Information for SHPO/FPO/THPO
National Register Staff- May 2009

- **National Register Workshop - Wednesday, October 14th in Nashville, TN.** The Tennessee SHPO is hosting a free, one-day workshop for SHPO/THPO/FPO staff during the National Trust for Historic Preservation (NTHP) Conference. NPS NR staff will offer more in-depth training on developing historic contexts and evaluating/documenting landscape resources. This workshop is not affiliated with the NTHP Conference.

To help us better coordinate, let us know if you and/or other preservation staff will be able to attend this NR workshop. Please contact Jim Gabbert at (202) 354-2275 or James_Gabbert@nps.gov with any questions. We will be sending out additional Nashville NR workshop information within the next few months.

- **The National Register Nomination Form has a new expiration date!** Issued by the Office of Management and Budget (OMB), the new expiration date on NPS Forms 10-900, 10-900a, and 10-900b is: **5/31/2012**. Revised NPS NR forms are available in PDF and Word at:

<http://www.nps.gov/nr/publications/forms.htm>

The new Word NR form is slightly modified but still follows the basic directions from the NR Bulletin *How to Complete the National Register Registration Form* (formerly known as Bulletin 16A). Now, both Sections 7 and 8 provide space for summary paragraphs and the narrative description and statement of significance text spaces are continuous (with automatic page numbering), eliminating the need for continuation sheets.

Nominations that are in the "pipeline" will still be accepted by NPS with the old 1/31/2009 expiration date.

Any questions? Please contact Lisa Deline at 202-354-2239 or lisa_deline@nps.gov.
