Narrative / Remarks: Enter short narrative in the space below, attach additional page(s) as needed.

-The National Park Service Water Rights Branch petitioned for a change in the place and purpose of use on November 3, 2009.

-Prior owner is Waldo Giacomini. Land and water right purchased by NPS in 2000.

-Land was restored to wetland as part of the Giacomini Wetland Restoration Project.

-Use of this water right for irrigation and livestock ceased in August 2007.

-Water right changed pursuant to Section 1707 from irrigation to in stream flow in 2011.

☐ Additional Page(s) Attached

DOCKET INFORMATION

Docket #: 29 **Type** *(PC, APP, RIP, FRR, PWR, GW, ACQ)*: APP

Docket Title: Fish Hatchery Creek

Park Unit: PORE **Region:** PWR

State: CA **County:** Marin

Source: *Groundwater* ☐ *Surface Water* ☒ **Source Name:** Tomales Bay / Fish Hatchery Creek

POD Name / Location: N 800 ft and E 1600 ft from SW corner of section 26, T3N, R9W, MDB&M, withinSE1/4 of SW1/4 of section 26

POU Name / Location: Various acreage totaling 30 acres

Quantity: 0.5 cfs *(include units – gpm, afy, etc.)*

Use(s): Fish and Wildlife Protection and/or Enhancement , , , ,

Application #: A21371 **Date:**

Permit #: 14317 **Date Issued:**

License / Certificate #: 9730 **Priority Date:** 06/28/1963

Ruling/Order/Decree#: **Date Issued:**

Owner: Prior owner Waldo Giacomini

Narrative / Remarks: *(history, status, etc)*

The National Park Service Water Rights Branch petitioned for a change in the place and purpose of use on November 3, 2009.

A note in the remarks section for the filing of water usage 2005-2007 stated "Land and water right acquired by Park in 2000. Land was restored to wetlands as part of the Giacomini Wetlands Restoration Project. Use of this water right for irrigation and livestock ceased in August 2007. The water has remained in-stream since then in support of fish and wildlife including threatened Stealhead" (signed and dated 08/24/2009).

REPORT OF LICENSEE FOR 2019

Primary Owner: US National Park Service - Point Reyes National Seashore
Primary Contact: ERIC LORD

Date Submitted: 05/27/2020

Application Number: A021371
License Number: 009730

Source(s) of Water	POD Parcel Number	County
UNST		Marin

MAX Direct Diversion Rate: 0.5 CFS
MAX Collection to Storage: 0 AC-FT
Face Value: 150 AC-FT

Permitted Use(s)	Acres	Direct Diversion Season	Storage Season
Fish and Wildlife Protection and/or Enhancement	0		
Recreational	0		

1. Compliance with License Terms and Conditions	
I have currently reviewed my water right license and I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	

2. Changes to the Project	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	
Other changes	
Description of other changes	

3. Purpose of Use	
Recreational	fishery, aesthetics
Fish and Wildlife Protection and/or Enhancement	Please see section 4 comment.

Special Use Categories	
C1. Are you using any water diverted under this right for the cultivation of cannabis?	No

4. Amount of Water Diverted and Used			
Month	**Amount directly diverted (Acre-Feet)**	**Amount diverted or collected to storage (Acre-Feet)**	**Amount used (Acre-Feet)**
January	0	0	12.5
February	0	0	12.5
March	0	0	12.5
April	0	0	12.5

May	0	0	12.5
June	0	0	12.5
July	0	0	12.5
August	0	0	12.5
September	0	0	12.5
October	0	0	12.5
November	0	0	12.5
December	0	0	12.5
Total	0	0	150
Type of Diversion	No Diversion		
Comments	License changed in 2011 pursuant to Section 1707 of Water Code in support of fishery and riparian enhancement.		

5. Water Diversion Measurement	
a. Required to measure as of the date this report is submitted	No
b. Is diversion measured?	No
c. An alternative compliance plan was submitted to the division of water rights on	
d. A request for additional time was submitted to the division of water rights on

7c. Dates which transfer occurred	/ to /
7d. Transfer approved by	

Water Supply Contracts	
7e. Water supply contract	No

7f. Contract with	
7g. Other provider	
7h. Contract number	
7i. Source from which contract water was diverted	
7j. Point of diversion same as identified water right	
7k. Amount (Acre-Feet) authorized to divert under this contract	
7l. Amount (Acre-Feet) authorized to be diverted in 2019	
7m. Amount (Acre-Feet) projected for 2020	
7n. Exchange or settlement of prior rights	
7o. All monthly reported diversion claimed under the prior rights	
7p. Amount (Acre-Feet) of reported diversion solely under contract	

8. Storage

Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level

Conservation of Water	
9. Are you now employing water conservation efforts?	No
Description of water conservation efforts	
10. Amount of water conserved	
11. I have data to support use reductions under this water right due to conservation efforts	

Water Quality and Wastewater Reclamation	
12. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
13. Amount of reclaimed, desalinated, or polluted water used	

Conjuctive Use of Groundwater and Surface Water	
14. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
15. Amounts of groundwater used	

Additional Remarks

Declaration: The United States holds both state law-based water rights and federal reserved rights, and may meet its water needs by using either or both types of right. The United States provides this information to the State in the interest of comity and with respect to the State desire to understand water uses in the State; however, by providing this information, the United States does not concede that the State has the power to regulate the rights of the United States to the use of water.

Summary

Request For Additional Time for Water Right (A021371)

You completed the survey on 07/11/2017 10:00:39

Return to Dashboard

INTRODUCTION

This form provides diverters a standard method under which to request additional time to comply with the measurement and reporting requirements of Title 23, Division 3, Chapter 2.8, Section 931 through Section 938 of the California Code of Regulations. All extension requests must be accompanied by supporting documentation. Time extension requests are subject to review and approval.

Note: The large text boxes in the form have a character limit of 2000 characters. Responses requiring more than 2000 characters for a particular text box should be submitted as an attachment in Section C of this form.

SECTION A - REASON(S) FOR REQUEST

Complete this form if the time allowed under the regulation will expire prior to completion of the installation of the measurement or monitoring equipment. Provide attachments in Section C, if necessary. Incomplete forms may not be accepted.

(1) Please check the reason(s) you are requesting additional time: *

- ☑ Additional time needed to access site due to weather or other on-site conditions
- ☐ Additional time needed to obtain other agency permits
- ☐ Additional time needed to deal with unforeseen circumstances
- ☐ Currently awaiting grant or loan award (answer questions 2 and 3 below)

(2) Funding was requested from the following source:

(3) Funding was requested on:

SECTION B - DETAILED DESCRIPTION

All Requests for Additional Time shall be accompanied by a plan documenting the additional time needed to comply with the measurement and monitoring requirements. All initial Requests for Additional Time will be granted from the installation deadline dates specified in the Regulation, for a maximum of 24 months.

(1) Number of months (24 maximum) extension requested to complete measuring and monitoring: * 24

(2) Describe the actions already taken toward commencing or completing measurement and monitoring. Include the reasons why the measurement and monitoring program has not yet been completed. *

In 2011 the United States completed a Section 1707 Conversion: Instream Flow for Fish and Wildlife Preservation and Enhancement and Recreational uses for this water right. Strict compliance to the measuring and reporting regulations is not feasible, would be unreasonably expensive, and would unreasonably affect public trust resources. The location of the water right is within a distributary floodplain at the lowest point of the watershed. The section of Fish Hatchery Creek covered by this instream flow water right is wetted through a culvert. The system is highly dynamic, resulting in heavy alluvial fill every year. Time is needed to evaluate the site to establish a viable gage or devise an alternative compliance plan for this unique instream flow water right.

(5000 character max.)

(3) Describe the interim measurement and monitoring practices that will be implemented while compliance with the measurement and monitoring requirements is diligently pursued. *

The Park will continue to visually monitor flows and estimate beneficial use based on historical practices.

(5000 character max.)

SECTION C - ATTACHMENTS

Each Request for Additional Time shall be accompanied by documentation of grant or loan request or agency permit requests, as applicable. A Request for Additional Time based on unforeseen circumstances shall be accompanied by a showing of good cause and a showing that all reasonable efforts have been made to comply with the established deadlines.

(1) Attach documents that support the Request for Additional Time. Choose File No file selected

Upload

(Uploaded files:)

(2) Provide a brief description of the attached documents.

(5000 character max.)

SECTION D - SIGNATURE

☑ I hereby certify that the above information is true and correct to the best of my knowledge and belief. *

Role * ○ Diverter ○ Agent

◉ Designated Contact

Name * Eric Lord

The State Water Board will review the facts presented to determine whether additional time may be granted. (Cal. Code Regs., tit. 23, § 936.)

The State Water Board will contact the diverter in writing to inform them if additional time is granted.

If additional time is not granted, the State Water Board may initiate enforcement action.

Failure to meet the measurement requirements is a violation subject to civil liability of up to $500 per day pursuant to Water Code section 1846

Fact Sheet

EMERGENCY REGULATION FOR MEASURING AND REPORTING ON THE DIVERSION OF WATER

Governor Edmund G. Brown Jr. signed Senate Bill (SB) 88 on June 24, 2015. Sections 15 through 18 of SB 88 add measurement and reporting requirements for a substantial number of diverters. The State Water Resources Control Board (State Water Board) adopted a regulation to implement the new law at its January 19, 2016 Board Meeting. The regulation will go into effect upon approval by the Office of Administrative Law, which is anticipated to occur in March 2016.

The measurement requirements of the regulation apply to all water right holders who divert more than 10 acre-feet of water per year. The annual reporting requirements in the regulation apply to all statement holders as well as persons authorized to appropriate water under a permit, license, registration (small domestic, small irrigation, or livestock stockpond), or certificate for livestock stockpond use.

Information on the regulation, SB 88, and related documents are available at:

http://www.waterboards.ca.gov/waterrights/water_issues/programs/measurement_regulation/

If you have any questions or concerns, please contact the Division of Water Rights (Division) at:

Email Address: dwr-measurement@waterboards.ca.gov
Phone Number: (916) 341-5300

Key Provisions of Regulation

Annual Water Use Reporting Requirements for Water Right Holders

All water right holders shall report on their diversion and use of water annually, beginning with reports for the 2016 diversion season. Annual water use reports for permits, licenses, registrations and stock pond certificates must be filed by April 1 of each year starting April 1, 2017 for diversions made in 2016. The annual use reports for statements shall be filed prior to July 1 of each year. All reports will continue to document diversions during the prior calendar year. The filing dates are for the annual water use reports are summarized below:

DIVERSION/STORAGE PERIOD	WATER USE REPORT DEADLINES				
	PERMITS	LICENSES	STATEMENTS	REGISTRATIONS	CERTIFICATES
2015	JULY 1, 2016	JULY 1, 2016	JULY 1, 2016	VARIES	NOT REQUIRED
2016	APRIL 1, 2017	APRIL 1, 2017	JULY 1, 2017	APRIL 1, 2017	APRIL 1, 2017

Reporting Requirements for Water Right Holders During Times of Insufficient Supply

When the amount of water available in a surface water source is not sufficient to support the needs of existing water right holders and in-stream uses, the State Water Board may require monthly or more frequent reporting in the affected areas to provide the most accurate assessment of water demand. The State Water Board will notify diverters in affected areas when additional reporting is required.

Deadline for Complying with Measurement and Reporting Requirements

The regulation provides for a phased approach to compliance. The compliance deadlines, by volume of water diverted, are shown in the table below.

Required Accuracy for Measurement and Frequency for Monitoring

SB 88 set expectations for both the accuracy of measurement devices as well as the monitoring frequency of the device. The regulation links both device accuracy and monitoring frequency to the volume categories. Larger diversions and larger reservoirs or ponds have more stringent measurement and monitoring requirements and more stringent requirements for the installation and certification of measurement devices as described in the table below.

Type of Diversion (af = acre-feet)	Installation Deadline	Required Accuracy	Required Monitoring Frequency	Qualifications For Installation And Certification
Direct Diversion ≥ 1,000 af/year Storage ≥ 1000 af	January 1, 2017	10%	Hourly	Engineer/Contractor/Professional
Direct Diversion ≥ 100 af/year Storage ≥ 200 af	July 1, 2017	10%	Daily	Engineer/Contractor/Professional
Direct Diversion > 10 af/year Storage ≥ 50 af	January 1, 2018	15%	Weekly	Individual experienced with measurement and monitoring
Storage > 10 af	January 1, 2018	15%	Monthly	Individual experienced with measurement and monitoring

Measurement Methods

Diverters may propose a measurement method, in lieu of a measuring device, to comply with measurement and accuracy requirements under the regulation. Examples of measurement methods include:

- Multiple water right holders on a single surface supply can propose a collaborative measurement approach.
- A single water right holder with multiple points of diversion can propose a measurement method that may preclude the need to install a measurement device at each point of diversion.

Alternative Compliance

A water right holder may request an alternative compliance approach when strict compliance is not feasible, would be unreasonably expensive, would unreasonably affect public trust resources, or would result in the waste or unreasonable use of water.

The Division is preparing the forms to request alternative measurement or alternative compliance. All requests must be submitted on the Division's forms. Please note; persons subject to the regulation are not allowed to claim "not locally cost effective".

Certification of Water Measurement Device

The regulation requires that the accuracy of the water measurement device be certified every five years, in accordance with the table above. The regulation calls for an initial certification with the first water use report filed after the device has been installed.

LICENSEE REPORTING FOR 2015

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A021371**
Password (Reporting Identifier): **647528**

IMPORTANT: PLEASE NOTE BELOW

Effective immediately the Division of Water Rights will **NO LONGER** notify you via mail in the future when reporting is due. If you would like to be notified when reporting is due and other reporting related material, please subscribe to our Lyris list (Water Rights Reporting Notification) at:

http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

You are required to complete the online report for 2015 no later than **June 30, 2016.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CHANGES FOR REPORTING AND MEASUREMENT OF DIVERSIONS MADE IN 2016, AND THEREAFTER

- See attached "Fact Sheet" for updates.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Amanda Montgomery

LICENSEE REPORTING FOR 2014

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A021371**
Password (Reporting Identifier): **647528**

You are required to complete the online report for 2014 no later than **June 30, 2015.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

LICENSEE REPORTING FOR 2011

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A021371**
Password (Reporting Identifier): **647528**

You are required to complete the online report for 2011 no later than **June 30, 2012.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Fort Collins, CO 80525

Dear Mr. Lord:

PETITIONS FOR CHANGE FOR MULTIPLE LICENSES (APPLICATIONS 13322, 13473, 13965A, 21371) IN LAGUNITAS CREEK WATERSHED IN MARIN COUNTY

Your petitions for change under the licenses have been approved. The requested changes have been incorporated in the enclosed amended licenses. The amended licenses may be viewed at: http://www.waterboards.ca.gov/water_issues/programs/ewrims/license_search.shtml. All previous versions of the licenses have been superseded by the present version of the licenses.

The amended water rights include conditions based on any of the following which are applicable to this Project: (1) protest resolution; (2) mitigation measures based on any California Environmental Quality Act document and/or public trust evaluation prepared for the petition; (3) standard license terms related to (a) continuing authority and water quality (Cal. Code Regs., tit. 23, § 780 (a), (b)), (b) threatened and endangered species, and (c) archeology; and (4) previous orders of the State Water Resources Control Board. Please make sure that you have reviewed the amended water rights and understand your obligations.

If you require further assistance, please contact Angela Nguyen-Tan at (916) 341-5318 or anguyentan@waterboards.ca.gov. Written correspondence or inquiries should be addressed as follows: State Water Resources Control Board, Division of Water Rights, Attn: "Angela Nguyen-Tan", PO Box 2000, Sacramento, CA, 95812-2000.

Sincerely,

Katherine Mrowka

STATE OF CALIFORNIA
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

Amended License for Diversion and Use of Water

APPLICATION 21371 PERMIT 14317 LICENSE 9730

THIS IS TO CERTIFY, That

US National Park Service
Point Reyes National Seashore
1 Bear Valley Road
Point Reyes, CA 94956

has the right to the use of the waters of an **Unnamed Stream (aka Fish Hatchery Creek)** in **Marin County**

tributary to **Tomales Bay** thence the **Pacific Ocean**

for the purpose of **Fish and Wildlife Preservation and Enhancement and Recreational uses**.

The Deputy Director for Water Rights finds that the State Water Resources Control Board (State Water Board) and/or the licensee have met the following requirements for Change Petition approval: (a) the change will not operate to the injury of any lawful user of water; (b) good cause has been shown for the change; (c) the petition does not constitute the initiation of a new right; and (d) demonstrated that the requirements of the California Environmental Quality Act (CEQA) have been met or that the project is exempt from CEQA.

Additionally, the State Water Board has complied with its independent obligation to consider the effect of the proposed project on public trust resources and to protect those resources where feasible. (*National Audubon Society v. Superior Court* (1983) 33 Cal.3d 419 [189 Cal.Rptr. 346], 658 P.2d 709.)

The amended license is being issued in accordance with the redelegations of authority (Resolution No. 2007-0057.) Therefore, an amended license on **Application 21371** filed on **June 28, 1963** has been approved by the State Water Board SUBJECT TO PRIOR RIGHTS and to the limitations and conditions of this amended license.

Amended License 9730 supersedes the license originally issued on **April 8, 1971**, which was perfected in accordance with the laws of California, the Regulations of the State Water Board, or its predecessor, and the terms of **Permit 14317**. The priority of this right dates from **June 28, 1963**. Proof of maximum beneficial use of water under this license was made as of **March 16, 1971** (the date of inspection).

The amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not **exceed five-tenths (0.5) cubic foot per second, from May 30 to September 30 of each year, and seven thousand eight hundred (7,800) gallons per day, from April 1 to May 30 and October 1 to December 30 of each year. The maximum amount diverted under this license shall not exceed one hundred fifty (150) acre-feet per year.**

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

By California Coordinate System of 1983, Zone 3, North 2,220,946 feet and East 5,892,605 feet, being within SE¼ of SW¼ of projected Section 26, T3N, R9W, MDB&M.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

At stream segment between the Point of Diversion located by California Coordinate System of 1983, Zone 3, North 2,220,946 feet and East 5,892,605 feet, being within SE¼ of SW¼ of projected Section 26, T3N, R9W, MDB&M (upstream limit) and the confluence of the Unnamed Stream (aka Fish Hatchery Creek) and Tomales Bay (downstream limit), as shown on map on file with the State Water Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

Reports shall be filed promptly by the licensee on the appropriate forms which will be provided for the purpose from time to time by the State Water Board.

Licensee shall allow representatives of the State Water Board and other parties, as may be authorized from time to time by the State Water Board, reasonable access to project works to determine compliance with the terms of this license.

Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the State Water Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the State Water Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

The quantity of water diverted under this license is subject to modification by the State Water Board if, after notice to the licensee and an opportunity for hearing, the State Water Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the State Water Board finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

This license does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2089) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain authorization for an incidental take prior to construction or operation of the project. Licensee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this license.

If construction or rehabilitation work is required for the diversion works covered by this license within the bed, channel, or bank of the affected water body, the licensee shall enter into a streambed or lake alteration agreement with the State Department of Fish and Game. Licensee shall submit a copy of the agreement, or waiver thereof, to the Division of Water Rights prior to commencement of work. Compliance with the terms and conditions of the agreement is the responsibility of the licensee.

This license is granted and the licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the State Water Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article (of the Water Code) and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefore shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

Direct Diversion Rate: 0.5 Cubic Feet per Second **Collection To Storage Amount:** 0 AC-FT

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to **www.waterboards.ca.gov/rms** and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A021371**
Password: **2N8R9H**

You are required to complete the online report for 2010 no later than **July 1, 2011.** You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 341-5431 or send an email to: ewrims@waterboards.ca.gov

NOTICE OF PETITIONS FOR CHANGE FOR LICENSES 9730, 4324A, 3827, AND 3800 (APPLICATIONS 21371, 13965A, 13473, AND 13322, RESPECTIVELY) TO DEDICATE WATER TO ENHANCE INSTREAM FISH HABITAT (WATER CODE SECTION 1707)

COUNTY: Marin STREAM SYSTEM: Lagunitas Creek

The U. S. National Park Service - Point Reyes National Seashore (Petitioner) has filed four petitions for change in place and purpose of use, pursuant to California Water Code Section 1707. The Petitioner proposes to dedicate water diverted under Licenses 9730, 4342A, 3827, and 3800 to instream use to enhance the flow of three creeks, Lagunitas, Olema, and an Unnamed Stream (aka Fish Hatchery Creek) located within Point Reyes National Seashore, for the benefit of fish, wildlife, and recreation. The dedication of two of the existing water right licenses (4342A and 9730) to instream use is part of the Giacomini Wetland Restoration Project (Project), which involves restoring ranchland to active floodplain or wetlands. All structural diversions have been or will be removed and there will be no construction or re-grading as a result of these petitions. The impacts of the Project are addressed in the *Final Giacomini Wetland Restoration Project Environmental Impact Statement/Environmental Impact Report (2007 (Giacomini EIS/EIR))*, on file at the Division of Water Rights. Any correspondence directed to the Petitioner should be mailed to Eric Lord, 1201 Oak Ridge Drive Ste 250, Fort Collins, CO 80525, or by email at Eric_Lord@nps.gov.

Summary of License 9730 and petition for change:

Source:	Unnamed Stream (aka Fish Hatchery Creek) tributary to Tomales Bay thence the Pacific Ocean
Point of Diversion (POD):	**Present:** Within SE¼ of SW¼ of projected Section 26, T3N, R9W, MDB&M **Proposed:** POD to be abandoned
Amount and Season:	**Present:** Maximum amount of 150 acre-feet per year as follows: direct diversion of 0.5 cubic feet per second (cfs) from May 30 to September 30 of each year for irrigation and 7,800 gallons per day (gpd) from April 1 to May 30 and from October 1 to December 30 of each year for stockwatering **Proposed:** The entire licensed amount of appropriate water diverted for irrigation and stockwatering, pursuant to License 9730, will be dedicated to instream flow to benefit fish and wildlife resources and recreation from April 1 to December 30 of each year.
Purpose of Use:	**Present:** Irrigation and Stockwatering **Proposed:** Preserve and enhance fish and wildlife resources; recreation
Place of Use:	**Present:** 30 acres within SW¼ , Section 26 , T3N, R9W, MDB&M **Proposed:** Stream segment from POD to the mouth of the Unnamed Stream (aka Fish Hatchery Creek) as highlighted in map submitted with the petition for change

Summary of License 4324A and petition for change:

Source:	Lagunitas Creek tributary to Tomales Bay thence the Pacific Ocean
PODs:	**Present:** POD 1 within SW¼ of NW¼ of projected Section 36; POD 2 within SW¼ of SE¼ and POD 3 within SE¼ of NE¼ of projected Section 25; all within T3N, R9W, MDB&M; and POD 4 yet to be determined related to the report referred to in condition 1 of the Army Corps of Engineers' permit **Proposed:** all PODs will be abandoned
Amount and Season:	**Present:** Direct diversion of 2.0 cfs from May 1 to November 1 of each year **Proposed:** The entire licensed amount of appropriated water diverted for irrigation, pursuant to License 4342A, will be dedicated to instream flow to benefit fish and wildlife resources and recreation from May 1 to November 1 of each year.
Purpose of Use:	**Present:** Irrigation **Proposed:** Preserve and enhance fish and wildlife resources; recreation
Place of Use:	**Present:** 312 acres within projected Sections 26, 35, and 36, T3N, R9W, MDB&M **Proposed:** Stream segment from the uppermost POD to mouth of creek, as highlighted in map submitted with the petition for change

Summary of License 3827 and petition for change:

Source:	Olema Creek tributary to Lagunitas Creek thence Tomales Bay thence the Pacific Ocean
PODs:	**Present:** POD 1 within NE¼ of SE¼ of projected Section 20, and POD 2 within SW¼ of SW¼ of projected Section 21, both within T2N, R8W, MDB&M **Proposed:** all PODs will be abandoned
Amount and Season:	**Present:** Direct diversion of 11,500 gpd from about March 15 to about October 15 for irrigation and throughout the year as required for domestic and stockwatering **Proposed:** The entire licensed amount of appropriated water diverted for irrigation, stock watering, and domestic use, pursuant to License 3827, will be dedicated to instream flow to benefit fish and wildlife resources and recreation from January 1 to December 31 of each year.
Purpose of Use:	**Present:** Irrigation, Domestic, Stockwatering **Proposed:** Preserve and enhance fish and wildlife resources; recreation
Place of Use:	**Present:** 0.75 acre within NE¼ of SE¼ of projected Section 20 and SE¼ of SW¼ of projected Section 21, all within T2N, R8W, MDB&M. **Proposed:** Stream segment from the uppermost POD to confluence with Lagunitas Creek, as highlighted in map submitted with the petition for change

Summary of License 3800 and petition for change:

Source:	Olema Creek tributary to Lagunitas Creek thence Tomales Bay thence the Pacific Ocean
POD:	**Present:** Within SE¼ of NW¼ of projected Section 28, T2N, R8W, MDB&M **Proposed:** POD will be abandoned
Amount and Season:	**Present:** Direct diversion of 13,000 gpd from January 1 to December 31 of each year **Proposed:** 0.0170 cfs of appropriated water, which represents the licensed limit less current consumptive use by lessee, diverted for industrial and domestic use, pursuant to License 3800, will be dedicated to instream flow to benefit fish and wildlife resources and recreation from January 1 to December 31 of each year.
Purpose of Use:	**Present:** Domestic and Industrial **Proposed**: Preserve and enhance fish and wildlife resources; recreation
Place of Use:	**Present:** SE¼ of NW¼ and NE¼ of NW¼ of projected Section 28, T2N, R8W, MDB&M **Proposed**: Stream segment from POD to confluence with Lagunitas Creek, as highlighted on map submitted with petition for change

Project information, procedures for protesting and protest forms are available at: www.waterboards.ca.gov/waterrights. The contact person for this matter is Beth Glidewell at (916) 341-5426, or by e-mail at EGlidewell@waterboards.ca.gov.

Protests must be received by the Division of Water Rights by **4:30 p.m. on January 24, 2011**
Date of Notice: December 23, 2010

PETITION FOR CHANGE (Amended)

(WATER CODE 1700)

_____ Point of Diversion, _____ Point of Rediversion XX Place of Use **XX Purpose of Use**
Application A21371 **Permit 14317** **License 009730** Statement or Other

I (we) hereby petition for change(s) noted above and shown on the accompanying map and described as follows:

Point of Diversion or Rediversion (Give coordinate distances from section corner or other ties as allowed by Cal CR 715, and the 40-acre subdivision in which the present & proposed points lie.)
Present: **SE ¼ NW ¼, Projected Section 26, T 3 N, R 9 W, M.D.B.&M.**
Proposed: **NA.**
Place of Use (If irrigation then state number of acres to be irrigated within each 40-acre tract.)
Present: **30 acres within SW ¼, Section 26,, T3N, R9W, M.D.B.&M.**
Proposed: **Stream segment as highlighted in attached map (from point of diversion to mouth of creek).**
Purpose of Use
Present: **Irrigation (May 30 – September 30); Stock Watering (April 1 – May 30, October 1 – December 30).**
Proposed: **Enhance habitat, fish and wildlife resources, and recreation.**
Does the proposed use serve to preserve or enhance wetlands habitat, fish and wildlife resources, or recreation in or on the water (See WC 1707)? **Yes.**

- GIVE REASON FOR PROPOSED CHANGE: **The purpose for the change is to realign the water right to benefit the mission of the Park, including enhancing fish and wildlife habitat, and recreation. The National Park Service acquired the water right with the lands associated with the Giacomini Wetland Restoration Project. The dedication of this water right supports the Giacomini Wetlands Restoration Project objectives and will support native fish and aquatic species including steelhead trout, tidewater goby, and potentially coho salmon.**

- WILL THE OLD POINT OF DIVERSION OR PLACE OF USE BE ABANDONED? **Yes.**
  The original Point of Diversion with this license involved the Giacomini's excavating a diversion channel from Fish Hatchery Creek to the Place of Use. This practice has been discontinued since the restoration was completed.

- WATER WILL BE USED FOR **Enhancement of fish and wildlife habitat pursuant to Section 1707. We are seeking to change the entire licensed amount of 0.50 cfs.**

I(we) have access to the proposed point of diversion or control the proposed place of use by virtue of ? **Land ownership and being the direct licensee.**

Are there any persons taking water from the stream between the old point of return flow and the new point of return flow? **No.**
If by lease or agreement, state the name and address of party(s) from whom access has been obtained.

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change. **There are two claimants to water rights located upstream from the subject point of diversion.**

S008676: Seth Wingate, P.O. Box 279, Point Reyes Station, CA 94956
S008811: North Marin Water District, (Chris DeGabrielle, GM) P.O. 146, Novato, CA 94948

THIS CHANGE DOES NOT INVOLVE AN INCREASE IN THE AMOUNT OF THE APPROPRIATION OR SEASON OF USE.

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

Dated October 4, 20 10 at Fort Collins, Colorado.

Wm. R. Hansen

[ ] YES [ ] NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. [ ] YES [ ] NO I have currently reviewed my water right license.
2. [ ] YES [ ] NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
3. [ ] YES [ ] NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If **Yes**, explain under "Remarks' on reverse side. ***Note:*** *A Change Petition and associated fees may be required for any significant changes to the licensed project.*

BENEFICIAL USE(S) OF WATER: Under the appropriate boxes below, briefly explain how the water was used each year

4. Current Use(s) of Water	2007	2008	2009
4.a. Irrigation – specify no. of acres irrigated			
4.b. Frost Protection – specify no. of acres protected			
4.c. Heat Control – specify no. of acres protected			
4.d. Industrial – specify type			
4.e. Stockwatering – specify no. & type of animals			
4.f. Municipal – approx. population served			
4.g Domestic – specify no. of persons, lawn/garden area			
4.h. Power Generation – installed capacity in kW, MW, or hp			
4.i Recreational – specify (boating, fishing, water contact sports, etc.)			
4.j. Other – specify (Examples: fire protection, snowmaking, mining, etc.)			

AMOUNT OF WATER TAKEN FROM THE SOURCE: Please report only the amounts diverted and/or stored under this license.
5.a. Amount of water taken each month under this license in [ ] gallons or [ ] acre-feet or [ ] million gallons

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007													
2008													
2009													

AMOUNT OF WATER BENEFICIALY USED: Please report only the amounts beneficially used under this license.
5.b. Amount actually used by direct diversion and/or withdrawal from storage in acre-feet [ ] Check if amounts are same as 5.a.

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2007													
2008													
2009													

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If **No**, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If **No**, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT

(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

MAR 15 2010

Eric Lord
National Park Service
1201 Oak Ridge Drive Suite 250
Fort Collins, CO 80525

Dear Mr. Lord:

PETITION FOR CHANGE OF LICENSE 3800 (A013322), LICENSE 4324A (A013965A), LICENSE 3827 (A013473), AND LICENSE 9730 (A21371) OF NATIONAL PARK SERVICE, ON LAGUNITAS AND OLEMA CREEKS IN MARIN COUNTY

The Division of Water Rights (Division) has received petitions for change in the place and purpose of use for Licenses 3800, 4324A, 3827, and 9730 on November 3, 2009. The petitions for change have been filed pursuant to California Water Code section 1707. Preliminary review has found that the requested changes in the place and purpose of use appear to meet the requirements of California Water Code section 1701.2.

PETITION FOR CHANGE FILING FEE

California Code of Regulations section 1064 states that the fee for filing a petition for change pursuant to California Water Code section 1707 is $850.00.

3800 (A013322): Petition for Change under section 1707	$ 850.00
4324A (A013965A): Petition for Change under section 1707	$ 850.00
3827 (A013473): Petition for Change under section 1707	$ 850.00
9730 (A21371): Petition for Change under section 1707	$ 850.00
Petitions for Change Fees Submitted:	$ 3400.00
Total Petition for Change Fees Due:	$ 0.00

FISH AND GAME ENVIRONMENTAL FILING FEE

Section 10005 of the Public Resources Code requires the California Department of Fish and Game (DFG) to impose an $850 filing fee on any user of water who files an application for a water right permit with the State Water Resources Control Board. The Division has received a letter from DFG pursuant to the subject petitions for change stating that the DFG has waived the filing fee per Public Resources Code section 1005 (d)(4).

All petition for change filing fees for Licenses 3800, 4324A, 3827, and 9730 have been paid in full. No additional payment is required at this time. Please be advised that in addition to the

above fees, all active applications, petitions for change, permits and licenses may be subject to annual fees. These fees are based upon the acre-foot per annum requested under the application or authorized under the permit or license. If a fee is required, the Division will calculate the annual fee, and the State Board of Equalization will send you a Notice of Determination requesting payment. If you have any questions regarding the calculation or payment of fees, please contact our fee line at 916-341-5431.

The Division will prepare a public notice of your petitions for change. Any party may submit a protest during the public noticing period. A protest may be based on impacts to existing water rights or impacts to the environment. You will be advised of any actions that you must take after the petition is noticed to respond to protests.

If you have any questions, please contact Angela Nguyen-Tan at (916) 341-5318 or ANguyenTan@waterboards.ca.gov.

Sincerely,

Steven Herrera, Manager
Water Rights Permitting Section

IN REPLY REFER TO:
L54 (2380)
PORE/Water Rights

Mr. Phil Crader
Division of Water Rights
State Water Resources Control Board
1001 I Street
Sacramento, California 94812

Re: Petitions Pursuant to California Water Code § 1707
(Licenses 4324A, 9730, 3800, 3827)

Dear Mr. Crader:

Please find enclosed four petitions to change water rights pursuant to California Water Code § 1707. All four licenses are located within Point Reyes National Seashore and seek to enhance the flow of two creeks—Lagunitas and Olema creeks—for the benefit of fish and wildlife.

We have been working with Katy Washburn and Angela Nguyen-Tan of your office. They have provided valuable input and assistance as we have prepared the petitions. They were also able to come to the park for a site visit in May 2009 and are thus familiar with the creeks and subject water rights.

The appropriate fees are attached to each petition. The California Department of Fish and Game has waived the Fish and Game filing fee pursuant to Pubic Resources Code § 10005(d)(4). Consequently, no fee payment for the Fish and Game filing fee is enclosed. A copy of the fee waiver is attached. Charles Armor, the Regional Manager for the Bay Delta Region of the Department of Fish and Game, filed the original fee waiver with your office by memo dated September 24, 2009.

We appreciate the time and consideration of your staff to these petitions. If you have questions, please contact Eric Lord of my staff at (970) 225-3526.

Sincerely,

Charles W. Pettee
Chief, Water Rights Branch

PETITION FOR CHANGE
(WATER CODE 1700)

_____ Point of Diversion, _____ Point of Rediversion, _____ Place of Use **XX** **Purpose of Use** Statement or Other
Application A21371 **Permit 14317** **License 009730**

I (we) hereby petition for change(s) noted above and shown on the accompanying map and described as follows:

Point of Diversion or Rediversion (Give coordinate distances from section corner or other ties as allowed by Cal CR 715, and the 40-acre subdivision in which the present & proposed points lie.)
Present: **SE ¼ NW ¼, Projected Section 26, T 3 N, R 9 W, M.D.B.&M.**
Proposed: **NA.**
Place of Use (If irrigation then state number of acres to be irrigated within each 40-acre tract.)
Present: **30 acres within SW ¼, Section 26,, T3N, R9W, M.D.B.&M.**
Proposed: **Stream segment as highlighted in attached map (from headwaters to mouth of creek).**
Purpose of Use
Present: **Irrigation (May 30 – September 30); Stock Watering (April 1 – May 30, October 1 – December 30).**
Proposed: **Enhance habitat, fish and wildlife resources, and recreation.**
Does the proposed use serve to preserve or enhance wetlands habitat, fish and wildlife resources, or recreation in or on the water (See WC 1707)? **Yes.**

- GIVE REASON FOR PROPOSED CHANGE: **The purpose for the change is to realign the water right to benefit the mission of the Park, including enhancing fish and wildlife habitat, and recreation. The National Park Service acquired the water right with the lands associated with the Giacomini Wetland Restoration Project. The dedication of this water right supports the Giacomini Wetlands Restoration Project objectives and will support native fish and aquatic species including steelhead trout, tidewater goby, and potentially coho salmon.**

- WILL THE OLD POINT OF DIVERSION OR PLACE OF USE BE ABANDONED? **Yes.**
  The original Point of Diversion with this license involved the Giacomini's excavating a diversion channel from Fish Hatchery Creek to the Place of Use. This practice has been discontinued since the restoration was completed.

- WATER WILL BE USED FOR **Enhancement of fish and wildlife habitat pursuant to Section 1707. We are seeking to change the entire licensed amount of 0.50 cfs.**

I(we) have access to the proposed point of diversion or control the proposed place of use by virtue of ? **Land ownership and being the direct licensee.**

Are there any persons taking water from the stream between the old point of return flow and the new point of return flow? **No.**
If by lease or agreement, state the name and address of party(s) from whom access has been obtained.

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change. **There are two claimants to water rights located upstream from the subject point of diversion and within the proposed place of use (proposed protected stream segment).**
S008676: Seth Wingate, P.O. Box 279, Point Reyes Station, CA 94956
S008811: North Marin Water District, (Chris DeGabrielle, GM) P.O. 146, Novato, CA 94948

THIS CHANGE DOES NOT INVOLVE AN INCREASE IN THE AMOUNT OF THE APPROPRIATION OR SEASON OF USE.

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

Dated October 16, 2009 at Fort Collins, Colorado.

Jeffrey C. Haughee

for Charles W. Pettee

ENVIRONMENTAL INFORMATION FOR PETITIONS

Petition for Change

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

See Attachment No. 1

2. COUNTY PERMITS

a. Contact your county planning or public works department and provide the following information:

Person contacted: **Front Desk (Mary)** Date of contact: **February 21, 2007**
Department: **Marin County Planning** Telephone: **(415) 499-6528**
County Zoning Designation: **Open Area**
Are any county permits required for your project? **NO*** If YES, check appropriate box below: *** Liz Lewis, Marin County Public Works (415) 499-7226**

Grading permit Use permit Watercourse Obstruction permit Change of zoning
General plan change Other (explain):

b. Have you obtained any of the required permits described above? **NA**
If YES, provide a complete copy of each permit obtained.
See Attachment No. ___

3. STATE/FEDERAL PERMITS AND REQUIREMENTS

a. Check any additional state or federal permits required for your project: **None.**

As part of the Giacomini Wetland Restoration Project EIS/EIR, the National Park Service and California State Lands Commission identified restoration of natural hydrologic and shoreline process as a principal objective. The California Coastal Commission was contacted on May 29, 2009 regarding this petition and whether the compliance associated with the Giacomini EIS/EIR was adequate. The CCC responded in a letter on June 9, 2009, that the dedication of this license is consistent with their permit CD-48-07 for the Giacomini Wetland Restoration.

b. For each agency from which a permit is required, provide the following information:

AGENCY PERMIT TYPE PERSON(S) CONTACTED CONTACT DATE TELEPHONE NO.

See Attachment No. ___

c. Does your proposed project involve any construction or grading-related activity that has significantly altered or would significantly alter the bed or bank of any stream or lake?
NO, this dedication does not require any construction or grading-related activities.
If YES, explain:
See Attachment No. ___

d. Have you contacted the California Department of Fish and Game concerning your project? **YES**
If YES, name and telephone number of contact: **Greg Martinelli (707) 944-5570**
It should be noted that the CDFG issued Streambed Alteration Agreement 1600-2008-0141-3 pursuant to Section 1602 of the Fish and Game Code on May 30, 2008 for activities in state lands associated with the Giacomini Wetland Restoration. The existing point of diversion and place of use are on federal lands. Federal lands are not subject to Streambed Alteration Agreements.

4. ENVIRONMENTAL DOCUMENTS

a. Has any California public agency prepared an environmental document for your project?
No.
If YES, submit a copy of the latest environmental document(s) prepared, including a copy of the notice of determination adopted by the California public agency. Public agency:

If NO, check the appropriate box and explain below, if necessary:

CEQA: This change is exempt from CEQA pursuant to 14 Cal. Code Regs. 15301(i), 15307, 15308, and *In the Matter of Lic. 465, 466, and 4822, and Permit 854*, 1995 WL 59093 (Cal.St.Wat.Res.Bd.).

NEPA: As part of the Giacomini Wetlands Restoration Project, water rights held by Waldo Giacomini (previous owner) were to be dedicated pursuant to Section 1707. This dedication of water rights is addressed generally in the *Final Giacomini Wetland Restoration Project Environmental Impact Statement/Environmental Impact Report* (2007). This License 9730 was not specifically mentioned in the EIS/EIR, but the lands authorized for irrigation pursuant to License 9730 were restored as part of the Wetlands Project.

See Attachment No. **2**

* Note: When completed, submit a copy of the final environmental document (including notice of determination) or notice of exemption to the SWRCB, Division of Water Rights. Processing of your petition cannot proceed until these documents are submitted.

** Note: CEQA requires that the SWRCB, as Lead Agency, prepare the environmental document. The information contained in the environmental document must be developed by the petitioner and at the petitioner's expense under the direction of the SWRCB, Division of Water Rights.

5. WASTE/WASTEWATER

a. Will your project, during construction or operation, (1) generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?

No. Diversion pursuant to this license ceased in August 2007, and all diversion activities stopped then. There are no structures remaining to be removed.

If YES, or you are unsure of your answer, explain below and contact your local Regional Water

Quality Control Board for the following information (See instruction booklet for address and telephone no.):

_____

_____

See Attachment No. ___

b. Will a waste discharge permit be required for your project? **NO**

Person contacted: _____ Date of contact:

_____

c. What method of treatment and disposal will be used? **NA**

_____

_____

_____

_____

See Attachment No. ___

6. ARCHEOLOGY

a. Have any archeological reports been prepared on this project? **As part of the Giacomini Wetland Restoration Planning process, archeological surveys were completed on the entirety of the project planning area, including the Point of Diversion for License 9730. On August 21, 2006 SHPO concurred with the park determination of "no historic properties affected."**

b. Will you be preparing an archeological report to satisfy another public agency? **NO**

c. Do you know of any archeological or historic sites located within the general project area? **NO**

If YES, explain:
See Attachment No. ___

7. ENVIRONMENTAL SETTING

Attach **three complete sets of color photographs**, clearly dated and labeled, showing the vegetation that exists at the below-listed three locations. For time extension petitions, the photographs should document only those areas of the project that will be impacted during the requested extension period.

Along the stream channel immediately downstream from the proposed point(s) of diversion.

Along the stream channel immediately upstream from the proposed point(s) of diversion.

At the place(s) where the water is to be used.

8. CERTIFICATION

I hereby certify that the statements I have furnished above and in the attachments are complete to the best of my ability and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Date: October 16, 2009

Signature: Jeffrey C. Douglas
for Charles W. Rettee
Chief, Water Rights Branch
Water Resources Division
National Park Service

Attachment No. 1

National Park Service (NPS) acquired this water right—License 9730—from Waldo Giacomini. Mr. Giacomini used this right to irrigate meadow and for stock watering in support of his dairy operation. The right continued to be used pursuant to its licensed terms until August 2007, at which time the dairy operation was discontinued. Since that time, the water has not been diverted but rather has been allowed to remain in the stream.

Subsequent to the ceasing of dairy operations, the NPS restored the dairy lands, including the lands identified for irrigation pursuant to this license, as part of the Giacomini Wetlands Restoration Project (Wetlands Project). The impacts of the Wetlands Project are addressed in the *Final Giacomini Wetland Restoration Project Environmental Impact Statement/Environmental Impact Report* (2007). Though dedication of License 9730 was not specifically identified as part of the Wetlands Project in the EIS/EIR, the lands authorized for irrigation pursuant to this license were included and restored as part of the Wetlands Project. License 4324A, used by Mr. Giacomini in support of the dairy operation and acquired by the Park, was specifically identified in the EIS/EIR for dedication; a petition for change of License 4324A is also being submitted with this petition.

In support of the Wetlands Project and the mission of the Park in general, NPS desires to change the use of License 9730 pursuant to Water Code Section 1707. The proposed place of use is the stream segment from the headwater to the mouth of the creek, as shown on the attached map.

Attachment No. 2

A hard copy of the *Final Giacomini Wetland Restoration Project Environmental Impact Statement/Environmental Impact Report* (2007) has been provided to staff of the State Water Resources Control Board.

Notices of Decision regarding the Wetland Project are attached.

State of California
Department of Fish and Game

Flex your POWER

Memorandum

Date: September 24, 2009

To: Ms. Victoria Whitney, Chief
State Water Resources Control Board
Division of Water Rights
Post Office Box 2000
Sacramento, CA 95812
vwhitney@waterboards.ca.gov

From: Charles Armor, Regional Manager
Department of Fish and Game – Bay Delta Region, Post Office Box 47, Yountville, California 94599

Subject: Fee Waiver for the National Park Service on Section 1707 Petitions for License Numbers 9730, 4324A, 3800, and 3827 on Lagunitas and Olema Creeks in the Point Reyes National Seashore, Marin County

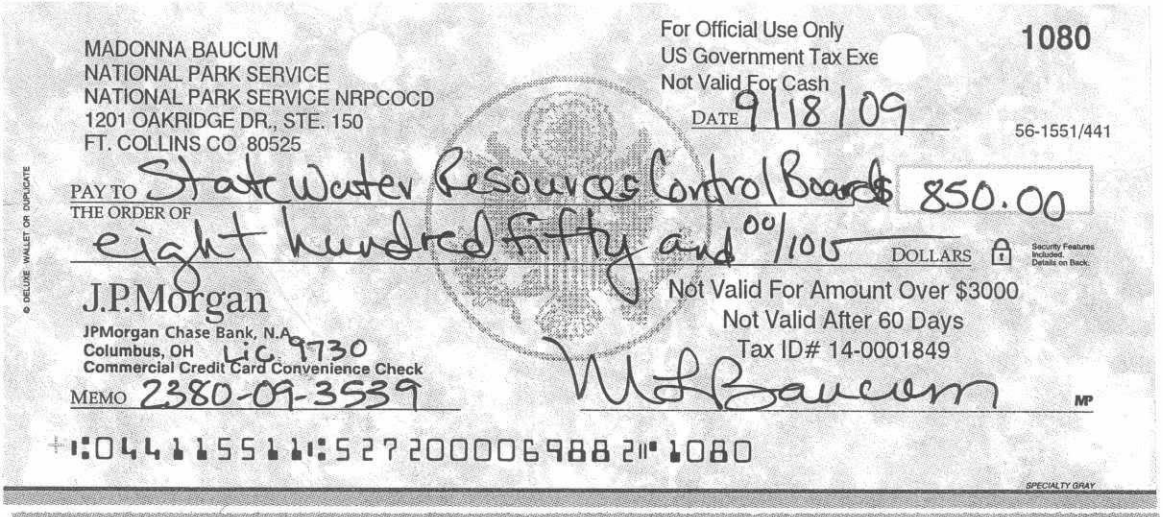

The Department of Fish and Game (DFG) is requesting that the State Water Resources Control Board accept the four 1707 petitions from the National Park Service without the DFG filing fee required by Public Resources Code 10005. Per Section 10005 (d)(4) of the Public Resources Code, DFG is waiving the fee requirement for the four 1707 petitions referenced above on Lagunitas and Olema creeks because the purpose of the filings is to change the licenses from consumptive use to instream use for the benefit of fish and wildlife resources.

If you have questions regarding this protest, please contact Mr. Greg Martinelli, Water Conservation Supervisor, at (707) 944-5570; or by writing to DFG at the memorandum address listed above.

NAME(S) OF SOURCES OF WATER (Up to first 4 sources listed): Unnamed Stream (Known locally as Fish Hatchery Creek)

PARCEL NO

COUNTY LOCATION: Marin

MAX DIRECT DIVERSION RATE:
[Cubic feet per second (CFS) or Gallons per day (GPD)]

MAX COLLECTION TO STORAGE AMOUNT:
[Total reservoirs(s) storage volume in acre-feet (AC-FT)]

PERMITTED USE(S) OF WATER (First 4 uses displayed below)	ACRES (AC)	DIRECT DIVERSION SEASON (month/day to month/day)	COLLECTION TO STORAGE SEASON (month/day to month/day)
Irrigation	30 acres	May 30 - September 30	
Stockwatering		April 1 - December 31	

[ ] YES [X] NO The project has been abandoned and I request revocation of my water right license.

COMPLIANCE WITH LICENSE TERMS AND CONDITIONS: This Report is important since it provides a record of your actual water use as well as your compliance with the terms and conditions of your water right license. The information requested below should be filled out carefully. This Report should be promptly returned to the above address.

1. [X] YES [ ] NO I have currently reviewed my water right license.
2. [X] YES [ ] NO I am complying with all terms and conditions listed in the license. Identify any noncompliance under "Remarks" on the reverse side.
3. [X] YES [ ] NO I have changed the intake location, type(s) of use, and/or place of use authorized by the license. If **Yes**, explain under "Remarks" on reverse side. ***Note:*** *A Change Petition and associated fees may be required for any significant changes to the licensed project.*

DIRECT DIVERSION ONLY - AMOUNT OF WATER USED: Please report only the amounts diverted and beneficially used under this permit.

4. Amount of water used each month under this license in [ ] gallons or [ ] acre-feet: cfs

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total Annual
2005	0	0	0	0.1	0.2	0.5	0.5	0.5	0.5	0.2	0.1	0.1	
2006	0	0	0	0.1	0.2	0.5	0.5	0.5	0.5	0.2	0.1	0.1	
2007	0	0	0	0.1	0.2	0.5	0.5	0.5	0	0	0	0	

STORAGE PROJECTS ONLY: *(Note: Up to 5 reservoirs may be covered under a single license. Refer to your license for the actual number covered.) Complete for long-term storage projects only:*

NA

5. Did your reservoir(s) spill?			
6. If **No** on No. 5 above, how many feet vertically below the spillway was the water level(s) at maximum storage?			
7. Have you emptied the reservoir(s)?			
8. If **No** on No. 7 above, how many feet vertically below the spillway was the water level(s) at minimum storage?			

(Continues on reverse)

BENEFICIAL USE(S) OF WATER: *(Note: See reverse side for a summary of the beneficial uses of water authorized under your water right license.)* Under the appropriate boxes below, explain how the water was used each year:

Beneficial Use	2005	2006	2007
9. Irrigation – specify no. of acres irrigated	30	50	30
10. Frost Protection – specify no. of acres protected			
11. Heat Control – specify no. of acres protected			
12. Industrial – specify type			
13. Stockwatering – specify no. & type of animals			
14. Municipal – approx. population served			
15. Domestic – specify no. of persons, lawn/garden area			
16. Power Generation – installed capacity in kW, MW, or hp			
17. Recreational – specify (boating, fishing, water contact sports, etc.)			
18. Other – specify (Examples: fire protection, wildlife enhancement, dust control, snowmaking, mining, etc.)			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

19. [ ] YES [X] NO During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

20. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.			
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

21. [ ] YES [X] NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

22. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.			
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

23. [ ] YES [X] NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

24. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.			
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)
Land and water right acquired by Park in 2000. Land was restored to wetlands as part of the Giacomini Wetlands Restoration Project. Use of this water right for irrigation and livestock ceased in August 2007. The water has remained in stream since then in support of fish and wildlife including threatened Steelhead

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

BENEFICIAL USE(S) OF WATER: *(Note: See reverse side for a summary of the beneficial uses of water authorized under your water right license.)*
Under the appropriate boxes below, explain how the water was used each year:

Beneficial Use	2002	2003	2004
9. Irrigation – specify no. of acres irrigated	30	30	30
10. Frost Protection – specify no. of acres protected			
11. Heat Control – specify no. of acres protected			
12. Industrial – specify type			
13. Stockwatering – specify no. & type of animals			
14. Municipal – approx. population served			
15. Domestic – specify no. of persons, lawn/garden area			
16. Power Generation – installed capacity in kW, MW, or hp			
17. Recreational – specify (boating, fishing, water contact sports, etc.)			
18. Other – specify (Examples: fire protection, wildlife enhancement, dust control, snowmaking, mining, etc.)			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: **(Water Code section 1011)**
19. [ ] YES [X] NO During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

20. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.			
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: **(Water Code section 1010)**
21. [ ] YES [X] NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

22. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.			
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: **(Water Code section 1011.5)**
23. [ ] YES [X] NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

24. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.			
Amount of groundwater used in lieu of surface water. *Specify in acre-feet (AF) or million gallons (MG)*			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)
Land and water right acquired by Park in 2000. Land was restored to wetlands as part of the Giacomini Wetlands Restoration Project. Use of this water right for irrigation and livestock ceased in August 2007. The water has remained in stream since then in support of fish and wildlife including threatened Steelhead

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

PORE/Water Rights

Mr. Chuck Armor
Department of Fish & Game
Bay Delta Region
Post Office Box 47
Yountville, California 94599
Attention: Greg Martinelli

Re: Request for Fee Waiver

Dear Mr. Armor,

The Water Resources Division of the National Park Service is in process of filing 4 petitions pursuant to Cal. Water Code § 1707 with the State Water Resources Control Board. The purpose of the filings is to change the 4 licenses from consumptive use of water to instream use in support of fish and wildlife.

Through this letter, we are requesting, pursuant to Cal. Public Resources Code § 10005(d)(4), that the fee payable to the Cal. Department of Fish and Game be waived. Eric Lord of my office has provided draft copies of this project to your office for review and determination of the benefit to fish and wildlife.

If you need further information or have other questions, please contact Eric Lord of my staff at (970) 225-3526. I appreciate your consideration of this matter.

Sincerely,

Charles W. Pettee
Chief, Water Rights Branch

Giacomini Wetland Restoration Project

SCH Number: 2002114002

Type: NOD - Notice of Determination

Project Description

Restoration of wetlands and riparian areas through removal of levees along Lagunitas Creek, removal of invasive species, planting of native species, excavation of tidal channels, realignment of Tomasini Creek, and other means.

Giacomini Wetland Restoration Project

SCH Number: 2002114002

Type: NOD - Notice of Determination

Project Description

The National Park Service (NPS), Point Reyes National Seashore, is proposing to restore natural hydrologic processes and wetland functions to significant portions of the project area known as the Giacomini Ranchand Olema Marsh. The stated purpose of this large scale restoration project is to "promote restoration of ecological processes and functions" within the project area and adjoining watersheds. By a combination of actions including removal of levees, tide gates, and culverts, floodwaters of Lagunitas and other Project Area creek that carry sediment, nutrients, and other pollutants will be able to flood onto historic floodplains to be filtered and transformed by the restored wetlands. The California Department of Fish and Game (DFG) is executing Lake and Streambed Alteration Agreement Number 1600-2008-0141-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Don Neubacher, Point Reyes National Seashore, National Park Service.

REPORT OF LICENSEE FOR — PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ]; (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [ ]; (4) Other (describe in "Remarks") [ ].

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable [ ]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ]; (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [ ]; (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks" [ ].

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [ ]; (3) Other (describe in "Remarks") [ ].

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____

22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
19__ _____ 19__ _____ 19__ _____

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____

24. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [ ]; (3) discharged into settling ponds [ ]; (4) Other [ ]. Describe: _____

25. Does or will water being discharged contain waste materials? YES [ ] NO [X].
(1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____

26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [ ] NO [ ]. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [ ] NO [X].

If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.

28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [ ] NO [X]. If yes, please describe. _____

29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?

30. What is the current potential for reusing the appropriated water to satisfy part of your water needs?

31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

This waters comes from springs off Inverness Hills in the winter time we use all the waters in the winter the creek fills up with rain water

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

REPORT OF LICENSEE FOR — PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [ ]; (2) Lining canals [ ]; (3) Phreatophyte and aquatic vegetation control [✓]; (4) Other (describe in "Remarks") [ ].

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable [✓]; (2) Return flow systems on individual farms [ ]; (3) Return flow system areawide [ ]; (4) Water pricing to encourage reduced use [ ]; (5) Charges for drainage of irrigated lands [ ]; (6) Other (describe in "Remarks") [ ].

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [✓]; (2) Public education program on water conservation [ ]; (3) Pricing to encourage reduced use [ ]; (4) Assistance to industry in design of recycle systems [ ]; (5) Other (describe in "Remarks" [ ].

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [ ]; (2) Water use for major crops by each farm [✓]; (3) Other (describe in "Remarks") [ ].

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____

22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
19 _____ 19 _____ 19 _____

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____

24. After use, the water is (1) retained in reservoir [ ]; (2) discharged into a stream or lake [ ]; (3) discharged into settling ponds [ ]; (4) Other [ ]. Describe: none

25. Does or will water being discharged contain waste materials? YES [ ] NO [✓]
(1) Domestic [ ]; (2) Municipal [ ]; (3) Industrial [ ]; (4) Agricultural [ ]; (5) Other [ ]. Describe: _____

26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [ ] NO [✓] Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [ ] NO [✓]

If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.

28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [ ] NO [✓]
If yes, please describe. _____

29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs?

30. What is the current potential for reusing the appropriated water to satisfy part of your water needs?

31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

None

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

JANICE S. ZIMMERMAN

EXHIBIT "A"

That certain real property situated in the County of Marin, State of California consisting of a portion of Parcel Two on that certain Parcel Map entitled "Lands of James and Ruth Lockhart (Book 2275 of Official Records at Page 33) Drake Summit Road", filed December 6, 1973 in Book 7 of Parcel Maps at Page 13B,

All that certain real property situate in the County of Marin, State of California, described as follows:

PARCEL ONE:

COMMENCING at the southeast corner of the tract of land described in agreement between John G. Rapp, et al, with John Haughton, et al, dated March 20, 1930 and recorded in Book Y of Miscellaneous Records, page 285, Marin County Records; and running thence North 71° 57' East 823.0 feet to the westerly line of the County Road from Olema to Point Reyes Station described in Deed from Charles Webb Howard to County of Marin, dated August 7, 1880 and recorded in U of Deeds at 614; thence along the westerly line of the road last mentioned North 31° 30' West 17.0 feet and North 39° 30' West 583.7 feet; thence leaving said road and running South 71° 57' West 730.5 feet to a point marked by 4" by 4" Redwood Stake; thence South 30° 16' East 573.5 feet to the point of beginning.

Being portion of Rancho Punta De Los Reyes Sobrante and portion of Rancho Tomales Y. Baulines Ciruela Grant.

PARCEL TWO:

COMMENCING at a point on the easterly line of a private road at the northwesterly corner of the parcel conveyed by John G. Rapp, et ux to Robert Lockhart by deed recorded October 20, 1924 in Book 56 of Official Records, at page 304; running thence along the easterly line of said private road, South 32° 07' East 346.84 feet, South 37° 23' East 140 feet, South 13° 06' East 341.86 feet, South 19° 33' East 340.75 feet to a 3" by 3" Redwood Stake in the northerly prolonged easterly line of the old County Road from Olema to Inverness; from which a circular gate post 12" in diameter bears South 72° 30' WEST 19.80 feet; thence North 72° 57' East 1450 Feet to a 4" by 4" Redwood Post set in the Willows; thence North 30° 16' West 1166.5 feet to the Southeasterly corner of said parcel so conveyed to Lockhart as above mentioned; thence along the southerly line of said parcel South 64° 12' West 1274.5 feet to the point of commencement.

PARCEL THREE:

AN EASEMENT for roadway and utility purposes over a strip of land 50 feet in width lying westerly of and adjacent to the following described line:

COMMENCING at a point on the westerly line of the parcel first described in that certain Deed from Robert L. Griffith Jr., et al, to Marie J. Griffith, recorded July 27, 1960 in Book 1388 of Official Records at page 457, Recorder's Serial No. 19499, Marin County Records, said point being North 19° 33' West 75 feet from

---

[illegible] in furtherance of the purposes of Public Law 87-587, 76 Stat. 348, a [illegible] estate, [illegible] and access easement to promote the scenic quality of the real estate described in Exhibit A of [illegible] and conservation [illegible] appraised, to be and is, [illegible] in connection upon said road estate, which estate, [illegible] and appurtenant will remain from the restrictions hereby

the most northerly corner of said parcel; and running thence along said westerly line South 19° 32' East 75 feet to the most southerly corner of said parcel; and thence South 32° 46' East along the northerly prolongation of the easterly line of the County Road from Olema to Inverness 30 feet more or less to the said County Road.

PARCEL FOUR:

An EASEMENT for roadway and utility purposes of a uniform width of 40 feet westerly of and contiguous to the following described line:

BEGINNING at the most southeasterly corner of that certain parcel of land described in the Deed from John G. Repp, et ux to Frederick Van Sicklen, recorded May 6, 1921 in Book 227 of Deeds at page 359, Marin County Records; running thence along the easterly boundary of said Van Sicklen parcel North 32° 46' West 26.3 feet; thence North 19° 32' West 340.7 feet; thence North 12° 06' West 341.6 feet; thence North 27° 33' West 140 feet; thence North 33° 07' West 346.8 feet; thence North 20° 33' West 310.7 feet; thence North 44° 54' West 893.8 feet; and thence North 31° 54' West 403 feet to the most northeasterly corner thereof; said easement to extend for the full width from the southerly boundary to the northerly boundary of said Van Sicklen parcel.

Grantor shall not be entitled to remove or destroy any trees, brush or other plant growth, such existing and seedling trees, shrubbery and other plant may be trimmed up, pruned or cut down pursuant to written consent of the Superintendent, Point Reyes National Seashore, to maintain the easement area with good management practices. Grantee, however, to Grantor(s) herein, the right and privilege to remove and dispose of trees and shrubs that are damaged or destroyed by the Grantee or Grantee's agents, employees or contractors.

Grantee shall not use within the easement, diamond or other

IN REPLY REFER TO:

L3415 (WR-OL)
GOGA-12-110
Memorandum

To: Field Solicitor, San Francisco

From: Chief, Division of Land Resources, Western Region

Subject: Request for Final Title Opinion

Re: Project: Pt. Reyes, N.S. Tract No.: 12-110
County: Marin State: California
Acreage: 48.37 Consideration: $7,100,000.00
Estate Acquired: Fee Simple
Vendor: George Simmonds and Barbara H. Zimmerman, husband and wife as Joint Tenants

Deed Dated: June 26, 1991 Recorded: June 27, 1991
Instrument No. 91-37150
Title Evidence No.: 175691-90
Prepared by: California Land Title Company of Marin

Enclosed for your review and approval of the Final Title is a complete purchase assembly relating to the acquisition of certain lands by the United States of America for use by the National Park Service. The assembly has been prepared with the view of meeting all of the requirements of the preliminary title opinion and includes all of the documentation prescribed therein.

An examination has been made of the title evidence and related papers pertaining to certain land in which interests have been acquired under authority of existing legislation. The land and interest acquired by the United States are more particularly described in the attached deed.

The attached final title evidence, continued to a date subsequent to the recordation of the deed, and accompanying data shown on enclosed list, discloses valid title to be vested in the United

Matter of Hoopaa subject to existing easements for public utilities, the rights and easements noted in Schedule "B" of the attached title evidence and any reservation contained in the deed and purchase agreement, which will not interfere with the proposed use of the land.

I hereby certify that the legal description in the subject deed has been checked and is correct and applicable.

The Grantee has complied with the requirements of DOT Departmental Manual, Part 301, Chapter 8, Nondiscrimination in Federally Assisted Programs.

If you approve the title to the subject property, please sign in the space provided below and return this memorandum to this office.
