:
 - (a) The entire United State Geological Survey quadrangle map must be submitted to the State Engineer's Office.
 - (b) The scale on said quadrangle map must be one to twenty-four thousand.
 - (c) An identified section corner or quarter corner must be shown on said quadrangle map along with Section, Township and Range.
 - (d) The section in which the well is located and the section(s) where the area(s) or point(s) of use are located must be subdivided into forty (40) acre tracts and the well location and area(s) or point(s) of use clearly labeled and described.
 - (e) Said quadrangle map showing the well location and area(s) or point(s) of use must be certified by a professional engineer or land surveyor licensed to practice within the State of Wyoming.

U.W. 131351

A "CERTIFICATE OF OWNERSHIP" FROM THE COUNTY CLERK'S OFFICE SHOWING OWNERSHIP OR CONTROL OF LAND(S) INVOLVED MUST ACCOMPANY THIS FORM.

Under penalties of perjury, I declare that I have examined this form and to the best of my knowledge and belief it is true, correct and complete.

APPLICATION FOR PERMIT TO APPROPRIATE GROUND WATER

APPLICATION FOR WELLS AND SPRINGS

Note: Only springs flowing 25 gallons per minute or less, where the proposed use is domestic and/or stock watering, will be considered as ground water appropriations.

MICRO FILMED JAN 19 2001

FOR OFFICE USE ONLY

PERMIT NO. U.W. 131351
WATER DIVISION NO. 4 DISTRICT 16
U.W. DISTRICT Teton Co.

Temporary Filing No. U.W. 31-4-37
NOTE: Do not fold this form. Use typewriter or print neatly with black ink.
ALL ITEMS MUST BE COMPLETED BEFORE APPLICATION IS ACCEPTABLE

NAME AND NUMBER OF WELL or SPRING JH AVIATION OFFICE #2
1. Name of applicant(s) U.S.D.E., National Park Service
Jackson Hole Airport Board Phone: 307-733-7682
2. Address of applicant(s) 301 S. Howes, Rm. 353, Ft. Collins, CO 80521
P.O. Box 159, Jackson Wyoming 83001
(MAILING ADDRESS) (CITY) (STATE) (ZIP)
3. Name & address of agent to receive correspondence and notices
(MAILING ADDRESS) (CITY) (STATE) (ZIP) Phone:

4. Use to which the water will be applied:
☐ Domestic: Use of water in 3 single family dwellings or less, noncommercial watering of lawns and gardens totalling one acre or less. Number of houses served?
☐ Stock Watering: Normal livestock use at four tanks or less within one mile of well or spring. Stockwatering pipelines and commercial feedlots are a miscellaneous use. Number of stock tanks?
☐ Irrigation: Watering of commercially grown crops (large-scale lawn watering of golf courses, cemeteries, recreation areas, etc., is miscellaneous use).
☐ Municipal: Use of water in incorporated Towns and Cities (use of water in unincorporated towns, subdivisions, improvement districts, mobile home parks, etc. are classified as miscellaneous use).
☐ Industrial: Long term use of water for the manufacture of a product or production of oil/gas or other minerals (oil field water flood operations, power plant water supply, etc.). (Describe in REMARKS)
☒ Miscellaneous: Any use of water not defined under previous definitions such as stockwater pipelines, subdivisions, mine dewatering, mineral / oil exploration drilling, reclamation purposes, potable and sanitary supplies in offices or light manufacturing, animal waste management, etc. Describe miscellaneous use completely: Water to serve office building, drinking water and sanitary facilities; and landscape watering (2 acres)
☐ Monitor, Observation or ☐ Test Well: (Describe in REMARKS)

5. Location of the well or spring: (NOTE: Quarter-quarter (40 acre subdivision) MUST be shown. EXAMPLE: SE 1/4 NW 1/4 of Sec. 12, Township 14 North, Range 68 West.)
Teton County, NE 1/4 SW 1/4 of Sec. 14, T. 42 N., R. 116W. of the 6th P.M. (or W.R.M.), Wyoming. If located in a platted subdivision, also provide Lot Block of the Subdivision (or Add'n) of Resurvey Location: Tract, (or Lot)

6. Estimated depth of the well or spring is 92 feet.
7. (a) MAXIMUM instantaneous flow of water to be developed and beneficially used: 60 gallons per minute.
NOTE: If for domestic and / or stock use, this application will be processed for a maximum of 25 gallons per minute. For a spring, after approval of this application, some type of artificial diversion or improvement must be constructed to qualify for a water right.
(b) MAXIMUM volumetric quantity of water to be developed and beneficially used per calendar year: 300 AC/FT
Circle appropriate units: (Gallons) (Acre Feet) A four person family utilizes approximately one (1) acre-foot of water per year or 325,000 gallons.

8. Mark the point(s) or area(s) of use in the tabulation box below.
TABULATION BOX

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTAL
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
42N	116W	14																	

9. If for irrigation use:
a. Describe MAXIMUM acreage to be irrigated in each 40 acre subdivision in the tabulation box above.
b. ☐ Land will be irrigated from this well only.
c. ☐ Land is irrigated from existing water right(s) with water from this well to be additional supply. Describe existing water right(s) under REMARKS.
10. If for irrigation use, describe method of irrigation, i.e. center pivot sprinkler, flood, etc.:

11. The well or spring is to be constructed on lands owned by U.S. Dept. of Interior (Park Service)
(The granting of a permit does not constitute the granting of right-of-way. If any easement or right-of-way is necessary in connection with this application, it should be understood that the responsibility is the applicant's. A copy of the agreement should accompany this application, if the land is privately owned and the owner is not the co-applicant.)
12. The water is to be used on lands owned by U.S. Dept. of Interior (Park Service)
(If the landowner is not the applicant, a copy of the agreement relating to the usage of appropriated water on the land should be submitted to this office. If the landowner is included as co-applicant on the application, this procedure need not be followed.)
- NOTE: Water rights attach to the area(s) and/or point(s) of use.

REMARKS: This is a refiling of cancelled Permit No. U.W. 93448, which was cancelled per statutes.

Under penalties of perjury, I declare that I have examined this application and to the best of my knowledge and belief it is true, correct and complete.

This instrument was received and filed for record on the 6TH day of December, A.D. 2000, at 9:00 o'clock A. M.

Permit No. U.W.

131351

for State Engineer

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

This application is approved subject to the condition that the proposed use shall not interfere with any existing rights to ground water from the same source of supply and is subject to regulation and correlation with surface water rights, if the ground and surface waters are interconnected. The use of water hereunder is subject to the further provisions of Chapter 169, Session Laws of Wyoming, 1957, and any subsequent amendments thereto.

Granting of a permit does not guarantee the right to have the water level or artesian pressure in the well maintained at any specific level. The well should be constructed to a depth adequate to allow for the maximum development and beneficial use of ground water in the source of supply.

If the well is a flowing artesian well, it shall be so constructed and equipped that the flow may be shut off when not in use without loss of water into sub-surface formations or at the land surface.

FOR ADDITIONAL CONDITIONS AND LIMITATIONS SEE ATTACHED STATUS SHEET.

This permit and accompanying notices serve to register an existing well and establish a valid water right for the same. Time limit for Completion of Construction and Completion of Beneficial Use is waived.

~~Approval of this application may be considered as authorization to proceed with construction of the proposed well as long as a Statement of Completion will be filed within thirty (30) days of completion of construction, including pump installation.~~

~~Completion of construction and completion of the beneficial use of water for the purposes specified in Item 4 of this application will be made by December 31, 10.~~

The amount of appropriation shall be limited to the quantity to which permittee is entitled as determined at time of proof of application of water to beneficial use.

Witness my hand this 12th day of December, A.D. 2000

PERMIT STATUS

Priority Date December 6, 2000

Approval Date DEC 12 2000

ADDITIONAL CONDITIONS AND LIMITATIONS:

1. A meter acceptable to the State Engineer is required to accurately measure the total quantity of water produced from this well.
2. An annual report shall be submitted to the State Engineer no later than February 15 of each year stating the total amount of water produced from this well each month during the previous January 1 to December 31, twelve (12) month period.
3. The report shall identify the well by name, location, permit number and shall identify the type of meter used for the measurement.
4. The report shall contain at least two (2) semi-annual measurements of the static water level in the well as measured twenty-four (24) consecutive hours after pumping has ceased. The dates the measurements were obtained and the period of time the well was "shut-in" prior to obtaining the measurements must be specified.
5. The State Engineer may, upon written request, waive all or any portion of these conditions and limitations.

**THIRD AMENDMENT TO THE
AGREEMENT BETWEEN
THE UNITED STATES DEPARTMENT OF THE INTERIOR
AND THE JACKSON HOLE AIRPORT BOARD**

This Third Amendment to the Agreement Between the United States Department of the Interior and the Jackson Hole Airport Board is entered into effective the 18 day of May, 2011 by and between the Jackson Hole Airport Board, a body corporate organized under the laws of the State of Wyoming (the "Board") and the United States of America, acting through the Department of the Interior (the "Department").

WHEREAS, the Jackson Hole Airport (the "Airport") was established at its present location in the 1930's, has been served by commercial airlines since 1941;

WHEREAS, the Act of March 18, 1950, 16 U.S.C. §§7a-7e authorizes the Secretary of the Interior to enter into agreements with public agencies, such as the Board, for the improvement, operation and maintenance of airports within national parks;

WHEREAS, pursuant to said Act, the Department and the Board entered into an Agreement dated April 27, 1983, as amended July 29, 1985 and July 30, 2003 (the "Agreement"), for the operation of the Airport within Grand Teton National Park (the "Park");

WHEREAS, the Agreement provides for a term of 30 years, and grants the Board two 10-year options to renew, which options have been exercised by the Board;

WHEREAS, to facilitate its qualification for Federal Aviation Administration Grants In-Aid and for appropriate amortization of costs of improvement, including navigation and noise abatement aids, the Board has requested that it be granted two additional 10-year options to renew the Agreement term; and

WHEREAS, the Board is in material compliance with the terms and conditions of the Agreement, and the Department has complied with the requirements of the National Environmental Policy Act with respect to this proposal.

NOW THEREFORE, for valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. The first sentence of Section 1(a) of the Agreement is amended by striking all after the semicolon and substituting the following in lieu thereof: "provided, that at the end of the 10th year of said 30-year term and within 120 days prior to the end of each 10-year period thereafter the Board shall have the option to renew this Agreement for an additional 10-year term, unless the Department has given the Board notice that the Board has not substantially and satisfactorily complied with all of the essential terms and conditions of this Agreement, in which event (a) the Board may not exercise an option until the Department determines that such failure of compliance has been cured by the Board, or (b) the Board has obtained a judicial determination that it is in such compliance. In either of these events, the Board's time for option exercise shall be extended until 30 days after its receipt of either determination."

2. The last sentence of Section 1(a) of the Agreement is amended by striking the word "50" and substituting "70" in lieu thereof.

3. Section 12 of the Agreement is deleted and replaced with the following:

12. Cooperation, Review of Agreement Terms and Mitigation Measures. The parties agree to confer with each other from time to time during the term of this Agreement relative to any changed circumstances, including without limitation any technological advances which are available on a commercially reasonable basis relative to operations at the Airport. In addition, the parties agree to comprehensively review the terms and conditions of this Agreement, from time to time during any term

of this Agreement, but no less often than every five (5) years, and (a) discuss whether any amendments to this Agreement would result in better ensuring that the Airport remains compatible with the purposes and values of Grand Teton National Park, would improve the safety and efficiency of Park and/or Airport operations, or other such amendments as the parties deem appropriate, and (b) discuss and identify mitigation measures which may then be available to comply with the requirements of Section 4(i) of this Agreement.

4. Section 4 of the Agreement is amended by adding to the end thereof a new paragraph (i) which reads as follows:

(i) Mitigation of Effects. In addition to meeting the cumulative and single event standards set forth above, the Board shall seek to further reduce noise and other negative environmental impacts associated with the Airport. The Board will act in good faith and in coordination and cooperation with the National Park Service to develop and implement such reasonable and cost-effective mitigation measures as may be available to reduce environmental impacts on the Park to the lowest practicable levels consistent with the safe and efficient operations of the Airport, and with applicable law and contractual obligations.

Nothing in this paragraph 4 (i) shall require the Board to pursue or implement any mitigation or other measure which would result in a violation of law, or FAA grant agreements and assurances, or the Board's other contractual obligations existing on August 1, 2010, or for which funding is not reasonably available, or which would result in a *de minimis* environmental benefit when compared to costs.

5. Section 13 of the Agreement is amended by adding to the end thereof a new paragraph (h) which reads as follows:

(h) Biennial Report. By March 31, 2012, and each two years thereafter, the Board shall submit a report to the National Park Service describing the Board's activities and operations for the previous two calendar years, its efforts at reducing negative environmental impacts, and specifically its efforts to reduce its noise impacts on the Park. The National Park Service shall acknowledge receipt of and respond to each such report within 120-days of receipt.

**SECOND AMENDMENT
TO THE
AGREEMENT BETWEEN
THE UNITED STATES DEPARTMENT OF THE INTERIOR
AND THE JACKSON HOLE AIRPORT BOARD**

This Second Amendment to the Agreement Between the United States Department of the Interior and the Jackson Hole Airport Board is entered into effective the 30th day of July, 2003 by and between the Jackson Hole Airport Board, a body corporate organized under the laws of the State of Wyoming (the "Board") and the United States of America, acting through the Department of the Interior (the "Department").

WHEREAS, the Act of March 18, 1950, 16 U.S.C. § 7a-7e authorizes the Secretary of the Interior to enter into agreements with public agencies, such as the Board, for the improvement, operation and maintenance of airports within national parks;

WHEREAS, pursuant to said Act, the Department and the Board entered into an Agreement dated April 27, 1983, as amended July 29, 1985 (the "Agreement"), for the operation of the Jackson Hole Airport within Grand Teton National Park;

WHEREAS, the Department proposes to construct a helicopter facility on the Airport at a location outside the development subzone, and the Board desires to facilitate such construction, under mutually agreeable terms; and

WHEREAS, the Department has complied with the requirements of the National Environmental Policy Act with respect to its proposed construction of a helicopter facility at such location on the Airport.

NOW THEREFORE, for valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. The Agreement is amended by adding a new Section 7(f) as follows:
- (f) Department Helicopter Facility. Notwithstanding anything to the contrary herein, the parties agree that the Department may construct, operate and maintain a helicopter facility (the "Helibase") at a location generally depicted on the annexed Attachment G. The construction, operation and maintenance of the Helibase shall be contingent upon and subject to the terms of a separate agreement to be negotiated and executed by the parties.

2. The Agreement is further amended by adding a new Subsection 4(i) as follows:

(i) Exemption for Certain Operations Necessary for Public Health and Safety. Notwithstanding anything in this Section 4 to the contrary, in recognition that the helicopter operations from the Helibase authorized in Section 7(f) of this Agreement are conducted for purposes of public health and safety, and/or in direct furtherance of the mission of federal resource management agencies, the Board is relieved of its obligation under Paragraph 4(e) above, to notify operators of aircraft originating from the Helibase to avoid noise sensitive areas of Grand Teton National Park, or to take efforts to limit the approaches and departure routes of such aircraft, and such aircraft operations shall be exempt from the single event limit, and shall not count against the cumulative noise limits of Subsections 4(f) and (g) above.

3. Other than as set forth in Paragraph 1 above, the Agreement shall not be otherwise amended, but shall remain in full force and effect in accordance with its terms.

SCANNED DEC 17 2014

AMENDMENT TO THE
"AGREEMENT BETWEEN THE
UNITED STATES DEPARTMENT OF THE INTERIOR
AND THE
JACKSON HOLE AIRPORT BOARD,"
DATED APRIL 27, 1983

This amendment is entered into pursuant to Section 1(b) and Section 12 of the subject agreement.

first sentence in the
The third paragraph of Section 4(e) of the subject agreement is hereby amended to read as follows: *S.A. L.M.*

"The Board shall implement all measures contained in the revised plan as soon as is practicable, but no later than two (2) years from the effective date of this agreement. The Board shall take reasonable, timely, and diligent actions to secure Department of Transportation approval by November 14, 1985, that the revised plan is in accordance with FAR Part 150; shall timely amend said plan if necessary to obtain Department of Transportation approval; and shall implement any such amended revised plan as soon as is practicable after receiving approval, but no later than thirty (30) days thereafter."

Further, Section 5 of the subject agreement is hereby amended to read as follows:

"In the event the Board shall be in default due to its failure to perform any of the terms and conditions set forth in this agreement, the Department shall be entitled to terminate this agreement. The agreement may not be terminated without giving the Board an opportunity for a hearing on the merits as to the alleged default and without providing the Board a reasonable period within which to cure the default. This reasonable period shall be such time as will be sufficient to provide the Board with an opportunity to cure the default and shall be thirty (30) days from receipt of notice of default, or in the case of a default in the requirements of Section 4(f) of this agreement, ninety (90) days from receipt of notice of default; unless the Board shall demonstrate in writing and the Department shall concur, such concurrence not to be unreasonably withheld, that a longer period is necessary to provide the Board with an opportunity to cure the default."

AGREEMENT BETWEEN THE
UNITED STATES DEPARTMENT OF THE INTERIOR
AND THE
JACKSON HOLE AIRPORT BOARD

This agreement is entered into pursuant to the Act of March 18, 1950, 16 U.S.C. 7a-7e, by the United States of America acting through the Department of the Interior (Department) as represented by the Secretary of the Interior, and the Jackson Hole Airport Board (Board) which is an organization created under the laws of the State of Wyoming by Resolution of the Board of County Commissioners of Teton County, Wyoming and Ordinance of the Town of Jackson, Wyoming.

The Board has operated, and is presently operating an airport in Grand Teton National Park under permits with the U.S. Department of the Interior, National Park Service, presently scheduled to expire on April 25, 1995. 1/

The Secretary of the Interior has determined that the continued operation of such airport is necessary to the proper performance of the functions of the Department and that no feasible and prudent alternatives thereto exist. It is, therefore, the desire of the parties that this agreement be executed to extend the term of the present permit to provide a mechanism to facilitate the qualification for Federal Aviation Administration grants-in-aid and for appropriate amortization of improvement costs, to make necessary changes in the terms thereof, and to set forth more precisely the mutual obligations and responsibilities of the parties.

1/ Special Use Permits Nos. 14-10-217-146, April 29, 1955 and 1450-9-9022, August 1, 1979.

SP# 1460830018

TERMS AND CONDITIONS

1. TERM OF AGREEMENT.

(a) Term. This agreement shall be effective upon the date of the last signature hereto and for a primary term of 30 years thereafter; provided, that at the end of the 10th year of said 30-year term and at the end of each 10-year period thereafter the Board shall have an option to renew this agreement for an additional 10-year term if the Board has substantially and satisfactorily complied with all of the essential terms and conditions of this agreement. The term of this agreement, as extended, shall not exceed 50 years.

(b) Extensions and Modifications. Further extensions, amendments or modifications may be negotiated by the parties on mutually satisfactory terms. Furthermore, upon expiration of the agreement the Parties agree to negotiate in good faith a mutually satisfactory extension of the agreement.

2. DESCRIPTION OF LAND.

During the term of this agreement the Board is authorized to use the following described land in Grand Teton National Park, to wit:

Beginning at the SW corner of the NW 1/4, NW 1/4, Section 23, T. 42N., R. 116W., 6th Principal Meridian, running northward along the section line to the NW corner of the SW 1/4, Section 14. Then northwest to a point 280 feet south and 310 feet west of the NW corner of the SW 1/4, NW 1/4, Section 14; thence NE to the NW corner of the SW 1/4, NW 1/4, Section 14. Then NE to the NE corner NW 1/4, NW 1/4, Section 14, and then NE to a point 500 feet north and 250 feet east of the SW corner of the NW 1/4, NE 1/4, Section 11. Then in an easterly direction to a point 550 feet east of the SW corner of the NE 1/4, NE 1/4, Section 11; thence southward to the NW corner SW 1/4, NE 1/4, Section 14; then along the 1/4 section line to the center 1/4 corner of Section 14. Then southwesterly to the NE

corner, NW 1/4, NW 1/4, Section 23, and then south to the SE corner, NW 1/4, NW 1/4, Section 23, and then west to the point of beginning.

Said area contains + 533 acres for the purpose of operating a public airport facility pursuant to the Act of March 18, 1950, as amended, supra.

In addition to those lands legally described above, additional lands, approximately 4.37 acres, are hereby assigned for the purpose of allowing the Airport Board to use and maintain the access road from U.S. Highway 26/89 that serves the airport. The extent of this additional land shall be 30 feet on each side of the center line for the sole purpose of maintenance and operation of the existing access road, which is approximately .6 mile in length. Maximum paving width on any future repaving shall not exceed a total of 24 feet. In advance of any reconstruction of the road, plans shall be reviewed by the National Park Service in accordance with section 7 of this agreement.

3. PAYMENTS.

In consideration of the permission to use the land described above and the other terms and conditions herein specified, the Board shall perform snow removal services for the airport access road and parking lots and maintain the access road as set forth in Section 7(e) of this agreement (which services were formerly performed by the Department), and pay to the United States the sum of one percent of the first \$200,000 of Operating Receipts of the Board (excluding grants and revolving funds, as listed in Attachment A) and one-and-one-half percent of any Operating Receipts of the Board exceeding \$200,000. "Operating Receipts" as used in this subparagraph means those funds received by the Board as the result of operations carried on at the airport and do not include federal, state or local grants, loan receipts, revolving funds, interest income or receipts from the Town of Jackson or Teton County, Wyoming. This fee shall be payable within sixty (60) days following the close of the Board's fiscal year and shall be paid to the Superintendent of Grand Teton National Park.

An interest charge will be assessed on overdue amounts for each 30 day period, or portion thereof, that payment is delayed. The percent of interest charged will be based on the current value of funds to the United States Treasury which is published quarterly in the Treasury Fiscal Requirements Manual.

4. REGULATIONS AND AIRPORT OPERATION.

(a) General. In the operation of the airport, the Board shall comply with all applicable Federal rules and regulations. The Board will be notified and afforded an opportunity to comment on any regulations proposed by the Department affecting airport operations.

(b) Management Responsibility. The Board is deemed the operator of the airport as defined in the applicable Department of Transportation regulations, and, as such, is solely responsible for the operation, management, utilization and maintenance thereof. The Board shall consult with the Department on such matters as may significantly affect the proper performance of the functions of the Department.

(c) Federal Aviation Administration Regulations. Airport operations must comply with the regulations of the Federal Aviation Administration governing operations of airports of this class and size.

(d) Federal Aviation Administration Special Use Permits. Special Use Permits issued to the Federal Aviation Administration for ILS/DME Clear Zones, Localizer Facility Sites, TVOR, RCAG and VASI facilities and related facilities, some within and other outside the established Airport boundary, as specified in the attached map (Attachment B), take precedence over other airport uses.

(e) Noise Control Plan. The Board's existing noise control plan will remain in effect, except as specifically modified by this agreement. Within twenty (20) months of the effective date of this agreement, the Board shall complete a revised plan based upon Federal Aviation Administration regulations, FAR Part 150, (14 C.F.R. Part 150) which utilizes the latest in noise mitigation technology and procedures. The revised plan will be developed in a comprehensive study to consider all of the relevant environmental, economic, and operational considerations.

Amc

The primary objective of the revised plan shall be to ensure that future airport operations are controlled in such a manner that aircraft noise exposure will remain compatible with the purposes of Grand Teton National Park and will result in no significant increase in cumulative or single event noise impacts on noise sensitive areas of the Park. See Attachments C (Figure 1) and D (Figure 2). The revised plan shall also seek to ensure

that airport operations are conducted in such a manner that aircraft noise exposure will be reasonably compatible with other adjacent land uses.

The Board shall implement all measures contained in the revised plan, as approved by the Department of Transportation, as soon as is practicable thereafter, but no later than two (2) years from the effective date of this agreement. The Board, on a continuous basis thereafter, will review and amend the plan to incorporate new prudent and feasible technological advances which would allow further reduction in noise impacts on Grand Teton National Park, and such amendments shall be implemented by the Board as soon as is practicable following approval by the Department of Transportation.

amended
7-29-8

The Board will take all reasonable measures to notify aircraft operators to avoid noise sensitive areas of Grand Teton National Park. The Board will maintain records of complaints of aircraft violating the FAA airspace advisory of 2,000 feet above ground level over Grand Teton National Park and notify the appropriate FAA Flight Standards Office of all such complaints. Further, to the extent feasible, the Board will limit airport approaches from and departures to the north, and encourage pilots taking off to or approaching from the north to maintain a course east of U.S. Highway 26/89 north of Moose.

(f) Cumulative Noise Standards. The cumulative noise standards specified below will be enforced as soon as practicable after the effective date of the agreement, but no later than two (2) years. Failure to enforce these noise standards shall be a material breach of the agreement. Compliance with the noise standards will be determined through the collection of noise measurement data over the periods identified and locations specified in this agreement.

(1) Acoustical energy associated with airport operations shall not exceed a level of 45 dB (Ldn), as determined by calculations set out below, based on measurement of single event noise levels, west of a line drawn between the southwest corner of Section 3, Township 42 North, Range 116 West, and the northeast corner of Section 30, Township 44 North, Range 115 West, and no further north than the north section line of Sections 26, 27, 28, and 29, Township 44 North, Range 115 West. Monitoring station(s) shall be located approximately along the line described above in this paragraph.

Determinations of the 45 dB (Ldn) levels will be made using the following methods and calculation procedures:

a. Noise Metrics/Noise Measurement Equipment: Single event noise levels shall be measured using a Type 1 Precision Integrating Sound Level Meter (PISLM) or equivalent system capable of displaying:

1. Sound Exposure Level (SEL), the single event acoustical dose (also expressed L_{AE}).
2. Maximum A-Weighted Sound Level (dBA), measured using SLOW dynamic response, (also expressed as L_{A5m}).
3. All measurement equipment and measurement practices shall comply with International Electrotechnical Commission Publication 651 (IEC-651).

b. Data Reporting: For each single event aircraft noise measurement it is necessary to provide the following:

1. Aircraft type, air carrier identification
2. Type of operation (landing or takeoff)
3. dBA
4. SEL
5. Graphic Level Time History (optional)
6. Time of maximum dBA occurrence
7. Airport reported wind, direction and speed temperature.

c. Determination of Statistical Average Sound Levels for Aircraft Type.

1. For each aircraft type within the airport mix determine a mean SEL and dBA value along with standard deviation for both approach and departure operational modes. These mean values must in each case reflect a statistical population of events which in turn reflect the yearly average airport operational characteristics including low wind (i.e., less than 10 knots), average temperature, and representative trip length.

2. For each determination of average sound exposure level (SEL) it is necessary to acquire a population sample size necessary to achieve a 90% confidence interval of ± 1.5 dB.

d. Noise Calculation Matrix: As the first step in estimating the yearly average Day-Night Sound Level (L_{dn}) it is necessary to develop the following tables.

Takeoff

[illegible]

Approach

[illegible]

* N is the effective yearly-average daily number of operations.
 $N = N_d + (10 \times N_n)$, where N_d is the number of operations between 7 a.m.
 and 10 p.m., and N_n is the number of operations between 10 p.m. and
 7 a.m.

The estimate of the yearly-average Day-Night Sound Level (Ldn) is then calculated as follows:

$$Ldn = 10 \log (A+T) - 49.4$$

(2) Further, airport operations will not generate a 55 Ldn noise contour which extends beyond the boundary of the noise sensitive areas of the park as set forth in Attachments C (Figure 1) and D (Figure 2), which has been established based on the environmental resource needs of the park.

The 55 Ldn contour will be determined from the FAA Integrated Noise Model, Version 3.8, using the most current airport operations, including aircraft operation, flight tracks and time of operation. The noise contour shall then be validated using a measured estimate of the yearly average Ldn. The estimate shall be based on a sample of measured 24-hour Ldn values for not less than ten (10) days, each day characterized by nominal yearly-average operational characteristics. The estimate shall be reported along with the 90% confidence interval (CI). If the 90% CI exceeds 1.5 dB, the sample size shall be increased until a 90% CI of 1.5 dB is attained. Noise data shall be measured using appropriate acoustical engineering methodology as defined in American National Standards Institute (ANSI) and International Electrotechnical Commission (IEC) publications, and at location(s) agreed to by the Airport Board and the National Park Service.

(g) Single Event Noise Standard. No aircraft will be permitted to operate at the Jackson Hole Airport which has a single event noise level which exceeds 92 on the dBA scale on approach.

The single event noise standard specified above will be enforced as soon as practicable after the effective date of the agreement, but no later than 6 months. Failure to enforce this noise standard shall be a material breach of the agreement.

Compliance with the single event noise standard above will be determined by reference to Federal Aviation Administration Advisory Circular 36-3B, or the version of that document currently in effect. No adjustments for gross weight will be allowed. Aircraft types and models which are not listed in Advisory Circular 36-3B will be allowed to operate if the FAA determines that the aircraft type and model would meet the noise limits stated below if it were tested according to FAA procedures and the operator obtains approval from the Airport Board certifying that operation of the aircraft is compatible with conditions for operation of the airport.

(h) Commercial Scenic, Charter, and Training Flights. The Board agrees that it will insert in all subcontracts involving aircraft operations, and take reasonable measures to enforce, a provision prohibiting the origination of commercial scenic or charter flights, as well as aircraft training operations, over noise sensitive areas of the park, (see Attachments C (Figure 1) and D (Figure 2)), except when instrument operations are required to or

from the north by weather conditions or for instrument flight training, or are desirable for night time operations and except when required to utilize Victor (VOR-Federal) airways; provided, however, the above instrument operations not specifically required by weather conditions must be conducted under Instrument Flight Rules (IFR) and cleared through FAA Air Traffic Control, and Victor airways must be intercepted outside the noise sensitive areas of the park at the minimum en route altitude prescribed for the airway and aircraft must maintain at least that altitude over the noise sensitive areas of the park.

5. REVOCATION.

In the event the Board shall be in default due to its failure to perform any of the terms and conditions set forth in this agreement, the Department shall be entitled to terminate this agreement. The agreement may not be terminated without giving the Board an opportunity for a hearing on the merits as to the alleged default and without providing the Board a reasonable period within which to cure the alleged default. This reasonable period shall be such time as will be sufficient to provide the Board with an opportunity to cure the alleged default and, shall, in any event, not be less than ninety (90) days.

amex
7-10

6. ASSIGNMENT.

This agreement may not be assigned or transferred without the written consent of the Department, provided, however, this provision shall not be construed to prevent assignments for the purpose of obtaining financing, transfers by operation of law, or to successor governmental authorities.

7. IMPROVEMENTS.

(a) General Construction. The Board may construct or install upon the lands included in this agreement such buildings, structures, or other improvements and build or construct such roads as are necessary and desirable for the operations permitted hereunder in the development subzone as marked on Attachment B. In addition, the Board may construct additional aircraft parking in the area marked on the attached map. The Board may not, however, do any of the following:

- (1) Install any improvements other than navigational and safety aids west of the existing runway.
- (2) Construct or permit the operation of any commercial overnight lodging accommodation facilities.

- (3) Construct or permit the operation of any industrial or other facilities unrelated to direct airport operations.
- (4) Construct any facilities (other than a control tower) at an elevation height in excess of the existing buildings.

All such structures or improvements will be compatible in architectural style and appearance with existing structures. The Board will be solely responsible for securing funds and carrying out any construction project. The Board will notify the Department of any proposed construction when and if preliminary or conceptual plans are developed. In addition, the Board will provide the Department with copies of proposed, detailed plans and specifications at least 150 days prior to planned initiation of construction and the Department will provide the Board with its written comments, if any, within 60 days thereafter.

The Board agrees to immediately cease all construction activities and notify the Department if any significant scientific, prehistorical, historical, or archeological data is being or may be irrevocably lost or destroyed as the result of such construction. Once construction has been discontinued, the Board agrees it will not be resumed prior to approval from the Department.

(b) Runway Extension. This agreement does not authorize the extension of the runway, which can only be accomplished by amendment to the agreement.

(c) Signs. All signs constructed or authorized by the Board shall be compatible with signs utilized by the National Park Service in Grand Teton National Park.

(d) Removal. Upon termination or revocation of this permit, the Board may remove any such building, structure, or improvement and if removed, shall restore the site thereof to as nearly a natural condition as possible. Any buildings, structures or improvements as have not been removed by the Board within six months following the revocation or termination of this permit shall become the property of the United States without compensation therefor. The Board agrees to remove any terminal facility on the land at its cost within six months after termination or expiration of this permit, if requested to do so by the National Park Service.

(e) Maintenance. The Board will physically maintain and repair all facilities used in the operation, including grounds maintenance and all necessary housekeeping activities associated with the operation, in a safe, sanitary, and sightly condition. Snow removal on the runways, taxiways, parking ramps, public parking lots, and roads including the access road, shall be the responsibility of the Board. Maintenance of the access road will be the responsibility of the Board. In order that a high standard of physical appearance, operations, repair and maintenance will be assured, appropriate annual inspections will be carried out jointly by the Department and the Board to determine such maintenance and repair needs.

The Board shall, at all times, keep the airport on the lands covered by this agreement equipped and maintained in accordance with the requirements of the Federal Aviation Administration or such other governmental agency or official as may have lawful jurisdiction and authority thereover.

8. INSURANCE.

(a) Insurance on Improvements. The Board shall carry or cause subcontractors and lessees to carry insurance on buildings and improvements against losses by fire or other hazards in an amount satisfactory to the Board. Amounts shall be subject to approval by the Department for facilities constructed with Department funds. In the event of loss, in whole or in part, of any such buildings or improvements as may be insured pursuant to the provisions hereof, such insurance shall be applied toward either (1) the replacement, rehabilitation, or repair of such building or improvements; or (2) the Board may elect to not rebuild and shall thereupon use the proceeds to remove any debris and restore the site; or (3) the construction of other buildings or improvements.

(b) Indemnity Insurance. The Board shall indemnify and hold the government harmless for any and all losses, damages, or liability on account of personal injury, death, or property damage, or claims for personal injury, death, or property damage of any nature whatsoever and by whosoever made, arising out of the activities of the Board, its employees, subcontractors, lessees, or agents.

For the purpose of fulfilling its obligations under this paragraph, the Board will provide the Department with written notice that the Board has obtained insurance, and the Board shall thereafter provide the Department written notice of any material change affecting the insurance program effected by the Board. The Board shall annually provide the Department with certificates of

insurance or other similar documents sufficient to evidence compliance with this section. The amounts of the insurance shall be equal to or greater than what is usually carried by prudent operators of similar airports.

9. SERVICES AND RATES.

(a) Business Activities. The business activities as shown on Attachment E providing services to the public by virtue of subcontracts, all of which activities have in the past and are presently being carried on, are authorized. The Board may provide other goods and services at the airport which are customary and usual for airports of this class and size and which are, to the maximum extent practicable, compatible with the purposes of Grand Teton National Park. When instituted, such activities shall be listed by the Board by written notice to the Department.

(b) Rates and Prices. Pursuant to 16 U.S.C. 7d all rates and prices charged by the Board and its subcontractors and licensees to the public shall be fair and reasonable. Reasonableness shall be judged primarily by comparison with those current for airports of comparable character under similar conditions, with due consideration for length of seasons, availability and costs of labor and materials, a reasonable rate of return on capital invested, and other factors affecting pricing at the Jackson Hole Airport. The Board shall advise the Department in writing of any proposed additional business activities or implementation of any proposed rates prior to institution of such activities or implementation of changes in previous rates, and such activities will also be subject to the provisions of section 7 of this agreement.

10. NON-DISCRIMINATION.

See Attachment F.

11. PUBLIC SAFETY.

(a) Law Enforcement. The board shall be responsible for general airport security and for the prevention of or the investigation of criminal activity on the airport grounds; however, the Department shall be notified immediately of such crimes as burglary, larceny, assault, rape or homicide, or any other felony.

(b) Fire and Rescue. The Board shall be responsible for the prevention and suppression of fires which occur on airport grounds including those resulting from aircraft accidents during the hours in which scheduled air carrier (FAR Part 121) operations are in

progress. The Board shall also respond as quickly as possible to fires occurring at all other hours. The Board shall also ensure that a crash truck and sufficient personnel are available to man the crash truck and are trained in the suppression of aircraft fires and the rescue of victims of aircraft crashes. The Department shall be notified of any personal injury accident or fatalities, all fires, and all aircraft accidents.

12. COOPERATION.

The parties agree to confer with each other on a continuing basis during the term of this Agreement relative to any changed circumstances, including, without limitation, any technological advances which are available on a commercially reasonable basis relative to operations at the Jackson Hole Airport and to negotiate in good faith to adopt any reasonable amendment to this Agreement in recognition of any such developments.

13. MISCELLANEOUS PROVISIONS.

(a) Water Rights. The Board will obtain all water rights necessary or proper for use in connection with this agreement. At the end of the term of this agreement or upon revocation, the Board shall assign all water rights obtained to the Department.

(b) Visitor Information Services. The Department through the National Park Service reserves the right to institute information and interpretive activities in the terminal building as deemed desirable in recognition that the Jackson Hole Airport is a visitor entrance to Grand Teton National Park.

(c) Right of Entry. Representatives of the Department shall have the right, at any time, to enter upon any lands, buildings, or structures included within this agreement for any purposes deemed reasonably necessary for the administration of the area and the Government services therein, but not so as to conflict with Federal Aviation Administration security regulations, nor unreasonably interfere with the Board's use of such lands or the improvements thereon.

(d) Payment and Notices of Actions. Payments by the Board and all correspondence hereunder between the parties, including informational notices of proposed actions by either party shall be sent by certified mail, return receipt requested, addressed to the appropriate party at the addresses hereinafter indicated or at such other address as may be hereafter designated in writing by either

the parties: President, Jackson Hole Airport Board, P.O. Box 159, Jackson Wyoming, 83001; and Superintendent, Grand Teton National Park, Moose, Wyoming 83012.

(e) Officials Not to Benefit. No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this agreement, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this agreement if made with a corporation for its general benefit.

(f) Termination of Existing Permit. Upon the effective date of this agreement, Special Use Permit No. 1460-9-9022, August 1, 1979, is terminated, by agreement of the parties, in its entirety.

(g) Financial Report. The Board shall submit, not later than sixty (60) days after the close of its fiscal year, a copy of their financial report for the preceding year. The Department shall have the right to examine the Board's records to verify all such reports.

NON-DISCRIMINATION

United States Department of the Interior

The following provisions constitute Condition in accordance with Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967.

Nondiscrimination. If use of the land covered by the agreement will involve the employment by the Board of a person or persons, the Board agrees as follows:

(1) The Board will not discriminate against any employee or applicant for employment because of race, creed, color, ancestry, or national origin. The Board will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, creed, color, ancestry, or national origin. Such action shall include but not be limited to the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination, rated of pay or other forms of compensation; and selection for training, including apprenticeship. The Board agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Department setting forth the provisions of this nondiscrimination clause.

(2) The Board will, in all solicitations or advertisements for employees placed by or on behalf of the Board, state that all qualified applicants will receive consideration for employment without regard to race, creed, color or national origin.

(3) The Board will send to each labor union or representative of workers with which it had a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Department, advising the labor union or workers' representative of the Board's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The Board will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and amended by Executive Order No. 11375 of October 13, 1967, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Board will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

(6) In the event of the Board's noncompliance with the nondiscrimination clauses of this agreement or with any of such rules, regulations, or orders, this agreement may be cancelled, terminated or suspended in whole or in part and the Board may be declared ineligible for further government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, and other sanctions may be imposed and remedies involved as provided in Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Board will include the provisions of paragraph (1) through (7) in every subcontract or purchase order unless executed by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 284 of Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, so that such provisions will be binding upon each subcontractor or vendor. The Board will take such action with respect to any subcontract or purchase order as the Department may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, that in the event the Board becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Department, the Board may request the United States to enter into such litigation to protect the interests of the United States.
