Re: Change of Purpose of Use of Pre-1914 Claims, Mojave National Preserve

Ms. Garver:

Please find attached a list of Pre-1914 Claims held by Mojave National Preserve. These claims were originally established for livestock watering purposes in conjunction with the grazing of cattle on federal land. The associated grazing allotments are located within or adjacent to Mojave National Preserve and have been retired. Consequently, these claims are now used for wildlife and recreation purposes.

Please accept this letter as our request to change your records to reflect a change in the purposes of use of these claims from livestock watering, to wildlife and recreation uses.

If you have any questions, please contact Eric Lord at (970) 225-3526, or by email at: eric_lord@nps.gov.

Sincerely,

Wm. R. Hansen

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

"The energy challenge facing California is real. Every California needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at http://www.swrcb.ca.gov"

ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same water shed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by a riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

DataStore - Activation: California Desert Protection Act of 1994 – June 3, 1995 (nps.gov)

The purpose of this memorandum is to outline the actions that need to be taken to implement the California Desert Protection Act of 1994 and indicate the responsible officials. Its primary audience is park managers, staff, and the interested public. Its objectives are to provide an administrative history, outline steps for activating the act's provisions, and clarify the responsibilities of federal and state officials. Key aims include designating and managing new wilderness areas and national parks, protecting natural resources, preserving traditional land uses like grazing, and coordinating law enforcement and land management activities. The document is crucial for guiding the effective management and preservation of the protected areas.

Description

Report on the formation and management of Mojave National Preserve. Information on mining issues, resources, and threats to the Preserve are included.

Chapter 8 – Administrative History (excerpt)

For Mojave National Preserve, grazing is a controversial and important issue that cannot be ignored. Widespread political and cultural overtones help make grazing a sensitive issue for everyone involved. As such, park management tread carefully but deliberately in the arena of grazing management. The Park Service has long viewed grazing as antithetical to its mission, permitting the activity in certain parks only when political circumstances absolutely required it. Park Service culture and policy have historically limited grazing in national parks, initially to differentiate itself from the Forest Service, and in later years to help maintain ecosystems. The long history of grazing in Mojave National Preserve and permission for its continuation in perpetuity by legislative action complicates natural resource decisions, making the goal of a functioning pre-grazing ecosystem frustratingly difficult to achieve.

At the time Mojave National Preserve was established, all or part of eleven BLM grazing allotments, established under the 1934 Taylor Grazing Act, were included within the park. Superintendent Marvin Jensen brought a background in range conservation with him and established a friendly management tone toward grazers. All existing operations were issued NPS permits to continue with their ranching activity, and management of the range did not differ substantially from BLM activity.

The Park Service also took concrete steps toward limiting grazing when possible, providing that the situation was politically feasible. The portion of the Piute allotment within the park was for ephemeral forage only and was in desert tortoise habitat. Management decided that any ephemeral forage must, at behest of the Desert Tortoise Recovery Plan, be used by the desert tortoise, so a permit to graze ephemeral forage would never be issued. A second allotment, Crescent Peak, was owned by a conservation group, who had purchased it as part of a move to

eliminate grazing in southern Nevada. Since no active grazing was taking place, the permit was retired. Not long after the creation of the Preserve, the rancher who held the Clark Mountain grazing allotment passed away, and Park Service regulations forbid the issue of a permit for renewed operations there. Irene Ausmus held the Round Valley allotment, just large enough for her to keep her two pet cows in feed, but not so big as to cause significant resource issues for the park.

Major cattle operations in Mojave National Preserve were essentially controlled by three groups. The Overson family was responsible for the largest share of the acreage, with the OX and Kessler Springs ranches owned by Gary and Linda Overson, and the Granite Mountains ranch owned by their son, Clay Overson. Next in size were the Valley View and Valley Wells allotments, both owned by Richard Blincoe, an Idaho agriculturalist, and managed by Tim Overson. The Blair family operated the 7IL Ranch on the Colton Hills and Gold Valley allotments. During the CDPA debate, the Blairs worked to preserve their ranching way of life, and an original clause that specified a twenty five year sunset on Mojave ranching was removed from the bill largely as a result of their efforts. In 2001, the park concluded an arrangement begun in 1998 where the 40 acres of park land that included the 7IL Ranch headquarters were swapped to the Blairs for 40 acres of undisturbed land in critical desert tortoise habitat owned by the ranching family. Touted as a "win-win" situation for the Blairs and the Park Service, the deal also showed locals that the government was not out to destroy family ranchers in the Preserve.

Ranch lands are identified in the California Desert Protection Act as top priorities for acquisitions. In contrast to the Blairs' opposition to the CDPA, Gary Overson specifically requested that his ranchlands be included in the park, to guarantee an acceptable purchase price should he decide to sell his property. Beginning in 1995, Deputy Superintendent Mary Martin worked to coordinate the sale of Overson's ranch to the National Parks Conservation Fund, but after years of contract negotiations, the deal fell through at least in part as a result of strict timelines and reluctance on the part of BLM. Undaunted, Martin sought another donor, but Overson doubted the ability of the Park Service to complete a buyout, as a result of the earlier failed experiment. Overson looked for another private buyer for his ranch, but the park made it clear to the buyer that issuance of a new grazing permit "is not certain" and that "the application process ... is subject to lengthy and potentially costly delays and complex administrative and legal procedures and challenges." As a trial run, Mojave National Preserve and the National Park Foundation worked to move the Granite Mountains Ranch, owned by Overson's son, to NPS control. The deal was completed in April 2000, and set the stage for the park's successful acquisition of Gary Overson's holdings in January 2001. In 2002, Blincoe also agreed to sell his ranches to the park.

The effect of the Overson and Blincoe allotment acquisitions cannot be overstated. Total grazing in the Mojave National Preserve was reduced from some 37,000 Animal Unit Months (AUMs) to approximately 4,000 AUMs, leaving the 7IL as the only major cattle ranch in the Preserve. The elimination of grazing will move the formerly grazed lands closer toward a goal of a more naturally functioning ecosystem. The Park Service also gained control of a tremendous number and variety of structures associated with cattle ranching in the eastern Mojave desert. In 2002, a consultant produced a National Register district nomination for the Overson properties, signifying their historic importance to the east Mojave; future plans may include interpretive programs and utilizing some structures for NPS employee housing. The ranches acquired by Mojave National Preserve included some private lands among the holdings, but the most valuable assets to the park were the grazing permits and the ranchers' water rights.

AREA: MOJAVE NATIONAL PRESERVE, CALIFORNIA

AUTHORIZATION
Act of October 31, 1994 (P.L. 103-433), established Mojave National Preserve.

ACQUISITION AUTHORITY
Act of October 31, 1994, authorized acquisition by donation, purchase or exchange. Privately owned lands may be acquired only with the consent of the owner unless the owner's use or proposed use of the land is deemed incompatible with the purposes of the preserve. Construction or modification of a single-family residence shall not be considered incompatible with purposes of the preserve. Lands or interests owned by the State of California, or any political subdivision thereof, may be acquired only by donation or exchange, except for lands managed by the California State Lands Commission. The act authorized the transfer to the National Park Service (NPS), without consideration, of described lands under the jurisdiction of the Bureau of Land Management (BLM). The act provides that if a person holding a grazing permit is willing to convey to the United States any base property with respect to which such permit was issued, the Secretary shall make the acquisition of such base property a priority.

ESTABLISHED
October 31, 1994

BOUNDARY REVISIONS
None

ACREAGE LIMITATIONS
None

STATUTORY CEILING FOR LAND ACQUISITION
Act of October 31, 1994, authorized appropriations for land acquisition by NPS and BLM not to exceed a total of $300,000,000.

REMARKS
Act of October 31, 1994, requires that:
(1) Until acquired by the United States, no non-Federal lands within the park boundary shall be subject to rules or regulations applicable solely to Federal lands within such boundary.
(2) None of the lands within the park boundary shall be granted to or otherwise made available for use by the Metropolitan Water District pursuant to the Boulder Canyon Project Act or any similar acts.
(3) Upon request of the California State Lands Commission, the Secretary shall negotiate to acquire by exchange State School lands within the boundaries of the park system units designated by the act. Until all such State school lands have been acquired, no Federal lands or interests within the State of California may be disposed of prior to providing the State an opportunity to enter into an exchange of those Federal lands for State School lands.
(4) Lands and interests in land to be acquired pursuant to this act shall be appraised without regard to the presence of a threatened or endangered species.

MOJAVE NP DEED #2

Such activities shall be conducted in a manner which will minimize the impact on park resources. Nothing in this title shall have the effect of terminating the fee title to lands or customary operation, maintenance, repair, and replacement activities on or under such lands granted to the Metropolitan Water District pursuant to the Act of June 18, 1932 (47 Stat. 324), which are located on lands included in the Joshua Tree National Park, but outside lands designated as wilderness under section 601(a)(2). Such activities shall be conducted in a manner which will minimize the impact on park resources. The Secretary shall prepare within one hundred and eighty days after the date of enactment of this Act, in consultation with the Metropolitan Water District, plans for emergency access by the Metropolitan Water District to its lands and rights-of-way.

SEC. 407. JOSHUA TREE NATIONAL PARK ADVISORY COMMISSION.

(a) The Secretary shall establish an Advisory Commission of no more than fifteen members, to advise the Secretary concerning the development and implementation of a new or revised comprehensive management plan for Joshua Tree National Park.

(b)(1) The advisory commission shall include an elected official for each County within which any part of the park is located, a representative of the owners of private properties located within or immediately adjacent to the park, and other members representing persons actively engaged in grazing and range management, mineral exploration and development, and persons with expertise in relevant fields, including geology, biology, ecology, law enforcement, and the protection and management of National Park resources and values.

(2) Vacancies in the advisory commission shall be filled by the Secretary so as to maintain the full diversity of views required to be represented on the advisory commission.

(c) The Federal Advisory Committee Act shall apply to the procedures and activities of the advisory commission.

(d) The advisory commission shall cease to exist ten years after the date of its establishment.

TITLE V—MOJAVE NATIONAL PRESERVE

SEC. 501. FINDINGS.

The Congress hereby finds that—

(1) Death Valley and Joshua Tree National Parks, as established by this Act, protect unique and superlative desert resources, but do not embrace the particular ecosystems and transitional desert type found in the Mojave Desert area lying between them on public lands now afforded only impermanent administrative designation as a national scenic area;

(2) the Mojave Desert area possesses outstanding natural, cultural, historical, and recreational values meriting statutory designation and recognition as a unit of the National Park System;

(3) the Mojave Desert area should be afforded full recognition and statutory protection as a national preserve;

(4) the wilderness within the Mojave Desert should receive maximum statutory protection by designation pursuant to the Wilderness Act; and

(5) the Mojave Desert area provides an outstanding opportunity to develop services, programs, accommodations and facilities to ensure the use and enjoyment of the area by individuals with disabilities, consistent with section 504 of the Rehabilitation Act of 1973, Public Law 101–336, the Americans With Disabilities Act of 1990 (42 U.S.C. 12101), and other appropriate laws and regulations.

SEC. 502. ESTABLISHMENT OF THE MOJAVE NATIONAL PRESERVE.

There is hereby established the Mojave National Preserve, comprising approximately one million four hundred nineteen thousand eight hundred acres, as generally depicted on a map entitled "Mojave National Park Boundary—Proposed", dated May 17, 1994, which shall be on file and available for inspection in the appropriate offices of the Director of the National Park Service, Department of the Interior.

SEC. 503. TRANSFER OF LANDS.

Upon enactment of this title, the Secretary shall transfer the lands under the jurisdiction of the Bureau of Land Management depicted on the maps described in section 502 of this title, without consideration, to the administrative jurisdiction of the Director of the National Park Service. The boundaries of the public lands shall be adjusted accordingly.

SEC. 504. MAPS AND LEGAL DESCRIPTION.

Within six months after the date of enactment of this title, the Secretary shall file maps and a legal description of the preserve designated under this title with the Committee on Energy and Natural Resources of the United States Senate and the Committee on Natural Resources of the United States House of Representatives. Such maps and legal description shall have the same force and effect as if included in this title, except that the Secretary may correct clerical and typographical errors in such legal description and in the maps referred to in section 502. The maps and legal description shall be on file and available for public inspection in the appropriate offices of the National Park Service, Department of the Interior.

SEC. 505. ABOLISHMENT OF SCENIC AREA.

The East Mojave National Scenic Area, designated on January 13, 1981 (46 FR 3994), and modified on August 9, 1983 (48 FR 36210), is hereby abolished.

SEC. 506. ADMINISTRATION OF LANDS.

(a) The Secretary shall administer the preserve in accordance with this title and with the provisions of law generally applicable to units of the National Park System, including the Act entitled "An Act to establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1, 2–4).

(b) The Secretary shall permit hunting, fishing, and trapping on lands and waters within the preserve designated by this Act in accordance with applicable Federal and State laws except that the Secretary may designate areas where, and establish periods

when, no hunting, fishing, or trapping will be permitted for reasons of public safety, administration, or compliance with provisions of applicable law. Except in emergencies, regulations closing areas to hunting, fishing, or trapping pursuant to this subsection shall be put into effect only after consultation with the appropriate State agency having responsibility for fish and wildlife. Nothing in this Act shall be construed as affecting the jurisdiction or responsibilities of the States with respect to fish and wildlife on Federal lands and waters covered by this title nor shall anything in this Act be construed as authorizing the Secretary concerned to require a Federal permit to hunt, fish, or trap on Federal lands and waters covered by this title.

SEC. 507. WITHDRAWAL.

Subject to valid existing rights, all Federal lands within the preserve are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws; from location, entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing, and mineral materials, and all amendments thereto.

SEC. 508. REGULATION OF MINING.

Subject to valid existing rights, all mining claims located within the preserve shall be subject to all applicable laws and regulations applicable to mining within units of the National Park System, including the Mining in the Parks Act (16 U.S.C. 1901 et seq.), and any patent issued after the date of enactment of this title shall convey title only to the minerals together with the right to use the surface of lands for mining purposes, subject to such laws and regulations.

SEC. 509. STUDY AS TO VALIDITY OF MINING CLAIMS.

(a) The Secretary shall not approve any plan of operation prior to determining the validity of the unpatented mining claims, mill sites, and tunnel sites affected by such plan within the preserve and shall submit to Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental consequences of the extraction of minerals from these lands.

(b)(1) Notwithstanding any other provision of law, the Secretary shall permit the holder or holders of mining claims identified on the records of the Bureau of Land Management as Volco #A CAMC 105446, Volco #B CAMC 105447, Volco 1 CAMC 80155, Volco 2 CAMC 80156, Volco 3 CAMC 170259, Volco 4 CAMC 170260, Volco 5 CAMC 78405, Volco 6 CAMC 78404, and Volco 7 CAMC 78403, Volco Placer 78332, to continue exploration and development activities on such claims for a period of two years after the date of enactment of this title, subject to the same regulations as applied to such activities on such claims on the day before such date of enactment.

(2) At the end of the period specified in paragraph (1), or sooner if so requested by the holder or holders of the claims specified in such paragraph, the Secretary shall determine whether there has been a discovery of valuable minerals on such claims and whether, if such discovery had been made on or before July 1, 1994, such claims would have been valid as of such date under the mining laws of the United States in effect on such date.

(3) If the Secretary, pursuant to paragraph (2), makes an affirmative determination concerning the claims specified in paragraph (1), the holder or holders of such claims shall be permitted to continue to operate such claims subject only to such regulations as applied on July 1, 1994 to the exercise of valid existing rights on patented mining claims within a unit of the National Park System.

SEC. 510. GRAZING.

(a) The privilege of grazing domestic livestock on lands within the preserve shall continue to be exercised at no more than the current level, subject to applicable laws and National Park Service regulations.

(b) If a person holding a grazing permit referred to in subsection (a) informs the Secretary that such permittee is willing to convey to the United States any base property with respect to which such permit was issued and to which such permittee holds title, the Secretary shall make the acquisition of such base property a priority as compared with the acquisition of other lands within the preserve, provided agreement can be reached concerning the terms and conditions of such acquisition. Any such base property which is located outside the preserve and acquired as a priority pursuant to this section shall be managed by the Federal agency responsible for the majority of the adjacent lands in accordance with the laws applicable to such adjacent lands.

SEC. 511. UTILITY RIGHTS OF WAY.

(a)(1) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities in such right-of-way, issued, granted, or permitted to Southern California Edison Company, its successors or assigns, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(2) Nothing in this title shall have the effect of prohibiting the upgrading of an existing electrical transmission line for the purpose of increasing the capacity of such transmission line in the Southern California Edison Company validly issued Eldorado-Lugo Transmission Line right-of-way and Mojave-Lugo Transmission Line right-of-way, or in a right-of-way if issued, granted, or permitted by the Secretary adjacent to the existing Mojave-Lugo Transmission Line right-of-way (hereafter in this section referred to as "adjacent right-of-way"), including construction of a replacement transmission line: *Provided*, That—

(A) in the Eldorado-Lugo Transmission Line rights-of-way (hereafter in this section referred to as the "Eldorado rights-of-way") at no time shall there be more than three electrical transmission lines;

(B) in the Mojave-Lugo Transmission Line right-of-way (hereafter in this section referred to as the "Mojave right-of-way") and adjacent right-of-way, removal of the existing electrical transmission line and reclamation of the site shall be completed no later than three years after the date on which construction of the upgraded transmission line begins, after which time there may be only one electrical transmission line

in the lands encompassed by Mojave right-of-way and adjacent right-of-way;

(C) if there are no more than two electrical transmission lines in the Eldorado rights-of-way, two electrical transmission lines in the lands encompassed by the Mojave right-of-way and adjacent right-of-way may be allowed;

(D) in the Eldorado rights-of-way and Mojave right-of-way no additional land shall be issued, granted, or permitted for such upgrade unless an addition would reduce the impacts to preserve resources;

(E) no more than 350 feet of additional land shall be issued, granted, or permitted for an adjacent right-of-way to the south of the Mojave right-of-way unless a greater addition would reduce the impacts to preserve resources; and

(F) such upgrade activities, including helicopter aided construction, shall be conducted in a manner which will minimize the impact on preserve resources.

(3) The Secretary shall prepare within one hundred and eighty days after the date of enactment of this title, in consultation with the Southern California Edison Company, plans for emergency access by the Southern California Edison Company to its rights-of-way.

(b)(1) Nothing in this title shall have the effect of terminating any validly issued right-of-way, or customary operation, maintenance, repair, and replacement activities in such right-of-way; prohibiting the upgrading of and construction on existing facilities in such right-of-way for the purpose of increasing the capacity of the existing pipeline; or prohibiting the renewal of such right-of-way issued, granted, or permitted to the Southern California Gas Company, its successors or assigns, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(2) The Secretary shall prepare within one hundred and eighty days after the date of enactment of this title, in consultation with the Southern California Gas Company, plans for emergency access by the Southern California Gas Company to its rights-of-way.

(c) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities of existing facilities issued, granted, or permitted for communications cables or lines, which are located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

(d) Nothing in this title shall have the effect of terminating any validly issued right-of-way or customary operation, maintenance, repair, and replacement activities of existing facilities issued, granted, or permitted to Molybdenum Corporation of America; Molycorp, Incorporated; or Union Oil Company of California (d/b/a Unocal Corporation); or its successors or assigns, or prohibiting renewal of such right-of-way, which is located on lands included in the Mojave National Preserve, but outside lands designated as wilderness under section 601(a)(3). Such activities shall be conducted in a manner which will minimize the impact on preserve resources.

Agreement to Conditions for Donation Mojave National Preserve Fee Lands

WHEREAS the National Park Foundation is donating funds towards the National Park Service's acquisition of certain fee lands from Gary and Linda Overson as set forth in the Option Agreement O.X. Ranch, Kessler Springs Ranch and Landreman House between said parties, and amendment(s) thereto.

WHEREAS, it is the intent of the National Park Foundation and its donors, as acknowledged by Gary and Linda Overson, that no future grazing will be permitted by the National Park Service on the lands subject to this Agreement, and that water rights, thereon, shall be forever conserved by the National Park Service in accordance with National Park Service laws, the mandates set forth in Mojave National Preserve law, and the terms of this Agreement.

WHEREAS, the National Park Service will administer the interests affected by the Agreement in accord with the terms of this Agreement, the California Desert Protection Act, the National Park Service Organic Act and all laws applicable to the Mojave National Preserve.

WHEREAS, the National Park Service's acceptance of each and every condition of this Agreement and this Agreement is an inducement to the National Park Foundation to make the Donation, and the Foundation and its donors would not have made this Donation without the National Park Service's acceptance of each and every condition described in this Agreement.

WHEREAS, in making this Agreement, and accepting this Donation, through the National Park Foundation, the National Park Service acknowledges that the measure of the value to the National Park Foundation and its donors of the National Park Service committing to permanently prohibiting any future grazing-related uses upon these lands includes not only any monetary benefit that the Foundation may obtain, if any, but also other benefits, including but not limited to the benefits of ensuring the permanent restoration and preservation of all the land resources, water resources, and scenic aesthetic, and environmental values associated with the lands.

NOW THEREFORE, in consideration of and as an express condition of this Agreement and the Donation, the National Park Service, on behalf of itself, and its

successors, assigns, and contractors, if any, will not allow/permit livestock or feral animal grazing uses on said lands. Further, the National Park Service agrees to take any and all further measures, as necessary, to ensure permanent cancellation and termination of any grazing leases, permits, and allotments that may be associated with the subject lands. The National Park Service agrees that the lands and all estates, rights, privileges, and interests that are part of or associated with the lands shall be forever conserved and used in perpetuity for the preservation of natural habitat consistent with the conservation and preservation purposes of the Mojave National Preserve.

Further, the National Park Service will administer all water rights that are part of or associated with the lands as conservation and/or reserved water rights of the Preserve as recognized under California water law and/or mandated in the California Desert Protection Act (16 U.S.C. 410aaa-76). The National Park Service will not allow water resources and water rights that are within the Preserve boundary and subject to this Agreement to be used outside the Preserve boundary, nor allow lands subject to this Agreement to be used for transmission of water between locations outside of the Preserve.

Further, in compliance with the conditions of this Agreement and the Donation, the National Park Service, within five years from the date upon which this Donation is executed, will expressly incorporate into its General Management Plan for the Mojave National Preserve, a commitment that the lands subject to this Agreement will not be subject to any grazing or grazing-related use in the future nor will these lands be permanently altered by structures or other physical improvements unless to provide for Park Service employee housing within or upon the site of structures currently suitable to that use, or unless essential to meet public health and safety needs or, consistent with preservation purposes, species and habitat needs. The National Park Foundation acknowledges that, to the extent that a use of these lands would be consistent with this Agreement, the National Park Service will be entitled to use any associated water rights in furtherance of that use.

Finally, the National Park Service agrees to these conditions by executing an acceptance below. Should the National Park Service not adhere to any of these conditions, the National Park Foundation and/or its donors, through their authorized agent, shall be entitled to pursue any and all legal remedies in equity and law.

Acceptance of voluntary donation and conditions thereof is hereby acknowledged by:

National Park Service

Donation
Mojave National Preserve
Grazing Interests, Water Rights, and Range Improvements

WHEREAS, the National Park Foundation has acquired, with funds from anonymous donors, certain interests, including privileges, rights and uses under certain grazing permits and leases, certain water rights and all the title and interest in certain related range improvements related thereto from Gary and Linda Overson as set forth in the Option Agreement O.X. Ranch, Kessler Springs Ranch and Landreman House between said parties, and amendment(s) thereto.

WHEREAS, said grazing privileges, water rights and related range property are set forth on Exhibits A,B, and C attached to and incorporated and made a part of this Donation.

WHEREAS, it is the intent of the National Park Foundation and its donors, as acknowledged by Gary and Linda Overson, that said grazing permits and all grazing privileges, rights and uses thereunder shall be forever extinguished and retired by the National Park Service within the Mojave National Preserve and that the water rights shall be forever conserved by the National Park Service in

accordance with National Park Service laws and the mandates set forth in Mojave National Preserve law and the terms of this Donation.

WHEREAS, when the National Park Service acquires fee title to the State of California Schools Lands within the Mojave National Preserve, which lands are subject to grazing rights, water rights, and related rights, the National Park Foundation will donate to the National Park Service, subject to the same terms and conditions as set forth in this Donation, such interests in those lands as the Foundation has acquired from Gary and Linda Overson.

WHEREAS, the National Park Service will administer the interests affected by this Donation in accord with the terms of this Donation, the California Desert Protection Act, the National Park Service Organic Act and all laws applicable to the Mojave National Preserve, which administration will be for non-grazing purposes.

WHEREAS, the National Park Service's acceptance of each and every condition of this Donation is an inducement to the National Park Foundation to make the Donation, and the Foundation and its donors would not have made this

Donation without the National Park Service's acceptance of each and every condition described in this Donation.

WHEREAS, in accepting this Donation, the National Park Service acknowledges that the measure of the value to the National Park Foundation of the National Park Service committing to permanently terminating grazing-related uses upon these lands includes not only any monetary benefit that the Foundation may obtain, if any, but also other benefits, including but not limited to the benefits of ensuring the permanent restoration and preservation of all the land resources, water resources, and scenic aesthetic, and environmental values associated with the property.

NOW THEREFORE, in consideration of and on the condition that the National Park Service permanently terminate all grazing authorized by permit on the lands included in the Preserve, the Foundation here and now transfers, surrenders and quitclaims, to the National Park Service, through voluntary donation, all grazing privileges, rights and uses heretofore allowed within the boundaries of the Mojave National Preserve under permitted use set forth in Exhibit A, and further transfers, surrenders and quitclaims, through voluntary

donation, all related water rights set forth on Exhibit B, and further, any and all interest in range improvements set forth on Exhibit C, constructed or installed on lands owned by the United States within the Mojave National Preserve.

As an express condition of this Donation, the National Park Service, will extinguish and permanently retire all said grazing permits, rights and uses and shall not issue any further or future grazing rights, privileges or uses on said lands.

Further, the National Park Service will convert all said water rights into conservation and/or reserved water rights of the Preserve as recognized under California water law and/or mandated in the California Desert Protection Act (16 U.S.C. 410aaa-76). The National Park Service will not allow water resources and water rights that are within the Preserve boundary and part of this Donation to be used outside the Preserve boundary.

Further, in compliance with the conditions of this Donation, the National Park Service, within five years from the date upon which this Donation is executed, will expressly incorporate into its General Management Plan for the Mojave National Preserve a commitment that the lands subject to the donated

grazing privileges, rights and use, and related water resources, will not be subject to any grazing or grazing-related use in the future.

The National Park Service agrees to these conditions by executing an acceptance below. Should the National Park Service not adhere to any of these conditions, the National Park Foundation and/or its donors, through their authorized agent, shall be entitled to pursue any and all legal remedies in equity and law.

Acceptance of voluntary donation and conditions thereof is hereby acknowledged by:

Water Resources Scoping Report, Mojave National Preserve, 1999

National Park Service. 1999. Water Resources Scoping Report, Mojave National Preserve. NPS/NRWRD/NRTR-99/225. National Park Service, Water Resources Division. Fort Collins, Colorado
IRMA – Data Store – Published Report – (Code: 2174498)
DataStore - Water Resources Scoping Report, Mojave National Preserve (nps.gov)

The purpose of this report is to describe how the park was conceived and established and how it has been managed to the present day. Its primary audience is park managers and staff, but it is also directed to the interested public. The report aims to be as comprehensive as possible while emphasizing management issues of ongoing concern. It is essentially a chronological narrative with the selection of topics and the amount of detail weighted somewhat more heavily toward the recent past. While the administrative history covers many diverse management issues, its core objective is to distinguish those historical themes that most ably explain this national park's unique character and course of development.
