Vascular Plants of Big Juniper Kipuka RNA

Vascular plant species observed by Steve Rust¹ on July 17 and 18, 1996 are combined with species listed for the site by Steve Caicco and Chuck Wellner in 1983². Nomenclature follow (for the most part) Intermountain Flora and (where necessary) Flora of the Pacific Northwest. Compiled by S. Rust, July 1996.

Agropyron spicatum
Allium acuminatum
Amelanchier utahensis
Antennaria dimorpha
Antennaria microphylla
Arabis holboellii
Aristida purpurea
Artemisia tridentata tridentata
Artemisia tridentata wyomingensis
Artemisia tripartita
Atriplex spinosa
Balsamorhiza sagittata
Bromus tectorum
Castilleja
Castilleja angustifolia
Castilleja applegatei
Castilleja chromosa
Chaenactis douglasii
Chamaebatiaria millifolium
Chrysothamnus nauseosus
Chrysothamnus viscidiflorus
Cirsium canovirens
Crepis
Crepis acuminata
Crepis spp.
Cryptantha spiculifera
Cryptantha spp.
Danthonia unispicata
Delphinium spp.
Elymus cinereus
Epilobium paniculatum
Epilobium spp.
Erigeron pumilus
Erigeron spp.
Eriogonum
Eriogonum caespitosum
Eriogonum douglasii
Eriogonum heracleoides
Eriogonum microthecum
Haplopappus nanus
Haplopappus spp.
Haplopappus suffruticosus
Holodiscus dumosus
Juniperus osteosperma
Koeleria cristata
Lactuca serriola
Lactuca spp.
Leptodactylon pungens
Lithospermum ruderales
