On January 25, 1994, and pursuant to the California Desert Protection Act of 1994, the Mojave National Preserve was created, and Death Valley National Park and Joshua Tree National Park were expanded. This creation and expansion involved a transfer of management responsibility from the Bureau of Land Management to the National Park Service. As part of this process, the Bureau of Land Management and the National Park Service desire to change the owner of record of water rights associated with these lands.

Please accept this as a request by the National Park Service and the Bureau of Land Management to change the owner of record from the Bureau of Land Management to the National Park Service. This request for change of owner of record only applies to the water rights listed on the two attached pages. Any changes in the owner of record for Joshua Tree National Park will be addressed under a separate letter for Mojave National Preserve and Death Valley National Park.

Please provide to this office a written verification of the change of ownership of each right listed on the two attached pages.
