Docket Number: 44

GOLDSTONE SPRING (A016126)

Preliminary Docket Information

DOCKET INFORMATION FORM

Compiled by: Alexa Kreiling Date: 6/6/2024
 Initial Docket Information Form ☒ Amendment # (1,2,3 ...)
 Includes Confidential Content ☐

Park Unit: MOJA Docket #: 44 Docket Title Goldstone Spring tributary to Mojave Desert (A016126)

Docket Type:

Select all applicable: ☐ PC/V (pre-code/vested) ☒ APP (appropriative) ☐ RIP (riparian)
☐ FRR (federal reserved right) ☐ PWR (public water reserve) ☒ ACQ (acquired)
☐ GW (groundwater) ☐ Own (ownership) ☐ Other

Region:

☐ NER & NCR ☐ IMR
☐ SER ☐ MWR
☐ IMR ☒ PWR
☐ AKR

Source:

☐ Groundwater ☒ Spring (When recognized by the State as separate from groundwater and surface water)
☐ Surface Water
☐ Direct Diversion ☐ Diversion to Storage ☐ Instream Flow
 Name: Goldstone Spring

State: CA
 County: San Bernardino

Owner: U.S. National Park Service (As listed by the State)

Application #: A016126 Date:

Permit #: Date Issued:

License / Certificate #: 006131 Priority Date: 11/5/1954

Ruling/Order/Decree #: Date Issued:

Quantity: Rate: 500 Duty:
 Units: ☐ cfs ☐ gpm ☐ afy ☒ other gpd Units: ☐ cfs ☐ gpm ☐ afy ☐ other

Use(s): ☐ Domestic ☒ Livestock ☐ Irrigation ☐ Municipal ☐ Industrial/Commercial ☐ Wildlife ☐ Instream ☐ other

Narrative / Remarks: Enter short narrative in the space below, attach additional page(s) as needed.

-2/17/1988 last assignment: Gary & Linda Overson to Clay Overson & Sandra Overson.

-1/25/1994 California Desert Protection Act of 1994, Mojave National Preserve created. Granite Mountain Ranch allotment retired.

-eWRIMS Data: ROL (2007-2016) filed by NPS. No longer used in support of licensed purposes. Beneficial use is for the enhancement of wetland/riparian ecosystems, wildlife, and recreation. NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate an intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future.

-Supplemental Statements of Water Diversion and Use (2007-2023/current) filed by NPS.

REPORT OF LICENSEE

[SUMMARY OF FINAL SUBMITTED VERSION]**REPORT OF LICENSEE FOR 2017**

Primary Owner: U S NATIONAL PARK SERVICE
Primary Contact:

Date Submitted: 08/01/2018

Application Number: A016126
Permit Number: 010105

Source(s) of Water	POD Parcel Number	County
GOLDSTONE SPRING	0558-321-11	San Bernardino

MAX Direct Diversion Rate: 500 GPD
MAX Collection to Storage: 0 AC-FT
Face Value: 0.6 AC-FT

Permitted Use(s)	Acres	Direct Diversion Season	Storage Season
Stockwatering	0	01/01 to 12/31	

1. Project Abandoned

The project has been abandoned and I request revocation of my water right license	No
---	----

2. Compliance with License Terms and Conditions

I have currently reviewed my water right license and I am complying with all terms and conditions	No
Description of noncompliance with terms and conditions	Beneficial use is for the enhancement of wetland/riparian ecosystems, wildlife, and recreation. NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate an intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future.

3. Changes to the Project

Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

4. Purpose of Use

Recreational	visitation, aesthetics
Fish and Wildlife Protection and/or Enhancement	wildlife, natural environment

Special Use Categories

C1. Are you using any water diverted under this right for the cultivation of cannabis?	No
--	----

5. Maximum Rate of Diversion for each Month

Month	Maximum Rate of Diversion
-------	---------------------------

(GPM)

January	0
February	0
March	0
April	0
May	0
June	0
July	0
August	0
September	0
October	0
November	0
December	0

6. Amount of Water Diverted and Used

Month	Amount directly diverted (Acre-Feet)	Amount diverted or collected to storage (Acre-Feet)	Amount used (Acre-Feet)
January	0	0	0.05
February	0	0	0.05
March	0	0	0.05
April	0	0	0.05
May	0	0	0.05
June	0	0	0.05
July	0	0	0.05
August	0	0	0.05
September	0	0	0.05
October	0	0	0.05
November	0	0	0.05
December	0	0	0.05
Total	0	0	0.6
Type of Diversion	No Diversion		
Comments	There are no diversions for consumptive use, amount consumed by wildlife and habitat is not known.		

Water Transfers

6d. Water transferred	No
6e. Quantity transferred (Acre-Feet)	
6f. Dates which transfer occurred	/ to /
6g. Transfer approved by	

Water Supply Contracts

6h. Water supply contract	No
6i. Contract with	
6j. Other provider	
6k. Contract number	
6l. Source from which contract water was diverted	
6m. Point of diversion same as identified water right	
6n. Amount (Acre-Feet) authorized to divert under this contract	
6o. Amount (Acre-Feet) authorized to be diverted in 2017	

6p. Amount (Acre-Feet) projected for 2018	
6q. Exchange or settlement of prior rights	
6r. All monthly reported diversion claimed under the prior rights	
6s. Amount (Acre-Feet) of reported diversion solely under contract	

7. Water Diversion Measurement

a. Required to measure as of the date this report is submitted	No
b. Is diversion measured?	No
c. An alternative compliance plan was submitted to the division of water rights on	
d. A request for additional time was submitted to the division of water rights on	

8. Storage

Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level

Conservation of Water

9. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
10. Amount of water conserved	

Water Quality and Wastewater Reclamation

11. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
12. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water

13. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
14. Amounts of groundwater used	

Additional Remarks

Declaration: The United States holds both state law-based water rights and federal reserved rights, and may meet its water needs by using either or both types of right. The United States provides this information to the State in the interest of comity and with respect to the State desire to understand water uses in the State; however, by providing this information, the United States does not concede that the State has the power to regulate the rights of the United States to the use of water.

Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
This right is no longer used in support of livestock, but is presently used by wildlife. The NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate an intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future. The exact amount of use is not known. The United States gives this information in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

State Water Resources Control Board

NOTICE TO WATER RIGHT LICENSEE

March 5, 2012

Designated Contact or Agent:ANNIE KEARNS
2701 BARSTOW RD
BARSTOW, CA 92311**Contact Phone Number:** () -**Primary Owner:** U S NATIONAL PARK SERVICE**Application ID:** A016126 **License No.** 006131**First three Sources listed:****Counties:**

GOLDSTONE SPRING	San Bernardino

Direct Diversion Rate: 500.000 Gallons per Day **Collection to Storage Amount:** 0.000 AC-FT**LICENSEE REPORTING FOR 2011**

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A016126**Password (Reporting Identifier): **935897**

You are required to complete the online report for 2011 no later than **June 30, 2012**. If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

CHARLES R. HOPPIN, CHAIRMAN | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, CA 95812-0100 | www.waterboards.ca.gov

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Phillip Crader". The signature is fluid and cursive, with the first name "Phillip" and last name "Crader" clearly distinguishable.

Phillip Crader, Manager
Permitting and Licensing Section

BARSTOW, CA 92311

Source(s): GOLDSTONE SPRING in San Bernardino County

Direct Diversion Rate: 500 Gallons per Day **Collection To Storage Amount:** 0 AC-FT

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to **www.waterboards.ca.gov/rms** and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A016126**
Password: **4L2K9P**

You are required to complete the online report for 2010 no later than **July 1, 2011**. You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

**Notice to Water Right Licensee
Licensee Reporting for 2010****-2-****February 2011**

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

CONTACT INFORMATION

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If No , how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If No , how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

[] YES [X] NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. [] YES [] NO I have currently reviewed my water right license.
2. [] YES [] NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
3. [X] YES [] NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If Yes, explain under "Remarks" on reverse side. **Note:** A Change Petition and associated fees may be required for any significant changes to the licensed project.

DIRECT DIVERSION ONLY - AMOUNT OF WATER USED: Please report only the amounts diverted and beneficially used under this permit.

4. Amount of water used each month under this license in [] gallons or [] acre-feet:

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total Annual
2004	Year Round												
2005													
2006													

STORAGE PROJECTS ONLY: (Note: Up to 5 reservoirs may be covered under a single license. Refer to your license for the actual number covered.)
Complete for long-term storage projects only:

	2004	2005	2006
5. Did your reservoir(s) spill?			
6. If No on No. 5 above, how many feet vertically below the spillway was the water level(s) at maximum storage?			
7. Have you emptied the reservoir(s)?			
8. If No on No. 7 above, how many feet vertically below the spillway was the water level(s) at minimum storage?			

(Continues on reverse)

REPORT OF LICENSEE FOR 2004, 2005 & 2006

BENEFICIAL USE(S) OF WATER: (Note: See reverse side for a summary of the beneficial uses of water authorized under your water right license.)
Under the appropriate boxes below, explain how the water was used each year:

Beneficial Use	2004	2005	2006
9. Irrigation – specify no. of acres irrigated			
10. Frost Protection – specify no. of acres protected			
11. Heat Control – specify no. of acres protected			
12. Industrial – specify type			
13. Stockwatering – specify no. & type of animals			
14. Municipal – approx. population served			
15. Domestic – specify no. of persons, lawn/garden area			
16. Power Generation – installed capacity in kW, MW, or hp			
17. Recreational – specify (boating, fishing, water contact sports, etc.)			
18. Other – specify (Examples: fire protection, wildlife enhancement, dust control, snowmaking, mining, etc.)	wildlife	wildlife	wildlife

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT

(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

19. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

NA

20. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2004	2005	2006
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

21. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

NA

22. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2004	2005	2006
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

23. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

NA

24. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2004	2005	2006
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

Water now used for wildlife. Amount not quantified.

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

REMARKS (Identify the item you are explaining)

This license was recently acquired by the National Park Service from a rancher who grazed on former BLM land. Cattle were removed from this allotment a year ago. The Park Service is moving forward with plans (2001) to formerly change the stated use of this water

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

License for Diversion and Use of Water

APPLICATION 16126PERMIT 10105LICENSE 6131

THIS IS TO CERTIFY, That

Kenneth Staples
Box 38
Amboy, California

has made proof as of April 1, 1960,
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
Goldstone Spring in San Bernardino County

tributary to Mojave Desert

for the purpose of stockwatering use
under Permit 10105 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from November 5, 1954,
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed five hundred (500) gallons per
day to be diverted from January 1 to December 31 of each year.

The point of diversion of such water is located:

North nine hundred twenty (920) feet and east one thousand two hundred twenty-five (1225) feet from SW corner of Section 31, T10N, R14E, SBB&M, being within SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 31.

A description of the lands or the place where such water is put to beneficial use is as follows:

SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 36, T10N, R13E, SBB&M.

The right under this license is of equal priority with the right under License 6129.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

DataStore - Activation: California Desert Protection Act of 1994 – June 3, 1995 (nps.gov)

The purpose of this memorandum is to outline the actions that need to be taken to implement the California Desert Protection Act of 1994 and indicate the responsible officials. Its primary audience is park managers, staff, and the interested public. Its objectives are to provide an administrative history, outline steps for activating the act's provisions, and clarify the responsibilities of federal and state officials. Key aims include designating and managing new wilderness areas and national parks, protecting natural resources, preserving traditional land uses like grazing, and coordinating law enforcement and land management activities. The document is crucial for guiding the effective management and preservation of the protected areas.

Description

Report on the formation and management of Mojave National Preserve. Information on mining issues, resources, and threats to the Preserve are included.

Chapter 8 – Administrative History (excerpt)

For Mojave National Preserve, grazing is a controversial and important issue that cannot be ignored. Widespread political and cultural overtones help make grazing a sensitive issue for everyone involved. As such, park management tread carefully but deliberately in the arena of grazing management. The Park Service has long viewed grazing as antithetical to its mission, permitting the activity in certain parks only when political circumstances absolutely required it. Park Service culture and policy have historically limited grazing in national parks, initially to differentiate itself from the Forest Service, and in later years to help maintain ecosystems. The long history of grazing in Mojave National Preserve and permission for its continuation in perpetuity by legislative action complicates natural resource decisions, making the goal of a functioning pre-grazing ecosystem frustratingly difficult to achieve.

At the time Mojave National Preserve was established, all or part of eleven BLM grazing allotments, established under the 1934 Taylor Grazing Act, were included within the park. Superintendent Marvin Jensen brought a background in range conservation with him and established a friendly management tone toward grazers. All existing operations were issued NPS permits to continue with their ranching activity, and management of the range did not differ substantially from BLM activity.

The Park Service also took concrete steps toward limiting grazing when possible, providing that the situation was politically feasible. The portion of the Piute allotment within the park was for ephemeral forage only and was in desert tortoise habitat. Management decided that any ephemeral forage must, at behest of the Desert Tortoise Recovery Plan, be used by the desert tortoise, so a permit to graze ephemeral forage would never be issued. A second allotment, Crescent Peak, was owned by a conservation group, who had purchased it as part of a move to

eliminate grazing in southern Nevada. Since no active grazing was taking place, the permit was retired. Not long after the creation of the Preserve, the rancher who held the Clark Mountain grazing allotment passed away, and Park Service regulations forbid the issue of a permit for renewed operations there. Irene Ausmus held the Round Valley allotment, just large enough for her to keep her two pet cows in feed, but not so big as to cause significant resource issues for the park.

Major cattle operations in Mojave National Preserve were essentially controlled by three groups. The Overson family was responsible for the largest share of the acreage, with the OX and Kessler Springs ranches owned by Gary and Linda Overson, and the Granite Mountains ranch owned by their son, Clay Overson. Next in size were the Valley View and Valley Wells allotments, both owned by Richard Blincoe, an Idaho agriculturalist, and managed by Tim Overson. The Blair family operated the 7IL Ranch on the Colton Hills and Gold Valley allotments. During the CDPA debate, the Blairs worked to preserve their ranching way of life, and an original clause that specified a twenty five year sunset on Mojave ranching was removed from the bill largely as a result of their efforts. In 2001, the park concluded an arrangement begun in 1998 where the 40 acres of park land that included the 7IL Ranch headquarters were swapped to the Blairs for 40 acres of undisturbed land in critical desert tortoise habitat owned by the ranching family. Touted as a "win-win" situation for the Blairs and the Park Service, the deal also showed locals that the government was not out to destroy family ranchers in the Preserve.

Ranch lands are identified in the California Desert Protection Act as top priorities for acquisitions. In contrast to the Blairs' opposition to the CDPA, Gary Overson specifically requested that his ranchlands be included in the park, to guarantee an acceptable purchase price should he decide to sell his property. Beginning in 1995, Deputy Superintendent Mary Martin worked to coordinate the sale of Overson's ranch to the National Parks Conservation Fund, but after years of contract negotiations, the deal fell through at least in part as a result of strict timelines and reluctance on the part of BLM. Undaunted, Martin sought another donor, but Overson doubted the ability of the Park Service to complete a buyout, as a result of the earlier failed experiment. Overson looked for another private buyer for his ranch, but the park made it clear to the buyer that issuance of a new grazing permit "is not certain" and that "the application process ... is subject to lengthy and potentially costly delays and complex administrative and legal procedures and challenges." As a trial run, Mojave National Preserve and the National Park Foundation worked to move the Granite Mountains Ranch, owned by Overson's son, to NPS control. The deal was completed in April 2000, and set the stage for the park's successful acquisition of Gary Overson's holdings in January 2001. In 2002, Blincoe also agreed to sell his ranches to the park.

The effect of the Overson and Blincoe allotment acquisitions cannot be overstated. Total grazing in the Mojave National Preserve was reduced from some 37,000 Animal Unit Months (AUMs) to approximately 4,000 AUMs, leaving the 7IL as the only major cattle ranch in the Preserve. The elimination of grazing will move the formerly grazed lands closer toward a goal of a more naturally functioning ecosystem. The Park Service also gained control of a tremendous number and variety of structures associated with cattle ranching in the eastern Mojave desert. In 2002, a consultant produced a National Register district nomination for the Overson properties, signifying their historic importance to the east Mojave; future plans may include interpretive programs and utilizing some structures for NPS employee housing. The ranches acquired by Mojave National Preserve included some private lands among the holdings, but the most valuable assets to the park were the grazing permits and the ranchers' water rights.

AREA: MOJAVE NATIONAL PRESERVE, CALIFORNIA

AUTHORIZATION

Act of October 31, 1994 (P.L. 103-433), established Mojave National Preserve.

ACQUISITION AUTHORITY

Act of October 31, 1994, authorized acquisition by donation, purchase or exchange. Privately owned lands may be acquired only with the consent of the owner unless the owner's use or proposed use of the land is deemed incompatible with the purposes of the preserve. Construction or modification of a single-family residence shall not be considered incompatible with purposes of the preserve. Lands or interests owned by the State of California, or any political subdivision thereof, may be acquired only by donation or exchange, except for lands managed by the California State Lands Commission. The act authorized the transfer to the National Park Service (NPS), without consideration, of described lands under the jurisdiction of the Bureau of Land Management (BLM). The act provides that if a person holding a grazing permit is willing to convey to the United States any base property with respect to which such permit was issued, the Secretary shall make the acquisition of such base property a priority.

ESTABLISHED

October 31, 1994

BOUNDARY REVISIONS

None

ACREAGE LIMITATIONS

None

STATUTORY CEILING FOR LAND ACQUISITION

Act of October 31, 1994, authorized appropriations for land acquisition by NPS and BLM not to exceed a total of \$300,000,000.

REMARKS

Act of October 31, 1994, requires that:

(1) Until acquired by the United States, no non-Federal lands within the park boundary shall be subject to rules or regulations applicable solely to Federal lands within such boundary.

(2) None of the lands within the park boundary shall be granted to or otherwise made available for use by the Metropolitan Water District pursuant to the Boulder Canyon Project Act or any similar acts.

(3) Upon request of the California State Lands Commission, the Secretary shall negotiate to acquire by exchange State School lands within the boundaries of the park system units designated by the act. Until all such State school lands have been acquired, no Federal lands or interests within the State of California may be disposed of prior to providing the State an opportunity to enter into an exchange of those Federal lands for State School lands.

(4) Lands and interests in land to be acquired pursuant to this act shall be appraised without regard to the presence of a threatened or endangered species.

MOJAVE NP DEED #2

Such activities shall be conducted in a manner which will minimize the impact on park resources. Nothing in this title shall have the effect of terminating the fee title to lands or customary operation, maintenance, repair, and replacement activities on or under such lands granted to the Metropolitan Water District pursuant to the Act of June 18, 1932 (47 Stat. 324), which are located on lands included in the Joshua Tree National Park, but outside lands designated as wilderness under section 601(a)(2). Such activities shall be conducted in a manner which will minimize the impact on park resources. The Secretary shall prepare within one hundred and eighty days after the date of enactment of this Act, in consultation with the Metropolitan Water District, plans for emergency access by the Metropolitan Water District to its lands and rights-of-way.

SEC. 407. JOSHUA TREE NATIONAL PARK ADVISORY COMMISSION.

(a) The Secretary shall establish an Advisory Commission of no more than fifteen members, to advise the Secretary concerning the development and implementation of a new or revised comprehensive management plan for Joshua Tree National Park.

(b)(1) The advisory commission shall include an elected official for each County within which any part of the park is located, a representative of the owners of private properties located within or immediately adjacent to the park, and other members representing persons actively engaged in grazing and range management, mineral exploration and development, and persons with expertise in relevant fields, including geology, biology, ecology, law enforcement, and the protection and management of National Park resources and values.

(2) Vacancies in the advisory commission shall be filled by the Secretary so as to maintain the full diversity of views required to be represented on the advisory commission.

(c) The Federal Advisory Committee Act shall apply to the procedures and activities of the advisory commission.

(d) The advisory commission shall cease to exist ten years after the date of its establishment.

TITLE V—MOJAVE NATIONAL PRESERVE

SEC. 501. FINDINGS.

The Congress hereby finds that—

(1) Death Valley and Joshua Tree National Parks, as established by this Act, protect unique and superlative desert resources, but do not embrace the particular ecosystems and transitional desert type found in the Mojave Desert area lying between them on public lands now afforded only impermanent administrative designation as a national scenic area;

(2) the Mojave Desert area possesses outstanding natural, cultural, historical, and recreational values meriting statutory designation and recognition as a unit of the National Park System;

(3) the Mojave Desert area should be afforded full recognition and statutory protection as a national preserve;

(4) the wilderness within the Mojave Desert should receive maximum statutory protection by designation pursuant to the Wilderness Act; and

(5) the Mojave Desert area provides an outstanding opportunity to develop services, programs, accommodations and facilities to ensure the use and enjoyment of the area by individuals with disabilities, consistent with section 504 of the Rehabilitation Act of 1973, Public Law 101-336, the Americans With Disabilities Act of 1990 (42 U.S.C. 12101), and other appropriate laws and regulations.

SEC. 502. ESTABLISHMENT OF THE MOJAVE NATIONAL PRESERVE.

There is hereby established the Mojave National Preserve, comprising approximately one million four hundred nineteen thousand eight hundred acres, as generally depicted on a map entitled "Mojave National Park Boundary—Proposed", dated May 17, 1994, which shall be on file and available for inspection in the appropriate offices of the Director of the National Park Service, Department of the Interior.

SEC. 503. TRANSFER OF LANDS.

Upon enactment of this title, the Secretary shall transfer the lands under the jurisdiction of the Bureau of Land Management depicted on the maps described in section 502 of this title, without consideration, to the administrative jurisdiction of the Director of the National Park Service. The boundaries of the public lands shall be adjusted accordingly.

SEC. 504. MAPS AND LEGAL DESCRIPTION.

Within six months after the date of enactment of this title, the Secretary shall file maps and a legal description of the preserve designated under this title with the Committee on Energy and Natural Resources of the United States Senate and the Committee on Natural Resources of the United States House of Representatives. Such maps and legal description shall have the same force and effect as if included in this title, except that the Secretary may correct clerical and typographical errors in such legal description and in the maps referred to in section 502. The maps and legal description shall be on file and available for public inspection in the appropriate offices of the National Park Service, Department of the Interior.

SEC. 505. ABOLISHMENT OF SCENIC AREA.

The East Mojave National Scenic Area, designated on January 13, 1981 (46 FR 3994), and modified on August 9, 1983 (48 FR 36210), is hereby abolished.

SEC. 506. ADMINISTRATION OF LANDS.

(a) The Secretary shall administer the preserve in accordance with this title and with the provisions of law generally applicable to units of the National Park System, including the Act entitled "An Act to establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1, 2-4).

(b) The Secretary shall permit hunting, fishing, and trapping on lands and waters within the preserve designated by this Act in accordance with applicable Federal and State laws except that the Secretary may designate areas where, and establish periods

when, no hunting, fishing, or trapping will be permitted for reasons of public safety, administration, or compliance with provisions of applicable law. Except in emergencies, regulations closing areas to hunting, fishing, or trapping pursuant to this subsection shall be put into effect only after consultation with the appropriate State agency having responsibility for fish and wildlife. Nothing in this Act shall be construed as affecting the jurisdiction or responsibilities of the States with respect to fish and wildlife on Federal lands and waters covered by this title nor shall anything in this Act be construed as authorizing the Secretary concerned to require a Federal permit to hunt, fish, or trap on Federal lands and waters covered by this title.

SEC. 507. WITHDRAWAL.

Subject to valid existing rights, all Federal lands within the preserve are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws; from location, entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing, and mineral materials, and all amendments thereto.

SEC. 508. REGULATION OF MINING.

Subject to valid existing rights, all mining claims located within the preserve shall be subject to all applicable laws and regulations applicable to mining within units of the National Park System, including the Mining in the Parks Act (16 U.S.C. 1901 et seq.), and any patent issued after the date of enactment of this title shall convey title only to the minerals together with the right to use the surface of lands for mining purposes, subject to such laws and regulations.

SEC. 509. STUDY AS TO VALIDITY OF MINING CLAIMS.

(a) The Secretary shall not approve any plan of operation prior to determining the validity of the unpatented mining claims, mill sites, and tunnel sites affected by such plan within the preserve and shall submit to Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental consequences of the extraction of minerals from these lands.

(b)(1) Notwithstanding any other provision of law, the Secretary shall permit the holder or holders of mining claims identified on the records of the Bureau of Land Management as Volco #A CAMC 105446, Volco #B CAMC 105447, Volco 1 CAMC 80155, Volco 2 CAMC 80156, Volco 3 CAMC 170259, Volco 4 CAMC 170260, Volco 5 CAMC 78405, Volco 6 CAMC 78404, and Volco 7 CAMC 78403, Volco Placer 78332, to continue exploration and development activities on such claims for a period of two years after the date of enactment of this title, subject to the same regulations as applied to such activities on such claims on the day before such date of enactment.

(2) At the end of the period specified in paragraph (1), or sooner if so requested by the holder or holders of the claims specified in such paragraph, the Secretary shall determine whether there has been a discovery of valuable minerals on such claims and whether, if such discovery had been made on or before July 1, 1994, such claims would have been valid as of such date under the mining laws of the United States in effect on such date.

(3) If the Secretary, pursuant to paragraph (2), makes an affirmative determination concerning the claims specified in paragraph (1), the holder or holders of such claims shall be permitted to continue to operate such claims subject only to such regulations as applied on July 1, 1994 to the exercise of valid existing rights on patented mining claims within a unit of the National Park System.

SEC. 510. GRAZING.

(a) The privilege of grazing domestic livestock on lands within the preserve shall continue to be exercised at no more than the current level, subject to applicable laws and National Park Service regulations.

(b) If a person holding a grazing permit referred to in subsection (a) informs the Secretary that such permittee is willing to convey to the United States any base property with respect to which such permit was issued and to which such permittee holds title, the Secretary shall make the acquisition of such base property a priority as compared with the acquisition of other lands within the preserve, provided agreement can be reached concerning the terms and conditions of such acquisition. Any such base property which is located outside the preserve and acquired as a priority pursuant to this section shall be managed by the Federal agency responsible for the majority of the adjacent lands in accordance with the laws applicable to such adjacent lands.

SEC. 511. UTILITY RIGHTS OF WAY.

(a)(1) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities in such right-of-way, issued, granted, or permitted to Southern California Edison Company, its successors or assigns, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(2) Nothing in this title shall have the effect of prohibiting the upgrading of an existing electrical transmission line for the purpose of increasing the capacity of such transmission line in the Southern California Edison Company validly issued Eldorado-Lugo Transmission Line right-of-way and Mojave-Lugo Transmission Line right-of-way, or in a right-of-way if issued, granted, or permitted by the Secretary adjacent to the existing Mojave-Lugo Transmission Line right-of-way (hereafter in this section referred to as "adjacent right-of-way"), including construction of a replacement transmission line: *Provided, That—*

(A) in the Eldorado-Lugo Transmission Line rights-of-way (hereafter in this section referred to as the "Eldorado rights-of-way") at no time shall there be more than three electrical transmission lines;

(B) in the Mojave-Lugo Transmission Line right-of-way (hereafter in this section referred to as the "Mojave right-of-way") and adjacent right-of-way, removal of the existing electrical transmission line and reclamation of the site shall be completed no later than three years after the date on which construction of the upgraded transmission line begins, after which time there may be only one electrical transmission line

in the lands encompassed by Mojave right-of-way and adjacent right-of-way;

(C) if there are no more than two electrical transmission lines in the Eldorado rights-of-way, two electrical transmission lines in the lands encompassed by the Mojave right-of-way and adjacent right-of-way may be allowed;

(D) in the Eldorado rights-of-way and Mojave right-of-way no additional land shall be issued, granted, or permitted for such upgrade unless an addition would reduce the impacts to preserve resources;

(E) no more than 350 feet of additional land shall be issued, granted, or permitted for an adjacent right-of-way to the south of the Mojave right-of-way unless a greater addition would reduce the impacts to preserve resources; and

(F) such upgrade activities, including helicopter aided construction, shall be conducted in a manner which will minimize the impact on preserve resources.

(3) The Secretary shall prepare within one hundred and eighty days after the date of enactment of this title, in consultation with the Southern California Edison Company, plans for emergency access by the Southern California Edison Company to its rights-of-way.

(b)(1) Nothing in this title shall have the effect of terminating any validly issued right-of-way, or customary operation, maintenance, repair, and replacement activities in such right-of-way; prohibiting the upgrading of and construction on existing facilities in such right-of-way for the purpose of increasing the capacity of the existing pipeline; or prohibiting the renewal of such right-of-way issued, granted, or permitted to the Southern California Gas Company, its successors or assigns, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(2) The Secretary shall prepare within one hundred and eighty days after the date of enactment of this title, in consultation with the Southern California Gas Company, plans for emergency access by the Southern California Gas Company to its rights-of-way.

(c) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities of existing facilities issued, granted, or permitted for communications cables or lines, which are located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(d) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities of existing facilities issued, granted, or permitted to Molybdenum Corporation of America; Molycorp, Incorporated; or Union Oil Company of California (d/b/a Unocal Corporation); or its successors or assigns, or prohibiting renewal of such right-of-way, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

[DataStore - Water Resources Scoping Report, Mojave National Preserve \(nps.gov\)](#)

The purpose of this report is to describe how the park was conceived and established and how it has been managed to the present day. Its primary audience is park managers and staff, but it is also directed to the interested public. The report aims to be as comprehensive as possible while emphasizing management issues of ongoing concern. It is essentially a chronological narrative with the selection of topics and the amount of detail weighted somewhat more heavily toward the recent past. While the administrative history covers many diverse management issues, its core objective is to distinguish those historical themes that most ably explain this national park's unique character and course of development.

Description

The East Mojave National Scenic Area Management Plan was developed by the Bureau of Land Management. It provides the direction for preserving the scenic quality of this unique area and for preparing a comprehensive framework for managing and allocating resources in the management area for the next ten years (1988-1997).

Part 2 Management Direction

Section H. Air, Soils, Water; pgs. 88 – 89 (excerpt)

Water

To ensure an adequate supply of water for wildlife or recreation use, BLM files for appropriative water rights with the State of California if the water sources are springs. A major effort in the early 1980s resulted in over 300 water rights filings for wildlife use in the California Desert Conservation Area. Water source inventories and water right filings are part of an ongoing program which also includes the regular monitoring of water used by visitors.

Water source inventories and water rights filings for wildlife use will continue. Proposals to develop additional waters for wildlife use are described under “wildlife” below. Waters used by visitors will continue to be monitored on a regular basis, and studies will be initiated to determine whether contamination is present (Action C-18). BLM will maintain mineral law and mineral leasing withdrawals on waters that have been shown to be needed for wildlife (Actions A-6, A-7).

Section J. Wildlife; pg. 91 (excerpt)

BLM has an extensive spring and water development program. Six big game guzzlers were installed in the Scenic Area between 1981 and 1987 in a combined effort by BLM, the California Department of Fish and Game (CDF &

G) and numerous volunteers. Most springs within the East Mojave are checked on a regular maintenance schedule to ensure wildlife availability. At least five springs per year are checked and, if necessary, redeveloped. BLM policy has been to promote the natural development of a spring by piping water off-site for wildlife and livestock use. Dozens of small game and upland game drinkers have been built throughout the East Mojave, primarily by volunteer help. Maintenance of these and the big game guzzlers are the responsibility of CDF & G.

Part 3 Affected Environment

Section H. Air, Soils, Water; pgs. 118 – 119 (excerpt)

Water

Over 200 springs and seeps have been identified in the East Mojave National Scenic Area. Many have been improved by the installation of retention dams, pipelines, and troughs for use by livestock. Most are also available for wildlife and burro use. Piute Creek is the only perennial stream in the East Mojave and is an important wildlife water source as well as a popular recreation site.

Water wells in the Scenic Area utilize ground water stored in aquifers. Each valley in the East Mojave can be expected to contain water, although the water quality, quantity, and depth to water varies considerably. Utilization of ground water resources is based on surface ownership; therefore, BLM has priority for uses of ground water underlying the public lands in California. A Notice of Intent to drill a water well is required and, if annual use exceeds 25 acre-feet/years, a special State permit is required.

Water wells have been drilled primarily for domestic use and livestock needs but a number of wells have also been drilled for mining use. Two wells, one at Mid Hills and another at Hole-in-the-Wall, supply water for visitor use at these two BLM campgrounds. Over 100 wildlife waters – including big game guzzlers, wildlife drinkers and quail drinkers – have been jointly developed in the East Mojave by the California Department of Fish and Game, BLM, and volunteers.

Public Water Reserves were created by a 1926 Executive Order. Since that date, all springs and water holes, and all lands one-quarter mile from each spring or water hole that are vacant, unappropriated, and unreserved have been withdrawn for domestic and livestock consumption. The withdrawal also segregated the area from nonmetalliferous mining locations. Water in excess of what is needed for human and stock watering purposes must be appropriated under California State law.

BLM appropriates excess water from Public Water Reserves through the State after determining the minimum needed for human and stock watering purposes, amount of excess available, amount needed for the intended appropriated use, a determination that the spring or water hole is vacant and unappropriated, and impacts to other uses or potential uses (e.g., mining) in the area.

July 30, 1999

SHORT NOTE TRANSMITTAL

To: Eric Lord, NPS

From: Rob Nauert, BLM

Subject: History of Federal Reserved Water Rights in Mojave Nat'l Preserve and Death Valley Nat'l Park

Per our discussion, I've reviewed the list of Federal reserved water rights you fax'ed to me yesterday. Our records reveal the following:

Mojave Nat'l Preserve

1. Basalt Spring, Van Winkle Spring, Woods [Mountain] Spring, South Hackberry Spring, and Arrowweed Spring are all Public Water Reserve 107 withdrawals that were initiated on December 28, 1971 under the authority of Executive Order of April 17, 1926. The serial number BLM assigned to these PWR 107 "interpretations" is R-259.
2. There is no PWR 107 designation on our records for Upper Dad Spring, Sheep Spring and Finger Rock Spring. Having not seen the paperwork that BLM sent to the State of California identifying these as Federal reserved water rights, I am making the assumption that these rights were asserted on the basis of the Secretarial Order of January 13, 1981 designating the East Mojave National Scenic Area. The Scenic Area designation essentially established the fact that these federal lands were reserved for a specific use and, hence, is sufficient to assert federal reserved water rights in these springs for a sufficient quantity to carry out the purposes of the "reservation".
3. There is no PWR 107 designation on our records for Cottonwood Spring and Piute Spring. Our records show that the legal description of the location of these springs is on lands that were withdrawn pursuant to Public Land Order 5224 of July 5, 1972, for the protection of recreation and public values. Accordingly, absent the paperwork sent to the State, I am assuming the Federal reserved water rights were asserted on the basis of the purposes of the federal reservation, e.g., withdrawal.
4. The legal description for Goldstone Spring does not exist on our records. This is a partial township and the entire west half of Section 31 does not exist in T. 10 N., R. 14 E., SBM.

5. Two springs listed with "S" numbers, Negro Mine Spring and Goldfish Tank Spring, are on lands included in PWR 107 designations on our records. I'm assuming an "S" means this is an appropriative right granted by the State of California. Either BLM and/or the State records are in error, BLM erroneously obtained a State water right when it could have asserted a Federal reserved water right, or BLM chose to obtain a State appropriative right for greater protection of the water source.

6. Finally, there are 3 areas on our records identified as PWR 107 withdrawals that do not show up on the list you fax'ed to me. These are as follows:

a. Cornfield Spring (Serial No. R-259) identified on August 6, 1971 and affecting the NWSW of Section 12, T. 10 N., R. 13 E., SBM.

b. Two unnamed areas determined on March 15, 1929 by Secretarial Interpretation #85 as meeting PWR 107 criteria and affecting the W1/2SE1/4 of Section 8, and the SE1/4NW1/4 of Section 18, T. 8 N., R. 13 E., SBM.

Death Valley Nat'l Park

1. Federal reserved water rights for Saline Well were asserted on the basis of a PWR 107 interpretation noted on our records on September 23, 1971 (Serial No. R-259 C). Actually, this PWR notation encompassed the SESE of Section 21, SWSW of Section 22, and the NENE of Section 28 in addition to the NWNW of Section 27. However, our records also show that this PWR was apparently "desegregated", e.g. eliminated, on April 26, 1982 but the official document terminating the PWR is missing from our records. We are attempting to recover it. This may be a situation where NPS may want to re-evaluate the water source on the ground and re-establish a PWR 107 right, or seek an appropriative right from the State.

APPENDIX A

3994

Federal Register / Vol. 46, No. 11 / Friday, January 16, 1981 / Notices

offered for coal lease until Congress determines whether the area will be wilderness or not. This direction therefore becomes one of our Planning Criteria.

If it is desirable to lease coal in the PRLA's in 1983, wilderness consideration and environmental assessment of the PRLA coal (possibly in the Fort Union EIS) will have to be closely coordinated.

ACEC's

Areas that qualify for ACEC status will be considered for ACEC management as an MFP alternative.

Withdrawal Review

In order to coordinate the land use plans and withdrawal review process within the allowable time frame, the MFP draft decisions will prioritize the identified withdrawals (sequentially) for subsequent review. (This prioritization will be coordinated with the tentative review dates stated in the District Manager's memo of 9-10-80 to the State Director.) This schedule should allow systematic review and multiple use analysis of withdrawals within the 1991 completion date. However, pertinent BLM withdrawals will be fully addressed in the forthcoming planning effort.

Planning Criteria

Land use planning in the New Prairie planning area is both first and second generation. The Jordan-North Rosebud planning effort is all first generation. The Jordan-North Rosebud Planning effort is all in 1977 (the initial pre-planning analysis) and continuing to date. Numerous public meetings have been held and comments received. Revision of the PPA was completed in December, 1979. During FY 1980 the pre-planning analysis data was re-organized to the new format, i.e., Project Situation Analysis, and Project Situation Analysis Summary. Issues Criteria-Planning Criteria were developed and 3350 copies were mailed to boxholders in the planning areas and to governmental agencies of all levels for public comment and inter-agency coordination. The responses received will continue to be used in guiding development of the planning documents.

Quality Control

Pre-planning and planning documents are developed by a multidisciplinary team of resource specialists under the direction of a planning coordinator and in consultation with resource specialists in the resource area and with District and State Office specialists and with their counterparts in other agencies.

Technical review is accomplished by the Division of Resources. Management review is completed by the Area Manager and District Manager.

The criteria for the New Prairie and Jordan-North Rosebud planning areas were prepared by an interdisciplinary team and were reviewed by resource specialists in the District Division of Resources and in the Big Dry Resource Area, as well as by specialists in the State Office Division of Resources and Division of Planning and Environment. Public comments have been reviewed and analyzed and the issues and criteria revised accordingly.

Ray Brubaker,
District Manager.

BILLING CODE 4310-84-M

Designation of East Mojave National Scenic Area

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of designation of East Mojave National Scenic Area.

SUMMARY: The rich diversity of outstanding natural, scenic and cultural resources of this area of the East Mojave Region of the California Desert Conservation Area warrants it special recognition. The area will be managed in accordance with the California Desert Conservation Area Plan approved December 18, 1980. This designation as the East Mojave National Scenic Area will provide added emphasis to the Bureau of Land Management's plan to protect the area's outstanding natural, scenic and cultural resources.

Pursuant to the authority in section 601 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1781), and 43 CFR Subpart 2070, those public lands administered by the Bureau of Land Management and described in the California Desert Conservation Area Plan as the East Mojave National Scenic Area are hereby designated the East Mojave National Scenic Area.

EFFECTIVE DATE: January 13, 1981.

ADDRESS: Any inquiries or suggestions should be sent to: District Manager, California Desert District, 1695 Spruce Street, Riverside, California 92507.

FOR FURTHER INFORMATION CONTACT: Gerald C. Hillier at the above address or 714 787-1462.

Cecil D. Andrus,
Secretary of the Interior.
January 13, 1981.

[FR Doc. 81-1837 Filed 1-15-81; 8:45 am]

BILLING CODE 4310-84-M

Idaho Falls District Grazing Advisory Board, Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that the Idaho Falls District Grazing Advisory Board will meet February 21, 1981.

The meeting will begin at 9:00 a.m. in the conference room of the Bureau of Land Management Office, 940 Lincoln Road, Idaho Falls, Idaho, 83401. The meeting is open to the public. Interested persons may make oral statements to the Board between 9:00 and 9:30 a.m. or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the Idaho Falls BLM District Manager at the above address by February 6, 1981. Depending on the number of persons wishing to make oral statements, a per person time limit may be established.

The agenda for the meeting will include:

1. Update on status of projects discussed at the last meeting.
 2. Discussion on Advisory Board projects and expenditure of Advisory Board funds.
 3. Use of Range Betterment funds.
 4. Election of officers.
 5. Allotment Management Plans in the Little Lost River and Birch Creek Valley's.
 6. Arrangements for the next meeting.
- Summary minutes of the Board meeting will be kept in the District Office and be available for public inspection and reproduction, (during regular business hours) within 30 days following the meeting.

Dated: January 9, 1981.

O'dell A. Frandsen,
District Manager.

BILLING CODE 4310-84-M

[W-70796 and W-70865]

Trailblazer Pipeline Project, Wyoming; Applications

Notice is hereby given that pursuant to Sec. 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185) the Overthrust Pipeline Company and Colorado Interstate Gas Company have filed right-of-way applications (W-70796 and W-70865, respectively) to construct, operate, maintain, repair, replace and remove two segments of a 36" O.D. buried pipeline for the purpose of transporting natural gas from the overthrust belt in southwestern Wyoming to facilities located in Beatrice, Nebraska. The proposed pipeline will affect the following described public lands:
