ACTION DUE **PRIORITY** Nov. 24, 1959 **RESERVATION**

QUANTITY 4800 gallons per day from April 1 to November 1 each year **USE** irrigation

STATUS active **SOURCE** ~~Clear Creek~~ surface waters

REMARKS See WR #5 for companion docket

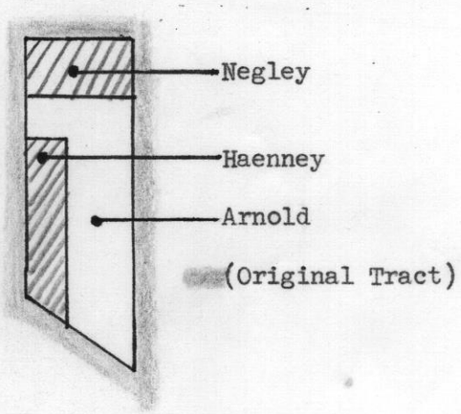

Clear Creek (Arnold Diversion) lies within Hydrologic Basin Unit No. 18020006.

NARRATIVE:

It appears that Roy Arnold filed two applications with the State of California to divert water in the area now the northernmost portion of Whiskeytown NRA. The first diversion, Application No. 19103, was to appropriate 900 gallons per day for domestic use from an unnamed spring. He eventually received a license for this diversion (NO. 7453) from the State of California. The second diversion, Application No. 19104, was to appropriate 4800 gallons per day from Clear Creek for irrigation purposes. He also received a license for this diversion (No. 7454) from the State of California.

On June 29, 1964, he sold a portion (shown on the map below) of his land to John and Doris Haenny (a veteran purchaser from the California Department of Veteran Affairs) and a portion of his water rights in Licenses 7453 and 7454. On April 4, 1966, he sold another portion of his land to Howard and Vivian Negley and a portion of his rights remaining in License 7453. The net result being a partition of his land with a domestic supply for each parcel from a spring and a supply for irrigation for two of the parcels from Clear Creek.

The NPS subsequently purchased all three parcels and acquired title to both of the licenses from all three parties. The records of the California Water Rights Board have been changed to reflect this.

The above assessment is based upon amounts due for the annual fee on a Water Rights Permit or License as required under California Code of Regulations, Title 23, Section 1066.

Information concerning Determinations

A person upon whom a determination is made or any person directly interested may petition for reconsideration with the State Water Resources Control Board within 30 days from the date of this notice. The State Water Resources Control Board must receive the petition for reconsideration by the 30th day. A petition for reconsideration must be in writing and state the specific grounds upon which it is founded, including an explanation why the petitioner believes that no fee is due or how the petitioner believes that the amount of the fee has been miscalculated.

Anyone filing a petition should be prepared to submit documentary evidence to support the specific grounds upon request. All petitions for reconsideration must be mailed to the following address:

State Water Resources Control Board, Division of Water Rights, P.O. Box 2000, Sacramento, CA 95812-2000

Petitions for Reconsideration are governed by Chapter 4(commencing with section 1120) of Part 1 of Division 2 of the Water Code and Article 12 (commencing with Section 768) of Chapter 2 of Division 3 of Title 23 of the California Code of Regulations. The California Water Code and California Code of Regulations may be found at www.waterboards.ca.gov/laws_regulations/.

The filing of the petition will not prevent the accrual of interest. Prompt payment of undisputed portions of the liability should be made. This will prevent accrual of additional interest thereon and will not in any way affect the protested portions. The application of additional penalty would be deferred until 30 days after the date of a Notice of Redetermination.

Payments can be made online by going to *www.cdtfa.ca.gov* and selecting the "Make a Payment" tab.

If you are paying by check or money order, write your account number and Notice ID shown above. Make check or money order payable to the CDTFA. Include original top portion of this form with your payment. Keep the bottom portion for your records.

Additional Remarks
This right is no longer used in support of domestic users, but is presently used by wildlife. The NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future. The exact amount of wildlife use is not known. The United States gives this information in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

8. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjuctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
This right is no longer used in support of domestic users, but is presently used by wildlife. The NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future. The exact amount of wildlife use is not known. The United States gives this information in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

NOTICE OF UNAVAILABILITY OF WATER AND IMMEDIATE CURTAILMENT FOR THOSE DIVERTING WATER IN THE SACRAMENTO RIVER WATERSHED WITH A POST-1914 APPROPRIATIVE RIGHT

On January 23, 2015 and again on April 2, 2015, the State Water Resources Control Board (State Water Board) issued a Notice of Surface Water Shortage and Potential for Curtailment due to dry conditions throughout the State. On April 1, 2015, the Governor issued an executive order, order B-29-15, continuing the state of emergency, initially enacted on January 17, 2014, due to drinking water shortages, diminished water for agriculture production, degraded habitat for fish and wildlife, increased wildfire risk and the threat of saltwater contamination to fresh water supplies in the Sacramento-San Joaquin Delta.

Curtailment of Post-1914 Water Rights:
Based upon the most recent reservoir storage and inflow projections, along with forecasts for future precipitation events, the State Water Board has determined that the existing water supply in the Sacramento River watershed is insufficient to meet the needs of all water rights holders. With this notice, the State Water Board is notifying all holders of post-1914 appropriative water rights within the Sacramento River watershed of the need to immediately stop diverting under their post-1914 water rights, with the exceptions discussed below. Please be advised that, if you continue to divert under a claim of pre-1914 right, most or all pre-1914 rights in the Sacramento River watershed are likely to be curtailed later this year due to the extreme dry conditions. This condition of curtailment will continue until water conditions improve. Even if there is water physically available at your point of diversion, that water is necessary to meet senior water right holders' needs or is water released from storage that you are not entitled to divert. If precipitation occurs in the following weeks or months, you should not commence diversion before being notified by the State Water Board that water is legally available for diversion under your priority of right.

Permission to initiate diversions during or following significant rainfall events may be posted at: http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/index.shtml#notices. You can get immediate email updates from the State Water Board about these notices by subscribing to "Drought Updates" at: http://www.waterboards.ca.gov/resources/email_subscriptions/

Compliance Certification Required:
Curtailed post-1914 diverters are required to document receipt of this notice by completing an online Curtailment Certification Form (Form) within seven days. The Form confirms your cessation of diversion under the specific post-1914 water right, and, if applicable, identifies the alternate water supply you will use in lieu of the curtailed water right. Completion of the Form is mandatory to avoid unnecessary potential enforcement proceedings. You are required to complete the Form for each post-1914 water right identified through this curtailment at:
http://www.waterboards.ca.gov/waterrights/water_issues/programs/ewrims/curtailment/2015curt_form.php

Exceptions to Curtailment:
If your diversion is for hydroelectric generation by direct diversion only and all water diverted is returned to the same stream system, you may continue to divert under your post-1914 permit or license. If you continue to divert under the above circumstances, you must identify that on the Form and provide the information requested. If you have previously collected water to storage in a reservoir covered by a post-1914 right prior to this curtailment notice, you still may beneficially use that previous stored water consistent with the terms and conditions of your post-1914 water right. However, you must bypass all inflow into the reservoir at all times during the curtailment.

No Exception for Health and Safety:
There is no exception to the curtailment notice for health and safety needs. However, we are aware that some water users must comply with directives issued by the Division of Drinking Water (DDW), or local health or drinking water regulation to provide continued water service to meet minimum health and safety standards. Should you continue to divert water under a curtailed water right to meet human health and safety needs, you must complete the Form identifying your health and safety needs, whether there is an applicable DDW, state or local regulation and your attempts at securing an alternate water supply. The State Water Board will carefully analyze the non-exempted continued diversions for minimum health and safety needs on a case-by-case basis.

Potential Enforcement:
Those who are found to be diverting water beyond what is legally available to them may be subject to administrative fines, cease and desist orders, or prosecution in court. The State Water Board may levy fines of $1,000 per day of violation and $2,500 for each acre-foot diverted or used in excess of a valid water right. (See Water Code, §§ 1052,1055.) Additionally, if the State Water Board issues a Cease and Desist Order against an unauthorized diversion, violation of any such order can result in a fine of $10,000 per day. (See Water Code,

§§1831, 1845.)

The State Water Board is encouraging diverters to work together to reach local voluntary agreements that not only provide solutions that help local communities with water shortages, but also prevent impacts to other legal users of water and do not cause unreasonable effects on fish and wildlife. If you have any questions, please call our Curtailment Hotline at (916) 341-5342, contact us by email at: SWRCB-Curtailment-Certification@waterboards.ca.gov, or review our drought year webpage at:
http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/index.shtml

The State Water Board also encourages water right holders to assist in the prevention of unlawful diversion of water and in discouraging any waste or unreasonable use of water.
To assist the State Water Board, you may file a complaint at:
http://www.dtsc.ca.gov/database/CalEPA_Complaint/index.cfm.

We recognize the burden and loss this notice creates for you during the drought, and want to assure that others do not illegally benefit from your curtailments.

Sincerely,

Thomas Howard

Thomas Howard
Executive Director

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*

Dear Mr. Wright:

Attached are completed Reports of Licensee forms for water right licenses in Whiskeytown National Recreation Area.

As Denise Newberry of my staff discussed with you earlier this year, the National Park Service is updating the status of its water rights in California park units. The National Park Service is requesting orders correcting the purpose of use for the following water licenses, as indicated below:

License 9261 (Application A021408) Unnamed Spring - add wildlife preservation and fire suppression

License 2275 (Application A008229) South Liberty Gulch - add fire suppression, delete domestic

License 9292 (Application A020837) Unnamed Stream - add wildlife preservation and fire suppression

License (Application) - add

License (Application) - add

Please contact Denise Newberry at (303) 225-3525 if this is not

acceptable or you have any other questions regarding these Reports of Licensee.

NOTICE TO LICENSEE

Enclosed is your Report of Licensee for 1983, 1984 and 1985.

You are reminded that one of the requirements under which you received your license was that "Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board". Failure to complete and return this form will constitute noncompliance with the terms and conditions of your license.

Please complete the enclosed report form to the best of your knowledge and return it to this office promptly.

Additionally, as water available for appropriation becomes a scarcer commodity, adherence to terms and conditions of your license must be emphasized. Please be advised that the Division is required to initiate enforcement actions whenever violations are noted.

Thank you for your cooperation.

Gentlemen:

Thank you for the material relating to the change in ownership of these water right licenses.

In the past our correspondence has been addressed to P. O. Box 188, Whiskeytown, California 96095. If you wish us to change our mailing address on these files, please advise accordingly.

Inasmuch as we have not received a report on use of water since issuance of license in 1965, we will send blanks for the purpose this coming October.

Sincerely,

K. L. Woodward

Subject: Licenses 7454 and 7453 (Applications 19104 and 19103)
Clear Creek and Unnamed Spring in Shasta County

Gentlemen:

We received Mr. Arnold's letter on November 6 and a copy of grant deed, Arnold to United States of America.

We have amended our records to show License 7454, Application 19104, in the ownership of John C. and Doris E. Haenny and United States Department of the Interior, National Park Service, Whiskeytown National Recreation Area. We have also amended our records to show ownership of License 7453, Application 19103 in the names of Howard B. and Viva L. Negley, California Department of Veterans Affairs (John C. Haenny, Veteran Purchaser), and United States Department of the Interior, National Park Service, Whiskeytown National Recreation Area.

Reports on use of water are required every three years. These reports are important in maintaining the validity of the license. We are sending forms to Messrs. Negley and Haenny in order that these reports covering the past three years may be submitted for the records.

If there are further instructions regarding ownership of these licenses, please inform us accordingly.

Sincerely,

L. C. Spencer

Notice of Change (Over)

have made proof as of July 28, 1964, *(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of* Clear Creek in Shasta County

tributary to Sacramento River

for the purpose of irrigation use *under Permit* 12653 *of the State Water Rights Board and that said right to the use of said water has been perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the terms of the said permit; that the priority of the right herein confirmed dates from* November 24, 1959, *and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed* four thousand eight hundred (4800) gallons per day to be diverted from about April 1 to about November 1 of each year.

The equivalent of such continuous flow allowance for any 30-day period may be diverted in a shorter time if there be no interference with other vested rights.

The point of diversion of such water is *located* :

North one thousand one hundred (1100) feet and west six hundred (600) feet from SE corner of Section 34, T33N, R7W, MDB&M, being within SE¼ of SE¼ of said Section 34.

A description of the lands or the place where such water is put to beneficial use is as follows:

1/2 acre within SE¼ of SE¼ of Section 34, T33N, R7W, MDB&M.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

FORM 64

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

We received a letter of August 9th noting reception of the water right ownership data for applications #19103 & #19104. I called them to tell them they didn't need to change their address record as it was okay to send the information direct to Whiskeytown. I also asked about the letter stating the change in ownership name on their records. They sent this to Whiskeytown on April 8, 1968.

As far as they know only the Forest Service and BLM presently use the "Letter of Intent" on Reservation Water Rights.

I then called Whiskeytown and talked to Mr. Landes and asked them to send us a copy of that letter from California State on April 8, 1968.
