

1966  
THE CACTUS AND SUCCULENT JOURNAL

1966 YEARBOOK

# FAMILY ALBUM

*Edited by* CHARLES GLASS

---

It would be impossible to give credits to all those who have contributed to this Year Book, for the list would be as large as the indexes to some 300 Journals. We would, however, like to express our thanks to Mr. Robert Foster for checking the manuscript for us. This book is published by the Cactus and Succulent Journal; edited and designed by Charles Glass, Editor; and printed by Publication Press of Pasadena. All photographs used in this book have been used in the Cactus and Succulent Journal. This Year Book is designed to be strictly a picture book, arranged according to family—for your enjoyment, to assist in plant identification, and for reminiscing a bit over 37 years of great Journaling under the able hand of my predecessor, Editor Emeritus Scott E. Haselton.

December, 1966

It all began when he . . .

(Scott E. Haselton)

printed this . . .

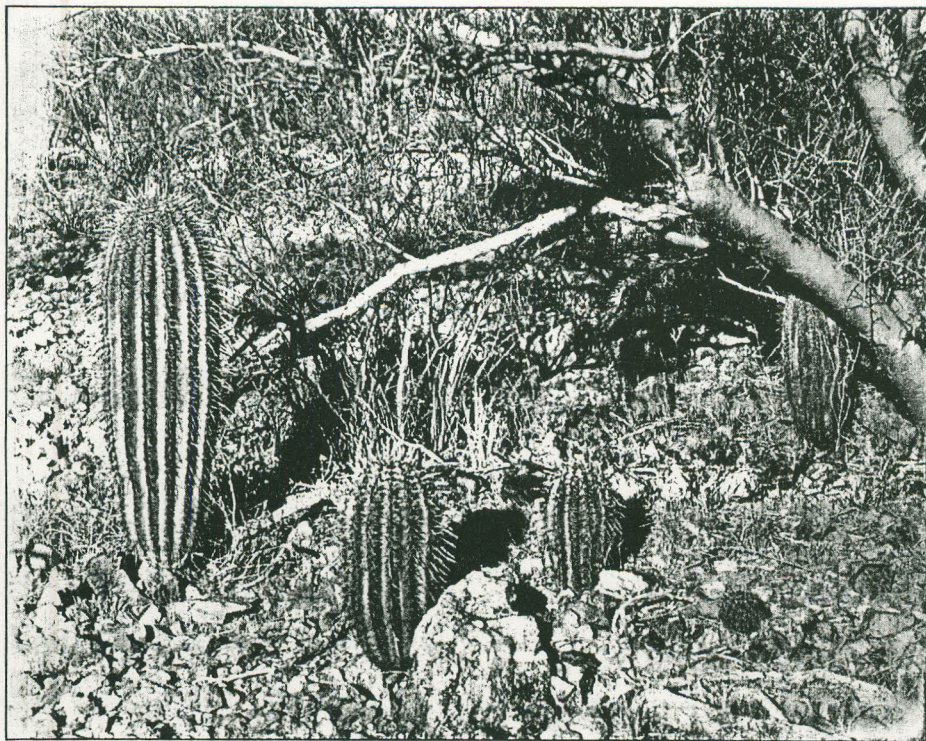

(the first Journal cover back in 1929)

and sold it to you

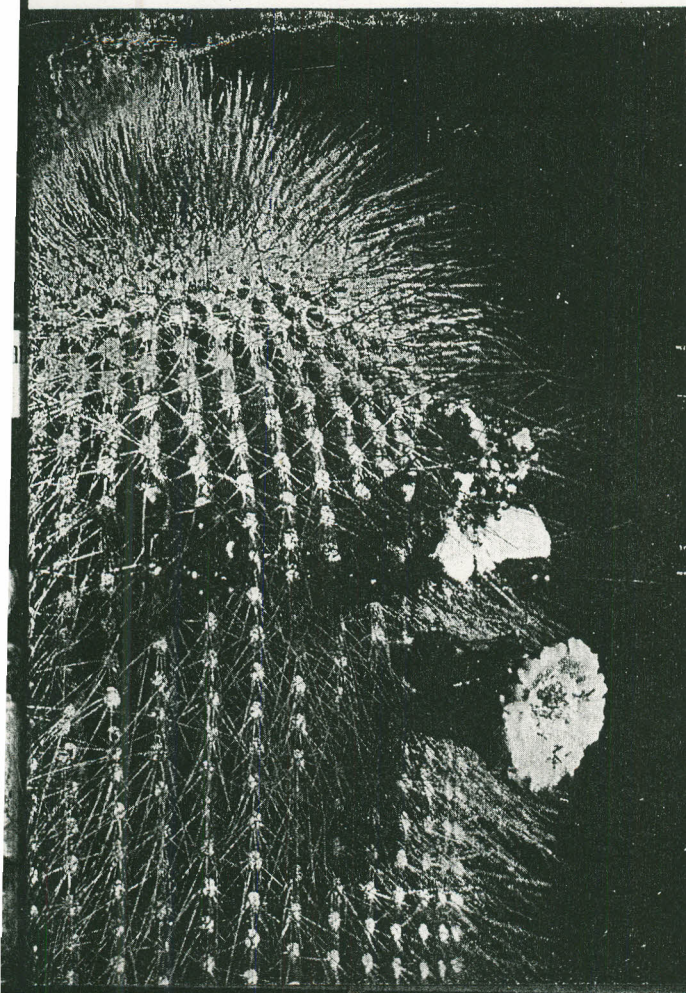

(the members of the Cactus & Succulent Society)

. . . and it's to him, and to it, and to you  
that this FAMILY ALBUM (the first Yearbook published by the  
Cactus & Succulent Journal) is dedicated

*Carnegiea gigantea*, "Saguaro"

*Neobuxbaumia polylopha*, "Aztec Column"

*Mitrocereus fulviceps* (syn. *Pachycereus chrysomallus*)
