EDMUND G. BROWN JR. GOVERNOR

MATTHEW RODRIQUEZ SECRETARY FOR ENVIRONMENTAL PROTECTION

State Water Resources Control Board

August 25, 2016

U S NATIONAL PARK SERVICE
1201 OAK RIDGE DR STE 250
FORT COLLINS, CO 80525

To Whom It May Concern:

Notice of Failure to File 2015 Water Use Report for License 7578

Water right holders are required to file annual reports of their water diversion and use to the State Water Resources Control Board (State Water Board) using the online Reporting and Management System. The reported diversion data is needed to more accurately analyze the State's water supply conditions to ensure protection of senior water right holders and other instream beneficial uses of water.

The 2015 report of water diversion and use was due no later than July 1, 2016, for all claimants under Statement of Water Diversion and Use and all permit and license holders. The State Water Board previously provided written notification of this requirement to each claimant and water right holder. As of August 23, 2016, we have not received a completed use report for the subject right or claim.

All diverters who fail to submit the required reports are subject to enforcement action, including imposition of an administrative civil liability. Statement holders who fail to file are subject to $1,000, plus $500 per day for each additional day after provided notice of the violation (Wat. Code §5107 (c) (1)). Permit and license holders who fail to file are subject to $500 for each day of violation. (Wat. Code § 1846)

To access the RMS system and report your water use, please visit the following webpage: *https://rms.waterboards.ca.gov/login.aspx.*

Your username and password for this License are:

In the interests of obtaining a high compliance rate for online use reporting, the Division of Water Rights (Division) has published a list of parties with deficient 2015 use reports as of August 23, 2016, to our webpage at
http://www.waterboards.ca.gov/waterrights/water_issues/programs/enforcement/docs/plftf2015_082316.pdf
http://www.waterboards.ca.gov/waterrights/water_issues/programs/enforcement/docs/plftf2015_082316.xlsx

Water right holders shown on the lists are currently subject to enforcement action. The State Water Board may use discretion in initiating enforcement, if the required online report is received within 30 days of this notice. Therefore, if your name or water right is shown on the list,

you should immediately file the required online report. You should also confirm that your reporting is complete for previous years at this time.

If you are no longer the owner of the water right or claim, please submit a change of ownership request at *http://www.waterboards.ca.gov/water_issues/programs/ewrims/ownership/index.php*.

If you were the owner of the water right or claim for any part of 2015, please note that you are required to file a use report, even if there was no use. Please file a use report for the months of ownership using the above login credentials.

If you have any questions on the reporting form, please visit our Help webpage at, *http://www.waterboards.ca.gov/waterrights/water_issues/programs/ewrims/help.shtml*. Phone inquiries should be made at (916) 341-5342. Please do not use other Division phone lines or contacts for such inquiries.

Also, stay informed about the new measurement requirements for your diversion available at: *http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/water_use.shtml*.

LICENSEE REPORTING FOR 2015

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A019538**
Password (Reporting Identifier): **552276**

IMPORTANT: PLEASE NOTE BELOW

Effective immediately the Division of Water Rights will **NO LONGER** notify you via mail in the future when reporting is due. If you would like to be notified when reporting is due and other reporting related material, please subscribe to our Lyris list (Water Rights Reporting Notification) at:

http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

You are required to complete the online report for 2015 no later than **June 30, 2016.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CHANGES FOR REPORTING AND MEASUREMENT OF DIVERSIONS MADE IN 2016, AND THEREAFTER

- See attached "Fact Sheet" for updates.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

You are required to complete the online report for 2014 no later than **June 30, 2015.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (California Department of Fish and Wildlife agreements, other agency approvals, etc.), graphs, and spreadsheets.

SPECIAL REPORTING FEATURES:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/publications_forms/forms/index.shtml.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

LICENSEE REPORTING FOR 2011

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to **www.waterboards.ca.gov/rms** and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A019538**
Password (Reporting Identifier): **552276**

You are required to complete the online report for 2011 no later than **June 30, 2012.** If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.

- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.

- Licensees can list all of their reservoirs associated with this license in their report.

- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to **www.waterboards.ca.gov/rms** and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A019538**
Password: **2W3T5Y**

You are required to complete the online report for 2010 no later than **July 1, 2011.** You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. **[ ] YES [ ] NO** During the period covered by this Report, were you implementing any water conservation efforts? If **YES**, please describe:

_____

8. If **YES** and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of water conserved. *Specify in acre-feet (AF) or million gallons (MG)*			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. **[ ] YES [ ] NO** During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If **YES** and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. *Specify in acre-feet (AF) or million gallons (MG)*			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. **[ ] YES [ ] NO** During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If **YES** and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.	2007	2008	2009

Dear Mr. Wright:

Enclosed are completed Reports of Licensee forms for water right licenses in Pinnacles National Monument and Death Valley National Monument.

As Denise Newberry of my staff discussed with you earlier this year, the National Park Service (NPS) is updating its files and the State's records of its water rights in California park units. The NPS requests orders correcting the purpose of use for the following water licenses, as indicated below:

License 4621 (Application A009510) Main Cow Creek - add wildlife preservation

License 10580 (Application A008423) Unnamed Spring - add wildlife preservation

License 6110 (Application A015381) Lower Emigrant - add wildlife preservation

License 7854 (Application A010119) Unnamed Source - add wildlife preservation

License 2430 (Application A005073) Lower Spring - add wildlife preservation, delete domestic

License 6559A (Application A013852A) Burns Creek - add wildlife preservation, delete domestic

If you have questions regarding these Reports of Licensee, please contact Denise at (303) 225-3525.

Sincerely,

Owen R. Williams

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer only those questions which are applicable to your project.

CONSERVATION OF WATER

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐; (2) Lining canals ☐; (3) Phreatophyte and aquatic vegetation control ☐; (4) Other (describe in "Remarks") ☐.

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable ☐; (2) Return flow systems on individual farms ☐; (3) Return flow system areawide ☐; (4) Water pricing to encourage reduced use ☐; (5) Charges for drainage of irrigated lands ☐; (6) Other (describe in "Remarks") ☐.

19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐; (2) Public education program on water conservation ☐; (3) Pricing to encourage reduced use ☐; (4) Assistance to industry in design of recycle systems ☐; (5) Other (describe in "Remarks") ☐.

20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐; (2) Water use for major crops by each farm ☐; (3) Other (describe in "Remarks") ☐.

WATER QUALITY AND WASTEWATER RECLAMATION

21. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters:

22. After use, the water is (1) retained in reservoir ☐; (2) discharged into a stream or lake ☐; (3) discharged into settling ponds ☐; (4) other ☐. Describe:

23. Does or will water being discharged contain waste materials? ☐ Yes ☐ No.
(1) Domestic ☐; (2) Municipal ☐; (3) Industrial ☐; (4) Agricultural ☐; (5) Other ☐. Describe:

24. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ Yes ☐ No. Describe:

25. Describe what steps you are taking, have been taking, or can take to reclaim or indirectly reuse the water appropriated:

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

License for Diversion and Use of Water

APPLICATION 19538 PERMIT 12743 LICENSE 7578

THIS IS TO CERTIFY, *That* United States Death Valley National Monument
Death Valley, California

has made proof as of March 23, 1965, *(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of* Mesquite Spring in Inyo County

tributary to an unnamed stream thence Death Valley Wash

for the purpose of irrigation, domestic, and wildlife propagation *under Permit* 12743 *of the State Water Rights Board and that said right to the use of said water has been perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the terms of the said permit; that the priority of the right herein confirmed dates from* July 13, 1960, *and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed* seven thousand two hundred (7200) gallons per day to be diverted from about March 1 to about November 1 of each year and throughout the remainder of the year as required for domestic and wildlife propagation purposes.

The point of diversion of such water is *located*:

North eighty-five degrees west (N85°W) one thousand three hundred (1300) feet from SE corner of Section 26, T11S, R42E, MDB&M, being within SE¼ of SE¼ of said Section 26.

A description of the lands or the place where such water is put to beneficial use is as follows:

Domestic, wildlife propagation and irrigation of 0.6 acre at Mesquite Spring Campground all within SE¼ of SE¼ of Section 26, T11S, R42E, MDB&M.

Licensee shall not construct or maintain fences or other works which may prevent access to water from the source hereunder by the public or wildlife.

This license is conditioned upon full compliance with Section 5937 of the Fish and Game Code.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

FORM 64

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

PERMIT No. 12710

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed

four hundredths (0.04) cubic foot per second to be diverted as follows: (a) from about March 1 to about November 1 of each year for irrigation purposes, and (b) throughout the year as required for domestic and wildlife propagation purposes.

2. The maximum amount herein stated may be reduced in the license if investigation so warrants.

~~Actual construction work shall begin on or before ... and thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.~~

3. ~~X~~ Said construction work shall be completed on or before December 1, 1963.

4. ~~X~~. Complete application of the water to the proposed use shall be made on or before December 1, 1964.

5. ~~X~~ Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

6. ~~X~~ All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

7. Permittee shall not construct or maintain fences or other works which may prevent access to water from the source hereunder by the public or wildlife.

8. This permit is conditioned upon full compliance of Section 5937 of the Fish and Game Code.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Dear Mr. Morris:

The fees accompanying your petitions requesting extensions of time within which to complete the subject water right projects will be returned to you under separate cover.

The extensions and fees will not be necessary if the Board acts favorably on the two requests for licenses obtained by our field engineer who visited the projects on March 23, 1965.

The request for license under Application 19482, Ranger Spring, is for the full amount and season sought under that filing and the request for license under Application 19538 is for the total flow of Mesquite Spring as measured on March 23, 1965. Copies of the requests are enclosed for your files.

If you should have questions on this matter, please feel free to contact us.

Subject: Applications 19482 and 19538

Gentlemen:

The above-numbered applications have been approved and in accordance with Chapter 254, Statutes of 1955, minimum fees of $5.00 for each permit will be required.

The water code requires that the fees must be received in this office within 30 days after service of notice of issuance of permits, personally or by registered mail. This letter is being sent by regular mail and is not intended as notice of issuance of permits within the purview of the water code, but is to informally advise you of the approvals in order to prevent the running of the 30-day period of time.

Kindly send such vouchers or other forms as may be appropriate and the permits will be forwarded upon receipt of the check for the necessary fees.

Gentlemen:

There are enclosed three copies of a notice of your application, two of which should be posted as indicated below and the third of which should be returned to this office with attached affidavit.

You are directed to post two copies of this notice on or before August 31, 1960, in at least two conspicuous places in the locality to be affected by the proposed appropriation. On or before September 26, 1960, you should file with this office proof of such posting. IT IS REQUIRED THAT PROOF OF POSTING SHALL CONSIST OF AN AFFIDAVIT EXECUTED ON THE ENCLOSED FORM ATTACHED TO A COPY OF THE NOTICE OF APPLICATION TO APPROPRIATE. In case of inability to post two copies of the notice or file proof of posting within the time allowed kindly advise this office immediately and copies of a new notice of a later date will be forwarded.

This notice is designed for the mutual protection of applicant and prior claimants. Although vested rights to the use of water from the source from which the appropriation is sought cannot be lost, prejudiced or impaired by failure to protest against the application, prior claimants are given this notice so that they may protest if it is felt the proposed appropriation will result in injury to them.

If protests are filed you will be furnished with copies thereof and you are required to file with this office and with the protestant a *brief* but *complete* answer to each protest. There is no prescribed legal form which such answer must take but anything which you may do toward placing this office in possession of all the facts relative to the objections raised to your application will expedite action thereon.

Very truly yours

Subject: Mesquite Spring in Inyo County

Dear Mr. Liles:

We regret we are unable to accept the enclosed water right application for filing in that it was not signed as required by the State Water Code.

Please sign and return the application to this office so that action toward issuance of permit may be taken upon the arrival of the $10 application fee. We have mailed the signed voucher to your San Francisco office.

Very truly yours,

L. K. Hill

Memorandum

To: Regional Director, Region Four

From: Chief, Water Resources Section

Subject: Water Right Application, Mesquite Spring, New Docket 28, Death Valley

The subject application has been received with copy of the memorandum of April 11 to the Superintendent from the Acting Regional Chief of Operations, which requests my comments before it is signed and filed.

In answer to question 12, it is suggested that the words "none known" be deleted and the words "see closing statement" inserted in lieu thereof. The closing statement on the third page is intended to permit assertion of Federal riparian or sovereign rights if the U.S. decides to do so later. It also appears from the cover memorandum that the U.S. has been making some use of the water, and we should not admit that the use has been made without some basis of right. It is realized that the State Water Rights Board presently recognizes riparian rights on patented land only, or on land entered with a view to ultimate patent. Nevertheless, we feel that we should continue to preserve our possible rights under the reserved land theory set forth in the Pelton Dam case.

It is satisfactory to start the application with the Superintendent as claimant for the United States, as now worded. However, you should be sure that the notice of application for appropriation, and the permit, indicate that the United States, and not Mr. Liles, is the claimant. I usually find that the State officials make fewer mistakes with the statement: I, the United States of America, by Granville B. Liles.

Memorandum

To: Superintendent, Death Valley National Monument

From: Acting Regional Chief of Operations, Region Four

Subject: Water Right Application, Mesquite Spring, Death Valley National Monument

Attached are an original and two carbon copies of an application with supporting map for the appropriation of the water of Mesquite Spring.

The application should be held until Mr. Dunn's concurrence is received. If satisfactory to you the original and one carbon copy may then be signed and mailed together with the attached purchase order and voucher to the State Water Rights Board. Your letter of transmittal to the State should ask that the voucher covering the filing fee be signed and returned directly to this office for payment.

The application was prepared to claim the full flow of the spring which Mr. Binnewies' memorandum of October 16 reported to be 18 gallons per minute. Making full use of this amount of water will require that the present diversion works and pipeline be enlarged and that additional area be planted and irrigated. We understand that you intend to undertake this work during the coming summer. Consequently, items 8 and 9 of the application were filled in to show a modest system fully complete and in use by November, 1961 (allowing another season for the establishment of planting).

Memorandum

To: Regional Director, Region Four

From: Superintendent, Death Valley

Subject: Water Rights, Mesquite Spring and Grapevine Ranger Station

Mr. Wosky's memorandum of September 17 suggests that it would be desirable to establish water rights at Mesquite Springs and Grapevine Ranger Station.

Recent reconstruction of both water systems has developed flows of 18 gpm at Mesquite and 20 gpm at the ranger station. The 20 gpm is more than enough water for domestic needs, including some irrigating, and in view of the fact that the station will be moved to a new location in a few years it is recommended that the water right application be for only 5-10 gpm. The full flow at Mesquite Springs will be used for campers and irrigating and it should be applied for.

Will you please prepare the applications following these suggestions.

Memorandum

To: Superintendent, Death Valley

From: Regional Chief of Operations, Region Four

Subject: Water Rights, Mesquite Spring and Grapevine Ranger Station, Death Valley

We received your memorandum of August 27, asking whether or not it would be desirable to file water right applications for the subject springs.

The uncertainty as to when additional development is to be accomplished at these two sites would make it difficult to keep alive filings for ultimate water needs. We understand that the Grapevine Ranger Station may be moved to an alternate location.

In the face of such uncertainty, we suggest that if we file at this time it be for only the small amount of water presently being used. Such filings could rapidly pass to licensing. Future increased water needs would, under this course of action require applications for supplemental rights.

We believe it desirable to establish rights and, if satisfactory to you, we will prepare applications following our above suggestion.

A search of our records failed to reveal any water rights for Mesquite Spring or the unnamed spring that furnishes water for Grapevine Ranger Station. Water from Mesquite Spring is used for the small campground development there.

see memo to Supt DEVA 9/17/59

There is no suggestion of any conflicting use, and none is likely to develop, but we would appreciate your advice as to whether or not it would be desirable to file water right applications for both of these springs.
