STATUS Active SOURCE Surface water

REMARKS South Liberty Gulch lies within Hydrologic Basin Unit No. 18020006.

NARRATIVE:

On August 22, 1941, the State of Califronia issued License No. 2275 to Daniel Hightower for a diversion on South Liberty Gulch. His temporal priority was February 4, 1935, for 0.17 cfs for irrigation and domestic purposes on five acres of land. On October 31, 1958, Thomas and Margaret McNulty acquired the five acres of land and the appurtenant water right from a successor of Mr. Hightower. They in turn sold the land and water right by quitclaim deed to the U.S. on October 26, 1966. The report of Licensee filed by Water Resources Division for the years of 1970 to 1972 states that the use was to irrigate five acres of land with lawns and fruit trees growing thereon, for domestic purposes for six people, and for fire fighting.

The above assessment is based upon amounts due for the annual fee on a Water Rights Permit or License as required under California Code of Regulations, Title 23, Section 1066.

Information concerning Determinations

A person upon whom a determination is made or any person directly interested may petition for reconsideration with the State Water Resources Control Board within 30 days from the date of this notice. The State Water Resources Control Board must receive the petition for reconsideration by the 30th day. A petition for reconsideration must be in writing and state the specific grounds upon which it is founded, including an explanation why the petitioner believes that no fee is due or how the petitioner believes that the amount of the fee has been miscalculated.

Anyone filing a petition should be prepared to submit documentary evidence to support the specific grounds upon request. All petitions for reconsideration must be mailed to the following address:

State Water Resources Control Board, Division of Water Rights, P.O. Box 2000, Sacramento, CA 95812-2000

Petitions for Reconsideration are governed by Chapter 4(commencing with section 1120) of Part 1 of Division 2 of the Water Code and Article 12 (commencing with Section 768) of Chapter 2 of Division 3 of Title 23 of the California Code of Regulations. The California Water Code and California Code of Regulations may be found at www.waterboards.ca.gov/laws_regulations/.

The filing of the petition will not prevent the accrual of interest. Prompt payment of undisputed portions of the liability should be made. This will prevent accrual of additional interest thereon and will not in any way affect the protested portions. The application of additional penalty would be deferred until 30 days after the date of a Notice of Redetermination.

Payments can be made online by going to *www.cdtfa.ca.gov* and selecting the "Make a Payment" tab.

If you are paying by check or money order, write your account number and Notice ID shown above. Make check or money order payable to the CDTFA. Include original top portion of this form with your payment. Keep the bottom portion for your records.

NOTICE OF UNAVAILABILITY OF WATER AND IMMEDIATE CURTAILMENT FOR THOSE DIVERTING WATER IN THE SACRAMENTO RIVER WATERSHED WITH A POST-1914 APPROPRIATIVE RIGHT

On January 23, 2015 and again on April 2, 2015, the State Water Resources Control Board (State Water Board) issued a Notice of Surface Water Shortage and Potential for Curtailment due to dry conditions throughout the State. On April 1, 2015, the Governor issued an executive order, order B-29-15, continuing the state of emergency, initially enacted on January 17, 2014, due to drinking water shortages, diminished water for agriculture production, degraded habitat for fish and wildlife, increased wildfire risk and the threat of saltwater contamination to fresh water supplies in the Sacramento-San Joaquin Delta.

Curtailment of Post-1914 Water Rights:
Based upon the most recent reservoir storage and inflow projections, along with forecasts for future precipitation events, the State Water Board has determined that the existing water supply in the Sacramento River watershed is insufficient to meet the needs of all water rights holders. With this notice, the State Water Board is notifying all holders of post-1914 appropriative water rights within the Sacramento River watershed of the need to immediately stop diverting under their post-1914 water rights, with the exceptions discussed below. Please be advised that, if you continue to divert under a claim of pre-1914 right, most or all pre-1914 rights in the Sacramento River watershed are likely to be curtailed later this year due to the extreme dry conditions. This condition of curtailment will continue until water conditions improve. Even if there is water physically available at your point of diversion, that water is necessary to meet senior water right holders' needs or is water released from storage that you are not entitled to divert. If precipitation occurs in the following weeks or months, you should not commence diversion before being notified by the State Water Board that water is legally available for diversion under your priority of right.

Permission to initiate diversions during or following significant rainfall events may be posted at: http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/index.shtml#notices. You can get immediate email updates from the State Water Board about these notices by subscribing to "Drought Updates" at: http://www.waterboards.ca.gov/resources/email_subscriptions/

Compliance Certification Required:
Curtailed post-1914 diverters are required to document receipt of this notice by completing an online Curtailment Certification Form (Form) within seven days. The Form confirms your cessation of diversion under the specific post-1914 water right, and, if applicable, identifies the alternate water supply you will use in lieu of the curtailed water right. Completion of the Form is mandatory to avoid unnecessary potential enforcement proceedings. You are required to complete the Form for each post-1914 water right identified through this curtailment at:
http://www.waterboards.ca.gov/waterrights/water_issues/programs/ewrims/curtailment/2015curt_form.php

Exceptions to Curtailment:
If your diversion is for hydroelectric generation by direct diversion only and all water diverted is returned to the same stream system, you may continue to divert under your post-1914 permit or license. If you continue to divert under the above circumstances, you must identify that on the Form and provide the information requested. If you have previously collected water to storage in a reservoir covered by a post-1914 right prior to this curtailment notice, you still may beneficially use that previous stored water consistent with the terms and conditions of your post-1914 water right. However, you must bypass all inflow into the reservoir at all times during the curtailment.

No Exception for Health and Safety:
There is no exception to the curtailment notice for health and safety needs. However, we are aware that some water users must comply with directives issued by the Division of Drinking Water (DDW), or local health or drinking water regulation to provide continued water service to meet minimum health and safety standards. Should you continue to divert water under a curtailed water right to meet human health and safety needs, you must complete the Form identifying your health and safety needs, whether there is an applicable DDW, state or local regulation and your attempts at securing an alternate water supply. The State Water Board will carefully analyze the non-exempted continued diversions for minimum health and safety needs on a case-by-case basis.

Potential Enforcement:
Those who are found to be diverting water beyond what is legally available to them may be subject to administrative fines, cease and desist orders, or prosecution in court. The State Water Board may levy fines of $1,000 per day of violation and $2,500 for each acre-foot diverted or used in excess of a valid water right. (See Water Code, §§ 1052,1055.) Additionally, if the State Water Board issues a Cease and Desist Order against an unauthorized diversion, violation of any such order can result in a fine of $10,000 per day. (See Water Code,

§§1831, 1845.)

The State Water Board is encouraging diverters to work together to reach local voluntary agreements that not only provide solutions that help local communities with water shortages, but also prevent impacts to other legal users of water and do not cause unreasonable effects on fish and wildlife. If you have any questions, please call our Curtailment Hotline at (916) 341-5342, contact us by email at: SWRCB-Curtailment-Certification@waterboards.ca.gov, or review our drought year webpage at:
http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/index.shtml

The State Water Board also encourages water right holders to assist in the prevention of unlawful diversion of water and in discouraging any waste or unreasonable use of water.
To assist the State Water Board, you may file a complaint at:
http://www.dtsc.ca.gov/database/CalEPA_Complaint/index.cfm.

We recognize the burden and loss this notice creates for you during the drought, and want to assure that others do not illegally benefit from your curtailments.

Sincerely,

Thomas Howard

Thomas Howard
Executive Director

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? **If YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

Dear Mr. Wright:

Attached are completed Reports of Licensee forms for water right licenses in Whiskeytown National Recreation Area.

As Denise Newberry of my staff discussed with you earlier this year, the National Park Service is updating the status of its water rights in California park units. The National Park Service is requesting orders correcting the purpose of use for the following water licenses, as indicated below:

License 9261 (Application A021408) Unnamed Spring - add wildlife preservation and fire suppression

License 2275 (Application A008229) South Liberty Gulch - add fire suppression, delete domestic

License 9292 (Application A020837) Unnamed Stream - add wildlife preservation and fire suppression

License (Application) - add

License (Application) - add

Please contact Denise Newberry at (303) 225-3525 if this is not

acceptable or you have any other questions regarding these Reports of Licensee.

Sincerely,

Owen R. Williams

NOTICE TO LICENSEE

Enclosed is your Report of Licensee for 1983, 1984 and 1985.

You are reminded that one of the requirements under which you received your license was that "Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board". Failure to complete and return this form will constitute noncompliance with the terms and conditions of your license.

Please complete the enclosed report form to the best of your knowledge and return it to this office promptly.

Additionally, as water available for appropriation becomes a scarcer commodity, adherence to terms and conditions of your license must be emphasized. Please be advised that the Division is required to initiate enforcement actions whenever violations are noted.

Thank you for your cooperation.

FORM 64

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF WATER RESOURCES

License for Diversion and Use of Water

LICENSE 2275 PERMIT 4532 APPLICATION 8229

THIS IS TO CERTIFY, *That* Daniel Hightower, Schilling, California,

Notice of Assignment (Over)

has made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of South Liberty Gulch in Shasta County

tributary of Sacramento River via Whiskey and Clear Creeks

for the purpose of irrigation and domestic uses *under Permit* 4532 *of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from* February 4, 1935;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed seventeen hundredths (0.17) cubic foot per second from about April 1st to about October 5th of each season and throughout the remainder of the year as required for domestic purposes. In case of rotation the equivalent of such continuous flow allowance for any thirty day period may be diverted in a shorter time if there be no interference with other vested rights.

The point of diversion of such water is located North twelve hundred (1200) feet and West twelve hundred ten (1210) feet from the southeast corner of Section 4, T 32 N, R 6 W, M.D.B.&M. and being within the SE¼ of SE¼ of said Section 4.

A description of the lands or the place where such water is put to beneficial use is as follows: Domestic use and the irrigation of 5 acres within the SW¼ of SW¼ of Section 4, T 32 N, R 6 W, M.D.B.&M.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Division of Water Resources in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Division of Water Resources.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes of 1913, as amended, which is as follows:

SEC. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; *provided*, that at any time after the expiration of twenty years after the granting of a license, the state or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee, or licensee, or the heirs, successors, or assigns, of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors, or assigns of said permittee or licensee, has ceased to put said water to such useful or beneficial purpose, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. The findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; *provided*, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; *provided, however*, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; *and providing, further*, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; *and providing, further*, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; *and provided, further*, that when such municipality shall desire to use the additional water granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

Attention: Mona Macy
Escrow Department

Gentlemen:

Pursuant to your letter of October 7, the following information is given with regard to the application held by William and Faylah Brigman.

Application 8229, License 2275, confirms the right to use 0.17 cubic feet per second from about April 1 to October 5 of each season for irrigation and throughout the year as required for domestic purposes. The license also indicates that in case of rotation the equivalent of such continuous flow allowance for any 30-day period may be diverted in a shorter time if there is no interference with other vested rights. The point of diversion is located within the SE¼ of SE¼ of Section 4, T32N, R6W, MDB&M. Place of use is described as domestic use and irrigation of five acres within the SE¼ of SW¼ of said Section 4.

The license is in good standing and can be transferred to Mr. and Mrs. McNulty by completion of the enclosed Notice of Assignment forms.

Very truly yours,

I. K. Hill

01-14-1976: description of water source

L54(WR)RWR
WHIS/WR # 1

This water source is located some 1,800 feet to the east of NPS residences # 86 and # 78. A diversion dam approximately 3 feet high extends the width of the stream. From the dam, water is taken by a 2" line to the fire protection storage pond to the east of the residences. Stream discharge was estimated at 50 gpm. The specific conductance was 90 @ 6.0°C.

No water is being diverted at present, but the line is maintained full and is allowed to flow by turning a valve at the tank. Flow from the diversion dam to the resevoir is by gravity feed. The storage tank is concrete, sunken and open at the top. Water is used for irrigation during the growing season. The present diversion structure was in use when NPS acquired the property.

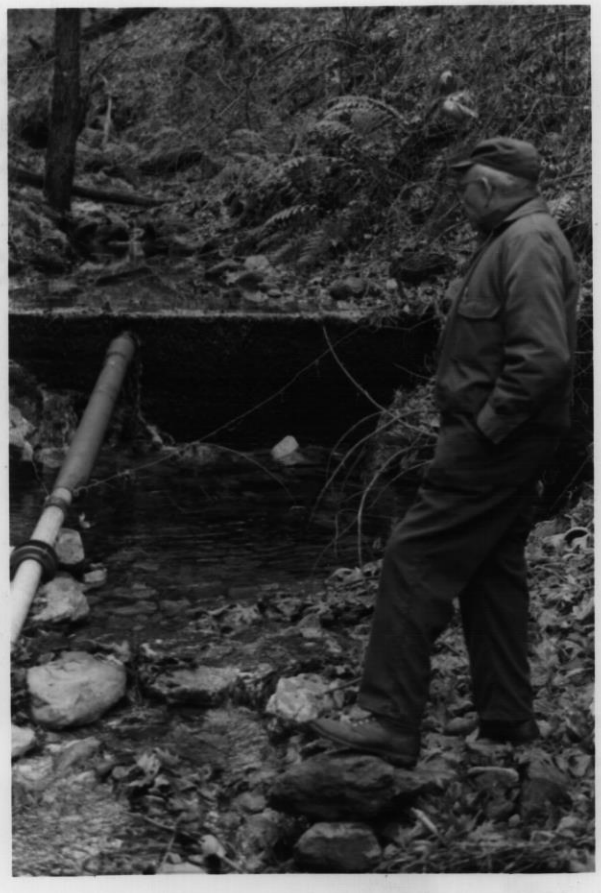

Another diversion dam is present about 75 yards downstream of the presently used structure. The lower dam appears to be older in age and of the same type and construction as the upper dam. The lower dam is presently unused.

TOPIC: Clarification of ownership listing California Water Rights Letter of 11/25/66, regarding the ownership listing of Application 8229, License 2275

A call was made to Mr. Larry Spencer of the State Water Rights Office in Sacramento to clarify the listing of the present owner in the State record (License 2275) as the letter of 10/25/66, does not clearly indicate this. The State has the owner recorded as "United States Department of the Interior, National Park Service, Whiskeytown National Recreation Area."
