Memorandum

To: Chief, Water Resources Division

From: Superintendent, Point Reyes National Seashore

Subject: PORE Water Rights Dockets

Enclosed are summaries of the priority water rights files which were discussed with you during your August visit. These nine 'Report of Licensee' documents have been thoroughly researched and the data from that research is enclosed. The 'Report of Licensee' forms are not fully completed due to some uncertainty associated with each case. From the data and summary statements enclosed, you should be able to complete the progress reports to your specifications.

It is our goal to continue to finish the remaining six files of the PORE water docket. Once these files are completed we will undertake research and inventory of remaining water rights within PORE and the North District of GOGA. It would be helpful if you could provide us with copies of any water licenses you may possess which are not already contained in the docket files. Finally, we are acquiring the necessary equipment to globally position water amenities and gauge flows as necessary.

Should you have any questions or need additional information you may contact water rights technician, Bryan Leese, at (415) 663-8525.

John H. Dansing

Enclosures

DOMINGO ROGERS PROPERTY

License 7941
Priority date March 6, 1961

License 7942
Priority date march 6, 1961

These two licenses are still in use by the D. Rogers. The licenses were filed by David and Mary Rogers, Domingo's parents. License 7941 is the larger of the two and for a 1.4 acre feet stock pond. The other license is for a smaller pond, which catches run off and water from a spring. These reservoirs are for stock watering only, as listed in the license

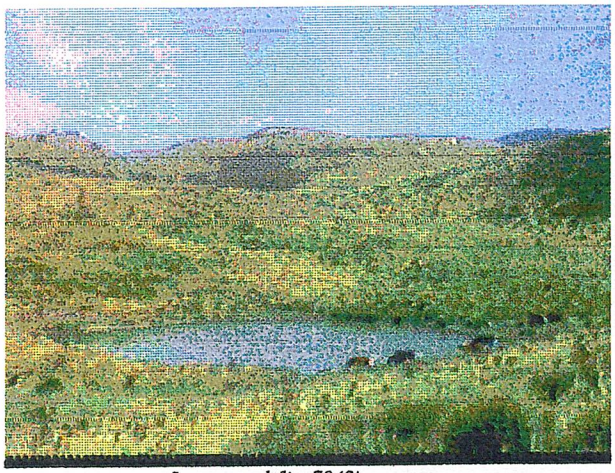

Small pond (lic. 7941). Notice the small pump house to the left.

The main house and ranch hand house have a well which supplies them with all their domestic needs. The spring development has a line which pumps the water to a tank up on the hill. From the tank the water gravity feeds down to the small pond where it is pumped to stock tanks.

10,000 gal. tank for the spring development

Large pond (lic. 7942)

WATER USE FOR THE RANCH:

RANGE USE:
46 beef cows at 15 gpd = 690 gpd
DOMESTIC USE:
6 persons at 75 gpd = 450 gpd
GARDEN USE:
300 sq. feet at 18.5 gpd = 55.5 gpd

TOTAL ESTIMATED USE;
1,1955 GPD OR .OO37 acft / day
*this comes to 1.4 acft/year, which is .4 acft/year less than they is allowed under both licenses. *(estimated).

Bryan Leese

Water Inventory Questionnaire

The goal of this plan is to locate and record the source and use of water in the Point Reyes National seashore. All the data collected from this questionnaire will be used to aid the park in the filing of mandatory State Water Licensing forms. Please answer all the questions, and give the most accurate information possible. Please feel free to use the 'Remarks' spaces for any clarification of your responses, such as the area of a garden and lawn, or the separation of cows on more than tract of land and there main source of watering. Thank you.

Name: Domingo Rogers.

How many ranch animals do you have:

Type	yes	no	number
Dairy Cows		✓	
Beef Cows	✓		46
Horses		✓	
Sheep		✓	
other			

@ 15 = 690 gpd

* Remarks: _____

_____

_____.

How many family members live on the ranch: 6. @ 75 gpd each = 450 gpd

How many ranch hands do you have living on the ranch: _____.

Do you have full plumbing in your living quarters as well as those of your hands:

yes	no

08-19-1993: To: Rancher; From: Superintendent; Subject: Request for Water Inventory Questionnaire

United States Department of the Interior

NATIONAL PARK SERVICE
Point Reyes National Seashore
Point Reyes, California 94956

IN REPLY REFER TO:

L54

August 19, 1993

Mr. Domingo Rogers
16484 Sir Francis Drake
Inverness, CA 94937

Dear Rancher:

The State of California's Water Commission has informed us that we must inventory our water use within the park. The Water Commission was created by the Water Commission Act and was given the task of licensing the water use in the state. This licensing process is important to protect your water supply from intrusions. Point Reyes National Seashore is required to comply with regulations concerning water use. To comply with the Water Commissions request we are asking that you fill out a brief *Water Inventory Questionnaire.* The prompt completion of this questionnaire will help us comply with the state requirements and ensure the security of your water.

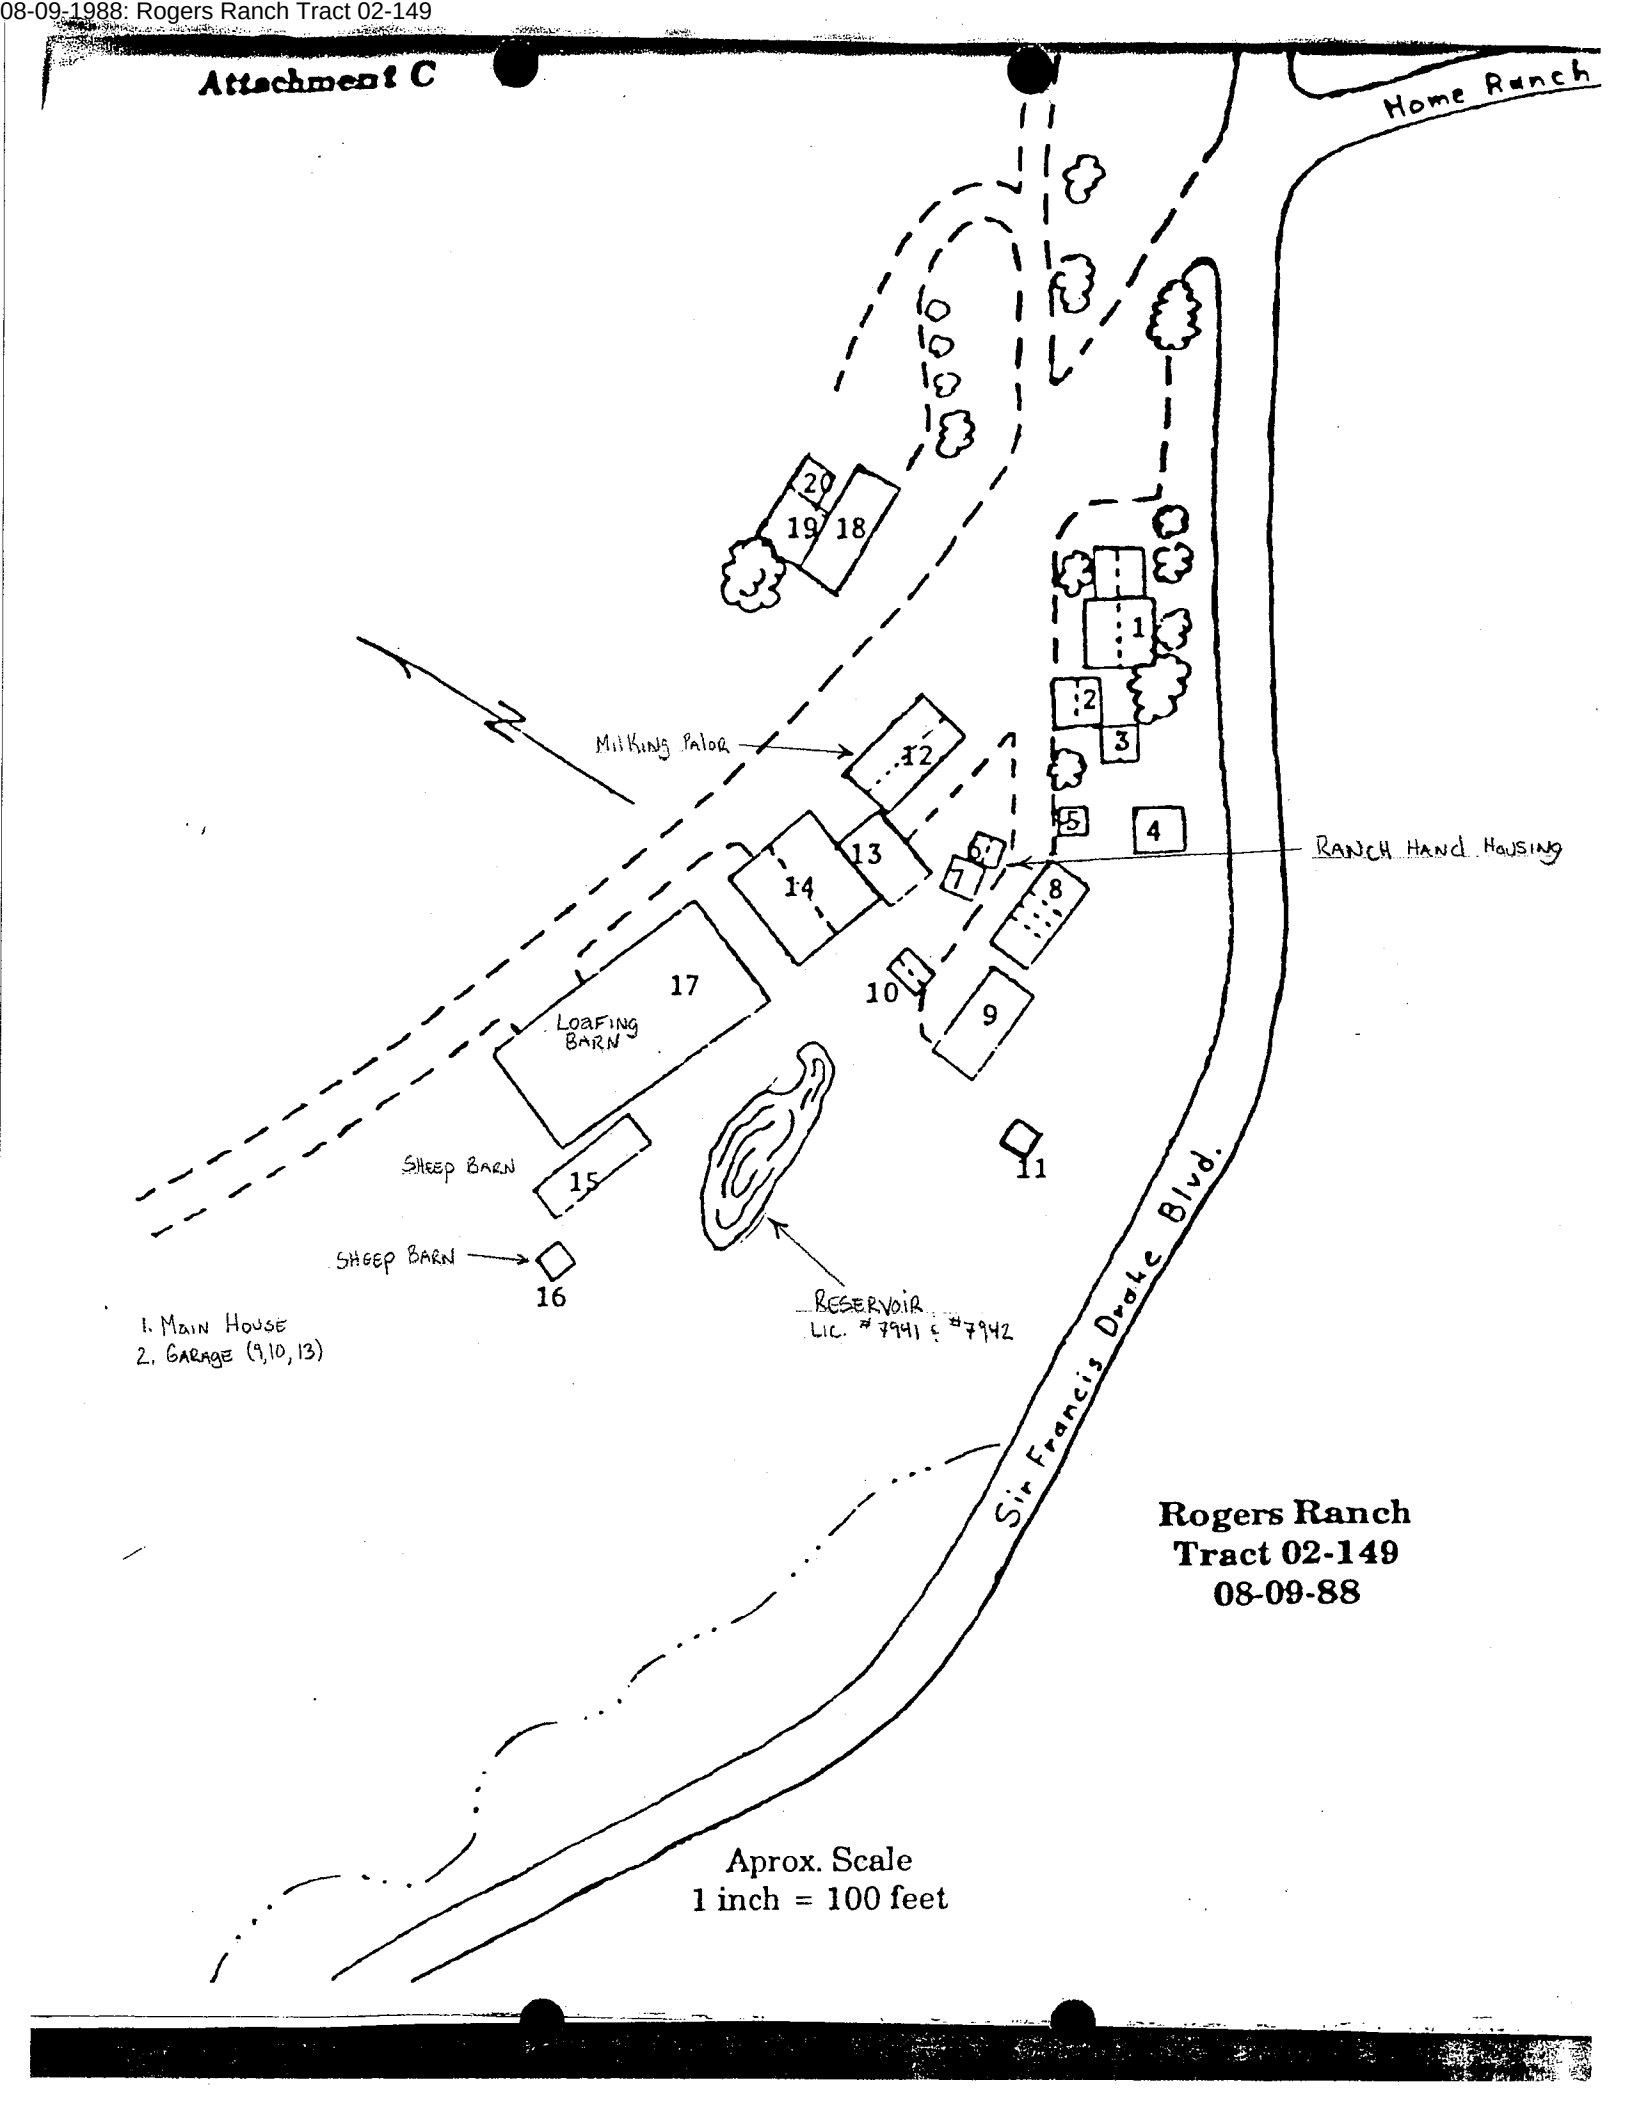

The questionnaire is composed of fill-in-the-blank questions. Please follow the instructions and fill out the questionnaire as accurately as possible. Once the questionnaire is completed please return it promptly in the self-addressed and stamped envelope provided. If you have any questions please feel free to contact us. All questions should be directed to Bryan Leese at 663-8525.

Again, we hope that you will complete and return this form as quickly as possible. Your quick response will insure, for the park as well as for you, a secure and continuous supply of water for the future.

Thank You,

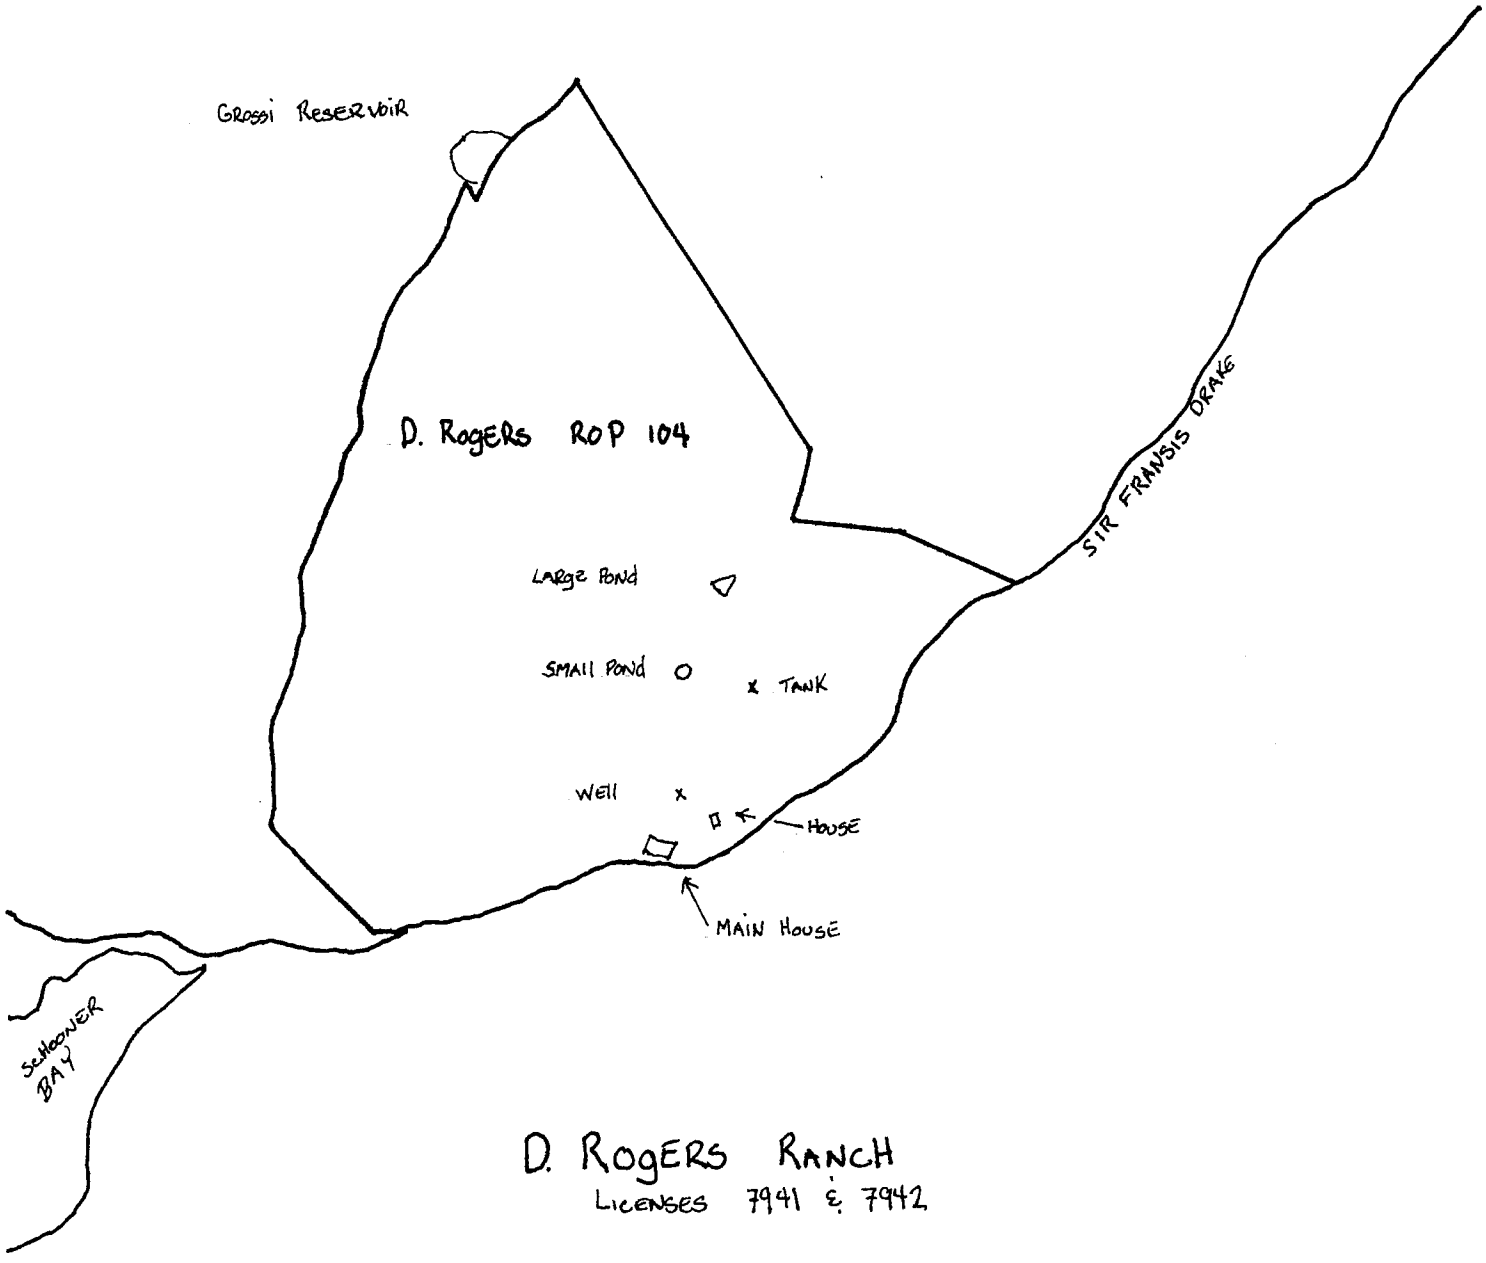

John L. Sansing
Superintendent

STATUS Active SOURCE Stream

REMARKS **See trip report of August 19, 1975.**

NARRATIVE: On July 12, 1971, Mary G. Rogers sold to the United States her property, the Coast Ranch, located within Point Reyes National Seashore. She also conveyed all her water rights ap urtanant to these 398 acres.

Those right were to the water flowing in two streams, which were used for stock-watering where they crossed the Rogers property. The Rogers' had acquired the right to appropriate 1.4 acre/ft. of water per annum, from one of these streams under license 7942, their application 20022 having been filed June 6, 1966.

In response to a request from this office, the ownership of license 7942 was changed to the United States, as indicated by a letter from the California Division of Water Rights dated July 9, 1973.

It is suspected that this water source and PORE WR #9 are stream diversions to aa pond. A field check of the area is needed.

A field investigation of the Roger's tract was made on July 8, 1975.by Mike Ackerman of Water Resources (see trip report of August 19, 1975 and maps attached). Mr. Rogers has a well in the vicinity of his home which supplies his domestic needs. He also has a spring nearby which supplies water for his barn and dairying operations (we did not have time to inspect the spring or its location).

Note: Rogers reserved the right of occupancy and water use for a 20 year period from the date of sale - July 12, 1971.

K. K'ldr
Aug. 30, 1977.

State Water Resources Control Board

NOTICE TO WATER RIGHT LICENSEE

February 19, 2016

Designated Contact or Agent:
U S NATIONAL PARK SERVICE
1201 OAK RIDGE DR STE 250
FORT COLLINS, CO 80525

Primary Owner: U S NATIONAL PARK SERVICE

Application ID: A020022 **License No.** 007942

First three Sources listed:	Counties:
UNST	Marin

Direct Diversion Rate: 0.000 Gallons per Day **Collection to Storage Amount:** 1.400 AC-FT

LICENSEE REPORTING FOR 2015

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A020022**
Password (Reporting Identifier): **205125**

IMPORTANT: PLEASE NOTE BELOW

Effective immediately the Division of Water Rights will **NO LONGER** notify you via mail in the future when reporting is due. If you would like to be notified when reporting is due and other reporting related material, please subscribe to our Lyris list (Water Rights Reporting Notification) at:

http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

You are required to complete the online report for 2015 no later than **June 30, 2016.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CHANGES FOR REPORTING AND MEASUREMENT OF DIVERSIONS MADE IN 2016, AND THEREAFTER

- See attached "Fact Sheet" for updates.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Amanda Montgomery

Amanda Montgomery, Manager
Permitting and Licensing Section

UNST	Marin

Direct Diversion Rate: 0.000 Gallons per Day **Collection to Storage Amount:** 1.400 AC-FT

LICENSEE REPORTING FOR 2014

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A020022**
Password (Reporting Identifier): **205125**

You are required to complete the online report for 2014 no later than **June 30, 2015.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Amanda Montgomery

LICENSEE REPORTING FOR 2013

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A020022**
Password (Reporting Identifier): **205125**

You are required to complete the online report for 2013 no later than **June 30, 2014.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

August 14, 2013

State Water Resources Control Board
Division of Water Rights, Attn: Michael Contreras
PO Box 2000
Sacramento, CA 95812-2000

Re: MC:NPS Pt. Reyes NSH:
July 8, 2013 Report of Investigation and Notice to Obtain Appropriative Water Rights

Dear Mr. Contreras,

This letter is in response to the July 8, 2013 Report of Investigation and Notice to Obtain Appropriative Water Rights. Your letter and Report of Investigation summarize your findings in response to the National Park Service (NPS) letter dated December 12, 2012 as well as your January 23, 2013 site visit to Point Reyes National Seashore.

Generally the NPS concurs with the findings of the Report of Investigation (Report), and intends to proceed with applications for 38 appropriative water rights for storage consistent with the Statements of Water Diversion and Use (Statements) filed with your office as part of the December 12, 2012 submittal. We anticipate that staff will be able to fill out and begin submitting these applications by October 31, 2013.

The NPS has reviewed your conclusions regarding reservoirs UN000281a and UN000281b and contends that these may in-fact already be licensed. Your Report concludes that these reservoirs are not associated with the licenses as suggested by the NPS concluding "License 7942 is assigned to the NPS and is currently plotted on the eWRIMS database to a stockpond situated on a different parcel identified as Marin County APN 109-140-38." It should be noted that at the time the NPS responded, only one pond on the Rogers Ranch was identified as unlicensed, the NPS did not raise the information associated with License 7941 in the December 12, 2012 letter.

Applications for Licenses 7941 (A20021) and 7942 (A20022) were filed by David and Mary Rogers on June 6, 1966 for operations on the Rogers Ranch and are enclosed as part of this submittal. We have reviewed the descriptions in these licenses; the descriptions indicate they are diversions from an unnamed stream "tributary to Schooner Bay thence Drakes Estero thence Pacific Ocean". Because your Report based your conclusions on the location of the licenses on the eWRIM plots, we reviewed that site. Our review of the eWRIM GIS site for these licenses 7941 (A20021) and 7942 (A20022) indicates these are located on a tributary to Home Bay, not Schooner Bay within Drakes Estero. A screenshot of this map is included as Figure 1. We

would also like to clarify that these locations are within what is known as the Heims/N Ranch, not Rogers Ranch.

Our review of the files indicates that the eWRIM locations of Licenses 7941 and 7942 are mis-plotted. As we discussed during your site visit, we have found several discrepancies in the location of the water right locations within eWRIM and would like to work with you to assure that the map locations in your GIS system reflect existing condition. We request that this information be reviewed and rectified before the NPS proceeds with any further applications pertinent to ponds UN000281a and UN000281b.

Please note that the United States provides this information in the interest of comity and does not concede that the State has the power to regulate the rights of the United States to the use of water.

If you have any questions please contact Eric Lord at 970-225-3526 or Brannon Ketcham at 415-464-5192.

Sincerely,

William R. Hansen
Branch Chief, Water Rights Branch
Water Resources Division
National Park Service

Figure 1 – screenshot from eWRIMS showing A20021 and A20022 as located on an unnamed tributary to Home Bay. Documentation for Licenses associated with A20021 and A20022 are for diversion from an unnamed tributary to Schooner Bay, not Home Bay.

United States Department of Interior
National Park Service, Water Resources Division
Attention William R. Hansen
1201 Oakridge Drive, Suite 250
Fort Collins, CO 80525-2000

Dear Mr. Hansen:

REPORT OF INVESTIGATION AND NOTICE TO OBTAIN APPROPRIATIVE WATER RIGHTS

The State Water Resources Control Board (State Water Board), Division of Water Rights (Division) received your letter dated December 12, 2012, in response to our letter dated August 16, 2012, regarding the status of 44 potential unauthorized reservoirs located within the National Park Service (NPS) Point Reyes National Seashore. Your letter transmitted separate Initial Statements of Water Diversion and Use (Statement) for 38 reservoirs, and also a table listing six reservoirs that were excluded with an explanation for the exclusions. On January 23, 2013 Division staff conducted an inspection of the sites associated with these excluded reservoirs. The purpose of the inspection was to determine whether diversion of surface water to storage is occurring at the six reservoirs that are subject to the State Water Board's permitting authority. During the inspection, three additional reservoirs were observed at certain sites and evaluated. Enclosed is a copy of the investigation report, which includes findings from the inspection.

The six reservoirs initially identified for inspection, and three additional reservoirs observed, are identified in the Division's eWRIMS system as UN000314a, UN000314b, UN000314c, UN000281a, UN000281b, UN000297, UN000363, UN000357, and UN000375. Based on observations made during the January 23, 2013 inspection and information submitted by NPS, Division staff makes the following findings and recommendations:

1. The reservoirs identified as UN000314a and UN000314b are wastewater treatment ponds. Reservoir UN000314c is a brackish lagoon. Staff recommends that the Division close the investigations into these reservoirs, and updated the Division's database to indicate the presence of three non-jurisdictional ponds on the Marin County APN 109-220-18.

2. The reservoirs identified as UN000281a, UN000281b and UN000297 are all stockponds on Marin County APN 109-090-16:

   - Reservoir UN000281a appears to require repair and evaluation for structural stability. However, the "V" cut in the dam does not prevent the "dead" storage of some minor volume of water below the incision. The NPS should file a Statement to cover diversions and diligently pursue an appropriative water right by permit or through one of the available registrations.

JUL 08 2013

- Reservoir UN000281b is a stockpond facility that the NPS was previously unaware of. NPS should file a Statement and should diligently pursue an appropriative water right by permit or through one of the available registrations.
- Reservoir UN000297 is authorized by License 8242 (A020760). The eWRIMS database should be updated to correctly map License 8242 to the location of Reservoir UN000297 in the Division's eWRIMS database.

3. Reservoir UN000363 no longer exists on Marin County APN 109-140-38. Therefore, the investigation for Reservoir UN000363 should be closed and the eWRIMS database should be updated accordingly.

4. Reservoir UN000357 no longer exists on Marin County APN 109-040-16. Therefore, the investigation for Reservoir UN000357 should be closed and the eWRIMS database should be updated accordingly.

5. Reservoir UN000375 is a natural "sag" pond. The investigation for Reservoir UN000375 should be closed, and the eWRIMS database should be updated to indicate the presence of on Marin County APN 188-020-15 that is not within the permitting authority of the State Water Board.

Division staff will close its investigation into reservoirs UN000314a, UN000314b, UN000297, UN000363, UN000357, and UN000375 without further action.

In order to conclude the investigations for the 38 reservoirs for which NPS has submitted Statements and for reservoirs UN000218a and UN000218b, Division staff requests that the NPS does the following within 30 days from receipt of this letter:

1. File Statements for UN000281a and UN000281b; and

2. File applications to obtain appropriative water rights by permit or registration for each of the facilities included in the original list of 38 reservoirs and both UN000281a and UN000281b, as discussed above. or

3. Otherwise provide justification and supporting documentation for why NPS is not legally required to obtain appropriative water rights.

Thank you for your cooperation with Division staff during these investigations. If you have any questions regarding the conclusions of this investigation, please contact Mr. Michael Contreras of my staff by telephone at (916) 341-5307 or via email at: Michael.Contreras@waterboards.ca.gov. Written correspondence should be addressed as follows: State Water Resources Control Board, Division of Water Rights, Attn: Michael Contreras, P.O. Box 2000, Sacramento, CA 95812-2000.

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

MARIN COUNTY
RESERVOIR FIELD INSPECTION

Date of Inspection: 01/23/2013
Time of Inspection: 11:00 AM
Report Date: 6/26/2013

Investigation by: Michael Contreras, ES
Accompanied by: Victor Vasquez, Senior WRCE
Interviewed: Devii Rao, National Park Service
Brannon Ketcham, National Park Service
Dylon Voeller, National Park Service

Owner Information:
Name: Point Reyes National Seashore
Address: 1 Bear Valley Road
Point Reyes Station, CA 94956
Phone: 415-464-5172

Property Information:
Location: Point Reyes National Seashore
Assessor's Parcel Numbers: various
County: Marin

Weather: Approximately 60°F; light but consistent precipitation on day of inspection.

(Area map from Wikitravel.org)

6/26/2013

Background:

The State Water Resources Control Board (State Water Board), Division of Water Rights (Division) conducted a study of potential unauthorized reservoirs within northern California coastal stream areas. The Division sent a letter to the National Park Service (NPS) dated August 16, 2012 indicating that 44 reservoirs, for which there is no record of water rights in the Division's files, are situated on multiple parcels owned by the NPS within the Point Reyes National Seashore. The letter required a response from the responsible party. The Division created a file and assigned a reservoir reference number for each of the identified reservoirs. The August 16, 2012 letter contains a chart of the pertinent parcels and the reservoir reference numbers for the purpose of investigating these potential reservoirs. A Reservoir ID number from the study has also been used to designate the reservoirs.

Staff of the National Park Service (NPS) responded on September 12, 2012 indicating their intention to cooperate with the Division in order to complete the authorization of the various stockponds on the Point Reyes National Seashore. Subsequently, the NPS submitted a letter transmitting Initial Statements of Water Diversion and Use for all but six of the 44 identified reservoirs on December 12, 2012. NPS staff also provided explanations for these six exceptions.

The table below lists the reservoir reference numbers for these six exceptions, as well as other related reservoirs discovered during the investigation, together with their corresponding Reservoir ID numbers and the Marin County Assessors' Parcel Number (APN) in which the reservoirs are located. This report will refer to each reservoir by the reservoir reference number for clarity.

Marin County APN	Reservoir ID	Reference Number
109-220-18	423a	UN000314a
	423b	UN000314b
	423c	UN000314c
109-090-16	1285	UN000297
	444a	UN000281a
	444b	UN000281b
109-140-38	446	UN000363
109-040-16	676	UN000357
188-020-15	1263	UN000375

Table 1. – List of Reservoirs discussed in this report

Inspection Narrative:

Division staff coordinated with NPS staff to inspect the reservoirs for which Initial Statements had not been filed on the morning of January 23, 2013. Division staff first met with Devii Rao, Dylon Voeller and ~~Brannon Ketcham~~ at the Point Reyes National Seashore's office to plan the inspection route. Division and NPS staff agreed that there is no reservoir at the location for Reservoir UN000363, and decided that a site visit to APN 109-140-38 was unnecessary. Subsequently, Division staff accompanied Ms. Rao and Mr. Voeller to the remaining five reservoir sites. The identified reservoirs were inspected in order of their relative proximity to each other. The following section is organized by the Marin County Assessor's Parcel Number in which the reservoirs are situated. This report concludes with a summary of staff's findings, recommendations, illustrations and photographs.

A. Marin County APN 109-220-18 includes UN000314a, UN000314b and UN000314c.

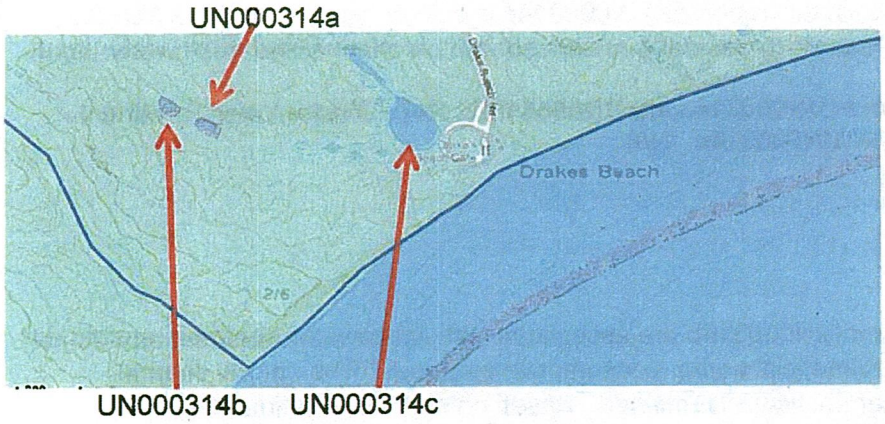

Figure 1. – (topographical area map from Parcelquest).

Division staff drove to a location approximately 1000 feet due south of and uphill from an unnamed stream flowing in a southeasterly direction. Two man-made reservoirs were observed from uphill located in the valley adjacent to the stream. The facility identified as UN000314a is actually an overflow catchment for the sewage pond situated just upstream (hereafter referred to as UN000314b) (See Figures 6 & 7). The steady rainfall during the inspection and the resulting muddy conditions made direct access to these ponds impossible; however, when viewed from uphill, the black plastic liner installed in the upper pond was clearly visible, as it extends well beyond the pond's surface water level. Staff observed that the upper and lower ponds are connected via an overflow gate and conveyance, and that the unnamed stream flows on the south side of these ponds and does not flow through the ponds.

Additionally, Division staff inspected the large water body that is situated to the east and downgradient of Reservoirs UN000314a and UN000314b, and just west of the parking lot for the Drakes Beach Visitor Center. This water body, referred to herein as UN000314c, is a natural feature that is not contained by a dam (See Figures 8, 9 & 10). Instead, this is apparently a brackish lagoon that is filled by tidal inflows from the bay and seepage. According to records maintained by the National Oceanic and Atmospheric Administration (NOAA), the tidal range, or difference in height between the high tide and the low tide, on the day of inspection was approximately 6'. The general path of the unnamed stream appears to bypass the lagoon on its southern side (see Figure 9).

Location of Storage - The following latitude/longitude coordinates indicate the approximate center for each of the following ponds and the lagoon:

UN000314a: 38.0291, -122.9732
UN000314b: 38.0285, -122.9718
UN000314c: 38.0286, -122.9645

Are the storage facilities subject to the SWRCB Permitting Authority? No. Reservoirs UN000314a and UN000314b are part of the Drakes Beach Visitor Center's waste treatment facility. Waste water is collected for evaporation in the upper pond. The lower pond serves as overflow capacity when needed. Additionally, the unnamed intermittent stream that flows within

the same depressed corridor is segregated from the waste treatment ponds, and flows without interruption downgradient towards Drakes Beach.

The water body referred to in this report as UN000314c is also not subject to the SWRCB permitting authority as it appears to be tidally influenced with no channelized fresh water input.

Use of water in Reservoirs UN000314a and UN000314b: N/A - Waste Water Treatment.
Use of water in Reservoir UN000314c: N/A

Place of Use: N/A

Conclusions:

Reservoirs UN000314a and UN000314b are associated with wastewater treatment and do not contain water for a direct beneficial and/or consumptive purposes. The natural channel bypasses them and no natural flow is contained. Based on staff observations and the explanations provided by NPS staff, these reservoirs are not within the permitting authority of the State Water Board.

Additionally, the lagoon regarded herein as UN000314c, located downstream and east of the waste treatment ponds, is a natural lagoon that appears to be filled with water from the bay through tidal actions (See Figures 8 & 10).

Recommendations:

- The investigation for Reservoirs UN000314a, UN000314b and UN000314c should be closed. The Division's database (eWRIMS) should be updated to indicate the presence at this time of three non-jurisdictional ponds on the parcel identified as Marin County APN 109-220-18.

B. <u>Marin County APN 109-090-16 includes Reservoirs UN000281a and UN000281b and UN000297</u>.

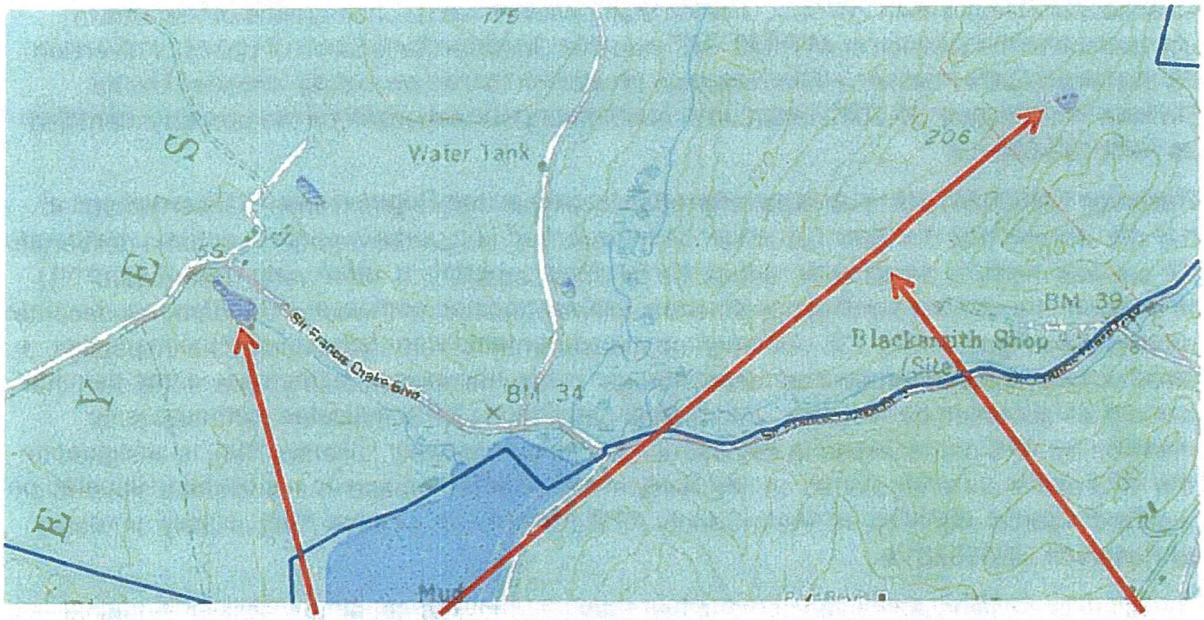

Figure 2. - Reservoir UN000297, Reservoir UN000281a and *location* for Reservoir UN000281b (topographical area map from Parcelquest).

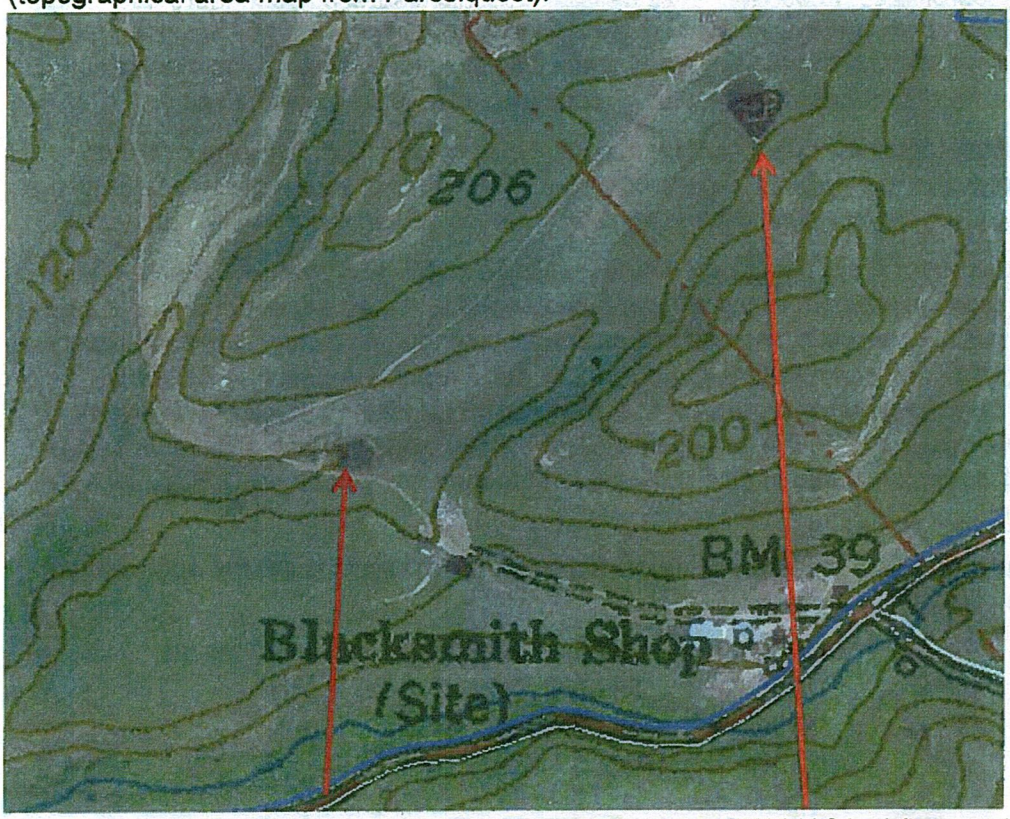

Figure 3. - Reservoir UN000281b location and Reservoir UN000281a (close-up topographical area map from Parcelquest).

NPS staff indicated, in their December 12, 2012 letter, that Reservoir UN000281a appears to be authorized by License 7942 (Application 20022), and that Reservoir UN000297 is authorized by License 8242 (Application 20760). Division staff reviewed aerial photographs of the area in comparison to the Division's eWRIMS GIS map that illustrate the location of points of diversion. As explained further below, a third reservoir, in addition to the two initially identified by the Division in its August 16 ,2012 letter, was found during the inspection on the property identified as APN 109-090-16.

Reservoir UN000281a is in an area referred to locally as the Rogers Ranch. Observations at the site showed that the dam has either been breached and partially eroded, or that a deliberate "V" cut was made to significantly reduce the facility's capability to store water (See Figure 11). In addition, the soil surrounding the concrete spillway located northwest of the dam has become eroded (See Figures 12 & 13). Although no measurements were taken during the inspection, a small volume of water remains as "dead storage" below the incision at the base of the dam that can still be accessed by livestock. Information provided by NPS indicates that there is no intention by NPS or the lessee to reconstruct the dam or spillway. License 7942 is assigned to the NPS and is currently plotted on the Division's eWRIMS database to a stockpond situated on a different parcel identified as Marin County APN 109-140-38; License 7942 is likely unrelated to Reservoir UN000281a.

Additionally, Division staff inspected another reservoir that was not on the Division's original list, but that was found to be also situated on the old Rogers Ranch southwest of Reservoir UN000281a, at coordinates 38.095291, -122.920525 Decimal Degrees (See Figure 14). There is no record of a water right pertaining to this stockpond, but Division staff has assigned this facility as Reservoir UN000281b for purposes of this investigation. Although no measurements were then taken, this pond has an estimated surface area of less than one-half acre.

License 8242 (Application 20760) is held by Joseph A. Lunny, Jr. The Division's eWRIMS database indicates that the water storage facility that relates to this water right is located to the southeast of the Lunny ranch (See Figures 15 & 16). An inspection report on file, dated

April 25, 1967 describes the "Lunny" reservoir as having a capacity of about 10.6 acre-feet, and the inspector's recommendation to permit a volume capped at 6.4 acre-feet per annum. The identified uses include domestic, recreational and stockwatering. A photograph of the reservoir, associated drawings and commentary in the April 25, 1967 report suggest that Reservoir UN000297 is actually the Lunny pond, and that the location for License 8242 (Application 20760) has been mis-plotted in the Division's eWRIMS database. The actual location where License 8242 is currently plotted in eWRIMS does not feature a reservoir but is likely an intertidal marsh.

Location of Storage – The following latitude/longitude coordinates indicate the approximate center for each of the following ponds:

UN000281a: 38.0983, -122.9159
UN000281b: 38.0952, -122.9205
UN000297: 38.0950, -122.9290

Are the storage facilities subject to the SWRCB Permitting Authority? Yes. Reservoirs UN000281a and UN000281b are situated within a broad stream channel, and water is

seasonally collected and used for stockwatering. Reservoir UN000297 is also situated on stream and is covered by License 8242 (Application 20760), currently held by Joseph A. Lunny.

Use of water: Stockwatering

Place of use: At the reservoirs

Conclusions:
Reservoir UN000281a – The dam for this facility, situated at 38.0983, -122.9159, has been partially removed either through natural forces or as the result of an intentional "V" cut. Despite the resulting reduction in storage capacity, this reservoir continues to collect water that is within the permitting authority of the State Water Board. The NPS should file an Initial Statement and diligently pursue an appropriative water right or registration

Reservoir UN000281b –The NPS should file an Initial Statement and should diligently pursue an appropriative water right or registration for this previously unidentified pond on the Rogers Ranch.

Reservoir UN000297 is currently authorized by License 8242 (A020760). The location of this appropriation has been mis-plotted in the Division's eWRIMS database.

Recommendations:

- Based on the finding that Reservoir UN000281a and Reservoir UN000281b are within the registration or permitting authority of the State Water Board, Division staff recommends that the NPS or lessee do the following:
    1. Obtain an appropriative water right either by permit or through one of the available registrations, or render the reservoirs incapable of storing water.
    2. File an Initial Statement of Water Diversion and Use and triennial reports until a water right is obtained or the reservoir(s) are rendered incapable of storing water.

    - The dam for Reservoir UN000281a appears to require repair and an evaluation for structural stability.
    - Based on the size of the reservoirs and their purposes of use, the NPS may be able to file for a water right registration instead of a permit (e.g., file a Small Domestic Use Registration or Livestock Stockpond Use Registration).
    - If the NPS chooses to pursue water rights through a registration program, the NPS should submit the registration application, together with appropriate filing fees, to the Division for processing.
    - If the NPS choose to render the reservoirs incapable of storing water, the NPS should first consult with staff of the CDFW and the Regional Water Quality Control Board.
    - If, however, the NPS chooses not to comply with these requirements, Division staff recommends that the Division consider formal enforcement action.

- The investigation for Reservoir UN000297 should be closed. The Division's database (eWRIMS) should be updated to correctly map License 8242 (A020760) to the location of Reservoir UN00297

C. **Marin County APN 109-140-38 includes UN000363**.

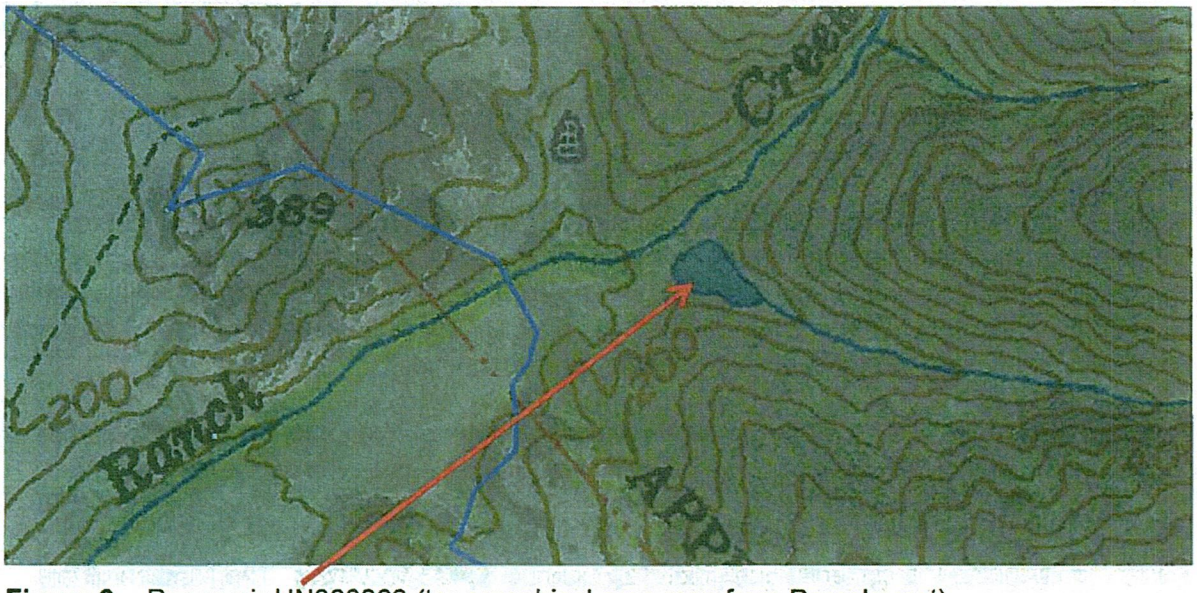

Figure 3. - Reservoir UN000363 (topographical area map from Parcelquest).

In its December 12, 2012 letter, the NPS indicated that there is no water storage occurring at this location. Reservoir UN000363 is illustrated on topographical maps as the site of an on-stream pond. However, NPS staff explained that winter storm events over a decade ago washed out the dam and the water storage facility. Division staff reviewed current aerial photographs of the property and confirmed that there is neither a pond at the site adjacent to Home Ranch Creek nor evidence of relic structures previously used. Consequently, Division staff did not inspect the site.

Conclusions:

Observations of aerial photographs confirm that no water is being collected or stored. On-site discussions with NPS staff confirm that they do not intend to reconstruct the dam in order to reinitiate diversions.

Recommendations:

The investigation for Reservoir UN000363 should be closed. The Division's database (eWRIMS) should be updated to indicate that, although current topographical maps illustrate the presence of a pond near the confluence of the unnamed stream and Home Ranch Creek, there is in fact no water storage activity at this location.

D. **Marin County APN 109-040-16 includes Reservoir UN000357.**

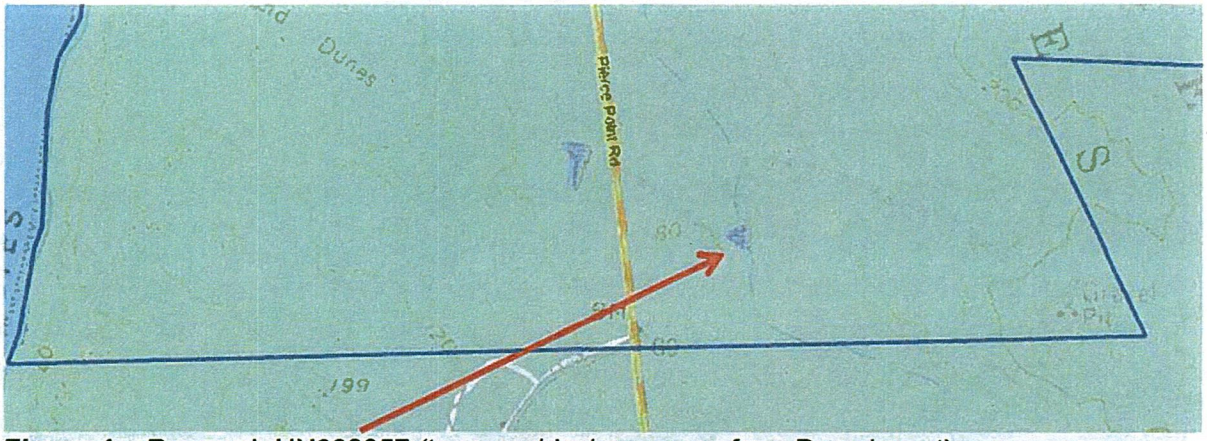

Figure 4. - Reservoir UN000357 (topographical area map from Parcelquest).

In its December 12, 2012 letter, the NPS indicated that the impoundment identified as Reservoir UN000357 was breached some ten years ago, and that a culvert was then installed to convey water under an access road so that natural streamflow is not interrupted.

Division staff drove to the site on the unnamed stream that previously included the stockpond. NPS staff explained that major storm events in 1982 and 1986 caused this and several other dams to fail (See Figures 17 & 18).

Conclusions:

Division staff observed that there is no reservoir at this location. NPS staff indicated that they do not have any intentions to reconstruct the dam at this site.

Recommendations:

The investigation into Reservoir UN000357 should be closed without further action, and the Division's database should be updated to indicate that, despite the illustration on topographical maps that indicate the presence of a pond, there is actually no longer a functional water storage facility at this location.

E. Marin County APN 188-020-15 includes Reservoir UN000375.

Figure 5. - Reservoir UN000375 (topographical area map from Parcelquest).

In its December 12, 2012 letter, the NPS indicated that the pond situated on this parcel, which is also located on the San Andreas Fault, is a natural "sag" pond that was naturally created by shifting land masses.

Division staff drove down Highway 1 to the location where Reservoir UN000375 is situated approximately 500' west of Highway 1 and approximately 800' east of Olema Creek, within a small meadow and on a geographic saddle (See Figures 19 & 20). The pond is unusual in that it completely lacks clear evidence for the source of inflow. Although Division staff did not undertake a survey of the pond, the maximum water depth appeared to be approximately 8", as the pond bottom could be clearly observed. The northern end of the sag pond tapers to a narrow point that gives the appearance of an exit channel. However, there was no out-flow occurring on the day of the inspection, and a downstream channel was not observed.

Conclusions:

Division staff inspected the shallow pond and confirmed that there is no man-made dam at this location. Moreover, there is no clear indication of the source of the water, and neither inlet nor exit channels were observed on January 23, 2013.

Recommendations:

The investigation for Reservoir UN000375 should be closed. The Division's database (eWRIMS) should be updated to indicate the presence at this time of a non-jurisdictional pond situated on Marin County APN 188-020-15.

Summary of Conclusions and Recommendations:

The reservoirs identified as UN000314a and UN000314b are wastewater treatment ponds. Reservoir UN000314c is a brackish lagoon. Staff recommends that the investigation into these reservoirs be closed, and the Division's database updated to indicate the presence of three non-jurisdictional ponds on the Marin County APN 109-220-18.

The reservoirs identified as UN000281a, UN000281b and UN000297 are all stockponds on Marin County APN 109-090-16:

- Reservoir UN000281a appears to require repair and evaluation for structural stability. However, the "V" cut in the dam does not prevent the "dead" storage of some minor volume of water below the incision. Consequently, the NPS should file a Statement to cover diversions and diligently pursue an appropriative water right by permit or through one of the available registrations.

- Reservoir UN000281b is a stockpond facility that the NPS was previously unaware of. NPS staff should file a Statement and the NPS should diligently pursue an appropriative water right by permit or through one of the available registrations.

- Reservoir UN000297 is authorized by License 8242 (A020760). The eWRIMS database should be updated to correct the location.

Reservoir UN000363 no longer exists on Marin County APN 109-140-38. Therefore, the investigation for Reservoir UN000363 should be closed and the eWRIMS database should be updated accordingly.

Reservoir UN000357 no longer exists on Marin County APN 109-040-16. Therefore, the investigation for Reservoir UN000357 should be closed and the eWRIMS database should be updated accordingly.

Reservoir UN000375 is a natural "sag" pond. The investigation for Reservoir UN000375 should be closed, and the eWRIMS database should be updated to indicate the presence of a non-jurisdictional pond on Marin County APN 188-020-15.

Inspection Photographs: All photographs taken by Michael Contreras unless otherwise noted.

Figure 6. – View of the area, approximately 150 linear feet, between the upper and the lower waste treatment lagoons. The black plastic liner is clearly visible on the upper (Reservoir UN000314a) lagoon. The lower pond (Reservoir UN000314b) is downgradient. Note that the unnamed stream flows on the south side (foreground in this view) of these facilities.

Figure 7. – Aerial view of Reservoirs UN000314a and UN000314b. Note that the unnamed stream bypasses these ponds on the south side. (Aerial photo from Parcelquest).

Figure 8. - Aerial view of the lagoon (Reservoir UN000314c) just west of the Drakes Beach Visitor Center. (Aerial photo from Parcelquest).

Figure 9. - View from the south side of the intertidal lagoon (Reservoir UN000314c) looking east along the likely continuation of the intermittent and unnamed stream.

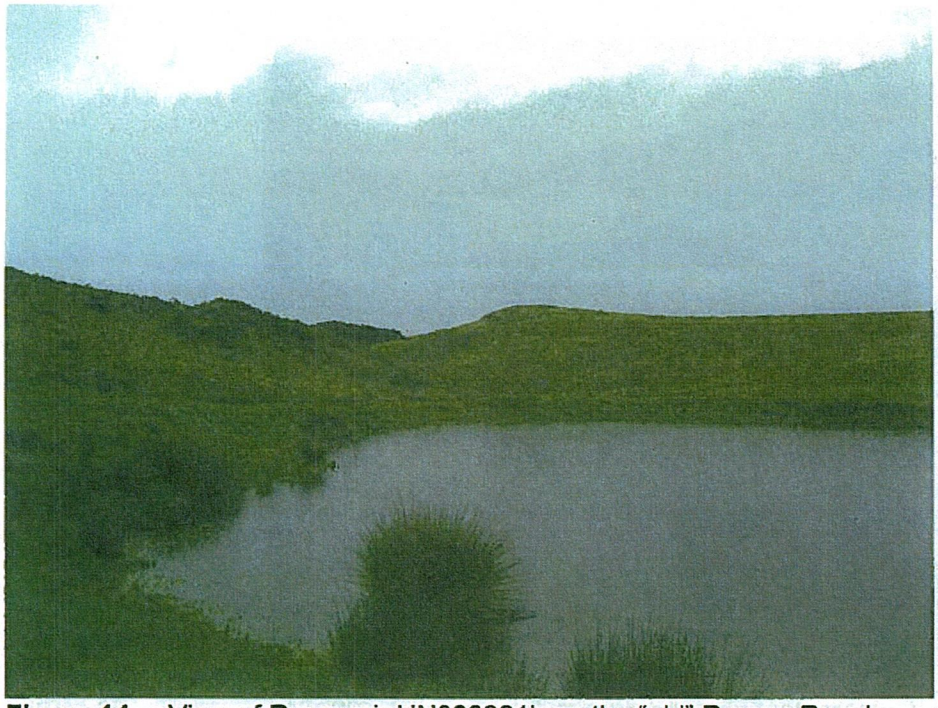

Figure 14. – View of Reservoir UN000281b on the "old" Rogers Ranch.

Figure 15. - View of Reservoir UN000297, known locally as the Lunny Pond – License 8242 (Application 20760).

Figure 16. – View of the dam at the Lunny Pond (Reservoir UN000297).

Figure 17. – Aerial view of the former location of Reservoir UN000357 on Marin County APN 109-040-16. Note that there is presently no dam to contain water here. Instead, a culvert with an approximate diameter of 3' has been placed under the access road to convey natural flow downgradient (aerial photo from Parcelquest).

Figure 18. – View of the former site of Reservoir UN000357.
Note the culvert under the access road.

Figure 19. – Aerial view of Reservoir UN000375 situated on the San Andreas Rift Zone within Marin County APN 188-020-15, and just west of Highway 1 (aerial photo from Parcelquest).

Figure 20. – View of the sag pond looking northwesterly.

LICENSEE REPORTING FOR 2011

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A020022**
Password (Reporting Identifier): **205125**

You are required to complete the online report for 2011 no later than **June 30, 2012.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Phillip Crader, Manager
Permitting and Licensing Section
Division of Water Rights

[FINAL SUBMITTED VERSION]

REPORT OF LICENSEE FOR 2011

Primary Owner: U S NATIONAL PARK SERVICE
Application Number: A020022
License Number: 007942
Date Submitted: 2012-07-19

1. Project Abandoned	
The project has been abandoned and I request revocation of my water right license	No

2. Compliance with License Terms and Conditions	
I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	

3. Changes to the Project	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

4. Purpose of Use	
Fish and Wildlife Protection and/or Enhancement	wildlife
Stockwatering	56 cattle
Fire Protection	Unnamed

5. Amount of Water Diverted and Used

Month	Amount directly diverted or collected to storage (Acre-Feet)	Amount used (Acre-Feet)
January	0.35	0.11
February	0.35	0.11
March	0.35	0.11
April	0.11	0.11
May	0.0	0.11
June	0.0	0.11
July	0.0	0.11
August	0.0	0.11
September	0.0	0.11
October	0.0	0.11
November	0.0	0.11
December	0.35	0.35

Total	1.51	1.56

6. Maximum Rate of Diversion for each Month	
Month	**Maximum Rate of Diversion ()**
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

7. Storage					
Reservoir name	**Spilled this year**	**Feet below spillway at maximum storage**	**Completely emptied**	**Feet below spillway at minimum storage**	**Method used to measure water level**
Unnamed	Yes		Yes		The reservoir dries up every summer. Unknown whether reservoir spilled.

Conservation of Water	
8. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjuctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
Reservoir collects ephemeral drainage during rainy season. Dries up during summer. Amounts reported are estimates. Declaration: The United States gives this information to the State in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to **www.waterboards.ca.gov/rms** and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A020022**
Password: **7C2D6B**

You are required to complete the online report for 2010 no later than **July 1, 2011.** You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 341-5431 or send an email to: ewrims@waterboards.ca.gov

Sincerely,

Phillip Crader, Manager
Permitting and Licensing Section
Division of Water Rights

REPORT OF LICENSEE FOR 2010

Primary Owner: U S NATIONAL PARK SERVICE
Application Number: A020022
License Number: 007942
Date Submitted: 2012-07-19

1. Project Abandoned	
The project has been abandoned and I request revocation of my water right license	No

2. Compliance with License Terms and Conditions	
I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	

3. Changes to the Project	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

4. Purpose of Use	
Fish and Wildlife Protection and/or Enhancement	wildlife
Stockwatering	130 cattle
Fire Protection	Unnamed

5. Amount of Water Diverted and Used

Month	Amount directly diverted or collected to storage (Acre-Feet)	Amount used (Acre-Feet)
January	0.35	0.11
February	0.35	0.11
March	0.35	0.11
April	0.11	0.11
May	0.0	0.11
June	0.0	0.11
July	0.0	0.11
August	0.0	0.11
September	0.0	0.11
October	0.0	0.11
November	0.0	0.11
December	0.35	0.35

Total	1.51	1.56

6. Maximum Rate of Diversion for each Month	
Month	**Maximum Rate of Diversion ()**
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

7. Storage

Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level
Unnamed	Yes		Yes		The reservoir dries up every summer. Unknown whether reservoir spilled.

Conservation of Water	
8. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjuctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
The United States gives this information to the State in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

LICENSE SUMMARY

NAME(S) OF SOURCES OF WATER (Up to first 4 sources listed)	POD PARCEL NO	COUNTY LOCATION
UNST		Marin

MAX DIRECT DIVERSION RATE: 0 Gallons per Day
MAX COLLECTION TO STORAGE AMOUNT: 1.4 AC-FT
WATER RIGHT FACE VALUE: 1.4 AC-FT

LICENSED USE(S) OF WATER (First 4 uses displayed below	ACRES (AC)	DIRECT DIVERSION SEASON (month/day to month/day)	COLLECTION TO STORAGE SEASON (month/day to month/day)
Stockwatering	0.0		11/30 to 4/1

[ ] YES [ ] NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. [ ] YES [ ] NO I have currently reviewed my water right license.
2. [ ] YES [ ] NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
3. [ ] YES [ ] NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If **Yes**, explain under "Remarks' on reverse side. ***Note:*** *A Change Petition and associated fees may be required for any significant changes to the licensed project.*

BENEFICIAL USE(S) OF WATER: Under the appropriate boxes below, briefly explain how the water was used each year

4. Current Use(s) of Water	2007	2008	2009
4.a. Irrigation – specify no. of acres irrigated			
4.b. Frost Protection – specify no. of acres protected			
4.c. Heat Control – specify no. of acres protected			
4.d. Industrial – specify type			
4.e. Stockwatering – specify no. & type of animals			
4.f. Municipal – approx. population served			
4.g Domestic – specify no. of persons, lawn/garden area			
4.h. Power Generation – installed capacity in kW, MW, or hp			
4.i Recreational – specify (boating, fishing, water contact sports, etc.)			
4.j. Other – specify (Examples: fire protection, snowmaking, mining, etc.)			

AMOUNT OF WATER TAKEN FROM THE SOURCE: Please report only the amounts diverted and/or stored under this license.
5.a. Amount of water taken each month under this license in [ ] gallons or [ ] acre-feet or [ ] million gallons

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007													
2008													
2009													

AMOUNT OF WATER BENEFICIALY USED: Please report only the amounts beneficially used under this license.
5.b. Amount actually used by direct diversion and/or withdrawal from storage in acre-feet [ ] Check if amounts are same as 5.a.

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If **No**, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If **No**, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

State Water Resources Control Board
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95810

Dear Mr. Mork:

In response to your request, enclosed are completed Reports of Licensee for 1985, 1986 and 1987, for the following water rights located at Point Reyes National Seashore:

- Application #20021, License #7941, Unnamed stream;
- Application #20022, License #7942, Unnamed stream; and
- Application #22784, License #10112, Unnamed stream.

If you have any questions or comments regarding these forms, please contact Ms. Pat Larson of the Water Rights Branch, National Park Service Water Resources Division in Fort Collins, Colorado, at 303/221-5341.

Sincerely,

John D. Cherry
Associate Regional Director
Resources Management and Planning
Western Region

15. If no water was used in one or more years, briefly state the reason on the reverse side under "Remarks".
16. If either the location of the point of diversion or place of use has been changed and the permission of this Board has not yet been obtained, please describe nature of change on the reverse side under "Remarks".

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ]; (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [ ]; (4) Other (describe in "Remarks") [ ].

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable [ ]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ]; (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [ ]; (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks" [ ].

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [ ]; (3) Other (describe in "Remarks") [ ].

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____

22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
19__ _____ 19__ _____ 19__ _____

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____

24. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [ ]; (3) discharged into settling ponds [ ]; (4) Other [ ]. Describe: _____

25. Does or will water being discharged contain waste materials? YES [ ] NO [ ].
(1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____

26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [ ] NO [ ]. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [ ] NO [ ].

If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.

28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [ ] NO [ ]. If yes, please describe. _____

29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?

30. What is the current potential for reusing the appropriated water to satisfy part of your water needs?

31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

REPORT OF LICENSEE FOR — PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ]; (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [ ]; (4) Other (describe in "Remarks") [ ].

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable [ ]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ]; (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [ ]; (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks" [ ].

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [ ]; (3) Other (describe in "Remarks") [ ].

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____

22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
1978 _____ 1979 _____ 1980 _____

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters:

24. After use, the water is (1) retained in reservoir [X]; (2) discharged into a stream or lake [ ]; (3) discharged into settling ponds [ ]; (4) Other [ ]. Describe: _____

25. Does or will water being discharged contain waste materials? YES [ ] NO [X].
(1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____

26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [ ] NO [X]. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [ ] NO [X].

If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.

28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [ ] NO [X]. If yes, please describe. _____

29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?

30. What is the current potential for reusing the appropriated water to satisfy part of your water needs?

31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

29. No potential.

30. No potential.

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer only those questions which are applicable to your project.

CONSERVATION OF WATER

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐; (2) Lining canals ☐; (3) Phreatophyte and aquatic vegetation control ☐; (4) Other (describe in "Remarks") ☐.

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable ☐; (2) Return flow systems on individual farms ☐; (3) Return flow system areawide ☐; (4) Water pricing to encourage reduced use ☐; (5) Charges for drainage of irrigated lands ☐; (6) Other (describe in "Remarks") ☐.

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐; (2) Public education program on water conservation ☐; (3) Pricing to encourage reduced use ☐; (4) Assistance to industry in design of recycle systems ☐; (5) Other (describe in "Remarks") ☐.

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐; (2) Water use for major crops by each farm ☐; (3) Other (describe in "Remarks") ☐.

WATER QUALITY AND WASTEWATER RECLAMATION

21. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters:

22. After use, the water is (1) retained in reservoir ☐; (2) discharged into a stream or lake ☐; (3) discharged into settling ponds ☐; (4) other ☐. Describe:

23. Does or will water being discharged contain waste materials? ☐ Yes ☐ No.
(1) Domestic ☐; (2) Municipal ☐; (3) Industrial ☐; (4) Agricultural ☐; (5) Other ☐. Describe:

24. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ Yes ☐ No. Describe:

25. Describe what steps you are taking, have been taking, or can take to reclaim or indirectly reuse the water appropriated:

REMARKS

Please indicate the number of the item you are explaining:

This water right was purchased by the United States appurtenant to a tract of land within Point Reyes National Seashore. The grantor reserved a use of the land and water for a 20 year period.

During the late summer months, Aug., Sept. and Oct. the reservoir is dry.

(If additional space is needed for remarks, attach numbered sheets.)

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

GRANT DEED

MARY GROSSI ROGERS, a married woman, as her separate property, in consideration of THREE HUNDRED FIVE THOUSAND AND NO/100 ($305,000.00) DOLLARS, to her in hand paid, receipt of which is hereby acknowledged, does hereby grant to the UNITED STATES OF AMERICA and its assigns, the following described property located in the County of Marin, State of California, to wit:

BEGINNING at the Southeasterly extremity of that certain course "South 47°47' East 411.20 feet" which forms part of the boundary line of that certain parcel of land conveyed by James and Margaret McClure to R.C.A. Communications, Inc., by Deed dated September 28, 1929 and recorded October 15, 1929 in Book 185 of Official Records at page 93, Marin County Records, (it being assumed in this description that the call "South 47°47' East" above set forth has a true meridian bearing of "South 49°29' East") and running thence North 21°53' East 995.72 feet, North 36°51' East 1133.70 feet, North 45°45' East 593.26 feet, South 57°15'30" East 772.496 feet, South 47°06'30" East 201.90 feet, South 32°55' East 2257.64 feet, South 14°39'50" West 566.61 feet, South 83°06' East 857.93 feet, South 74°36' East 77.77 feet, South 74°43'50" East 443.99 feet and South 74°36' East 235.98 feet to the Southeasterly boundary line of Parcel Two as described in the Deed from Leonard W. David, et ux, to D. Grossi, by Deed recorded August 2, 1939 in Book 383 of Official Records at page 408, Marin County Records, and thence along said boundary line as described in said Deed on a curve to the right whose center bears North 40°39' West and whose radius is 600 feet distance 231.14 feet, thence South 80°25' West 73.43 feet, thence on a curve to the left whose center bears South 9°35' East and whose radius is 300 feet distance 209.44 feet, thence South 40°25' West 401.89 feet, thence on a curve to the left whose center bears South 49°35' East and whose radius is 1000 feet distance 141.37 feet, thence South 32°19' West 143.13 feet, thence on a curve to the left whose center bears South 57°41' East and whose radius is 1000 feet distance 250.75 feet, thence South 17°57' West 76.90 feet, thence on a curve to the right whose center bears North 72°03' West and whose radius is 500 feet distance 215.55 feet, thence South 42°39' West 225.66 feet, thence on a curve to the right whose center bears South 47°21' West and whose radius is 500 feet distance 161.15 feet, thence South 61°07' West 232.05 feet, thence on a curve to the left whose center bears South 28°53' East and whose radius is 1000 feet distance 262.96 feet, South 46°03' West 314.94 feet, thence on a curve to the right whose center bears North 43°57' West and whose radius is 500 feet distance 159.12 feet, thence South 64°17' West 101.06 feet, thence on a curve to the right whose center bears North 25°43' West and whose radius is 400 feet distance 286.70 feet, thence North 74°39' West 137.06 feet, thence on a curve to the left whose center bears South 15°21' East and whose radius is 300 feet distance 237.02 feet, thence South 60°05' West 49.44 feet, thence on a curve to the right whose center bears North 29°55' West and whose radius is 500 feet, distance 211.18 feet, thence South 84°17' West 20.79 feet, thence on a curve to the left whose center bears South 5°43' East and whose radius is 800 feet, distance 345.34 feet, thence South 59°33' West 27.87 feet, thence leaving said surveyed county road line and running South 59°33' West 165.91 feet, thence North 1°17' West 66.93 feet to the most Easterly corner of the R.C.A. Property above referred to, thence along the boundary of said R.C.A. Property on true meridian, North 80°56' West (called North 79°14' West in said R.C.A. Deed) 406.3 feet, thence continuing by true meridian, South 82°40' West 629.70 feet, North 68°34' West 256.2 feet, North 31°31' West 223.0 feet, North 11°05' East 149.80 feet,

TOGETHER WITH the Grantor's right, title and interest in and to water rights appurtenant to this property.

The land is conveyed subject to existing easements of record for public roads and highways, public utilities, railroads, pipelines, ditches and canals.

RESERVING to the Grantor, her heirs, executors, administrators and assigns, possession and use of the above described property together with the buildings and improvements thereon, in accordance with the terms and conditions of the contract dated June 22, 1971 and assigned Contract Number 14-10-9-900-383 on file with the National Park Service, Department of the Interior.

The land hereinabove described contains 398.00 acres, more or less.

TOGETHER WITH all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in any wise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

TOGETHER WITH the buildings and improvements thereon and all rights and appurtenances thereto.

TO HAVE AND TO HOLD the same unto said UNITED STATES OF AMERICA and its assigns, forever.

And said Grantor for herself and her heirs, executors, administrators and assigns, does hereby covenant with the UNITED STATES OF AMERICA that she is now seized in fee simple of the property hereby granted; that the said UNITED STATES OF AMERICA shall enjoy the same without any lawful disturbances; that title to the property hereby conveyed is free from any encumbrances except as noted above.

The Grantor further remises, releases and forever quitclaims to the UNITED STATES OF AMERICA and its assigns, all right, title and interest which the Grantor may have in the banks, beds and waters of any streams bordering the said land to be conveyed and also all interest in any alleys, roads, streets, ways, strips, gores or railroad rights-of-way abutting or adjoining said land and in any means of ingress or egress appurtenant thereto.

The land is being acquired by the Department of the Interior, National Park Service.

IN WITNESS WHEREOF, the said Grantor has hereunto set her hand this 12th day of July, 1971.

Memorandum

To: Superintendent, Point Reyes National Seashore

From: Chief, Water Rights Branch

Subject: California State Water Resources Control Board Progress Reports and Reports of Licensee

We have reviewed the thirteen reports of licensee and one progress report by permittee (attached) mailed to us in a letter dated October 6, 1997. There is missing information or discrepancies in all of the reports between the authorized beneficial purposes and the reported water uses. Before we can finalize the reports and sign them, we would like your assistance in clarifying these discrepancies. Please review our comments below and return the completed reports and/or call Bill Hansen, of my staff, at (970) 225-3532 to discuss the need for filing change applications so we are in compliance with the conditions of each permit.

Our concerns are listed below and referenced by application and permit number:

Application A029021, Permit 020434, Use of Water (5): Has use of water commenced? If so, is any irrigation use and/or recreational use occurring?

Application A021954, Permit 009630: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If this water is being used for domestic purposes we are in non-compliance with the permit and should file a change application to add domestic use. No Use

Application A019955, Permit 007931: What type of recreational use is occurring (i.e., fishing, boating, etc.)? ?

Application A019953, Permit 007929: There is a conflict between the authorized purposes which are domestic, recreational, and stockwatering and the actual uses shown on page 2. Is this water is being used for domestic purposes? If not, will it be in the future or should we file a change application to subtract domestic use? What type of recreational use is occurring (i.e., fishing, boating, etc.)?

Application A019952, Permit 007928: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If recreational use is occurring we should file a change application. If it is not, we should not show this use on page 2.

Application A019951, Permit 007927: Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A019950, Permit 007926: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. Is there actually 280 acres being irrigated, or was it intended to show 280 head of stock being watered. If irrigation is occurring we are in non-compliance with our permit. Is recreational use occurring? If so, what kind. If these discrepancies are real we will need to file a change application.

Application A020021, Permit 007941: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A020022, Permit 007942: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A021277, Permit 009049: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit. Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A013473, Permit 003827: Are uses occurring in November, December, January, and February? Is irrigation occurring? If not, should we file a change application to be in compliance with our permit?

Application A013322, Permit 003800: Does use occur in January? There is a conflict between the authorized purposes which are domestic and industrial and the actual uses shown on page 2. It appears that the purpose should be changed to stockwatering since this is a beef cattle operation. Was this water used at one time for a dairy operation and the original permittee issued for industrial uses associated with dairy farming?

Application A017417, Permit 006748: There is a conflict between the authorized purpose which is recreational and the actual uses shown on page 2. If horses are being watered we are in non-compliance with our permit and should either discontinue stockwatering or file a change application to add stockwatering. — Mailed change application

Application A019954, Permit 007930: What types of recreational use are occurring?

02-22-1988: memorandum to associate regional director from acting chief regarding transmittal of reports of licensee for california park units

Sent to Western Region 3/3/88 pmd

February 22, 1988

L54 (479)
WR Water Rights

Memorandum

To: Associate Regional Director
Resources Management and Planning
Western Region

From: Acting Chief
Water Resources Division

Subject: Transmittal of Reports of Licensee for California park units

Attached are completed Report of Licensee forms for 1985, 1986 and 1987 water usage for water rights at Death Valley NM, Lassen Volcanic NP, Point Reyes NS, Redwoods NP, Sequoia-Kings Canyon NP, Whiskeytown NRA, and Yosemite NP. The Water Rights Branch of the Water Resources Division prepared the forms based upon information received from the respective park units.

The forms need to be transmitted to the State Water Resources Control Board from your office as soon as possible. We have attached proposed letters of transmittal to accompany each park unit's set of forms.

If you have any questions regarding the forms or their transmittal, please contact Pat Larson of the Water Rights Branch at 303/221-5341.

REPORT OF TELEPHONE CONVERSATION

DATE 2/16/88 TIME 10:10 (AM) PM

PROJECT Reports of Licensee - PORE

NPS PERSON ON CALL: Pat Larson ☒ I CALLED ☐ S/HE CALLED

PERSON Jack Williams, Chief of Maintenance

ORGANIZATION Point Reyes National Seashore

ADDRESS Point Reyes, CA 94956

TELEPHONE NO. (415) 663-8522 EXT.

SUBJECTS DISCUSSED Initially I asked Mr. Williams about water right records regarding the Park. He said they are non-existent and very little is known about the Park's water rights. Then, I asked if the two Rogers' properties are still supporting cattle, particularly:

WR #9 - Unnamed Stream, Appl #20021, License #7941, 130 dairy cattle

WR #10 - Unnamed Stream, Appl #20022, License #7942, 130 dairy cattle

(Both on lands previously owned by Mary G. Rogers)

WR #14 - Unnamed Stream, Appl #22784, License #10112, 100 beef cattle

(On lands previously owned by Clarence and Rosilda Rogers)

After consulting with John Sansing, Superintendent, PORE, Mr. Williams confirmed that both operations are still active. We agreed that the Reports of Licensee for these three water rights should be submitted the same as the previous reports. No record has been found regarding a water right for stockwatering from an Unnamed Stream, Appl #25498, License #11635, at either the Park or the Water Resources Division.

(Continued on blank page following.)

ACTION TO BE TAKEN Prepare the Reports of Licensee for WR #9, #10 and #12 for Stan Ponce's signature and send them to Dave Cherny for transmittal to the State Water Resources Control Board. For the unknown water rights I'll consult with Gerry Witucki and Dave Cherny or Merf Kolipinski to see if anyone has additional information or documentation regarding these water rights.

COPIES TO: PORE WR #9, PORE WR #10, PORE WR #14

2/16/88

PORE - Reports of Licensee (continued)

I asked about a water right for which we need to complete a "Progress Report By Permittee." The project is listed as 21 acre-feet, for domestic, irrigation, recreation, and stockwatering from an unnamed stream and it was supposed to be completed 12/1/84. (Appl # 25504, Permit # 18061) Mr. Williams said the only possible water project he could think of was the dam that Niman and Schell were building about that time.

I also asked Mr. Williams about three "Supplemental Statements of Water Diversion" for diversions from an unnamed stream that is tributary to Papermill Creek (listed as "Peppermill Creek" on the forms but an accompanying memo from John Sansing states that it should be "Papermill Creek"). He said he knew nothing about them. I noted that we have until July 1, 1988, to file these three forms.

ISSUE/CONCERN:

Received Reports of Licensee for 1985, 1986 and 1987 for California park units. The package included three reports for Point Reyes N.S.: Application #20021, License #7941 - Docket #9
Application #20022, License #7942 - Docket #10
Application #22784, License #10112 - Docket #1

ACTION PLAN:

1. Contact park staff to check status of water use for each application.
2. Prepare Report of Licensee for each application.
3. Transmit to Western Region for submittal to State Water Resources Control Board.

ACTION SCHEDULE:

DATE	COMMENTS
2/16/88	Originally called Superintendent Sansing, but he referred me to Jack Williams, Chief of Maintenance. I told him I needed to know if water use has changed for the three applications. He consulted Superintendent Sansing and they confirmed that both cattle operations were still operating so water use remained the same as the last report. (Appl # 20021 and # 20022 are for a cattle ranch on lands previously owned by Mary G. Rogers. Appl # 22784 is for a cattle ranch on lands previously owned by Clarence and Rosilda Rogers.)

August 19, 1975

Field Trip to Point Reyes National Seashore, July 8, 1975

Purpose of the Trip: Trip made to acquire specific physical data necessary to update water right dockets - specifically to conduct field investigation of various properties to establish and locate the diversions. Point Reyes has been topographically mapped by the U.S. Geological Survey but unfortunately the range and township survey was not extended over the park. Ranges and townships are shown on adjoining maps but due to the distance over which the survey would have to be extended, and the irregular shape and staggered configuration of many of the sections due to surveying corrections, ranges and townships cannot be accurately projected over the park. Thus a listed range and township location of a specific diversion fails to provide an accurate location. These diversions are in use, being utilized by individuals holding life estates or term leases within the park.

Itinerary: Departed San Francisco the morning of July 8, 1975. Arrived at Point Reyes and remained until late that afternoon at which time I returned to San Francisco.

Companions: None

Accomplishments and Observations: Met with Dick Engle, Park Engineer, who accompanied me to the various diversions.
Nunes Diversion (Water Right Docket #11) - Mr. Nunes had constructed an earthen dam about midway down a small canyon immediately to the south of his residence (see Figure 1). There was a stream flowing at an approximate rate of 3 gallons per minute in this canyon. The source of the stream was several small springs and seeps arising in the hillside to the south of the stream. Mr. Nunes had constructed a spring box and pumphouse over one particular spring opening. This supplies water for his domestic needs and the overflow is piped to the stream to also feed the reservoir. The specific conductance of the water was 700 at 15°C.

Rogers Property (Water Right Dockets # 9 & 10) - Spoke with a member of the family who informed us that their domestic supply was from a well

drilled adjacent to their home, and that their supply for the dairying operations was from a nearby spring. He directed us to the diversion he had made in a canyon and for which he had applied to the State of California for an appropriative right (and for which he had received a license). We drove to a hill overlooking the small stock reservoir which is his diversion. The earthen dam traps the present total flow of water in the canyon. Streamflow is probably due solely to rainfall. Assuming this reservoir is that described in License No. 7942 (Water Right Docket # 10), the only other diversion in the general vicinity of the one described in License No. 7941 (Water Right Docket # 9) is the spring used to supply water to their barn (see Figure 2). However, the description and the location in the license does not describe this diversion. We can only guess that Mr. Rogers filed on the reservoir and spring and received licenses on both, or he has or had made another diversion which he did not mention to us.

Conclusions: The Nunes diversion was as described in the application. The future importance of this reservoir may ultimately lie in the fact that it is fed by springs capable of providing a continuous domestic supply year round (as they are used now). In comparison, the Rogers diversions were not as described in the applications and may have no other use than in dairying operations.

Reccomendations: The information contained in this trip report should be incorporated into the respective docket files so as to supplement and update the information already contained therein. The pertinent information contained in this trip report should also be transmitted to the park and WASO along with copies of the maps.

Mike Ackerman

07-09-1973: letter to chief, division of water resources from supervising engineer regarding changed ownership of license 7942, 7941; application 20022, 20021; unnamed streams in marin county

STATE OF CALIFORNIA—THE RESOURCES AGENCY

RONALD REAGAN, Governor

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS
ROOM 1015, RESOURCES BUILDING
1416 NINTH STREET • SACRAMENTO 95814

JUL 9 1973

Mr. Gerard Witucki, Chief
Division of Water Resources
U. S. Department of the Interior
National Park Service
450 Golden Gate Avenue, Room 14045
San Francisco, CA 94102

Dear Mr. Witucki:

License 7942 (Application 20022) (WR# 10)
License 7941 (Application 20021) (WR# 9)
Unnamed Streams in Marin County

We have changed ownership of the above licenses to the United States, Department of the Interior, National Park Service, Point Reyes National Seashore.

Enclosed are copies of the licenses for the two unnamed streams which you requested.

Sincerely,

J M Page

NPS Personnel in on Call William N. Murray

Conversation: Subject: Water Rights on the Rogers Property inside the Park.

The Superintendent stated that the Rogers have sold their property in the Park to the Government, but retained a 20-year reservation of occupancy. They may continue to use the water for their dairy operation, as they did before they sold their property; but any new water sources they develop will become the property of the Government. Thus, the Rogers cannot file an application for any water rights with the State Water Resources Division, because the water would automatically be the property of the Government.

There are two streams which cross the Rogers property. They both cross a corner of the property, and flow into Schooner Bay. They are no doubt used for stock-watering pruposes.

The Superintendent has no clear picture of the extent of water usages in the Park. He suggested that a field inspection and inventory of the whole Park would be required to obtain that information.

Follow-up Action to be Taken:

Follow-up Action Taken:

07-08-1975: photographs of rogers diversion

WR # 10 - Rogers Diversion
Stock Reservoir July 8, 1975

WR # 10 - Rogers Diversion
Looking up the canyon (or upstream) from the storage reservoir (used for stock watering) July 8, 1975

WR # 10 - Rogers Diversion
From a vantage point on a hillside above the stock reservoir, view is looking to the West (a little south.) The roadway is visible in the center and the western portion of Point Reyes in the background.
