STATE California **COUNTY** Shasta **DOCKET NO** WR #10

LOCATION SE¼ SW¼ Section 23, T32N, R6W MDB&M

REGIONAL BASIN Sacramento River **LOCAL BASIN**

ACQUIRED BY purchase

APPLICATION Revoked (20262) **PERMIT** Revoked (13375) **CERTIFICATE**

ACTION DUE **PRIORITY** **RESERVATION**

QUANTITY 2400 gallons per day **USE** domestic, irrigation and stockwatering

STATUS Active **SOURCE** surface waters

REMARKS Unnamed Fault, Rock Creek, lies within Hydrologic Basin Unit No. 18020006.

NARRATIVE:

On June 13, 1961, John Porter applied to the State of California to appropriate 2400 gallons per day from an unnamed spring tributary to Rock Creek. He planned to divert the water by pumping a well to be located on federal land. He subsequently obtained a permit from the BLM to locate his well and to install a pipeline from the well to his land. He then began his use of the water for domestic, irrigation and stockwatering purposes.

In 1968, the NPS acquired his tract of land and the appurtenant water right, and the state was notified of this on May 20, 1968. On June 19, 1969, Mr. Dabney, of the State Division of Water Rights, made an inspection of this source. The NPS had notified him of an intention to change the use of the source and the method of diversion. The Service planned to install a siphon with a float control which was to supply water to troughs for wildlife propagation. Mr. Dabney recommended an extension of time until 1970 to complete construction and application to beneficial use. The state allowed the change of use and granted an extension of time to Dec. 1, 1971. On Sept. 19, 1972, the State Division of Water Rights notified the Service of a proposed revocation of the application and permit for failure to complete construction, etc. On Nov. 10, 1972, the state revoked the permit.

NPS availability of water from this source is unaffected by state action as the spring arises and terminates wholly within the Park boundaries.

Memorandum

To: Superintendent, Whiskeytown-Shasta-Trinity NRA

From: Chief, Division of Water Resources, Office of the Regional Chief Scientist, Western Region

Subject: Revoking of Permit No.s 12379 (Peltier Diversion) and 13375 (Unnamed Fault-Rock Creek)

As implied in the California Division of Water Rights letter of September 19, 1972 (which was transmitted to you by our reply of October 4, 1972, to the State Division of Water Rights) the State would issue the orders to revoke subject permits.

We have now received the orders revoking these permits which are enclosed for your information and files (Permit #12379, Application 19075 and Permit #13375, Application 20262). These were anticipated and discussed with the Field Solicitor. However, this action should not interfere with Park water usage or conflict with the Service's water rights policy.

No further action is presently contemplated regarding these permits. The order revoking permits should be filed in the proper docket files.

ORDER REVOKING PERMIT

PERMIT 13375 (APPLICATION 20262)

Permittee: U. S. National Park Service

It is ordered that this permit is hereby revoked and canceled upon the records of the State Water Resources Control Board for the reason indicated:

___ 1. A request has been received by, or on behalf of, permittee that the permit be revoked.

_X_ 2. The State Water Resources Control Board has found that permittee failed to commence, prosecute, and complete the work and to apply water to beneficial use as contemplated in the permit and in accordance with the Water Code and the rules and regulations of the Board, and has revoked said permit as provided in Section 1410 of the Water Code, and has directed that this order be issued.

___ 3. The State Water Resources Control Board has found that permittee failed to apply water to beneficial use as contemplated in the permit and in accordance with the Water Code and the rules and regulations of the Board, and has revoked said permit as provided in Section 1410 of the Water Code, and has directed that this order be issued.

Gentlemen:

Permits 12379 and 13375 (Applications 19075 and 20262), Unnamed Spring and Rock Creek in Shasta County

Your letter of August 22 requests that Permit 12379 be placed on an inactive status.

Enclosed is a pamphlet which explains the Board's policy regarding permits in which time to complete construction and use of water has expired. You will note there is no provision to inactivate a permit for reinstatement at some future, unspecified time.

Also enclosed is a "Notice of Proposed Revocation" of Permits 12379 and 13375. As stated in the notice, unless a request for a hearing is received within 15 days from date of receipt of this letter, we will conclude that the facts stated in the notice are correct and action will be taken to revoke the permits.

Sincerely,

L. C. Spencer

NOTICE OF PROPOSED REVOCATION

Permits 12379 and 13375 (Applications 19075 and 20262) Unnamed Spring and Rock Creek in Shasta County
U. S. Department of the Interior, National Park Service

In accordance with the provisions of Section 1410 of the California Water Code, notice is hereby given that revocation of Permits 12379 and 13375 is proposed because permittee has failed to commence, prosecute, or complete the work contemplated in the permits and to apply the water granted under the permits to beneficial use during the time allotted by the permits.

The facts and information upon which the proposed revocation is based are the following:

Permit 12379

1. This permit was obtained by the permittee in 1970 when the place of use was purchased as a portion of the Whiskeytown National Recreation Area. Up to that time, the previous owner had not developed the project because of the pending acquisition.

2. An extension was granted until December 1, 1971 to complete the project and make beneficial use of the water.

3. A letter has been received from the National Park Service informing the Board that no water has been used under the terms of the permit and requesting the permit be placed in an inactive status.

Permit 13375

1. This permit was obtained in 1968 when the place of use was purchased as a portion of the Whiskeytown National Recreation Area.

2. An inspection in 1969 by the Board's staff found that the nature of use of water was to be changed from that of the original owners who had used some water for domestic purposes. The new use proposed was for wildlife propagation. An extension of time was granted to December 1, 1971 to allow the Park Service to make the installations necessary to establish such use.

3. A further extension of time has been requested. No report of use of water was included in the petition. The permittee states on the petition as the reason why construction and/or use of water was not completed within the time previously allowed: "As comprehensive planning of the area is completed, use of the full amount of water under the permit is anticipated for the purposes of recreation and preservation of the environment in its natural state".

Permittee may request a hearing before the State Water Resources Control Board for the purpose of presenting evidence or testimony to show cause why the permits should not be revoked. However, unless a written request for hearing, signed by or on behalf of permittee, is delivered or mailed to the Board within 15 days after receipt of this notice, the Board may act upon the proposed revocations without a hearing and without further notice.

04-05-1972: narrative from state water resources control board: application 20262; permit 13375

STATE WATER RESOURCES CONTROL BOARD
Division of Water Rights

Application 20262 Permit 13375

To Water User:

Water Code Section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board, in considering requests for extension of time for said development, will review the facts presented herein to determine whether there is a showing of good cause upon which to grant a reasonable extension of time to complete the project. Where diligence in completing the project is not fully substantiated, the Board may set the matter for hearing to determine the facts upon which to base formal action relating to the permit. Formal action may involve:

(1) Issuing a license for the amount of water heretofore placed to beneficial use under the terms of the permit.

(2) Granting a reasonable extension of time to complete construction work and/or full beneficial use of water.

(3) Revoking the permit for failure to proceed with due diligence in completing the project.

The time previously allowed within which to complete construction work and/or use of water has either expired or will expire shortly. Please indicate below the action which you desire taken on this permit:

1. The project has been abandoned and I request revocation of the permit. _____ Yes _____ No

2. Full use of water has been made, both as to amount and as to season, and I request license be issued. _____ Yes _____ No

3. The project is not yet complete and I request an extension of time. XX Yes _____ No

If an extension is requested, the remainder of this form should be completed in detail.

PETITION FOR EXTENSION OF TIME*

If start of construction work has been delayed, complete Items 1, 2, and 3.

1. What has been done since permit was issued toward commencing construction?

_____

_____

2. Estimated date construction work will begin _____

3. Reasons why construction work was not begun within the time allowed by the permit _____

_____

* A fee of $5 must accompany this petition.

If construction work and/or use of water is proceeding but is not complete, an extension of time may be petitioned by completing the appropriate items below. Statements must be restricted to construction or use of water under this permit only.

4. A (1-year), (2-year), (3-year) extension of time is requested to complete construction work and/or beneficial use of water. (Indicate period of time required.)

5. How much water has been used? _____ AF/year _____ cfs

6. How many acres have been irrigated? _____

7. How many houses or people have been served water? _____

8. Extent of past use of water for any other purpose _____

9. What construction work has been completed during the last extension?

10. Approximate amount spent on project during last extension period.
$ _____

11. Estimated date construction work will be completed _____

12. Estimated year in which water will be fully used _____

13. Reasons why construction and/or use of water was not completed within time previously allowed: As comprehensive planning of the area is completed, use of the full amount of water under the permit is anticipated, for the purposes of recreation and the preservation of the environment in its natural state.

Gentlemen:

Enclosed are forms affecting four water permits at Whiskeytown National Recreation Area which the Superintendent has executed and has submitted through this office. This is in accordance with the results of a recent inspection made by C.H. Dabney of your office.

Action on permits are as follows:

Permit No. 13876:	A request for license, and petition for correction in purpose of use.
Permit No. 13375:	A petition for extension of time.
Permit No. 13348:	A request for revocation.
Permit No. 14544:	A request for license and correction of point of diversion and point of use. Petition for extension of time.

Please bill this office for the necessary fee of $5.00.

Sincerely yours,

Recommendation

License ☐ Extension ☒ to 19 70 No action ☐ Revoke ☐

Changes or corrections None ☐
(Indicate by an "X" the items that need change from permit or license and show correctly below)
Owner ☐ Address ☐ Amount ☐ Season ☐ Purpose ☐ Point of diversion ☐ Place of use ☐

Remarks (Explain basis for recommendation)

Since the new owners aquired the permit, they have decided to change the diversion system and put the water to a different use THAN the original owners intended. A siphon with a float control will be installed that will feed water to troughs for wildlife propagation. For construction and use of water to be completed, an extension time through 1970 is needed.

An extension form was left with Mr. Mitchell. This will be put on callup for CHD.

Source

Name
Tributary to
From (direction)
During what portion of year does minimum flow occur? summer
Measured or estimated flow at time of inspection There was about 6' of water in the well at time of inspection.

Who measures flow? no one
Is supply natural flow? yes
Estimated minimum flow unknown but does not go dry

Diversion System

Is point of diversion at location specified in permit, license or order? yes
If not, when will petition be submitted?
If diversion point has been moved, roughly describe present location with respect to authorized location

Would change cause any injury?
Is diversion by gravity or pumping? Water will be diverted by siphoning through pipe.
Is diversion system complete? no If not, briefly explain what remains to be done Pipe, float control and troughs need to be installed.

If not complete, does it appear to have been pursued with reasonable diligence? yes

What is the capacity of the limiting section? unknown How determined?
Explain briefly manner of determining above capacity The capacity may be determined when completed.

Place of Use

(Permit)

Name of place of use, if commonly known as such none

Describe briefly any changes from place of use as described in permit, license or order none

Is petition required? no If so, indicate when it will be submitted

Is place of use developed to a point where full use of water may be made? ## yes

If not, describe briefly what remains to be done

Does it appear that development has been pursued with due diligence? yes

Does permittee or licensee own or control all the land originally covered or as covered by change? yes

Major Use of Water

Briefly describe method of applying water to major use Wildlife will drink from the troughs.

Does method of use appear to be wasteful, judging from local standards? no

Explain answer float control will conserve water.

List units served during maximum season (if applicable)

NO - Other Uses

Average number of persons served during maximum period Number of housing units

Plumbing facilities available

Area of garden, lawn, etc., served Area sprinkled to allay dust

Number of domestic livestock served

Other miscellaneous domestic use

Recreational use

Extent of Use of Water

Season of use and/or diversion to storage: Will be all year when completed.

Average rate of use by direct diversion during maximum period See previous report

Approximate beginning and ending dates of maximum period

Year of maximum use

Complete the following only if storage is involved

Maximum amount diverted to storage in one season Year

Does the purpose for which water was stored require withdrawal before use?

If so, give maximum withdrawal in one season Year

How much water was held over in dead storage?

For what purpose?

Other Rights

Several filings aquired from private ownership.

Answer each question. If a question is not applicable insert "NA" in space for answer.

What portion of the diversion system existed at time permit was granted? The pump and pipe had been installed

What construction work has since been done on project? The well was dug deeper.

Which of the above items have been constructed or installed during the last extension period? none- The new owner plans to change the project as explained on page 1.

When did use of water commence? some domestic use by former owner. Is use of water increasing, decreasing or has it stabilized? The water will be stabalized when the new use commences.

Is it evident that permittee plans to proceed with construction or increase the use of water in the near future? (Answer yes or no and explain in detail under "Remarks") yes

Is irrigated acreage limited by crop acreage controls? no If so, what are the limitations NA

Is water temporarily unavailable due to conditions beyond control of permittee? NO If so, describe briefly NA

Is progress commensurate with permittee's resources, insofar as diligence is concerned? yes

Is water available for use under this right? yes

Is the place of use prepared and ready to use water? yes

Is an alternate source being used? no If so, describe source and nature of right NO

(THE FOLLOWING QUESTIONS APPLY ONLY TO USE UNDER THIS APPROPRIATIVE RIGHT)

What date (year) does water appear to have last been used? 1966 What indications were found which establish and verify this date (year)? According to Mr. Kuchta's report dated 1966.

If water is now being used but there has been a three-year period of nonuse when water was available for this appropriation specify such years of nonuse NA

If the appropriator could not be contacted, what was the reason? Mr. Mitchell amd Mr. LaSala were interviewed.

Was it possible to obtain pertinent information from other parties? no If so, give names of parties and type of information NA

Remarks

(The space below is to be used to amplify answers given above if necessary and to generally describe conditions on the project and/or its development)

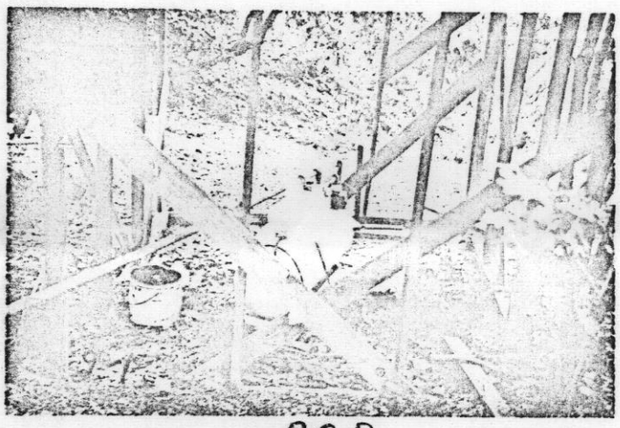

Mr. Mitchell said the power line extending to the place of use, the cabin and the pump will be removed from the area, and a siphon pipe and troughs installed for wildlife propagation. The Park Service has no use for them. He requested an extension through 1970 to complete the use.

07-03-1969: application for extension of time: application 20262, permit 13375

PETITION FOR EXTENSION OF TIME

Application 20262 Permit 13375 (Porter

NOTE: A reasonable extension of time may be obtained upon a showing of good cause. Section 779 of the California Administrative Code, Title 23, Waters, provides that sickness, lack of finances or other conditions incident to the person and not to the enterprise will not generally be accepted as good cause for delay while weather conditions and conditions which are incident to the project itself may be accepted as good cause for delay. A fee of $5 is required for each permit petitioned.

A. If construction work has not commenced within the time allowed under the permit, an extension of such commencement date may be petitioned by completing Items 1, 2 and 3.

1. Approximate total amount of money spent in connection with the project to date $_____. What was the money spent for?_____

2. Estimated date of commencement of construction_____

3. Reasons why construction was not begun within the time allowed by the permit_____

B. If construction work and/or use of water is proceeding but is not fully complete, an extension of time may be petitioned by completing Items 4, 5, 6, 7, 8, 9 and 10.

4. A (1-year), (2-year), (3-year) extension of time is requested for completion of construction work and/or beneficial use of water. (Indicate period of time desired.)

5. Approximate total amount spent on project to date $ 6000.00

6. Approximate amount spent during last extension period $ none

7. Approximate percent of construction work complete to date 60%

8. Estimated date of completion of construction work 1970

9. Estimated year in which full use of water will be made 1970

10. Reasons why construction and/or use of water was not completed within time previously allowed: Change of ownership and use - Auto syphons to be installed to provide wildlife Guzzlers - (Recreational Use)

AMOUNT:
PURPOSE:

PERMIT 13375

This report is important to you in establishing your water right. It should be filled out carefully and returned promptly to the State Water Resources Control Board, Division of Water Rights, Room 1140, Resources Building, 1416 Ninth Street, Sacramento, California 95814.

Neither the filing of an application nor issuance of a permit in approval thereof constitutes a water right. A water right is established only by beneficial use of water in accordance with the terms and conditions of the permit. This report provides a record of the development of your project. If the project is diligently completed a license will be issued to confirm the right developed by beneficial use.

1. Has construction work commenced?
2. Has all construction work been completed? YES If not, give estimated date of completion
3. State approximate cost of construction work on this project during the past 12 months NONE
   Describe briefly the portions of the project upon which the above amount was spent
4. What construction work remains to be done to complete the project? WATER will probably not be pumped but will be tapped to provide water for wildlife.
5. Has use of water commenced? What was the maximum rate of diversion (if known)?
6. What quantity of water was used each month in 1968 under this permit in gallons or acre-feet? (If not known check months water was used.)

Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual

7. Has use of water, both amount and season, been as great as you expect in any future year under this permit?
8. Has location of the intake or place of use been changed? NO
9. Did the source go dry? NO If so, during what months?
10. Did your reservoir spill this year? NO If not, how many feet below spillway vertically was the water level at maximum storage? Have you emptied the reservoir? If not, how many feet below spillway vertically was it drawn down at end of season?
11. You should keep complete records of your use of water in your own files. Please supply information below concerning your use of water.
    (a) ☐ Irrigation — Total acres irrigated — Name crops served and acreage of each
    (b) ☐ Stockwatering — Number of animals
    (c) ☐ Industrial — Nature of use
    (d) ☐ Domestic — Number of persons, Area of garden, lawn, etc.
    (e) ☐ Municipal — Approximate population
    (f) ☐ Mining — Method of water use
    (g) ☐ Recreational WILDLIFE WATERING — Nature of use
    (h) ☐ Power — Installed horsepower capacity
    (i) ☐ Other
12. The project has been abandoned and I request revocation of this permit. ☐ Yes ☒ No

REMARKS Amount to be utilized will probably be less than the 2700 gal per day authorized, However, permit will be retained by this Service.

Subject: Permit 13375 (Application 20262)
Unnamed Fault in Shasta County

Gentlemen:

This letter regards water right Permit 13375, Application 20262, which stands on our records in the name of John E. Porter, Jr.

The permit allows diversion of 2,400 gallons per day from an unnamed fault in Shasta County at a point within the SE¼ of SW¼ of Section 23, T32N, R6W, MDB&M.

The water is used for domestic, irrigation, and stock-watering within NE¼ of NW¼ of Section 26, T32N, R6W, MDB&M.

Mr. Porter informed us that he had transferred all rights under this permit and application to the National Park Service. He further stated that the paper he signed with a letter were designated License 1425, WHIS (Porter Parcel 107) and were dated May 14, 1968.

We have amended our ownership records to show the permit in the ownership of U. S. Department of Interior, National Park Service, Whiskeytown Recreation Area.

A form is enclosed for reporting use of water during the 1968 season. If you have no plans for further use of the water covered by the permit, please advise us and we will revoke the permit from our records.

Sincerely,

Original Signed by
D. W. Sabiston

Shasta, California

Subject: Application 20262

Dear Mr. Porter:

This Board has issued a permit in approval of the above-numbered application. The permit, which is endorsed on the reverse side of the application, fixes a definite time schedule as prescribed by law within which to begin construction, complete construction and make full beneficial use. Extensions of time can be allowed only upon a showing of good cause, and you will observe that the permit provides that unless development proceeds promptly and is prosecuted diligently to completion, the permit may be revoked.

Annual reports of progress are required on forms which will be mailed to you on or about October 1, 1962. If and when use of water is reported full and complete, an engineer of this office will make an inspection of the project. This Board will subsequently issue a license to confirm the right to the amount of water found at the time of inspection to have been beneficially used in accordance with the terms and conditions of the permit. After issuance of a license there can be no further increase in the use under this right.

Very truly yours,

L. K. Hill

00-00-0000: application to appropriate unappropriated water: application 20262

FILE IN DUPLICATE

[For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 20262 **Filed** June 13, 1961, **at** 3:46 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

AMENDED APPLICATION RECEIVED AUGUST 16, 1961.

I, John E. Porter, Jr.
Name of applicant or applicants

of P. O. Box 1106, Shasta County of Shasta
Address

State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS:*

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is An Unnamed Fault
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed

located in Shasta County, tributary to Unnamed Spring thence Unnamed Stream thence Rock Creek.

2. **The amount of water** which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 2400 gallons per day ~~xxx cubic feet~~ per second, to be diverted from January 1 to December 31 of each year.
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use _____ acre-feet per annum, to be collected between _____ and _____ of each season.
1 acre-foot equals 325,851 gallons
Beginning date Closing date

NOTE.—Answer (*a*) or (*b*) or both (*a*) and (*b*) as may be necessary. If amount under (*a*) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is Domestic, Irrigation and Stockwatering
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. **The point of diversion** is to be located 1030 feet west and 80 feet north of N¼ corner of
State bearing and distance or coordinate distances from section or quarter section corner
Section 26,

being within the SE¼ of SW¼
State 40-acre subdivision of public land survey or projection thereof

of Section 23, T. 32N, R. 6W, M. D. B. & M., in the County of Shasta

5. The main conduit terminates in NE¼ of NW¼ of Sec. 26, T. 32N, R. 6W, M. D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. **Intake or Headworks** (fill only those blanks which apply)

(a) Diversion will be made by pumping from Well
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be _____ feet in height (stream bed to spillway level); _____ feet long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.

7. **Storage Reservoir** _____
Name

The storage reservoir will flood lands in _____
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of _____ acre-feet.

☞ In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1

8. **Conduit System** (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____
Cross out two not used

feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter 1¼ inches; length 100 feet; grade 150 feet per 1,000 feet; total fall / lift from intake to outlet 15 feet; kind Galvanized Steel
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. **The estimated capacity** of the diversion conduit or pumping plant proposed is 100 gallons per hour
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is $200.00
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. **Construction work** will begin on or before May 15, 1961

Construction work will be completed on or before December 31, 1961

The water will be completely applied to the proposed use on or before September 31, 1962

Description of Proposed Use

11. **Place of Use.** NE¼ of NW¼ of Section 26, T32N, R6W, MDB&M. 2½ acres located near the NW corner of the above.
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? yes (Yes or No) Jointly? no (Yes or No)
All joint owners should include their names as applicants and sign application at bottom of third page.

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. **Other Rights.** Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. **Irrigation Use.** The area to be irrigated is 2½ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops 2½ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about May 15 (Beginning date) and end about November 1 (Closing date)

14. **Power Use.** The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will / will not be returned to _____ (Name stream) in _____ (State 40-acre subdivision) of Sec. _____, T. _____, R. _____, _____ B. & M.

DO NOT WRITE IN THIS SPACE
ATTACH EXTRA SHEETS HERE

15. **Municipal Use.** This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only
_____ having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

_____

_____

_____

16. **Mining Use.** The name of the mining property to be served is _____
Name of claim
_____ and the nature of the mines is _____
Gold placer, quartz, etc.
The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will / will not be polluted by chemicals or otherwise _____
Explain nature of pollution, if any
and it will / will not be returned to _____ in _____ of
Name stream State 40-acre subdivision
Sec. _____, T. _____, R. _____, _____ B. & M.

17. **Other Uses.** The nature of the use proposed is Domestic and Stockwatering
Industrial, recreational, domestic, stockwatering, fish culture, etc.

_____

State basis of determination of amount needed. Expects to have another family of approximately
Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type
~~5 people more on to land to aid in development.~~
industrial use, and unit requirements

~~6 people at 50 gpd~~ = 300 gpd

~~200 goats at 2.5 gpd~~ = 500 gpd

~~2 houses at 15 gpd~~ = 30 gpd

Domestic & Stockwatering Total ------ 830 gallons per day

Note: Remaining 1570 gpd for irrigation purposes

Total ----- 2400 gallons per day

General

18. Are the maps as required by the Rules and Regulations filed with Application? yes. If not,
Yes or No
state specifically the time required for filing same _____

19. Does the applicant own the land at the proposed point of diversion? no. If not, give name and
Yes or No
address of owner and state what steps have been taken to secure right of access thereto U. S. Bureau of Land

~~Management will apply for the right to the U.S.B. of L. M.~~

20. What is the name of the post office most used by those living near the proposed point of diversion?

Shasta, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? ~~Possibly~~ Mabel Thompson, 1322 Butte Street, Redding, California.

FORM 61-A

IMPORTANT

APPLICANT MUST NOT FILL IN BLANKS BELOW

PERMIT No. 13375

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 2400 gallons per day to be diverted from January 1 to December 31 of each year.

2. The maximum amount herein stated may be reduced in the license if investigation so warrants.

3. Actual construction work shall begin on or before September 1, 1962, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

4. Said construction work shall be completed on or before December 1, 1964.

5. Complete application of the water to the proposed use shall be made on or before December 1, 1965.

6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

IMPORTANT

[Please Read Carefully]

1. *Note the terms and conditions of this permit.* Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but *if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water*—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. *No change in point of diversion, or place of use or character of use, can be made under this application and permit* without the approval of the State Water Rights Board.
4. *If the rights under this permit are assigned* immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. *Please advise immediately of any change of address.* Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

STATE WATER RIGHTS BOARD
SACRAMENTO

Application No. 20262 Filed June 13, 1961 at 3:46 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, John E. Porter Jr.
Name of applicant or applicants

of P. O. Box 1106, Shasta County of Shasta
Address

State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS:*

Source, Amount, Use and Location of Diversion Works

1. **The source** of the proposed appropriation is A well
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed

located in Shasta County, tributary to Unnamed spring thence unnamed stream thence Rock Creek thence Sacramento River

2. **The amount of water** which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 2400 gallon /day cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day

second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use _____ acre-feet
1 acre-foot equals 325,851 gallons

per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (*a*) or (*b*) or both (*a*) and (*b*) as may be necessary. If amount under (*a*) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. **The use** to which the water is to be applied is Domestic, Irrigation, Stockwatering
Domestic, irrigation, power, municipal, mining, industrial, recreational

_____ purposes.

4. **The point of diversion** is to be located 1070' West and 80' North of North ¼ Corner of Section 26
State bearing and distance or coordinate distances from section or quarter section corner

being within the SE¼ of SW¼
State 40-acre subdivision of public land survey or projection thereof

of Section 23, T. 32N, R. 6W, M.D. B. & M., in the County of Shasta

5. **The main conduit terminates** in NE¼ of NW¼ of Sec. 26, T. 32N, R. 6W, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. **Intake or Headworks** (fill only those blanks which apply)

(a) Diversion will be made by pumping from Well
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be _____ feet in height (stream bed to overflow level); _____ feet long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.

7. **Storage Reservoir** _____
Name

The storage reservoir will flood lands in _____
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of _____ acre-feet.

☛ In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1

8. **Conduit System** (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____
Cross out two not used

feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter 1¼ inches; length 100 feet; grade 150 feet per 1,000 feet; total lift from intake to outlet 15 feet; kind Galvanized steel
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. **The estimated capacity** of the diversion conduit or pumping plant proposed is 100 gallons/hr
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is $200
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. **Construction work** will begin on or before May 15, 1961

Construction work will be completed on or before December 31, 1961

The water will be completely applied to the proposed use on or before September 31, 1962

Description of Proposed Use

11. **Place of Use.** NE¼ of NW¼ Sec. 26, T32N, R6W, M.D.B.&M.
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land

½ acre located near the NW corner of the above)
survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? Yes (Yes or No) Jointly? No (Yes or No)

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. **Other Rights.** Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands. None

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. **Irrigation Use.** The area to be irrigated is ½ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops ½ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about May 15th (Beginning date) and end about November 1 (Closing date)

14. **Power Use.** The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will / will not be returned to _____ (Name stream) in _____ (State 40-acre subdivision) of

Sec. _____, T. _____, R. _____, _____ B. & M.

DO NOT WRITE IN THIS SPACE
ATTACH EXTRA SHEETS HERE

15. **Municipal Use.** This application is made for the purpose of serving _____ (Name city or cities, town or towns. Urban areas only) having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. **Mining Use.** The name of the mining property to be served is _____ (Name of claim) and the nature of the mines is _____ (Gold placer, quartz, etc.)

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____ (Cubic feet per second, gallons per minute. State basis of estimate)

The water will / will not be polluted by chemicals or otherwise _____ (Explain nature of pollution, if any)

and it will / will not be returned to _____ (Name stream) in _____ (State 40-acre subdivision) of Sec. _____, T. _____, R. _____, _____ B. & M.

17. **Other Uses.** The nature of the use proposed is Domestic and Stockwatering (Industrial, recreational, domestic, stockwatering, fish culture, etc.)

State basis of determination of amount needed. Expects to have another family of approximately 5 people move onto the land to aid in development. (Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type industrial use, and unit requirements)

6 people @ 50 gpd= 300 gpd

200 goats @ 2.5 gpd=500 gpd

2 horses @ 15 gpd= 30 gpd

Domestic and stockwatering =830 gpd

(Note: Remaining 1570 gpd for irrigation purposes)
Total=2400 gpd

General

18. Are the maps as required by the Rules and Regulations filed with Application? Yes (Yes or No). If not, state specifically the time required for filing same _____

19. Does the applicant own the land at the proposed point of diversion? No (Yes or No). If not, give name and address of owner and state what steps have been taken to secure right of access thereto U.S. Bureau of Land Management Will apply for the right to the U.S.B. of L.M.

20. What is the name of the post office most used by those living near the proposed point of diversion?
Shasta, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? Possibly Mabel Thompson, 1322 Butte Street, Redding

To

John E. Porter, Jr.
Box 1106
Shasta, California

Redding, *California*

August 3 *19* 60

In compliance with your request of July 15 *19* 60 *and subject to all the terms, conditions and restrictions written below or printed as general or special provisions on any part of this form*

PERMISSION IS HEREBY GRANTED TO construct a standard road approach 20 feet wide.

(2) Install a 12"x20' pipe culvert.

(3) The work shall be adequately signed, lighted and barricaded to protect traffic.

(4) All work shall conform to the current standard specifications of the Division of Highways.

(5) Work is located between Engineer's Stations 173+25 and 173+45 on the right side of State Highway II,Sha,20,B, US299.

(6) The approach shall be covered with gravel 4 inches in depth compacted from the right of way line to the shoulder of the existing highway, gravel not to exceed 3/4 inches in diameter and shall be so compacted and maintained that passing traffic will not throw rock onto the traveled way and shall slope downward at the rate of 1/2 inch per foot towards the right of way line for a distance of 5 feet.

(7) The grade of the completed approach shall be approved by Maintenance Superintendent H. H. Littleton, Redding, and the completed work shall be satisfactory to him.

(8) Upon completion of the authorized work, the permittee shall complete the attached postal card and mail at once.

This permit is to be strictly construed and no work other than that specifically mentioned above is authorized hereby.

This permit shall be void unless the work herein contemplated shall have been completed before October 31 *19* 60

DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS

~~G. T. McCOY~~
J. C. WOMACK *State Highway Engineer*

By H. S. MILES
District Engineer

By M. E. Beaty
Asst. Dist. Maint. Engr.

GENERAL PROVISIONS

1. *Definition.* This permit is issued under Chapter 3 of Division I of the Streets and Highways Code. The term encroachment is used in this permit as defined in the said Chapter 3 of said code.

2. *Acceptance of Provisions.* It is understood and agreed by the Permittee that the doing of any work under this permit shall constitute an acceptance of the provisions.

3. *No Precedent Established.* This permit is granted with the understanding that this action is not to be considered as establishing any precedent on the question of the expediency of permitting any certain kind of encroachment to be erected within right of way of State highways.

4. *Notice Prior to Starting Work.* Before starting work on which an inspector is required, or whenever stated on the face of this permit, the Permittee shall notify the District Engineer or other designated employee of the district in which the work is to be done. Such notice shall be given at least three days in advance of the date work is to begin.

5. *Keep Permit on the Work.* This permit shall be kept at the site of the work and must be shown to any representative of the Division of Highways or any law enforcement officer on demand.

6. *Permits from Other Agencies.* The party or parties to whom this permit is issued shall, whenever the same is required by law, secure the written order or consent to any work hereunder from the Railroad Commission of the State of California, or any other public board having jurisdiction, and this permit shall be suspended in operation unless and until such order or consent is obtained.

7. *Protection of Traffic.* Adequate provision shall be made for the protection of the traveling public. Barricades shall be placed with red lights at night, also flagmen employed, all as may be required by the particular work in progress.

8. *Minimum Interference With Traffic.* All work shall be planned and carried out so that there will be the least possible inconvenience to the traveling public except for the specific work permitted.

9. *Storage of Material.* No material shall be stored within eight (8) feet from the edge of pavement or traveled way or within the shoulder line where the shoulders are wider than eight feet.

10. *Clean Up Right of Way.* Upon completion of the work, all brush, timber, scraps and material shall be entirely removed and the right of way left in as presentable condition as before work started.

11. *Standards of Construction.* All work shall conform to recognized standards of construction.

12. *Supervision of Grantor.* All the work shall be done subject to the supervision of, and to the satisfaction of, the grantor.

13. *Future Moving of Installation.* It is understood by the Permittee that whenever construction, reconstruction or maintenance work on the highway may require, the installation provided for herein shall, upon request of the Department of Public Works, Division of Highways, be immediately moved by, and at the sole expense of, the Permittee.

14. *Expense of Inspection.* On work which requires the presence of an employee of the Division of Highways as inspector, the salary, traveling expense and other incidental expense of such inspection during the work shall be paid by the Permittee upon presentation of a bill therefor.

15. *Liability for Damages.* The Permittee is responsible for all liability for personal injury or property damage which may arise out of work herein permitted, or which may arise out of failure on the Permittee's part to perform his obligations under this permit in respect to maintenance. In the event any claim of such liability is made against the State of California, or any department, officer, or employee thereof, permittee shall defend, indemnify and hold them and each of them harmless from such claim. This permit shall not be effective for any purpose unless and until the above named Permittee files with the Department of Public Works, Division of Highways, a surety bond in the form and amount required by said department, unless specifically exempted on the face hereof. The requirement that a bond be filed does not apply in the event the Permittee is a governmental board which derives its revenue by taxation.

16. *Making Repairs.* If the grantor shall so elect, repairs to paving which has been disturbed shall be made by employees of the grantor and the expenses thereof shall be borne by the Permittee, who shall purchase and deliver on the road the materials necessary for said work as directed by the State Highway Engineer. All payments to laborers, inspectors, etc., employed by said grantor for or on account of the work herein contemplated, shall be made by said Permittee forthwith on receipt of written orders, pay rolls or vouchers approved by grantor. Or the grantor may elect to require a deposit before starting repairs, in an amount sufficient to cover the estimated cost thereof.

The grantor will give reasonable notice of its election to make such repairs. If the grantor does not so elect, the grantee shall make such repairs promptly. In every case the grantee shall be responsible for restoring any portion of the highway which has been excavated or otherwise disturbed to its former condition as nearly as may be possible except where the grantor elects to make repairs to paving as above provided in this paragraph and except where provision to the contrary is made in the typewritten portion of the permit.

17. *Care of Drainage.* If the work herein contemplated shall interfere with the established drainage, ample provision shall be made by the Permittee to provide for it as may be directed by the grantor.

18. *Submit Location Plan.* Upon completion of underground or surface work of consequence, the Permittee shall furnish plan to the District Office showing location and details.

19. *Maintenance.* The grantee agrees by the acceptance of this permit to exercise reasonable care to maintain properly any encroachment placed by it in the highway and to exercise reasonable care in inspecting for and immediately repairing and making good any injury to any portion of the highway which occurs as a result of the maintenance of the encroachment in the highway or as a result of the work done under this permit, including any and all injury to the highway which would not have occurred had such work not been done or such encroachment not placed therein.

PIPES, CONDUITS, GAS PUMPS, ETC.

20. *Crossing Roadway.* Service and other small diameter pipes shall be jacked or otherwise forced underneath pavement without disturbing same. Pavement or roadway shall not be cut unless specifically permitted on the face hereof. Service pipes will not be permitted inside of metal culvert pipes used as drainage structures.

21. *Limit Excavation.* No excavation is to be made closer than eight (8) feet from the edge of the pavement except as may be specified.

22. *Tunneling.* No tunneling will be permitted except on major work as may be specifically set forth on the face hereof.

23. *Depth of Pipes.* There shall be a minimum of two (2) feet of cover over all pipes or conduits.

24. *Backfilling.* All backfilling is to be moistened as necessary and thoroughly hand tamped, there being not less than one tamper to each shoveler. Whenever required by the grantor, a trench crossing the roadway shall be backfilled with gravel or crushed rock.

25. *Preserve Surfacing Material.* Whenever a gravel or crushed rock surface is trenched, such material shall be placed at one side and when backfilling is started the rock material shall be replaced to its original position.

26. *Maintain Surface.* The Permittee shall maintain the surface over structures placed hereunder as long as necessary.

27. *Pipes Along Roadway.* Pipes and utilities paralleling the pavement shall be located at the distance from traveled way and at such depth as specifically directed on the face hereof. Cutting of tree roots will not be permitted.

POLES, WIRES, CABLES AND OVERHEAD STRUCTURES

28. *Location Pole Lines, etc.* Pole lines shall be located as specifically directed on the face hereof.

29. *Railroad Commission Orders.* All clearances and type of construction shall be in accordance with the applicable orders of the State Railroad Commission.

30. *Permission from Property Owners.* Whenever necessary to secure permission from abutting property owners, such authority must be secured by the Permittee prior to starting work.

31. *Clearance of Trees.* Poles must be of such height as to permit clearance over a tree 40 feet in height, where quick growing trees are in place. At locations where slow growing trees are in place, normal construction standard may be followed at the option of the pole line company, with provision to ultimately clear a 40-foot tree.

32. *Guy Wires.* No guy wires are to be attached to trees except on specific authority and in no event shall they be so attached as to girdle the tree or interfere with its growth. Guy wires shall be kept at a minimum elevation of six feet above the ground whenever so directed.

33. *Clearing Around Poles.* The Permittee shall remove and keep clear all vegetation from within a radius of at least five feet of the poles.

34. *Painting or Visibility Strips.* All poles are to be painted for a distance of six feet above the ground using white lead and oil or aluminum paint or in lieu thereof, when poles have creosoted butts, wood or metal visibility strips may be placed. Wood strips are to be Douglas fir 1" x 3"—5' long placed on 6" centers about the base of pole and painted with white lead and oil or aluminum paint. If metal strips are used such strips may be placed either vertically or horizontally. Paint is to be renewed as often as may be required to maintain a satisfactory covering. If not painted when installed or renewed as the grantor may consider necessary, the right is reserved to have this painting done and the Permittee hereby agrees to bear the cost thereof under the terms of this permit.

Poles that do not present a possible traffic hazard will be given consideration for exemption from those provisions upon written request of permittee accompanied by pertinent data as to pole location, difference in elevation, etc. The grantor's decision will be final in this regard.

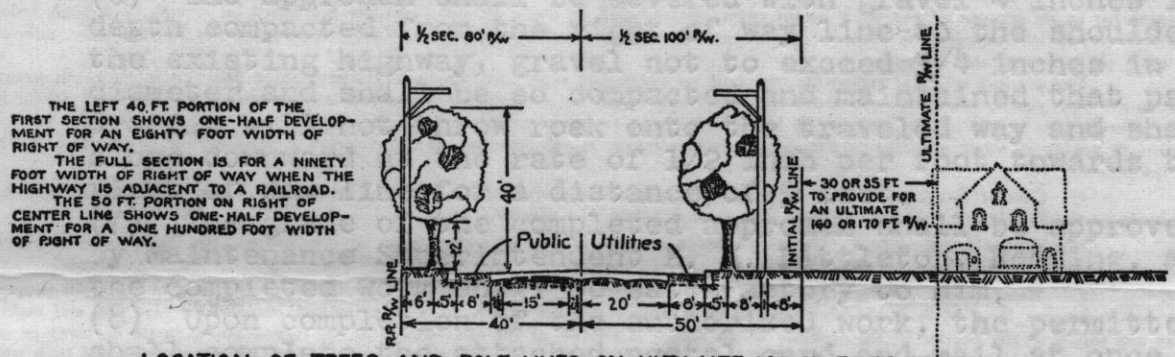

35. *Remove Old Poles, Guys and Stubs.* The entire length of such timbers shall be removed from the ground and the holes backfilled and thoroughly tamped.

PLANTING TREES

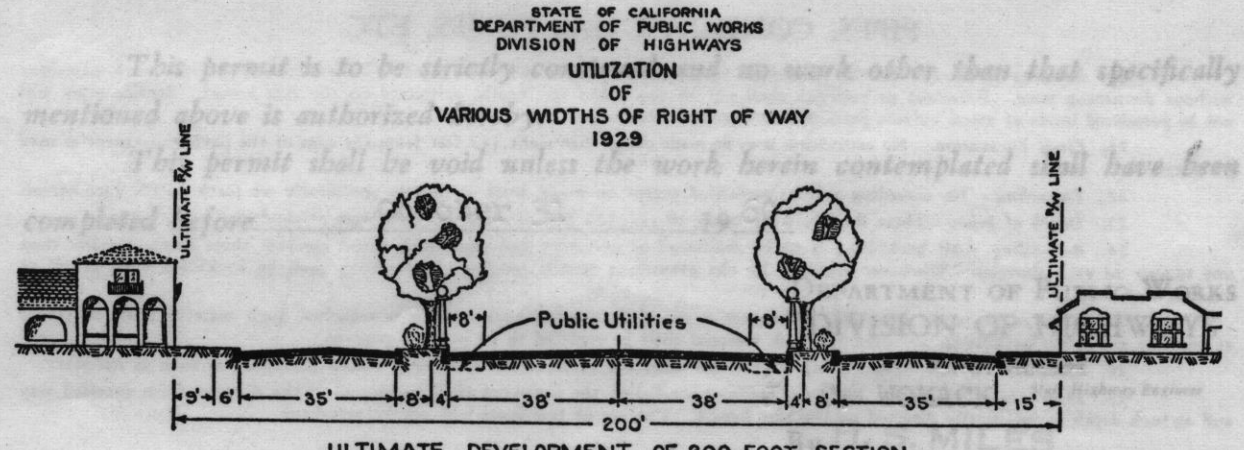

36. *Location and Species.* The location and kind of trees to be planted shall be specified on the face of this permit.

37. *Planting and Maintenance Cost.* The Permittee must bear the cost of planting the trees. The arrangement as to maintenance of the trees shall be specifically set forth on the face of the permit. In particular cases arrangements may be made for the Division of Highways to do this work upon deposit of a certain sum for each tree which is to be planted. The Division of Highways reserves the right to assume the maintenance or to decline to do so as conditions justify.

38. *Group Planting.* The cost of group plantings and similar special work which may be agreed upon with the Division of Highways shall be borne by the Permittee. Land for such plantings shall be secured in fee by the Permittee and turned over to the State. Plantings for parking and picnic grounds will not be considered in this connection.

LOCATION OF TREES AND POLE LINES ON ULTIMATE 160 OR 170 FT. SECTION

ULTIMATE DEVELOPMENT OF 200 FOOT SECTION

REMOVAL OR TRIMMING OF ROADSIDE TREES

39. *Removal of Trees.* When permit is granted for removal of a tree as an independent operation or as a part of other work, the entire stump shall be taken out for a depth of at least two feet below the ground surface.

40. *Clearing the Site.* All timber and debris shall be removed from the right of way. The hole left by the stump shall be backfilled and thoroughly tamped and the site left in a presentable condition.

41. *Trimming of Trees.* In general, only light trimming of branches two inches or less in diameter will be permitted and only when specifically so stated on the face hereof. The shapeliness of the tree must be preserved.

42. *Inspection.* If the permit requires inspection by the State during progress of the work the cost of inspection shall be borne by the Permittee. No charge will be made for occasional routine inspection.

Road Approaches, Connecting Pavements and Minor Work

43. *Grades and Specifications.* Grades and types of construction shall be as detailed by plans or stated on the face of this permit.

44. *Borrow and Waste.* Only such borrow and waste will be permitted and within the limits as set forth on the face of this permit.

45. *Minor Work.* Grading down of small banks, small ditches, placing of awnings, and other similar minor work shall be governed by the general provisions and as detailed on the face hereof.

Signs

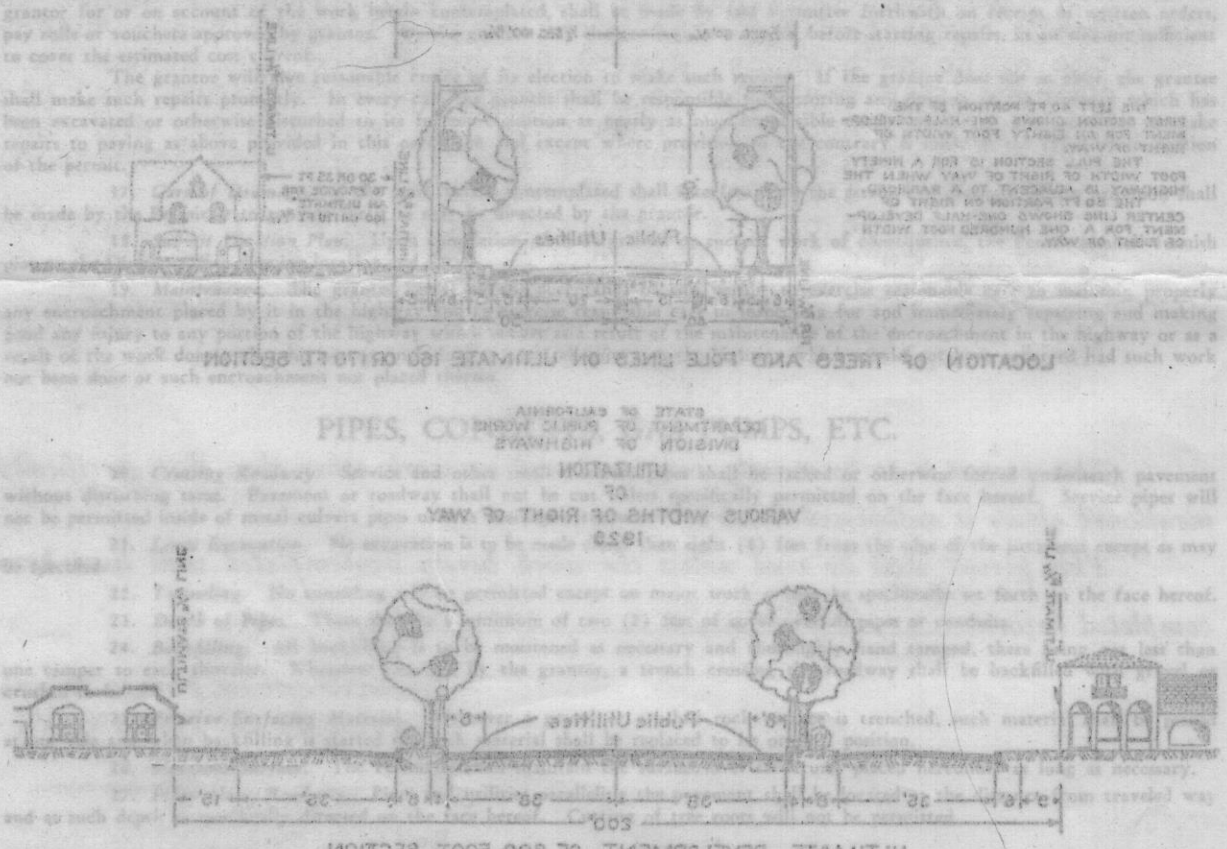

46. *Clearance of Signs.* The minimum clearance from the sidewalk shall be twelve feet.

Railroad Crossings

47. *Safety and Convenience.* The future safety and convenience of the traveling public shall be given every consideration in the location and type of construction.

48. *Meet Highway Grade.* The grade and superelevation of the track must conform to the grade of the highway at point of crossing.

49. *Width of Paving.* The crossing shall be planked or paved as may be specified on the face of this permit for the full roadway and shoulder width.

Date October 2, 1972

Name and Title Mrs. Green

Representing Whiskeytown-Shasta-Trinity Nat'l Rec. Area Telephone No. 8-916-241-6584

Address ------

NPS Personnel in on Call James M. Mize, Legal Assistant, Water Resources Division

Conversation: On September 27, Mr. Mize left a message for Superintendent Mitchell re: NPS response to the State's "Notice of Proposed Revocation" of the above permits. On October 2, Mrs. Green from the Superintendent's office said that the Superintendent referred to Permit #13375 (as well as Permit #12379 which we had previously discussed) and felt that the availability of the water from this source would not be influenced by State action. Both permits are springs arising and terminating wholly within Park boundaries.

James M. Mize
