Docket Number: 65

WHITE ROCK SPRING (S011346)

Preliminary Docket Information

DOCKET INFORMATION FORM

Compiled by: Alexa Kreiling Date: 6/10/2024
 Initial Docket Information Form ☒ Amendment # (1,2,3 ...)
 Includes Confidential Content ☐

Park Unit: MOJA Docket #: 65 Docket Title White Rock Spring tributary to Unnamed Stream (S011346)

Docket Type:

Select all applicable: ☒ PC/V (pre-code/vested) ☐ APP (appropriate) ☐ RIP (riparian)
☐ FRR (federal reserved right) ☐ PWR (public water reserve) ☒ ACQ (acquired)
☐ GW (groundwater) ☐ Own (ownership) ☐ Other

Region:

☐ NER & NCR ☐ IMR
☐ SER ☐ MWR
☐ IMR ☒ PWR
☐ AKR

Source:

☐ Groundwater ☒ Spring (When recognized by the State as separate from groundwater and surface water)
☐ Surface Water
☐ Direct Diversion ☐ Diversion to Storage ☐ Instream Flow
 Name: White Rock Spring

State: CA
 County: San Bernardino

Owner: U.S. National Park Service (As listed by the State)

Application #: S011346 Date: 8/26/2004

Permit #: Date Issued:

License / Certificate #: Priority Date: 1900

Ruling/Order/Decree #: Date Issued:

Quantity: Rate: 9000 Duty:
 Units: ☐ cfs ☐ gpm ☐ afy ☒ other gpd Units: ☐ cfs ☐ gpm ☐ afy ☐ other

Use(s): ☐ Domestic ☐ Livestock ☐ Irrigation ☐ Municipal ☐ Industrial/Commercial ☒ Wildlife ☐ Instream ☒ other Recreation

Mojave National Preserve

WHITE ROCK SPRING (S011346)

State Water Rights Documentation

[SUMMARY OF FINAL SUBMITTED VERSION]**SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE FOR REPORTING PERIOD**

October 1, 2023 to September 30, 2024

Primary Owner: U S NATIONAL PARK SERVICE
Statement Number: S011346
Date Submitted: 12/30/2024

Water is used under	Pre-1914 Claim
Year diversion commenced	1900

Purpose of Use	
Recreational	aesthetics
Fish and Wildlife Preservation and Enhancement	wildlife habitat

Special Use Categories	
Are you using any water diverted under this right for the cultivation of cannabis?	No

Amount of Water Diverted and Used			
Month	Amount directly diverted (Acre-Feet)	Amount diverted or collected to storage (Acre-Feet)	Amount beneficially used (Acre-Feet)
2023			
October	0	0	0.834
November	0	0	0.834
December	0	0	0.834
2024			
January	0	0	0.834
February	0	0	0.834
March	0	0	0.834
April	0	0	0.834

June	0	0	0.834
July	0	0	0.834
August	0	0	0.834
September	0	0	0.834
Total	0	0	10.008
Type of Diversion	No Diversion		
Comments	No water diverted for consumptive use. Beneficial use is for the enhancement of aquatic ecosystems, riparian zones, and wildlife habitat. The amount reported as used is estimated based on historical practices. The National Park Service (NPS) considers state appropriative claims to be federal property, and this change of type of use does not indicate an intent to abandon this claim. The NPS intends to determine whether a formal change in use is appropriate in the future.		

Water Diversion Measurement	
Required to measure as of the date this report is submitted	No
Is diversion measured?	No

An alternative compliance plan was submitted to the division of water rights on	
A request for additional time was submitted to the division of water rights on

SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE

[SUMMARY OF FINAL SUBMITTED VERSION]**SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE FOR 2018**

Primary Owner: U S NATIONAL PARK SERVICE

Statement Number: S011346

Date Submitted: 06/26/2019

1. Water is used under	Other: Claim for Federal Water Rights for wildlife
2. Year diversion commenced	1900

3. Purpose of Use

Recreational	visitation, aesthetics
Fish and Wildlife Protection and/or Enhancement	wildlife, natural environment

4. Changes in Method of Diversion**Special Use Categories**

C1. Are you using any water diverted under this right for the cultivation of cannabis?	No
--	----

5. Maximum Rate of Diversion

Month	Rate of Diversion (Gallons Per Minute)
January	0
February	0
March	0
April	0
May	0
June	0
July	0
August	0
September	0
October	0
November	0
December	0

6. Amount of Water Diverted and Used

Month	Amount directly diverted (Acre-Feet)	Amount diverted or collected to storage (Acre-Feet)	Amount beneficially used (Acre-Feet)
January	0	0	0.84
February	0	0	0.84
March	0	0	0.84
April	0	0	0.84
May	0	0	0.84
June	0	0	0.84
July	0	0	0.84
August	0	0	0.84
September	0	0	0.84
October	0	0	0.84
November	0	0	0.84

December	0	0	0.84
Total	0	0	10.08
Type of Diversion	No Diversion		
Comments	There are no diversions for consumptive use, amount consumed by wildlife and habitat is not known.		

Water Transfers

6d. Water transferred	No
6e. Quantity transferred (Acre-Feet)	
6f. Dates which transfer occurred	/ to /
6g. Transfer approved by	

Water Supply Contracts

6h. Water supply contract	No
6i. Contract with	
6j. Other provider	
6k. Contract number	
6l. Source from which contract water was diverted	
6m. Point of diversion same as identified water right	
6n. Amount (Acre-Feet) authorized to divert under this contract	
6o. Amount (Acre-Feet) authorized to be diverted in 2018	
6p. Amount (Acre-Feet) projected for 2019	
6q. Exchange or settlement of prior rights	
6r. All monthly reported diversion claimed under the prior rights	
6s. Amount (Acre-Feet) of reported diversion solely under contract	

7. Water Diversion Measurement

a. Required to measure as of the date this report is submitted	No
b. Is diversion measured?	No
c. An alternative compliance plan was submitted to the division of water rights on	
d. A request for additional time was submitted to the division of water rights on

8. Conservation of Water

a.	Are you now employing water conservation efforts?	No
	Describe any water conservation efforts you have initiated	
b.	Amount of water conserved	
	I have data to support the above surface water use reductions due to conservation efforts.	

9. Water Quality and Wastewater Reclamation

a.	Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility, or water polluted by waste to a degree which unreasonably affects such water for other beneficial causes?	No
----	---	----

b.	Amount of reduced diversion	
	Type of substitute water supply	
	Amount of substitute water supply used	
	I have data to support the above surface water use reductions due to the use of a substitute water supply	

10. Conjunctive Use of Surface Water and Groundwater		
a.	Are you now using groundwater in lieu of surface water?	No
	Amount of groundwater used	
b.	I have data to support the above surface water use reductions due to the use of groundwater.	

Additional Remarks	
Declaration: The United States holds both state law-based water rights and federal reserved rights, and may meet its water needs by using either or both types of right. The United States provides this information to the State in the interest of comity and with respect to the State desire to understand water uses in the State; however, by providing this information, the United States does not concede that the State has the power to regulate the rights of the United States to the use of water.

February		0	0	0.84
March		0	0	0.84
April		0	0	0.84
May		0	0	0.84
June		0	0	0.84
July		0	0	0.84
August		0	0	0.84
September		0	0	0.84
October		0	0	0.84
November		0	0	0.84
December		0	0	0.84
Total		0	0	10.08
Type of Diversion	No Diversion			
Comments	There are no diversions for consumptive use, water is kept in situ and does not leave the preserve. The NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate an intent to abandon this license. The NPS intends to determine whether a formal change in use is appropriate in the future.

5. Water Diversion Measurement		
a.	Measurement	Direct measurement using a device listed in Section 1 is "not locally cost effective" for water directly diverted and/or diverted to storage
b.	Types of measuring devices used	
	Additional technology used	
c.	Description of additional technology used	
d.	Who installed your measuring device (s)	
e.	Make, model number, and last calibration date of your measuring device(s)	
f.	Why direct measurement using a device listed in Section 1 is "not locally cost effective"	Diversion is small or minimal in size No power at diversion point Other
	Explanation of why use of devices and technologies listed in Section 1 are "not locally cost effective"	Water source is located in a remote area. There is no way to secure a battery operated device. Any device left at the water source would be stolen or vandalized.
g.	Method(s) used as an alternative to direct measurement	Other
	Explanation of method(s) used as an alternative to direct measurement	A visual estimate of the flow is made on this remote water source. This water source is only used for wildlife and the amount of water used is so small that a visual estimate is sufficient.

6. Purpose of Use	
Recreational	aesthetics
Fish and Wildlife Protection and/or Enhancement	wildlife

7. Changes in Method of Diversion	

8. Conservation of Water		
a.	Are you now employing water conservation efforts?	No
	Describe any water conservation efforts you have initiated	
b.	Amount of water conserved	Acre-Feet
	I have data to support the above surface water use reductions due to conservation efforts.	

9. Water Quality and Wastewater Reclamation		
a.	Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility, or water polluted by waste to a degree which unreasonably affects such water for other beneficial causes?	No

	Amount of reduced diversion	
	Type of substitute water supply	
b.	Amount of substitute water supply used	
	I have data to support the above surface water use reductions due to the use of a substitute water supply	

10. Conjunctive Use of Surface Water and Groundwater		
a.	Are you now using groundwater in lieu of surface water?	No
b.	Amount of groundwater used	
	I have data to support the above surface water use reductions due to the use of groundwater.	

11a. Additional Remarks	
Declaration: The United States holds both state law-based water rights and federal reserved rights, and may meet its water needs by using either or both types of right. The United States provides this information to the State in the interest of comity and with respect to the State desire to understand water uses in the State; however, by providing this information, the United States does not concede that the State has the power to regulate the rights of the United States to the use of water.

State Water Resources Control Board

NOTICE REGARDING STATEMENT OF WATER DIVERSION AND USE

February 19, 2016

Responsible Party:

ANNIE KEARNS

2701 BARSTOW RD

BARSTOW, CA 92311

Diverter: U S NATIONAL PARK SERVICE

Statement Number: S011346

SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE

Water Code section 5104 (a) now requires diverters to file supplemental statements of water diversion and use (Supplemental Statements) **every year**. Supplemental Statements must be filed on electronic forms provided by the State Water Resources Control Board (State Water Board). (Cal. Code Regs., tit. 23, § 920, subds. a-b.) **All reports must be completed online through the State Water Board's Report Management System (RMS); paper copies are not available.** To report online, go to www.waterboards.ca.gov/rms and login with your user ID and password. The information required to login and access your online Supplemental Statement is:

User ID (Statement ID): **S011346**

Password (Reporting Identifier): **907739**

The Supplemental Statement is associated with the diversion works of **Not Specified**. Information about the source, parcel number, county and other summary information is pre-populated on the Supplemental Statement, if the information is available.

*****IMPORTANT: PLEASE NOTE BELOW*****

Beginning January 2016 and every year there after you will be required to file an on-line Supplemental Statement of Water Diversion and Use Report (Supplemental Statement). The Division will **NO LONGER** notify you via mail when the supplemental statement is due. If you would like to be notified when reporting is due and other reporting related material, please subscribe to our Lyris list (Water Rights Reporting Notification) at:

http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

Also note, if you reported your water use three years ago you will be required to complete the reports for 2013, 2014 and 2015. If you reported your water use two years ago you will be required to complete the reports for 2014 and 2015 and if you reported your water use a year ago you will be required to complete the 2015 report.

ELIJAH MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 160, Sacramento, CA 95812-0160 | www.waterboards.ca.gov

You are required to complete the online report(s) no later than **June 30, 2016**. If you do not file your **Supplemental Statement** in a timely manner, you may be subject to civil liability of up to **\$1,000 and additional civil liability of \$500 per day** for each day the violation continues if you do not file a statement within 30 days after the board calls the violation to your attention. (Wat. Code, § 5107, subd. (c)(1).)

Division staff cannot fill the form out on your behalf. If you have multiple points of diversion, you must file a separate Supplemental Statement for each point of diversion. (Wat. Code, § 5102.) Do not list total combined diversions from multiple diversion works on one Supplemental Statement.

CHANGES FOR REPORTING AND MEASUREMENT OF DIVERSIONS MADE IN 2016, AND THEREAFTER

- See attached "Fact Sheet" for updates.

SPECIAL REPORTING FEATURES

- It is possible to create one account on the RMS site to report all of your diversions. Please see the RMS login page for more information and instructions. Note: It is not necessary to create an account if you would like to report your diversions individually.
- RMS also includes the capability to amend reports submitted incorrectly or in error. This capability applies to past reports as well.
- RMS includes new on screen help tools and instructions

REQUIRED NOTIFICATION OF CHANGE IN NAME OR ADDRESS OF PERSON DIVERTING WATER

If there has been a change in the name or address of the person diverting the water, you must report that change to the Board. (Wat. Code, § 5104, subd. (b).) Notification to the Division should be made using the Change of Name/Address or Ownership form on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 445-2812 or send an email to: DWR-statements@waterboards.ca.gov.

Sincerely,

Barbara Evoy, Deputy Director
Division of Water Rights

Attn: Kelli Garver

Re: Change of Purpose of Use of Pre-1914 Claims, Mojave National Preserve

Ms. Garver:

Please find attached a list of Pre-1914 Claims held by Mojave National Preserve. These claims were originally established for livestock watering purposes in conjunction with the grazing of cattle on federal land. The associated grazing allotments are located within or adjacent to Mojave National Preserve and have been retired. Consequently, these claims are now used for wildlife and recreation purposes.

Please accept this letter as our request to change your records to reflect a change in the purposes of use of these claims from livestock watering, to wildlife and recreation uses.

If you have any questions, please contact Eric Lord at (970) 225-3526, or by email at: eric_lord@nps.gov.

Sincerely,

William R. Hansen
Chief, Water Rights Branch
National Park Service

Dear Ms. Kearns and Mr. Parker:

STATEMENTS OF WATER DIVERSION AND USE 11345, ~~11346~~ AND 11348, CUT,
WHITE ROCK AND COTTONWOOD SPRINGS IN SAN BERNARDINO COUNTY

On August 25, 2004, I sent a letter to Mr. Parker in which I advised him that the Division of Water Rights (Division) would change its records to indicate that he was the owner of the subject Statements of Water Diversion and Use (Statement). This action was based on his assertion to me that he was using water under the rights claimed in the Statements. I also sent a copy of the letter to Gary Overson of Cima, CA since I believed him to be the prior owner of the Statements.

I have since been informed by the National Park Service (NPS) that these Statements were assigned to the NPS by the Oversons in about 2000. I have found evidence of this assignment to the NPS in the Division's records. Therefore I should have notified the NPS of Mr. Parker's claim in 2004 by sending the NPS a copy of the August 25, 2004 letter. This would have provided the NPS the opportunity to object to the change in a timely manner.

In a letter dated October 18, 2005, the NPS advised the Division that it does not agree with the ownership change initiated on August 25, 2004. Therefore, the Division will cancel the ownership assignment made to Mr. Parker and return ownership to the National Park Service, since the NPS was shown as owner in Division records on August 25, 2004, not Mr. Overson.

In accordance with California Code of Regulations, Title 23, Division 3, Section 832, the State Water Resources Control Board will not undertake an action to determine the ownership of a water right. In this case, the Division's records will be changed to revert back to the ownership of record prior to Mr. Parker's contact with the Division. The Division will not make any further changes to its records until this matter is resolved to the mutual satisfaction of the parties involved or determined by a court.

October 21, 2005

Please note that Statements of Water Diversion and Use do not authorize a water right. They are a statement submitted by a party to claim use of water under a type of water right not administered by the State Water Resources Control Board. Typically these Statements claim either a pre-1914 appropriative right or a riparian right.

If you have any questions concerning this letter, please call me at (916) 341-5345.

Sincerely,

Charles L. Lindsay

STATE WATER RESOURCES
CONTROL BOARD

2005 OCT 19 PM 12: 52

IN REPLY REFER TO:
LS4 (MOJA)

DIV. OF WATER RIGHTS
SACRAMENTO

October 18, 2005

Ms. Victoria Whitney, Division Chief
Division of Water Rights
State Water Resources Control Board
1001 I Street, 14th Floor
Sacramento, CA 95814

Dear Ms. Whitney:

The purpose of this letter is to correct a mistaken name change on three Statements of Use (SOU) by the Division of Water Rights (Division).

In August 2004 a Mr. Robert C. Parker, sent a letter to the Division claiming to be legally exercising the water rights associated with three SOUs, 11345 (Cut Spring), ~~11346~~ (White Rock Spring and Well), and 11348 (Cottonwood Spring). In the letter Mr. Parker also claimed to have bought the property that includes Cut Spring.

Due to an apparent lapse in recordation whereby some Division files had not been updated to reflect change of ownership notifications sent by previous correspondents, the staff person assigned to the case did not contact the actual current owner of the SOUs, the National Park Service, but instead contacted the prior owners of the SOUs, Gary and Linda Overson. The SOUs in question had been assigned in 2000 by the Oversons to the National Park Service when their grazing lease was purchased and retired. In spite of notification regarding this transfer it appears that Division files did not reflect this change in ownership at the time Mr. Parker wrote his letter. Because the Oversons did not respond to the Division letter, the name change requested by Mr. Parker went through. Had the National Park Service been sent the Division notice, a letter challenging Mr. Parker's claim would have followed immediately.

Mr. Parker did recently purchase a privately held parcel of land within Mojave National Preserve. Cut Spring, however, does not sit on his parcel. He bought a 160-acre parcel known as the Cut Spring Homestead, the northern extension of which is uphill from Cut Spring, but his parcel does not include Cut Spring. Two historic hand-dug wells are located at the actual Homestead site, but there are no SOUs nor licenses associated with those wells (see enclosed land survey map). The water from Cut Spring was used for over 100 years by various grazing leaseholders, the last of who were the Oversons. Water from Cut Spring was never used at the homestead, and Mr. Parker never held a grazing lease in the area.

At this time the National Park Service seeks to have the ownership names on these SOUs changed to show that we are the rightful owners. A variety of documents supporting our claims are enclosed to this letter.

Thank you for your time in addressing this issue. If you have any further questions related to this matter, please call our park Hydrologist Ms. Annie Kearns at (760) 252-6144.

Sincerely,

Larry Whalon
Acting Superintendent

Dear Mr. Parker:

STATEMENTS OF WATER DIVERSION AND USE 11345, 11346 AND 11348, CUT,
WHITE ROCK AND COTTONWOOD SPRINGS IN SAN BERNARDINO COUNTY

You recently notified the Division of Water Rights (Division) that you are exercising the water rights claimed under the subject Statements of Water Diversion and Use (Statements) and that you have purchased the property that includes Cut Spring. Therefore, unless notified to the contrary within 30 days, Division records will be changed to show ownership of Statements 11345, 11346 and 11348 in the names of Robert C. Parker and Cody P. Parker. If you have any questions concerning this ownership assignment, please call me at (916) 341-5345.

ITEM CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

The energy challenge facing California is real. Every California needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

DataStore - Activation: California Desert Protection Act of 1994 – June 3, 1995 (nps.gov)

The purpose of this memorandum is to outline the actions that need to be taken to implement the California Desert Protection Act of 1994 and indicate the responsible officials. Its primary audience is park managers, staff, and the interested public. Its objectives are to provide an administrative history, outline steps for activating the act's provisions, and clarify the responsibilities of federal and state officials. Key aims include designating and managing new wilderness areas and national parks, protecting natural resources, preserving traditional land uses like grazing, and coordinating law enforcement and land management activities. The document is crucial for guiding the effective management and preservation of the protected areas.

Description

Report on the formation and management of Mojave National Preserve. Information on mining issues, resources, and threats to the Preserve are included.

Chapter 8 – Administrative History (excerpt)

For Mojave National Preserve, grazing is a controversial and important issue that cannot be ignored. Widespread political and cultural overtones help make grazing a sensitive issue for everyone involved. As such, park management tread carefully but deliberately in the arena of grazing management. The Park Service has long viewed grazing as antithetical to its mission, permitting the activity in certain parks only when political circumstances absolutely required it. Park Service culture and policy have historically limited grazing in national parks, initially to differentiate itself from the Forest Service, and in later years to help maintain ecosystems. The long history of grazing in Mojave National Preserve and permission for its continuation in perpetuity by legislative action complicates natural resource decisions, making the goal of a functioning pre-grazing ecosystem frustratingly difficult to achieve.

At the time Mojave National Preserve was established, all or part of eleven BLM grazing allotments, established under the 1934 Taylor Grazing Act, were included within the park. Superintendent Marvin Jensen brought a background in range conservation with him and established a friendly management tone toward grazers. All existing operations were issued NPS permits to continue with their ranching activity, and management of the range did not differ substantially from BLM activity.

The Park Service also took concrete steps toward limiting grazing when possible, providing that the situation was politically feasible. The portion of the Piute allotment within the park was for ephemeral forage only and was in desert tortoise habitat. Management decided that any ephemeral forage must, at behest of the Desert Tortoise Recovery Plan, be used by the desert tortoise, so a permit to graze ephemeral forage would never be issued. A second allotment, Crescent Peak, was owned by a conservation group, who had purchased it as part of a move to

eliminate grazing in southern Nevada. Since no active grazing was taking place, the permit was retired. Not long after the creation of the Preserve, the rancher who held the Clark Mountain grazing allotment passed away, and Park Service regulations forbid the issue of a permit for renewed operations there. Irene Ausmus held the Round Valley allotment, just large enough for her to keep her two pet cows in feed, but not so big as to cause significant resource issues for the park.

Major cattle operations in Mojave National Preserve were essentially controlled by three groups. The Overson family was responsible for the largest share of the acreage, with the OX and Kessler Springs ranches owned by Gary and Linda Overson, and the Granite Mountains ranch owned by their son, Clay Overson. Next in size were the Valley View and Valley Wells allotments, both owned by Richard Blincoe, an Idaho agriculturalist, and managed by Tim Overson. The Blair family operated the 7IL Ranch on the Colton Hills and Gold Valley allotments. During the CDPA debate, the Blairs worked to preserve their ranching way of life, and an original clause that specified a twenty five year sunset on Mojave ranching was removed from the bill largely as a result of their efforts. In 2001, the park concluded an arrangement begun in 1998 where the 40 acres of park land that included the 7IL Ranch headquarters were swapped to the Blairs for 40 acres of undisturbed land in critical desert tortoise habitat owned by the ranching family. Touted as a "win-win" situation for the Blairs and the Park Service, the deal also showed locals that the government was not out to destroy family ranchers in the Preserve.

Ranch lands are identified in the California Desert Protection Act as top priorities for acquisitions. In contrast to the Blairs' opposition to the CDPA, Gary Overson specifically requested that his ranchlands be included in the park, to guarantee an acceptable purchase price should he decide to sell his property. Beginning in 1995, Deputy Superintendent Mary Martin worked to coordinate the sale of Overson's ranch to the National Parks Conservation Fund, but after years of contract negotiations, the deal fell through at least in part as a result of strict timelines and reluctance on the part of BLM. Undaunted, Martin sought another donor, but Overson doubted the ability of the Park Service to complete a buyout, as a result of the earlier failed experiment. Overson looked for another private buyer for his ranch, but the park made it clear to the buyer that issuance of a new grazing permit "is not certain" and that "the application process ... is subject to lengthy and potentially costly delays and complex administrative and legal procedures and challenges." As a trial run, Mojave National Preserve and the National Park Foundation worked to move the Granite Mountains Ranch, owned by Overson's son, to NPS control. The deal was completed in April 2000, and set the stage for the park's successful acquisition of Gary Overson's holdings in January 2001. In 2002, Blincoe also agreed to sell his ranches to the park.

The effect of the Overson and Blincoe allotment acquisitions cannot be overstated. Total grazing in the Mojave National Preserve was reduced from some 37,000 Animal Unit Months (AUMs) to approximately 4,000 AUMs, leaving the 7IL as the only major cattle ranch in the Preserve. The elimination of grazing will move the formerly grazed lands closer toward a goal of a more naturally functioning ecosystem. The Park Service also gained control of a tremendous number and variety of structures associated with cattle ranching in the eastern Mojave desert. In 2002, a consultant produced a National Register district nomination for the Overson properties, signifying their historic importance to the east Mojave; future plans may include interpretive programs and utilizing some structures for NPS employee housing. The ranches acquired by Mojave National Preserve included some private lands among the holdings, but the most valuable assets to the park were the grazing permits and the ranchers' water rights.

Agreement to Conditions
for Donation
Mojave National Preserve
Fee Lands

WHEREAS the National Park Foundation is donating funds towards the National Park Service's acquisition of certain fee lands from Gary and Linda Overson as set forth in the Option Agreement O.X. Ranch, Kessler Springs Ranch and Landreman House between said parties, and amendment(s) thereto.

WHEREAS, it is the intent of the National Park Foundation and its donors, as acknowledged by Gary and Linda Overson, that no future grazing will be permitted by the National Park Service on the lands subject to this Agreement, and that water rights, thereon, shall be forever conserved by the National Park Service in accordance with National Park Service laws, the mandates set forth in Mojave National Preserve law, and the terms of this Agreement.

WHEREAS, the National Park Service will administer the interests affected by the Agreement in accord with the terms of this Agreement, the California Desert Protection Act, the National Park Service Organic Act and all laws applicable to the Mojave National Preserve.

WHEREAS, the National Park Service's acceptance of each and every condition of this Agreement and this Agreement is an inducement to the National Park Foundation to make the Donation, and the Foundation and its donors would not have made this Donation without the National Park Service's acceptance of each and every condition described in this Agreement.

WHEREAS, in making this Agreement, and accepting this Donation, through the National Park Foundation, the National Park Service acknowledges that the measure of the value to the National Park Foundation and its donors of the National Park Service committing to permanently prohibiting any future grazing-related uses upon these lands includes not only any monetary benefit that the Foundation may obtain, if any, but also other benefits, including but not limited to the benefits of ensuring the permanent restoration and preservation of all the land resources, water resources, and scenic aesthetic, and environmental values associated with the lands.

NOW THEREFORE, in consideration of and as an express condition of this Agreement and the Donation, the National Park Service, on behalf of itself, and its

successors, assigns, and contractors, if any, will not allow/permit livestock or feral animal grazing uses on said lands. Further, the National Park Service agrees to take any and all further measures, as necessary, to ensure permanent cancellation and termination of any grazing leases, permits, and allotments that may be associated with the subject lands. The National Park Service agrees that the lands and all estates, rights, privileges, and interests that are part of or associated with the lands shall be forever conserved and used in perpetuity for the preservation of natural habitat consistent with the conservation and preservation purposes of the Mojave National Preserve.

Further, the National Park Service will administer all water rights that are part of or associated with the lands as conservation and/or reserved water rights of the Preserve as recognized under California water law and/or mandated in the California Desert Protection Act (16 U.S.C. 410aaa-76). The National Park Service will not allow water resources and water rights that are within the Preserve boundary and subject to this Agreement to be used outside the Preserve boundary, nor allow lands subject to this Agreement to be used for transmission of water between locations outside of the Preserve.

Further, in compliance with the conditions of this Agreement and the Donation, the National Park Service, within five years from the date upon which this Donation is executed, will expressly incorporate into its General Management Plan for the Mojave National Preserve, a commitment that the lands subject to this Agreement will not be subject to any grazing or grazing-related use in the future nor will these lands be permanently altered by structures or other physical improvements unless to provide for Park Service employee housing within or upon the site of structures currently suitable to that use, or unless essential to meet public health and safety needs or, consistent with preservation purposes, species and habitat needs. The National Park Foundation acknowledges that, to the extent that a use of these lands would be consistent with this Agreement, the National Park Service will be entitled to use any associated water rights in furtherance of that use.

Finally, the National Park Service agrees to these conditions by executing an acceptance below. Should the National Park Service not adhere to any of these conditions, the National Park Foundation and/or its donors, through their authorized agent, shall be entitled to pursue any and all legal remedies in equity and law.

Acceptance of voluntary donation and conditions thereof is hereby
acknowledged by:

Donation
Mojave National Preserve
Grazing Interests, Water Rights, and Range Improvements

WHEREAS, the National Park Foundation has acquired, with funds from anonymous donors, certain interests, including privileges, rights and uses under certain grazing permits and leases, certain water rights and all the title and interest in certain related range improvements related thereto from Gary and Linda Overson as set forth in the Option Agreement O.X. Ranch, Kessler Springs Ranch and Landreman House between said parties, and amendment(s) thereto.

WHEREAS, said grazing privileges, water rights and related range property are set forth on Exhibits A,B, and C attached to and incorporated and made a part of this Donation.

WHEREAS, it is the intent of the National Park Foundation and its donors, as acknowledged by Gary and Linda Overson, that said grazing permits and all grazing privileges, rights and uses thereunder shall be forever extinguished and retired by the National Park Service within the Mojave National Preserve and that the water rights shall be forever conserved by the National Park Service in

accordance with National Park Service laws and the mandates set forth in Mojave National Preserve law and the terms of this Donation.

WHEREAS, when the National Park Service acquires fee title to the State of California Schools Lands within the Mojave National Preserve, which lands are subject to grazing rights, water rights, and related rights, the National Park Foundation will donate to the National Park Service, subject to the same terms and conditions as set forth in this Donation, such interests in those lands as the Foundation has acquired from Gary and Linda Overson.

WHEREAS, the National Park Service will administer the interests affected by this Donation in accord with the terms of this Donation, the California Desert Protection Act, the National Park Service Organic Act and all laws applicable to the Mojave National Preserve, which administration will be for non-grazing purposes.

WHEREAS, the National Park Service's acceptance of each and every condition of this Donation is an inducement to the National Park Foundation to make the Donation, and the Foundation and its donors would not have made this

Donation without the National Park Service's acceptance of each and every condition described in this Donation.

WHEREAS, in accepting this Donation, the National Park Service acknowledges that the measure of the value to the National Park Foundation of the National Park Service committing to permanently terminating grazing-related uses upon these lands includes not only any monetary benefit that the Foundation may obtain, if any, but also other benefits, including but not limited to the benefits of ensuring the permanent restoration and preservation of all the land resources, water resources, and scenic aesthetic, and environmental values associated with the property.

NOW THEREFORE, in consideration of and on the condition that the National Park Service permanently terminate all grazing authorized by permit on the lands included in the Preserve, the Foundation here and now transfers, surrenders and quitclaims, to the National Park Service, through voluntary donation, all grazing privileges, rights and uses heretofore allowed within the boundaries of the Mojave National Preserve under permitted use set forth in Exhibit A, and further transfers, surrenders and quitclaims, through voluntary

donation, all related water rights set forth on Exhibit B, and further, any and all interest in range improvements set forth on Exhibit C, constructed or installed on lands owned by the United States within the Mojave National Preserve.

As an express condition of this Donation, the National Park Service, will extinguish and permanently retire all said grazing permits, rights and uses and shall not issue any further or future grazing rights, privileges or uses on said lands.

Further, the National Park Service will convert all said water rights into conservation and/or reserved water rights of the Preserve as recognized under California water law and/or mandated in the California Desert Protection Act (16 U.S.C. 410aaa-76). The National Park Service will not allow water resources and water rights that are within the Preserve boundary and part of this Donation to be used outside the Preserve boundary.

Further, in compliance with the conditions of this Donation, the National Park Service, within five years from the date upon which this Donation is executed, will expressly incorporate into its General Management Plan for the Mojave National Preserve a commitment that the lands subject to the donated

grazing privileges, rights and use, and related water resources, will not be subject to any grazing or grazing-related use in the future.

The National Park Service agrees to these conditions by executing an acceptance below. Should the National Park Service not adhere to any of these conditions, the National Park Foundation and/or its donors, through their authorized agent, shall be entitled to pursue any and all legal remedies in equity and law.

Acceptance of voluntary donation and conditions thereof is hereby acknowledged by:

National Park Service. 1999. Water Resources Scoping Report, Mojave National Preserve. NPS/NRWRD/NRTR-99/225. National Park Service, Water Resources Division. Fort Collins, Colorado
IRMA – Data Store – Published Report – (Code: 2174498)
[DataStore - Water Resources Scoping Report, Mojave National Preserve \(nps.gov\)](#)

The purpose of this report is to describe how the park was conceived and established and how it has been managed to the present day. Its primary audience is park managers and staff, but it is also directed to the interested public. The report aims to be as comprehensive as possible while emphasizing management issues of ongoing concern. It is essentially a chronological narrative with the selection of topics and the amount of detail weighted somewhat more heavily toward the recent past. While the administrative history covers many diverse management issues, its core objective is to distinguish those historical themes that most ably explain this national park's unique character and course of development.
