NARRATIVE:

In 1965 Myron E. Stam recieved permission to build a house on the Fulfillment #1 millsite in Death Valley National Monument and to develop Dripping Springs. Special Use Permit DEVA 9-65 was issued on July 22 1965, allowing the use of the spring as well as a pipeline to the millsite,, a distance of about a $\frac{1}{4}$ mile. The permit expired in 1970, though the actual use of the spring and site ended a few years before that time. The present use and status of the spring is unknown.

SPECIAL USE PERMIT CONTINUATION SHEET

AREA	PERMIT NO.	PAGE NO.
Death Valley National Monument	DEVA-9-65	3

16. It is understood and agreed that, in the event Monument lands are unnecessarily or unduly damaged due to operations under this permit the permittee shall restore such lands as nearly as practicable to their original condition.
17. The permittee agrees to hold the Federal Government free and harmless from an or all claims or damages resulting from operations authorized by this permit.

October 1964

CONTINUATION OF CONDITIONS OF THIS PERMIT
(Form 10-114)

United States Department of the Interior
National Park Service

The following provisions cancel and supersede Condition 4, Nondiscrimination (Executive Order No. 10557 of September 3, 1954). In accordance with Executive Order No. 10925 of March 6, 1961, as amended, Condition No. 4 now reads:

Nondiscrimination.

(a) Employment: If use of the land covered by the permit will involve the employment by the permittee of a person or persons, the permittee agrees to observe the following nondiscrimination provisions in connection with the use to which the lands covered by this permit may be devoted:

(1) The permittee will not discriminate against any employee or applicant for employment because of race, creed, color or national origin. The permittee will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, creed, color, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The permittee agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the officer issuing this permit setting forth the provisions of this nondiscrimination clause.

(2) The permittee will, in all solicitations or advertisements for employees placed by or on behalf of the permittee, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin.

(3) The permittee will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the issuing officer, advising the said labor union or workers' representative of the permittee's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The permittee will comply with all provisions of Executive Order No. 10925 of March 6, 1961, as amended, and of the rules, regulations, and relevant orders of the President's Committee on Equal Employment Opportunity created thereby.

(5) The permittee will furnish all information and reports required by Executive Order No. 10925 of March 6, 1961, as amended, by the rules, regulations, and orders of the said Committee, or pursuant thereto, and will permit access to his books, records and accounts by the issuing agency and the Committee for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the permittee's noncompliance with the nondiscrimination clauses of this permit or with any of the said rules, regulations, or orders, this permit may be cancelled, terminated, or suspended in whole or in part and the permittee may be declared ineligible for further Government permits in accordance with procedures authorized in Executive Order No. 10925 of March 6, 1961, as amended, and such other sanctions may be imposed and remedies invoked as provided in the said Executive Order or by rule, regulations, or order of the President's Committee on Equal Employment Opportunity, or as otherwise provided by law.

(7) The permittee will include the provisions of the foregoing paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the President's Committee on Equal Employment Opportunity issued pursuant to section 303 of Executive Order No. 10925 of March 6, 1961, as amended, so that such provisions will be binding upon each subcontractor or vendor. The permittee will take such action with respect to any subcontract or purchase order as the issuing agency may direct as a means of enforcing such provisions, including sanctions for noncompliance; PROVIDED, HOWEVER, that in the event the permittee becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the issuing agency, the permittee may request the United States to enter into such litigation to protect the interests of the United States.

(b) Facilities:

(1) Definitions: As used herein (i) permittee shall mean the permittee and his employees and agents; (ii) facility shall mean any and all services, facilities, privileges, and accommodations, or activities available to the general public and permitted by this agreement.

(2) The permittee is prohibited from (i) publicizing facilities operated hereunder in any manner that would directly or inferentially reflect upon or question the acceptability of any person because of race, creed, color, ancestry or national origin; (ii) discriminating by segregation or other means against any person because of race, creed, color, ancestry or national origin in furnishing or refusing to furnish such person the use of any such facility.

(3) The permittee shall post a notice in accordance with Federal regulations to inform the public of the provisions of this subsection, at such locations as will insure that the notice and its contents will be conspicuous to any person seeking accommodations, facilities, service or privileges. Such notice will be furnished the permittee by the Secretary.

SPECIAL CONDITIONS

1. This permit is granted subject to assignment to the United States of all rights to the use of waters of the designated source(s) by the permittee(s).
2. In the absence of recorded Federal water rights or those assigned herewith, the designated use of water is granted subject to the perfection of necessary Federal water rights in accordance with the applicable state water laws and provisions of this permit.
3. The United States reserves paramount rights, with subpriority No. 1 under the designated water right Application No. _____, to such quantities of the designated source(s) as may be needed by the transient general public, for fire protection and other incidental administrative, maintenance and operating purposes; it being understood that subpriorities for major permanent water development and use by the United States and permittee(s) shall be in the order initiated unless a special reservation for Federal use is made a part of this instrument.
4. The United States reserves the rights to authorize other miners and prospectors to use water when available, from the same source, and under the same Federal water right, or such junior Federal rights as may be necessary, and permittee(s) agree(s) to joint land use and equitable consolidation of water systems by the United States or other permittee(s) as may be necessary for the most efficient and beneficial diversion and use of the water, subject to equitable proration of the cost of the consolidated water system, and provided that no permittee(s) shall be liable for the enlargement or modification of his water system if said water system is already sufficient for his needs.
5. The permittee(s) may assign his subpriority of use of the water of one or more springs covered by a single water right, but such assignment shall not be binding until a copy is recorded with the County Recorder and filed with the Director, National Park Service, and such assignment is subject to the granting or amendment of Surface Use Permits to the grantor and assignee.
6. Water use will be authorized under established Federal rights or those assigned as herein provided, when practical, it being the objective to establish adequate, permanent Federal rights in compliance with the state water laws for any Federally authorized uses on the surface of the land in Death Valley National Monument.
7. All necessary future applications for the appropriation of water, and other instruments relating to the perfection of water rights in accordance with the state water laws, which are needed in connection with water use by the permittee(s), shall be prepared by the permittee(s), on behalf of the United States in accordance with instructions to be supplied by the Director, National Park Service, and submitted to the Superintendent with a check or money order for prescribed statutory fees made payable to the State Engineer, for execution and transmittal to the State Engineer by the authorized Federal official.
8. All posting, and other actions prescribed by the State Engineer shall be carried out by permittee(s) when and as directed by the Director, National Park Service; and permittee(s) shall supply check or money order made payable to proper recipient to cover prescribed state fees and advertising costs, provided that permittee(s) shall supply the Director, National Park Service, with 4 copies of a receipt if he or they, elect to pay in person by cash.
9. The permittee(s) shall use all possible diligence in the construction of the water system and perfection of rights, provided that the United States may assume, or participate in such responsibilities at the discretion of the Director, National Park Service, to protect other Federal or public interests.

10. The permittee(s) shall supply the Director, National Park Service with information on construction and its cost, and water use progress, during each preceding year if the rights are evidenced by permit or on the proper alternate years if rights are licensed during the first 2 weeks of September, and the Director, or his authorized representative, will file the annual or biennial reports required by the State Division of Water Resources, based on that information, with copy (copies) to the permittee(s).

11. The permittee(s) shall comply with the terms of Federal water rights as prescribed in copies of the applications, permits, licenses and other instruments to be supplied by the Director, National Park Service.

12. No withdrawal or cancellation of Federal water claims or rights shall be made except by the Director, National Park Service, or his authorized representative.

13. No portion of a water diversion and supply system which is essential to the preservation of a water right shall be removed without the prior approval of the Director, National Park Service, who shall be given 90 days notice of any intent to abandon the use of water and the right to arrange for Federal acquisition of permittee(s) interest in such structures at reasonable depreciated value within said 90 days.

14. Failure to use the water system herein authorized for more than one year shall constitute a forfeiture of the subpriority of water right granted; provided that if permittee(s) shall sustain his possessory right in the mining claim under the mining law, he may preserve his said subpriority by filing with the Superintendent prior to the end of each year of nonuse of a notice of intention to resume the use of said water system and the mining claim or millsite where the water is used.

15. The United States assumes no responsibility for the protection of the water system or other structures and equipment authorized pursuant to this permit. Furthermore, except for actionable damages resulting from the negligent or wrongful act or omission of an employee of the Government while acting within the scope of his office or employment, the United States shall not be liable for any damages to the permittee(s') water system or other structures or equipment.

16. No structures, dumps, or other surface uses shall be located where they will lead to possible pollution of sources of water, interfere with traffic on established highways, or interfere with the proper enjoyment of established administrative, residential and public campground areas.

17. Permittee(s) shall exercise this privilege subject to the supervision of the Superintendent and shall comply with the regulations of the Secretary of the Interior governing the administration of the Monument.

18. Use by the permittee(s) of the land surface covered hereby is subject to the right of the Director, National Park Service, to establish trails, roads, public campgrounds, and other improvements and betterments over upon or through said premises, and further to the use by travelers and others of such roads and trails as well as of those already existing.

19. All buildings or other structures shall be erected under this permit only at sites indicated in attached drawing, and the premises and all appurtenances thereto shall be kept in a safe, sanitary, and sightly condition.

20. Permittee(s) shall dispose of brush and other refuse as required by the Superintendent.

21. Permittee(s) shall pay the United States for any damage resulting from this use.

22. Permittee(s) and his (their) employees shall take all reasonable precautions to prevent forest fires and also shall assist the Superintendent to extinguish forest fires in the vicinity of any tract which may be used hereunder and in the preservation of good order within the metes and bounds of the area.

23. No timber may be cut or destroyed without first obtaining permit therefor from the Director, National Park Service, in writing.

24. Permittee(s) shall take adequate measures, as directed and approved by the Superintendent, to arrest and prevent soil erosion on the lands covered hereby and shall so utilize such lands as not to contribute to erosion on adjoining lands.

25. This permit may not be transferred or assigned without the consent of the Director, National Park Service in writing, but nothing herein shall deny the right of transfer or assignment, as appurtenances to the mining claim or millsite on approval of and proper recording with the Director National Park Service.

26. This permit may be terminated upon breach of any of the conditions herein, at the discretion of the Director of the National Park Service, on equitable reimbursement of the permittee(s) for his (their) investments, or modified as mutually agreed to by the permittee(s) and the Director, National Park Service.

27. The term "Director, National Park Service" as representative of the Secretary of the Interior, as used herein shall include the appropriate Regional Director, National Park Service, and Superintendent of Death Valley National Monument, as the representatives of the Director.

28. Neither members of, nor delegates to Congress, or resident commissioners, shall be admitted to any share or part of this permit or derive either directly or indirectly, any pecuniary benefit to arise therefrom: Provided, however, that nothing herein contained shall be construed to extend to any incorporated company, if the permit be for the general benefit of such corporation.

29. All uranium, thorium, and all other material determined pursuant to section 5(b)(1) of the Atomic Energy Act of 1946 (60 Stat. 761) to be peculiarly essential to the production of fissionable material contained in whatever concentration, in deposit in the lands covered by this permit are hereby reserved for the use of the United States, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby.
