STATEMENT OF ISSUE/CONCERN:

William Niman, former owner of lands acquired by Point Reyes National Seashore, continues to operate his cattle ranch on the lands under an agreement with the United States. He required additional water to irrigate pastures so he improved the existing reservoir and installed irrigation equipment. He filed an application for excess storage capacity in March 1987 (the excess storage was discovered by the State of California Division of Water Rights staff) - Application #29021. The State requested that an Environmental Information Statement be prepared for this application so the application process can be completed. (pml 6/88)

The State requires that Posting be made and Proof of Posting submitted to the State for proper appropriation of water under this water right. This apparently "slipped through the cracks" earlier this summer and will be attempted again. (bv 9/6/88)

ACTION PLAN AND SCHEDULE:

Action 1 Responsible Person(s) Pat Larson

Due Date May, 1988 Completion Date May 3, 1988

Prepare memo transmitting package to Western Region for approval and final preparation of letter transmitting the package to the State.

Action 2 Responsible Person(s) Bruce Kilgore

Due Date May 10, 1988 Completion Date May 6, 1988

Submit package to State Water Resources Control Board under cover letter signed by John Cherry (or his designated Acting Associate Regional Director for Resource Management and Planning).

Action 3 Responsible Person(s) Beth Voelkel

Due Date September 9, 1988 Completion Date

Write letter to the Superintendent, PORE, explaining that a package should be arriving from the State Water Resources Control Board with reissued Notice of Application to Appropriate Water and Proof of Posting. Explain what is to be done with these items and ask that, when Proof of Posting is submitted, copies be sent to the WRB for our records.

TRACKING SHEET NUMBER 1

DATE	ACTIVITY/COMMENTS
April 1988	Mr. Niman completed the Environmental Information Supplement and forwarded it (with photos) to PORE superintendent Sansing. (pml)
May 6, 1988	Bruce Kilgore, Chief Scientist, Western Region, called me to let me know they received the package containing the Environmental Information Supplement and draft letter of submittla to the State. He inquired about Gerry Witucki's involvement. I told him about Gerry's move to Denver and his transfer of issues to me. I reiterated the importance of the time factor so he transmitted the package of information to the State Water Resources Control Board today. (pml)
May 9, 1988	Received file copy of transmittal letter signed by Bruce Kilgore. (pml)
June 3, 1988	Ken Czarnowski informed me that Rudy Aquilar of the State Water Resources Control Board called me yesterday when I was out of the office. Today, I returned the call. Mr. Aquilar is reviewing Mr. Niman's Environmental Information Supplement and was questioning the presence of a grading permit for the installation of the irrigation system. He gave me a name and phone number for the county that would be responsible for issuing a grading permit. I called Bob Beaumont, (415)449-6552, and told him about the situation. He felt there was no need for a grading permit to install the irrigation system because the grading needed for a system is so minor. I then contacted Rudy Aquilar and told him that Mr. Beaumont felt a permit was not necessary. Mr. Aguilar said he had completed his inspection of the Environmental Information Supplement and he feels there are no environmental impacts involved with this project. Now the Chief Engineer will issue a ruling on this issue. (pml)

TRACKING SHEET NUMBER 2

DATE	ACTIVITY/COMMENTS
July 5, 1988	The WRB received a Notice of Application to Appropriate Water under Application 29021 by registered mail. With the Notice were instructions that the Notice was to be posed no later than July 21, 1988 in two conspicuous locations near the project. The person who posts the Notice is to file a Statement of Proof of Posting no later than August 10, 1988. Owen Williams contacted the Chief of Resource Management at PORE, Bill Shook, and told him the situation. (bv)
September 2, 1988	The WRB received a Notice of Failure to File Proof of Posting or of Publication by registered mail. (bv)
September 6, 1988	I contacted Bill Shook today and asked if Posting had ever been made. He said that he vaguely remembered discussing the subject with Owen but that probably no action was ever taken unless he had received a written request. There is no indication in our records that a written request was submitted to PORE. I contacted Keith with the Water Rights Division of the California State Water Resources Control Board. I explained that Posting was probably never completed and he said that was not a big problem but that they would have to reissue the Notice of Application to Appropriate Water for proper posting. This is to be posted in two conspicuous locations near the site (on telephone poles or trees, for instance) within 10 days and then the Statement of Posting Notice is to be completed and returned to the State within 40 days. I asked that, in the matter of saving time, the Notice for posting be sent directly to the Superintendent at PORE with copies to me. He said it would probably not be issued this week but, rather, next Friday (September 16). Sent a memo to the Superintendent explaining the situation and what needs to be done when the information arrives from the State. (bv)

TRACKING SHEET NUMBER 3

DATE	ACTIVITY/COMMENTS
September 15, 1988	Received the reissued Notice to post from California Water Resources Control Board. The Notices must be posted by October 3 and Proof of Posting must be filed with the State by October 24, 1988. This information arrived via certified mail and appears to be an original although I had asked that the original be sent directly to the park in the interest of time. (bv)
September 16, 1988	Attempted to contact Bill Shook at the park yesterday but wasn't able to. Today he is not in the office but I did speak with the Superintendent. He said that they received the same information and would take care of posting. They will send Proof of Posting directly to the State but will send a copy to WRD as well. (bv)

ISSUE SUMMARY:

Application : A029021
Permit : 020434 **Issued on** March 8, 1990
License :

Primary Owner : U S NATIONAL PARK SERVICE
Mail To Owner : U S NATIONAL PARK SERVICE
POINT REYES NATIONAL SEASHORE
Address : 1201 OAK RIDGE DRIVE STE 250, FORT COLLINS, CO 80525-5596

REPORT OF LICENSEE FOR 2020

Primary Owner: U S NATIONAL PARK SERVICE
Primary Contact:

Date Submitted: 03/29/2021

Application Number: A029021
License Number: 013492

Source(s) of Water	POD Parcel Number	County
UNST		Marin

MAX Direct Diversion Rate: 0 GPD
MAX Collection to Storage: 20.4 AC-FT
Face Value: 20.4 AC-FT

Permitted Use(s)	Acres	Direct Diversion Season	Storage Season
Domestic	0		11/01 to 05/01
Irrigation	65		11/01 to 05/01
Stockwatering	0		11/01 to 05/01
Recreational	0		11/01 to 05/01
Dust Control			11/01 to 04/30
Fish and Wildlife Preservation and Enhancement			11/01 to 04/30
Fire Protection			11/01 to 04/30

1. Compliance with License Terms and Conditions	
I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	

2. Changes to the Project	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

3. Purpose of Use	
Domestic	3 households/ 5 acres
Fire Protection	Niman
Recreational	boating and fishing
Stockwatering	76 beef cattle
Fish and Wildlife Preservation and Enhancement	wildlife

Special Use Categories	
C1. Are you using any water diverted under this right for the cultivation of cannabis?	No

4. Amount of Water Diverted and Used			
Month	**Amount directly diverted (Acre-Feet)**	**Amount diverted or collected to storage (Acre-Feet)**	**Amount used (Acre-Feet)**
January	0	4	1.7
February	0	4	1.7
March	0	4	1.7
April	0	0.4	1.7
May	0	0	1.7

CALIFORNIA Water Boards

Fact Sheet

EMERGENCY REGULATION FOR MEASURING AND REPORTING ON THE DIVERSION OF WATER

Governor Edmund G. Brown Jr. signed Senate Bill (SB) 88 on June 24, 2015. Sections 15 through 18 of SB 88 add measurement and reporting requirements for a substantial number of diverters. The State Water Resources Control Board (State Water Board) adopted a regulation to implement the new law at its January 19, 2016 Board Meeting. The regulation will go into effect upon approval by the Office of Administrative Law, which is anticipated to occur in March 2016.

The measurement requirements of the regulation apply to all water right holders who divert more than 10 acre-feet of water per year. The annual reporting requirements in the regulation apply to all statement holders as well as persons authorized to appropriate water under a permit, license, registration (small domestic, small irrigation, or livestock stockpond), or certificate for livestock stockpond use.

Information on the regulation, SB 88, and related documents are available at:

http://www.waterboards.ca.gov/waterrights/water_issues/programs/measurement_regulation/

If you have any questions or concerns, please contact the Division of Water Rights (Division) at:

Email Address: dwr-measurement@waterboards.ca.gov
Phone Number: (916) 341-5300

Key Provisions of Regulation

Annual Water Use Reporting Requirements for Water Right Holders

All water right holders shall report on their diversion and use of water annually, beginning with reports for the 2016 diversion season. Annual water use reports for permits, licenses, registrations and stock pond certificates must be filed by April 1 of each year starting April 1, 2017 for diversions made in 2016. The annual use reports for statements shall be filed prior to July 1 of each year. All reports will continue to document diversions during the prior calendar year. The filing dates are for the annual water use reports are summarized below:

DIVERSION/STORAGE PERIOD	WATER USE REPORT DEADLINES				
	PERMITS	LICENSES	STATEMENTS	REGISTRATIONS	CERTIFICATES
2015	JULY 1, 2016	JULY 1, 2016	JULY 1, 2016	VARIES	NOT REQUIRED
2016	APRIL 1, 2017	APRIL 1, 2017	JULY 1, 2017	APRIL 1, 2017	APRIL 1, 2017

Reporting Requirements for Water Right Holders During Times of Insufficient Supply

When the amount of water available in a surface water source is not sufficient to support the needs of existing water right holders and in-stream uses, the State Water Board may require monthly or more frequent reporting in the affected areas to provide the most accurate assessment of water demand. The State Water Board will notify diverters in affected areas when additional reporting is required.

Deadline for Complying with Measurement and Reporting Requirements

The regulation provides for a phased approach to compliance. The compliance deadlines, by volume of water diverted, are shown in the table below.

Required Accuracy for Measurement and Frequency for Monitoring

SB 88 set expectations for both the accuracy of measurement devices as well as the monitoring frequency of the device. The regulation links both device accuracy and monitoring frequency to the volume categories. Larger diversions and larger reservoirs or ponds have more stringent measurement and monitoring requirements and more stringent requirements for the installation and certification of measurement devices as described in the table below.

Type of Diversion (af = acre-feet)	Installation Deadline	Required Accuracy	Required Monitoring Frequency	Qualifications For Installation And Certification
Direct Diversion ≥ 1,000 af/year Storage ≥ 1000 af	January 1, 2017	10%	Hourly	Engineer/Contractor/Professional
Direct Diversion ≥ 100 af/year Storage ≥ 200 af	July 1, 2017	10%	Daily	Engineer/Contractor/Professional
Direct Diversion > 10 af/year Storage ≥ 50 af	January 1, 2018	15%	Weekly	Individual experienced with measurement and monitoring
Storage > 10 af	January 1, 2018	15%	Monthly	Individual experienced with measurement and monitoring

Measurement Methods

Diverters may propose a measurement method, in lieu of a measuring device, to comply with measurement and accuracy requirements under the regulation. Examples of measurement methods include:

- Multiple water right holders on a single surface supply can propose a collaborative measurement approach.
- A single water right holder with multiple points of diversion can propose a measurement method that may preclude the need to install a measurement device at each point of diversion.

Alternative Compliance

A water right holder may request an alternative compliance approach when strict compliance is not feasible, would be unreasonably expensive, would unreasonably affect public trust resources, or would result in the waste or unreasonable use of water.

The Division is preparing the forms to request alternative measurement or alternative compliance. All requests must be submitted on the Division's forms. Please note; persons subject to the regulation are not allowed to claim "not locally cost effective".

Certification of Water Measurement Device

The regulation requires that the accuracy of the water measurement device be certified every five years, in accordance with the table above. The regulation calls for an initial certification with the first water use report filed after the device has been installed.

LICENSEE REPORTING FOR 2015

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A029021**
Password (Reporting Identifier): **237253**

IMPORTANT: PLEASE NOTE BELOW

Effective immediately the Division of Water Rights will **NO LONGER** notify you via mail in the future when reporting is due. If you would like to be notified when reporting is due and other reporting related material, please subscribe to our Lyris list (Water Rights Reporting Notification) at:

http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

You are required to complete the online report for 2015 no later than **June 30, 2016.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CHANGES FOR REPORTING AND MEASUREMENT OF DIVERSIONS MADE IN 2016, AND THEREAFTER

- See attached "Fact Sheet" for updates.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Amanda Montgomery

LICENSEE REPORTING FOR 2014

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A029021**
Password (Reporting Identifier): **237253**

You are required to complete the online report for 2014 no later than **June 30, 2015.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

LICENSEE REPORTING FOR 2013

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A029021**
Password (Reporting Identifier): **237253**

You are required to complete the online report for 2013 no later than **June 30, 2014.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Amanda Montgomery

LICENSEE REPORTING FOR 2011

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A029021**
Password (Reporting Identifier): **237253**

You are required to complete the online report for 2011 no later than **June 30, 2012.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.

- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.

- Licensees can list all of their reservoirs associated with this license in their report.

- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to **www.waterboards.ca.gov/rms** and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A029021**
Password: **7C2D6B**

You are required to complete the online report for 2010 no later than **July 1, 2011.** You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

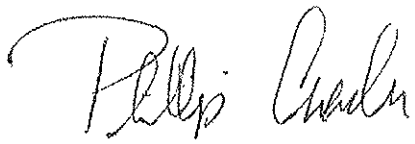

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

Total	20	20.4

6. Maximum Rate of Diversion for each Month	
Month	**Maximum Rate of Diversion ()**
January	
February	
March	
April	
May	
June	
July	
August	
September	
October	
November	
December	

7. Storage					
Reservoir name	**Spilled this year**	**Feet below spillway at maximum storage**	**Completely emptied**	**Feet below spillway at minimum storage**	**Method used to measure water level**
Unknown	Yes		No	0.0	Not known.

Conservation of Water	
8. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation	
10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjuctive Use of Groundwater and Surface Water	
12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks
Same reservoir as License 13112. Captures rainy season discharge; spills every winter. Does not dry out in summer. Amounts of use are estimates; actual capture is probably slightly less than licensed amount due to siltation of reservoir. Declaration: The United States gives this information to the State in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

[FINAL SUBMITTED VERSION]

REPORT OF LICENSEE FOR 2006

Primary Owner: U S NATIONAL PARK SERVICE
Application Number: A029021
License Number: 013492
Date Submitted: 2012-07-19

1. Project Abandoned	
The project has been abandoned and I request revocation of my water right license	No

2. Compliance with License Terms and Conditions	
I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	

3. Changes to the Project	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

4. Purpose of Use	
Stockwatering	75 animals

5. Amount of Water Diverted and Used

Month	Amount directly diverted or collected to storage (Acre-Feet)	Amount used (Acre-Feet)
January	4.0	1.7
February	4.0	1.7
March	4.0	1.7

LICENSE SUMMARY

NAME(S) OF SOURCES OF WATER (Up to first 4 sources listed) **POD PARCEL NO**
UNST

COUNTY LOCATION
Marin

MAX DIRECT DIVERSION RATE: 0 Gallons per Day
MAX COLLECTION TO STORAGE AMOUNT: 20.4 AC-FT
WATER RIGHT FACE VALUE: 20.4 AC-FT

LICENSED USE(S) OF WATER (First 4 uses displayed below)	**ACRES** (AC)	**DIRECT DIVERSION SEASON** (month/day to month/day)	**COLLECTION TO STORAGE SEASON** (month/day to month/day)
Domestic	0.0		11/1 to 5/1
Irrigation	65.0		11/1 to 5/1
Stockwatering	0.0		11/1 to 5/1
Recreational	0.0		11/1 to 5/1

[ ] YES [ ] NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. [ ] YES [ ] NO I have currently reviewed my water right license.
2. [ ] YES [ ] NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
3. [ ] YES [ ] NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If **Yes**, explain under "Remarks' on reverse side. ***Note:*** *A Change Petition and associated fees may be required for any significant changes to the licensed project.*

BENEFICIAL USE(S) OF WATER: Under the appropriate boxes below, briefly explain how the water was used each year

4. Current Use(s) of Water	**2007**	**2008**	**2009**
4.a. Irrigation – specify no. of acres irrigated			
4.b. Frost Protection – specify no. of acres protected			
4.c. Heat Control – specify no. of acres protected			
4.d. Industrial – specify type			
4.e. Stockwatering – specify no. & type of animals			
4.f. Municipal – approx. population served			
4.g Domestic – specify no. of persons, lawn/garden area			
4.h. Power Generation – installed capacity in kW, MW, or hp			
4.i Recreational – specify (boating, fishing, water contact sports, etc.)			
4.j. Other – specify (Examples: fire protection, snowmaking, mining, etc.)			

AMOUNT OF WATER TAKEN FROM THE SOURCE: Please report only the amounts diverted and/or stored under this license.
5.a. Amount of water taken each month under this license in [ ] gallons or [ ] acre-feet or [ ] million gallons

Year	**Jan**	**Feb**	**Mar**	**Apr**	**May**	**Jun**	**Jul**	**Aug**	**Sep**	**Oct**	**Nov**	**Dec**	**Total**
2007													
2008													
2009													

AMOUNT OF WATER BENEFICIALY USED: Please report only the amounts beneficially used under this license.
5.b. Amount actually used by direct diversion and/or withdrawal from storage in acre-feet [ ] Check if amounts are same as 5.a.

Year	**Jan**	**Feb**	**Mar**	**Apr**	**May**	**Jun**	**Jul**	**Aug**	**Sep**	**Oct**	**Nov**	**Dec**	**Total**

App ID No. A029021

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If **No**, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If **No**, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

LICENSEE (OR AGENT / DESIGNEE)

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

APPLICATION 29021 PERMIT 20434 LICENSE 13492

THIS IS TO CERTIFY, That

U.S. National Park Service
Water Resources Division
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525

has made proof as of **November 5, 1998** (the date of inspection) to the satisfaction of the State Water Resources Control Board (SWRCB) of a right to the use of the waters of **an Unnamed Stream in Marin County**

tributary to **Pacific Ocean**

for the purpose of **Domestic, Stockwatering, Dust Control, Recreational, Wildlife Enhancement, and Fire Protection uses**

under Permit **20434** of the SWRCB: that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the SWRCB, and the permit terms; that the priority of this right dates from **May 5, 1987**; and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed **twenty and four-tenths (20.4) acre-feet per annum to be collected from November 1 of each year to April 30 of the succeeding year. The maximum withdrawal in any one year under this license and License 13112 (Application 25504) shall not exceed 19.3 acre-feet.**

The total quantity of water collected to storage under this license and License 13112 (Application 25504) shall not exceed 42 acre-feet per year.

The capacity of the reservoir covered by this license and License 13112 (Application 25504) shall not exceed 42 acre-feet.

This license does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

South 2,450 feet and West 950 feet from NE corner of projected Section 23, T1N, R8W, MDB&M, being within SE¼ of NE¼ of said Section 23.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

Recreational, wildlife enhancement, and fire protection uses at reservoir within SE¼ of NE¼ of projected Section 23, domestic use at 3 residences and grounds within S½ of NE¼ of projected Section 23, dust control of feedlot within W½ of NE¼ of projected Section 23, and stockwatering use at various locations within projected Sections 23 and 26, all within T1N, R8W, MDB&M, as shown on map on file with the SWRCB.

Licensee shall allow representatives of the SWRCB and other parties, as may be authorized from time to time by the SWRCB, reasonable access to project works to determine compliance with the terms of this license.

The quantity of water diverted under this license is subject to modification by the SWRCB if, after notice to the licensee and an opportunity for hearing, the SWRCB finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the SWRCB finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the SWRCB may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the SWRCB also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

This license does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain authorization for an incidental take prior to construction or operation of the project. Licensee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this license.

Reports shall be filed promptly by the licensee on the appropriate forms which will be provided for the purpose from time to time by the SWRCB.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and the licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the SWRCB.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article (of the Water Code) and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

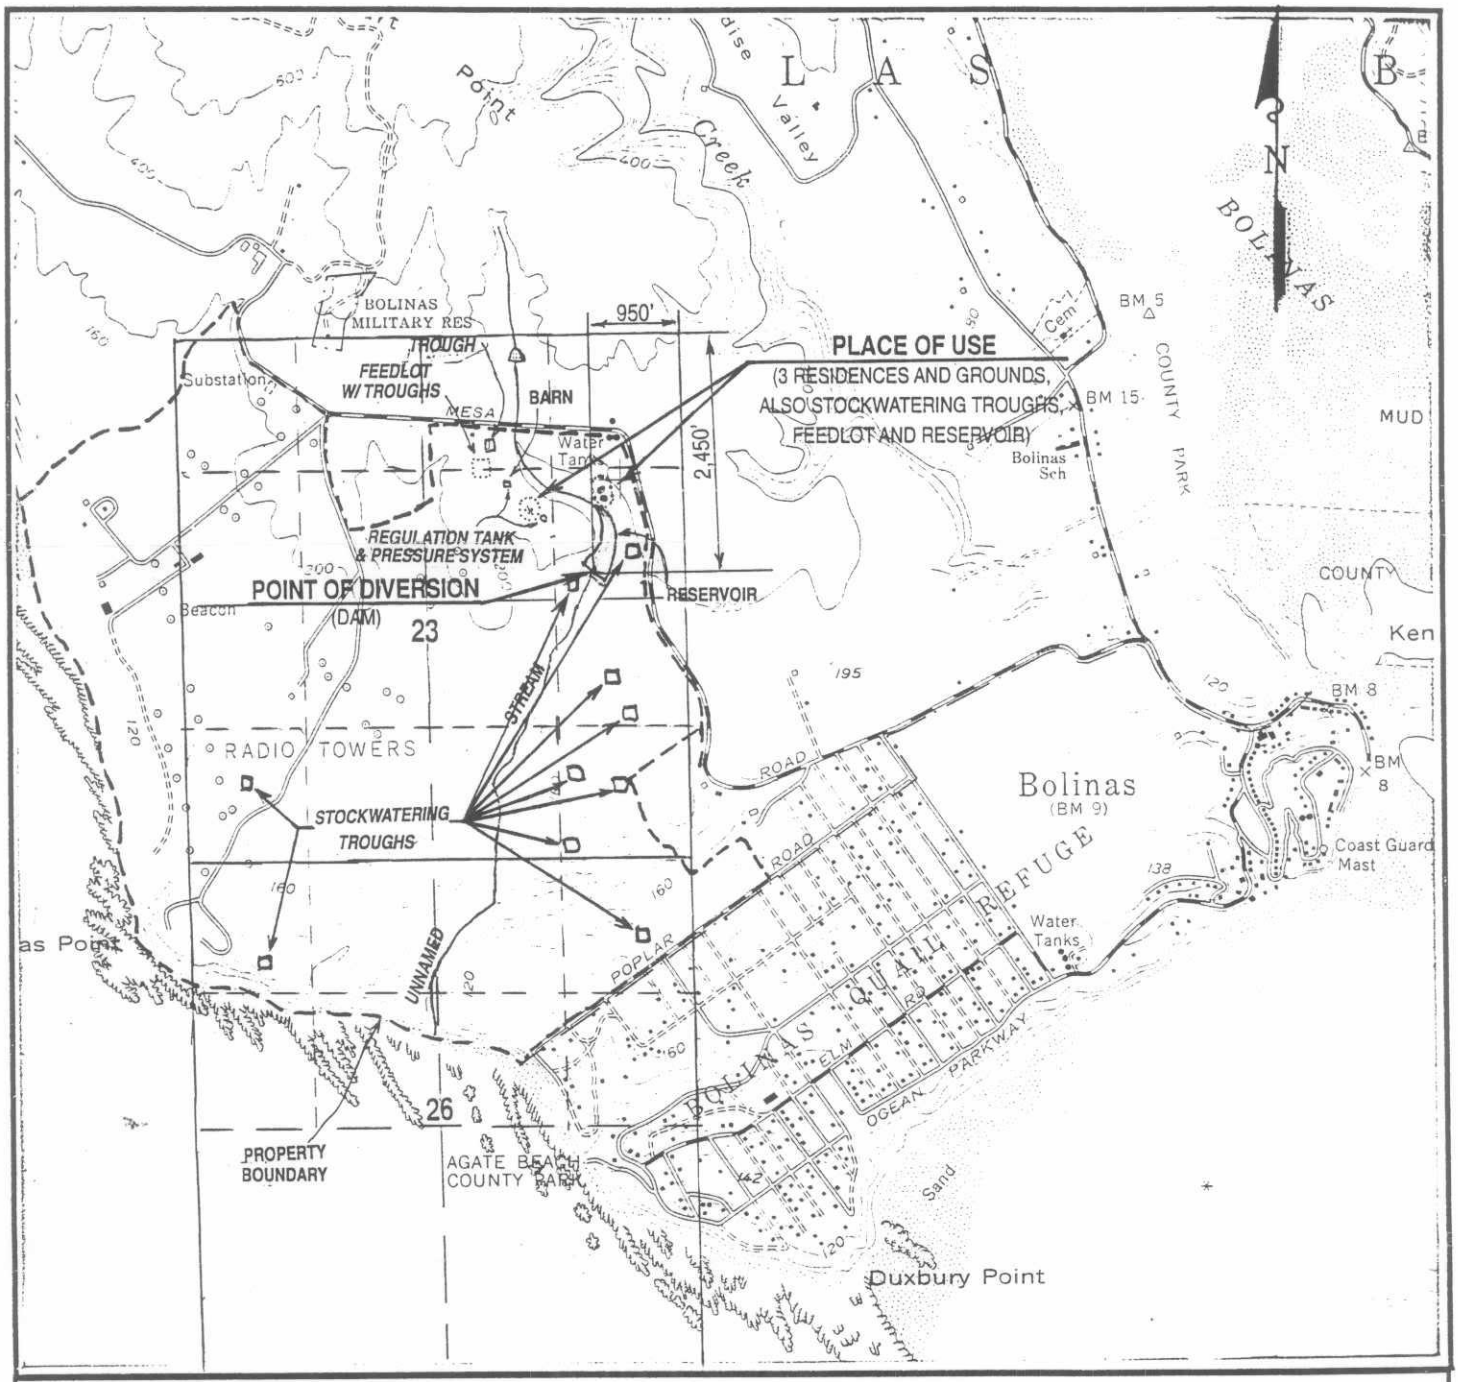

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

OCTOBER 15 1996

Mr. Owen Williams
U. S. National Park Service
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525-5596

Gentlemen:

PERMIT 20434 (APPLICATION 29021) AN UNNAMED STREAM IN MARIN COUNTY

This is in response to your letter of October 2, 1996 in which you indicated that the irrigation project proposed under Permit 20434 has been discontinued. The reservoir covered by this water right has a total storage capacity of 42 acre-feet. License 13112 (Application 25504) covers 21.6 acre-feet of this capacity. Permit 20434 must remain active since it covers the remaining 20.4 acre-feet of the total storage.

If irrigation use is to be deleted, we can issue a license for the other uses covered by the permit. Prior to the issuance of a license, we must make a physical inspection of the project. Therefore, we will try to schedule your project for inspection in 1997. The inspecting engineer will contact you prior to any inspection to schedule a date and time that will be convenient with you.

If you have any questions, please call me at (916) 657-1931.

Sincerely,

Shige Okada

Shige Okada, Chief
Permit and License Unit

10-02-1996: letter to program manager, state water resources control board from chief, water rights branch regarding nps and lessee desire to withdraw the application for the appropriation of water permit no. 020434

Mr. David R. Beringer, Program Manager
State Water Resources Control Board
The Paul R. Bonderson Building
901 P Street
Sacramento, CA 95814

Re: Water Rights Permit 020434

Dear Mr. Beringer:

This is to inform you that the National Park Service and its Lessee desire to withdraw the application for the appropriation of 21 AC-FT of water under permit No. 020434. This application was for additional storage and use of water for irrigated pasture in conjunction with License 13112. Our lessee has determined that construction and implementation of the irrigation project is no longer economically feasible, and wishes to discontinue the project.

We assume that the outstanding progress report will no longer be required. Should you have any questions, please contact Point Reyes National Seashore Chief of Resource Management William Shook at (415)663-8522, ext. 243.

Thank you for your patience and consideration in this matter.

Sincerely,

Owen Williams
Chief Water Rights Branch

NOTICE TO PERMITTEE

Enclosed is your Progress Report By Permittee for 1992.

You are reminded that one of the requirements under which you received your permit was that "Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued." Failure to complete and return this form will constitute noncompliance with the terms and conditions of your permit.

Section 1010 of the Water Code has been amended to include the use of desalinated water in lieu of water that you are allowed to use under your appropriative right. All such use is deemed equivalent to any reduction in your existing right, and for the purpose of maintaining your right is construed to constitute a reasonable beneficial use of water. If you wish to claim the use of desalinated water as allowed under this section of the Water Code, please quantify this use under the Remarks Section of the attached report form.

Please complete to the best of your knowledge, sign and promptly return the enclosed report form to this office.

Additionally, as water available for appropriation becomes a scarcer commodity, adherence to the terms and conditions of your permit must be emphasized. Please be advised that the Division of Water Rights is required to initiate enforcement action whenever violations are noted.

Thank you for your cooperation.

Sincerely,

Glenn K. Mork, Chief
Investigation and Compliance Section

1992

(REPORT CONTINUES ON REVERSE SIDE)

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT.

MUNICIPAL, COMMUNITY, OR SUBDIVISION PROJECTS ONLY

CONSERVATION OF WATER

11. How many service connections to date?_____ Total population served by the water system: _____
12. Estimated number of service connections under full use: _____
13. Are the connections individually metered; YES [ ] NO [ ].
14. Do you plan to meter the connections? YES [ ] NO [ ]. When? _____
15. Sewage generated by those to whom you deliver water is disposed of by: Septic tanks and leach lines [ ]; Seepage pits [ ]; Central treatment plan [ ] operated by _____; Other [ ] (specify under "Remarks").
16. Is water service provided to an area or subdivision including a recreational reservoir: YES [ ] NO[ ].
17. Name of area or subdivision so served: _____
18. State surface area at maximum water level in recreational reservoir(s) referred to in 16. Identify surface area(s) by name of dam or reservoir _____
19. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ] (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [ ]; (4) Other (describe in "Remarks") [ ].
20. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.), where applicable [ ]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ] (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].
21. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [ ] (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks") [ ].
22. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [ ]; (3) Other (describe in "Remarks") [ ].
23. Describe any water conservation efforts you may have started: _____
24. If credit toward beneficial use of water under this permit for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.): _____

WATER QUALITY AND WASTEWATER RECLAMATION

25. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: All disturbed areas in watershed have been reseeded and have adequate sod cover to prevent excess siltation.
26. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [XX]; (3) discharged into settling ponds [ ] (4) other [ ]. Describe: _____
27. Does or will water being discharged contain waste materials? [ ] YES [XX] NO.
    (1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____
28. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? [ ] Yes [XX] No. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR PERMIT, PLEASE ANSWER IN REMARKS SECTION BELOW

29. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? [ ] Yes [XX] No.

    If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show the amounts of reclaimed water used.
30. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? [ ] Yes [XX] No.
    If Yes, please describe: _____
31. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
32. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
33. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS (Identify the item you are explaining. Additional pages may be attached.)

#7 Haven't used any for irrigation yet

PETITION FOR EXTENSION OF TIME

If construction work is proceeding

If construction work and/or use of water is proceeding but is not complete, an extension of time may be petitioned by completing items 4 through 16. Statements must be restricted to construction or use of water only under this permit.

4. A _____ - year extension of time is requested to complete construction work and/or beneficial use of water. (Indicate period of time. Must be consistent with time frame allowed in "Guidelines for Considering Petitions for Extensions of Time").

5. How much water has been used? _____ acre-feet/year _____ cfs

6. How many acres have been irrigated? _____

7. How many houses or people have been served water? _____

8. Extent of past use of water for any other purpose. _____

_____

9. What construction work has been completed during the last extension? _____

_____

_____

10. Approximate amount spent on project during last extension period. $ _____

11. Estimate date construction work will be completed. _____

12. Estimated year in which water will be fully used. _____

13. Reasons why construction and/or use of water were not completed within time previously allowed. _____

_____

_____

If the use of water is for municipal (including industrial) and irrigation supplies and is provided or regulated by public agencies and use of the water has commenced, but additional time is needed to reach full use contemplated, the following information must be provided.

14. What water conservation measures are in effect or feasible within the place of use?

_____

_____

_____

15. How much water is being conserved or is it feasible to conserve using these conservation measures? _____ acre-feet per annum.

16. How much water per capita is used during the maximum 30-day period ? _____ gpm.

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

WATER USERS:

Application _____ Permit _____

Water Code Section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board, in considering requests for extension of time, will review the facts presented to determine whether there is good cause for granting an extension of time to complete the project. Where diligence in completing the project is not fully substantiated, the State Board may set the matter for hearing to determine the facts upon which to base formal action relating to the permit. Formal action may involve:

1. Revoking the permit for failure to proceed with due diligence in completing the project.
2. Issuing a license for the amount of water heretofore placed to beneficial use under the terms of the permit.
3. Granting a reasonable extension of time to complete construction work and/or full beneficial use of water.

The time previously allowed in your permit within which to complete construction work and/or use of water has either expired or will expire shortly.

Please check below the action you wish taken on this permit.

☐ The project has been abandoned and I request revocation of the permit.

_____
Signature

☐ Full use of water has been made, both as to amount and season, and I request license be issued.

Dear Bill:

We understand that you would like to withdraw your application for an appropriated water right on your Reservation-of-Possession. This relates to State Water Resources Control Board Application 029021 (Permit 020434) for 21.0 AC-FT to be used for pasture irrigation. It is our understanding that you do not wish to proceed with the irrigation project, and that another water right for 21.6 AC-FT (Application 25504; Permit 18061) has been approved by the California State Water Resources Control Board.

Would you please request to this office in writing that we initiate actions to withdraw the application for an appropriated water right under Application 029021. Upon receipt of your written request, we will proceed through our Water Resources Branch to withdraw this application.

Sincerely,

John L. Sansing
Superintendent

Randy Larson,

The purpose of this letter is to inform you that we wish to withdraw our application for additional water use earmarked for irrigation.

We would like to be able to reconsider the application in the future when the funds are available to complete the already begun project.

Than you for your consideration.

22. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops b each farm [ ]; (3) Other (describe in "Remarks") [ ].
23. Describe any water conservation efforts you may have started: _____
24. If credit toward beneficial use of water under this permit for water not used due to a conservation effort is claimed under Water Cod Section 1011, please show the amounts of water conserved (acre feet or mg.):

WATER QUALITY AND WASTEWATER RECLAMATION

25. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: ALL DISTURBED AREAS ARE BEING SEEDED TO PREVENT EROSION AND HAVE
26. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [X]; (3) discharged into settling ponds [ ]; (4) other [ ]. Describe: _____
27. Does or will water being discharged contain waste materials? [ ] YES [X] NO.
(1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____
28. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? [ ] Yes [X] No. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR PERMIT, PLEASE ANSWER IN REMARKS SECTION BELOW.

29. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? [ ] Yes [X] No.
If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show the amounts of reclaimed water used.
30. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? [ ] Yes [X] No.
If Yes, please describe: _____
31. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
32. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
33. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS (Identify the item you are explaining. Additional pages may be attached.)

Bill Hansen
U.S. National Park Service
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525-5596

Dear Mr. Hansen:

WATER RIGHTS IN CALIFORNIA OWNED BY THE U.S. NATIONAL PARK SERVICE

This letter is to follow up several recent phone conversations concerning water rights in California owned by the U.S. National Park Service (USNPS).

Based on a search of our database, the Water Rights Information Management System (WRIMS), I was able to locate a total of 58 appropriative water right filings and 3 claims of riparian water rights owned by the USNPS for 8 parks in California. A general summary is enclosed which lists the water rights for each park. Also enclosed are a brief summary of each individual water right sorted by park.

I have updated our records to show the primary owner of each water right as follows:

U.S. National Park Service
1201 Oak Ridge Drive, Suite 250
Fort Collins, CO 80525-5596

(970) 225-3500

In order to show the specific park name on different WRIMS reports, I have also added a specific name record for each park with the current mailing address on file for routine correspondence and reporting forms. Our records currently show that correspondence for Point Reyes National Seashore, Death Valley National Park, Pinnacles National Monument, Sequoia and Kings Canyon National Park, and Lassen Volcanic National Park should be sent to Fort Collins, Colorado. Correspondence is being sent to the respective park headquarters for Redwood National Park, Whiskeytown-Shasta-Trinity National Recreational Area, and Yosemite National Park.

Of the 58 appropriative water rights, all but one has been licensed. The one outstanding permit is for a reservoir in Point Reyes National Seashore covered by Permit 20434 (Application 29021). Since Permit 20434 expired in 1993, it is likely we will schedule a license inspection for the permitted project this year.

Based on my WRIMS database search, I was unable to locate any water rights for the parks or other facilities listed on page 2 of the general summary. Please let me know if you find any other water rights that should be updated for USNPS ownership or any changes to mailing addresses.

For small stockponds under 10 acre-feet in volume constructed prior to January 1, 1969, we have a simplified filing program discussed in the enclosed pamphlet 91-4R and related materials. However, the Stockpond Program will be phased out effective December 31, 1997. We encourage you to file a Form WR 45a (and $10 fee) for any eligible reservoirs that do not currently have a valid water right prior to the expiration of the Stockpond Program.

If you have any questions, please write or telephone me at the above number.

Sincerely,

Ronald M. Duff
Associate WRC Engineer

IMPORTANT! EVERY permit is issued subject to the conditions therein expressed. I have currently reviewed my permit: YES [XX] NO [ ]. I am complying with the conditions under which my permit has been issued: YES [XX] NO [ ]. Identify any noncompliance by permit term number under "Remarks" on reverse side. This report is important in providing the record of use needed in establishing your water right. It should be filled out carefully and returned promptly to the above address.

THE PROJECT HAS BEEN ABANDONED AND I REQUEST REVOCATION OF THIS PERMIT: YES [ ] NO [XX].

CONSTRUCTION WORK

1. Has construction work commenced? YES [XX] NO [ ]. Is construction completed? YES[ ] NO [XX]
2. If incomplete, describe briefly the work done, including cost: 3 Phase electric installed
3. If not completed, give estimated date of completion: July 1994
4. What percent of construction work remains to be done? 70% Explain: Install pump and transmission lines to irrigated acreage

USE OF WATER

5. Has use of water commenced? YES [ ] NO [XX]. Check appropriate box(es) below and explain how water was used.

(a) [ ] Irrigation _____ (Total acres irrigated) _____ (Name of crops served and acreage of each)

(b) [ ] Stockwatering _____ (Number of animals)

(c) [ ] Industrial _____ (Nature of use)

(d) [ ] Domestic _____ (Number of persons, area of garden, lawn, etc.)

(e) [ ] Municipal _____ (Approximate population)

(f) [ ] Recreational _____ (Boating, fishing, water contact sports)

(g) [ ] Power generation _____ (Installed horsepower capacity)

(h) [ ] Other _____

6. Amount of water used each month under this permit in gallons or acre-feet. (If not known, check months water was used.)

Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual

7. Has use of water, both amount and season, been as great as you expect in any future year under this permit? YES [ ] NO [XX]. If "No", explain in "Remarks".
8. Has location of the intake, place of use, or type of use been changed? YES [ ] NO [XX]. Explain in "Remarks".
9. Did the source go dry? YES [ ] NO [XX]. If so, during what months? _____

STORAGE PROJECTS ONLY

10. Did your reservoir spill this year? YES [XX] NO[ ]. If not, how many feet below spillway vertically was the water level at maximum storage? _____ Have you emptied the reservoir? YES [ ] NO [XX]. If not, how many feet below spillway vertically was it drawn down at end of season? 4' Four Feet

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR PROJECT.

MUNICIPAL, COMMUNITY, OR SUBDIVISION PROJECTS ONLY

CONSERVATION OF WATER

11. How many service connections to date?_____ Total population served by the water system: _____
12. Estimated number of service connections under full use: _____
13. Are the connections individually metered; YES [ ] NO [ ].
14. Do you plan to meter the connections? YES [ ] NO [ ]. When? _____
15. Sewage generated by those to whom you deliver water is disposed of by: Septic tanks and leach lines [ ]; Seepage pits [ ]; Central treatment plan [ ] operated by _____; Other [ ] (specify under "Remarks").
16. Is water service provided to an area or subdivision including a recreational reservoir: YES [ ] NO[ ].
17. Name of area or subdivision so served: _____
18. State surface area at maximum water level in recreational reservoir(s) referred to in 16. Identify surface area(s) by name of dam or reservoir: _____
19. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ]; (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [ ]; (4) Other (describe in "Remarks") [ ].
20. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.), where applicable [ ]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ]; (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].
21. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [ ]; (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks") [ ].
22. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [ ]; (3) Other (describe in "Remarks") [ ].
23. Describe any water conservation efforts you may have started: _____
24. If credit toward beneficial use of water under this permit for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.): _____

WATER QUALITY AND WASTEWATER RECLAMATION

25. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: All disturbed areas in watershed have been reseeded and have adequate sod cover to prevent excess siltation.
26. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [XX]; (3) discharged into settling ponds [ ]; (4) other [ ]. Describe: _____
27. Does or will water being discharged contain waste materials? [ ] YES [XX] NO.
    (1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____
28. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? [ ] Yes [XX] No. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR PERMIT, PLEASE ANSWER IN REMARKS SECTION BELOW.

29. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? [ ] Yes [XX] No.

    If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show the amounts of reclaimed water used.
30. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? [ ] Yes [XX] No.
    If Yes, please describe: _____
31. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?
32. What is the current potential for reusing the appropriated water to satisfy part of your water needs?
33. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS (Identify the item you are explaining. Additional pages may be attached.)

RECEIVED
WRD - FT COLLINS

MARCH 0 8 1990

U.S. National Park Service
301 South Howes Street, Room 343
Fort Collins, CO 80521

APPLICATION 29021 PERMIT **20434**

Your water right permit is enclosed. The Board requires that you submit annual reports showing the progress you have made in the construction of your project or, if constructed, the use made under your permit which would qualify for licensing purposes. We will mail the forms to you when the reports are due.

Please note that, with respect to other rights attaching to this source, the priority of this right commences with the date of the application. Therefore, in time of water shortage, those with rights senior to yours can take their water first. Additional limitations on the diversion of water are specified by the terms of this permit. You should read the terms and conditions carefully so that you are familiar with your responsibilities as an appropriator of water under this entitlement.

After the project has been completed, an inspection will be made to determine the amount of water which has been placed to beneficial use within the terms of the permit. A license will then be issued confirming a right to that amount of water.

Please inform us of any change in address or ownership.

M. Lininger

M. Lininger

APPLICATION 29021 PERMIT 20434

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 21.0 acre-feet per annum to be collected from November 1 of each year to May 1 of the succeeding year. (0000005)

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose. (000005I)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)

7. Complete application of the water to the authorized use shall be made by December 31, 1993. (0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

Application 29021 **Permit** 20434

12. The total quantity of water diverted under this permit, together with that diverted under the permit issued pursuant to Application 25504, shall not exceed 42.6 acre-feet per annum. (0000114)

This permit is issued and permittee takes it **subject to the following provisions of the Water Code:**

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

NOTICE OF APPLICATION TO APPROPRIATE WATER

This is a renotice of the notice dated July 1, 1988. The original notice was not posted in accordance with California Water Code requirements. Protests submitted pursuant to the original notice need not be resubmitted unless amendments to the existing protest are desired.

APPLICATION 29021

Notice is hereby given that on May 5, 1987

U.S. National Park Service
301 South Howe Street, Room 335
Fort Collins, CO 80521

Applied to the State Water Resources Control Board for a permit to appropriate water, subject to vested rights. The Board has determined that the application is in compliance with Section 65943 of the Government Code.

DESCRIPTION OF PROJECT

The applicant seeks a right to store water behind an existing (constructed in 1977) 20 foot high dam forming a 42 acre-foot capacity onstream reservoir with a surface area of 3.6 acres. The applicant currently holds permitted Application 25504 for storage of 21.6 acre-feet per annum at the reservoir, Application 29021 is for storage of an additional 21 acre-feet per annum. Water collected to storage is used for the purposes listed below including the irrigation of 65 acres of pasture located within the following subdivisions of the Public Land Survey as shown on a map on file with State Water Resources Control Board:

10 acres within the NW¼ of the SE¼ Projected Section 23, T1N, R8W, MDB&M
10 acres within the SW¼ of the SE¼ Projected Section 23, T1N, R8W, MDB&M
25 acres within the SE¼ of the SE¼ Projected Section 23, T1N, R8W, MDB&M
20 acres within the NW¼ of the NE¼ Projected Section 26, T1N, R8W, MDB&M

The project is located approximately 1.5 miles northwest of Bolinas.

APPLICATION INFORMATION

Water to be appropriated from Unnamed Stream tributary to Pacific Ocean
Point of Diversion within NE¼ of SE¼ of Projected Section 23, T1N, R8W, MDB&M
In the County of Marin
Amount applied for: 21 ac-ft/ann
Water to be used for: Irrigation, domestic, stockwatering and recreational purposes
Diversion season named: November 1 to May 1

ENVIRONMENTAL INFORMATION

Based on a preliminary review of information provided by the applicant, the project does not appear to have the potential for causing a significant effect on the environment, and the State Water Resources Control Board staff proposes to exempt the project from the California Environmental Quality Act (CEQA). If you have information which indicates that the project should not be exempt from CEQA, please send this information to Mr. Ross Swenerton, State Water Resources Control Board, Division of Water Rights, P.O. Box 2000, Sacramento, CA 95810.

RELATIVE TO PROTESTS

Protests may be based on possible injury to vested rights or an allegation that the proposed appropriation would not be within the Board's jurisdiction, would not be in the public interest, would have an adverse environmental impact, would result in waste, unreasonable method of use, or unreasonable method of diversion, would impair public trust uses, or would be contrary to law. Any person desiring to protest the Board's issuance of a permit pursuant to this application shall within 40 days from date of issuance of this notice shown below (or within such further time as may, for good cause shown, be allowed) file a written protest with the State Water Resources Control Board, P. O. Box 2000, Sacramento, California 95810 in care of the contact person specified below. Protest forms will be furnished free of charge upon request. A copy of any protest shall be sent to the applicant.

CONTACT PERSON:

- For protest forms, call (916) 322-4503.
- For information regarding protests and time extensions, call Keith Hushka (916) 324-5662.
- For information regarding CEQA, call Ross Swenerton (916) 324-5639.

INSTRUCTIONS TO APPLICANT

SEPTEMBER 13 1988

APPLICATION(S): 29021

Your application(s) has been determined to be complete in accordance with Section 65943, Division 1, Title 7 of the California Government Code. Please note that you are not authorized to divert or develop the use of the water covered by this application(s) until a permit has been issued for the project.

The California Water Code requires that all water right applications be noticed to the public. To accomplish this, you must do the following:

1. Post notices of your application(s) as soon as possible in two conspicuous locations near your project. Copies of the notice are included for this purpose. THESE NOTICES MUST BE POSTED BY OCTOBER 3, 1988.

2. The person who posts the notice must complete the attached form entitled "Statement of Proof of Posting." THE PROOF OF POSTING MUST BE FILED WITH THIS OFFICE BY OCTOBER 24, 1988. Do not detach the copy of the notice from the statement.

The State Water Resources Control Board may cancel your application(s) if you fail to mail a copy of the Statement of Proof of Posting prior to the required date.

Water right notices are designed for the mutual protection of the applicant and other parties claiming prior rights. Although vested rights to the use of water from the source from which an appropriation is sought cannot be lost, prejudiced, or impaired by failure to protest an application, known claimants to prior rights have been given this notice so that they may protest if they believe the proposed appropriation(s) will result in injury to them.

All parties filing a protest against this application(s) should furnish you, as well as this office, a copy of their protest. We will then notify you which protests are accepted and provide instructions for answering them.

Memorandum

To: Superintendent, Point Reyes National Seashore

From: Acting Chief, Water Resources Division

Subject: Posting of Notice of Application to Appropriate Water for the Niman Reservoir, Application #29021

This memo is to request your assistance in helping to complete proper appropriation of water under Application #29021, enlargement of the Niman Reservoir. Within the next two to three weeks you should be receiving a package from the California State Water Resources Control Board, Division of Water Rights. Because the material is time sensitive we have asked that the material be sent directly to the park with copies to our offices.

The package should consist of copies of a Notice of Application to Appropriate Water, a Statement of Posting Notice and an instruction sheet. Two of the Notices of Application to Appropriate Water are to be posted in conspicuous locations, possibly on telephone poles or trees, near the reservoir site. This must be done by the date given on the instruction sheet, approximately ten days from the date the Notice is issued. The person that posts the Notices should then complete the Statement of Posting Notice and return it to the State Water Resources Control Board by the date given on the instruction sheet, about a month from the date the Notice is issued.

We would appreciate your sending us copies of the completed Statement of Posting Notice. Thank you for your timely assistance with this matter. If you have any questions please contact Beth Voelkel of my staff at (303) 221-8323.

ADDRESS ~~Pat's R. Box~~ P.O. Box 2000

Sacramento, CA 95810

TELEPHONE NO. (916) 324-5662 EXT.

SUBJECTS DISCUSSED I explained that the Posting was never done. He said that they would need to re-issue the notice because it must be posted within 10 days. Then, within 30 more days (40 days total) the Notice of Posting must be completed and returned to the State.

To save mail time I suggested that the Notice be sent directly to the Superintendent with a copy to me (I told him I am now the contact rather than Pat Larson). He said that would be no problem.

I will write the Supt. this week to let him know to be expecting the information.

a. The point of diversion will be in the County of MARIN

b.

List all points giving coordinate distances from section corner or other tie as allowed by Board regulations	Point is within (40-acre Subdivision)	Section	Township	Range	Base and Meridan
N. 2000' AND W. 1000' from SE CORNER OF PROT. SECTION 23	NE ¼ of ~~SW~~ SE ¼	23	1N	8W	MD
	¼ of ¼				
	¼ of ¼				

c. Does applicant own the land at the point of diversion? YES ☒ NO ☐.

d. If applicant does not own land at point of diversion, state name and address of owner and state what steps have been taken to obtain right of access:

4. PURPOSE of USE, AMOUNT and SEASON

a. State the purpose(s) for which water is to be appropriated, the amounts of water for each purpose and dates between which diversions will be made in the table below. Use gallons per day if rate is less than 0.025 cubic feet per second (approximately 16,000 gallons per day).

PURPOSE OF USE	DIRECT DIVERSION				STORAGE		
	AMOUNT		SEASON OF DIVERSION		AMOUNT	COLLECTION SEASON	
	RATE (Cubic feet per second or gallons per day)	Acre-feet per year	Beginning Date (Mo. & Day)	Ending Date (Mo. & Day)	Acre-feet per year	Beginning Date (Mo. & Day)	Ending Date (Mo. & Day)
Irrigation					21	NOV 1	MAY 1
Domestic							
Stockwatering							
Recreational							
	_____ (TOTAL)				21 (TOTAL)		

b. Total combined amount taken by direct diversion and storage during any one year will be 21 acre-feet.

5-1-87
$100.00

WR 1 (1/86)

JUSTIFICATION OF AMOUNT

a. IRRIGATION: Maximum acreage to be irrigated in any one year will be 65 acres.

CROP	ACRES	METHOD OF IRRIGATION (Sprinklers, flooding, etc.)	ACRE-FEET (per year)	NORMAL SEASON	
				Beginning Date	Ending Date
PASTURE	65	SPRINKLERS	30	MAY 1	NOV 1

b. DOMESTIC: The number of residences to be served 3. Separately owned: YES ☐ NO ☒
The total number of people to be served 10. Estimated daily use per person 100 (gallons per day).
The total area of domestic lawns and gardens 150,000 (square feet).
Miscellaneous domestic uses DUST CONTROL, FEEDLOT, MUSHROOM FARM
(Dust control area. Number and kind of domestic animals, etc.)

c. STOCKWATERING: Kind of Stock CATTLE. Maximum Number 350. Describe type of operation (feed lot, dairy, range, etc.)
RANGE CATTLE, FEEDLOT, GROWING PENS

d. RECREATIONAL: Type of recreation: Fishing ☑, Swimming ☑, Boating ☐, Other ☐.
(Submit "Supplement to Application", form SWRCB 1-1, for justification of amount for uses not listed above.)

DIVERSION WORK

a. Diversion will be by pumping from ON STREAM EARTH DAM Pump discharge rate _____. Horsepower 1 ½ Domestic 1± Irrigation
(sump, offset well, channel, reservoir, etc.) (cfs/gpd)

b. Diversion will be by gravity by means of EARTH FILL DAM
(pipe in unobstructed channel, pipe through dam, siphon, gate, etc.)

c. Estimated total cost of the diversion works proposed is _____
(Give only cost of intake, or headworks, pumps, storage reservoirs, and main conduits.)

d. Main conduit from diversion point to first lateral or offstream storage reservoir:

CONDUIT (Pipe or channel)	MATERIAL (Kind of Pipe or channel lining)	CROSS SECTIONAL DIMENSION (Pipe diameter or ditch depth and top and bottom width	LENGTH (feet)	TOTAL LIFT OR FALL		CAPACITY (estimated)
				(feet)	(+ or −)	
	NONE					

e. The following applies to storage reservoirs: (For reservoirs having a capacity of 25 acre-feet or more, complete supplemental form SWRCB 1-1,

Name or number of reservoir, if any	DAM				RESERVOIR		
	Height of dam from streambed to spillway level (ft.)	Material construction	Dam Length (ft.)	Freeboard Dam height above spillway crest (ft.)	Approximate surface area when full (acres)	Approximate capacity (acre-feet)	Max. water depth
	20	EARTH	390	4	3.6	42	21

f. If water will be stored and the reservoir is not at the diversion point, the maximum rate of diversion to offstream storage will be _____ cfs.
Diversion to offstream storage will be amde by pumping ☐; gravity ☐.

PLACE OF USE

a. Applicant owns the land where the water will be used: YES ☑ NO ☐. Land is in joint ownership: YES ☐ NO ☒.
All joint owners should include their names as applicants and sign the application. If applicant does not own land where the water will be used, give name and address of owner and state what arrangements have been made with the owner.

USE IS WITHIN (40-acre Subdivision)	SECTION	TOWNSHIP	RANGE	BASE AND MERIDIAN	IF IRRIGATION	
					State Number of Acres	Presently cultivated (Yes or No)
NW ¼ of SE ¼	23	1N	8W	MD	10	NO
SW ¼ of SE ¼	23	1N	8W	MD	10	NO
SE ¼ of SE ¼	23	1N	8W	MD	25	NO
NW ¼ of NE ¼	26	1N	8W	MD	20	NO
¼ of ¼						
¼ of ¼						

* PROJECTED USE

If area is unsurveyed, state the location as if lines of the public land survey were projected. If space does not permit listing all 40-acre tracts, include on another sheet or state sections, townships and ranges, and show detail on map. For public districts or other extremely large areas, see Page 16 of instruction booklet "How to File an Application to Appropriate Water in California".

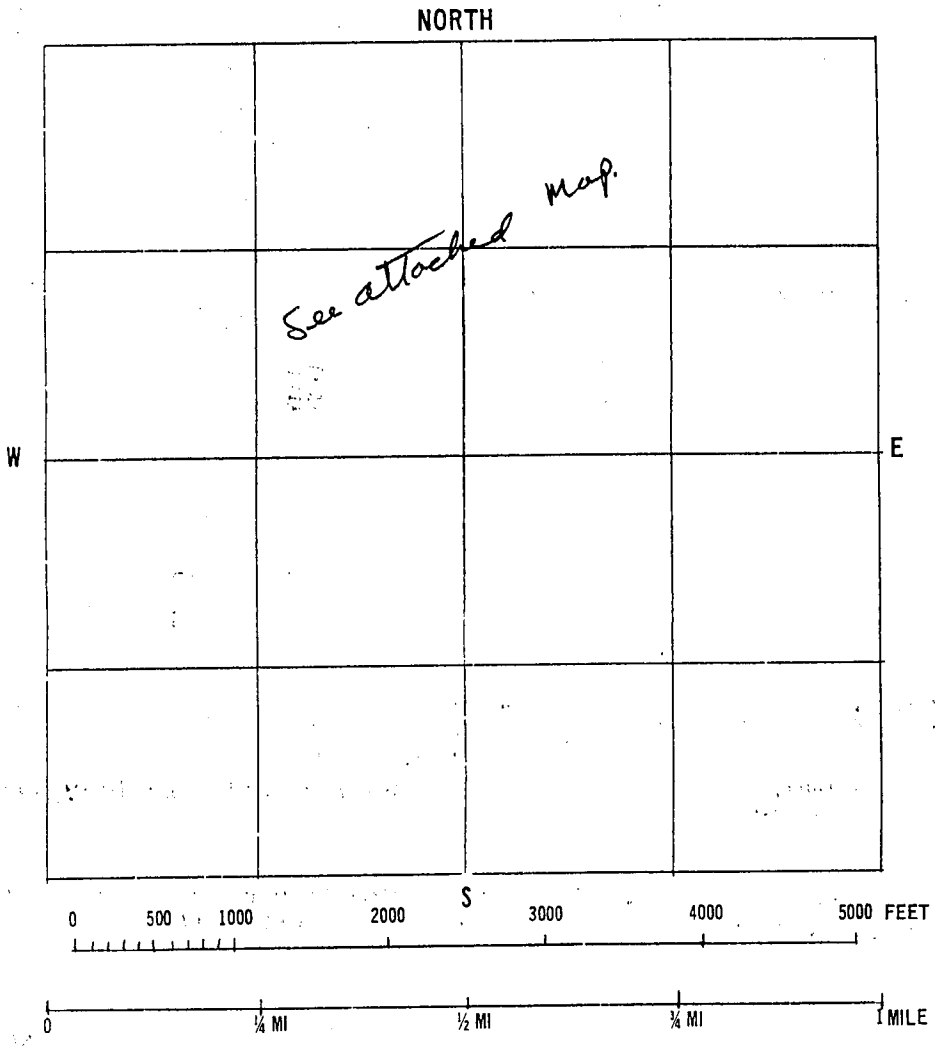

COMPLETION SCHEDULE

a. What year will work start 1977? b. What year will work be completed 1977?
c. What year will water be used to the full extent intended 1987? d. If complete, year of completion 1977?

EARTH DAM COMPLETED IN 1977
IRRIGATION WORKS TO BE INSTALLED IN 1987

3. Application Map (Please complete legibly, with as much detail as possible)
(See example in instruction booklet)

SECTION(S) 23 TOWNSHIP 1N ; RANGE 8W ; MD B&M

(1) Show location of the spring or stream, and give name,
(2) Show location of the main ditch or pipe line.
(3) Indicate clearly the proposed place of use of the water.
(4) Locate and describe the point of diversion (i.e., the point at which water is to be taken from the stream or spring) in the following way: Begin at the most convenient known corner of the public land survey, such as a section or quarter section corner (If on unsurveyed land more than two miles from a section corner, begin at a mark or some natural object or permanent monument that can be readily found and recognized) and measure directly north or south until opposite the point which it is desired to locate; then measure directly east or west to the desired point. Show these distances in figures on the map as shown in the instructions.

4. Environmental Information

An Environmental Information form provided by the State Water Resources Control Board should be completed and attached to this application.

APPLICATION NO. 29021

SUPPLEMENT TO APPLICATION

(This supplement is required for uses other than irrigation, domestic, stockwatering, and recreation and for surface storage of 25 acre-feet or more.)

5. JUSTIFICATION of AMOUNT

e. MUNICIPAL: Estimated projected use:

POPULATION 5-year periods until use is completed		MAXIMUM MONTH		ANNUAL USE		
PERIOD	POP.	Average daily use per capita (gal.)	Rate of Diversion (cfs)	Average daily use (gal. per capita)	Acre-foot (per capita)	Total Acre-feet
Present						
19						
19						
19						
19						

Month of maximum use during year _____. Month of minimum use during year _____.

Is it planned to individually meter each service connection? YES ☐ NO ☐. If so, when? _____

f. HEAT CONTROL: The total area of heat protection is _____ (net acreage) acres. Type of crop protected _____

Rate at which water is applied to use: _____ (gpm) (cfs) (circle one)

The heat protection season will begin about _____ (beginning date) and end about _____ (ending date).

g. FROST PROTECTION: The total area of frost protection is _____ (net acreage) acres. Type of crop protected _____.

Rate at which water is applied to use: _____ (gpm) (cfs) (circle one)

The frost protection season will begin about _____ (beginning date) and end about _____ (ending date).

h. INDUSTRIAL USE: Type of industry _____

Basis of determination of amount of water needed _____

i. MINING: The name of the mine is _____ (name of claim). Patented ☐ or Unpatented ☐.

The nature of the mine is _____. Mineral to be mined is _____.

Type of milling or processing _____.

After use, the water will be discharged into _____ (name of stream)

in _____ (state 40-acre subdivision) of Sec. ____, T____, R____, ____ B.&M.

j. POWER USE: The total fall to be utilized is _____ feet. The maximum amount of water to be used through the penstock is _____ cubic feet per second. The maximum theoretical horsepower capable of being generated by the works is _____ (cubic feet per second x fall ÷ 8.8)

The use to which power is to be applied is _____ (for distribution and sale or private use, etc.). The nature of the works by means of which power is to be developed is _____ (Turbine, Pelton wheel, etc.). The size of the nozzle to be used is _____ inches.

After use, the water will be discharged into _____ (name of stream) in _____ (state 40-acre subdivision) of Sec. ____, T____, R____, ____ B.&M.

k. OTHER: Describe use: _____. Basis of determination of amount of water needed: _____

6. DIVERSION WORKS (Storage Reservoirs)

The following applies to storage reservoirs having a capacity of 25 acre-feet or more:

Diameter of outlet pipe (inches)	Length of outlet pipe (feet)	Vertical distance between entrance and exit of outlet pipe (feet) Fall	Vertical distance from spillway to outlet pipe in reservoir (feet) Head	Estimated storage below outlet pipe entrance (Dead storage)
8"	150'	5	17	3-5 AF

TACH SUPPLEMENTAL SHEETS HERE

9. GENERAL

a. What is the name of the post office most used by those living near the proposed point of diversion? BOLINAS

EGM per CR 3/31/87

b. Does any part of the place of use comprise a subdivision on file with the State Department of Real Estate? YES ☒ NO ☒. If Yes, state name of subdivision _____ If No, is subdivision of these lands contemplated? YES ☐ NO ☒.
Is it planned to individually meter each service connection? YES ☐ NO ☐. If Yes, when? _____

c. Have you consulted the California Department of Fish and Game concerning this proposed project? YES ☒ NO ☐. If Yes, state the Department's opinion concerning the potential effects of your proposed project on fish and other wildlife and state measures required for mitigation NO EFFECTS

If No, state the effects on fish and other wildlife you foresee as potentially arising from your proposed project. NONE - ONLY POSITIVE

d. Please name other public agencies, if any, from which you have obtained or are required to obtain approvals regarding this project: COUNTY OF MARIN, CAL COASTAL COMMISSION, SOIL CONSERVATION SERVICE

e. What are the names and addresses of diverters of water from the source of supply downstream from the proposed point of diversion? NONE

f. Is the source used for navigation, including use by pleasure boats, for a significant part of each year at the point of diversion, or does the source substantially contribute to a waterway which is used for navigation, including use by pleasure boats? NO.

10. EXISTING WATER RIGHT

Do you claim an existing right for the use of all or part of the water sought by this application? YES ☐ NO ☒

If yes, complete table below APPLICATION 25504 IS FOR 21 ACRE FEET — THIS APPLICATION IS FOR ADDITIONAL 21 ACRE FEET OR EXCESS CAPACITY

Nature of Rights (riparian, appropriative, groundwater.)	Year of First Use	Purpose of use made in recent years including amount, if known	Season of Use	Source	Location of Point of Diversion
APPROPRIATIVE	1978	10 ACRE FEET, DOMESTIC	YR Rd.	UNNAMED STREAM	EARTH DAM
		STOCKWATER, MUSHROOM FARM DUST CONTROL LANDSCAPE	SEASON OF COLLECTION NOV-MAY		

11. AUTHORIZED AGENT (Optional)

NOTICE OF FAILURE TO FILE PROOF OF POSTING OR OF PUBLICATION

This will advise you that to date the required evidence of posting or publishing of notice of your water right application has not been received. Refer to the instructions below.

- -

/ / The affidavit of publication of the notice of your application has not been received. **Copies of this notice were mailed to you on**

If the notice has been published as instructed in the letter sent with the notice, you should contact the publisher and have him complete the affidavit of publication and **return it to the Board immediately.**

- -

/X/ The Statement of Posting Notice relating to your application has not been received. **Copies of this notice were mailed to you on** July 1, 1988.

The person who posted the notice should complete the statement and **return it to the Board immediately.**

- -

/ / You did not post the notice of application to appropriate water within the required 20-day period.

Therefore, three copies of a notice of your application bearing a new date, together with a statement of posting form, are enclosed.

You are directed to post copies of the notice on or before in at least two conspicuous places near your project. You must file with this office proof of such posting by

Pursuant to Article 2, Section 1324 of the California Water Code, the State Water Resources Control Board may cancel your application for failure to file proof of posting with this office within the stated time.

JULY 01 1988

INSTRUCTIONS TO APPLICANT

APPLICATION(S): 29021

Your application(s) has been determined to be complete in accordance with Section 65943, Division 1, Title 7 of the California Government Code. Please note that you are not authorized to divert or develop the use of the water covered by this application(s) until a permit has been issued for the project.

The California Water Code requires that all water right applications be noticed to the public. To accomplish this, you must do the following:

1. Post notices of your application(s) as soon as possible in two conspicuous locations near your project. Copies of the notice are included for this purpose. THESE NOTICES MUST BE POSTED BY JULY 21, 1988.

2. The person who posts the notice must complete the attached form entitled "Statement of Proof of Posting." THE PROOF OF POSTING MUST BE FILED WITH THIS OFFICE BY AUGUST 10, 1988. Do not detach the copy of the notice from the statement.

The State Water Resources Control Board may cancel your application(s) if you fail to mail a copy of the Statement of Proof of Posting prior to the required date.

Water right notices are designed for the mutual protection of the applicant and other parties claiming prior rights. Although vested rights to the use of water from the source from which an appropriation is sought cannot be lost, prejudiced, or impaired by failure to protest an application, known claimants to prior rights have been given this notice so that they may protest if they believe the proposed appropriations(s) will result in injury to them.

All parties filing a protest against this application(s) should furnish you, as well as this office, a copy of their protest. We will then notify you which protests are accepted and provide instructions for answering them.

APPLICATION TO APPROPRIATE WATER FROM Unnamed Stream trib to Pacific Ocean

Your application has been assigned number 29021.

You will be notified if additional information is required to complete the application. A permit authorizing diversion of water can be issued only after completion of the application, noticing, protest resolution and environmental review. You should not commence construction or diversion of water until a permit is issued.

Continued processing of the application is subject to payment of the additional fee now due, if any, as shown below.

FEE SCHEDULE

All applications for direct diversion except for power purposes, for each cubic foot per second (cfs) or fractional cfs:

from 0 to 100 cfs	_____	cfs @ $10.00 each	$ 0
over 100 to 500 cfs	_____	cfs @ $12.00 each	_____
over 500 to 2,000 cfs	_____	cfs @ $15.00 each	_____
over 2,000 cfs	_____	cfs @ $20.00 each	_____

Direct diversion for major power facilities at $2.00 for each 100 theoretical horsepower or fraction thereof:

_____ theoretical horsepower $ 0

For each acre-foot per annum (afa) or fractional afa of storage:

from 0 to 1,000 afa	21	afa @ $0.10 each	$ 2.10
over 1,000 to 5,000 afa	_____	afa @ $0.12 each	_____
over 5,000 to 100,000 afa	_____	afa @ $0.15 each	_____
over 100,000 afa	_____	afa @ $0.20 each	_____

Total Filing Fee ($100 minimum)	$ 100.00
Filing Fee Submitted	100.00
ADDITIONAL FEE NOW DUE	$ 0

The additional fee, if any, is now due and payable. In accordance with Water Code Section 1527 this application will be rejected if the amount due is not received within 30 calendar days of the date of this notice. If you have any questions, please call Edward G. McCarthy at (916) 324- 5743

Sent the fee

Dear Mr. Witucki:

APPLICATION 29021, ENVIRONMENTAL INFORMATION SUPPLEMENT

The Environmental Assessment Section of the Division of Water Rights is now using a new supplemental application form for submittal of environmental information by applicants seeking a water right permit. Three copies of the supplemental forms of the required environmental information are enclosed. Please fill out two copies of the new form and return them as soon as possible to the address given at the top of the form. Please answer all questions completely. Failure to answer all questions may result in your application being returned to you for completion, causing delay in processing your permit.

If you have any questions, concerning completing this supplemental form, please call me at the above number.

Sincerely,

Edward G. McCarthy

APPLICATION TO APPROPRIATE WATER ENVIRONMENTAL INFORMATION

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. _____
(leave blank)

The following information will aid in the environmental review of your application as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your application being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

PROJECT DESCRIPTION

1. Provide a brief description of your project, including but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated and project operation.

This project consists of a forty plus acre foot resevoir used for residential, livestock watering, irrigation, and other miscelaneous ranch activities including fire protection. It is an earth filled dam constructed in 1977 (see attached document) and in continuous use ever since. The resevoir provides potable water for three residences as well as necessary stock water for cattle being grazed on approximately 1,000 surrounding acres. It also provides dust control and drinking water for a cattle feed lot and domestic uses around the three residences. An additional use now being implemented is for irrigation for four small pastures totalling approximately forty acres. Irrigation will be accomplished by pumping and sprinklers.

GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your water right application, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions are to aid us in that determination.

2. Contact your county planning or public works department for the following information:
   (a) Assessor's Parcel No. 788-170-03
   (b) County Zoning Designation C-APZ-60
   (c) Will the county have to issue any permits or approvals for your project? No If yes, check appropriate spaces below: _____ Grading Permit, _____ Use Permit, _____ Watercourse Obstruction Permit, _____ Change of Zoning, _____ General Plan Change, _____ Other: _____
   (d) If any permits have been obtained list permit type and permit number: dam permit # 77-10
   (e) Person contacted John Wooley - Date of contact 8/24/87
   Department of Public Works Telephone (415) 499-6549

3. Are any additional state or federal permits required for your project? (i.e., Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.)
   For each agency from which a permit is required provide the following information:
   Permit type Coastal - No
   Person contacted Debby Poiani Agency Planning Department
   Date of contact 8/24/87 Telephone (415) 499-6269

4. Has your agency, if it is a public agency, or any permitting agency prepared any environmental documents for your project? Yes
   If so, you must submit a copy of the latest environmental document with this application, including a copy of the notice of determination.
   If not, will any environmental documents be prepared by any permitting agency, or will you be preparing environmental documents for your project? _____ If so, explain: _____

   Note: When completed, the final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your water right application cannot proceed until such documents are submitted.

5. Will your project, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? None If so, explain: _____

   If you answered yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):
   Will a waste discharge permit be required for your project? _____
   Person contacted _____ Date of contact _____
   What method of treatment and disposal will be used? _____

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? No

Do you know of any archeological or historic sites located within the general project area? No If so, explain:

ENVIRONMENTAL SETTING

7(a) Describe the current land use of the area at the point of water diversion, immediately downstream of the diversion, and at the place where the water is to be used. Attach photographs of these areas. Date and label photos.
Point of diversion: Residential and livestock grazing

Downstream of diversion: Livestock grazing

Place of use: Flatlands imme diately ajacent to the resevoir.

(b) Describe the types of existing vegetation at the point of diversion, immediately downstream of the point of diversion, and at the place where the water is to be used. These vegetation types should be shown in the photographs submitted.
Point of diversion: See photos.

Downstream of diversion:

Place of Use: Coastal grasslands

8. What changes in the project site and surrounding area will occur or are likely to occur because of construction and operation of your project? Include in your answer such things as approximate number and size/age of trees to be removed or areas of vegetation/brush removal; area or extent of streambed alteration, trenching, grading, excavation, plowing, or road, dam or building construction; etc. Consider all aspects of your project, including diversion structure, pipelines or ditches, water use, and changes at the place of use.
Pump station - ten horse/three phase electric adjacent to pond - power supply underground from existing service near pond. All components of irrigation system will be permanent underground installations consisting of four inch pvc pipe, except above ground portable sprinkler heads. Area to be irrigated consists of approximately forty flat acres cross fenced into four parcels.

FISH AND WILDLIFE CONCERNS

Contact your regional office of the State Department of Fish and Game (DFG) to obtain the information requested in questions 9 through 17 (see page 6 for address and telephone number):

9. Person contacted Bill Cox

   Date of contact 9/16/87 Telephone (707) 823-1001

10. According to the DFG representative, when did or when will a DFG representative visit the project site area? No plans to inspect site.

    What is the name of the DFG representative who made or will make the inspection of the project site area? n/a

11. According to the DFG representative, will this project require a Streambed Alteration Agreement? No

12. According to the DFG representative, do any resident or migratory game or non-game fish species occur in the affected stream? No

    If so, what species? N/a

    What season of the year do they occur in the stream? n/a

13. According to the DFG representative, do any plants or animals which are (1)federally identified as candidate, threatened, or endangered; (2)state listed as rare, threatened, or endangered; or (3)listed by the DFG Natural Diversity Data Base, occur in the project area? Yes

    Will they be impacted in any way by the project? No

    If so, identify the species and explain how they will be impacted:

    (Arctostaphylos Virgata, Alopecurus Aequalis)

    No impact.

14. Does the DFG representative expect that your project will have an adverse effect on any resident or migratory fish populations, any wildlife populations, or any rare or endangered plant or animal species? No If so, explain:

15. What measures relating to your project have been proposed by the DFG representative to protect fish, wildlife or endangered or rare species: None

16. Will you make changes in your project as recommended by DFG? None

If not, explain: n/a

17. If your application lists wildlife enhancement as a proposed use, what specific species or habitat type will be enhanced? n/a

According to the DFG representative, does your proposed project utilize a sound technique for the purpose of wildlife enhancement?
Yes

EXISTING STORAGE OR DIVERSIONS

If you currently have an interest in any other water projects which store or divert water and this application requests additional water from the same watershed, answer the following additional question for each project:

18. Does the project have fish and wildlife protection requirements?_____
If so, list the permit number and specific protection requirements for each project: Minimum flow will remain the same as has been since construction.

CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Re: Your Application #25504

Gentlemen:

We have received your Notice of Application #25504 by William Niman and Orville Schell to appropriate water from an unnamed stream in Bolinas. In your Notice it states that Marin County will act as the lead agency, pursuant to the California Environmental Quality Act (CEQA), and will be responsible for preparation of appropriate documents and determining whether or not the proposed action will have a significant effect on the environment.

On August 23, 1977, the Marin County Board of Supervisors granted an exemption from the requirements of CEQA since they considered the dam to be an emergency project. A Notice of Exemption was filed with the Marin County Clerk (copy attached) and this completes our environmental review of the project.

On September 2, 1977, we issued Dam Permit D-77-10 for the construction of the dam.

If you have any questions, please contact the undersigned at extension 2963.

Very truly yours,

RONALD F. CROUT
Assistant Land Development Engineer

Permit No. D-77-10
Area Bolinas

COUNTY OF MARIN
DEPARTMENT OF PUBLIC WORKS

DAM PERMIT

San Rafael, California

TO: William Niman
P. O. Box 56
Bolinas, CA 94924

September 2 19 77

In compliance with your request of August 10, 1977 and subject to all of the terms, conditions and restrictions specified or printed as general or special provisions on any part of this form

PERMISSION IS HEREBY GRANTED TO: construct a 22-foot high earth dam on Assessor's Parcel No. 188-170-17 in accordance with submitted plans entitled "Niman-Schell Dam, Drawing Nos. 7727-01 and 7727-02" dated 8/9/77 by Bale & Strandgaard, Registered Civil Engineers.

All work to be done in accordance with attached General Provisions and/or the following Special Condition(s):

1. Construction shall conform to Construction Specifications No. 378 of U. S. Soil Conservation Service.
2. All modifications to the plans as submitted shall be approved by Marin County Department of Public Works prior to construction.
3. The maximum slope of the spillway area indicated in red on the approved plan dated 8/9/77 shall be 2%.
4. The spillway channel shall be continued down slope to a point intersecting the existing drainage way as shown in red on the approved plan dated 8/9/77.

THIS PERMIT IS TO BE STRICTLY CONSTRUED AND NO WORK OTHER THAN THAT SPECIFICALLY MENTIONED ABOVE IS AUTHORIZED HEREBY.

THIS PERMIT SHALL BE VOID IF WORK HAS NOT COMMENCED BEFORE September 30, 1977
AND IS NOT COMPLETED BY December 30, 1977.

PLEASE RETURN ATTACHED CARD UPON COMPLETION OF WORK.

GRANT DEED

William E. Niman, a single man, an undivided 1/2 interest and Orville H. Schell, a single man, an undivided 1/2 interest, GRANTOR(S), In consideration of One Million One Hundred Forty One Thousand Two Hundred Seventy and no/100ths ($1,141,270.00) DOLLARS, receipt of which is hereby acknowledged, do(es) hereby grant to the UNITED STATES OF AMERICA and its assigns, the following described property located in the County of MARIN, State of CALIFORNIA, containing 206.05 acres, more or less; to wit:

and MICHAEL M. GOODMAN & MARJORIE J. GOODMAN, Husband and Wife

See Exhibit "A" attached hereto and made a part hereof.

TOGETHER WITH all buildings and improvements thereon and all water rights appurtenant thereto and all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in any wise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

FOR THE NATIONAL PARK SERVICE

The grantor covenants and agrees to convey to the United States of America the fee simple title to the above-described land subject to existing easements for public roads and highways, public utilities, railroads, and pipelines; and subject to the following outstanding rights in third parties:

See Exhibit "B" attached hereto and made a part hereof.

RESERVING, HOWEVER, unto Grantor(s), their assigns and successors in interest, the right to use and occupy 206.05 acres of the property described in Exhibit "A", together with the improvements situated thereon, for the purpose of pasturing beef cattle, horses or sheep and for single family noncommercial residential purposes for a period of life tenure (termination on the death of the last survivor of the Vendors) subject to the terms and conditions and restrictions in Exhibits "C", "D", and "E" attached hereto; commencing upon conveyance of title to said property to the United States.

TO HAVE AND TO HOLD the same unto said UNITED STATES OF AMERICA and its assigns, forever.

The Grantor(s) further remise(s), release(s), and forever quitclaim(s) to the UNITED STATES OF AMERICA and its assigns, all right, title, and interest which the Grantor may have in the banks, beds, and waters of any streams bordering or any appropriative water rights appurtenant to the said lands hereby

84058580

conveyed and also all interest in any alleys, roads, streets, ways, strips, gores, or railroad rights-of-way abutting, adjoining, or appurtenant to said land and in any means of ingress or egress appurtenant thereto.

EXECUTED this 19 day of December, 1984.

Memorandum

To: Superintendent, Point Reyes National Seashore

From: Chief, Water Rights Branch

Subject: California State Water Resources Control Board Progress Reports and Reports of Licensee

We have reviewed the thirteen reports of licensee and one progress report by permittee (attached) mailed to us in a letter dated October 6, 1997. There is missing information or discrepancies in all of the reports between the authorized beneficial purposes and the reported water uses. Before we can finalize the reports and sign them, we would like your assistance in clarifying these discrepancies. Please review our comments below and return the completed reports and/or call Bill Hansen, of my staff, at (970) 225-3532 to discuss the need for filing change applications so we are in compliance with the conditions of each permit.

Our concerns are listed below and referenced by application and permit number:

Application A029021, Permit 020434, Use of Water (5): Has use of water commenced? If so, is any irrigation use and/or recreational use occurring?

Application A021954, Permit 009630: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If this water is being used for domestic purposes we are in non-compliance with the permit and should file a change application to add domestic use. No Use

Application A019955, Permit 007931: What type of recreational use is occurring (i.e., fishing, boating, etc.)? 2

Application A019953, Permit 007929: There is a conflict between the authorized purposes which are domestic, recreational, and stockwatering and the actual uses shown on page 2. Is this water is being used for domestic purposes? If not, will it be in the future or should we file a change application to subtract domestic use? What type of recreational use is occurring (i.e., fishing, boating, etc.)?

Application A019952, Permit 007928: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If recreational use is occurring we should file a change application. If it is not, we should not show this use on page 2.

Application A019951, Permit 007927: Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A019950, Permit 007926: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. Is there actually 280 acres being irrigated, or was it intended to show 280 head of stock being watered. If irrigation is occurring we are in non-compliance with our permit. Is recreational use occurring? If so, what kind. If these discrepancies are real we will need to file a change application.

Application A020021, Permit 007941: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A020022, Permit 007942: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A021277, Permit 009049: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit. Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A013473, Permit 003827: Are uses occurring in November, December, January, and February? Is irrigation occurring? If not, should we file a change application to be in compliance with our permit?

Application A013322, Permit 003800: Does use occur in January? There is a conflict between the authorized purposes which are domestic and industrial and the actual uses shown on page 2. It appears that the purpose should be changed to stockwatering since this is a beef cattle operation. Was this water used at one time for a dairy operation and the original permittee issued for industrial uses associated with dairy farming?

Application A017417, Permit 006748: There is a conflict between the authorized purpose which is recreational and the actual uses shown on page 2. If horses are being watered we are in non-compliance with our permit and should either discontinue stockwatering or file a change application to add stockwatering. ~ May need change application

Application A019954, Permit 007930: What types of recreational use are occurring?

---------- Message Contents ----------

I spoke with SWRCB License Chief Shige Okada today regarding the withdrawn water right for Bill Niman. According to Mr. Okada, they are willing to proceed with licensing with a change in appropriated use. There is nothing we need do at this time. SWRCB will send an engineer to inspect the project in the summer of 1997 and issue a license for the other uses (recreation and stock watering)less irrigation.

11-22-1989: memorandum to procurement agent from hydrologist regarding invoice for purchase order

November 22, 1989

L54(479)
PORE/Water Rights

Memorandum

To: Shannon Cox, Procurement Agent, Rocky Mountain Regional Office

From: Jeff Hughes, Hydrologist, Water Rights Branch

Subject: Invoice for Purchase Order PX-1299-0-0570

As per our telephone conversation today, I am sending the enclosed letters from the California Water Resources Control Board, requesting payment of a $100.00 permit feed. Because the California Water Resources Control Board does not provide invoices, I am sending the attached in lieu of a standard invoice. I hope this will expedite the payment process.

If you have any questions, please call me at (303) 221-8329.

52.232-1	Payments (Apr 84)
52.232-8	Discounts for Prompt Payment (July 85)
52.233-1	Disputes (Apr 84)
52.243-1	Changes—Fixed Price (Aug 87)
52.249-1	Termination for Convenience of the Government (Fixed Price) (Short Form) (Apr 84)

NOTE—If desired, this order (or a copy thereof) may be used by the Contractor as the Contractor's invoice, instead of a separate invoice, provided the following statement, (signed and dated) is on (or attached to) the order, "Payment is requested in the amount of $ _____. No other invoice will be submitted." However, if the Contractor wishes to submit an invoice, the following information must be provided: contract number (if any), order number, item number(s), description of supplies or services, sizes, quantities, unit prices and extended totals. Prepaid shipping costs will be indicated as a separate item on the invoice. Where shipping costs exceed $10 (except for parcel post), the billing must be supported by a bill of lading or receipt. When several orders are invoiced to an ordering activity during the same billing period, consolidated periodic billings are encouraged.

05-02-1988: memorandum to western regional office from water rights branch regarding environmental information supplement, water right application 29021, pore

May 2, 1988

L54(479)
WR/PORE AMR #12

Memorandum

To: Associate Regional Director
Resource Management and Planning
Western Regional Office

From: Acting Chief
Water Rights Branch

Subject: Environmental Information Supplement, Water Right Application 29021, Point Reyes National Seashore

Attached are the Environmental Information Supplement and accompanying documents for transmittal to the State Water Resources Control Board. The State requires the information prior to issuing an applicant a water right. We have supplied the original and three copies for transmittal. One copy should be retained for the Region's files. We've also included a draft transmittal letter to the State for your consideration and signature. Please send a copy of the transmittal letter to the Water Rights Branch when the package is sent to the State.

The attached information concerns improvements made on land the National Park Service acquired in 1984 for Point Reyes National Seashore. William Niman retains the right to live on the land and operate a cattle ranch. The improvements are for installation of irrigation equipment to maintain cattle pastures. All improvements comply with the agreement between the National Park Service and Mr. Niman.

If you have any further questions or require additional information regarding this matter, please contact me or Ms. Pat Larson of the Water Rights Branch in Fort Collins, Colorado, at (303) 221-5341.

Re: Water Right Application 29021

Dear Mr. Hushka:

Enclosed are the Environmental Information Supplement and accompanying documents for Water Right Application 29021. We apologize for the delays in transmitting this information and we appreciate your cooperation in this matter.

Staff of the National Park Service's Water Resources Division coordinated the preparation of these documents. If you have questions or require additional information regarding this matter, please contact me or Ms. Pat Larson of the Water Rights Branch in Fort Collins, Colorado, at (303) 221-5341.

Sincerely,

John D. Cherry

Dear Mr. Witucki:

APPLICATION 29021, ENVIRONMENTAL INFORMATION SUPPLEMENT

The Environmental Assessment Section of the Division of Water Rights is now using a new supplemental application form for submittal of environmental information by applicants seeking a water right permit. Three copies of the supplemental forms of the required environmental information are enclosed. Please fill out two copies of the new form and return them as soon as possible to the address given at the top of the form. Please answer all questions completely. Failure to answer all questions may result in your application being returned to you for completion, causing delay in processing your permit.

If you have any questions, concerning completing this supplemental form, please call me at the above number.

Sincerely,

Edward D McCarthy

REMARKS

John,
as per our Conversation, here all the forms. Bill Niman knows I'm sending them to you and that you will have some one take them to him.

After filling out, send them back to me and I will sign and submitt to the state - I have been talking to the state - Thanks
Gerry
